*An investment in NCDs involves a certain degree of risk. You should carefully consider all the information contained in this Draft Prospectus, including the risks and uncertainties described below, and the information provided in the sections titled “**Our Business**” on page 77 and “**Financial Statements**” on page 108 before making an investment decision. The risk factors set forth below do not purport to be complete or comprehensive in terms of all the risk factors that may arise in connection with our business or any decision to purchase, own or dispose of the NCDs. The following risk factors are determined on the basis of their materiality. In determining the materiality of risk factors, we have considered risks which may not be material individually but may be material when considered collectively, which may have a qualitative impact though not quantitative, which may not be material at present but may have a material impact in the future. Additional risks, which are currently unknown or now deemed immaterial, if materializes, may in the future have a material adverse effect on our business, financial condition and results of operations. The market prices of the NCDs could decline due to such risks and you may lose all or part of your investment including interest thereon.*

*Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implication of any of the risks described in this section. This Draft Prospectus also contains forward-looking statements that involve risks and uncertainties. Unless otherwise stated, the financial information used in this section is derived from and should be read in conjunction with the Audited Reformatted Financial Statements of our for the Financial Year ended March 31, 2016, March 31, 2015, March 31, 2014, March 31, 2013 and March 31, 2012, in each case prepared in accordance with Indian GAAP, including the annexure and notes thereto.*

### **Internal Risk Factors**

**1. We have been subject to RBI inspection and any adverse action taken could affect our business and operations.**

Our Company was subjected to RBI’s inspection under section 45N of the RBI Act, 1934 for the financial position as on March 31, 2014. Subsequently RBI vide its letter dated March 23, 2015, bearing reference number DNBS (T) No. 1155/02.19.018/2014-15 reported certain adverse observations which inter alia includes non-compliance with provisioning of the net owned fund; granting of secured loans against security of its debentures and for permitting premature closure of the NCDs during 2013-14; paying of interest on a cumulative basis for debt raised through issuance of PDIs; creation of a DRR; extension of loan to directors, without records of tenure, applicable rate of interest, whether secured or unsecured, etc.; non-compliance with asset classification and provisioning norms by failing to disclose the actual NPAs, the write off amount and the auction proceeds; compliance with various corporate governance norms; adherence to KYC/AML standards and inter-group transactions. Our Company replied to the said letter vide a letter dated May 26, 2015, inter-alia stating that our Company has rectified the shortage in the provisioning of the net owned fund; that our Company has stopped sanctioning of fresh loans against the security of its own debentures; that the interest on PDIs were paid cumulatively, on account of low CRAR; informed about creation of DRR; that the loan extended to the directors was made in the ordinary course of business; that provisioning was regularised in adherence with asset classification and provisioning norms; that steps were being taken for compliance with the corporate governance norms; etc. Subsequently, RBI vide letter dated July 7, 2015 and December 14, 2015, sought further compliance in respect of few of the items to which our Company replied vide letter dated August 26, 2015. RBI vide letter dated December 14, 2015, reverted to our Company’s response dated May 26, 2015, with further observations and advice on pending points. RBI in its observation considered our Company’s reply and documentary evidence sufficient for cases of extension of loans to directors, loan sanctioning limits and adherence to KYC and AML standards. Subsequently, RBI replied by letter dated February 4, 2016 and March 1, 2016, wherein it sought further compliance from our Company on payment of interest on PDIs. Our Company vide a letter dated March 18, 2016, has suitably responded to RBI and provided details of the payments made toward interest on PDIs. The RBI vide a letter dated March 28, 2016, advised our Company on payment to PDI holders on a non-cumulative basis and sought confirmations from our statutory auditor with regard to clearing of the cheques.

Any adverse action taken by RBI with regard to such inspections could adversely affect our business and operations.

2. ***We have received a letter dated February 10, 2014 (“RBI Letter”) from the Reserve Bank of India inter-alia alleging non-compliance with RBI circular DNBS (T) No. 983/02.03.057/2013-14 dated October 29, 2008 (“RBI Circular”). Any adverse order by RBI could adversely affect our ability to conduct business, which would in turn result in material adverse effect on our business and results of operations.***

Our Company has received a letter dated February 10, 2014 from Reserve Bank of India inter-alia alleging that the PDI issued by our Company are not in full compliance with the RBI Circular as our Company was allowing a fixed maturity period of 10 years and the reporting requirements were also not adhered to. Our Company has replied vide letter dated March 21, 2014 to the RBI Letter amongst others submitting the requisite documents to RBI.

Further, the interest payable on the PDI outstanding was also classified by us as cumulative, which is not in accordance with the RBI Circular. Subsequently, the Company has dispensed with its liability pertaining to the accrued interests on the PDIs and have remitted the amount vide cheques to the respective investors. Also, the RBI was intimated of the said payment, vide a letter dated March 18, 2016. In case RBI passes an adverse order, it may adversely affect our ability to conduct business, which would in turn result in material adverse effect on our business and results of operations. The RBI vide a letter dated March 28, 2016, advised our Company on payment to PDI holders on a non-cumulative basis and sought confirmations from our statutory auditor with regard to clearing of the cheques.

Any adverse action taken by RBI with regard to such inspections could adversely affect our business and operations.

3. ***Our ability to access capital also depends on our credit ratings. Any downgrade in our credit ratings would increase borrowing costs and constrain our access to capital and lending markets and, as a result, would negatively affect our net interest margin and our business.***

The cost and availability of capital is also dependent on our short-term and long-term credit ratings. We have been assigned a ‘CARE BB+’ [Double B Plus] rating by CARE, (1) for our long term bank facilities of ₹25,000 lacs; (2) for our Non-Convertible Debenture issues aggregating to ₹2,707 lacs, ₹5,765 lacs, ₹6,428 lacs, ₹16,461 lacs, ₹20,000 lacs, ₹19,988 lacs and ₹23,451 lacs; (3) for our Subordinated Debt issues aggregating to ₹2,500 lacs, ₹1,000 lacs and ₹3,000 lacs. Further, the Secured NCDs proposed to be issued under this Issue have been rated ‘CARE BB+’ [Double B Plus] by CARE for an amount of up to ₹17,500 lacs, and Unsecured NCDs have been rated ‘CARE BB’ [Double B] for an amount of up to ₹2,500 lacs, respectively, vide their letter dated August 1, 2016. Ratings reflect a rating agency’s opinion of our financial strength, operating performance, strategic position, and ability to meet our obligations. Any downgrade of our credit ratings would increase borrowing costs and constrain our access to debt and bank lending markets and, as a result, would adversely affect our business. In addition, downgrading of our credit ratings could increase the possibility of additional terms and conditions being added to any new or replacement financing arrangements. For details regarding ratings received by our Company, please refer to “***Our Business-Our Borrowings and Credit Ratings***” on page 91.

4. ***Our Company, two of our Promoter Directors and one of our Group Company are subject to certain legal proceedings and any adverse decision in such proceedings may have a material adverse effect on our business, financial condition and results of operations.***

We, two of our Promoter Directors and one of our Group Companies are subject to certain legal proceedings including civil suits, consumer litigations, tax litigations, trademark infringement suits etc. We incur substantial cost in defending these proceedings before a court of law. Further our Company received an order from the Office of the Commissioner of Central Excise and Customs, Cochin dated March 18, 2016 on May 19, 2016, whereby the authority has confirmed the demand of the outstanding tax liability of ₹9,72,89,472 along with levying a total penalty of ₹97,38,000 with regards to SCN dated September 30, 2014 and confirmed the demand of the outstanding tax liability of ₹5,41,96,943 along with imposing a penalty of ₹5,42,06,943 on our Company with regards to SCN dated April 21, 2015. Moreover, we are unable to assure you that we or our Promoter Directors or our Group Company shall be successful in any or all of these actions. In the event we or our Promoter Directors suffer any adverse order, our reputation may suffer and may have an adverse impact on our business and results of operations. We cannot assure that an adverse order by any statutory or governmental authority would not have a negative impact on our profit and financial condition. For further details of the legal proceedings that we are subject to, please refer to the chapter titled “***Outstanding Litigations***” on page 163.

5. ***One of our Group Companies is enabled by its memorandum of association to undertake activities similar to the activities conducted by our Company which may be a potential source of conflict of interest for us and which may have an adverse effect on our operations.***

Our Promoter Directors are the sole shareholders and directors on the board of our Group Company, Kosamattam Mathew K Cherian Financiers Private Limited. Our Promoter Directors devote some of their time and resources to Kosamattam Mathew K Cherian Financiers Private Limited. There can be no assurance that our Promoter Directors' role in the Group Company does not present any conflicts of interest or potential conflicts of interest.

Further, Kosamattam Mathew K Cherian Financiers Private Limited is registered as a non-banking financial institution and could offer services that are related to our business, which could lead to potential conflicts of interest. Further there is no non-compete agreement between our Company and Kosamattam Mathew K Cherian Financiers Private Limited. The memorandum of association of Kosamattam Mathew K Cherian Financiers Private Limited entitles it to undertake and carry out businesses that are similar or related to our business. There can be no assurance that Kosamattam Mathew K Cherian Financiers Private Limited will not provide comparable services, expand their presence or acquire interests in competing ventures in the locations in which we operate. As a result, a conflict of interest may occur between our business and the business of Kosamattam Mathew K Cherian Financiers Private Limited which could have an adverse effect on our operations.

Pursuant to a board resolution dated December 8, 2015, the Board of Directors of our Company have decided to merge Kosamattam Mathew K Cherian Financiers Private Limited with our Company, subject to the receipt of an in-principle approval from the RBI. The RBI vide a letter dated May 4, 2016 sought relevant information pertaining to the merger, to which our Company responded vide a detailed reply dated May 6, 2016. Subsequently, the RBI sought additional information vide a letter dated June 2, 2016 which were addressed by our Company vide a reply dated June 14, 2016. We are in the process to seek RBI's in-principle approval for the proposed merger. However, we cannot assure you that RBI shall grant us the requisite approval to effectuate the proposed merger.

6. ***Our Company was unable to trace certain secretarial records, including records pertaining to the allotment of Equity Shares acquired by our past shareholders prior to August 2004.***

We have been unable to locate the copies of certain of our secretarial records, i.e. prescribed forms filed by us with the Registrar of Companies, including, among others, in respect of the allotment of Equity Shares from incorporation until August 2004. While we believe that these forms were duly filed on a timely basis, we have not been able to obtain copies of these documents, including from the Registrar of Companies. We cannot assure you that we will not be subject to any adverse action by a competent regulatory authority in this regard.

7. ***A major part of our branch network is concentrated in southern India and we derive majority of our revenue from southern India. Any breakdown of services in these areas could have a material and adverse effect on our results of operations and financial conditions.***

We derive majority of our revenue from our 931 branches situated in southern India out of 950 of our total branches. As a result, we are exposed to risks including any change in policies relating to these states, any localized social unrest, any natural disaster and any event or development which could make business in such states less economically beneficial. Any such risk, if materializes, could have a material adverse effect on the business, financial position and results of operations of our Company. For further details of our branch network within India, please refer to the chapter titled "***Our Business - Branch Network***" on page 86.

8. ***Our business is capital intensive and any disruption or restrictions in raising financial resources would have a material adverse effect on our liquidity and financial condition.***

Our liquidity and ongoing profitability is largely dependent upon our timely access to and the costs associated in raising resources. Our funding requirements historically have been met from a combination of borrowings such as working capital limits from banks, and issuance of secured and unsecured redeemable non-convertible debentures on private placement basis and Public Issue of secured and unsecured redeemable non-convertible debentures. Thus, our business depends and will continue to depend on our ability to access diversified low cost funding sources.

Our ability to raise funds on acceptable terms and at competitive rates continues to depend on various factors including our credit ratings, the regulatory environment and policy initiatives in India, developments in the international markets affecting the Indian economy, investors' and/or lenders' perception of demand for debt and equity securities of NBFCs, and our current and future results of operations and financial condition.

The crisis in the global credit market that began in mid-2007 destabilized the then prevailing lending model by banks and financial institutions. The capital and lending markets were highly volatile and access to liquidity had been significantly reduced. In addition, it became more difficult to renew loans and facilities as many potential lenders and counterparties also faced liquidity and capital concerns as a result of the stress in the financial markets. If any event of similar nature and magnitude occurs again in the future, it may result in increased borrowing costs and difficulty in accessing debt in a cost-effective manner. Moreover, we are a NBFC-ND-SI, and do not have access to public deposits.

The RBI has issued guidelines DBOD.BP.BC.No. 106/21.04.172/2011-12 on May 18, 2012 whereby it has instructed banks to (i) reduce their regulatory exposure on a single NBFC having gold loans to the extent of 50.00% or more of its financial assets from 10.00% to 7.50% of their capital funds; and (ii) have an internal sub-limit as decided by the boards of the respective banks on their aggregate exposure to all such NBFCs having gold loans to the extent of 50% or more of their financial assets, taken together, which sub-limit should be within the internal limits fixed by banks for their aggregate exposure to all NBFCs taken together.

The RBI *vide* its circular RBI/2014-15/475 DNBR (PD) CC No.021/03.10.001/2014-15 dated February 20, 2015 issued certain guidelines with respect to raising money through private placement by NBFCs in the form of non-convertible debentures. These guidelines include restrictions on the minimum subscription amount for a single investor at ₹20,000, the issuance of private placement of NCDs shall be in two separate categories, those with a maximum subscription of less than ₹1 crore and those with a minimum subscription of ₹1 crore and above, the restriction of number of investors in an issue to 200 investors for a maximum subscription of less than ₹1 crore which shall be fully secured, there is no limit on the number of subscribers in respect of issuances with a minimum subscription of ₹1 crore and above while the option to create security in favour of subscribers will be with the issuers and such unsecured debentures shall not be treated as public deposits, restriction on NBFCs for issuing debentures only for deployment of funds on its own balance sheet and not to facilitate resource requests of group entities/parent company/associates, prohibition on providing loan against its own debentures, etc. This has resulted in limiting the Company's ability to raise fresh debentures on private placement basis.

A significant portion of our debt matures each year. Out of our total outstanding nonconvertible debentures ₹1,33,082.81 lacs issued by our Company as of June 30, 2016, NCDs amounting up to ₹44,367.34 lacs will mature during the next 12 months. In order to retire these instruments, we either will need to refinance this debt, which could be difficult in the event of volatility in the credit markets, or raise equity capital or generate sufficient cash to retire the debt.

Changes in economic and financial conditions or continuing lack of liquidity in the market could make it difficult for us to access funds at competitive rates. As an NBFC, we also face certain restrictions on our ability to raise money from international markets, which may further constrain our ability to raise funds at attractive rates.

Any disruption in our primary funding sources at competitive costs would have a material adverse effect on our liquidity and financial condition.

**9. *Our financial performance is primarily dependent on interest rate risk. If we are unable to manage interest rate risk in the future it could have an adverse effect on our net interest margin, thereby adversely affecting business and financial condition of our company.***

Our results of operations are substantially dependent upon the level of our Net Interest Margins. Income from operations is the largest component of our total income, and constituted 98.90%, 99.54% and 99.84% of our total income for Financial Years 2016, 2015 and 2014, respectively. Interest rates are sensitive to many factors beyond our control, including the RBI's monetary policies, domestic and international economic and political conditions and other factors.

Over the last several years, the Government of India has substantially deregulated the financial sector. As a result, interest rates are now primarily determined by the market, which has increased the interest rate risk

exposure of all banks and financial intermediaries in India, including us.

Our policy is to attempt to balance the proportion of our interest earning assets, which bear fixed interest rates, with interest bearing liabilities. A significant portion of our liabilities, such as our NCDs carry fixed rates of interest. Moreover, we do not hedge our exposure to interest rate changes. We cannot assure you that we can adequately manage our interest rate risk in the future or can effectively balance the proportion of our fixed rate loan assets and liabilities. Further, changes in interest rates could affect the interest rates charged on interest earning assets and the interest rates paid on interest bearing liabilities in different ways. Thus, our results of operations could be affected by changes in interest rates and the timing of any re-pricing of our liabilities compared with the re-pricing of our assets.

In a rising interest rate environment, if the yield on our interest earning assets does not increase at the same time or to the same extent as our cost of funds, or, in a declining interest rate environment, if our cost of funds does not decline at the same time or to the same extent as the yield on our interest earning assets, our net interest income and net interest margin would be adversely affected.

**10. We have had negative net cash flows from our operating, investing and financing activities in the recent fiscal years. Any negative cash flows in the future may adversely affect our results of operations and financial condition.**

We have had negative net cash flows from our operating, investing and financing activities in the last three fiscal years, the details of which are summarized below:

Particulars	(In ₹lacs)		
	Fiscal 2016	Fiscal 2015	Fiscal 2014
Net cash generated from/(used in) operating activities	5,216.20	(192.37)	2,671.09
Net cash generated from/(used in) investing activities	7,828.09	(16,356.59)	(2,535.31)
Net cash generated from/(used in) financing activities	(24,396.54)	26,214.00	(1,141.17)

Any negative cash flows in the future may adversely affect our results of operations and financial condition. For further details please see the sections titled “*Financial Statements*” on page 108.

**11. We face increasing competition in our business which may result in declining interest margins. If we are unable to compete successfully, our market share may also decline.**

Our principal business is providing Gold Loan to customers in India secured by gold jewellery. Historically, the Gold Loan industry in India has been largely unorganised and dominated by local jewellery pawn shops and money lenders, with little involvement from public sector or private sector banks. Gold Loan financing was availed predominantly by lower income group customers with limited or no access to other forms of credit, however, such income group has gained increased access to capital through organised and unorganised money lenders, which has increased our exposure to competition. The demand for Gold Loans has also increased due to relatively lower and affordable interest rates, increased need for urgent borrowing or bridge financing requirements, the need for liquidity for assets held in gold and increased awareness and acceptance of Gold Loan financing.

All of these factors have resulted in increased competition from other lenders in the Gold Loan industry, including commercial banks and other NBFCs, who also have access to funding from customers’ savings and current deposits. We are reliant on higher cost loans and debentures for our funding requirements, which may reduce our margins compared to competitors. Our ability to compete effectively will depend, to some extent, on our ability to raise low cost funding in the future. If we are unable to compete effectively with other participants in the Gold Loan industry, our business, financial condition and results of operations may be adversely affected.

Furthermore, as a result of increased competition in the Gold Loan industry, Gold Loans are becoming increasingly standardised. Variable interest rates, variable payment terms and waiver of processing fees are also becoming increasingly common. We cannot assure you that we will be able to react effectively to these or other market development or compete effectively with new and existing competitors. Increasing

competition may have an adverse effect on our business, market share and results of operations.

**12. *Volatility in the market price of gold may adversely affect our financial condition, cash flows and results of operations.***

We extend loans secured mostly by household gold jewellery. A sustained decrease in the market price of gold could cause a decrease in new Gold Loans in our loan portfolio and, as a result, our interest income. In addition, customers may not repay their loans and the gold jewellery securing the loans may have decreased significantly in value, resulting in losses which we may not be able to support. The impact on our financial position and results of operations of a hypothetical decrease in gold values cannot be reasonably estimated because the market and competitive response to changes in gold values is not pre-determinable.

**13. *We may not be able to realise the full value of our pledged gold, which exposes us to potential loss.***

We may not be able to realise the full value of our pledged gold, due to, among other things, defects in the quality of gold or wastage that may occur when melting gold jewellery into gold bars. We have in place an extensive internal policy on determining the quality of gold prior to disbursement of the Gold Loan. However, we cannot assure that methods followed by us are fool proof and the impurity levels in the gold can be accurately assessed.

In the case of a default, amongst others we may auction the pledged gold in accordance with our auction policy. We cannot assure you that we will be able to auction such pledged gold jewellery at prices sufficient to cover the amounts under default. Moreover, there may be delays associated with the auction process or other processes undertaken by us to recover the amount due to us. Any such failure to recover the expected value of pledged gold could expose us to a potential loss and which could adversely affect our financial condition and results of operations.

**14. *We may not be able to successfully sustain our growth strategy. Inability to effectively manage our growth and related issues could materially and adversely affect our business and impact our future financial performance.***

We have expanded our operations in the last three years from 647 branches as on June 30, 2013 to 950 branches as on June 30, 2016. We have experienced considerable growth in terms of our loan portfolio from ₹68,618.82 lacs as on March 31, 2012 to ₹1,47,240.42 lacs as on March 31, 2016 and the number of our branches from 608 as on March 31, 2012 to 935 as on March 31, 2016. Our income from operations increased from ₹15,574.66 lacs in the Financial Year ended March 31, 2012 to ₹34,191.10 lacs in the Financial Year ended March 31, 2016 thereby achieving compounded annual growth rate (“CAGR”) of 21.72%. In this same period, the loan book increased from ₹68,618.82 lacs for the Financial Year ended March 31, 2012 to ₹1,47,240.42 lacs for the Financial Year ended March 31, 2016 at a CAGR of 21.03%. Our income from operations and loan book for financial year ended March 31, 2016 is ₹34,191.10 lacs and ₹1,47,240.42 lacs, respectively.

Our growth strategy includes growing our loan book, expanding network of branches and expanding the range of products and services. We cannot assure you that we will be able to execute our growth strategy successfully or continue to achieve or grow at the levels of revenue earned in recent years, or that we will be able to expand further our loan book. Furthermore, there may not be sufficient demand for our services or they may not generate sufficient revenues relative to the costs associated with offering such services. Even if we were able to introduce new services successfully, there can be no assurance that we will be able to achieve our intended return on such investments.

Further principal component of our strategy is to continue to grow by expanding the size and geographical scope of our businesses. This growth strategy will place significant demands on our management, financial and other resources. It will require us to continuously develop and improve our operational, financial and internal controls. It also includes undertaking permission from various authorities, including RBI and various regulatory compliances. Continuous expansion increases the challenges involved in financial management, recruitment, training and retaining high quality human resources, preserving our culture, values and entrepreneurial environment, and developing and improving our internal administrative infrastructure.

