SECTION II - RISK FACTORS

An investment in the Equity Shares involves a high degree of risk. You should carefully consider all the information in this Draft Prospectus, including the risks and uncertainties summarised below, before making an investment in our Equity Shares. The risks described below are relevant to, the industries our Company is engaged in, our Company and our Equity Shares. To obtain a complete understanding of our Company, you should read this section in conjunction with “Our Business” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on page 69 and 129 respectively, of this Draft Prospectus as well as the other financial and statistical information contained in this Draft Prospectus. Prior to making an investment decision, prospective investors should carefully consider all of the information contained in ‘Financial Statements’ on page 101 of this Draft Prospectus. Unless stated otherwise, the financial data in this section is prepared in accordance with Indian GAAP, as restated.

If any one or more of the following risks as well as other risks and uncertainties discussed in this Draft Prospectus were to occur, our business, financial condition and results of our operation could suffer material adverse effects, and could cause the trading price of our Equity Shares and the value of investment in the Equity Shares to materially decline which could result in the loss of all or part of your investment.

This Draft Prospectus also contains forward looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of many factors, including the considerations described below and elsewhere in this Draft Prospectus.

These risks are not the only ones that our Company face. Our business operations could also be affected by additional factors that are not presently known to us or that we currently consider to be immaterial to our operations. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify financial or other implication of any risks mentioned herein.

Materiality

The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.

- 1. Some events may not be material individually but may be material when considered collectively.*
- 2. Some events may have an impact which is qualitative though not quantitative.*
- 3. Some events may not be material at present but may have a material impact in the future.*

INTERNAL RISKS

- 1. If we are unable to maintain and enhance our “Monteil” and “Monteil & Munero” brand, the sales of our products may suffer which would have a material adverse effect on our business operations.***

We believe that the brand image we have developed has significantly contributed to the success of our business. We also believe that maintaining and enhancing the “Monteil” and “Monteil & Munero” brand, are critical to maintaining and expanding our customer base. Maintaining and enhancing our brand may require us to make substantial investments in areas such as research and development, outlet operations, marketing and employee training, and these investments may not be successful. Our success will depend largely on our ability to maintain, anticipate, gauge and respond in a timely manner to changing fashion trends and consumer demands and preferences, and to continue to provide high quality products and services. This will attract our prospective consumers and develop faith for our brand. Further, our business is also dependent on the trust that our customers have in our brand and products. If our Company is unable to maintain the quality of its products, it could lead to a negative publicity of our brand name and image in the market. Such negative publicity of our brand name could adversely affect our profitability and business operations.

- 2. Revenue generated from our business is subject to seasonal variations with a significant portion of revenue generated primarily during the third quarter of each Fiscal year.***

Our business is seasonal in nature, with a significant portion of revenue generated primarily during the third quarter of each Fiscal year. We believe that the seasonality of our business is substantially dependent upon the seasonality in the sales of our winter products which primarily occurs in the third quarter of any particular fiscal year. As a result our revenue and profits may vary significantly during different financial periods and certain periods may not be indicative of our financial position for the year and may be significantly below the expectations of the market, analysts and investors.

3. We do not own certain premises used by our Company and disruption of our rights as lessee or termination of the agreements with our lessors would adversely impact our business.

As on the date of this Draft Prospectus, our Registered office and our stores/outlets have been taken by us on lease basis from various lessors and out of which one of the store/outlet located at Shop no. 104 (Ground floor), Plot No. I-2, Sector 25A, Noida has been taken on lease from M/s Sai Investment Consultant Pvt. Ltd. for a period of 90 years with effect from July 16, 2002. There can be no assurance that our Company will be able to successfully renew the said lease or franchisee agreements in a timely manner or at all. Further there can be no assurance that we will not face any disruption of our rights as a lessee and that such lease and franchisee agreements will not be terminated prematurely by the lessor. Any such non-renewal or early termination or any disruption of our rights as lessee will adversely affect our business operations.

4. Our Company, Promoters and Directors are involved in certain legal proceedings, any adverse developments related to which could materially and adversely affect our business, financial condition and reputation.

Our Company, Promoters and Directors are involved in certain legal proceedings. A classification of these legal and other proceedings are given in the following table:

I. Litigation involving the Company

(Rs. in lakhs)			
S. No.	Nature of litigation	Number of cases	Approximate amount involved
Against the Company			
1.	Civil	1	12.24
2.	Income Tax	3	2.27

II. Litigation against our Promoters

(Rs. in lakhs)			
S. No.	Nature of litigation	Number of cases	Approximate amount involved
1.	Tax proceedings	3	4.30

III. Litigation against the Directors

(Rs. in lakhs)			
S. No.	Nature of litigation	Number of cases	Approximate amount involved
1.	Tax proceedings	3	0.69

The amounts claimed in these proceedings have been disclosed to the extent ascertainable and include amounts claimed jointly and severally. We can give no assurance that these legal proceedings will be decided in Company's/promoter's/Director's favour. We may incur significant expenses and management time in such legal proceedings. If any adverse developments arise, for example, a change in Indian law or rulings against us by the appellate courts or tribunals, we may face losses and may have to make provisions in our financial statements, which could increase our expenses and our liabilities. Any adverse decision may render us / promoter liable to liabilities / penalties and may have a material adverse effect on our reputation, business, financial condition and results of operations, which could adversely affect the trading price of our Equity Shares.

For further details regarding these legal proceedings, please refer "Outstanding Litigations and Material Developments" on page 136 of this Draft Prospectus.

5. We may not be able to successfully execute our expansion strategy of strengthening our sales network by opening new outlets, in a timely manner, if at all, which could harm our results of operations.

We distribute our portfolio of products through "Monteil" and "Monteil & Munero" brand outlets. While we intend to continue our expansion in north India, by opening additional "Monteil" and "Monteil & Munero" brand outlets. As on August 30, 2017, there were 18 "Monteil" and "Monteil & Munero" Brand Outlets in National Capital Territory of Delhi. However, we have not identified any specific locations or entered into discussion with franchise partners for new "Monteil" and "Monteil & Munero" Brand Outlets and our ability to effectively execute our expansion strategy depends on our ability and that of our franchisees to open new "Monteil" and "Monteil & Munero" Brand Outlets successfully.

If we are unable to successfully execute our expansion strategy by way of opening and operating additional

“Monteil” and “Monteil & Munero” Brand Outlets, our business, results of operations and financial condition may be materially and adversely affected.

6. Our ability to attract customers to our “Monteil” and “Monteil & Munero” Brand Outlets depends heavily on successfully locating our outlets in suitable locations and providing a distinctive in-store experience and any impairment of an outlet location, including any decrease in customer traffic, could cause our sales to be less than estimated and have a material adverse effect on our results of operations.

The success of any exclusive brand outlet depends substantially on its location and our ability to provide a distinctive in-store experience. Sales at such exclusive brand outlets are derived, in part, from the volume of foot traffic in these locations. Outlet locations may become unsuitable due to, and our sales volume and customer traffic generally may be harmed by, among other things:-(i) economic slowdown in a particular area or city/region, (ii) competition from nearby retailers apparel, (iii) changing consumer demographics in a particular market; (iv) changing lifestyle choices of consumers in a particular market.

Changes in areas around our outlet locations that result in reductions in customer foot traffic or otherwise render the locations unsuitable could cause our sales to be less than estimated. Our ability to effectively obtain suitable commercial property to relocate existing outlets or open new outlets depends on the availability of commercial property that meets our criteria for customer traffic, square footage, lease economics, demographics and other factors, including our ability to negotiate terms that meet our financial targets. Failure to secure adequate new locations or failure in providing a unique in-store experience could have a material adverse effect on our results of operations. In addition, rising real estate prices may restrict our ability to lease new desirable locations or our ability to find franchisees willing to operate in desirable yet more expensive locations. If we cannot obtain desirable locations at reasonable prices our ability to effect our growth strategy will be adversely affected.

