MESSAGE FROM THE CHAIRMAN

On the business front, your company performed well and achieved several milestones in FY 2019-20

Dear Shareholders,

As I sit down to pen my message for the Annual Report FY 2019-20 at a desk in my home, I am reminded of a quote by one of India's most revered poets, Rabindranath Tagore, "*You can't cross the sea merely by standing and staring at the water.*" Staying resilient and agile in difficult situations is the only way we can respond efficaciously and adapt to changing times swiftly.

With the COVID-19 pandemic paralyzing the world and causing disruption to the magnitude never experienced before, your company quickly shifted focus on safeguarding the safety and well-being of employees, ensuring business continuity while considering all the relevant guidelines, and supporting the community we live and operate in. Driven by a strong belief that an organization's strength is in its employees, your company announced that there will be no job losses due to the COVID-19 situation at SRF.

Creating Value: The SRF Way

On the business front, your company performed well and achieved several milestones in FY 2019-20, despite the dynamic domestic and global macro-economic challenges. Viewed from a financial lens, your company achieved a 55% increase in profit after tax at ₹916 crore compared to ₹592 crore last year. Your company's revenue for the year stood at ₹7,209 crore as against ₹7,100 crore in the previous year, recording an overall growth of 2%. This growth was primarily on account of strong performance reported in the Chemicals Business and the Packaging Films Business. While we saw challenges in our Technical Textiles Business due to the auto sector slowdown and an overall sluggish pace of economic activity, we have, however, over the years built a

robust multi-business entity, which holds us in good stead. Strategic innovations across businesses, backed by strong R&D team have helped the company effectively face such external uncertainties.

Coming to our specific Businesses, I would like to talk about some of the milestones achieved by each of our business segments in FY 2019-20.

In the Fluorochemicals Business, we commissioned multiple facilities during the year that enhanced our HFC capacities further. We view this as a key expansion for the company that will drive growth from this segment in the coming years. I am also proud that R-467A, a drop-in substitute for F-22 that our R&D team developed in-house, received certification by the American Society of Heating, Refrigeration and Air-Conditioning Engineers, commonly referred to as ASHRAE. It is the first-ever refrigerant gas from India to receive this certification. An approval by ASHRAE is testimony to the fact that SRF is at the forefront of major fluorine-based gas transitions set by international regulations to reduce the global emissions of greenhouse gases. During the year, the Business also announced the setting up of an integrated Polytetrafluoroethylene (PTFE) plant along with an R 22 plant as feedstock. With this, your company is all set to enter the Fluoro polymer space, a new business segment and further enhance our value chain in the Fluorine segment. The overall performance of our Fluorochemicals Business was stable during the year despite prolonged and severe slowdown in the auto and white goods sector, leading to a low demand of refrigerants. However, the volumes of Chloromethanes contributed positively to the overall revenues of the Business.

Given the COVID-19 impact on various industries, we expect the demand for refrigerants from OEMs to remain low in the near-term. Having said that, I am confident of the growth momentum reviving and your company is well positioned to leverage on our existing facilities to deliver superior performance in the future.

The Specialty Chemicals Business has done very well during the year and increased the capacities of most of its flagship products. Moreover, the Business has made significant advances to improve the overall efficiencies in all new products, with a focus on running all the plants to maximum capacities and debottlenecking them as the need arises. A healthy demand from both the agrochemical and pharma segments has been encouraging and with the right investments that your company has made in this Business, we are ready to seize all opportunities that arise in the future. At the beginning of the year, we had projected an outlook of 40-50% revenue increase in the Specialty Chemicals Business. I am happy to share that our overall revenues for the Business are in excess of ₹1,650 crore, which is higher than what we had indicated.

In addition, the Business is working on sustainability with a more determined effort to reduce our carbon footprint as well as use less water in our processes. Overall, we continue to be optimistic that new product opportunities will emerge in both the agrochemical and pharma segments and exhibit a positive trajectory for the Business, and we expect to report a healthy performance in FY 2020-21 as well.

The Packaging Films Business has had a good year. Our continued strides towards maximizing contribution by keeping costs under control, improving the product mix and working towards sustainability initiatives is what sets us apart. Both the BOPET and BOPP films segments delivered steady returns to the overall performance. During the year, your company announced the setting up of a BOPP film line in Thailand, making it our third BOPP line, with facilities in South Africa, Indore and now Thailand.

Sustainability initiatives remain one of our top priorities, going forward. The Government of India is working aggressively on reducing the use of 'Single-Use Plastics'. This directive pertains to the use of single-use plastic products such as plastic plates, cutlery, straw, plastic beverage bottles, etc. Our products do not cater to any of these end use products and multi layered packaging is not a part of the definition of single use plastics. With the help of our in-house R&D, we will continue working out processes that enable us to use more recycled chips in our film production.

As stated earlier, the performance of the Technical Textiles Business (TTB) was subdued due to a sluggish domestic demand. However, the Business continued to focus on enhancing the operational excellence parameters at all its plant locations through cost saving and energy efficient methodologies.

During the year, we also announced the closure of the TTB plant at Rayong, Thailand as it was becoming economically unviable to continue running the plant. While these measures are difficult, they are also necessary to enhance competitiveness.

In Coated Fabrics, your company continues to maintain price and volume leadership in the domestic market. By adding textile capacity on a regular basis, we have not only increased our share but also made ourselves more competitive. The Laminated Fabrics segment has also seen an increase in the sales volume on a year-on-year basis in an over-supplied market. This is despite a lot of States banning the use of flex material as a signage solution.

You would remember that in May 2019, the company had announced the sale of its Engineering Plastics Business to DSM India. The closing conditions of the transition were completed in the second quarter of FY 2019-20 and the sale of the Business has now been achieved.

Before I close, I want to reiterate that your company cares deeply for its people and the communities in which

we operate. We have an important role to play during the COVID-19 crisis and commit ourselves to support the communities, especially the migrant workers who have lost their livelihood, as well as the authorities who are fighting tirelessly against the spread of coronavirus. SRF Foundation, the corporate social responsibility arm of SRF Limited is working to provide emergency response through the distribution of family essential kits, kits for frontline workers and hospital support material. Additionally, the team of SRF Foundation is working with their partners to support the education and learning needs of children across our intervention schools by bridging the digital divide through innovative methods.

In conclusion, I am confident of our growth potential and business opportunities that each of our segments exhibit. As the domestic and international operating environment improves gradually, I am optimistic of a healthy performance. This is possible due to our investments in world-class infrastructure, competent resources, superior R&D capabilities and a strong adherence to safety protocols, which is a cornerstone of our sustainability endeavors. I am also confident of creating sustained value for all our stakeholders as we progressively step into FY 2020-21.

On behalf of the Board of Directors of SRF Limited, I want to thank all employees of SRF and the management team for your hard work. I would also like to thank the investors and shareholders for your continued trust, confidence, and support.

Sincerely,

Arun Bharat Ram

Risk Management

Enterprise Risk Management is a risk based approach to manage an enterprise, identifying events that may affect the entity and manage risks to provide reasonable assurance regarding achievement of entity's objective.

The risks identified by the Company broadly fall into the following categories viz. strategic risks, operational risks, regulatory risks, financial and accounting risks, foreign currency and other treasury related risks and information systems risks. The risk management process consists of risk identification, risk assessment, risk prioritization, risk treatment or mitigation, risk monitoring and documenting the new risks.

Your Board has laid down a risk management framework and policy to address the above risks. The objective of the policy is to identify existing & emerging challenges that may adversely affect the company and manage risks in order to provide reasonable assurance to the various stakeholders. In the opinion of your Board, none of the risks which have been identified may threaten the existence of the Company.

The Board has constituted Risk Management Committee consisting of Mr. Ashish Bharat Ram as Chairman, Mr. Kartik Bharat Ram and Ms. Bharti Gupta Ramola as members of the Committee.