15. ***If we are not able to control the level of non-performing assets in our portfolio, the overall quality of our loan portfolio may deteriorate and our results of operations may be adversely affected.***

We may not be successful in our efforts to improve collections and/or enforce the security interest on the gold collateral on existing as well as future non-performing assets. Moreover, as our loan portfolio increases, we may experience greater defaults in principal and/or interest repayments. Thus, if we are not able to control our level of non-performing assets, the overall quality of our loan portfolio may deteriorate and our results of operations may be adversely affected. Our gross NPAs for the years ended March 31, 2016, 2015, 2014, 2013 and 2012 were ₹666.98 lacs, ₹631.97 lacs, ₹172.15 lacs, ₹305.83 lacs and ₹249.96 lacs, respectively.

The Non-Banking Financial (Non-Deposit Accepting or Holding) Companies Prudential Norms (Reserve Bank) Directions, 2007 (“**Prudential Norms**”) prescribe the provisioning required in respect of our outstanding loan portfolio. Should the overall credit quality of our loan portfolio deteriorate, the current level of our provisions may not be adequate to cover further increases in the amount of our non-performing assets. Furthermore, although we believe that our total provision will be adequate to cover all known losses in our asset portfolio, our current provisions may not be adequate when compared to the loan portfolios of other financial institutions. Moreover, there also can be no assurance that there will be no further deterioration in our provisioning coverage as a percentage of gross non-performing assets or otherwise, or that the percentage of non-performing assets that we will be able to recover will be similar to our past experience of recoveries of non-performing assets. In the event of any further increase in our non-performing asset portfolio, there could be an even greater, adverse impact on our results of operations.

16. ***Our ability to lend against the collateral of gold jewellery has been restricted on account of guidelines issued by RBI, which may have a negative impact on our business and results of operation.***

RBI *vide* notification DNBS.CC.PD.No. 365/03.10.01/2013-14 dated January 8, 2014 has stipulated all NBFCs to maintain a loan to value (LTV) ratio not exceeding 75% for loans granted against the collateral of gold jewellery and further prohibits lending against bullion/primary gold and gold coins. This notification will limit our ability to provide loan on the collateral of gold jewellery and thereby putting us at a disadvantage vis-à-vis unregulated money lenders offering similar products. Further, RBI by way of notification DNBS.CC.PD.No. 265/03.10.01/2011-12 dated March 21, 2012, has mandated NBFCs primarily engaged in lending against gold jewellery (such loans comprising 50% or more of their financial assets) to maintain a minimum Tier 1 capital of 12%. Such restrictions imposed by RBI may erode our margins, impact our growth and business prospects.

RBI *vide* notification DNBR.CC.PD.No.036/03.10.01/2014-15 dated May 21, 2015, further tightened the norms for lending against the security of gold ornaments by pegging the maximum lendable value (LTV) to 30 day moving average closing price of 22 carat gold quoted by India Bullion and Jewellers Association Limited (formerly known as Bombay Bullion Association Limited).

17. ***We are subject to certain restrictive covenants in our loan documents, which may restrict our operations and ability to grow and may adversely affect our business.***

There are restrictive covenants in the agreements we have entered into with our lender. These restrictive covenants require us to seek the prior permission of these banks/financial institutions for various activities, including, amongst others, to declare dividend, for any change in the management/constitution, takeovers/mergers etc. or any expansion, new project/investment/acquiring assets under lease/enter into borrowing arrangements, to undertake any new project, or diversification, modernization, amend or modify its Memorandum and Articles of Association/Bye Laws/Trust Deeds etc. For details of these restrictive covenants, see the chapter titled “**Financial Indebtedness**” beginning on page 110.

18. ***We are subjected to supervision and regulation by the RBI as a systemically important NBFC, and changes in RBI’s regulations governing us could adversely affect our business.***

We are subject to the RBI’s guidelines on financial regulation of NBFCs, including capital adequacy, exposure and other prudential norms. The RBI also regulates the credit flow by banks to NBFCs and provides guidelines to commercial banks with respect to their investment and credit exposure norms for lending to NBFCs. The RBI’s regulations of NBFCs could change in the future which may require us to restructure our activities, incur additional cost or could otherwise adversely affect our business and our financial performance. The RBI in its notification (RBI/2014-15/299 DNBR (PD) CC.No.002/03.10.001/2014-15)

dated November 10, 2014 has amended the regulatory framework governing NBFCs to address concerns pertaining to risks, regulatory gaps and arbitrage arising from differential regulations and aims to harmonise and simplify regulations to facilitate a smoother compliance culture among NBFCs. As per this amendment, the requirement of minimum NOF has been amended to the following milestones (a) ₹100 lacs by the end of March 2016 and (b) ₹200 lacs by the end of March 2017. Any failure to achieve the prescribed ceiling within the stipulated time period shall result in cancellation of certificate of registration. Moreover under the amendment, the threshold for defining systemic significance for NBFCs-ND has been revised in the light of the overall increase in the growth of the NBFC sector. NBFCs-ND-SI will henceforth be those NBFCs-ND which have asset size of ₹50,000 lacs and above as per the last audited balance sheet. Moreover as per this amendment, all NBFCs-ND with assets of ₹50,000 lacs and above, irrespective of whether they have accessed public funds or not, shall comply with prudential regulations as applicable to NBFCs-ND-SI. We cannot assure you that this notification and its applicability to us will not have a material and adverse effect on our future financial conditions and results of operations.

RBI has also in its circular dated May 27, 2013 restricted NBFCs to finance purchasing gold and jewellery. We cannot assure you that this notification and its applicability to us will not have a material and adverse effect on our future financial conditions and results of operations.

The RBI has not provided for any restriction on interest rates that can be charged by non-deposit taking NBFCs. Although the Non-Banking Financial Companies Prudential Norms (Reserve Bank) Directions 2007 may not be fully applicable to a non-deposit taking NBFC, there can be no assurance that the RBI and/or the Government will not implement regulations or policies, including policies or regulations or legal interpretations of existing regulations, relating to or affecting interest rates, taxation, inflation or exchange controls, or otherwise take action, that could have an adverse effect on non-deposit taking NBFCs. In addition, there can be no assurance that any changes in the laws and regulations relative to the Indian financial services industry will not adversely impact our business.

**19. *We may be subject to regulations in respect of provisioning for non-performing assets. If such provisions are not sufficient to provide adequate cover for loan losses that may occur, this could have an adverse effect on our financial condition, liquidity and results of operations.***

RBI guidelines prescribe the provisioning required in respect of our outstanding loan portfolio. These provisioning requirements may require us to reserve lower amounts than the provisioning requirements applicable to financial institutions and banks in other countries. The provisioning requirements may also require the exercise of subjective judgments of management. The RBI in its notification (RBI/2014-15/299 DNBR (PD) CC. No. 024/03.10.001/2014-15) dated March 27, 2015 has amended the regulatory framework governing NBFCs pertaining to provision for standard assets. The requirement to make a provision for standard assets has been increased from 0.25% to 0.40% of the outstanding, in a phased manner over a period of next three years.

There are multiple factors that affect the level of NPAs in our Company. Prominent among them are fall in value of gold, increase in the LTV ratio for gold loan etc.

The level of our provisions may not be adequate to cover further increases in the amount of our nonperforming assets or a decrease in the value of the underlying gold collateral. If such provisions are not sufficient to provide adequate cover for loan losses that may occur, or if we are required to increase our provisions, this could have an adverse effect on our financial condition, liquidity and results of operations and may require us to raise additional capital.

**20. *Our ability to borrow from various banks may be restricted on account of guidelines issued by the RBI, imposing restrictions on banks in relation to their exposure to NBFCs. Any limitation on our ability to borrow from such banks may increase our cost of borrowing, which could adversely impact our growth, business and financial condition.***

Under RBI Master Circular DBR.BP.BC.No.5/21.04.172/2015-16 on bank finance to NBFCs issued on July 1, 2015, the exposure (both lending and investment, including off balance sheet exposures) of a bank to a single NBFC engaged in lending against collateral of gold jewellery (i.e. such loans comprising 50% or more of its financial assets) should not exceed 7.5%, of the bank's capital funds. Banks may, however, assume exposures on a single NBFC up to 12.5%, of their capital funds, provided the exposure in excess of 7.5% is on account of funds on-lent by the NBFC to the infrastructure sector. Further, banks may also

consider fixing internal limits for their aggregate exposure to all NBFCs put together and should include internal sub-limit to all NBFCs providing Gold Loans (i.e. such loans comprising 50% or more of their financial assets), including us. This limits the exposure that banks may have on NBFCs such as us, which may restrict our ability to borrow from such banks and may increase our cost of borrowing, which could adversely impact our growth, business and financial condition.

**21. *Our Gold Loans are due within one year of disbursement, and a failure to disburse new loans may result in a reduction of our loan portfolio and a corresponding decrease in our interest income.***

The Gold Loans we offer are due within one year of disbursement. The relatively short-term nature of our loans means that we are not assured of long-term interest income streams compared to businesses that offer loans with longer terms. In addition, our existing customers may not obtain new loans from us upon maturity of their existing loans, particularly if competition increases. The short-term nature of our loan products and the potential instability of our interest income could materially and adversely affect our results of operations and financial position.

**22. *Inaccurate appraisal of gold by our personnel may adversely affect our business and financial condition.***

The accurate appraisal of pledged gold is a significant factor in the successful operation of our business and such appraisal requires a skilled and reliable workforce. Inaccurate appraisal of gold by our workforce may result in gold being overvalued and pledged for a loan that is higher in value than the gold's actual value, which could adversely affect our reputation and business. Further, we are subject to the risk that our gold appraisers may engage in fraud regarding their estimation of the value of pledged gold. Any such inaccuracies or fraud in relation to our appraisal of gold may adversely affect our reputation, business and financial condition.

**23. *Exchange rate fluctuations may adversely affect our results of operations.***

We provide foreign exchange services to our customers. Accordingly, we are exposed to risks associated with foreign exchange fluctuation. Any adverse fluctuation in foreign exchange rates could affect our results of operations.

**24. *Our branches are vulnerable to theft and burglary. While we are insured against the risk of burglary arising from our business, such insurance may not be sufficient to fully cover the losses we suffer and this may result in adverse effect on our financial condition and results of operations.***

Storage of pledged gold jewellery as part of our business entails the risk of theft/burglary and resulting loss to our reputation and business. The short tenure of the loans advanced by us and our practice of processing loan repayments within short timelines require us to store pledged gold on our premises at all points in time. With regard to cases of theft/burglaries, we may not be able to recover the entire amount of the loss suffered and may receive only a partial payment of the insurance claim. While we are insured against the risk of burglary arising from our business, such insurance may not be sufficient to fully cover the losses we suffer. Further, the actual recovery of the insured amount from the insurer requires the undertaking of certain procedures, and any delay in recovery could adversely affect our reputation and results of operation.

**25. *The insurance coverage taken by us may not be adequate to protect against certain business risks. This may adversely affect our financial condition and result of operations.***

Operating and managing a Gold Loan business involves many risks that may adversely affect our operations and the availability of insurance is therefore important to our operations. We believe that our insurance coverage is adequate to cover us. However, to the extent that any uninsured risks materialize or if it fails to effectively cover any risks, we could be exposed to substantial costs and losses that would adversely affect our financial condition. In addition, we cannot be certain that the coverage will be available in sufficient amounts to cover one or more large claims or that our insurers will not disclaim coverage as to any particular claim or claims. Occurrence of any such situation could adversely affect our financial condition and results of operations.

**26. Our entire customer base comprises individual borrowers, who generally are more likely to be affected by declining economic conditions than larger corporate borrowers.**

A majority of our customer base belongs to the low to medium income group. Furthermore, unlike many developed economies, a nationwide credit bureau has only recently become operational in India, so there is less financial information available about individuals, particularly our focus customer segment of the low to medium income group. It is therefore difficult to carry out precise credit risk analyses on our customers. While we follow certain procedures to evaluate the credit profile of our customers before we sanction a loan, we generally rely on the quality of the pledged gold rather than on a stringent analysis of the credit profile of our customers. Although we believe that our risk management controls are sufficient, we cannot be certain that they will continue to be sufficient or that additional risk management policies for individual borrowers will not be required. Failure to maintain sufficient credit assessment policies, particularly for individual borrowers, could adversely affect our loan portfolio, which could in turn have an adverse effect on our financial condition, cash flows and results of operations.

**27. We strive to attract, retain and motivate key employees, and our failure to do so could adversely affect our business. Failure to hire key executives or employees could have a significant impact on our operations.**

While we strive to attract, train, motivate and retain highly skilled employees, especially branch managers and gold assessment technical personnel, any inability on our part to hire additional personnel or retain existing qualified personnel may impair our ability to expand our business could lead to a decline of our revenue. Hiring and retaining qualified and skilled managers and sales representatives are critical to our future, and competition for experienced employees in the gold loan industry is intense. In addition, we may not be able to hire and retain enough skilled and experienced employees to replace those who leave, or may not be able to re-deploy and retain our employees to keep pace with continuing changes in technology, evolving standards and changing customer preferences. The failure to hire key executives or employees or the loss of executives and key employees could have a significant impact on our operations.

**28. We are subject to the risk of fraud by our employees and customers.**

We are exposed to the risk of fraud and other misconduct by employees and customers. While we carefully recruit all of our employees and screen all our employees who are responsible for disbursement of Gold Loans and custody of gold, there could be instances of fraud with respect to Gold Loans and cash related misappropriation by our employees. We are required to report cases of internal fraud to the RBI, which may take appropriate action. Our Company has registered an FIR against the branch manager of our Gudallur branch for fraud and misappropriation. We have also filed police complaints alleging fraud and misappropriation of gold by our employees in the past. We cannot guarantee you that such acts of fraud will not be committed in the future, and any such occurrence of fraud would adversely affect our reputation, business and results of operations.

**29. We are subject to the risk of unknowingly receiving stolen goods as collateral from customers which may result in loss of collateral for the loan disbursed**

We have in place a policy in place to satisfy ownership of the gold jewellery and have taken adequate steps to ensure that the KYC guidelines stipulated by RBI are followed and due diligence of the customer is undertaken prior to the disbursement of loans. However, in the event that we unknowingly receive stolen goods as collateral from a customer, the goods can be seized by authorities. Once seized by the authorities, gold items will be stored in court storage facilities without a surety arrangement. No recourse is generally available to our Company in the event of such seizure, except the recovery of the loss from the customer. Any seizure of the gold ornaments by the authorities shall result in us losing the collateral for the loan disbursed and could adversely affect our business and results of operations.

**30. System failures or inadequacy and security breaches in computer systems may adversely affect our operations and result in financial loss, disruption of our businesses, regulatory intervention or damage to our reputation.**

Our business is increasingly dependent on our ability to process, on a daily basis, a large number of transactions. Through our information technology systems, we manage our operations, market to our target customers, and monitor and control risks. We are dependent upon the IT software for effective monitoring & management, and any failure in our IT systems or loss of connectivity or any loss of data arising from

such failure can impact our business and results of operations.

**31. *We have entered into, and will continue to enter into, related party transactions.***

We have entered into transactions with several related parties, including our Promoters Directors and Group Companies. We cannot assure you that we could not have achieved more favourable terms had such transactions been entered into with unrelated parties. Furthermore, it is likely that we will enter into related party transactions in the future. The transactions we have entered into and any future transactions with our related parties could potentially involve conflicts of interest. For example the Company has entered in to an agreement with Mathew K. Cherian, Managing Director of the Company, for purchase of landed property amounting to ₹2,600 lacs based on the valuation report dated June 10, 2014 received from a bank approved valuer. As required under Companies Act, Company has passed a special resolution before the purchase of landed property from Mr. Mathew K. Cherian. For details in relation to transactions with related parties as per Accounting Standard 18 issued under the Companies Accounting Standard Rules entered into by us, see chapter titled “*Transactions with Related Parties - Financial Information*” on page F-34 of this Draft Prospectus.

**32. *Our internal procedures, on which we rely for obtaining information on our customers and loan collateral, may be deficient and result in business losses.***

We rely on our internal procedures for obtaining information relating to our customers and the loan collateral provided. In the event of lapses or deficiencies in our procedures or in their implementation, we may be subject to business or operational risk. For example, in the event that we unknowingly receive stolen goods as collateral from a customer, the goods can be seized by authorities. Once seized by the authorities, gold items will be stored in court storage facilities without a surety arrangement. No recourse will generally be available to the Company in the event of such seizure, except the recovery of the loss from the customer.

**33. *Our inability to open new branches at correct locations may adversely affect our business.***

Our business is dependent on our ability to service and support our customers from proximate locations and thereby giving our customers easy access to our services. Further, it is vital for us to be present in key locations for sourcing business as we depend on these branches to earn revenue. Thus any inability on our part to open new branches at correct locations may adversely affect our business and results of operations.

**34. *Our inability to obtain, renew or maintain our statutory and regulatory permits and approvals required to operate our business may have a material adverse effect on our business, financial condition and results of operations.***

NBFCs in India are subject to strict regulations and supervision by the RBI. In addition to the numerous conditions required for the registration as a NBFC with the RBI, we are required to maintain certain statutory and regulatory permits and approvals for our business. In the future, we will be required to renew such permits and approvals and obtain new permits and approvals for any proposed operations. There can be no assurance that the relevant authorities will issue any of such permits or approvals in the time-frame anticipated by us or at all. Failure on our part to renew, maintain or obtain the required permits or approvals may result in the interruption of our operations and may have a material adverse effect on our business, financial condition and results of operations.

In addition, our branches are required to be registered under the relevant shops and establishments laws of the states in which they are located. The shops and establishment laws regulate various employment conditions, including working hours, holidays and leave and overtime compensation. Some of our branches have not applied for such registration while other branches still have applications for registration pending. If we fail to obtain or retain any of these approvals or licenses, or renewals thereof, in a timely manner, or at all, our business may be adversely affected. If we fail to comply, or a regulator claims we have not complied, with any of these conditions, our certificate of registration may be suspended or cancelled and we shall not be able to carry on such activities.

**35. *All our branch premises, except three branches are acquired on lease. Any termination of arrangements for lease of our branches or our failure to renew the same in a favourable, timely manner, could adversely affect our business and results of operations.***

As on June 30, 2016 we had 950 branches in eight states and one union territory. Except three branches which are owned by us, the remaining are located on leased premises. If any of the owners of these premises does not renew an agreement under which we occupy the premises, attempts to evict us or seeks to renew an agreement on terms and conditions non-acceptable to us, we may suffer a disruption in our operations or increased costs, or both, which may adversely affect our business and results of operations.

**36. *We are venturing into new business areas and the sustainability, effective management and failure of growth strategy could adversely affect our business and result of operations.***

We are entering new businesses as part of our growth strategy. For example, we have received a corporate insurance agency license from IRDA under the Insurance Act, 1938 for acting as a corporate agent for the Life Insurance Corporation of India, which will enable us to market their life insurance plans. Further, our Company has also begun offering loans against collateral of commercial or residential property. We have little or no operating experience with such businesses, and you should consider the risks and difficulties we may encounter by entering into new lines of business. New businesses may require significant capital investments and commitments of time from our senior management, and there often is little or no prospect of earnings in a new business for several years. Moreover, there is no assurance any new business we develop or enter will commence in accordance with our timelines, if at all, which could result in additional costs and time commitments from our senior management. There also can be no assurance that our management will be able to develop the skills necessary to successfully manage these new business areas. Our inability to effectively manage any of the above issues could materially and adversely affect our business and impact our future financial performance.

**RISKS PERTAINING TO THIS ISSUE**

**1. *There are certain risks in connection with the Unsecured NCDs.***

The Unsecured NCDs will be in the nature of Subordinated Debt and hence the claims of the holders thereof will be subordinated to the claims of other secured and other unsecured creditors of our Company. Further, since no charge upon the assets of our Company would be created in connection with the Unsecured NCDs, in the event of default in connection therewith, the holders of Unsecured NCDs may not be able to recover their principal amount and/or the interest accrued thereon in a timely manner, for the entire value of the Unsecured NCDs held by them or at all. Accordingly, in such a case the holders of the Unsecured NCDs may lose all or a part of their investment therein. Further, the payment of interest and the repayment of the principal amount in connection with the Unsecured NCDs would be subject to the requirements of RBI, which may also require our Company to obtain prior approval from the RBI in certain circumstances.

**2. *Changes in interest rates may affect the price of our NCDs which frequently accompany inflation and/or a growing economy, are likely to have a negative effect on the price of our NCDs.***

All securities where a fixed rate of interest is offered, such as our NCDs, are subject to price risk. The price of such securities will vary inversely with changes in prevailing interest rates, i.e., when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of prevailing interest rates. Increased rates of interest, which frequently accompany inflation and/or a growing economy, are likely to have a negative effect on the price of our NCDs.

**3. *You may not be able to recover, on a timely basis or at all, the full value of the outstanding amounts and/or the interest accrued thereon in connection with the NCDs.***

Our ability to pay interest accrued on the NCDs and/or the principal amount outstanding from time to time in connection therewith would be subject to various factors inter-alia including our financial condition, profitability and the general economic conditions in India and in the global financial markets. We cannot assure you that we would be able to repay the principal amount outstanding from time to time on the NCDs and/or the interest accrued thereon in a timely manner or at all.