7. We operate in a highly competitive environment and may not be able to maintain our market position, which may adversely impact our business, results of operations and financial condition.

The apparel industry in particular, is highly and increasingly competitive and our results of operations and financial condition are sensitive to, and may be materially adversely affected by, competitive pricing and other factors. Competition may result in pricing pressures, reduced profit margins or lost market share or a failure to grow our market share, any of which could substantially harm our business and results of operations.

We compete directly against direct retailers of apparel, diversified apparel companies with substantial market share, established companies selling internationally renowned brands, as well as against domestic retailers and regional competitors. Many of our competitors are large apparel companies with strong brand recognition. However, the domestic apparel segment is fragmented and continues to be dominated by unorganised and regional suppliers. We compete primarily on the basis of brand image, style, performance and quality. We believe that in order to compete effectively, we must continue to maintain our brand image and reputation, be flexible and innovative in responding to rapidly changing market demands and consumer preferences, and offer consumers a wide variety of high quality apparel at competitive prices.

Many of our competitors, specifically the international brands, have significant competitive advantages, including longer operating histories, larger and broader customer bases, more established relationships with a broader set of suppliers, greater brand recognition and greater financial, research and development, marketing, distribution and other resources than we do. Our competitors also may be able to respond more quickly and effectively than we can to new or changing opportunities, standards or consumer preferences, which could result in a decline in our revenues and market share. There can be no assurance that we can effectively compete with our competitors in the future, and any such failure to compete effectively may have a material adverse effect on our business, financial condition and results of operations.

8. We also rely on third parties for our sales and distribution operations, and if such third parties fail to assist us in a consistent, timely and efficient manner, our business, results of operations and financial condition may be adversely affected.

Our sales operations also depend upon our network of third parties acting as franchisees who operate our “Monteil” and “Monteil & Munero” brand outlets. As of August 30, 2017, we operate twelve “Monteil” and “Monteil & Munero” outlet and our franchisees operate an additional six. We cannot assure you that such franchisees or we will be able to establish or maintain adequate sales capabilities, or will be successful in ensuring sale of our products.

Further, although we enter into franchise agreements with such franchisees, we cannot assure you that such franchisees will be able to fulfil their obligations under such agreements entirely, in a manner acceptable to us, or at all. Franchisees, as independent business operators, may, from time to time, disagree with us and our strategies regarding the business or our interpretation of our respective rights and obligations under applicable franchise agreements. We cannot assure you that such franchisees shall not breach certain terms of such agreements, or shall not choose to terminate their agreements with our Company. We may have to initiate litigation in respect of any breach by such franchisees, and such litigation could divert the attention of our management from our operations, which could harm our business, financial condition and results of operation. We further cannot assure you that the outcome of any such litigation will be favourable to us.

9. *We rely on third party suppliers to provide our raw materials and to manufacture a significant part of our products, and we have limited control over them and may not be able to obtain quality products on a timely basis or in sufficient quantity which may have a material adverse effect on our results of operations.*

Other than ladies tops and men, we outsource a significant part of our products to third party manufacturers. Further, we also source all of our raw materials from third-party suppliers. If we experience significant increased demand, or need to replace an existing manufacturer, there can be no assurance that additional supplies of raw materials or additional manufacturing capacity will be available when required on terms that are acceptable to us, or at all, or that any supplier or manufacturer would allocate sufficient capacity to us in order to meet our requirements or fill our orders in a timely manner. Even if we are able to expand existing or find new manufacturing or raw material sources, we may encounter delays in production and added costs as a result of the time it takes to train our suppliers and manufacturers in our methods, products and quality control standards. Delays related to supplier changes could also arise due to an increase in shipping times if new suppliers are located farther away from our markets or from other participants in our supply chain. Any delays, interruption or increased costs in the supply of raw materials or manufacture of our products could have an adverse effect on our ability to meet customer demand for our products and result in lower revenue from operations both in the short and long term. In addition, there can be no assurance that our suppliers and manufacturers will continue to provide yarn, fabrics and other raw materials or manufacture products that are consistent with our standards.

10. *Our results of operations may be materially adversely affected by our failure to anticipate and respond to changes in fashion trends and consumer preferences in a timely manner.*

Our results of operations depend upon the continued demand by consumers for our products. We operate in an industry that is highly competitive and where customers' purchases are highly subjective and sensitive to trends and fashion tastes. Creativity and being abreast with the latest fashion trends is one of the key attributes for success in this industry. For our Company to remain competitive in respect of appealing designs, our designers have to keep themselves abreast with the latest global trends, and fashion demands and more importantly understand the requirements of the customers. If we are unable to anticipate consumer preferences or industry changes, or if we are unable to modify our products on a timely basis, we may lose customers to our competitors, or may be forced to reduce our sales realization on products by having to offer them at a discount, thereby reducing our margins.

11. *Our Company has not taken factory license, shops and establishment.*

As on the date of this Draft Prospectus, our Company do not have factory license and shop and establishment. The lack of our ability to obtain factory license may lead to no function business loss

12. *Our limited operating experience, limited brand recognition in new markets may limit our expansion strategy and cause our business and growth to suffer.*

We seek to increase our presence in eastern, southern and western India as a part of our endeavour to increase the market penetration of our products and brand across India. Further, we have a limited number of customers in these markets and we may face risks in relation to delayed acceptance of our products due to limited brand recognition., We may also face risks in expanding our operations in geographic areas in which we do not possess the same level of familiarity with the economy, consumer preference, commercial operations and distribution network and with product offerings that we have limited operating experience of. In addition, our competitors in such geographic areas may already have established operations in such geographic areas and particularly in the cotton and cotton blended apparels market, and we may find it difficult to attract customers in such geographic areas. Our expansion plans could be delayed or abandoned, could cost more than anticipated and could divert resources from other areas of our business or divert management's attention from other aspects of our business and place a strain on our management, operational and financial resources, as well as our information systems, any of which could impact our competitive position and reduce our revenue and profitability.

13. *We do not generally enter into agreements with our suppliers or manufacturers and accordingly may face disruptions in supply from our current suppliers or manufacturers.*

We generally do not enter into agreements with our suppliers for purchase of raw material, or with any of our third party manufacturers, and typically transact business on an order-by-order basis. There can be no assurance that there will not be a significant disruption in the supply of raw materials or finished products from current sources or, in the event of a disruption, that we would be able to locate alternative suppliers of materials or third party manufacturers of comparable quality at an acceptable price, or at all. Identifying a suitable supplier or a third party manufacturer is an involved process that requires us to become satisfied with their quality control, responsiveness and service, financial stability and labor and other ethical practices.

Further, we cannot assure you that our third party manufacturers will continue to be associated with us on reasonable terms, or at all. Since such third party manufacturers are not contractually bound to deal with us exclusively, we may face the risk of our competitors offering better terms to such third party manufacturers, which may cause them to cater to our competitors alongside, or even instead of us. Any interruptions to the manufacturing operations of the third party manufacturers due to strikes, lock outs, work stoppages or other forms of labour unrest, break down or failure of equipment, floods and other natural disaster as well as accidents could affect our ability to receive an adequate supply of quality products at reasonable prices.

Any delays, interruption or increased costs in the supply of fabric or manufacture of our products arising from a lack of long-term contracts could have an adverse effect on our ability to meet customer demand for our products and result in lower revenue from operations both in the short and long term.