Internal Financial Controls

The Company believes that Internal Control is a necessary concomitant of the principle of Governance. It remains committed to ensuring an effective Internal Control environment that provides assurance to the Board of Directors, Audit Committee and the management that there is a structured system for:

- close and active supervision by the Audit Committee
- business planning and review of goals achieved
- evaluating & managing risks
- policies and procedures adopted for ensuring orderly Financial Reporting
- timely preparation of reliable Financial Information
- accuracy and completeness of the Accounting Records
- ensuring legal and regulatory compliance
- protecting company's assets
- prevention and detection of fraud and error

Annexure IV to BOARD'S REPORT

Independent Auditors' Report on Compliance with the Corporate Governance requirements under The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015

To
The Members of **SRF Limited**

1. This report is issued in accordance with the terms of our engagement letter dated 27 May 2020.
2. The accompanying Corporate Governance Report prepared by SRF Limited ("the Company") contains details of compliance of conditions of corporate governance by the Company for the year ended 31 March 2020, as stipulated in Regulations 17-27, clauses (b) to (i) of the Regulation 46(2) and paragraphs C, D and E of the Schedule V of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations") pursuant to the Listing Agreement of the Company with stock exchanges.

Managements' Responsibility

3. The preparation of the Corporate Governance Report is the responsibility of the Management including the preparation and maintenance of all the relevant supporting records and documents. This responsibility also includes the design, implementation and maintenance of internal controls relevant to the preparation and presentation of the Corporate Governance Report.
4. The Management, along with the Board of Directors, is also responsible for ensuring that the Company complies with the conditions of the Corporate Governance and provides all relevant information to Securities and Exchange Board of India. The management shall comply with the corporate governance provisions which shall be implemented in a manner so as to achieve the objectives of the principles.

Auditor's Responsibility

5. Pursuant to the requirements of the Listing Regulations, it is our responsibility to provide a reasonable assurance whether the Company has complied with the conditions of Corporate Governance as stipulated in the SEBI's Listing regulations for the year ended 31 March 2020.
6. A reasonable assurance engagement involves performing procedures to obtain sufficient appropriate evidence on the subject matter stated in the above paragraph. The procedures selected, including procedures for assessment of the risk associated with the subject matter, depends on the auditor's judgment.
7. Our examination was limited to the procedures and implementation thereof adopted by the Company for ensuring the compliance of Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.
8. We conducted our examination in accordance with the Guidance Note on Reports or Certificates for Special Purposes, ("the Guidance Note"), issued by the Institute of Chartered Accountants of India ("ICAI"). The Guidance Note requires that we comply with the ethical requirements of the Code of Ethics issued by the ICAI.
9. We have complied with the requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements, issued by ICAI.

Opinion

10. In our opinion, and to the best of our information and according to the explanations and representations given to us, we are of the opinion that the Company has complied with the conditions of the Corporate Governance as stipulated in Listing Regulations, as applicable as at 31 March 2020, referred to in paragraph 2 above.
11. We state that such compliance is neither an assurance as to the future viability of the Company nor as to the efficiency or effectiveness with which the Management has conducted the affairs of the Company.

Restrictions on Use

12. This report is addressed to and provided to the members of the Company solely for the purpose of enabling it to comply with the obligations under the Listing Regulations and it should not be used by any other person or for any other purpose. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this certificate is shown or into whose hands it may come without our prior consent in writing. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

SRF Limited - Dividend Distribution Policy

OBJECTIVES	This Policy shall provide the underlying philosophy, rationale and guidelines to distribute the surplus generated by the company, among its shareholders by way of cash Dividend including interim Dividend.
PHILOSOPHY	The philosophy of the Company is to maximise the shareholders' wealth in the Company through various means. The Company believes that driving growth creates maximum shareholder value. Thus, the Company would first utilise its profits for working capital requirements, capital expenditure to meet expansion needs, reducing debt from its books of accounts, earmarking reserves for inorganic growth opportunities and thereafter distributing the surplus profits in the form of dividend to the shareholders.
KEY PROCESSES THE GUIDELINES GOVERNS	CFAST (Treasury) CFAST (Secretarial)
REGULATORY FRAMEWORK	This Dividend Distribution Policy has been formulated in line with Clause 43A of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 which require the top five hundred listed entities based on market capitalization (calculated as on March 31 of every financial year) to formulate a Dividend distribution policy which shall be disclosed in their annual reports and on their websites.
PARAMETERS FOR DECLARATION OF DIVIDEND	<p>Board of Directors of the Company shall consider the following parameters for declaration of Dividend :-</p> <p>Financial Parameters/Internal Factors</p> <ul style="list-style-type: none"> • Standalone and Consolidated profit after tax • Working capital requirements • Capital expenditure requirements • Resources required to fund acquisitions and/or new businesses • Return on Capital Employed • Cost of borrowings • Cash flow required to meet contingencies • Outstanding borrowings and their servicing • Covenants in the financial facilities agreements • Past Dividend trends <p>External Factors</p> <ul style="list-style-type: none"> • Prevailing statutory requirements, regulatory conditions or restrictions laid down under applicable laws including tax laws. • Dividend pay-out ratios of comparable companies. • Macroeconomic conditions • Expectations of major stakeholders including small shareholders.

CIRCUMSTANCES UNDER WHICH THE SHAREHOLDERS MAY OR MAY NOT EXPECT DIVIDEND	<p>Shareholders may not expect Dividend under the following circumstances :-</p> <ul style="list-style-type: none"> • Whenever it undertakes or proposes to undertake a significant expansion project requiring higher allocation of capital; • Significantly higher working capital requirements adversely impacting free cash flow; • Whenever it undertakes any acquisitions or joint ventures requiring significant allocation of capital; • Whenever it proposes to utilise surplus cash for buy-back of securities • In the event of inadequacy of profits or whenever the Company has incurred losses; or • Any other event in which the Board of Directors may deem it fit to not declare dividend.
UTILISATION OF RETAINED EARNINGS	<p>The Board may retain its earnings in order to make better use of the available funds and increase the value of the stakeholders in the long run. The decision of utilization of the retained earnings of the Company shall be based on the following factors:</p> <ul style="list-style-type: none"> • Expansion plans; • Product expansion plans; • Increase in production capacity; • Modernization plans; • Diversification of business; • Mergers and acquisitions; • Long term strategic plans; • Replacement of capital assets; • Where the cost of debt is expensive; • Other such criteria as the Board may deem fit from time to time.
PARAMETERS ADOPTED WITH REGARD TO VARIOUS CLASSES OF SHARES	<ul style="list-style-type: none"> • Presently, the Authorised Share Capital of the Company is divided into equity share of ₹ 10 each, Preference shares of ₹ 100 each, Cumulative convertible Preference shares of ₹ 50 each and Cumulative Preference shares of ₹ 100 each. At present, the issued and paid-up share capital of the Company comprises only equity shares. • The Company shall first declare dividend on outstanding preference shares, if any, at the rate of dividend fixed at the time of issue of preference shares and thereafter, the dividend would be declared on equity shares. • As and when the Company issues Preference shares, the Board may suitably amend this Policy.
PROCEDURE	<ul style="list-style-type: none"> • The Chief Financial Officer in consultation with the MD of the Company shall recommend any amount to be declared/ recommended as Dividend to the Board of Directors of the Company. • The agenda of the Board of Directors where Dividend declaration or recommendation is proposed shall contain the rationale of the proposal. • Pursuant to the provisions of applicable laws and this Policy, interim Dividend will be approved by the Board of Directors and final Dividend, if any, recommended by the Board of Directors, will be subject to shareholders approval, at the ensuing Annual General Meeting of the Company. • The Company shall ensure compliance of provisions of Applicable Laws and this Policy in relation to Dividend declared by the Company.
DISCLOSURE	<ul style="list-style-type: none"> • Company shall make appropriate disclosures as required under SEBI Regulations, Companies Act, 2013 and other applicable laws.

GENERAL

- This Policy would be subject to revision/amendment in accordance with the guidelines as may be issued by Ministry of Corporate Affairs, Securities Exchange Board of India or such other regulatory authority as may be authorized, from time to time, on the subject matter.
- The Company reserves its right to alter, modify, add, delete or amend any of the provisions of this Policy.
- In case of any amendment(s), clarification(s), circular(s) etc. issued by the relevant authorities, not being consistent with the provisions laid down under this Policy, then such amendment(s), clarification(s), circular(s) etc. shall prevail upon the provisions hereunder and this Policy shall stand amended accordingly from the effective date as laid down under such amendment(s), clarification(s), circular(s) etc.