**4. *We are required to create a debenture redemption reserve equivalent to 25% of the value of the NCD offered through this Issue and we may not have access to adequate funds to redeem the full quantum of the NCDs at the closure of the redemption period.***

Regulation 16 of the SEBI Debt Regulations and Section 71 of the Companies Act 2013 states that any

company that intends to issue debentures must create a Debenture Redemption Reserve out of the profits of the company available for payment of dividend until the redemption of the debentures. Further, the Companies (Share Capital and Debentures) Rules, 2014 states that the Company shall create Debenture Redemption Reserve and 'the adequacy' of DRR will be 25% of the value of outstanding debentures issued through public issue as per present SEBI Debt Regulations. Accordingly, if we are unable to generate adequate profits, the DRR created by us may not be adequate to meet the 25% of the value of the outstanding NCDs. Further, every company required to create Debenture Redemption Reserve shall on or before the 30th day of April in each year, invest or deposit, as the case may be, a sum which shall not be less than fifteen percent, of the amount of its debentures maturing during the year ending on the 31st day of March of the next year, in any one or more of the following methods, namely:(i) in deposits with any scheduled bank, free from any charge or lien;(ii) in unencumbered securities of the Central Government or of any State Government; (iii) in unencumbered securities mentioned in sub-clauses (a) to (d) and (ee) of Section 20 of the Indian Trusts Act, 1882; (iv) in unencumbered bonds issued by any other company which is notified under sub-clause (f) of Section 20 of the Indian Trusts Act, 1882; (v) the amount invested or deposited as above shall not be used for any purpose other than for redemption of debentures maturing during the year referred above, provided that the amount remaining invested or deposited, as the case may be, shall not at any time fall below fifteen percent of the amount of the debentures maturing during the year ending on the 31st day of March of that year. If we do not generate adequate profits, we may not be able to maintain an adequate DRR for the NCDs issued pursuant to this Draft Prospectus, which may have a bearing on the timely redemption of the NCDs by our Company

5. ***There is no assurance that the NCDs issued pursuant to this Issue will be listed on BSE Limited in a timely manner, or at all.***

In accordance with Indian law and practice, permission for listing and trading of the NCD issued pursuant to this issue will not be granted until after the NCDs have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issue of NCDs to be submitted. There could be a failure or delay in listing the NCDs in BSE.

6. ***There may be no active market for the NCDs on the retail debt market/capital market segment of the BSE. As a result the liquidity and market prices of the NCDs may fail to develop and may accordingly be adversely affected.***

There can be no assurance that an active market for the NCDs will develop. If an active market for the NCDs fails to develop or be sustained, the liquidity and market prices of the NCDs may be adversely affected. The market price of the NCDs would depend on various factors inter alia including (i) the interest rate on similar securities available in the market and the general interest rate scenario in the country, (ii) the market price of our Equity Shares, (iii) the market for listed debt securities, (iv) general economic conditions, and, (v) our financial performance, growth prospects and results of operations. The aforementioned factors may adversely affect the liquidity and market price of the NCDs, which may trade at a discount to the price at which you purchase the NCDs and/or be relatively illiquid.

7. ***Our Company may raise further borrowings and charge its assets after receipt of necessary consents from its existing lenders. In such a scenario, the Debenture Holders holding the Secured NCDs will rank pari passu with other secured creditors and to that extent, may reduce the amounts recoverable by the Debenture Holders upon our Company's bankruptcy, winding up or liquidation***

Our Company may, subject to receipt of all necessary consents from its existing lenders and the Debenture Trustee to the Issue, raise further borrowings and charge its assets. Our Company is free to decide the nature of security that may be provided for future borrowings. In such a scenario, the Debenture Holders holding the Secured NCDs will rank pari passu with other creditors and to that extent, may reduce the amounts recoverable by the Debenture Holders upon our Company's bankruptcy, winding up or liquidation.

8. ***Payments to be made on the NCDs are subordinated to certain taxes and other liabilities preferred by law. In the event of bankruptcy, liquidation or winding-up, there may not be sufficient assets of our Company remaining, to pay amounts due on the NCDs.***

The NCDs will be subordinated to certain liabilities preferred by law such as the claims of the Government on account of taxes, and certain liabilities incurred in the ordinary course of our business. In particular, in the event of bankruptcy, liquidation or winding-up, our Company's assets will be available to pay obligations on the NCDs only after all of those liabilities that rank senior to the NCDs have been paid as per Section 530 of

the Companies Act, 1956. In the event of bankruptcy, liquidation or winding-up, there may not be sufficient assets remaining to pay amounts, due on the NCDs.

**9. *The fund requirement and deployment mentioned in the Objects of the Issue have not been appraised by any bank or financial institution.***

We intend to use the proceeds of the Issue, after meeting the expenditures of and related to the Issue, for the purpose of onward lending and for repayment of interest and principal of existing loans and also for general corporate purposes. For further details, please refer to the “*Objects of the Issue*” at page 65. The fund requirement and deployment is based on internal management estimates and has not been appraised by any bank or financial institution. The management will have significant flexibility in applying the proceeds received by us from the Issue. Further, as per the provisions of the Debt Regulations, we are not required to appoint a monitoring agency and therefore no monitoring agency has been appointed for the Issue.

**10. *The liquidity for the NCDs in the secondary market is very low and it may remain so in the future and the price of the Bonds may be volatile.***

The Issue will be a new public issue of NCDs for our Company and the liquidity in NCDs at present is very low in the secondary market. Although an application has been made to list the NCDs on BSE, there can be no assurance that liquidity for the NCDs will improve, and if liquidity for the NCDs were to improve, there is no obligation on us to maintain the secondary market. The liquidity and market prices of the NCDs can be expected to vary with changes in market and economic conditions, our financial condition and prospects and other factors that generally influence market price of NCDs. Such fluctuations may significantly affect the liquidity and market price of the NCDs, which may trade at a discount to the price at which you purchase the NCDs.

**11. *We rely significantly on our management team, our key managerial personnel and our ability to attract and retain talent. Loss of any member from our management team or that of our key managerial personnel may adversely affect our business and results of operation.***

We rely significantly on our core management team which oversees the operations, strategy and growth of our businesses. Our key managerial personnel have been integral to our development. Our success is largely dependent on our management team which ensures the implementation of our strategy. If one or more members of our management team are unable or unwilling to continue in their present positions, they may be difficult to replace, and our business and results of operation may be adversely affected.

**12. *We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and the NBFC and Gold Loan industries contained in this Draft Prospectus.***

While facts and other statistics in this Draft Prospectus relating to India, the Indian economy as well as the Gold Loan industry have been based on various publications and reports from agencies that we believe are reliable, we cannot guarantee the quality or reliability of such materials, particularly since there is limited publicly available information specific to the Gold Loan industry. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics, the same have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled “*Industry Overview*” beginning on page 67. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

## **EXTERNAL RISK FACTORS**

**1. *Financial difficulties and other problems in certain financial institutions in India could cause our business to suffer and adversely affect our results of operations.***

We are exposed to the risks of the Indian financial system, which in turn may be affected by financial difficulties and other problems faced by certain Indian financial institutions. Certain Indian financial institutions have experienced difficulties during recent years. Some co-operative banks (which tend to operate in rural sector) have also faced serious financial and liquidity crises. There has been a trend towards consolidation with weaker banks, NBFCs and HFCs being merged with stronger entities. The problems faced

by individual Indian financial institutions and any instability in or difficulties faced by the Indian financial system generally could create adverse market perception about Indian financial institutions, banks and NBFCs. This in turn could adversely affect our business, our future financial performance, our shareholders' funds and the market price of our NCDs.

**2. *Terrorist attacks, civil unrest and other acts of violence or war involving India and other countries could adversely affect the financial markets and our business***

Terrorist attacks and other acts of violence or war may negatively affect our business and may also adversely affect the worldwide financial markets. These acts may also result in a loss of business confidence. In addition, any deterioration in relations between India and its neighbouring countries might result in investor concern about stability in the region, which could adversely affect our business.

India has also witnessed civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic and political events in India could have a negative impact on us. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse impact on our business and the market price of our NCDs.

**3. *Natural calamities could have a negative impact on the Indian economy, particularly the agriculture sector, and cause our business to suffer.***

India has experienced natural calamities such as earthquakes, a tsunami, floods and drought in the past few years. The extent and severity of these natural disasters determines their impact on the Indian economy. Further, prolonged spells of below normal rainfall or other natural calamities could have a negative impact on the Indian economy thereby, adversely affecting our business.

**4. *Any downgrading of India's debt rating by an international rating agency could have a negative impact on our business.***

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, the interest rates and other commercial terms at which such additional financing is available. This could have a material adverse effect on our business and financial performance, our ability to raise financing for onward lending and the price of our NCDs.

**5. *Instability of economic policies and the political situation in India could adversely affect the fortunes of the industry.***

There is no assurance that the liberalization policies of the government will continue in the future. Protests against privatization could slow down the pace of liberalization and deregulation. The Government of India plays an important role by regulating the policies and regulations that govern the private sector. The current economic policies of the government may change at a later date. The pace of economic liberalization could change and specific laws and policies affecting the industry and other policies affecting investments in our Company's business could change as well. A significant change in India's economic liberalization and deregulation policies could disrupt business and economic conditions in India and thereby affect our Company's business.

Unstable domestic as well as international political environment could impact the economic performance in the short term as well as the long term. The Government of India has pursued the economic liberalization policies including relaxing restrictions on the private sector over the past several years. The present Government has also announced policies and taken initiatives that support continued economic liberalization. The Government has traditionally exercised and continues to exercise a significant influence over many aspects of the Indian economy. Our Company's business may be affected not only by changes in interest rates, changes in Government policy, taxation, social and civil unrest but also by other political, economic or other developments in or affecting India.

6. *As notified under Companies Act, 2013, public companies falling under specific categories, are required to prepare financial statements under the new accounting standards namely IND AS with effect from financial year 2016-17. While this is not applicable to NBFCs at the present, if the same is made applicable in the future, we may be negatively affected by this transition.*

The MCA, on February 16, 2015 has notified that IND AS will be implemented in a phased manner starting from financial year 2016-17. Currently, MCA has exempted NBFC's from this notification. We are not sure whether it will be made applicable in future and the timelines for implementation for NBFC's. We have not determined with any degree of certainty the impact that such adoption will have on our financial reporting. Additionally, IND AS has fundamental differences with the existing accounting standards and therefore, financial statements prepared under IND AS may differ substantially from financial statements prepared under the existing framework of accounting standards. There can be no assurance that our financial condition, results of operation, cash flows or changes in shareholders' equity will not appear materially different under IND AS, Indian GAAP or IFRS. If we adopt IND AS reporting, we may encounter difficulties in the ongoing process of implementing and enhancing our management information systems. There can be no assurance that our adoption of IND AS, if required, will not affect our reported results of operations, financial condition and failure to successfully adopt IND AS in accordance with prescribed statutory and/or regulatory requirements within the timelines as may be prescribed may have an adverse effect on our financial position and results of operations.

### Our Strengths

***We are part of the Kosamattam Group which has a long operating history and a large customer base.***

The Kosamattam Group was originally founded by Mr. Chacko Varkey. Over the years, we have been successful in expanding our customer base. Our total number of Gold Loan customers grew from 3,69,925 as of March 31, 2015 to 3,98,145 as of March 31, 2016 and to 4,03,544 as of June 30, 2016. We attribute our growth, in part, to our market penetration, particularly in areas less served by organized lending institutions and the efficient and streamlined procedural formalities which our customers need to complete in order to complete a loan transaction with us, which makes us a preferred medium of financier for our customers. We also attribute our growth to customer loyalty which in turn leads to repeat business. We believe that a large portion of our customer base returns to us to avail credit facility when they are in need of funds.

### Branch network across rural and semi-urban areas in South India

We have rapidly expanded our branch network in the past, which we believe has provided us with an advantage of a wider reach. Our total number of branches grew from 647 branches in six states and one union territory as on June 30, 2013 to 950 branches, as on June 30, 2016, in eight states and one union territory. Although we have historically had most of our branches in the southern states of India, we have expanded our branch network by opening 11 branches in Delhi, five branches in Gujarat and three branches in Maharashtra. Our customers are typically retail customers, businessmen, vendors, traders, farmers, salaried individuals and families, who for reasons of convenience, accessibility or necessity, avail of our credit facilities by pledging their gold jewellery with us. We believe that with such a large network, we were able to penetrate and cater to our customers across various cities and towns in south India especially in semi-urban locations. Having such a network enables us to

service and support our existing customers from proximate locations which gives our customers easy access to our services and enables us to reach new customers especially potential rural customers. We believe we can leverage on this existing network for further expansion and for fulfilling our customer requirements.

### ***Organized and efficient IT Infrastructure***

We use information technology as a strategic tool for our business operations to improve our overall productivity and efficiency. All our branches are computerized. We believe that through our existing information technology systems, we are able to effectively, manage our operations, market to our target customers, and monitor and control risks. We believe that this system has improved customer service by reducing transaction time and has allowed us to comply with regulatory record-keeping and reporting requirements. Further, in order to manage our expanding operations as well as our increased customer base, we have entered into an arrangement for the development of software for our product offerings and other allied functions. Accordingly, the new software was introduced for operational efficiency.

### ***Effective risk management system including appraisal, internal audit and inspections.***

Risk management forms an integral part of our business as we are exposed to various risks relating to the Gold Loan business. The objective of our risk management system is to measure and monitor the various risks we are subject to and to implement policies and procedures to address such risks. We have an internal audit system which consists of audit and inspection, for risk assessment and internal controls. The audit system comprises of accounts audit and gold appraisal. In accordance with our internal audit policy, all of our branches are subject to surprise gold audit every month and accounts audit once in very four months. Further the staffs are strictly advised to make the acid test, sound test etc., at the time of making the pledge for checking whether the ornament is of acceptable quality or not.

### ***Experienced management team and skilled personnel***

Our Company is a professionally managed NBFC. Our management team comprises of our Promoter Director, Mr. Mathew K Cherian, who has over 36 years of experience in finance business. The management team possesses the required skill, expertise and vision to continue and to expand the business of our Company. Our management team has an in-depth understanding of the gold loan business and under their direction and guidance our Company has grown organically.

### ***Strategy***

Our business strategy is designed to capitalize on our competitive strengths and enhance our position in the Gold Loan industry. Key elements of our strategy include:

#### ***Expansion of business activity by opening new branches in rural and semi urban areas to tap potential market for gold loans***

We intend to continue to grow our loan portfolio by expanding our branch network by opening new branches. A good reach to customers is very important in our business. Increased revenue, profitability and visibility are the factors that drive the branch network. Currently, we are present in key locations which are predominantly in South India for sourcing business. Our strategy for branch expansion includes further strengthening our presence in South Indian States by providing higher accessibility to customers as well as leveraging our expertise and presence in Southern India. We have added 303 branches in the last three years and expect this growth trend to continue in the future. At the core of our branch expansion strategy, we expect to penetrate new markets and expand our customer base in rural and semi-urban markets where a large portion of the population has limited access to credit either because they do not meet the eligibility requirements of banks or financial institutions, or because credit is not available in a timely manner at reasonable rates of interest, or at all. A typical Gold Loan customer expects high loan-to-value ratios, rapid and accurate appraisals, easy access, quick approval and disbursement and safekeeping of their pledged gold jewellery. We believe that we meet these criteria when compared to other unregulated money lenders, and thus our focus is to expand our Gold Loan business.

#### ***Expansion of business into metros and select Tier 1 cities across India***

In addition to our continuing focus on rural and semi-urban markets in the states that we are present, we are also focusing on opening branches in metros and select Tier 1 cities where we believe our business has high growth

potential. We carefully assess the market, location and proximity to target customers when selecting branch sites to ensure that our branches are set up close to our target customers. We believe our customers appreciate this convenience and it enables us to reach new customers.

***Increase visibility of Kosamattam Brand to attract new customers***

Our brand is key to the growth of our business. We started focusing on brand building exercise in 2013. Our logo was re-designed and the tag- line ‘*Trust grows with time*’ was introduced. We believe that we have built a recognizable brand in the rural and semi-urban markets of India, particularly in the southern states of Kerala, Tamil Nadu and Karnataka. We intend to continue to build our brand through advertisements and public relations campaigns and undertaking other marketing efforts on radio, television and outdoor advertising.

***Diversifying into new business initiatives by leveraging our branch network and customer base.***

Gold Loan as on June 30, 2016 accounted for 89.64% of total loans of our Company. To reduce the risk of revenue volatility and with a view to expand our fee based income, we are in the process of diversifying our business to venture into the business of generators and distributors of electricity by using wind and/or other renewable energy. Further, we have received a license dated May 28, 2014 from SEBI to become a depository participant. Our Company intends to capitalise the large branch network to offer the additional products and services.

***Minimize concentration risk by diversifying the Product Portfolio and expanding our customer base.***

We intend to further improve the diversity of our product portfolio to cater to the various financial needs of our customers and increase the share of income derived from sale of financial products and services.

Beyond our existing Gold Loan product, we intend to leverage our brand and office network, develop complementary business lines and become the preferred provider of financial products—a one-stop shop for customers’ financial needs. We have recently forayed into SME financing and mortgage loans.

Our diverse revenue stream will reduce our dependence on any particular product line thus enabling us to spread and mitigate our risk exposure to any particular industry, business, geography or customer segment. Offering a wide range of products helps us attract more customers thereby increasing our scale of operations.

We expect that complementary business lines will allow us to offer new products to existing customers while attracting new customers as well. We expect that our knowledge of local markets will allow us to diversify into products desired by our customers, differentiating us from our competitors.

***Further strengthen our risk management, loan appraisal and technology systems***

We believe risk management is a crucial element for further expansion of our Gold Loan business. We therefore continually focus on improving our integrated risk management framework with processes for identifying, measuring, monitoring, reporting and mitigating key risks, including credit risk, appraisal risk, custodial risk, market risk and operational risk. We plan to continue to adapt our risk management procedures, to take account of trends we have identified. We believe that prudent risk management policies and development of tailored credit procedures will allow us to expand our Gold Loan financing business without significantly increasing our non-performing assets. Since we plan to expand our geographic reach as well as our scale of operations, we intend to further develop and strengthen our technology platform to support our growth and improve the quality of our services. We are focused on improving our comprehensive knowledge base and customer profile and support systems, which in turn will assist us in the expansion of our business.

## STATEMENT OF POSSIBLE TAX BENEFITS AVAILABLE TO THE DEBENTURE HOLDERS

The Board of Directors  
**Kosamattam Finance Limited**  
Kosamattam MKC Building,  
Marketing Junction,  
ML Road,  
Kottayam-686001,  
Kerala

The following tax benefits will be available to the debenture holders as per the existing provisions law. The tax benefits are given as per the prevailing tax laws and may vary from time to time in accordance with amendments to the law or enactments thereto. The debenture holder is advised to consider the tax implications in respect of subscription to the debentures after consulting his tax advisor as alternate views are possible. We are not liable to the debenture holder in any manner for placing reliance upon the contents of this statement of tax benefits.

### A. IMPLICATIONS UNDER THE INCOME-TAX ACT, 1961 (“I.T. ACT”)

#### (i) To the Resident Debenture Holder

1. Interest on NCD received by debenture holders would be subject to tax at the normal rates of tax in accordance with and subject to the provisions of the I.T. Act and such tax would need to be withheld at the time of credit/payment as per the provisions of Section 193 of the I.T. Act. However, no income tax is deductible at source in respect of the following:
  - (a) In case the payment of interest on debentures to a resident individual or a Hindu undivided family (“HUF”) Debenture Holder does not or is not likely to exceed ₹5,000/- in the aggregate during the Financial Year and the interest is paid by an account payee cheque.
  - (b) On any security issued by a company in a dematerialized form and is listed on recognized stock exchange in India in accordance with the Securities Contracts (Regulation) Act, 1956 and the rules made there under (with effect from June 01, 2008).
  - (c) When the Assessing Officer issues a certificate on an application by a Debenture Holder on satisfaction that the total income of the Debenture Holder justifies no/lower deduction of tax at source as per the provisions of Section 197(1) of the I.T. Act; and that certificate is filed with the Company before the prescribed date of closure of books for payment of debenture interest.
  - (d) (i) When the resident Debenture Holder with Permanent Account Number (“PAN”) (not being a company or a firm) submits a declaration as per the provisions of Section 197A (1A) of the I.T. Act in the prescribed form 15G verified in the prescribed manner to the effect that the tax on his estimated total income of the financial year in which such income is to be included in computing his total income will be NIL. However under Section 197A (1B) of the I.T. Act, “form 15G cannot be submitted nor considered for exemption from tax deduction at source if the dividend income referred to in Section 194 of the I.T. Act, interest on securities, interest, withdrawal from NSS and income from units of mutual fund or of Unit Trust of India as the case may be or the aggregate of the amounts of such incomes credited or paid or likely to be credited or paid during the previous year in which such income is to be included exceeds the maximum amount which is not chargeable to income tax”.

To illustrate for the Financial Year 2016-17, the maximum amount of income not chargeable to tax in case of individuals (other than senior citizens and super senior citizens) and HUFs is ₹ 250,000/-; in the case of every individual being a resident in India, who is of the age of 60 years or more but less than 80 years at any time during the Financial Year (Senior Citizen) is ₹300,000/-; and in the case of every individual being a resident in India, who is of the age of 80 years or more at any time during the Financial Year (Super Senior Citizen) is ₹ 5,00,000/-.

Further, section 87A of the I.T. Act provides a rebate of 100% of income-tax or an amount of ₹5,000/- whichever is less to a resident individual whose total income does not exceed ₹ 500,000/-.

(ii) Senior citizens, who are 60 or more years of age at any time during the financial year, enjoy the special privilege to submit a self-declaration in the prescribed Form 15H for non-deduction of tax at source in accordance with the provisions of Section 197A (1C) of the I.T. Act even if the aggregate income credited or paid or likely to be credited or paid exceeds the maximum amount not chargeable to tax, provided that the tax due on total income of the person is NIL.