14. *We rely on third-party transportation providers for substantially all of our product distribution and failure by any of our transportation providers to deliver our products on time or at all could result in lost sales.*

We currently rely upon third-party transportation providers for substantially all of our product distribution. Our utilization of delivery services for shipments is subject to risks, including increases in fuel prices, which would increase our delivery costs, and employee strikes and inclement weather, which may impact the ability of providers to provide delivery services that adequately meet our transportation needs. In addition, raw materials and products may be lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. There may also be delay in delivery of raw materials and products which may also affect our business and our results of operation negatively. A failure to maintain a continuous supply of raw materials or to deliver our products to our customers in an efficient and reliable manner could have a material and adverse effect on our business, financial condition and results of operations.

15. *Continued operations of our manufacturing facilities are critical to our apparel business and any disruption in the operation of our facilities may have a material adverse effect on our business, results of operations and financial condition.*

We operate our manufacturing facility in National capital territory of Delhi. Our manufacturing facility are subject to operating risks, such as break-down, obsolescence or failure of machinery, disruption in power supply or processes, performance below expected levels of efficiency, labour disputes, natural disasters, industrial accidents and statutory and regulatory restrictions. Our machines have limited lives and require daily cleaning as well as annual over hauling maintenance. Further, in the past we have primarily imported our machinery from outside India. The service and repair centres for such imported machinery may not be available in India. In the event of a breakdown or failure of such machinery, replacement parts may not be available in India and such machinery may have to be sent for repairs or servicing to the country from where it was procured. This may lead to delay and disruption in our production process that could have an adverse impact on our sales, results of operations, business growth and prospects. In the event that we are forced to shut down our manufacturing facility for a significant period of time, it would have a material adverse effect on our earnings, our other results of operations and our financial condition as a whole.

16. Our operations and revenue are currently concentrated in the northern regions of India and the inability to retain and grow our business in these regions and also growth in other regions of India may have an adverse effect on our business and prospect.

Our present operations and revenues are, currently, concentrated in the northern regions of India. Further, our manufacturing facility and all our stores are also located in northern India. While our strategic objectives include geographical expansion across India, including in the eastern, southern and western regions of India, in the event of a significant drop in our sales from the northern regions of India or the emergence of a strong pan-India apparels provider (or an aggregation of several strong regional players) competing in the segments in which we operate, our business, financial condition, results of operations and prospects may be adversely affected.

17. Our Company may not be able to sell its inventory through their stores and such inventory may be subject to mark downs which may impact our results of operations and financial conditions.

Since our products are based on seasons, our Company faces the risk of not being able to sell its inventory through their stores and such unsold inventory may be subject to mark downs and inventory being sold by our Company at heavily discounted rates. Further we may offer discounts at the end of a season and run stock clearance sales. In case we sell any of our products at a lower price than the rates normally charged, it may impact our results of operations and financial conditions

18. We are subject to risks associated with rejection of our products consequential to defects, which could generate adverse publicity or adversely affect our business, results of operations or financial condition.

Defects, if any, in our products could lead to rejection of sold products and consequential replacement liability. In the event our Company fails to replace the defective products in a timely manner or at all, the same could consequently lead to a negative publicity of our brand thereby affecting our brand value, our business, results of operations or financial condition.

We cannot assure you that no such claims will be brought against us in the future or that such claims will be settled in our favour. Any such successful claims against us could adversely affect our results of operations. Management resources could also be diverted away from our business towards defending such claims.

19. If we are unable to service our debt obligations in a timely manner or to comply with various financial and other covenants and other terms and conditions of our financing agreements, it may adversely affect our business, prospects, results of operations and financial condition.

Our total debt obligations payable on account of term loan, vehicle loans and cash credit facilities availed by our Company from Banks/NBFC as on July 31, 2017 is Rs. 94.37 Lakhs. The said loans/cash credit facilities has been secured, inter-alia, by way of equitable mortgage of properties (land & building), pledge of fixed deposit, hypothecation of vehicles along with accumulated interest, additional collateral security in form of recurring deposit and personal guarantee of third parties.. Some of these agreements contain restrictive covenants relating to issuance of new shares, changes in capital structure, making material changes to constitutional documents, implementing any expansion scheme, incurring further indebtedness, encumbrances on or disposal of assets, paying dividends and making investments over certain thresholds. There can be no assurance that we will be able to comply with these restrictive covenants, or that we will be able to obtain the consents necessary to proceed with the actions which we believe are necessary to operate and grow our business, which may in turn have a material adverse effect on our business and operations. Any failure to pay our dues in time or comply with any requirement or other condition or covenant under our loan agreements, may lead to a termination of our agreements, and may adversely affect our business, prospects, results of operations and financial condition.

For further information on the indebtedness of our Company, please refer the Section “**Financial Indebtedness**” on page 127 of this Draft Prospectus.

20. Our business depends on protection of our intellectual property in our product range. Our ability to compete effectively will be impaired if we are unable to protect our intellectual property rights.

We believe our success depends in large part on our brand image. As on the date of this Draft Prospectus, Sandeep Jain and Deepika Jain, our promoter, own the rights over certain trademarks including “*Monteil & Munero*”, “*Invern*” etc. Additionally, we have in our name registered the trademarks including “*Monteil*” and “*Calgari*”. For further information, see “**Government and Other Approvals**” on page 140.

We are exposed to the risk that other entities may pass off their products as ours by imitating our brand name, packaging material and attempting to create counterfeit products. We believe that there may be other companies or vendors which operate in the unorganized segment using our trade name or brand names. The measures we take to protect our intellectual property include relying on Indian laws and initiating legal proceedings, which may not be adequate to prevent unauthorised use of our intellectual property by third parties. Furthermore, the application of laws governing intellectual property rights in India is uncertain and evolving, and could involve substantial risks to us. Notwithstanding the precautions we take to protect our intellectual property rights, it is possible that third parties may copy or otherwise infringe on our rights, which may have an adverse effect on our business, results of operations, cash flows and financial condition.

21. The Promoters and Promoter Group will continue to exercise control post completion of the Issue and will have considerable influence over the outcome of matters.

Upon completion of this Issue, our Promoters and Promoter Group will continue to own a majority of our Equity Shares. As a result, our Promoters will have the ability to exercise significant influence over all matters requiring shareholders' approval. Our Promoters will also be in a position to influence any shareholder action or approval requiring a majority vote, except where they may be required by applicable law to abstain from voting. This control could also delay, defer or prevent a change in control of our Company, impede a merger, consolidation, takeover or other business combination involving our Company, or discourage a potential acquirer from obtaining control of our Company even if it is in the best interests of our Company. The interests of our Promoters could conflict with the interests of our other equity shareholders, and the Promoters could make decisions that materially and adversely affect your investment in the Equity Shares.

22. We have not made any dividend payments in the past and our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements, capital expenditures and restrictive covenants in our financing arrangements.

In the past, we have not made dividend payments to the shareholders of our Company. The amount of our future dividend payments, if any, will depend upon various factors including our future earnings, financial condition, cash flows and requirement to fund operations and expansion of the business. There can be no assurance that we will be able to declare dividends. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors. For further details, please refer "Dividend Policy" on page 100 of this Draft Prospectus.

23. We have issued Equity Shares during the last one year at a price that may be below the Issue Price.

During the last one year we have issued Equity Shares at a price that is lower than the Issue Price as detailed in the following table:

Date of allotment	Number of Equity Shares allotted	Face value(Rs.)	Issue Price(Rs.)	Nature of Consideration	Nature of allotment
22/02/2017	4,40,000	10	Nil	Other than Cash	Bonus in the ratio of 44 Equity Shares for every 1 Equity Share
16/06/2017	6,84,855	10	Nil	Other than Cash	Bonus in the ratio of 3 Equity Shares for every 10 Equity Share

For details of the Allottees, please refer "Capital Structure" on page 42 of this Draft Prospectus.

24. Our business relies on the performance of our information technology systems and any failure to install, run or migrate to new software or systems, may have an adverse effect on our information security and our operations and profitability.