- Automation of lighting system with help of Presence detectors & Timers in the plant- Energy saving- 16104 KWH p.a.
- Stopping of baby cooling tower, and lined up main tower without any changes in

polymerization. Annualised Power savings – 34444 KWH

- Reduction in consumption of compressed air for Looms in Textile from 75 CFM to 55 CFM by changing relay nozzle types and adopting best practices – Energy saving- 44650 KWH p.a.

12. Technical Textiles Business – Gummidipoondi

- Saving of 25348 KWH p.a. of power through Hollow FRP blades, VFD installation for Utility cooling tower fan
- Saving of 43169 KWH p.a. of power through installation of energy efficient pumps.
- Saving of 50680 KWH p.a. of power through reduction in compressed air losses by tracing the leaks through Ultrasonic leak detector
- Savings of 42453 KWH p.a. through Installation of VFD for Textile AHUs, Office AHU & WTP filter water pump.
- Savings of 42435 KWH p.a. through Installation of energy efficient motors for 840D twisters.
- Savings of 23508 KWH p.a. by Installation of VFD for PIY 3313 air blower.
- Savings of 25316 KWH p.a. by automation of lighting system in Dipping & stores areas.

13. Technical Textiles Business – Viralimalai

- Saved power 7139 KWH p.a. by optimization of the Twister motor Capacity.
- Saved power 12787 KWH p.a. by Auto Cutoff of HSD Roof exhaust.
- Achieved a savings of 23414 KWH p.a. by replacing the conventional light to energy efficient LED.

Capital Investment on Energy Conservation Equipment:

Coated Fabrics

- Solid fired thermic fluid heater investment for ₹ 2.4 cr which will give annual saving on energy is ₹ 100 lacs.

Packaging Films Business, Indore SEZ

Description of Asset	Amount
• Energy efficient AHU's (Air Handling unit) with TFA	227.09 lacs
• Installation of chilled water operated FCU's (Fain Coil Unit)	166.31 lacs
• Compressed air optimization for energy	51.93 lacs
• Lean phase CP conveying system	25.78 lacs
• Installation of chill roll pump	2.57 lacs

Packaging Films Business, Kashipur

• Installation of energy efficient vacuum pump in metallizer	27.83 lacs
--	------------

Specialty Chemicals Business Bhiwadi:

- Installation of energy efficient chiller: ₹ 25 lacs
- VFD provision in Pumps: ₹ 2 lacs
- Replacement of old steam traps: ₹ 0.5 lacs

Specialty Chemicals Business Dahej:

- Investment in providing chilled water from process chiller in PP-1: ₹ 3.5 lacs
- Installation of rotary switch / timer in plant: ₹ 1 lacs
- Replacement of CFL/250W by LED lights: ₹ 0.5 lacs

Technical Textiles Business Manali:

- Installation of Energy efficient Motors (IE-3 standard) in Utility (12 no's).

Technical Textiles Business Gwalior:

- Conventional blowers replaced with mono block fans in air washers.
- Metallic blades replaced with FRP blades in air washers.
- Zero Liquid Discharge (ZLD) installed for treatment of wastewater.
- Air monitoring system installed for real time online ambient air monitoring and analysis.

Technical Textiles Business Gummidipoondi:

- Installation of VFD & hollow blades for Utility Cooling tower fans.
- EC fans for TW AHUs

B) Technology Absorption

Specialty Chemicals Business:

The Specialty Chemicals Business produces a number of high-value products from both dedicated and flexible manufacturing assets. The Business is engaged with reputed domestic as well as global innovators for developing new products in our chosen markets. The focus has been to leverage the company's expertise for products used in the agrochemical and pharmaceutical industries.

The Business relies on R&D and technology development at SRF to develop new age molecules for leading innovators in Agrochemical and Pharmaceutical space. These molecules are used as intermediates in the development of the final product. Apart from developing new age molecules, the R&D and technology teams also help in scaling up the capacity of existing products with a focus on lowering the cost of production and also improving the existing design parameters to increase the yields and thus the overall throughput.

Some of the areas where technology has been absorbed in this period are:

- Building process development capabilities to go beyond reported chemistries and technologies by developing novel processes
- Enhance capabilities to cater efficiently from market assessment to meeting customer needs
- Capacity and production yields of several product were significantly enhanced
- Strong emphasis on waste generation minimization
- Technological learnings from new projects were deployed horizontally to enrich overall delivery

The Business would continue to invest in technologies and research that enables continuous process improvements and technological advancements.

Technical Textiles Business:

The R&D centre of Technical Textiles Business is located at Manali, Chennai. Equipped with state-of-the-art Pilot facilities and sophisticated testing laboratories for evaluating Polymers, Fibers and fabrics, the TTB-R&D centre aims at maximizing competitiveness of Technical Textiles Business through market oriented new product/technology development. In this regard, the R&D centre has developed many variants of Polyester Industrial Yarns for as reinforcements in geotextiles, fiber reinforced composites etc., and Aramid based reinforcement fabric for hoses, each tailor-made for the respective application.

Apart from the developments in existing business space, novel products involving Nano-technology are also being developed by this centre in close association with leading Academic and Research Institutes in India and abroad for various research projects. TTB-R&D also works in close collaboration with major customers for joint developments in the field of Tyre cords, belting fabrics and other Mechanical Rubber Good reinforcements.

Management Discussion & Analysis

In the following pages, the Management will provide its perspective on the operating and financial performance of the company during FY 2019-20 and an outlook of the business performance in the coming years.

Businesses

SRF Limited is a chemical-based multi-business conglomerate engaged in the manufacturing of industrial and specialty intermediates. The company is widely recognized and well respected for its R&D capabilities globally, especially in the niche domain of chemicals. SRF Limited is a market leader in most of its business segments in India with a significant global presence. The company has operations in three countries namely India, Thailand and South Africa and an upcoming facility in Hungary. SRF has commercial interests in more than seventy-five countries and classifies its businesses as Technical Textiles Business (TTB), Chemicals Business (CB), Packaging Films Business (PFB), and Other Businesses.

Technical Textiles Business

FY 2019-20 witnessed a VUCA environment as the auto sector faced one of its worst crises ever, adversely impacting the Technical Textiles Business. Sales of every vehicle segment registered a double digit de-growth thereby eroding significant profits especially in case of Nylon Tyre Cord Fabric. During the year, the business also closed its Nylon Tyre Cord Fabric plant at Rayong (Thailand) due to high costs and lack of visibility on reaching profitable operations anytime in the near future. Because of this, the business witnessed de-growth in terms of both revenues and profitability. However, the Belting Fabrics segment performed better in terms of margins and registered a healthy EBIDTA.

Overall, the domestic capacity was underutilized due to poor demand in both Tyre Cord Fabric and Polyester Industrial Yarn segments.

Tyre Cord Fabrics

The Nylon Tyre Cord segment registered de-growth in EBIDTA due to low off-take in the OE sector. Replacement demand was also impacted due to financing issues, rural distress and job losses. Slow income growth also led to reduced purchasing power of the consumer that impacted the auto industry overall. As a result, most of the tyre companies cut back on production to reduce the pipeline inventory.

On the positive side, the plants of Technical Textiles Business continued to improve their operational parameters.

Belting Fabrics

With the steel industry growing at a healthy rate, Belting Fabrics registered a stable domestic demand growth vis-à-vis last year. However, Chinese posed stiff competition to compensate their sale loss in the US and resorted to aggressive pricing. The business however managed to post healthy EBIDTA and margins on the back of strengthened Value Added Products (VAPs) sales and exports.

On the operational front, the additional capacity commissioned was successfully utilized to cater to the growing demand and increased exports. The business continues to focus on rapid development of VAPs.

Polyester Industrial Yarn

The demand for Polyester Yarn segment witnessed a decline owing to slowdown in the auto and infra sectors. Even after the imposition of Anti-Dumping Duty, Chinese continued to dump yarn into India at lower prices creating a situation of oversupply. Overall, the business suffered due to sharp decline in demand, oversupply by the Chinese and aggressive pricing competition.