(iii) In all other situations, tax would be deducted at source as per prevailing provisions of the I.T. Act. Form No. 15G with PAN/Form No.15H with PAN/Certificate issued under Section 197(1) has to be filed with the Company before the prescribed date of closure of books for payment of debenture interest without any tax withholding.

2. In case where tax has to be deducted at source while paying debenture interest, the Company is not required to deduct surcharge, education cess and secondary and higher education cess.
3. As per Section 2(29A) of the I.T. Act, read with Section 2 (42A) of the I.T. Act, a listed debenture is treated as a long term capital asset if the same is held for more than 12 months immediately preceding the date of its transfer. Under Section 112 of the I.T. Act, capital gains arising on the transfer of long term capital assets being listed securities are subject to tax at the rate of 20% of capital gains calculated after reducing indexed cost of acquisition or 10% of capital gains without indexation of the cost of acquisition. The capital gains will be computed by deducting expenditure incurred in connection with such transfer and cost of acquisition / indexed cost of acquisition of the debentures from the sale consideration.

If transfer takes place after July 10, 2014, the above concessional rate of 10 percent will not be available in the case of long-term capital gain which arises on transfer of debt oriented mutual fund units.

However, as per the third proviso to Section 48 of I.T. Act, benefit of indexation of cost of acquisition under second proviso of Section 48 of I.T. Act, is not available in case of bonds and debenture, except capital indexed bonds. Thus, long term capital gains arising out of listed debentures would be subject to tax at the rate of 10% computed without indexation.

In case of an individual or HUF, being a resident, where the total income as reduced by such long-term capital gains is below the maximum amount which is not chargeable to income-tax, then, such long-term capital gains shall be reduced by the amount by which the total income as so reduced falls short of the maximum amount which is not chargeable to income-tax and the tax on the balance of such long-term capital gains shall be computed at the rate mentioned above.

4. Short-term capital gains on the transfer of listed debentures, where debentures are held for a period of not more than 12 months would be taxed at the normal rates of tax in accordance with and subject to the provisions of the I.T. Act. The provisions relating to maximum amount not chargeable to tax described at para 3 above would also apply to such short term capital gains.
5. In case the debentures are held as stock in trade, the income on transfer of debentures would be taxed as business income or loss in accordance with and subject to the provisions of the I.T. Act. Further, where the debentures are sold by the Debenture Holder(s) before maturity, the gains arising there from are generally treated as capital gains or business income, as the case may be. However, there is an exposure that the Indian Revenue Authorities (especially at lower level) may seek to challenge the said characterisation (especially considering the provisions explained in Para V below) and hold such gains/income as interest income in the hands of such Debenture Holder(s). Further, cumulative or regular returns on debentures held till maturity would generally be taxable as interest income taxable under the head Income from other sources where debentures are held as investments or business income where debentures are held as trading asset / stock in trade.

#### **(ii) To the Non-Resident Debenture Holder**

1. A non-resident Indian has an option to be governed by Chapter XII-A of the I.T. Act, subject to the provisions contained therein which are given in brief as under:
  - (a) As per Section 115E of the I.T. Act, interest income from Debentures acquired or purchased with or subscribed to in convertible foreign exchange will be taxable at 20%, whereas, long term capital gains on transfer of such Debentures will be taxable at 10% of such capital gains without indexation of cost of

- acquisition. Short-term capital gains will be taxable at the normal rates of tax in accordance with and subject to the provisions contained therein.
- (b) As per Section 115F of the I.T. Act, long term capital gains arising to a non-resident Indian from transfer of debentures acquired or purchased with or subscribed to in convertible foreign exchange will be exempt from capital gain tax if the net consideration is invested within six months after the date of transfer of the debentures in any specified asset or in any saving certificates referred to in Section 10(4B) of the I.T. Act in accordance with and subject to the provisions contained therein. To avail the benefit the conditions as stipulated in the provision the section 115F of the Act should be complied with.
  - (c) As per Section 115G of the I.T. Act, it shall not be necessary for a non-resident Indian to file a return of income under Section 139(1) of the I.T. Act, if his total income consists only of investment income as defined under Section 115C and/or long term capital gains earned on transfer of such investment acquired out of convertible foreign exchange, and the tax has been deducted at source from such income under the provisions of chapter XVII-B of the I.T. Act in accordance with and subject to the provisions contained therein.
  - (d) Under Section 115H of the I.T. Act, where a non-resident Indian becomes a resident in India in any subsequent year, he may furnish to the Assessing Officer a declaration in writing along with return of income under Section 139 for the assessment year for which he is assessable as a resident, to the effect that the provisions of Chapter XII-A shall continue to apply to him in relation to the investment income (other than on shares in an Indian company) derived from any foreign exchange assets in accordance with and subject to the provisions contained therein. On doing so, the provisions of Chapter XII-A shall continue to apply to him in relation to such income for that assessment year and for every subsequent assessment year until the transfer or conversion (otherwise than by transfer) into money of such assets.
2. In accordance with and subject to the provisions of Section 115I of the I.T. Act, a Non-Resident Indian may opt not to be governed by the provisions of Chapter XII-A of the I.T. Act. In that case,
    - (a) Long term capital gains on transfer of listed debentures would be subject to tax at the rate of 10% computed without indexation.
    - (b) Investment income and short-term capital gains on the transfer of listed debentures, where debentures are held for a period of not more than 12 months preceding the date of transfer, would be taxed at the normal rates of tax in accordance with and subject to the provisions of the I.T. Act
    - (c) Where, debentures are held as stock in trade, the income on transfer of debentures would be taxed as business income or loss in accordance with and subject to the provisions of the I.T. Act.
  3. Under Section 195 of the I.T. Act, the applicable rate of tax deduction at source is 20% on investment income and 10% on any long-term capital gains as per Section 115E, and at the normal rates for Short Term Capital Gains if the payee Debenture Holder is a Non-Resident Indian.
  4. The income tax deducted shall be increased by a surcharge as under:
    - (a) In the case of non-resident Indian surcharge at the rate of 15 % of such tax where the income or the aggregate of such income paid or likely to be paid and subject to the deduction exceeds ₹10,000,000/-
    - (b) In the case of non-domestic company, at the rate of 2% of such income tax where the income or the aggregate of such income paid or likely to be paid and subject to deduction exceeds ₹10,000,000/- but does not exceed ₹ 100,000,000/-
    - (c) In the case of non-domestic company, at the rate of 5% of such income tax where the income or the aggregate of such income paid or likely to be paid and subject to the deduction exceeds ₹100,000,000/-Further 2% education cess and 1% secondary and higher education cess on the total income tax (including surcharge) is also deductible.
  5. As per Section 90(2) of the I.T. Act read with the circular no. 728 dated October 30, 1995 issued by the Central Board of Direct Taxes ('CBDT'), in the case of a remittance to a country with which a Double Tax

Avoidance Agreement (“DTAA”) is in force, the tax should be deducted at the rate provided in the Finance Act of the relevant year or at the rate provided in the DTAA, whichever is more beneficial to the assessee. However, submission of tax residency certificate (‘TCA’) is a mandatory condition for availing benefits under any DTAA. In terms of Chapter XA of the Income Tax Act General Anti Avoidance Rule may be invoked notwithstanding anything contained in the Act. By this Rule any arrangement entered into by an assessee may be declared to be impermissible avoidance arrangement as defined in that Chapter and the consequence would be inter-alia denial of tax benefit, applicable w.e.f.01-04-2016.

6. Alternatively, to ensure non-deduction or lower deduction of tax at source, as the case may be, the Debenture Holder should furnish a certificate under Section 197(1) of the I.T. Act, from the Assessing Officer before the prescribed date of closure of books for payment of debenture interest. However, an application for the issuance of such certificate would not be entertained in the absence of PAN as per the provisions of Section 206AA.
7. Where, debentures are held as stock in trade, the income on transfer of debentures would be taxed as business income or loss in accordance with and subject to the provisions of the I.T. Act. Further, where the debentures are sold by the Debenture Holder(s) before maturity, the gains arising therefrom are generally treated as capital gains or business income, as the case may be. However, there is an exposure that the Indian Revenue Authorities (especially at lower level) may seek to challenge the said characterisation (especially considering the provisions explained in Para V below) and hold such gains/income as interest income in the hands of such Debenture Holder(s). Further, cumulative or regular returns on debentures held till maturity would generally be taxable as interest income taxable under the head Income from other sources where debentures are held as investments or business income where debentures are held as trading asset / stock in trade.

### **(iii) To the Foreign Institutional Investors (FIIs)**

1. In accordance with and subject to the provisions of Section 115AD of the I.T. Act, long term capital gains on transfer of debentures by FIIs are taxable at 10% (plus applicable surcharge and education and secondary and higher education cess) and short-term capital gains are taxable at 30% (plus applicable surcharge and education and secondary and higher education cess). The benefit of cost indexation will not be available. Further, benefit of provisions of the first proviso of Section 48 of the I.T. Act will not apply.
2. Income other than capital gains arising out of debentures is taxable at 20% in accordance with and subject to the provisions of Section 115AD of the I.T. Act.
3. The Finance Act, 2013 (by way of insertion of a new section 194LD in the I.T. Act) provides for lower rate of withholding tax at the rate of 5% on payment by way of interest paid by an Indian company to FIIs and qualified foreign investor in respect of rupee denominated bond of an Indian company between June 01, 2013 and June 01, 2017 provided such rate does not exceed the rate as may be notified by the Government.
4. In accordance with and subject to the provisions of Section 196D (2) of the I.T. Act, no deduction of tax at source is applicable in respect of capital gains arising on the transfer of debentures by FIIs.
5. The provisions at paragraph II (4, 5, 6 and 7) above would also apply to FIIs.

### **(iv) To the Other Eligible Institutions**

All mutual funds registered under Securities Exchange Board of India or set up by public sector banks or public financial institutions or authorised by the Reserve Bank of India are exempt from tax on all their income, including income from investment in Debentures under the provisions of Section 10(23D) of the I.T. Act subject to and in accordance with the provisions contained therein.

### **(v) Exemption under sections 54EC and 54F of the I.T. Act**

1. Under Section 54EC of the I.T. Act, long term capital gains arising to the debenture holders on transfer of their debentures in the company shall not be chargeable to tax to the extent such capital gains are invested in certain notified bonds within six months after the date of transfer. If only part of the capital gain is so invested, the exemption shall be proportionately reduced. However, if the said notified bonds are transferred or converted into money within a period of three years from their date of acquisition, the amount of capital gains exempted earlier would become chargeable to tax as long term capital gains in the year in which the bonds are transferred or converted into money. However, the exemption is subject to a limit of investment of ₹5,000,000/- during any financial year in the notified bonds. Where the benefit

of Section 54EC of the I.T. Act has been availed of on investments in the notified bonds, a deduction from the income with reference to such cost shall not be allowed under Section 80C of the I.T. Act.

With effect from 1st April, 2015 and will, accordingly, apply in relation to assessment year 2015-16 and subsequent years, the investment made by an assessee in the long-term specified asset, from capital gains arising from transfer of one or more original assets, during the financial year in which the original asset or assets are transferred and in the subsequent financial year does not exceed fifty lakh rupees.

2. As per the provisions of Section 54F of the I.T. Act, any long-term capital gains on transfer of a long term capital asset (not being residential house) arising to a Debenture Holder who is an individual or Hindu Undivided Family, is exempt from tax if the entire net sales consideration is utilized, within a period of one year before, or two years after the date of transfer, in purchase of a new residential house, or for construction of residential house within three years from the date of transfer. If part of such net sales consideration is invested within the prescribed period in a residential house, then such gains would be chargeable to tax on a proportionate basis.

This exemption is available, subject to the condition that the debenture holder does not own more than one residential house at the time of such transfer. If the residential house in which the investment has been made is transferred within a period of three years from the date of its purchase or construction, the amount of capital gains tax exempted earlier would become chargeable to tax as long term capital gains in the year in which such residential house is transferred. Similarly, if the Debenture Holder purchases within a period of two years or constructs within a period of three years after the date of transfer of capital asset, another residential house (other than the new residential house referred above), then the original exemption will be taxed as capital gains in the year in which the additional residential house is acquired. With effect from 1st April, 2015 and will, accordingly, apply in relation to assessment year 2015-16 and subsequent years, the exemption is available if the investment is made in purchase or construction of one residential house situated in India.

3. 54EE has been proposed in the Finance Bill 2016 where by (1) Where the capital gain arises from the transfer of a long-term capital asset (herein in this section referred to as the original asset) and the assessee has, at any time within a period of six months after the date of such transfer, invested the whole or any part of capital gains in the long-term specified asset, the capital gain shall be dealt with in accordance with the following provisions of this section, namely:—

(a) if the cost of the long-term specified asset is not less than the capital gain arising from the transfer of the original asset, the whole of such capital gain shall not be charged under section 45;

(b) if the cost of the long-term specified asset is less than the capital gain arising from the transfer of the original asset, so much of the capital gain as bears to the whole of the capital gain the same proportion as the cost of acquisition of the long-term specified asset bears to the whole of the capital gain, shall not be charged under Section 45:

Provided that the investment made on or after the 1st day of April, 2016, in the long-term specified asset by an assessee during any financial year does not exceed fifty lakh rupees:

Provided further that the investment made by an assessee in the long-term specified asset, from capital gains arising from the transfer of one or more original assets, during the financial year in which the original asset or assets are transferred and in the subsequent financial year does not exceed fifty lakh rupees.

(2) Where the long-term specified asset is transferred by the assessee at any time within a period of three years from the date of its acquisition, the amount of capital gains arising from the transfer of the original asset not charged under section 45 on the basis of the cost of such long-term specified asset as provided in clause (a) or, as the case may be, clause (b) of sub-section (1) shall be deemed to be the income chargeable under the head

“Capital gains” relating to long-term capital asset of the previous year in which the long-term specified asset is transferred.

Explanation 1.—In a case where the original asset is transferred and the assessee invests the whole or any part of the capital gain received or accrued as a result of transfer of the original asset in any long-term specified asset and such assessee takes any loan or advance on the security of such specified asset, he shall be deemed to have transferred such specified asset on the date on which such loan or advance is taken.

Explanation 2— for the purposes of this section,—

(a) “cost”, in relation to any long-term specified asset, means the amount invested in such specified asset out of capital gains received or accruing as a result of the transfer of the original asset;

(b) “long-term specified asset” means a unit or units, issued before the 1st day of April, 2019, of such fund as may be notified by the Central Government in this behalf.’

#### **Normal monsoons to push up growth in 2016-17**

CRISIL Research expects the economy to get a kicker from a good monsoon this fiscal - coming after three consecutive weather shocks (two bad monsoons and a spell of unseasonal downpour in early 2015). If the rains are normal, it would give agriculture a one-time growth kicker, particularly given the low-base effect of the two previous years. That should lift sagging rural demand, and by extension, overall GDP growth.

We expect GDP to grow 7.9% in fiscal 2017 compared with 7.6% in fiscal 2016, provided monsoon is normal and the global situation does not deteriorate from here. The International Monetary Fund (IMF), the World Bank and the Organisation for Economic Co-operation and Development (OECD) have already lowered their global growth forecasts for 2016 by 20, 50 and 30 basis points (bps), respectively. So far, the Indian economy's modest recovery has been shaped by good luck on crude oil and commodities, and a supportive domestic policy environment.

Consumer price inflation (CPI), we believe, will stay soft at 5%, though a tad higher than 4.9% in fiscal 2016. Although oil and commodity prices have nosed up of late, a normal monsoon augurs well for food prices and should cap upside to inflation from higher salaries and pensions, and an expected push to rural incomes.

Accordingly, we expect the Reserve Bank of India (RBI) to continue its accommodative monetary stance and cut the repo rate by another 25 bps this fiscal. The yield on the 10-year benchmark government security, we believe, will ease to 7.3% by March 31, 2017, from 7.5% as of March 31, 2016. This would be supported by the government's focus on fiscal consolidation and the RBI's efforts to manage liquidity conditions for better transmission of reduction in policy rate to other market-determined interest rates.

As for current account deficit (CAD), we expect a mild upward pressure because imports are likely to increase largely on a revival in consumption. Exports, in contrast, are expected to stay in the bog. The upshot is that we see CAD inching up to 1.3% of GDP this fiscal from 1.1% in fiscal 2016.

But, a faster-than-expected pace of hikes by the US Federal Reserve could cause capital outflows from emerging markets, including India, and weaken the rupee. So while this fiscal will be closely watched for progress of policy actions already announced, the ability of the government to unleash bigger reforms is likely to diminish due to political compulsions thereafter.

Going forward, the medium term outlook will be shaped by progress on initiatives such as cleaning up of bank balance sheets, successful implementation of the Goods & Services Tax (after legislation), the Insolvency & Bankruptcy Code, financial inclusion through initiatives like the Jan-Dhan and Digitalisation, which can potentially have a transformative impact on economic growth in India. However, without addressing core physical infrastructure issues such as seamless availability of electricity and creation of road network, and social infrastructure issues such as health and education, sustaining any growth kick-up can be a challenge.

**Non-Banking Financial Institution structure in India**

Indian financial system includes banks and non-bank financial institutions. Though banking system remains dominant in financial services, non-banking financial institutions have grown in importance by carving a niche for themselves in the under-penetrated regions and unbanked segments.

## NBFCs –an important part of the credit system

Financing needs in India have risen in sync with the notable growth recorded by the economy over the past decade. Non-banking financial companies (NBFCs) have played a major role in meeting this need, complementing banks and other financial institutions.

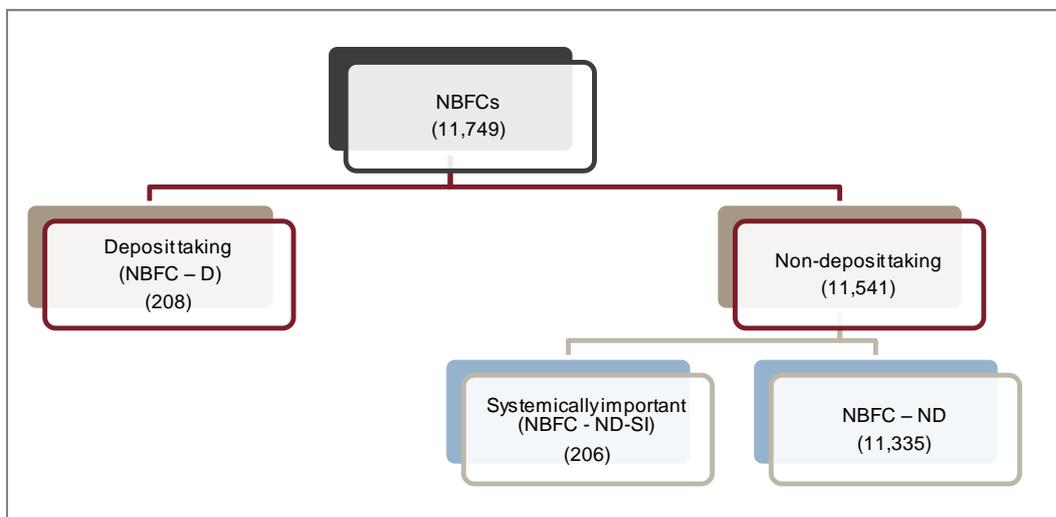

To their credit, NBFCs help fill the gaps in availability of financial services with respect to products as well as customer and geographical segments. A strong linkage at the grassroots level makes them a critical cog in catering to the unbanked masses in rural and semi-urban reaches, thereby enabling the government and regulators to achieve the mission of financial inclusion.

### Classification of NBFCs

NBFCs are classified on the basis of liabilities in to two broad categories – a) deposit taking and b) non-deposit taking. Deposit taking NBFCs (NBFC – D) are subject to requirements of capital adequacy, liquid assets maintenance, and exposure norms etc.

Further, in 2015, non-deposit taking NBFCs with asset size of Rs 5 billion and above were labelled as ‘systemically important non-deposit taking NBFCs’ (NBFC – ND – SI) and separate prudential regulations were made applicable to them.

### Classification of NBFCs based on liabilities

Note: Figures in brackets represent number of entities registered with RBI.

1. Deposit taking NBFCs as on December 1, 2015

## **Gold loan Industry**

Possessing gold has always been a symbol of prosperity in India and the yellow metal is considered a safe haven that hedges against inflation. Gold is purchased either as jewellery, bars or coins and is also a readily acceptable collateral by lenders, as it is highly liquid. Ironically enough, for the huge gulf between urban and rural households, about 65 per cent of the total gold stock in India is held by people in rural areas, and is mostly the only asset they possess though in small quantity. In cases of crop failure or a medical exigency, people in rural areas raise cash quickly from pawn-brokers and money-lenders, given a lack of access to banking facilities.

### **Stable operating environment with an established regulatory regime**

Unorganised lenders had initially dominated the gold loan market, commanding a nearly 75% share. Though moneylenders and pawn brokers understand the psyche of local borrowers well and offer immediate liquidity without any formalities/ documentation, the absence of regulatory oversight leaves customers vulnerable to exploitation. Organised lenders (banks & NBFCs) thus moved to seize this vast untapped market through an aggressive focus, garnering a significant market share from unorganised lenders, growing at a 76% CAGR between 2008-09 and 2011-12.

The rapid growth in the NBFCs' gold loan offtake alarmed the Reserve Bank of India (RBI), given the significant amount of public funds (deposits) borrowed by NBFCs and the high concentration of gold loans in their books (gold loans accounted for 90% of the loan book).

The RBI thus moved to tighten regulations on gold loans, through several measures including: 1) withdrawal of priority sector benefit on gold loans; 2) capping the loan-to-value (LTV) ratio; 3) guidelines on fair practice codes; 4) stipulating stringent norms for conducting gold auctions and 5) a curb on lending against bullion or gold coins. These measures, along with a dip in the gold prices led to a slowdown in the overall gold loan book, which expanded by 22% in 2012-13. While NBFC AUMs grew by a paltry 4%, growth was driven by banks, which focused more on secured lending avenues in a scenario of slowdown in corporate credit.