We use information technology systems to monitor all aspects of our business and rely significantly on such systems for the efficient operations and the security of our information. Our business uses the information technology systems for, among other things, the monitoring of inventory levels, the allocation of merchandise to our outlets, employee productivity measuring and budget planning and information security. Our information technology systems may not always operate without interruption and may encounter temporary abnormality or become obsolete. Further, we cannot assure you that the level of security we presently maintain is adequate or that our systems can withstand intrusions

from or prevent improper usage by third parties. We may not always be successful in installing, running and migrating to new software or systems as required for the development of our business. Even if we are successful in this regard, significant capital expenditure may be required, and we may not be able to benefit from the investment immediately. All of these may have a material adverse impact on our operations and profitability.

25. *Our inability to procure and/or maintain adequate insurance cover in connection with our business may adversely affect our operations and profitability.*

Our operations are subject to inherent risks and hazards which may adversely impact our profitability, such as breakdown, malfunctions, sub-standard performance or failures of manufacturing equipment, fire, riots, third party liability claims, loss-in-transit for our products, accidents and natural disasters. At present our insurance policies provide for coverage against risk including loss of money, burglary, fire, damage, cargo, etc. however, there can be no assurance that any claim under the insurance policies maintained by us will be honoured fully, in part or on time. There can be no assurance that our insurance policies will be adequate to cover the losses in respect of which the insurance had been availed. If we suffer a significant uninsured loss or if insurance claim in respect of the subject-matter of insurance is not accepted or any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and results of operations may be materially and adversely affected. For further details please refer to the section titled “*Our Business*” on page 69 of this Draft Prospectus.

26. *Some of our lease agreements may have certain irregularities which may have a material adverse impact on our business.*

Some of our lease agreements have certain irregularities such as inadequate stamping and/or non registration of deeds and agreements and improper execution of lease deeds. The effect of inadequate stamping and non registration is that the document is not admissible as evidence in legal proceedings, and parties to that agreement may not be able to legally enforce the same, except after paying a penalty for inadequate stamping and non registration. In the event of any dispute arising out of such unstamped or inadequately stamped and/or unregistered lease agreements, we may not be able to effectively enforce our leasehold rights arising out of such agreements which may have a material adverse impact on our business.

27. *We require a number of approvals, licenses, registration and permits for our business and failure to obtain or renew them in a timely manner may adversely affect our operations.*

We may require several statutory and regulatory permits, licenses and approvals in the ordinary course of our business, some of which our Company has either received, applied for or is in the process of application. Many of these approvals are granted for fixed periods of time and need renewal from time to time. There can be no assurance that the relevant authorities will issue any of such permits or approvals in the timeframe anticipated by us or at all. Any failure by us to apply in time, to renew, maintain or obtain the required permits, licenses or approvals, or the cancellation, suspension, delay in issuance or revocation of any of the permits, licenses or approvals may result in the interruption of our operations and may have a material adverse effect on the business. For further details, please see chapters titled “*Key Industry Regulations and Policies in India*” and “*Government and Other Approvals*” at pages 74 and 140 respectively of this Draft Prospectus.

28. *Information relating to the historical capacity of our production facilities included in this Draft Prospectus is based on various assumptions and estimates and future production and capacity may vary.*

Information relating to the historical capacity of our production facilities included in this Draft Prospectus is based on various assumptions including those relating to availability of raw materials and operational efficiencies. Actual production levels and rates may differ significantly from the production capacities. Undue reliance should therefore not be placed on our historical capacity information for our existing facilities included in this Draft Prospectus.

29. *Our success largely depends upon the knowledge and experience of our Promoters and our Key Managerial Personnel. Any loss of our key managerial personnel or our ability to attract and retain them could adversely affect our business, operations and financial condition.*

Our Company depends on the management skills and guidance of our Promoters for development of business strategies, monitoring its successful implementation and meeting future challenges. Further, we also significantly depend on the expertise, experience and continued efforts of our key managerial personnel. Our future performance will depend largely on our ability to retain the continued service of our management team. If one or more of our key managerial personnel are unable or unwilling to continue in his/ her present position, it could be difficult for us to find a suitable or timely replacement and our business could be adversely affected. There is significant competition for

management and other skilled personnel in the branded apparel industry in which we operate, and it may be difficult to attract and retain the personnel we require in the future. There can be no assurance that our competitors and other apparel brands will not offer better compensation packages and incentives to such key managerial personnel. Further, as on the date of this Draft Prospectus, our Company does not have key man insurance policies and in the event we are not able to attract and retain talented employees, as required for conducting our business, or we experience high attrition levels which are largely out of our control, or if we are unable to motivate and retain existing employees, our business, financial condition and operations may be adversely affected. For further details on our key managerial personnel, please refer to the chapter titled “*Our Management*” on page 83 of this Draft Prospectus.

30. *Our Company has unsecured loans, which are repayable on demand. Any demand from lenders for repayment of such unsecured loans, may adversely affect our business operations and financial condition of our Company.*

As on July 31, 2017, our Company has unsecured loans aggregating to Rs. 55.87 Lakhs. For further details of these unsecured loans, please refer to chapter titled “*Financial Statements*” beginning on page 101 of this Draft Prospectus. In case of any demand from lenders for repayment of such unsecured loans, the resultant cash outgo, may adversely affect our business operations and financial position of our Company.

31. *Inability to manage losses due to fraud, employee negligence, theft or similar incidents may have an adverse impact on us.*

Our business and the industry we operate in are vulnerable to the problem of shoplifting by customers, pilferage by employee, damage, obsolescence and error in documents and transactions that go unnoticed. An increase in product shrinkage levels at our existing and future retail stores or our franchisee centres may force us to install additional security and surveillance equipment, which will increase our operational costs and may have an adverse impact on our profitability. Further, we cannot assure you whether these measures will successfully prevent such losses. Furthermore, there are inherent risks in cash management including, theft and robbery, employee fraud and the risks involved in transferring cash from our retail stores to banks.

Additionally, in case of losses due to theft, fire, breakage or damage caused by other casualties, there can be no assurance that we will be able to recover from our insurer the full amount of any such loss in a timely manner, or at all. In addition, if we file claims under an insurance policy it could lead to increases in the insurance premiums payable by us or the termination of coverage under the relevant policy.

32. *Our Company had negative cash flow in recent fiscals, details of which are given below. Sustained negative cash flow could adversely impact our business, financial condition and results of operations.*

The detailed break up of cash flows is summarized in below mentioned table and our Company has reported negative cash flow in certain financial years and which could affect our business and growth:

(Rs. in lakhs)

Particulars	As at July 31, 2017	For the Financial Year ended March 31		
		2017	2016	2015
Net Cash Flow from/(used in) Operating Activities	(160.18)	(523.67)	118.67	64.51
Net Cash Flow from/(used in) Investing Activities	(24.29)	31.15	(63.08)	(137.09)
Net Cash Flow from/(used in) Financing Activities	174.08	451.90	(51.43)	100.13

For further details, see “*Financial Statements*” on page 101 of this Draft Prospectus. We cannot assure you that our net cash flows will be positive in the future.

33. *We have in the past entered into related party transactions and may continue to do so in the future, which may potentially involve conflicts of interest with the equity shareholders.*

We have entered into related party transactions with our Promoters, Promoter Group, Group Entities and Directors. While we believe that all such transactions have been conducted on the arm’s length basis, however it is difficult to ascertain whether more favorable terms would have been achieved had such transactions been entered with unrelated parties. Furthermore, it is likely that we may enter into related party transactions in the future. For details of these transactions, please refer to section titled “*Related Party Transactions*” at page 99 of this Draft Prospectus.