However, the business continued to focus on ramping up the sales of Value Added Products.

Outlook

The Technical Textiles Business is likely to get impacted in FY 2020-21 owing to the situation created by the COVID-19 pandemic. The situation may start to improve in the second half of the fiscal for NTCF, Belting Fabrics and PIY segments.

Chemicals Business

The Chemicals Business comprises two different product segments, namely Fluorochemicals and Specialty Chemicals.

Fluorochemicals

The Fluorochemicals Business (FCB) derives its revenue from the sale of refrigerants, pharma propellants and industrial chemicals. FCB has its manufacturing operations at Bhiwadi in Rajasthan and Dahej in Gujarat. With the ongoing business enhancement and debottlenecking projects currently underway, the Business is continuing its journey on the growth path.

Refrigerants & Propellants

SRF is the domestic market leader in the refrigerants space. Exports to more than 60 countries worldwide account for a significant portion of the overall revenue. The refrigerant product range marketed under the company's FLORON® brand includes F-22, F-134a, F-32 and HFC Blends such as F-404A, F-407C, and F-410A and newly-added products like F 600a and F 152a.

Market share in refrigerator segment increased with the launch of F 600a.

The business serves reputed OEMs manufacturing air-conditioners, refrigerators, pharmaceuticals, chillers and automobiles. SRF is the only Indian manufacturer of HFC 134a, HFC 125 and HFC 32 refrigerants, which have been developed using indigenous technology. SRF has commissioned new facilities for HFCs, which has further strengthened our competitive advantage in all three major HFCs, namely HFC 134a, 32 and 125. Today, we are positioned as one of the very few, best-in-class, fully backward integrated producers in the world. SRF has also successfully converted all the customers for Dymel® HFC 134a pharmaceutical propellant.

SRF is all set to enter into another segment i.e. Fluoropolymer business through its ongoing additional F 22 capacity and new Poly-tetrafluoroethylene capacity project at Dahej.

Industrial Chemicals

SRF's main products in the Chloromethane space are Methylene Chloride, Chloroform and Carbon Tetra Chloride, which are used by the pharma and agrochemical customers. Other products in this

segment are Trichloroethylene, Perchloroethylene, Tetrahydrofuran and Dilute Hydrofluoric Acid. The Business is poised to gain in terms of revenue and profitability from this segment. In the coming years, we are planning to add a couple of new products in the Industrial Chemicals space.

Outlook

With the overall sentiment in the market continuing to remain uncertain in FY21 due to COVID-19, we expect a demand slowdown for the coming year especially in the OEM space. However, Business is expected to improve its performance with better capacity utilization and other cost improvement initiatives along with keeping a close watch on how the Macro scenario moves. The Business will focus on maintaining its share of F 134a, F 32, F 125, HFC Blends and Methylene Chloride, apart from its ongoing efforts to pursue growth in Industrial Chemicals with the addition of new products to its portfolio.

Specialty Chemicals Business

The Specialty Chemicals Business expanded during the year and continues to remain focused on agrochemical and pharmaceutical space, where it collaborates with the major global innovators for process development, commercialization, and production of complex new-age molecules having downstream application in agrochemical and pharmaceutical segments. In the last three decades, the Business has developed world-class expertise in Fluorination chemistry and is also emerging as a champion in some of the non-Fluorinated, difficult-to-execute chemistries.

The Business witnessed some interruptions in operations in the first quarter at Dahej site due to shut down. However, the Business picked up momentum thereafter and captured the market opportunities in the agro space. This led to record sales in the second half of the year.

During the year, the Business launched six new agro intermediates and three pharma intermediates and remained steadfast on its innovation and technology leadership journey. The production capacity of several products was enhanced significantly at both the sites. In order to bolster the efforts to improve sustainability, a RO system was commissioned at the Dahej site to enable the use of recycled water from plants. The Business also made continual investment on improving the technological strength, process

improvements and focused cost control efforts. Such measures have enhanced both the positioning of the Business and its capabilities to deliver complex agrochemicals and related intermediates.

Outlook

The Business has emerged as a global leader in demonstrating its ability to supply some of the most critical intermediates to its customers. Efforts to deliver better value to the customers will continue as the Business remains committed to invest in improving its technological prowess, while having a strong focus on operational excellence. This will help the Business in taking on new-age challenging molecules.

The participation of the Business in agrochemicals market is in line with the global trends. However, the market is still susceptible to pricing pressure coming from crude pricing, unpredictable weather conditions in the customers' market and the more recent impact of COVID-19 on economies. SRF is currently working on various projects, which will gradually see fructification in the future.

The Business holds an optimistic outlook for the coming quarters as it continues to stay invested in the long-term projects to drive growth in the Specialty Chemicals space.

Chemicals Technology Group

The Chemicals Technology Group (CTG) has been instrumental in driving the development of new products and process technologies for the Fluorochemicals and Specialty Chemicals Businesses. Over the years, CTG has introduced a number of technologies that were new to SRF. It is the key force driving SRF up in the value chain of agrochemical and pharma intermediates as well as the new generation refrigerants.

CTG's key focus has been on the niche area of Fluorinated molecules, however, during the year it contributed significantly in the development of complex non-Fluorinated intermediates as well. The complexity of the molecules are increasing and so is the capability of CTG. The R&D and the scale-up facilities are also being augmented at Bhiwadi. This will further boost the capability of CTG, enabling it to meet the challenging and complex needs of the customers. CTG has been dedicatedly working on enhancing SRF's technology development capabilities by developing more efficient processes, by working on

novel chemistries and scaling them up for successful commercialization. With a clear vision of technology leadership and innovation, new product development having complex technology requirements will be the key driver of success and sustainable growth of SRF.

The two dedicated R&D facilities, engineering lab and pilot plant facilities, employing many scientists and engineers, work together to achieve the innovation and technology leadership at SRF. SRF continues to invest in R&D for creating propositions for the future and Capital and Revenue expenditures of ₹ 33.09 crore and ₹ 99.68 crore was spent respectively during FY 2019-20 for R&D.

Comprehensively, R&D team worked on 69 molecules and 38 products were successfully taken up for process development. A total of 16 scale-up campaigns were carried out by the pilot plant, 34 campaigns were taken up in the commercial multipurpose plants and 15 campaigns were completed in the dedicated plants. In FY 2019-20, CTG filed Thirty Five patents taking the total count to Two Hundred and Five patents filed so far. Thirty Seven patents were granted in FY 2019-20 taking the total count of patents granted to the company to Seventy.

Packaging Films Business

FY 2019-20 has been a good year for the Business. BOPP market started recovering from the down cycle and BOPET market remained balanced. Improved market sentiment accompanied by the hard work and passion of every team member contributed towards the larger goal of 'Easy To Do Business With (ETDBW)' and helped the Business achieve its best ever performance.

All units improved their efficiencies resulting in ~4% volume growth while sustaining the best in industry cost structures. In our journey of Value Added Products (VAPs), five new products were launched and VAP sales grew by more than 20% over previous year. While utilizing our assets to the maximum, we continuously strive to maintain a safe and healthy environment at our plants. In FY 2019-20, we received the "Sword of Honour" and 5 Star Rating for Occupational Health and Safety (OHS) from the British Safety Council for both our plants in Indore. Our expansions at both Hungary and Thailand are also progressing well and vertical start-up of both the lines will be one of the most important agenda items for the coming year.

Towards the end of the year, the Business faced some disruption because of the COVID-19 pandemic, which is expected to impact business at least in the initial period of FY 2020-21.

Outlook

FY 2020-21 has started on the note of COVID-19 pandemic affecting the global economy. The pandemic will affect production, create supply chain and market disruption and will result in financial impact on almost all organizations. The scenario is too uncertain to predict the demand. We expect that supply of Packaging Films will exceed demand leading to a pressure on margins as many small convertors might remain shut for a considerable time period and many new capacities are also likely to start both in BOPET and BOPP.

In FY21, SRF's primary focus will be on running its plants optimally, keeping costs under control and continue to work on VAPs. The efforts will also be directed towards maximum utilization of the two new BOPET facilities starting in the first quarter. We will also continue our work on the sustainability initiatives driven by the '3R' approach – Reduce, Reuse and Recycle.