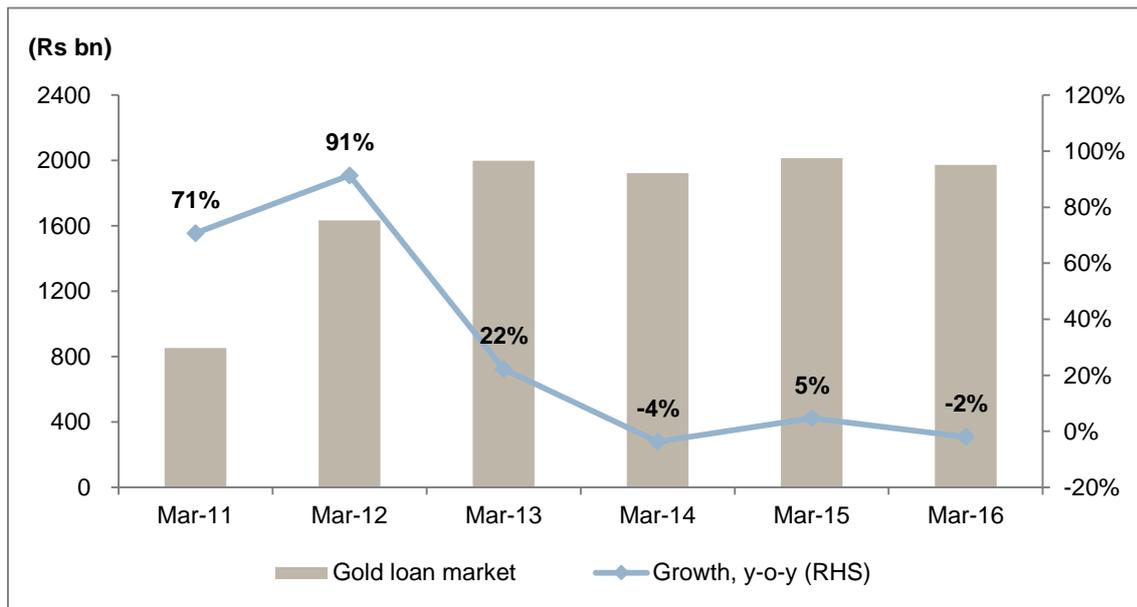

In September 2013, the RBI issued new norms for NBFCs, which included adoption of a uniform valuation methodology, prior approval for any expansion exceeding 1000 branches, and stipulation to disburse loans exceeding Rs 0.1 million and above only through cheques.

RBI also raised the permissible LTV ratio up to 75% in January 2014 from 60% earlier. Banks were also asked to cap the LTV ratio at 75% and also standardise procedures for valuing collateral. Post these changes, both banks and NBFCs came at a level playing field.

In 2013-14, a 3% fall in gold prices along with the restrictions imposed by the RBI led to a 4% dip in gold loan AUMs. Growth was again driven by banks, while NBFC AUMs declined by 18%. In 2014-15 however, despite a 6% decline in gold prices, gold loan AUMs grew by 5%. NBFC AUMs recovered 10%, driven by greater demand for gold loans. In 2015-16 as well, the AUM of NBFCs is estimated to have grown by 6%, despite an average decline of 7-8 per cent in gold prices. Banks, however, recorded a decline of around 5 per cent in their gold loan portfolio.

The slight uptick in growth for gold loan NBFCs in the last 2 years indicates gradual stabilisation of the operating environment. The regulatory changes brought in much-needed stability to the sector while enhancing the confidence of lenders and other stakeholders. While growth in AUM moderated after these regulations were implemented, growth in AUM is expected to be steady and stabilise over the longer term.

### Smoother and faster disbursements give NBFCs the competitive edge

NBFCs and banks operate on differing philosophy and approach in the gold loan market, as is reflected in their interest rates, ticket sizes and loan tenures.

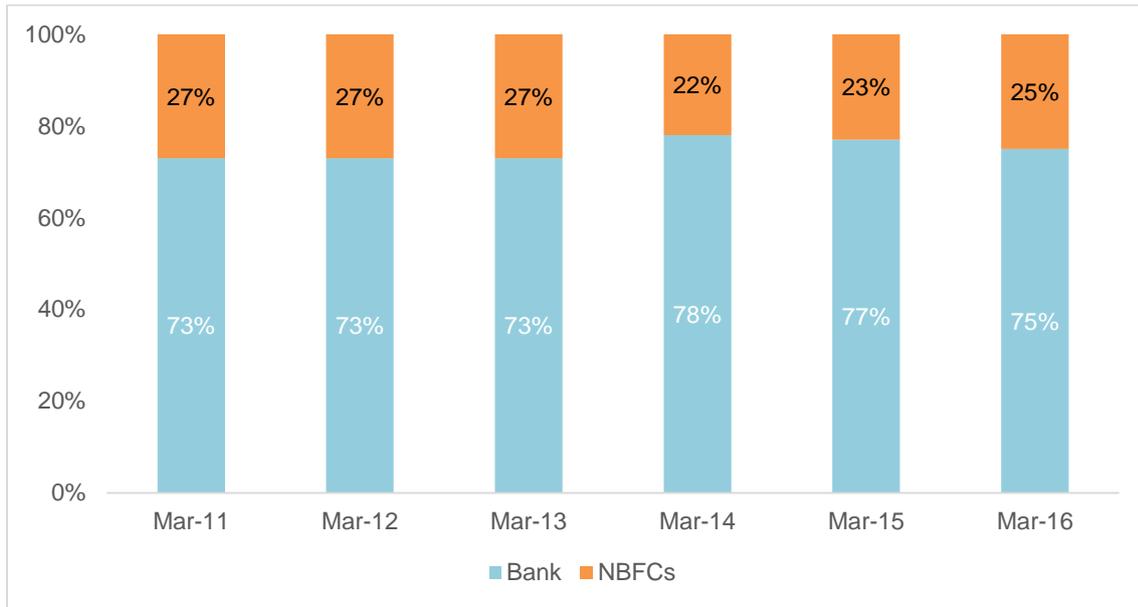

NBFCs focus more on the gold loans business and have, therefore, built their service offerings by investing significantly in manpower, systems and processes and branch expansion. This has helped them attract and serve more customers.

NBFCs also ask for fewer documents, which enables a faster turnaround, while adequate systems ensure quick disbursals. For example, NBFCs have dedicated personnel to value the gold jewels at the branches. Moreover, NBFCs also offer flexible repayment options, wherein the borrower can pay both the interest and principal at closure of the loan.

Banks, on the other hand, take a more vigilant approach. They view gold loans as a safer means to meet their priority sector lending targets, especially agricultural loans. Even for non-agricultural gold loans, they mostly target organised segment or their existing customers, as they are unable to offer flexible and rapid disbursals that specialised NBFCs can. Among banks too, south-based banks — Indian Overseas Bank, Indian Bank, South Indian Bank - have a higher share in non-agricultural gold loan disbursements, given the region's proclivity for gold loans.

While the RBI's curbs had helped banks eat into NBFCs hold on the gold loan market in 2012-13, the subsequent changes in regulations provided a level playing field for both classes of lenders, thus helping NBFCs to gradually recover market share in 2014-15. In 2015-16 as well, NBFCs have gained market share, as per CRISIL Research estimates.

**South-based NBFCs dominate the gold loan NBFC market**

This is an obvious consequence of a more evolved gold loan market in the region: India’s top 3 gold loan NBFCs are based in the south and control more than 80% of the NBFC market (AUMs) as of March 2016. However, many smaller NBFCs have reduced focus on the business, given the RBI’s stringent norms and the fall in gold prices.

**South remains key market; even as other regions emerge**

Demand for gold is skewed towards the Southern states (see chart below), as households here account for the largest share of accumulated gold stock in the form of ornaments, coins, bars, etc.

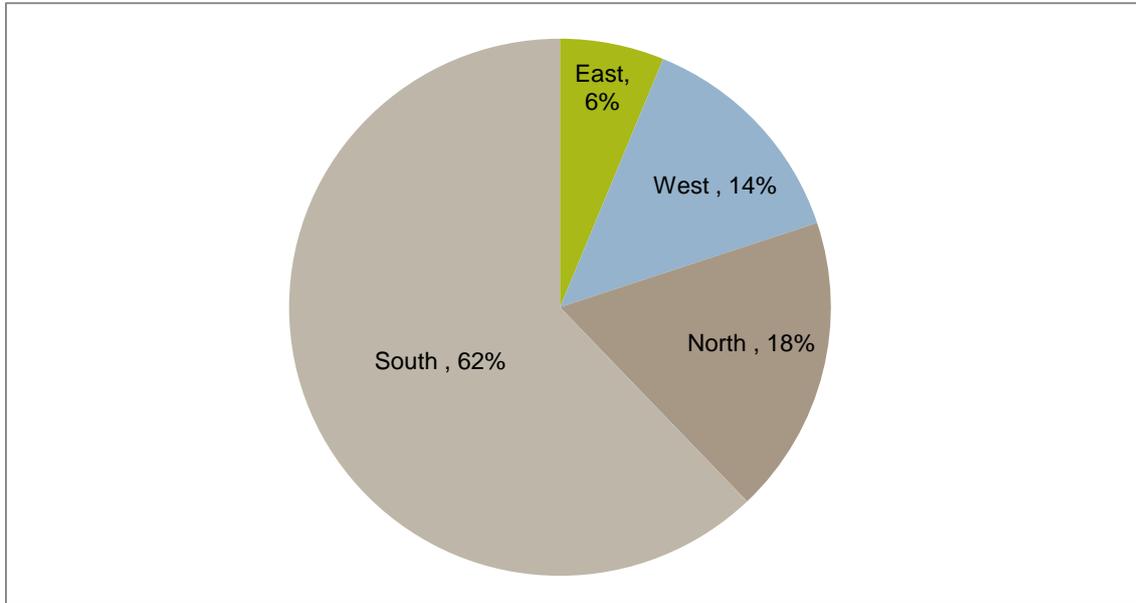

**Regional Gold demand**

Source: CRISIL Research

Moreover, gold holders in the south are more open to pledging gold to raise funds than people in the other regions. Therefore, Tamil Nadu, Kerala, Andhra Pradesh, Karnataka and Pondicherry together accounted for around 62 per cent of AUM of gold loan NBFCs as of March 2015; this percentage dipped further by around 300 basis points (100 basis points is equal to one per cent) for the top two NBFCs over the course of 2015-16. Although attempts by NBFCs to expand in certain pockets of northern and western India have lowered the share of the southern markets from 71% earlier, it still remains a stronghold.

**South accounts for major share of NBFC AUMs**

*Source: CRISIL Research*

Though the south will continue to dominate, more growth is expected to emerge from the other underpenetrated regions such as in northern and western India. Growth will also be aided by the changing consumer perception about gold loans, and rising funding requirements.

However, NBFCs will still have to contend with public sentiment against pledging gold and the distrust against financiers as they look to expand beyond the south.

**NBFC profitability witnessing a gradual improvement**

The profitability of NBFCs has been gradually improving after declining in the aftermath of tightening of regulations by RBI. Spreads and profitability improved sharply in 2015-16 as increased collection efficiency boosted interest income and operating costs remained under control. One of the leading players also made exceptional profit from gold auctions held during the last quarter of 2016-17 due to upward movement of gold prices.

We expect the industry to continue to do well in the medium-term. With gold’s status as a safe haven getting reinforced in the aftermath of Brexit (Britain’s decision to leave the European Union), slower growth and increased uncertainty globally, gold prices have surged upward this fiscal. Going forward also, prices are expected to remain stable, with average prices in 2016-17 likely to be 8-10 per cent higher compared to the previous fiscal (as per consensus estimates as of July 2016). Stable-to-higher gold prices bodes well for gold loan NBFCs as this reduces the possibility of defaults and consequent increase in non-performing assets. In the event of defaults as well, financiers would be able to recover most of the loans lent through the proceeds from auction sales.

### Our Strengths

***We are part of the Kosamattam Group which has a long operating history and a large customer base.***

The Kosamattam Group was originally founded by Mr. Chacko Varkey. Over the years, we have been successful in expanding our customer base. Our total number of Gold Loan customers grew from 3,69,925 as of March 31, 2015 to 3,98,145 as of March 31, 2016 and to 4,03,544 as of June 30, 2016. We attribute our growth, in part, to our market penetration, particularly in areas less served by organized lending institutions and the efficient and streamlined procedural formalities which our customers need to complete in order to complete a loan transaction with us, which makes us a preferred medium of financier for our customers. We also attribute our growth to customer loyalty which in turn leads to repeat business. We believe that a large portion of our customer base returns to us to avail credit facility when they are in need of funds.

### Branch network across rural and semi-urban areas in South India

We have rapidly expanded our branch network in the past, which we believe has provided us with an advantage of a wider reach. Our total number of branches grew from 647 branches in six states and one union territory as on June 30, 2013 to 950 branches, as on June 30, 2016, in eight states and one union territory. Although we have historically had most of our branches in the southern states of India, we have expanded our branch network by opening 11 branches in Delhi, five branches in Gujarat and three branches in Maharashtra. Our customers are typically retail customers, businessmen, vendors, traders, farmers, salaried individuals and families, who for reasons of convenience, accessibility or necessity, avail of our credit facilities by pledging their gold jewellery with us. We believe that with such a large network, we were able to penetrate and cater to our customers across various cities and towns in south India especially in semi-urban locations. Having such a network enables us to

service and support our existing customers from proximate locations which gives our customers easy access to our services and enables us to reach new customers especially potential rural customers. We believe we can leverage on this existing network for further expansion and for fulfilling our customer requirements.

### ***Organized and efficient IT Infrastructure***

We use information technology as a strategic tool for our business operations to improve our overall productivity and efficiency. All our branches are computerized. We believe that through our existing information technology systems, we are able to effectively, manage our operations, market to our target customers, and monitor and control risks. We believe that this system has improved customer service by reducing transaction time and has allowed us to comply with regulatory record-keeping and reporting requirements. Further, in order to manage our expanding operations as well as our increased customer base, we have entered into an arrangement for the development of software for our product offerings and other allied functions. Accordingly, the new software was introduced for operational efficiency.

### ***Effective risk management system including appraisal, internal audit and inspections.***

Risk management forms an integral part of our business as we are exposed to various risks relating to the Gold Loan business. The objective of our risk management system is to measure and monitor the various risks we are subject to and to implement policies and procedures to address such risks. We have an internal audit system which consists of audit and inspection, for risk assessment and internal controls. The audit system comprises of accounts audit and gold appraisal. In accordance with our internal audit policy, all of our branches are subject to surprise gold audit every month and accounts audit once in very four months. Further the staffs are strictly advised to make the acid test, sound test etc., at the time of making the pledge for checking whether the ornament is of acceptable quality or not.

### ***Experienced management team and skilled personnel***

Our Company is a professionally managed NBFC. Our management team comprises of our Promoter Director, Mr. Mathew K Cherian, who has over 36 years of experience in finance business. The management team possesses the required skill, expertise and vision to continue and to expand the business of our Company. Our management team has an in-depth understanding of the gold loan business and under their direction and guidance our Company has grown organically.

### ***Strategy***

Our business strategy is designed to capitalize on our competitive strengths and enhance our position in the Gold Loan industry. Key elements of our strategy include:

#### ***Expansion of business activity by opening new branches in rural and semi urban areas to tap potential market for gold loans***

We intend to continue to grow our loan portfolio by expanding our branch network by opening new branches. A good reach to customers is very important in our business. Increased revenue, profitability and visibility are the factors that drive the branch network. Currently, we are present in key locations which are predominantly in South India for sourcing business. Our strategy for branch expansion includes further strengthening our presence in South Indian States by providing higher accessibility to customers as well as leveraging our expertise and presence in Southern India. We have added 303 branches in the last three years and expect this growth trend to continue in the future. At the core of our branch expansion strategy, we expect to penetrate new markets and expand our customer base in rural and semi-urban markets where a large portion of the population has limited access to credit either because they do not meet the eligibility requirements of banks or financial institutions, or because credit is not available in a timely manner at reasonable rates of interest, or at all. A typical Gold Loan customer expects high loan-to-value ratios, rapid and accurate appraisals, easy access, quick approval and disbursement and safekeeping of their pledged gold jewellery. We believe that we meet these criteria when compared to other unregulated money lenders, and thus our focus is to expand our Gold Loan business.

#### ***Expansion of business into metros and select Tier 1 cities across India***

In addition to our continuing focus on rural and semi-urban markets in the states that we are present, we are also focusing on opening branches in metros and select Tier 1 cities where we believe our business has high growth

potential. We carefully assess the market, location and proximity to target customers when selecting branch sites to ensure that our branches are set up close to our target customers. We believe our customers appreciate this convenience and it enables us to reach new customers.

***Increase visibility of Kosamattam Brand to attract new customers***

Our brand is key to the growth of our business. We started focusing on brand building exercise in 2013. Our logo was re-designed and the tag- line ‘*Trust grows with time*’ was introduced. We believe that we have built a recognizable brand in the rural and semi-urban markets of India, particularly in the southern states of Kerala, Tamil Nadu and Karnataka. We intend to continue to build our brand through advertisements and public relations campaigns and undertaking other marketing efforts on radio, television and outdoor advertising.

***Diversifying into new business initiatives by leveraging our branch network and customer base.***

Gold Loan as on June 30, 2016 accounted for 89.64% of total loans of our Company. To reduce the risk of revenue volatility and with a view to expand our fee based income, we are in the process of diversifying our business to venture into the business of generators and distributors of electricity by using wind and/or other renewable energy. Further, we have received a license dated May 28, 2014 from SEBI to become a depository participant. Our Company intends to capitalise the large branch network to offer the additional products and services.

***Minimize concentration risk by diversifying the Product Portfolio and expanding our customer base.***

We intend to further improve the diversity of our product portfolio to cater to the various financial needs of our customers and increase the share of income derived from sale of financial products and services.

Beyond our existing Gold Loan product, we intend to leverage our brand and office network, develop complementary business lines and become the preferred provider of financial products – ‘a one-stop shop for customers’ financial needs. We have recently forayed into SME financing and mortgage loans.

Our diverse revenue stream will reduce our dependence on any particular product line thus enabling us to spread and mitigate our risk exposure to any particular industry, business, geography or customer segment. Offering a wide range of products helps us attract more customers thereby increasing our scale of operations.

We expect that complementary business lines will allow us to offer new products to existing customers while attracting new customers as well. We expect that our knowledge of local markets will allow us to diversify into products desired by our customers, differentiating us from our competitors.