34. *The requirement of funds in relation to the objects of the Issue has not been appraised.*

We intend to use the proceeds of the Issue for the purposes described in the section titled “*Objects of the Issue*” on page 54. The objects of the Issue have not been appraised by any bank or financial institution. These are based on management estimates and current conditions and are subject to changes in external circumstances or costs, or in other financial condition, business or strategy. Based on the competitive nature of the industry, we may have to revise our management estimates from time to time and consequently our funding requirements may also change. The deployment of the funds towards the objects of the issue is entirely at the discretion of the Board of Directors/Management and is not subject to monitoring by external independent agency. However, the deployment of funds is subject to monitoring by our Audit Committee. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financials.

35. *We have not made any alternate arrangements for meeting our capital requirements for the Objects of the Issue. Further we have not identified any alternate source of financing the “Objects of the Issue”. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.*

As on date, we have not made any alternate arrangements for meeting our capital requirements for the Objects of the Issue. We meet our capital requirements through our owned funds and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in future would be unable to meet our capital requirements, which in turn will negatively affect our financial condition and results of operations. Further we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this Issue or any shortfall in the Issue Proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details please refer “*Objects of the Issue*” on page 54 of this Draft Prospectus.

36. *Delay in raising funds from the IPO could adversely impact the implementation schedule.*

The proposed objects, as detailed in the section titled “*Objects of the Issue*” are to be largely funded from the proceeds of the issue. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule. We therefore, cannot assure that we would be able to execute the expansion process within the given timeframe, or within the costs as originally estimated by us. Any time overrun or cost overrun may adversely affect our growth plans and profitability.

37. *Our Promoters and certain of our Directors hold Equity Shares in our Company and are therefore interested in our performance in addition to their remuneration and reimbursement of expenses.*

Certain of our Directors including our Promoters are interested in our Company, in addition to regular remuneration or benefits and reimbursement of expenses, to the extent of their shareholding in our Company. We cannot assure you that our Promoters will exercise their rights as shareholders to the benefit and best interest of our Company. Our Promoters will continue to exercise significant control over us, including being able to control the composition of our Board of Directors and determine decisions requiring simple or special majority voting of shareholders, and our other shareholders may be unable to affect the outcome of such voting. Our Promoters may take actions with respect to our business which may conflict with the best interests of our Company or that of minority shareholders. For details on the interest of our Promoters and Directors of our Company, other than reimbursement of expenses incurred or normal remuneration or benefits, see the sections titled “*Our Management*” and “*Our Promoters and Promoter Group*” on pages 83 and 94 respectively of this Draft Prospectus.

38. *We have working capital requirements. If we experience insufficient cash flows to enable us to make required payments on our debt or fund working capital requirements, there may be an adverse effect on our results of operations.*

Our business requires a substantial amount of working capital for our business operations. We would require additional working capital facilities in the future to satisfy our working capital need which is proposed to be met through the IPO proceeds. In case of our inability to obtain the requisite additional working capital finance, our internal accruals/cash flows would be adversely affected to that extent, and consequently affect our operations, revenue and profitability.

- 39. *Some of the information disclosed in this Draft Prospectus is based on information from industry sources and publications which may be based on projections, forecasts and assumptions that may prove to be incorrect. Investors should not place undue reliance on, or base their investment decision on this information.***

The information disclosed in the “*Industry Overview*” section on page 63 of this Draft Prospectus is based on information from publicly-available industry, Government and research information, publications and websites and has not been verified by us independently and we do not make any representation as to the accuracy of the information. The data may have been re-classified by us for the purposes of presentation. Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but that their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured. Accordingly, investors should not place undue reliance on, or base their investment decision on this information.

EXTERNAL RISKS

- 40. *Political, economic or other factors that are beyond our control may have an adverse effect on our business and results of operations.***

The following external risks may have an adverse effect on our business and results of operations should any of them materialize:

- a change in the central or state governments or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular;
- high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins; and
- a slowdown in economic growth or financial instability in India could adversely affect our business and results of operations.

- 41. *Our business is dependent on economic growth in India.***

The performance and growth of our business are necessarily dependent on economic conditions prevalent in India, which may be materially and adversely affected by centre or state political instability or regional conflicts, a general rise in interest rates, inflation, economic slowdown elsewhere in the world or otherwise.

There have been periods of slowdown in the economic growth of India. India’s economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports (oil and oil products), global economic uncertainty and liquidity crisis, volatility in exchange currency rates and annual rainfall which affects agricultural production. Any continued or future slowdown in the Indian economy or a further increase in inflation could have a material adverse effect on the price of our raw materials and demand for our products and, as a result, on our business and financial results.

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the U.S. and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors’ reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability, including the financial crisis and fluctuations in the stock markets in China and further deterioration of credit conditions in the U.S. or European markets, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business and financial results.

- 42. *Changing laws, rules and regulations and legal uncertainties in India, including adverse application of corporate and tax laws, may adversely affect our business and financial results.***

Our business and financial performance could be adversely affected by any change in laws or interpretations of existing laws, or the promulgation of new laws, rules and regulations applicable to us and our business including those relating to the industry in which we operate. There can be no assurance that the Government of India or state governments will not introduce new laws, regulations and policies which will require us to obtain additional approvals and licenses or

impose onerous requirements on our business.

The GoI has enacted the Central Goods and Services Tax Act, 2017 to lay a framework for a comprehensive national goods and services tax (“GST”) regime that has combined taxes and levies by the Central and State Governments into a unified rate structure. The said legislation was notified and made effective from July 1, 2017. As per the new rates notified, our business are taxed at a rate of 5% and 12% for apparel items. We cannot assure you that our cash flows and results of operations will not be affected by the new tax regime. Further, any future increases or amendments to GST may affect the overall tax efficiency of our Company and may result in significant additional taxes becoming payable.

Additionally, the regulatory environment in which we operate is subject to change both in the form of gradual evolution over time and also in form of significant reforms from time to time. For instance, a recent notification issued by the Government of India withdrawing the legal tender status of currency notes of Rs.500 and Rs.1,000, may have had and may continue to have an adverse effect on certain sectors of the Indian economy. Further, the Government of India has proposed, the General Anti Avoidance Rules (“GAAR”). The tax consequences of the GAAR provisions being applied to an arrangement could result in denial of tax benefit amongst other consequences. In the absence of any precedents on the subject, the application of these provisions is uncertain. If the GAAR provisions are made applicable to our Company, it may have an adverse tax impact on us.

The impact of any changes to Indian legislation on our business cannot be fully determined at this time. Additionally, our business and financial performance could be adversely affected by unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations applicable to us and our business. Such unfavourable changes could decrease demand for our services and products, increase costs and/or subject us to additional liabilities. Any such changes could have an adverse effect on our business and financial results.

Risks Related to the Issue

43. Any future issuance of Equity Shares, or convertible securities or other equity linked securities by us and any sale of Equity Shares by our significant shareholders may dilute your shareholding and adversely affect the trading price of the Equity Shares.

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by us may dilute your shareholding in the Company, adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. No assurance may be given that we will not issue additional Equity Shares. The disposal of Equity Shares by any of our significant shareholders, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. We cannot assure you that we will not issue Equity Shares or that such shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

44. You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of Equity Shares in an Indian company are generally taxable in India. Any gain realized on the sale of listed equity shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if Securities Transaction Tax (“STT”) has been paid on the transaction. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Any gain realized on the sale of equity shares held for more than 12 months, which are sold other than on a recognized stock exchange and on which no STT has been paid to an Indian resident, will be subject to long term capital gains tax in India. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India. Capital gains arising from the sale of the Equity Shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India’s ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares.

45. Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.

Indian legal principles related to corporate procedures, directors’ fiduciary duties and liabilities, and shareholders’ rights may differ from those that would apply to a company in another jurisdiction. Shareholders’ rights including in relation to class actions, under Indian law may not be as extensive as shareholders’ rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian

company than as shareholder of a corporation in another jurisdiction.