During the year, we will keep a close watch on the macro scenario and will be flexible to adapt our strategy accordingly.

Other Businesses

Coated and Laminated Fabrics

Under the Other Businesses segment, both Coated and Laminated Fabrics performed well in FY 2019-20. Coated Fabrics Business recorded its best-ever performance. Despite adverse market situation, Laminated Fabrics Business has been able to successfully hold the fort and has achieved targeted sales number. Both the Businesses were impacted in March 2020 due to the situation arising from the COVID-19 pandemic.

Outlook

In FY21, we expect the market to remain subdued, at least in the initial part of the year, due to the fallout of the COVID-19 pandemic. For both the Businesses, the focus will be on maximizing the asset utilization and continue work on various cost reduction initiatives.

Human Resources

The recipe of any successful performance assessment system pivots around two key ingredients – correctly defined deliverables and constructive feedback on performance. At the onset of the year, the organization identified these two aspects as key focus areas for the year, with transparency and efficient automation being the cornerstone of all improvements. Today, the key deliverables, called Control Points, are properly defined in an automated module, monitored regularly and updated from time to time and in line with the changes that take place during the year. Furthermore, the organization moved away from the archaic and age-old practice of only managers initiating feedback when they deemed fit. We empowered people substantially by providing them a formal mechanism to seek feedback from their managers through the year. Providing feedback has also been mandated for a few levels in the organization.

With the automation of the promotion process, HR can now boast of almost all its transactional processes being automated and having more time at hand to deal with strategic level matters or matters needing personalized touch of our 'hi-tech' HR.

Traditionally, HR has been more 'feeling' than 'analyzing' and a fundamental shift in this approach was initiated a few years back when we started using analytics in HR. After years of laboring towards institutionalizing this change, our efforts fructified. A special recognition from an external forum – SHRM, came our way as an acknowledgement of the initiatives implemented by this function. This gave the function the much-needed impetus. Reporting HR data through real-time dashboards is another feather in the cap of the HR Analytics team.

Our commitment to complying with labour related statutes springs from the organization's DNA. While, the industry struggled with the newfound understanding of the Provident Fund Act, we chose to be the first few organizations to set things in order so that the interest of employees was protected.

HR witnessed a landmark year as the sale of our Engineering Plastics Business brought with itself an abundance of learning opportunities. The transition for our people was seamless with minimal disturbance for most.

Another interesting and prophetic change was the introduction of a more relaxed 'work from home'

policy. Towards the end of the year, we found ourselves grappling with the unfortunate reality of a pandemic and the economic and psychological fallouts of it. With the promise of no job losses because of the pandemic, the organization continues to put the interest and well-being of its employees first.

Industrial Environment

The organization's overall employee relations remained positive throughout the year. This was a result of our consistent efforts towards keeping our employees engaged. Various initiatives were implemented at the plants that encouraged participation and collaboration. We maintained a pleasant and cordial working environment across all manufacturing locations and witnessed an increase in productivity at several manufacturing locations.

The total number of permanent employees at SRF stands at 6,677 at the close of business on March 31, 2020. Of these, 6,299 are based at our Indian locations.

Information Technology

The year started with many IT projects to disassociate the Engineering Plastics Business (EPB) to independent operation systems that could be transitioned to DSM. We worked closely with the DSM team to ensure that the EP business operations continued during the transition to their systems. Over the year, we also enabled all our IT systems on our new international locations and plant extensions.

We improved resilience of core information systems like the ERP by migrating to virtual, fault tolerant systems ready for cloud transition. The Disaster recovery of such key systems was subsequently setup in cloud to ensure continuity in the event of disruptive events at the main data centers. Some new technology solutions were added in our R&D centers to improve our ability to conduct research and experiments.

We continued our efforts to automate more processes using Business Process Management technology tools and platforms, thereby resulting in improved process efficiency while reducing efforts and time taken. Master management activities, credit hold processes and other sales processes were optimized. The advanced supply chain planning solution was stabilized in Fluorochemicals business to help improve our monthly planning activities around production,

dispatches, procurement based on the sales demand across the world. Customer and supplier portals are being launched soon to better integrate with our partners. Operational dashboards have helped SRF over the year to have a good control on the key metrics. These were also upgraded and improved on newer platforms that support secure access on multiple devices from anywhere.

We increased coverage of modern workplace solutions based on cloud solutions like Office365. Adequate identity and data protection solutions were deployed to enable safe and secure working of employees from anywhere while protecting the intellectual property of SRF. This was a significant enabler that helped the company at the financial year end when the COVID crisis struck and overnight employees were asked to work from home. The collaboration solutions combined with secure VPN gateways to SRF data centers ensured that all essential SRF applications were accessible to employees who could seamlessly collaborate over secure audio/video conferencing solutions. The investments made over the years to modernize the SRF IT environment paid good dividends during these tough times.

Community Partnerships

Building on its long-term commitment to the sustainable and inclusive growth of the community, SRF Foundation, the corporate social responsibility arm of SRF Limited, expanded its scope of work and took concrete steps in compliance with Section 135 of the Companies Act 2013 during FY 2019-20. The Foundation continued to focus on the identified areas of education, vocational skills, natural resource management and affirmative action on a sustainable basis. Further, it strengthened its Public Private Community Partnership (PPCP) model to positively affect the lives of people.

FY 2019-20 witnessed the strengthening of the Foundation's education program. Today, we have reached 269 Government schools across 21 locations in nine states directly, providing quality education to more than 78,714 students. By collaborating with like-minded partners, we work with 110 Government & Private schools indirectly, positively affecting the lives of 1,300 students in these schools. The Foundation continued its work towards improving infrastructure and academic facilities under the School Education Program, and promoting digital-based learning through

KidSmart Centers, World on Wheels & GetSmart-Mobile Digital Labs, Common Services Lab, Digital Based Learning and Digital Theatres. The Foundation also undertook several new initiatives to improve the employability of people around our plant locations by providing vocational skills through partnerships with Rama Krishna Polytechnic, Schneider Electrical and The Times of India.

SRF Foundation, through its Natural Resource Management (NRM) program continued to reach the economically weaker families near its manufacturing plant at Bhiwadi in Rajasthan and improve their livelihood by adopting the watershed-based livelihood and environment conservation approach. In FY 2019-20, the Foundation conducted certain Hydrological and Environment studies in 35 villages around SRF Bhiwadi Plant in the Tijara block where rainfall is below normal and the results helped create a way forward plan.

During the year, SRF Foundation was recognized with various awards for its contribution to school education. We were honored with the maiden National CSR Award in Challenging Circumstances (North) by the Government of India and also by the Indian Institute of Corporate Affairs. Furthermore, we received the 4th ICSI CSR Excellence Award by the Institute of Company Secretaries of India for Best Corporate in Medium Category. We were also awarded the CSR Times Award - 2019 as 'Best Corporate Foundation' in Education Category during the 6th National CSR Summit. Moreover, we were adjudged the Best Partner in Digital Citizenship by Capgemini India.

In addition, SRF's Chemicals Business was felicitated by the Government of Rajasthan with the "Rajasthan State Bhamashah Award" for support to elementary education in the Bhiwadi region.

Internal Controls Systems and Internal Audit

The Internal Audit team develops an annual internal audit plan based on the risk profile of the business activities. The Internal Audit plan is approved by the Audit Committee, which also reviews compliance to the said plan.

The company has a well-documented system of internal controls in place commensurate with its size, scale and complexity of operations. These controls have been designed to provide reasonable assurance

with respect to recording and providing reliable financial and operational information, complying with applicable laws, safeguarding assets, executing transactions with proper authorization and ensuring compliance with corporate policies. The controls based on the prevailing business conditions and processes have been tested by internal/external auditors during the year and no reportable material weaknesses in the design or effectiveness was observed.

The Internal Audit team also monitors and evaluates the efficacy and adequacy of internal control systems in the company, the ERP solutions, the accounting procedures and policies at all locations. Based on the gaps reported in internal audit report, process owners undertake corrective actions in their respective areas and thereby strengthen the controls. Any significant audit observations and corrective actions thereon are presented to the Audit Committee.