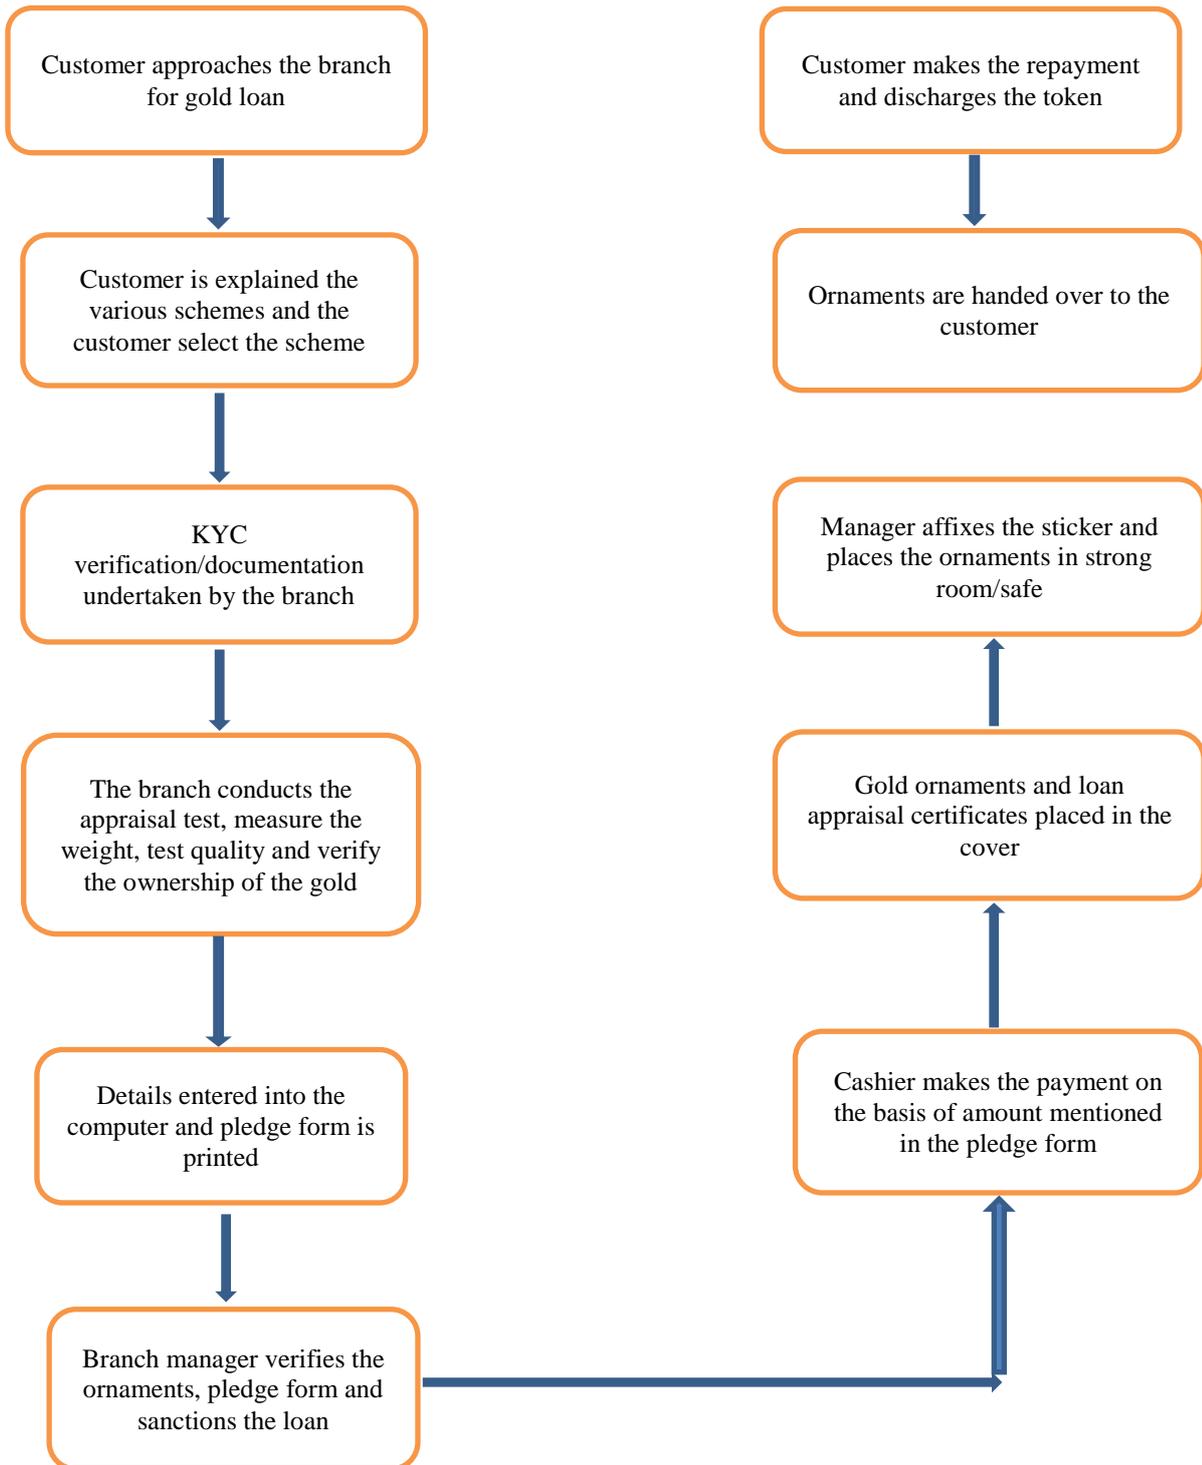

***Further strengthen our risk management, loan appraisal and technology systems***

We believe risk management is a crucial element for further expansion of our Gold Loan business. We therefore continually focus on improving our integrated risk management framework with processes for identifying, measuring, monitoring, reporting and mitigating key risks, including credit risk, appraisal risk, custodial risk, market risk and operational risk. We plan to continue to adapt our risk management procedures, to take account of trends we have identified. We believe that prudent risk management policies and development of tailored credit procedures will allow us to expand our Gold Loan financing business without significantly increasing our non-performing assets. Since we plan to expand our geographic reach as well as our scale of operations, we intend to further develop and strengthen our technology platform to support our growth and improve the quality of our services. We are focused on improving our comprehensive knowledge base and customer profile and support systems, which in turn will assist us in the expansion of our business.

**GOLD LOAN BUSINESS**

Our lending business is primarily Gold Loans, which are typically loans against pledge of gold jewellery. As of June 30, 2016 we had approximately 4,84,305 loan accounts, representing an aggregate principal balance of ₹1,35,867.58 lacs. For the Financial Years 2016, 2015 and 2014, our Gold Loan portfolio yield representing interest income on gold loans as a percentage of average outstanding of Gold Loans, for the same period were 26.35%, 23.33% and 26.09%, respectively, per annum. In the Financial Years 2016, 2015 and 2014, income from interest earned on our Gold Loans constituted 93.34%, 96.43% and 96.67% respectively, of our total income. We offer variety of Gold Loan schemes to our customers to suit their individual needs. The schemes differ in relation to the amount advanced per gram of gold, interest rate chargeable and amount of loan.

**Gold Loan disbursement process**

The principal form of security that we accept is household gold jewellery. We do not accept bullion, gold biscuits, gold bars, new mass produced gold jewellery or medallions. While these restrictions narrow the pool of assets that may be provided to us as security, we believe that it provides us with the following key advantages:

It filters out spurious jewellery that may be pledged by jewellers and goldsmiths. We find that household, used jewellery is less likely to be spurious or fake.

The emotional value attached by each household to the pledged jewellery acts as a strong incentive for timely repayment of loans and revoking the pledge.

As we only accept the pledge of household jewellery, the value of the pledged gold is typically only as much as the worth of gold that is owned by an average Indian household. This prevents our exposure to large sized loans where the chances of default and subsequent losses are high.

The amount that we finance against the pledged gold jewellery is typically based on a fixed rate per gram of gold content in the jewellery. We value the gold jewellery brought by customers based on our corporate policies and guidelines. As per the policy, we grant gold loans on 22 Carat gold ornaments. However in case the jewels that are being pledged are less than 22 carat, the branches are required to convert the carat of gold jewels to the equivalent of 22 Carat. Under no-circumstances gold ornaments below 19 carat are accepted by our Company. The rates per gram is fixed by us on weekly intervals. The actual loan amount varies according to the type of jewellery pledged. While jewellery can be appraised based on a variety of factors, such as total weight, weight of gold content, production cost, style, brand and value of any gemstones, we appraise the gold jewellery solely based on its gold content. Our Gold Loans are, therefore, generally well collateralized because the actual value of the gold jewellery is higher than our appraised value of the gold jewellery when the loan is disbursed. The amount we lend against an item and the total value of the pledged gold we hold fluctuates according to the market price of gold. An increase in the price of gold will not automatically result in an increase in the value of our Gold Loan portfolio unless the rate per gram is revised by our Corporate Office. It only results in a favourable movement in the value of the security, pledged with us. Similarly, since adequate margins are built in at the time of the loan disbursement and owing to the short tenure of these loans, on average, a decrease in the price of gold generally has little impact on our interest income. However, a sustained decrease in the market price of gold could cause a decrease in the growth rate of Gold Loans in our loan portfolio.

At present our Gold Loans have a tenure that vary from six months to 12 months, however, customers may redeem the loan at any time prior to the full tenure. As per the current policy of our Company, interest is to be paid in accordance with the scheme. In the event that a loan is not repaid on time and after providing due notice to the customer, the unredeemed pledged gold is disposed of, on behalf of the customer in satisfaction of the principal and interest charges in accordance with the applicable RBI guidelines. Any surplus arising out of the disposal of the pledged gold is refunded to the customer or is appropriated towards any other liability by the borrower. In the event that the recoverable amount is more than the realizable value of the pledged gold, the customer remains liable for the shortfall.

The processes involved in approving and disbursing a Gold Loan are divided into three phases:

- Pre disbursement;
- Post disbursement; and
- Release of the pledge.

#### ***Pre-disbursement process***

#### ***Gold Loan appraisal of a customer involves the following steps***

##### ***(a) Customer identification***

Gold Loans are sanctioned only to genuine borrowers. Before sanctioning the Gold Loan, the branch manager should take all precautions to ensure that the applicant, pledging the ornaments, is the owner of those ornaments and that the borrower is genuine. The branch manager should obtain ID proof and photograph of the borrower and assign a branch KYC ID No. and should also make reasonable enquiry about the residence, job, personal details, ownership of the ornaments etc. and make a note in the pledge form. We also undertake a field verification to authenticate the genuineness of the borrower in case of high value Gold Loans.

##### ***(b) KYC Documentation***

The borrower should produce government issued valid photo id, with an address which is within the designated area of the branch, as a necessary proof for KYC documentation. While processing the application, the branch ensures that the correct postal address of the borrower is entered in the computer such as name, door number, street name, name of post office, place, PIN code and the nearest land mark. Also the borrower's telephone number is obtained. The branch also calls on the number furnished by the borrower every month, and reminds the borrower to remit the requisite interest, so that branch can know the telephone number is operational. Further if the telephone number of the borrower is not operational then the branch immediately contacts the borrower personally and

obtains his new telephone number.

**(c) Security appraisal**

The branch manager/joint custodian and the branch staff shall appraise the gold ornaments thoroughly. Stone weight should be deducted correctly in consultation with the branch manager and staff. Low purity and spurious items should be detected and not to be accepted as pledge. Appraisal is to be done by all members at the branch and the ornament shall be accepted only if all the branch staff approve. Neither the branch manager nor the joint custodian or any staff has the authority to accept a pledge on the basis of his/her own assessment of the ornaments. It is strictly a group task and all the branch staff are equally responsible in the process. After pledging gold ornaments the same should be packed immediately. The manager and joint custodian should sign across the packet and affix the branch sticker on the cover and keep it in the safe. The safe is to be locked by all the custodians together.

**(d) Documentation**

For each pledge of the gold, branch appraisal certificate, application for personal loan, customer's token etc., are adequately documented and all the details pertaining to the gold, including the weight and items pledged are to be mentioned.

***Post-disbursement process***

The period/tenure for a Gold Loans typically varies from six months to 12 months. Timely interest collection and closing of accounts within the specified period is vital for the successful and smooth functioning of gold loan companies like that of ours. To ensure this, the branches regularly follow up with their gold loan customers through notices served at three months (ordinary notice), six months (registered notice), and nine months (registered notice with acknowledgement due) as well as personal contacts directly and over the phone.

***Branch security and safety measures: Electronic Security System***

Branches are normally equipped with security devices (alarms) which automatically alert the branch manager, regional manager as well as the nearest police station in the event of any theft attempts.

The gold pledged as security is insured with an insurance company. Our Company makes periodic analysis and revises the insurance policy as per the value/quantity of the gold.

***Release of pledge***

Once a loan is fully repaid, the pledged gold jewellery is returned to the customer. The customer has to be present personally along with the gold loan token, at the branch where the pledge was originally made. The branch will verify the person with the photo taken at the time of pledge and confirm that there is no foul play and the amount to be paid is informed to the customer from the software and clarifies doubts if any on the amount demanded. The customer pays the amount at the cash counter and the ornaments are taken out of the safe and handed over to the customer after confirming them with the list of ornaments mentioned in the token and gold loan application form.

***Our Other Business initiatives***

In addition to the core business of Gold Loan, we also offer fee based ancillary services which among others include loan against property, money transfer services, depository participant services, foreign currency exchange and air ticketing services.

For the Financial Years 2016, 2015 and 2014, revenues from our business other than Gold Loans constituted 6.66%, 3.57% and 3.33% respectively, of our total income.

**LOAN AGAINST PROPERTY**

Our Company along with its primary business of offering gold loans also engages in offering loans against property which includes loans against collateral of residential/commercial property and comprises 10.16% of our Loan Book as on June 30, 2016.

Our Company undertakes various credit control checks and field investigations on a prospective customer which inter-alia includes an internal data de-duplication check, CIBIL database check, fraud verification, asset verification and valuation, trade credit reference checks and other legal and technical verification procedures. After having completed our internal verification procedures all documents submitted by the prospective customer are checked and verified as required and any discrepancies and/or gaps in such documentation are highlighted and sent to the prospective customer for corrections, explanations and resubmissions as required.

Our Company conducts various diligence procedures in connection with the collateral/security for such loans which include review and verification of the relevant ownership documents and obtain title reports as applicable. Reports from these checks along with detailed analysis of financial statements, tax challans, bank statements and other documents put together constitute the credit file for all customers. These files are at length reviewed by the credit managers for evaluation using credit evaluation tool. Based on the document review the credit managers conduct personal discussions with the customers at their workplace. The discussion is intended to gather information about the business model of the customer, his positioning in the value chain, dependence of suppliers and/or customers and to ascertain any business risks like export dependence, raw-material supplies, etc. which might adversely impact the business cash flows and hence diminish repayment capacity. Further, additional business documents like stock registers and books of accounts are reviewed during such visits. Based on the all the information gathered, and assessment of customer’s business risks, debt servicing ability and collateral risks, the credit manager puts the transaction proposal to appropriate approving committee in the hierarchy for decision.

#### ***Credit Appraisal***

##### **Approval and Disbursement Process**

Once the credit history, credentials, information and documents have been submitted by the prospective customer and verified to our satisfaction, the applications are approved at the appropriate credit approval level.

There are four progressive levels of approvals which a proposal can be put to which are based on loan product, loan amount and identified risks. All proposals require minimum of two approvals and up to four approvals for larger ticket size loans. With due sanctioning of the loan, we execute agreements in connection with the loan and creation of security in relation thereto, if any, with the customer. Margin money and other charges, if any, are collected prior to loan disbursements. The disbursing officer retains evidence of the applicant’s acceptance of the terms and conditions of the loan as part of the loan documentation.

Prior to the loan disbursement, our concerned officer ensures that a Know Your Customer, (“KYC”), checklist is completed by the applicant. The concerned officer verifies such information provided and includes the records in the relevant loan file. The officer is also required to ensure that the contents of the loan documents are explained in detail to the customer either in English or in the local language of the customer. The customer is provided with a copy of the loan documents executed by him. Further although our customers have the option of making payments by cash or cheque, we may require the applicant to submit post-dated cheques covering an initial period prior to any loan disbursement.

### ***Loan administration and monitoring***

The customer (and guarantor, if any) execute(s) the security creation documents and the loan agreement setting out the terms of the loan. A loan repayment schedule is attached as a schedule to the loan agreement, which generally sets out periodical repayment terms. Repayments are made in periodical instalments. Loans disbursed are recovered from the customer in accordance with the loan terms and conditions agreed with the customer. We track loan repayment schedules of our customers on a monthly basis, based on the outstanding tenure of the loans, the number of instalments due and defaults committed, if any. This data is analysed based on the loans disbursed and location of the customer. All recovery of amounts due on loans is managed internally by us. We ensure complete focus on all stages of the collections process. We monitor the completeness of documentation, creation of security etc. through regular visits to the business outlets by our regional as well as head office executives and internal auditors. All customer accounts are reviewed on a regular basis.

Our Company believes that close monitoring of debt servicing efficiency enables us to maintain high recovery ratios and maintain satisfactory asset quality.

### **PORTFOLIO MANAGEMENT, COLLECTION AND RECOVERY PROCESSES**

Our Company manages the portfolio management and collection processes in-house. We have on-roll collection personnel across branches to ensure timely collection of dues. We utilise our branch personnel for collection of payment. Further, for effective recovery management, all early delinquent customers are management by a dedicated team which undertakes methodical customer visits for recovery of dues. In cases where customers are unable to make payments and move to higher delinquency levels, a specified team of collection officers including branch managers, regional managers and other such officials are deployed who manage deep delinquent accounts. In addition to customer visits, this team utilises available legal tools for attachment of properties, for re-payment of dues and legal arbitration proceedings.

In promoting our brand, our advertisement campaigns focus on “**Kosamattam Gold Loan**”, to differentiate our loan products from other NBFCs and financial institutions and emphasize the convenience, accessibility and expediency of Gold Loans.

### Risk Management

Risk management forms an integral part of our business as we are exposed to various risks relating to the Gold Loan business. The objective of our risk management systems is to measure and monitor the various risks, we are subject to and to implement policies and procedures to address such risks suitably. We intend to continue to improve our operating processes and risk management systems which will further enhance our ability to manage the risks inherent to our business.

### Asset and Liability Management (“ALM”)

Our business operations require steady flow of working capital and hence managing the day to day liquidity becomes a critical function. The ALM, amongst other functions, is concerned with risk management, providing a comprehensive as well as a dynamic framework for measuring, monitoring and managing liquidity and interest

rate risk. The ALM function also alters the asset-liability portfolio in order to manage risks. The ALM also monitors interest rate sensitivity in our portfolio and takes pre-emptive steps to mitigate any potential liquidity and interest rate risks.

### **Credit Risk**

Credit risk is the possibility of loss due to the failure of any counterparty abiding by the terms and conditions of any financial contract with us. We aim to reduce the aforesaid credit risk through a rigorous loan approval and collateral appraisal process, as well as a strong NPA monitoring and collection strategy. This risk is diminished because the gold jewellery used as collateral for our loans can be readily liquidated, and there is only a remote possibility of recovering less than the amounts due to us in light of the 25 % margin retained on the value of the gold jewellery collateral. However, a sustained decrease in the market price of gold can cause a decrease in the size of our loan portfolio and our interest income.

### **Operational Risk**

Operational risk is broadly defined as the risk of direct or indirect loss due to the failure of systems, people or processes, or due to certain other external events. We have instituted a series of checks and balances, including an operating manual, and both internal and external audit reviews. Although we disburse loans in a relatively short period of time, we have clearly defined appraisal methods as well as KYC compliance procedures in place to mitigate operational risks. Any loss on account of failure by employees to comply with defined appraisal mechanism is recovered out of their variable incentive. We also have detailed guidelines on movement and security measures of cash or gold. We are in the process of introducing centralized software which automates inter branch transactions, enabling branches to be monitored centrally and thus reducing the risk of un-reconciled entries. In addition, we are in the process of installing surveillance cameras across our various branches, and subscribe to insurance to cover employee theft or fraud and burglary. Our internal audit department and our centralized monitoring systems assist in the management of operational risk.

### **Financial Risk**

Our business is cash intensive and requires substantial funds, on an ongoing basis to finance the gold loan portfolio and to grow it. Any disruption in the funding sources might have an adverse effect on our liquidity and financial condition. Our Company is proactively pursuing a system of identifying and accessing newer and cheaper sources of funds, to finance the loan book and to grow the business. Our Asset Liability Committee meets regularly and reviews the liquidity position of our Company and ensures availability of sufficient funding in advance.

### **Market Risk**

Market risk refers to potential losses arising from the movement in market values of interest rates in our business. The objective of market risk management is to avoid excessive exposure of our earnings to loss. The majority of our borrowings, and all the loans we make, are at fixed rates of interest. Thus presently, our interest rate risk is minimal.

### **Our Risk Management Policy**

In order to address the risks that are inherent to our business, we have developed a risk management architecture that includes a risk management committee, internal audit department, vigilance department and a risk management department. Our Risk Management Committee, which is led by one of our Directors, oversees our risk management policies, which help us to identify, measure, monitor and mitigate the various risks that we face in our businesses.

### **Internal Audit Department**

Our internal audit department assists in the management of operational risk using our centralized monitoring systems. Separate divisions of our internal audit department are in place to handle the audit of the departments of the corporate office and those of the branch offices. The audits of our branches are divided into two categories: (i) Audit and (ii) Inspection. Branch audit is carried out quarterly with the focus on the verification of documents, accounts, performance and compliance. In addition, an incremental high value loan check is carried out by regional managers as part of their periodical branch inspection.

## **Vigilance Department**

We have an internal vigilance department for undertaking surprise inspections of high/medium risk branches and other branches or on the basis of any report or detection of serious deviations or irregularities. The vigilance undertakes the responsibility of visiting branches to oversee the implementation of risk mitigation initiatives and improvements in customer service.

## **Risk Management Audit**

Our branch auditors also carry out a system driven risk audit on certain identified key risk parameters. These are keyed into the system and alerts are sent to branch controllers and top management in case the risk weight given under a specific parameter goes beyond the prefixed tolerance levels. In all such cases, the concerned branches are inspected by the branch controllers or top management personnel depending on the severity of risk and immediate remedial actions are initiated.

## **ALM Organisation**

The Asset - Liability Committee (ALCO) is responsible for ensuring adherence to the limits set by the Board as well as for deciding the business strategy of our Company (on the assets and liabilities sides) in line with our Company's budget and decided risk management objectives.

The business and risk management strategy of our Company will ensure that our Company operates within the limits/parameters set by the Board. The business issues that an ALCO would consider, inter alia, includes product pricing, desired maturity profile and mix of the incremental assets and liabilities, prevailing interest rates offered by other peer NBFCs for the similar services/product, etc. In addition to monitoring the risk levels of our Company, the ALCO reviews the results of and progress in implementation of the decisions made in the previous meetings. The ALCO would also articulate the current interest rate view of our Company and base its decisions for future business strategy on this view.

The frequency of holding ALCO meetings will be quarterly.

## **Liquidity Risk Management**

Our ALCO measures not only the liquidity position of our Company on an ongoing basis but also examines how liquidity requirements are likely to evolve under different assumptions. Experience shows that assets commonly considered as liquid, like Government securities and other money market instruments, could also become illiquid when the market and players are unidirectional. Therefore, liquidity has to be tracked through maturity or cash flow mismatches. For measuring and managing net funding requirements, the use of a maturity ladder and calculation of cumulative surplus or deficit of funds at selected maturity dates is adopted as a standard tool. The format of the **Statement of Structural Liquidity** as prescribed by Reserve Bank of India (RBI) may be used for this purpose.

The Maturity Profile based on ALM – II could be used for measuring the future cash flows of company in different time buckets. The time buckets, may be distributed as under:

- (i) 1 day to 14 days (One month)
- (ii) 14 day to one month
- (iii) Over one month and up to 2 months
- (iv) Over 2 months and up to 3 months
- (v) Over 3 months and up to 6 months
- (vi) Over 6 months and up to 1 year
- (vii) Over 1 year and up to 3 years
- (viii) Over 3 year and up to 5 years
- (ix) Over 5 years

The **Statement of Structural Liquidity** shall be prepared by placing all cash inflows and outflows in the maturity ladder according to the expected timing of cash flows. A maturing liability will be a cash outflow while a maturing asset will be a cash inflow. While determining the likely cash inflows/outflows, company will have to make a number of assumptions according to their asset - liability profiles. While determining the tolerance levels, the company may take into account all relevant factors based on their asset-liability base, nature of business, future

strategy, etc.