Overview of the Indian Economy

The Indian economy with a gross domestic product (“GDP”) at current prices in the year fiscal year 2017 is estimated at Rs. 151.84 lakh crore, showing a growth rate of 11.0 percent over the estimates of GDP for fiscal 2016 of Rs. 136.82 lakh crore (Source: Central Statistical Office of India’s Ministry of Statistics and Programme Implementation, available at http://mospi.nic.in/sites/default/files/press_release/PRESS_NOTE_PE_2016-17.pdf as of May 31, 2017). It is one of the fastest growing major economies in the world with private final consumption contributing to over half of the overall GDP growth of 7.6% in 2015 – 2016 (Source: RBI Annual Report 2015 – 2016).

Textile and Apparel Industry

India is the second-largest producer of textiles and garments in the world, with an enormous raw material and manufacturing base. The size of the Indian Textile & Clothing industry is estimated to be Rs. 8,540 billion in FY2015, which has grown at a CAGR of ~10% over the last decade. Domestic market accounts for ~73% of the total industry and export market accounts for the balance ~27%. The industry contributes ~14% to the domestic industrial production and ~4% to the country’s GDP; and is the second largest provider of employment in India, after agriculture. Apparel is the largest segment of the industry, comprising ~60% of the total industry size. While apparel accounts for ~65% of the total domestic market, its share in textile exports remained lower at ~45%. Hence, given the sizeable share in exports of textile intermediates, there is tremendous scope for increasing the share of apparels in textile exports to increase domestic value addition and attract investments in the apparel sector. The readymade garments market is estimated at \$45 billion, of which the domestic market is around \$27 billion, while exports stand at \$18 billion.

The Indian textile industry is expected to have positive growth in the current financial year on account of the following factors as discussed above:

- Good Monsoons.
- Passing of GST bill increasing the investor confidence resulting in increased Foreign investments.
- Acceptance of 7th Pay commission recommendations by the Central Government.

Apparel Industry in India:-

Indian textiles and apparels have a history of fine craftsmanship and global appeal. Cotton, silk and denim from India are highly popular abroad, and with the upsurge in Indian design talent, Indian apparel too has found success in the fashion centres of the world.

India is the world's second-largest manufacturer and exporter of textiles and apparels, with a massive raw material and manufacturing base. The industry is a significant contributor to the economy, both in terms of its domestic share and exports. It contributes about 10 per cent to manufacturing production, 2 per cent to the GDP and 15 per cent to the country's total exports earnings. The sector is the second largest employment provider in the country, employing about 51 million people directly and 68 million people indirectly in FY 2015-16. The apparel and garment sector provides employment to 12.3 million people as of 2016-17 and produces 3.6 million tonnes (MT) of apparel and garments.

Readymade Garments And Cotton Textiles Dominate Exports:-

- The domestic textile and apparel industry was the largest contributor to total textile and apparel exports from India in FY17. The segment had a share of 89.64 per cent. This segment includes readymade garments, jute, cotton, silk etc.

- The handicrafts segment accounted for 10.06 per cent of the total exports in FY17.

Segments in Textile and Apparel Sector:-

The textile & apparel industry can be broadly divided into 2 segments:

- Yarn & fibre (include natural & man-made).
- Processed fabrics (including woolen textiles, silk textiles, jute textiles, cotton textiles & technical textiles), Readymade Garments (RMGs) & apparel.

Advantage India:-

– Robust demand

- Increased penetration of organised retail, favorable demographics & rising income levels to drive textile demand.
- Growth in building & construction will continue to drive demand for non-clothing textiles.

– Increasing Investments

- Huge investments are being made by Government under Scheme for Integrated Textile Parks (SITP)-(USD184.98 million) & Technology Upgradation Fund Scheme (TUFs)-(term loan sanctioned in February, 2015-USD 2198.45 million) to encourage more private equity & to train workforce.

– Competitive Advantage

- Abundant availability of raw materials such as cotton, wool, silk and jute.
- India enjoys a comparative advantage in terms of skilled manpower & in cost of production relative to major textile producers.

– Policy Support

- 100 per cent FDI (automatic route) is allowed in the Indian textile sector.
- Under Union Budget 2016-17, the government has allocated USD7.43 billion for setting up integrated parks in India.
- Free trade with ASEAN countries & proposed agreement with European Union will boost exports.

Growth Drivers:-

- **Strong Fundamentals And Policy Support Aiding Growth**

(Source: www.ibef.org)

- **Changing demographics has also contributed significantly to the sector**

- ✓ By 2014, India’s population had almost doubled compared to figures 30 years before.
- ✓ India’s growing population has been a key driver of textile consumption growth in the country.
- ✓ Moreover, according to World Bank, urban population accounts for 32.7 per cent of the total population of India. This also works as demand driver due to changing taste and preferences in the urban part of India.
- ✓ It has been complemented by a young population which is growing and at the same time is exposed to changing tastes and fashion.
- ✓ Complementing this factor is rising female workforce participation in the country.

- **Rising incomes and a growing middle-class have been key demand drivers**

- ✓ Rising incomes has been a key determinant of domestic demand for the sector; with incomes rising in the rural economy as well, the upward push on demand from the income side is set to continue.
- ✓ Rising industrial activity would support the growth in the per capita income.

(Source: www.ibef.org)

- **Exporters gaining from strong global demand**

- ✓ Capacity built over years has led to low cost of production per unit in India’s textile industry; this has lent a strong competitive advantage to the country’s textile exporters relative to key global peers.
- ✓ The sector has also witnessed increasing outsourcing over the years as Indian players moved up the value chain from being mere converters to vendor partners of global retail giants.
- ✓ The strong performance of textile exports is reflected in the value of exports from the sector over the years. Textile exports witnessed a growth (CAGR) of 8.56 per cent over the period of FY06 to FY16.
- ✓ In the coming decades, Africa and Latin America could very well turn out to be key markets for Indian textiles.
- ✓ In April 2017, the government unveiled Textiles India 2017, its 1st ever global B2B handicrafts and textile event, in Delhi. The event showcased a 1000 stalls, and saw about 1,600 buyers from more than 100 countries. Around 1,300 exhibitors and 2,000 delegates had registered for the event and total participation, including domestic buyers, artisans and visitors, crossed 6,000. During the second day of the event, the Ministry of Textiles signed 65 MoUs.

(Source: www.ibef.org)

• ***Policy support has been a key ingredient to growth***

- ✓ Technology Upgradation Fund Scheme (TUFS)
 - Investment was made to promote modernisation and up-gradation of the textile industry by providing credit at reduced rates.
 - US\$0.23 billion has been allocated for ATUFS scheme for FY16-17, under Union Budget 2016-17.
 - In April 2017, StalkBuyLove, an online fashion brand, has raised US\$ 1 million venture debt from Trifecta Capital, to expand its team and strengthen the supply chain technology.
- ✓ National Textile Policy - 2000
 - Key areas of focus include technological upgrades, enhancement of productivity, product diversification and financing arrangements.
 - New draft for this policy ensures to employ 35 million by attracting foreign investments. It also focuses on establishing a modern apparel garment manufacturing centre in every North Eastern state for which Government has invested an amount of US\$ 3.27 million.
- ✓ Foreign Direct Investment
 - FDI of up to 100 per cent is allowed in the textile sector through the automatic route
- ✓ Scheme for Integrated Textiles Parks (SITP)
 - SITP was set up in 2005 to provide necessary infrastructure to new textile units; under SITP, 40 projects (worth US\$ 678 million) have been sanctioned.
 - Out of these 40 projects, 27 have started production. 16 projects has been completed in November 2014. Government has invested a total of US\$ 21.96 million for 21 new textile parks and the remaining 13 textile parks has been given the in-principle approval under SITP. In 2015, textile parks set up under the Scheme for Integrate Textile Park (SITP) attracted an investment of US\$ 4.58 billion.
- ✓ Technical textile industry
 - Government of India has planned an increase in the fund outlay for technical textiles industry to more than US\$ 117 million during the current 12th Five Year Plan (2012-17)

Opportunities:-

• **Immense growth potential**

- The Indian textile industry is set for strong growth, buoyed by both strong domestic consumption as well as export demand.
- The sector is expected to reach US\$ 226 billion by FY2023.
- Population is expected to reach to 1.34 billion by FY2019.
- Urbanisation is expected to support higher growth due to change in fashion and trends.