The Audit Committee reviews the reports submitted by the Internal Auditors (both internal and external) in each of its meetings. The company also has a robust and comprehensive framework of Control Self-Assessment (CSA), which continuously verifies compliances with laid down policies and procedures and help in plugging the control gaps.

Risk Management

The company has developed and implemented a Risk Management Policy, which is approved by the Board.

The Risk Management Policy, inter alia, includes identification therein of elements of risk, including those, which in the opinion of the Board may threaten the existence of the company. Risk management process has been established across the company and is designed to identify, assess and frame a response to threats that affect the achievement of its objectives. Further, it is embedded across all the major functions and revolves around the goals and objectives of the organization. The responsibility of tracking and monitoring the key risks of the business/function periodically and implementing suitable mitigation plans proactively is with the senior executives of various business/functional units.

Risk Management Committee has been constituted by the Board of Directors in February 2019 to oversee key risks and assist the Board in efficient management of organizational risk. The scope of the Risk Management Committee [RMC] as defined by SRF is as under:

1. Oversee key risks, including strategic, financial, operational, compliance and cyber security risks.
2. Assist the Board in framing, implementing, monitoring and reviewing the risk management plan / policy of the company.
3. Assist the Audit Committee in evaluating the effectiveness of Risk Management System.

During FY20, the return on net worth of the Company is 20.80% vis-à-vis 13.20% in FY19. There is a change of 57.57% over the previous year due to an increase in operations, better operating margins and profit recognized on sale of EP business. Other Significant changes in key financial ratios as per listing regulations were:

Ratios	FY 19-20	FY 18-19	% Change	Remarks

Registrar and Share Transfer Agents

M/s KFin Technologies Private Limited (Formerly known as Karvy Fintech Private Limited), Hyderabad are the Registrar and Share Transfer Agent of the Company for handling both electronic and physical shares.

Share Transfer System

As per SEBI Notification No. SEBI/LAD-NRO/GN/2018/24 dated June 8, 2018 and further amendment vide Notification No. SEBI/LAD-NRO/GN/2018/49 dated November 30, 2018 request for effecting transfer of securities (except in case of transmission or transposition of securities) shall not be processed from April 01, 2019 unless the securities are held in dematerialized for with the depositories. In view of this and to eliminate all risks associated with physical shares and for ease of portfolio management, members holding shares in physical form are requested to consider converting their holdings to dematerialized form

Depository System

Shareholders can trade in the Company's shares only in electronic form. The process for getting the shares dematerialised is as follows:

- Shareholder submits the shares certificate along with De-materialisation Request Form (DRF) to Depository Participant (DP)
- DP processes the DRF and generates a unique De-materialisation Request No
- DP forwards the DRF and share certificates to the Registrar and Share Transfer Agent (RTA)
- RTA after processing the DRF confirms or rejects the request to Depositories
- If confirmed by the RTA, depositories give the credit to shareholder in his /her account maintained with DP

This process takes approximately 10-15 days from the date of receipt of DRF.

As the trading in the shares of the Company can be done only in the electronic form, it is advisable that the shareholders who have the shares in physical form get their shares dematerialised.

Dematerialisation of Shares & Liquidity

As on March 31, 2020 there were 51821 shareholders holding 56,616,962 shares in electronic form. This constitutes 98.50 per cent of the total paid-up share capital of the Company.

S. No.	Question	Principle 2 : Sustainability in life-cycle of products	Principle 7 : Responsible public policy advocacy	Principle 9 : Customer value
1.	The Company has not understood the Principles			
2.	The company is not at a stage where it finds itself in a position to formulate and implement the policies on specified principles			
3.	The company does not have financial or manpower resources available for the task			
4.	It is planned to be done within next 6 months			
5.	It is planned to be done within the next 1 year			
6.	Any other reason (please specify)	SRF manufactures intermediate products which are largely supplied to other industries for manufacturing of the final product. Any sustainability initiative has to take into account the final product as a whole for which the manufacturer of the final product is responsible	SRF is a member of various industrial and trade bodies. We actively participate in these forums on issues and policy matters that impact the interest of our stakeholders. We prefer to be a part of the broader policy development process through making representations to Chambers of Commerce, giving our comments on the proposed amendments in the relevant legislations and being a part of discussions with the representatives of the relevant authorities in open forums. Hence, we do not feel such a policy is necessary for us.	SRF is a business to business player and as such the customers are largely manufacturing companies which have stringent quality control measures in place and the quality of the product supplied by SRF is a part of the agreements with them. The product is manufactured as per the agreed parameters and specifications

Section E : Principle-wise performance

Principle 1

1. Does the policy relating to ethics, bribery and corruption cover only the company? Yes/ No. Does it extend to the Group/Joint Ventures/ Suppliers/Contractors/NGOs / Others?

The integrity of our people and fairness in organizational and business dealings is of utmost importance to all in SRF. As a responsible and leading organization, SRF conducts its business with utmost integrity. This is exemplified in our Values which are not just strong words but a way of life, reflected in our day-to-day behavior. We have the following policies in place which form the foundation of our Company's commitment towards ethical conduct at all levels:

- Code of Conduct: SRF has its Code of Conduct which is applicable to all the employees of the Company including the employees of the subsidiaries. It does not extend to the suppliers/contractors/NGOs etc. It is a must for every employee in all the business units/subsidiaries to follow the values enshrined in the Code of Conduct in their day to day activities. All employees must read and understand this Code and abide by it.
- Whistle-Blower Policy: This Policy is applicable to the Directors of the Company or a person who is in direct or indirect employment with the company who makes a protected disclosure under this policy. This Policy provides a platform to these

stakeholders for making any communication made in good faith that discloses or demonstrates evidence of any fraud or unethical activity within the company and had provisions to ensure protection of the whistleblower against victimization for the disclosures made by him/her.

2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the Management?

During the reporting period, no complaint was received under the provisions of Whistle-Blower Policy.

Principle 2

1. List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.

- I. Development of HFC-467A, which has zero ODP.

2. Does the Company have procedures in place for sustainable sourcing (including transportation)? If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof, in about 50 words or so.

Yes, the company has procedures in place to evaluate sustainability of suppliers which are reviewed periodically. The raw material and packaging purchased is tightly specified due to hazardous nature of our products and no compromise is permissible on specifications.

3. Has the Company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work?

If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

Yes, the Company sources packing materials and has awarded contracts like security, canteen, employee transport, housekeeping and other repairs and maintenance through local

sources. As we deal in hazardous substances, our purchases are mostly from organized sector. However, we do buy some engineering items from small producers and we help them improve their product quality by improving their engineering skills. We also hire contractors from the areas neighboring our plant and improve their capability by imparting training in various fields like safety, hazard handling, compliances etc.

4. Does the Company have a mechanism to recycle products and waste? If yes, what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%).

Sludge generated during treatment of effluent from the Effluent Treatment Plant has a composition similar to the raw material of Chemical Business viz. Fluorospar. Hence, 100% sludge is mixed with fresh raw material and used in manufacturing of Anhydrous Hydrogen Fluoride to recover the fluoride value in the sludge. Product recycling is negligible.

7. Please indicate the Number of complaints relating to child labour, forced labour, involuntary labour, sexual harassment in the last financial year and pending, as on the end of the financial year

S. No.	Category	No. of complaints filed during the Financial Year	No. of complaints pending as at end of the Financial Year
1.	Child labour/forced labour/involuntary labour	0	0
2.	Sexual harassment	0	0
3.	Discriminatory employment	0	0

8. What percentage of your under mentioned employees were given safety & skill upgradation training in the last year?

a. Permanent Employees	79%
b. Permanent Women Employees	72%
c. Casual/Temporary/ Contractual Employees	96%
d. Employees with Disabilities	94%

Principle 3

1. Please indicate the total number employees.

Permanent employees : 6299

2. Please indicate the total number of employees hired on temporary/contractual/casual basis

Temporary/contractual/casual basis : 4997

3. Please indicate the number of permanent women employees: 243

4. Please indicate the number of permanent employees with disabilities: 17

5. Do you have an employee association that is recognized by Management?

Yes

6. What percentage of your permanent employees is Members of this recognized employee association?

13%

Principle 4

1. Has the company mapped its internal and external stakeholders? Yes/No

Yes, SRF has mapped its internal and external stakeholders. We recognise employees, communities surrounding our operations, business associates (network of suppliers, stockists and dealers), customers, shareholders and regulatory authorities as our key stakeholders.