In order to enable the company to monitor their short-term liquidity on a dynamic basis over a time horizon spanning from 1 day to 6 months, company will estimate their short-term liquidity profiles on the basis of business projections and other commitments for planning purposes. An indicative format ALM – I issued by RBI for estimating **Short-term Dynamic Liquidity** will be used for the said purpose.

### Interest Rate Risk (IRR)

The operational flexibility given to NBFCs in pricing most of the assets and liabilities imply the need for the financial system to hedge the Interest Rate Risk. Interest Rate Risk is the risk where changes in market interest rates might adversely affect an NBFC's financial condition. The changes in interest rates affect our Company. The immediate impact of changes in interest rates is on our Company's earnings (i.e. reported profits) by changing its Net Interest Income (NII). As such our Company is into funding of loans which are always fixed rate loans. The company manages risk on NII by pricing its loan products to customers at a rate which covers Interest Rate Risk. The risk from the earnings perspective can be measured as changes in the NII or Net Interest Margin (NIM). Measurement of such risk is done at the time of deciding rates to be offered to customers. Once interest rate risk is measured by the ALCO, lending rates are finalized. RBI has prescribed ALM – III for the purpose of Interest Rate Risk Monitoring and our Company may use the same for the purpose of measurement and monitoring of interest rate risk.

Currently, such NBFCs are required to maintain a minimum capital ratio consisting of Tier I and Tier II capital which shall not be less than 15% of its aggregate risk weighted assets on balance sheet and of risk adjusted value of off-balance sheet items. Further, we need to maintain a Tier I capital of minimum 12%. Also, the total of Tier II capital, at any point of time, shall not exceed one hundred percent of Tier I capital. Additionally, we are required to transfer up to 20% of our annual profit to a reserve fund and make provisions for NPAs. We had a capital adequacy ratio of 18.31%, 19.13% and 19.20% on March 31, 2016, March 2015, March 31 and 2014, respectively.

We have satisfied the minimum capital adequacy ratios prescribed by the RBI for the financial year ended March 31, 2016.

### **Technology**

We use information technology as a strategic tool for our business operations to improve our overall productivity and efficiency. We believe that through our information systems which are currently in place, we are able to manage our operations efficiently, market effectively to our target customers, and effectively monitor and control risks. We believe that this system has improved customer service by reducing transaction time and has allowed us to manage loan collection efforts better and to comply with regulatory record-keeping and reporting requirements. All our branches are computerized. A need was felt for a centralized IT platform for our continued aggressive growth along with risk management. Accordingly, we are in the process of introducing new software to improve the operational efficiency.

### Security threats and measures taken to mitigate them

The principal security risks to our operations are robbery and employee theft or fraud. We have extensive security and surveillance systems and dedicated security personnel to counter external security threats. To mitigate internal threats, we undertake careful pre-employment screening, including obtaining references before appointment. We also started installing surveillance cameras across our branches. To protect against robbery, all branch employees work behind wooden, glass and steel counters, and the back office, strong room/safe and computer areas are locked

and closed to customers. We also keep the pledged gold in joint custody. While we provide around the clock armed security guards for risk prone branches, the majority of our branches do not require security guards as the gold jewellery are stored securely in strong rooms. Since we handle high volumes of cash and gold jewellery at our locations, daily monitoring, spot audits and immediate responses to irregularities are critical to our operations. We have an internal auditing program that includes unannounced branch audits and cash counts at randomly selected branches.

**Competition**

We face competition from banks, NBFCs and other unregulated/unorganized money lenders. Our Board believes that we can achieve economies of scale and increased operating efficiencies by increasing the number of branches under operation and proven operating methods. We believe that the primary elements of competition are the quality of customer service and relationship management, branch location and the ability to lend competitive amounts at competitive rates. In addition, we believe the ability to compete effectively will be based increasingly on strong management, regional market focus, automated management information systems and access to capital.

### 2. Summary of Significant accounting Policies

#### 2.1 Basis of Preparation & Presentation of Financial statements.

The Financial Statements of the Company have been prepared in accordance with Generally Accepted Accounting Principles in India (Indian GAAP). The Company has prepared these Financial Statements to comply in all material respects with Accounting Standards notified under The Companies (Accounting Standards) Rules, 2006 (as amended) and the relevant provisions of the Companies Act, 2013 and the guidelines issued by the Reserve bank of India as applicable to a Systemically Important Non-Deposit Accepting NBFC. The Financial Statements have been prepared on an accrual basis and under the historical cost convention except for interest on non-performing assets which are recognized on realization basis. The Accounting Policies adopted in the preparation of Financial Statements are consistent with those of previous year.

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

During the year ended March 31, 2016, the Company has complied with the requirements of Schedule III of Companies Act 2013 for the preparation and presentation of its financial statement. The Company has also reclassified the previous year figures in accordance with the requirements applicable in the current year.

#### 2.2 Tangible Fixed Assets

Fixed Assets are stated at cost less accumulated depreciation. The cost includes purchase consideration, financing costs till commencement of commercial production and other directly attributable costs incurred to bring an Asset to its working condition for its intended use. Subsidy towards specific assets is reduced from the cost of fixed assets. Fixed assets taken on Finance Lease are capitalized. The costs of Assets not ready for use as at the Balance Sheet date are disclosed under Capital Work-In-Progress.

### 2.3 Depreciation on Tangible Fixed Assets

Depreciation on Fixed Assets is provided based on the useful life of the asset in the manner prescribed in Schedule II to the Companies Act, 2013. The Company has used the following useful life to provide depreciation on its tangible assets.

Asset	Useful Life
Building	60 Years
Building-Compound Wall and Well	5 Years
Furniture & Fittings	10 Years
Electrical Fittings	10 Years
Computer	3 Years
Vehicles	8 Years

Pursuant to the enactment of Companies Act, 2013, the Company has applied the estimated useful lives as specified in schedule II. Accordingly the unamortized carrying value is being depreciated, amortized over the revised/remaining useful lives.

### 2.4 Intangible Asset

Intangible Assets are recorded at the consideration paid for acquisition less accumulated amortization and accumulated impairment, if any. Intangible assets are amortized over their estimated useful life subject to a maximum period of 10 years on straight line basis, commencing from the date the asset is available to the Company for its use.

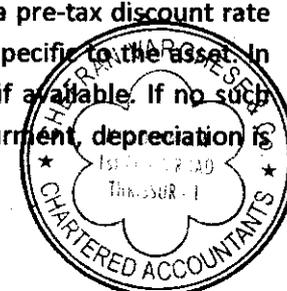

Expenditure for acquisition and implementation of software system is recognized as part of the intangible asset and amortized on straight line basis over a period of 10 years being the maximum period available for writing off of intangible asset.

### 2.5 Borrowing Costs

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. All other borrowing costs are recognized in the Statement of Profit and Loss in the period in which they are incurred.

### 2.6 Impairment

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating units (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken in to account, if available. If no such transactions can be identified, an appropriate valuation model is used. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

## 2.7 Leases

Leases where the lessor effectively retains substantially all risks and benefits of ownership of the leased term are classified as operating leases. Operating lease payments in respect of non-cancellable leases are recognized as an expense in the profit and loss account on a straight-line basis over the lease term.

## 2.8 Investments

Investments that are readily realizable and are intended to be held for not more than one year from the date, on which such investments are made, are classified as current investment. All other investments are classified as long term investments. Current investments are carried at cost or fair value, whichever is lower. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize decline other than temporary in the value of the investments.

## 2.9 Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. In a situation where management believes that the recovery of interest is uncertain due to change in the price of the gold or otherwise, the Company recognizes income on such loans only to the extent it is confident of recovering interest from its customers through sale of underlying security or otherwise.

Interest income on loans given is recognized under the internal rate of return method. Such interests, where instalments are overdue in respect of non-performing asset are recognized on realization basis. Any such income recognized and remaining unrealized after the instalments become overdue with respect to non-performing asset is reversed.

Revenue from fee-based activities are recognized as and when services are rendered.

Interest on deposit is recognized on a time proportion basis taking in to account the amount outstanding and the rate applicable.

## 2.10 Employee Benefits

### Short term Employee Benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as Short term employee benefits. These benefits include benefits like salaries, wages, short term compensated absence such as paid annual leave and sickness leave. ### Long term Employee Benefits

## 2.11 Foreign currency transaction

On initial recognition, all foreign currency transactions are recorded by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

As at the reporting date, non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. All non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

All monetary assets and liabilities in foreign currency are restated at the end of accounting period. A monetary asset or liability is termed as a long-term foreign currency monetary item, if the asset or liability is expressed in a foreign currency and has a term of 12 months or more at the date of origination of the asset or liability.

Exchange differences on restatement/settlement of all other monetary items are recognised in the Statement of Profit and Loss.

## 2.12 Taxes on Income

Tax expense comprises current and deferred tax. Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the income-tax Act, 1961 enacted in India.

Deferred tax charge or credit reflects the tax effects of timing difference between accounting income and taxable income for the period. The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates that have been enacted or substantively enacted by the Balance Sheet date. Deferred tax assets are recognized only to the extent there is reasonable certainty that the assets can be realised in future; however, where there is unabsorbed depreciation or carry forward losses, deferred tax assets are recognized, only if there is virtual certainty of realisation of such assets. Deferred tax assets are reviewed at each Balance Sheet date and are written-down or written-up to reflect the amount that is reasonably/ virtually certain (as the case may be) to be realised.

Deferred Tax Assets and deferred tax liabilities are offset when there is a legally enforceable right to set off assets against liabilities representing current tax and where the deferred tax assets and the deferred tax liabilities relate to taxes on income levied by the same governing taxation laws.

**Provisions:** Provisions are recognised when there is a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Earnings considered in ascertaining the Company's earnings per share is the net profit for the period after deducting preference dividends and any attributable tax thereto for the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources. We may at our discretion redeem the NCDs without the requirement of surrendering of the NCD certificates by the holder(s) thereof. In case we decide to do so, the holders of NCDs need not submit the NCD certificates to us and the redemption proceeds would be paid to those NCD holders whose names stand in the register of NCD holders maintained by us on the record date fixed for the purpose of redemption of NCDs. In such case, the NCD certificates would be deemed to have been cancelled. Also please refer to the paragraph on "*Payment on Redemption*" given below.

1. The Commissioner of Income Tax (Central), Kochi (“**CITK**”) filed a writ petition (c) bearing no. 23856/2013 dated August 28, 2013 (“**Writ Petition**”), before the High Court of Kerala against the order dated March 25, 2013 (“**Order**”) passed by the Income Tax Settlement Commission, Chennai (“**Commission**”) for the assessment years 2004-05 to 2010-11, granting immunity to our Company from penalty and prosecution. Aggrieved by the Order, the Writ Petition was filed by CITK inter-alia on the ground that the Commission has no authority to grant immunity to our Company from penalty and prosecution unless our Company makes full and true disclosure of its income, manner in which it was derived and cooperates with the Commission in the proceedings. The CITK further alleged that the income admitted by our Company was less than the income quantified by the Commission and hence full and true disclosure wasn’t made and thus the Order passed by the Commission was against law. Further, the CITK has prayed for the issuance of writ of certiorari or any other appropriate order quashing the Order to the extent that it granted immunity to our Company from prosecution and penalty. The matter is currently pending.

### Indirect Tax

1. The Office of the Commissioner of Central Excise and Customs, Cochin (“**Authority**”) has issued a show cause notice bearing no. V/ST/15/154/2015 ST Adj dated April 21, 2015 (“**SCN**”) to our Company calling upon our Company to show cause as to why a sum of ₹4,384.86 lacs should not be included in the value of the taxable service rendered by our Company for a period from April 1, 2013 to March 31, 2014, the differential service tax amounting to ₹526.18 lacs, education cess amounting to ₹10.52 lacs and higher education cess of ₹5.26 lacs should not be demanded and recovered from our Company, under Section 73(1) of the Finance Act, 1994 (“**Act**”). Also our Company was asked to show cause as to why applicable interest under Section 75 of the Act and penalty under Section 76, 77(2) and 78 should not be imposed on our Company. In the SCN the Authority contended that our Company undertook rail and bus ticket bookings and had charged amounts as token and postage charges, further our Company also received commission for doing agency business for insurance companies in addition to receiving commission from M/s Wall Street Finance Limited for acting as their sub-representatives for the purpose of offering money transfer services. Our Company vide a letter dated July 1, 2015 replied to the SCN wherein we have justified that no service tax is payable on the risk interest/token charges/postage charges and on commission received on insurance and money transfer services. The Authority vide an order dated March 15, 2016 (“**Order**”) confirmed the demand of ₹5,26,18,392 as service tax, ₹10.52 lacs as education cess and ₹5.26 lacs as higher education cess thereby aggregating our total tax liability to ₹5,41,96,943 along with a penalty of ₹5,42,06,943 being imposed on our Company. The SCN was heard and the issue was adjudicated by the Authority vide its Order which confirmed the proposal contained in the SCN, resulting in the demand of service tax of ₹41.04 lacs along with interest and penalties. The Appeal was filed inter-alia on the grounds that the disputed taxable amount is only interest received on Gold Loan which is eligible for exemption from payment of service tax. Also, the money transfer services rendered by our Company represent export of service on which levy of service tax is not legally sustainable. Our Company has prayed that the Order be set aside. The matter is pending. Our Company has also filed a stay petition dated June 8, 2011 for dispensing with the pre deposit of the disputed amounts along with interest and penalty till disposal of the appeal petition.

*The regulations summarized below are not exhaustive and are only intended to provide general information to Investors and are neither designed nor intended to be a substitute for any professional legal advice. Taxation statutes such as the IT Act, Central Sales Tax Act, 1956 and applicable local sales tax statutes, labour regulations such as the Employees State Insurance Act, 1948 and the Employees Provident Fund and Miscellaneous Provisions Act, 1952, and other miscellaneous regulations such as the Trade Marks Act, 1999 and applicable Shops and Establishments statutes apply to us as they do to any other Indian company and therefore have not been detailed below.*

*The following description is a summary of certain sector specific laws and regulations in India, which are applicable to our Company. The information detailed in this chapter has been obtained from publications available in the public domain. The regulations set out below may not be exhaustive, and are only intended to provide general information to the investors and are neither designed nor intended to substitute for professional legal advice. The statements below are based on the current provisions of the Indian law, and the judicial and administrative interpretations thereof, which are subject to change or modification by subsequent legislative, regulatory, administrative or judicial decisions.*

The major regulations governing our Company are detailed below:

We are a non-deposit taking (which does not accept public deposits), systemically important, NBFC. As such, our business activities are regulated by RBI Regulations applicable to non-public deposit accepting NBFCs (“**NBFC-ND**”).

### **Regulations governing NBFCs**

As per the RBI Act, a financial institution has been defined as a company which includes a non-banking institution carrying on as its business or part of its business the financing activities, whether by way of making loans or advances or otherwise, of any activity, other than its own and it is engaged in the activities of loans and advances, acquisition of shares/stock/bonds/debentures/securities issued by the Government of India or other local authorities or other marketable securities of like nature, leasing, hire-purchase, insurance business, chit business but does not include any institution whose principal business is that of carrying out any agricultural or industrial activities or the sale/purchase/construction of immovable property.

As per prescribed law any company that carries on the business of a non-banking financial institution as its ‘principal business’ is to be treated as an NBFC. The term ‘principal business’ has not been defined in any statute, however, RBI has clarified through a press release (Ref. No. 1998-99/1269) issued in 1999, that in order to identify a particular company as an NBFC, it will consider both the assets and the income pattern as evidenced from the last audited balance sheet of the company to decide a company’s principal business. The company will be treated as an NBFC if its financial assets are more than 50 percent of its total assets (netted off by intangible assets) and income from financial assets should be more than 50 percent of the gross income. Both these tests are required to be satisfied in order to determine the principal business of a company.

Every NBFC is required to submit to the RBI a certificate, from its statutory auditor within one month from the date of finalization of the balance sheet and in any case not later than December 30 of that year, stating that it is engaged in the business of non-banking financial institution requiring it to hold a certificate of registration.

NBFCs are primarily governed by the RBI Act, the Non-Banking Financial (Deposit Accepting or Holding) Companies Prudential Norms (Reserve Bank) Directions, 2007 (“Prudential Norms – D”), the Systemically Important Non-Banking financial (Non-Deposit Accepting or Holding) Companies Prudential Norms (Reserve Bank) Directions, 2015 (“Prudential Norms – ND”) and Non- Systemically Important Non-Banking financial (Non-Deposit Accepting or Holding) Companies Prudential Norms (Reserve Bank) Directions, 2015 the Non-Banking Financial Companies Acceptance of Public Deposits (Reserve Bank) Directions, 1998 and the provisions of the Non-Banking Financial Companies Prudential Norms (Reserve Bank) Directions, 1998. In addition to these regulations, NBFCs are also governed by various circulars, notifications, guidelines and directions issued by the RBI from time to time.

Although by definition, NBFCs are permitted to operate in similar sphere of activities as banks, there are a few important and key differences. The most important distinctions are:

- An NBFC cannot accept deposits repayable on demand – in other words, NBFCs can only accept fixed term deposits. Thus, NBFCs are not permitted to issue negotiable instruments, such as cheques which are payable on demand; and
- NBFCs are not allowed to deal in foreign exchange, even if they specifically apply to the RBI for approval in this regard.

Section 45-IA of the RBI Act makes it mandatory for every NBFC to get itself registered with the Reserve Bank in order to be able to commence any of the aforementioned activities.

Further, an NBFC may be registered as a deposit accepting NBFC (“**NBFC-D**”) or as a non-deposit accepting NBFC (“**NBFC-ND**”). NBFCs registered with RBI are further classified as:

- Asset finance companies;
- Investment companies;
- Systemically Important Core Investment Company;
- Loan companies and/or
- Infrastructure finance companies.
- Infrastructure debt fund - NBFCs;
- NBFC - micro finance institutions;
- NBFC –Factors;
- Mortgage guarantee companies; and/or
- NBFC- non-operative financial holding company

Our Company has been classified as an NBFC-ND-SI.

#### *Systemically Important NBFC-NDs*

The RBI in its notification (RBI/2014-15/520 DNBR (PD) CC.No.024/03.10.001/2014-15) dated March 27, 2015 revised the threshold for defining systemic significance for NBFCs-ND in the light of the overall increase in the growth of the NBFC sector. NBFCs-ND-SI will henceforth be those NBFCs-ND which have asset size of ₹50,000 lacs and above as per the last audited balance sheet. Moreover, as per this amendment, all NBFCs-ND with assets of ₹50,000 lacs and above, irrespective of whether they have accessed public funds or not, shall comply with prudential regulations as applicable to NBFCs-ND-SI. NBFCs-ND-SI is required to comply with conduct of business regulations if customer interface exists. This amendment also requires that the NBFCs primarily engaged in lending against gold jewellery have to maintain a minimum Tier 1 capital of 12% with effect from April 01, 2014.

All systemically important NBFCs are required to maintain a minimum Capital to Risk-Weighted Assets Ratio of 15%.

NBFCs are allowed to include the 'General Provisions on Standard Assets' in Tier II capital which together with other 'general provisions/ loss reserves' will be admitted as Tier II capital only up to a maximum of 1.25% of the total risk-weighted assets.

- Standard assets;
- Sub-standard Assets;
- Doubtful Assets; and
- Loss assets

Further, such class of assets would not be entitled to be upgraded merely as a result of rescheduling, unless it satisfies the conditions required for such upgradation. At present every NBFC is required to make a provision for standard assets at 0.25% of the outstanding. RBI, vide its notification dated November 10, 2014 has increased the requirement for standard assets for NBFCs-ND-SI and for all NBFCs-D to 0.40%, which is to be complied with in a phased manner as follows: (i) 0.30% by March 31, 2016 (ii) 0.35% by March 31, 2017 (iii) 0.40% by March 31, 2018.

NBFCs such as the Company, which do not accept public deposits, are subject to lesser degree of regulation as compared to a NBFC-D and are governed by the RBI's Non- Deposit Accepting Companies Directions.

An NBFC-ND is required to inform the RBI of any change in the address, telephone no's, etc. of its Registered Office, names and addresses of its directors/auditors, names and designations of its principal officers, the specimen signatures of its authorised signatories, within one month from the occurrence of such an event. #### **Accounting Standards & Accounting policies**

Subject to the changes in Indian Accounting Standards and regulatory environment applicable to a NBFC we may change our accounting policies in the future and it might not always be possible to determine the effect on the

Statement of profit and loss of these changes in each of the accounting years preceding the change. In such cases our profit/loss for the preceding years might not be strictly comparable with the profit/loss for the period for which such accounting policy changes are being made.

### **Reporting by Statutory Auditor**

The statutory auditor of the NBFC-ND is required to submit to the Board of Directors of the company along with the statutory audit report, a special report certifying that the Directors have passed the requisite resolution mentioned above, not accepted any public deposits during the year and has complied with the prudential norms relating to income recognition, accounting standards, asset classification and provisioning for bad and doubtful debts as applicable to it. In the event of non-compliance, the statutory auditors are required to directly report the same to the RBI.

### **KYC Guidelines**

The RBI has extended the Know Your Customer (“KYC”) guidelines to NBFCs and advised all NBFCs to adopt the same with suitable modifications depending upon the activity undertaken by them and ensure that a proper policy framework of anti-money laundering measures is put in place. The KYC policies are required to have certain key elements, including, customer acceptance policy, customer identification procedures, monitoring of transactions and risk management, diligence of client accounts opened by professional intermediaries, customer due diligence and diligence of accounts of politically exposed persons, adherence to KYC guidelines and the exercise of due diligence by persons authorised by the NBFC, including its brokers and agents.