• **Private sector participation in silk production**

- The Central Silk Board sets targets for raw silk production and encourages farmers and private players to grow silk.
- To achieve these targets, alliances with the private sector, especially major agrobased industries in pre-cocoon and postcocoon segments has been encouraged.

• **Proposed FDI in multi-brand retail**

- For the textile industry, the proposed hike in FDI limit in multi-brand retail will bring in more players, thereby providing more options to consumers.
- It will also bring in greater investments along the entire value chain – from agricultural production to final manufactured goods.
- With global retail brands assured of a domestic foothold, outsourcing will also rise significantly.

• **Retail sector offers growth potential**

- With consumerism and disposable income on the rise, the retail sector has experienced a rapid growth in the past decade with several international players like Marks and Spencer, Guess and Next having entered Indian market.

- The organised apparel segment is expected to grow at a Compound Annual Growth Rate of more than 13 per cent over a 10-year period.
- India and Bangladesh plans to increase their cooperation in order to increase promote the investment and trade of jute and fabrics.
- Future Group plans to expand with 80 stores in order to reach the target sales of 80 million units. This would add to their portfolio of 300 stores spread across the country.

- **Centers of Excellence (CoE) for research and technical training**

- The CoEs are aimed at creating testing and evaluation facilities as well as developing resource centres and training facilities.
- Existing 4 CoEs, BTRA for Geotech, SITRA for Meditech, NITRA for Protech and SASMIRA for Agrotech, would be upgraded in terms of development of incubation centre and support for development of prototypes.
- Fund support would be provided for appointing experts to develop these facilities.

- **Foreign investments**

- The government is taking initiatives to attract foreign investments in the textile sector through promotional visits to countries such as Japan, Germany, Italy and France.
- According to the new Draft of the National Textile Policy, the government is planning to attract foreign investments thereby creating employment opportunities to 35 million people.
- FDI inflows in textiles sector, inclusive of dyed and printed textile, stood at US\$ 2.47 billion from April 2000 to March 2017.

Threats:-

- ***Rising competition among organised players***

The size of the Indian apparel market and its inherent long-term growth potential makes it extremely attractive to branded players across the world. With the Government allowing 100% Foreign Direct Investment (FDI) in retail, several foreign brands and fashion retailers continue to enter India thereby enhancing the fashion culture and raising fashion consciousness in the country. This would lead to great deal of competition among the organised players to grab the largest share of the pie.

- ***Low entry barriers***

The absence of significant entry barriers leads to an increase in the number of players, especially the unorganised players. This can escalate the degree of competition, making market penetration and sustaining of higher margins even tougher.

- ***Dependence on rainfall and climatic conditions***

Rainfall plays an important role in the apparel industry. Absence of adequate rainfall can lead to a significant decline in the availability of cotton, besides having an adverse impact on the economy, and consequently, the consumer demand. This can adversely impact the top line and margins. Shorter and less intense winters can also adversely impact sales of the woollen segment.

Growth Prospects for Indian Textile and Apparel Industry

Expansion of Ready-to-Wear Market

The market for readymade segment is rapidly expanding in India especially in menswear section. The preference of Indian consumers has also undergone a major shift as they just prefer to go out and buy rather than opting for stitching.

Rising Urbanization

Urbanization is a trend that everyone has to contend with. The urban population is set to increase up to 42% by 2030 according to census figures. This is due to the fact that people migrate to cities to look for better job opportunities and living standards. Therefore, organized retail is set to witness a major expansion to fulfill the needs of growing population.

Demographic Structure

India is home to 17% of the world's population. Being one of the youngest countries in the world, it is tipped to have one of the largest work forces for years to come. At 24 years, it has the lowest median age of population in the world, with 50% of the population less than 25 years and 70% less than 35 years of age. Indian T & C Industry envisages to reach US \$ 100 Billion by 2015 Also, as more and more women become part of the workforce, the demand for women wear including accessories is set for expansion.

Growing prosperity

India has the second largest working population with approx 700 million people between 20-60 years of age. In addition, corporate salaries have grown at 14% p.a. which is fastest globally. Also, the salaries for freshers have gone up by 2-3 times over the last decade. These all factors contribute to increasing disposable incomes in the hands of individuals. With a consumption rate of around 34%, the appetite for high value branded products is ever increasing.

Changing Consumer Lifestyle and Preferences

Indian consumer has become more demanding, as a result, there is a continuous shift in the demand pattern from basic necessities to spending on the lifestyle products and service, largely because of:

- Higher Income levels
- Increasing knowledge and awareness levels
- Higher adaptability to technology
- Greater participation of women and children in household decision making
- Increasing demand for better products and service experience

Overview of the Indian Economy

The Indian economy with a gross domestic product (“GDP”) at current prices in the year fiscal year 2017 is estimated at Rs. 151.84 lakh crore, showing a growth rate of 11.0 percent over the estimates of GDP for fiscal 2016 of Rs. 136.82 lakh crore (Source: Central Statistical Office of India’s Ministry of Statistics and Programme Implementation, available at (http://mospi.nic.in/sites/default/files/press_release/PRESS_NOTE_PE_2016-17.pdf as of May 31, 2017). It is one of the fastest growing major economies in the world with private final consumption contributing to over half of the overall GDP growth of 7.6% in 2015- 2016 (Source: RBI Annual Report 2015 – 2016).

Textile and Apparel Industry

India is the second-largest producer of textiles and garments in the world, with an enormous raw material and manufacturing base. The size of the Indian Textile & Clothing industry is estimated to be Rs. 8,540 billion in FY2015, which has grown at a CAGR of ~10% over the last decade. Domestic market accounts for ~73% of the total industry and export market accounts for the balance ~27%. The industry contributes ~14% to the domestic industrial production and ~4% to the country’s GDP; and is the second largest provider of employment in India, after agriculture. Apparel is the largest segment of the industry, comprising ~60% of the total industry size. While apparel accounts for ~65% of the total domestic market, its share in textile exports remained lower at ~45%. Hence, given the sizeable share in exports of textile intermediates, there is tremendous scope for increasing the share of apparels in textile exports to increase domestic value addition and attract investments in the apparel sector. The readymade garments market is estimated at \$45 billion, of which the domestic market is around \$27 billion, while exports stand at \$18 billion.

The Indian textile industry is expected to have positive growth in the current financial year on account of the following factors as discussed above:

- Good Monsoons.
- Passing of GST bill increasing the investor confidence resulting in increased Foreign investments.
- Acceptance of 7th Pay commission recommendations by the Central Government.

Apparel Industry in India: -

Indian textiles and apparels have a history of fine craftsmanship and global appeal. Cotton, silk and denim from India are highly popular abroad, and with the upsurge in Indian design talent, Indian apparel too has found success in the fashion centres of the world.

India is the world’s second-largest manufacturer and exporter of textiles and apparels, with a massive raw material and manufacturing base. The industry is a significant contributor to the economy, both in terms of its domestic share and exports. It contributes about 10 per cent to manufacturing production, 2 per cent to the GDP and 15 per cent to the country’s total exports earnings. The sector is the second largest employment provider in the country, employing about 51 million people directly and 68 million people indirectly in FY 2015-16. The apparel and garment sector provides employment to 12.3 million people as of 2016-17 and produces 3.6 million tonnes (MT) of apparel and garments. (Source: <https://www.ibef.org/exports/apparel-industry-india.aspx>).