2. Out of the above, has the company identified the disadvantaged, vulnerable & marginalized stakeholders.

Yes, the Company has identified disadvantaged, vulnerable & marginalized stakeholders from the local community and the work force and has also engaged them for their socio-economic development through various CSR and Affirmative Action interventions. Local communities have been engaged under the CSR framework to work on good quality teaching-learning opportunities with the use of technology for children from low socio-economic status communities, and livelihood project infrastructure for youth who could not complete education. There are a few small and medium sized customers in one of our other businesses viz. Laminated fabrics business who look up to us for working Capital support.

3. Are there any special initiatives taken by the company to engage with the disadvantaged, vulnerable and marginalized stakeholders. If so, provide details thereof, in about 50 words or so.

Yes, the Company, in partnership with the Govt. and the local communities, has taken many initiatives under Affirmative Action and CSR focused upon Education, Skill and Livelihood development of the local community. In addition, recruitment of the equally qualified people from the local community is also encouraged. To minimize the Business' environmental impact on the community, an integrated Natural Resource Management project (NRM) is also under implementation with its regular impact assessment

Principle 5

1. Does the policy of the company on human rights cover only the company or extend to the Group/Joint Ventures /Suppliers / Contractors /NGOs/Others?

We have the Code of Conduct and Whistleblower Policy which covers issues related to human rights. The details of these two policies have been covered elsewhere in this Report. We do not deal with any supplier/contractor if it is in violation of human rights and we do not employ any person below the age of eighteen. We also

prohibit the use of forced or compulsory labour at all our units and discourage the same with our business associates.

The said policies discourage violation of SRF values and provide a fair and transparent mechanism for reporting any such violation. The Whistleblower Policy consists of a Value Steering Committee which investigates the disclosure made by the Whistleblower and recommends disciplinary or corrective action based on the outcome of the investigation. This policy also provides direct access to the Chairman of the Audit Committee in appropriate and exceptional cases. The system is designed to ensure confidentiality and protect the complainant from being victimized. False allegations are also dealt with disciplinary action in accordance with the Policy. A quarterly report of the summary of disclosures received and action recommended/ taken to the Audit Committee .

Any amendment or modification in the Whistleblower Policy would be approved in writing by the Managing Director of the Company and would be placed before the Audit Committee for its noting.

2. How many stakeholder complaints have been received in the past financial year and what percent was satisfactorily resolved by the management?

No complaint was received pertaining to human rights violation during the past financial year.

Principle 6

1. Does the policy related to Principle 6 cover only the company or extends to the Group/ Joint Ventures/Suppliers/Contractors / NGOs/others.

The Safety, health and environment policy of the company covers all its Business verticals and it applies to the contractors working for the company by way of incorporating the safety health and environment compliances in the agreement and in certain cases cover the interest of customers/ suppliers/ transporters/ contractors etc.

Power is being sourced from own windmills (13.95 MW capacity) and through a SPV arrangement (22.4 MW capacity). A 5 MW solar power plant in one of the plants has been commissioned. The company also has Biomass boilers using rice husk and similar fuel for its steam requirement and Thermic fluid heating requirements.

3. Does the company identify and assess potential environmental risks? Y/N

Yes, the company disposes its hazardous wastes to authorized agencies as identified by the Pollution Control Board. The company also disposes its e-waste to authorized agencies. The company has a well-defined on site and off site emergency plans in place for dealing with any environmental risks, which is audited and inspected by the Directorate of Industrial safety and health. The Company is certified in ISO 14001 (environmental management system). Under this standard, we have identified & assessed environmental aspect & its impact for all the major activities being performed at the site. We also conduct Environmental impact assessment (EIA) from time to time or at the time of setting up of new plant or expansion with the help of third-party expert.

4. Does the company have any project related to Clean Development Mechanism? If so, provide details thereof, in about 50 words or so. Also, if Yes, whether any environmental compliance report is filed?

In the past the company had an approved CDM project for incarceration of HFC-23. This helped in reduction of emission to the tune of 3 to 4

Million MT of Co2 equivalent. But even after the CDM project got over, the company has not allowed emission of HFC-23. The Company had filed environmental compliance report.

5. Has the company undertaken any other initiatives on – clean technology, energy efficiency, renewable energy, etc. Y/N. If yes, please give hyperlink for web page etc.

Yes, apart from sourcing of energy through wind power, solar power and biomass fuel, the company has taken initiative in converting all its lighting to energy efficient LED lights, usage of energy efficient motors, transformers etc. for various drives and reusing of the waste heat. The company also recycles its packing materials made of paper (paper tubes / cartons / corrugated boards etc.) to minimize usage. The captive power plant at Bhiwadi site of Chemicals Business consists of Biomass Boiler, where mustard husk and wood chips are used as fuel to generate steam. Bhiwadi is a zero discharge site. Through our Natural Resources Management project we replenish almost double water every year against what we consume.

Independent Auditors' Report

To the Members of

SRF Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of SRF Limited ("the Company"), which comprise the standalone balance sheet as at 31 March 2020, and the standalone statement of profit and loss (including other comprehensive income), standalone statement of changes in equity and standalone statement of cash flows for the year then ended, and notes to the standalone financial statements, including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2020, and profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Accounting for derivatives

An important element of Company's fund-raising strategy involves various types of borrowings including foreign currency denominated borrowings and a combination of fixed and floating interest rates. The Company's operating activities are also exposed to significant foreign exchange risk (refer to note 38 of the standalone financial statements).

The Company uses derivative financial instruments to mitigate foreign currency risk and interest rate risk primarily through foreign currency forward exchange contracts and interest rate swaps.

Further, the Company has been using hedge relationship designation as per criteria set out in relevant Indian accounting standards.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters:

In view of the significance of the matter, we applied the following audit procedures in this area, among others, to obtain sufficient appropriate audit evidence:

- Tested the design, implementation and operating effectiveness of controls over the Company's treasury and other related functions which directly impact the relevant account balances and transactions, including hedge accounting.
- For selected samples, obtained external confirmations from counterparties of the year end positions as well as agreed to original agreements.
- Performed sample tests of valuation and accounting of these transactions. In doing so we have involved valuation specialists to assist us in carrying out aforesaid procedure, as considered necessary.

Accounting thereof and related presentation and disclosures of these transactions require significant judgement.

Given the significant level of judgement and estimation involved and the quantitative significance, we have determined this to be a key audit matter.

Impact of adopting the new income tax regime

See notes 17 and 29 to the standalone financial statements.

With effect from financial year 2019-2020, the Income Tax Act provides an option of paying income taxes at a lower rate subject to complying with certain prescribed conditions ('new tax regime'). The Company has opted to shift to the new tax regime from a financial year in the future.

Accordingly, the deferred tax balances which are expected to reverse subsequent to the Company shifting to the new tax regime in the specified future year were remeasured and the consequential amount was recognised in the Standalone Statement of Profit and Loss of the current year. This amount is considered to be significant.

The determination of the point in time at which the Company would shift to the new tax regime involves significant judgement and estimation [including, consideration of uncertainties associated with COVID 19 pandemic, refer note 41(g)], regarding forecasting future taxable profits and realisation of MAT credit entitlement (an item of deferred tax assets). Since the impact of remeasurement of deferred tax balances as stated above is sensitive to these judgements and estimates, it affects the amount of deferred tax balances (including MAT credit) that are reversed in the Standalone Statement of Profit and Loss of the current year.

Given the significant level of judgement involved and the quantitative significance, we have determined this to be a key audit matter.

- Assessed the adequacy of disclosures in the financial statements in respect of both non-derivative and derivative financial instruments.