### ***Financing of NBFCs by bank***

The RBI has issued guidelines *vide* a circular dated bearing number DBOD No. FSD. BC.46/24.01.028/2006-07 dated December 12, 2006 relating to the financial regulation of systemically important NBFC-NDs and the relationship of banks with such institutions. In particular, these guidelines prohibit banks from lending to NBFCs for the financing of certain activities, such as (i) bill discounting or rediscounting, except where such discounting arises from the sale of commercial vehicles and two wheelers or three wheelers, subject to certain conditions; (ii) unsecured loans or corporate deposits by NBFCs to any company; (iii) investments by NBFCs both of current and long term nature, in any company; (iv) further lending to individuals for the purpose of subscribing to an initial public offer.

In addition to the above the RBI has issued guidelines *vide* a circular dated bearing number DBR.BP.BC.No.5/21.04.172/2015-16 dated July 1, 2015 relating to bank financing of NBFCs predominantly engaged in lending against Gold has directed banks to (i) reduce their regulator exposure ceiling on a single NBFC, having gold loans to the extent of 50% or more of its total financial assets 10% of banks’ capital funds. However, the exposure ceiling may go up by 5%, i.e., up to 15% of banks’ capital funds if the additional exposure is on account of funds on-lent by NBFCs to the infrastructure sector and (ii) to have an internal sub-limit on their aggregate exposures to all such NBFCs, having gold loans to the extent of 50% or more of their total financial assets, taken together. The sub-limits should be within the internal limit fixed by the banks for their aggregate exposure to all NBFCs put together.

### ***Norms for excessive interest rates***

In addition, the RBI has introduced *vide* a circular bearing reference number RBI/ 2006-07/ 414 dated May 24, 2007 whereby RBI has requested all NBFCs to put in place appropriate internal principles and procedures in determining interest rates and processing and other charges. In addition to the aforesaid instruction, the RBI has issued a Master Circular on Fair Practices Code dated July 1, 2015 for regulating the rates of interest charged by the NBFCs. These circulars stipulate that the board of each NBFC is required to adopt an interest rate model taking into account the various relevant factors including cost of funds, margin and risk premium. The rate of interest and the approach for gradation of risk and the rationale for charging different rates of interest for different categories of borrowers are required to be disclosed to the borrowers in the application form and expressly communicated in the sanction letter. Further, this is also required to be made available on the NBFCs website or published in newspapers and is required to be updated in the event of any change therein. Further, the rate of interest would have to be an annualized rate so that the borrower is aware of the exact rates that would be charged to the account.

### ***Supervisory Framework***

In order to ensure adherence to the regulatory framework by systemically important ND-NBFCs, the RBI has directed such NBFCs to put in place a system for submission of an annual statement of capital funds, and risk asset ratio etc. as at the end of March every year, in a prescribed format. This return is to be submitted electronically within a period of three months from the close of every financial year. Further, a NBFC is required to submit a certificate from its statutory auditor that it is engaged in the business of non-banking financial institution with requirement to hold a certificate of registration under the RBI Act. This certificate is required to be submitted within one month of the date of finalization of the balance sheet and in any other case not later than December 30 of that particular year. Further, in addition to the auditor's report under Section 143 of the Companies Act, 2013 the auditors are also required to make a separate report to the Board of Directors on certain matters, including correctness of the capital adequacy ratio as disclosed in the return NBS-7 to be filed with the RBI and its compliance with the minimum CRAR, as may be prescribed by the RBI.

### ***Asset Liability Management***

The RBI has prescribed the Guidelines for Asset Liability Management (“**ALM**”) System in relation to NBFCs (“**ALM Guidelines**”) that are applicable to all NBFCs through a Master Circular on Miscellaneous Instructions to All Non-Banking Financial Companies dated July 1, 2015. As per this Master Circular, the NBFCs (engaged in and classified as equipment leasing, hire purchase finance, loan, investment and residuary non-banking companies) meeting certain criteria, including, an asset base of ₹10,000 lacs, irrespective of whether they are accepting / holding public deposits or not, or holding public deposits of ₹2,000 lacs or more (irrespective of the asset size) as per their audited balance sheet as of March 31, 2001, are required to put in place an ALM system. The ALM Guidelines mainly address liquidity and interest rate risks. In case of structural liquidity, the negative gap (i.e. where outflows exceed inflows) in the 1 to 30/31 days' time-bucket should not exceed the prudential limit of 15% of cash outflows of each time-bucket and the cumulative gap of up to one year should not exceed 15% of the cumulative cash outflows of up to one year. In case these limits are exceeded, the measures proposed for bringing the gaps within the limit should be shown by a footnote in the relevant statement.

### ***The Recovery of Debts due to Banks and Financial Institutions Act, 1993***

The Recovery of Debts due to Banks and Financial Institutions Act, 1993 (the “**DRT Act**”) provides for establishment of the Debts Recovery Tribunals (the “**DRTs**”) for expeditious adjudication and recovery of debts due to banks and public financial institutions or to a consortium of banks and public financial institutions. Under the DRT Act, the procedures for recovery of debt have been simplified and time frames have been fixed for speedy disposal of cases. The DRT Act lays down the rules for establishment of DRTs, procedure for making application to the DRTs, powers of the DRTs and modes of recovery of debts determined by DRTs. These include attachment and sale of movable and immovable property of the defendant, arrest of the defendant and his detention in prison and appointment of receiver for management of the movable or immovable properties of the defendant.

The DRT Act also provides that a bank or public financial institution having a claim to recover its debt, may join an ongoing proceeding filed by some other bank or public financial institution, against its debtor, at any stage of the proceedings before the final order is passed, by making an application to the DRT.

### ***Anti-Money Laundering***

The RBI has issued a Master Circular dated July 1, 2015 to ensure that a proper policy frame work for the Prevention of Money Laundering Act, 2002 (“**PMLA**”) is put into place. The PMLA seeks to prevent money laundering and provides for confiscation of property derived from, or involved in money laundering and for other matters connected therewith or incidental thereto. It extends to all banking companies, financial institutions, including NBFCs and intermediaries. Pursuant to the provisions of PMLA and the RBI guidelines, all NBFCs are advised to appoint a principal officer for internal reporting of suspicious transactions and cash transactions and to maintain a system of proper record (i) for all cash transactions of value of more than ₹10 lacs; (ii) all series of cash transactions integrally connected to each other which have been valued below ₹10 lacs where such series of transactions have taken place within one month and the aggregate value of such transaction exceeds ₹10 lacs. Further, all NBFCs are required to take appropriate steps to evolve a system for proper maintenance and preservation of account information in a manner that allows data to be retrieved easily and quickly whenever required or when requested by the competent authorities. Further, NBFCs are also required to maintain for at least ten years from the date of transaction between the NBFCs and the client, all necessary records of transactions, both domestic or international, which will permit reconstruction of individual transactions (including the amounts

Additionally, NBFCs should ensure that records pertaining to the identification of their customers and their address are obtained while opening the account and during the course of business relationship, and that the same are properly preserved for at least ten years after the business relationship is ended. The identification records and transaction data is to be made available to the competent authorities upon request.

### ***SARFAESI Act***

The SARFAESI Act regulates the securitization and reconstruction of financial assets of banks and financial institutions. The SARFAESI Act provides for measures in relation to enforcement of security interests and rights of the secured creditor in case of default.

The RBI has issued guidelines to banks and financial institutions on the process to be followed for sales of financial assets to asset reconstruction companies. These guidelines provide that a bank or a financial institution or an NBFC may sell financial assets to an asset reconstruction company provided the asset is an NPA. A bank or financial institution or NBFC may sell a financial assets only if the borrower has a consortium or multiple banking arrangements and at least 75% by value of the total loans to the borrower are classified as an NPA and at least 75% by the value of the banks and financial institutions in the consortium or multiple banking arrangement agree to the sale. In addition to the above, a financial asset may be sold by any bank or financial institution where the asset is reported, by the bank financial institution to Central Repository for Information on Large Credit, as an NPA wherein the principal or interest payment is overdue between 61-90 days.

As per the SARFAESI Amendment Act of 2004, the constitutional validity of which was upheld in a recent Supreme Court ruling, non-performing assets have been defined as an asset or account of a borrower, which has been classified by a bank or financial institution as sub-standard, doubtful or loss asset in accordance with directions or guidelines issued by the RBI. ### **Operational Instructions**

Foreign exchange in any form can be brought into India freely without limit provided it is declared on the Currency Declaration Form (CDF) on arrival to the Custom Authorities. When foreign exchange brought in the form of currency notes or travellers' cheques does not exceed US \$10,000 or its equivalent and/or the value of foreign currency notes does not exceed US \$5,000 or its equivalent, declaration thereof on CDF is not insisted upon.

Taking out foreign exchange in any form, other than foreign exchange obtained from an authorized dealer or a money changer is prohibited unless it is covered by a general or special permission of the Reserve Bank. Non-residents, however, have general permission to take out an amount not exceeding the amount originally brought in by them, subject to compliance with the provisions of sub-para above.

Authorised Money Changers (AMCs)/franchisees may freely purchase foreign currency notes, coins and travellers cheques from residents as well as non-residents. Where the foreign currency was brought in by declaring on form CDF, the tenderer should be asked to produce the same. The AMC should invariably insist on production of declaration in CDF.

AMCs may sell Indian Rupees to foreign tourists/visitors against International Credit Cards/International Debit Cards and take prompt steps to obtain reimbursement through normal banking channels.

AMCs may issue certificate of encashment when asked for in cases of purchases of foreign currency notes, coins and travellers cheques from residents as well as non-residents. These certificates bearing authorized signatures should be issued on the letter head of the money changer and proper record should be maintained.

In cases where encashment certificate is not issued, attention of the customers should be drawn to the fact that unspent local currency held by non-residents will be allowed to be converted into foreign currency only against production of a valid encashment certificate.

AMCs may purchase from other AMCs and ADs any foreign currency notes, coins and encashed travellers' cheques tendered in the normal course of business. Rupee equivalent of the amount of foreign exchange purchased should be paid only by way of crossed account payee cheque/Demand Draft/Bankers' cheque/Pay order.

Exchange for such private visits will be available on a self-declaration basis to the traveller regarding the amount of foreign exchange availed during a financial year. Foreign nationals permanently resident in India are also eligible to avail of this quota for private visits provided the applicant is not availing of facilities for remittance of his salary, savings, etc., abroad in terms of extant regulations.

AMCs may sell foreign exchange to persons resident in India for undertaking business travel or for attending a conference or specialized training or for maintenance expenses of a patient going abroad for medical treatment or check-up abroad or for accompanying as attendant to a patient going abroad for medical treatment/check-up up to the limits as specified in Schedule III to FEMA (Current Account Transactions) Rules, 2000.

AMCs may convert into foreign currency, unspent Indian currency held by non-residents at the time of their departure from India, provided a valid Encashment Certificate is produced.

AMCs may convert at their discretion, unspent Indian currency up to ₹10,000 in the possession of non-residents if, for *bonafide* reasons, the person is unable to produce an Encashment Certificate after ensuring that the departure is scheduled to take place within the following seven days. FFMCs may provide facility for reconversion of Indian Rupees to the extent of ₹50,000/- to foreign tourists (not NRIs) against ATM Receipts based on the following documents- Valid passport and visa, ticket confirmed for departure within 7 days, Original ATM slip.

AMCs may issue a cash memo, if asked for, on official letterhead to travellers to whom foreign currency is sold by them. The cash memo may be required for production to emigration authorities while leaving the country.

AMCs may put through transactions relating to foreign currency notes and travellers' cheques at rates of exchange determined by market conditions and in alignment with the ongoing market rates.

AMCs should display at a prominent place in or near the public counter, a chart indicating the rates for purchase/sale of foreign currency notes and travellers' cheques for all the major currencies and the card rates for any day, should be updated, latest by 10:30 a.m.

AMCs should keep balances in foreign currencies at reasonable levels and avoid build-up of idle balances with a view to speculating on currency movements.

Franchisees should surrender foreign currency notes, coins and travellers' cheques purchased only to their franchisers within seven working days.

The transactions between authorized dealers and FFMCs should be settled by way of account payee crossed cheques/demand drafts. Under no circumstances should settlement be made in cash.

AMCs may obtain their normal business requirements of foreign currency notes from other AMCs/authorized dealers in foreign exchange in India, against payment in rupees made by way of account payee crossed cheque/Demand Draft.

Where AMCs are unable to replenish their stock in this manner, they may make an application to the Forex Markets Division, Foreign Exchange Department, Central Office, Reserve Bank of India, Mumbai through an AD Category-I for permission to import foreign currency into India. The import should take place through the designated AD Category-I through whom the application is made.

**Rating Rationale**

The rating assigned to the long term bank facilities and debt instruments of Kosamattam Finance Limited (KFL) factors in its moderate capital adequacy levels, concentrated resource profile, geographical concentration of its portfolio, its exposure to market risk related to gold and low seasoning of its loan against property (LAP) portfolio. The ratings also take note of significant investment in land during FY16 (refers to the period April 01 to March 31) mainly purchased from related parties.

The ratings however factor in promoters' experience, long track record of operations of KFL in the gold loan business and relatively low NPA levels.

<sup>1</sup> Complete definition of the ratings assigned are available at [www.careratings.com](http://www.careratings.com) and other CARE publications

Going forward, the ability of the company to maintain comfortable asset quality, improve profitability and capital adequacy levels while increasing the scale of operations and any change in the regulatory scenario are the key rating sensitivities.

### **Background**

Kosamattam Finance Ltd (KFL), a non-deposit taking NBFC registered with RBI is part of Kosamattam group. The group was founded by Mr. Chacko Varkey in 1927, with the main activity being chit fund business. In 1980, the group ventured into gold loan business under Mr. Mathew Cherian (grandson of Mr. Chacko). In 2004, the group acquired an already established gold loan NBFC in Kerala called 'Standard Shares and Loans Pvt. Ltd.' and changed its name to Kosamattam Finance Private Ltd. KFPL was converted to a public limited company in November 2013 and consequently the name has been changed to Kosamattam Finance Ltd. The company's core business is offering loans against gold jewellery and constitutes around 89% of loan portfolio as on March 31, 2016. During FY15, KFL ventured into LAP as a step towards diversification and it constitutes around 11% of the loan portfolio as on March 31, 2016. The company had a loan portfolio of Rs.1,471 crore and operated through 935 branches as on March 31, 2016. KFL is also an RBI authorized Money Changer and offers forex services like buying and selling foreign currency and remittance abroad through Swift & foreign currency Demand Drafts. During FY16, income from other services/activities stood at Rs.2.17crore.

### **Credit Risk Assessment**

#### **Strong experience of the promoters**

Kosamattam group entered into gold loan business in 1980 under Mr. Mathew Cherian. With the experience gained from this venture, the group took over an already established NBFC in Kerala and changed its name to KFPL. Under Mr. Mathew Cherian and his son in law Mr. George Thomas, the company has expanded its network across South India and operates out of 935 branches as on March 31, 2016. Though the promoters have strong experience in gold loan business, there is lack of depth in organizational structure. Over the years, the company built its brand and has registered significant growth in the last five years.

#### **Risk management systems**

KFPL has put in place the adequate loan-appraisal systems. The branch employees have been trained to appraise quality of the gold jewellery provided as security against loan by prospective borrowers, which is subsequently verified by the gold appraiser. The company has implemented systems for ensuring the gold security and reducing the custodial risks, including highly secured vaults with dual control and insurance. The internal audit is conducted on monthly basis across the branches covering the disbursements, adherence to process, collection, gold stock etc., Surprise audit and cash verification is also done in all the branches. During FY15, the company has migrated to new software and the present MIS has restriction in accessing the earlier database. With respect to LAP, the company has a separate team at Head office for credit appraisal, which is headed by experienced professional from the banking industry. The loans are lent at a maximum LTV at 50% and financial parameters are also assessed at the time of credit appraisal.

### **Moderate profitability indicators albeit improved during FY16**

The loan portfolio witnessed growth of 23% from Rs.1,196 crore as on March 31, 2015 to Rs.1,471 crore as on March 31, 2016 aided by the growth in the disbursements. Disbursements increased from Rs.2,006 crore in FY15 to Rs.3,142 crore in FY16 registering a growth of around 57%. On account of growth in the loan portfolio, total income also grew from Rs.258 crore in FY15 to Rs.346 crore in FY16.

NIM moderated from 6.53% in FY15 to 6.13% in FY16 on account of increase in interest cost. However, on account of increase in operating efficiency and decline in credit costs, ROTA improved from 0.31% in FY15 to 0.58% in FY16. Operating expenses to average total assets improved from 5.73% in FY15 to 5.26% in FY16.

### **Moderate Capitalization levels**

During FY16, the loan portfolio grew by 23% from Rs.1,196 crore as on March 31, 2015 to Rs.1,471 crore as on March 31, 2016 aided by the stable disbursements and addition of the branches. KFL has added 40 branches during FY16. During FY16, promoters infused equity of Rs.15 crore and Rs.5.67 through Compulsorily Convertible Cumulative Preference shares (CCPS). Although, the promoters have been infusing equity on regular intervals, Tier I CAR is just above the minimum levels (12%) as stipulated by RBI. CAR and Tier I CAR was 18.31% and 12.67% as on March 31, 2016 as against CAR and Tier I CAR of 19.13% and 12.98% as on March 31, 2015. Timely equity infusion by the promoters to maintain CAR levels is the key rating sensitivity.

### **Comfortable asset quality**

GNPA and NNPA were at 0.45% and 0.20% as on March 31, 2016 as against GNPA and NNPA of 0.53% and 0.21% as on March 31, 2015. In order to contain the NPA levels and improve interest collection, the company has reduced the tenure of the loans to 9 months as against 12 month earlier. In case of non-recoverability of interest from the customers, the auction process would be initiated from the end of 9th month in order to minimize the interest and principal loss from auction. Hence, the gold price risk is mitigated to certain extent. The interest loss on the portfolio during auction has reduced from Rs.21 crore in FY15 to Rs.8 crore during FY16.

### **Increase in portfolio in LAP segment**

The company has ventured into LAP segment by end of FY15 as a step towards diversification. Under LAP, loans are extended to SME segment with the ticket size of Rs.50,000 – Rs.8 crore at a LTV of 50%. These loans have maximum tenure of 48 months with an average interest rate of 20% to 24% per annum. The loan portfolio of LAP has increased from Rs.29 crore (2.42%) as on March 31, 2015 to Rs.157 crore (11% of loan portfolio) as on March 31, 2016. At present, LAP is extended only in Kerala, Karnataka and Maharashtra. Though the company has appointed experienced management personnel to take care of various operational aspects, the company has limited experience in LAP. Considering the growth in LAP portfolio in FY16, with relatively large ticket size and low seasoning of the loan portfolio, maintaining comfortable asset quality in the segment remains to be seen.

During FY16, KFL has made investment in fixed assets amounting Rs.15 crore (6.55% of net worth as on March 31, 2016) in purchase of land from promoters and third party for construction of corporate office. It is to be noted that

during FY15, KFL had purchased an agricultural land from Mr.Mathew.K.Chcrian (Managing Director) for Rs.26 crore (11.35% of networth as on March 31, 2016).

#### **Concentrated resource profile**

The resource profile is concentrated towards NCDs which constitutes around 80% as on March 31, 2016 as against 83% as on March 31, 2015 and rest is towards bank borrowings. During FY16, the company raised NCDs aggregating Rs.453 crore (including sub-ordinate debt of Rs.30 crore) and has planned for fresh issues aggregating during FY17.

#### **Geographical concentration**

The loan portfolio is concentrated towards South India primarily in Tamil Nadu (48%), Kerala (33%) and Karnataka (12%) as on March 31, 2016 as against Tamil Nadu (43%), Kerala (43%) and Karnataka (10%) as on March 31, 2015. KFL has added 40 branches during FY16. KFL had 935 branches as on March 31, 2016. Though the share of other states contributes less to the loan portfolio, the company has been making consistent efforts to increase the loan portfolio by way of expanding the branch network and addition of new branches in the other geographies.

#### ***Intense competition in the gold loan business***

The NBFC sector plays an important role in broadening the access to the financial services and represents a heterogeneous group of companies separated by their type of activity, organizational structure, size and portfolio-mix. The high growth achieved by the gold loan companies in a short term has led to a slew of regulations from the RBI over last few years. Geographically, the gold loan financing industry is predominantly placed in the southern India with an active interest of both the South India-based banks and the large NBFCs operating out of this region. While the companies are gradually increasing their operations in the other parts of India, southern India is expected to remain as the primary market for gold loans.

#### ***Regulatory Scenario***

Gold loan NBFCs have seen significant change in regulatory environment in the past two years. RBI has imposed stringent regulatory norms for gold loan NBFCs by removing the priority sector status for the gold loan NBFCs, capping the bank's exposure to the gold loan NBFCs from 10% to 7.5% of the bank's net owned funds and bringing in LTV cap of 75% against the pledged gold jewelry. Also during FY15, RBI came out with new set of regulations for raising Retail NCDs liberalizing the rules laid out earlier.

**Rating Rationale**

The rating assigned to the long term bank facilities and debt instruments of Kosamattam Finance Limited (KFL) factors in its moderate capital adequacy levels, concentrated resource profile, geographical concentration of its portfolio, its exposure to market risk related to gold and low seasoning of its loan against property (LAP) portfolio. The ratings also take note of significant investment in land during FY16 (refers to the period April 01 to March 31) mainly purchased from related parties.

<sup>1</sup> Complete definition of the ratings assigned are available at [www.careratings.com](http://www.careratings.com) and other CARE publications

The ratings however factor in promoters' experience, long track record of operations of KFL in the gold loan business and relatively low NPA levels.

Going forward, the ability of the company to maintain comfortable asset quality, improve profitability and capital adequacy levels while increasing the scale of operations and any change in the regulatory scenario are the key rating sensitivities.