(Source: www.ibef.org)

- **Changing demographics has also contributed significantly to the sector**

- ✓ India’s growing population has been a key driver of textile consumption growth in the country.
- ✓ Moreover, according to World Bank, urban population accounts for 32.7 per cent of the total population of India. This also works as demand driver due to changing taste and preferences in the urban part of India.
- ✓ It has been complemented by a young population which is growing and at the same time is exposed to changing tastes and fashion.
- ✓ Complementing this factor is rising female workforce participation in the country.

- **Rising incomes and a growing middle-class have been key demand drivers**

- ✓ Rising incomes has been a key determinant of domestic demand for the sector; with incomes rising in the rural economy as well, the upward push on demand from the income side is set to continue.
- ✓ Rising industrial activity would support the growth in the per capita income.

(Source: www.ibef.org)

- **Exporters gaining from strong global demand**

- ✓ Capacity built over years has led to low cost of production per unit in India’s textile industry; this has lent a strong competitive advantage to the country’s textile exporters relative to key global peers.
- ✓ The sector has also witnessed increasing outsourcing over the years as Indian players moved up the value chain from being mere converters to vendor partners of global retail giants.
- ✓ The strong performance of textile exports is reflected in the value of exports from the sector over the years. Textile exports witnessed a growth (CAGR) of 8.56 per cent over the period of FY06 to FY16.
- ✓ In the coming decades, Africa and Latin America could very well turn out to be key markets for Indian textiles.
- ✓ In April 2017, the government unveiled Textiles India 2017, its 1st ever global B2B handicrafts and textile event, in Delhi. The event showcased a 1000 stalls, and saw about 1,600 buyers from more than 100 countries. Around 1,300 exhibitors and 2,000 delegates had registered for the event and total participation, including domestic buyers, artisans and visitors, crossed 6,000. During the second day of the event, the Ministry of Textiles signed 65 MoUs.

(Source: www.ibef.org)

- **Policy support has been a key ingredient to growth**

- ✓ Technology Upgradation Fund Scheme (TUFS)
 - Investment was made to promote modernisation and up-gradation of the textile industry by providing credit at reduced rates.
 - US\$0.23 billion has been allocated for ATUFS scheme for FY16-17, under Union Budget 2016-17.
 - In April 2017, StalkBuyLove, an online fashion brand, has raised US\$ 1 million venture debt from Trifecta Capital, to expand its team and strengthen the supply chain technology.

- ✓ National Textile Policy - 2000

- Key areas of focus include technological upgrades, enhancement of productivity, product diversification and financing arrangements.
- New draft for this policy ensures to employ 35 million by attracting foreign investments. It also focuses on establishing a modern apparel garment manufacturing centre in every North Eastern state for which Government has invested an amount of US\$ 3.27 million.

✓ Foreign Direct Investment

- FDI of up to 100 per cent is allowed in the textile sector through the automatic route

✓ Scheme for Integrated Textiles Parks (SITP)

- SITP was set up in 2005 to provide necessary infrastructure to new textile units; under SITP, 40 projects (worth US\$ 678 million) have been sanctioned.
- Out of these 40 projects, 27 have started production. 16 projects has been completed in November 2014. Government has invested a total of US\$ 21.96 million for 21 new textile parks and the remaining 13 textile parks has been given the in-principle approval under SITP. - To achieve these targets, alliances with the private sector, especially major agro based industries in pre-cocoon and postcocoon segments has been encouraged.

- Existing 4 CoEs, BTRA for Geotech, SITRA for Meditech, NITRA for Protech and SASMIRA for Agrotech, would be upgraded in terms of development of incubation centre and support for development of prototypes.
- Fund support would be provided for appointing experts to develop these facilities.

- **Foreign investments**

- The government is taking initiatives to attract foreign investments in the textile sector through promotional visits to countries such as Japan, Germany, Italy and France.
- According to the new Draft of the National Textile Policy, the government is planning to attract foreign investments thereby creating employment opportunities to 35 million people.
- FDI inflows in textiles sector, inclusive of dyed and printed textile, stood at US\$ 2.47 billion from April 2000 to March 2017.

Threats:-

- ***Rising competition among organised players***

The size of the Indian apparel market and its inherent long-term growth potential makes it extremely attractive to branded players across the world. With the Government allowing 100% Foreign Direct Investment (FDI) in retail, several foreign brands and fashion retailers continue to enter India thereby enhancing the fashion culture and raising fashion consciousness in the country. This would lead to great deal of competition among the organised players to grab the largest share of the pie.

- ***Low entry barriers***

The absence of significant entry barriers leads to an increase in the number of players, especially the unorganised players. This can escalate the degree of competition, making market penetration and sustaining of higher margins even tougher.

- ***Dependence on rainfall and climatic conditions***

Rainfall plays an important role in the apparel industry. Absence of adequate rainfall can lead to a significant decline in the availability of cotton, besides having an adverse impact on the economy, and consequently, the consumer demand. This can adversely impact the top line and margins. Shorter and less intense winters can also adversely impact sales of the woollen segment.

Growth Prospects for Indian Textile and Apparel Industry

Expansion of Ready-to-Wear Market

The market for readymade segment is rapidly expanding in India especially in menswear section. The preference of Indian consumers has also undergone a major shift as they just prefer to go out and buy rather than opting for stitching.

Rising Urbanization

Urbanization is a trend that everyone has to contend with. The urban population is set to increase up to 42% by 2030 according to census figures. This is due to the fact that people migrate to cities to look for better job opportunities and living standards. Therefore, organized retail is set to witness a major expansion to fulfill the needs of growing population.

Demographic Structure

India is home to 17% of the world's population. Being one of the youngest countries in the world, it is tipped to have one of the largest work forces for years to come. At 24 years, it has the lowest median age of population in the world, with 50% of the population less than 25 years and 70% less than 35 years of age. Indian T & C Industry envisages to reach US \$ 100 Billion by 2015 Also, as more and more women become part of the workforce, the demand for women wear including accessories is set for expansion.

Growing prosperity

India has the second largest working population with approx 700 million people between 20-60 years of age. In addition, corporate salaries have grown at 14% p.a. which is fastest globally. Also, the salaries for freshers have gone up by 2-3 times over the last decade. These all factors contribute to increasing disposable incomes in the hands of individuals. With a consumption rate of around 34%, the appetite for high value branded products is ever increasing.

Changing Consumer Lifestyle and Preferences

Indian consumer has become more demanding, as a result, there is a continuous shift in the demand pattern from basic necessities to spending on the lifestyle products and service, largely because of:

- Higher Income levels
- Increasing knowledge and awareness levels
- Higher adaptability to technology
- Greater participation of women and children in household decision making
- Increasing demand for better products and service experience

- (a) The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the over subscription ratio (number of Applicants in the category x number of Shares applied for).
- (b) The number of Shares to be allocated to the successful Applicants will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated primarily through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the FIPB. Accordingly, the process for foreign direct investment (“**FDI**”) and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“**DIPP**”), Ministry of Finance, Department of Economic Affairs, FIPB section, through a memorandum dated June 5, 2017 has notified the specific ministries handling relevant sectors.

The Government has from time to time made policy pronouncements on FDI through press notes and press releases. The DIPP, issued the consolidated FDI Policy circular of 2017 (“**FDI Policy**”), which with effect from August 28, 2017, consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DIPP that were in force and effect as on August 28, 2017. The Government proposes to update the consolidated circular on FDI Policy once every year and therefore, FDI Policy will be valid until the DIPP issues an updated circular.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the foreign direct investment (“**FDI**”) Policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI.

As per the existing policy of the Government of India, OCBs cannot participate in the Issue.