In view of the significance of the matter, we applied the following audit procedures in this area, among others, to obtain sufficient appropriate audit evidence:

- Examined the implications of the new provisions on the tax position of the Company to assess the impact of adopting the new tax regime from the specified future financial year.
- Obtained budgets/ business plans, underlying the projections prepared by the Company
- Challenged key assumptions used in the projections based on business plans, historical data and trends, based on our knowledge of business.
- Assessed the recoverability of MAT credit entitlement (an item of deferred tax assets) against the forecast future taxable profits.
- Assessed the adequacy of related disclosures in the standalone financial statements.

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the

other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibility for the Standalone Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the standalone financial statements made by the Management and Board of Directors.

- conclude on the appropriateness of the Management's and Board of Director's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern; and
- evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

Annexure A

to the Independent Auditors' report on the standalone financial statements of SRF Limited for the year ended 31 March 2020

Statement on matters specified in paragraphs 3 and 4 of the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of section 143 (11) of the Act

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

- (i) a) According to the information and explanations given to us, the Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets (property, plant and equipment).
- b) According to the information and explanations given to us, the Company has a regular programme of physical verification of its property, plant and equipment by which all fixed assets (property, plant and equipment) are verified, in a phased manner, over a period of three years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this programme, certain assets have been physically verified by the Management during the current year. As informed to us, no material discrepancies were noticed on such verification.
- c) According to the information and explanations given to us and the records examined by us and based on the examination of the registered sale deed / transfer deed / conveyance deed/ lease deed provided to us, we report that, the title deeds, comprising all the immovable properties (land and buildings) which are freehold/ leasehold, are held in the name of the Company as at the balance sheet date, except the following:

Particulars of the land and building	Gross Block	Net Block	Remarks
	31 March 2020 (₹ in crores)	31 March 2020 (₹ in crores)	
Land at Gummudipoondi	1.21	1.21	Out of the Industrial freehold land measuring 32.41 acres at the Company's plant in Gummudipoondi, the Company does not have clear title to 2.43 acres.
Land at Bharuch, Dahej	108.55 (Carried cost)	108.55 (Carried cost)	The execution of lease deed of land in respect of 1,149,550 square meters of leasehold land allotted to the Company by Gujarat Industrial Development Corporation at Dahej, Gujarat is pending.

- (ii) The inventories, except goods in transit, have been physically verified by the management during the year. In our opinion, the frequency of such verification is reasonable. According to the information and explanations given to us, the discrepancies noticed on verification between the physical stocks and the book records were not material and have been properly dealt with in the books of account.
- (iii) The Company has not granted any loans, secured or unsecured, to companies, firms, limited liability partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013. Accordingly, paragraph 3 (iii) of the Order is not applicable.

Annexure B

to the Independent Auditors' report on the standalone financial statements of SRF Limited for the year ended 31 March 2020

Report on the internal financial controls with reference to the aforesaid standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

[Referred to in paragraph 2(A)(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date]

Opinion

We have audited the internal financial controls with reference to financial statements of SRF Limited ("the Company") as of 31 March 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2020, based on the internal financial controls with reference to financial statements criteria established by the Company, considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal controls stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of

reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal controls based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process

designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

1 Corporate Information, Significant Accounting Policies and Significant Accounting Judgements, Estimates and Assumptions

A Corporate Information

SRF Limited ("the Company") is a public limited company domiciled in India and incorporated under the provisions of the Companies Act, 1956. The Company's equity shares are listed at the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE). The registered office of the Company is situated at The Galleria, DLF Mayur Vihar, Unit No. 236 and 237, Second Floor, Mayur Vihar Place, Noida Link Road, Mayur Vihar Phase I Extn, Delhi - 110091. The Company's parent and ultimate holding company is KAMA Holdings Limited.

The principal activities of the Company are manufacturing, purchase and sale of technical textiles, chemicals, packaging films and other polymers.

The standalone financial statements were authorised for issue in accordance with a resolution of the directors on June 4, 2020.

B Significant Accounting Policies

1 Basis of Preparation

These standalone financial statements are prepared in accordance with Indian Accounting Standards (Ind AS), under the Companies (Indian Accounting Standards) Rules, 2015 notified under section 133 of the Companies Act 2013 ("the Act") as amended thereafter and other relevant provisions of the Act.

The standalone financial statements have been prepared on an accrual basis and under the historical cost convention, except for the following assets and liabilities which have been measured at fair value:

- Derivative financial instruments
- Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments)
- Defined benefit plans - plan assets measured at fair value less present value of defined benefit obligation
- Share-based payments

The standalone financial statements are presented in Indian Rupees (INR) which is also the Company's functional currency and all values are rounded to the nearest crores, except when otherwise indicated.

The principal accounting policies are set out below.

2 Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

Notes to the Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has identified twelve months as its operating cycle for the purpose of current / non current classification of assets and liabilities.

3 Property, plant and equipment (PPE)

Property, plant and equipment are stated at cost of acquisition or construction less accumulated depreciation and accumulated impairment losses, if any.

All items of property, plant and equipment have been measured at fair value at the date of transition to Ind AS. The Company have opted such fair valuation as deemed cost at the transition date i.e. April 1, 2015.

Cost of acquisition or construction is inclusive of freight, duties, non-recoverable taxes, incidental expenses and interest on loans attributable to the acquisition of qualifying assets, up to the date of commissioning of the assets.

Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for qualifying assets, upto the date of commissioning of the assets.

Likewise, when a major inspection for faults is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria is satisfied. All other repair and maintenance costs are recognised in the statement of profit and loss as incurred.

If significant parts of an item of property, plant and equipment have different useful lives, then

they are accounted for as separate items of property, plant and equipment and depreciated accordingly.

Assets are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use.

Capital Work in Progress: Project under which assets are not yet ready for their intended use are carried at cost comprising direct cost, related incidental expenses and attributable interest.

Spare parts are capitalized when they meet the definition of PPE, i.e., when the Company intends to use these for a period of more than 12 months.

4 Depreciation

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value.

Depreciation has been provided on the cost of assets less their residual values on straight line method on the basis of estimated useful life of assets determined by the Company which are different from the useful life as prescribed in Schedule II of the 2013 Act. The estimated useful life of the assets have been assessed based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc. and are as under:

Roads	40-50 years
Buildings (including temporary structures)	5-60 years
Plant and equipment	2-40 years
Furniture and fixtures	15 years
Office equipment	3-20 years
Vehicles	4-5 years

Notes to the Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

Freehold land is not depreciated.

Depreciation is calculated on a pro rata basis except assets costing upto ₹ 5,000 each, which are fully depreciated in the year of purchase.

An item of property, plant and equipment or any significant part initially recognised of such item of property plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

The estimated useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

5 Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost.

Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses, if any.

Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The useful lives considered are as follows:

Trademarks / Brand	10-30 years
Technical Knowhow	30-40 years
Software	3 years
Other intangibles	2.5-8 years

The Company has elected to continue with the carrying value of all of its intangibles assets recognised as on April 1, 2015 measured as per the previous GAAP and use that carrying value as its deemed cost as of transition date.

The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

An intangible asset is derecognised on disposal or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

6 Research and development expenditure

Expenditure on research and development of products is included under the natural heads of expenditure in the year in which it is incurred except which relate to development activities whereby research findings are applied to a plan or design for the production of new or substantially improved products and processes.

Such development costs are capitalised if they can be reliably measured, the product or process is technically and commercially feasible and the Company has sufficient resources to complete the development and to use or sell the asset.

Notes to the Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortisation and accumulated impairment losses, if any. Amortisation of the asset begins when development is complete and the asset is available for use. It is amortised over the period of expected future benefit. Amortisation expense is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset. During the period of development, the asset is tested for impairment annually.

7 Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Company's cash-generating units that is expected to benefit from the synergies of the combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

8 Impairment of tangible and intangible assets other than goodwill

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use.

Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets.

Impairment loss is recognised when the carrying amount of an asset or CGU exceeds its recoverable amount. In such cases, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other available fair value indicators.

The Company bases its impairment calculation on detailed budgets and forecast, which are prepared separately for each of the Company's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of 5 years. For longer periods, a long-term growth rate is calculated and applied

Notes to the Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

to project future cash flows after 5th year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, Company extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years.

9 Leasing

Effective April 1, 2019, the Company has applied Ind AS 116 using modified retrospective approach and, therefore, the comparative information has not been restated and continues to be reported under Ind AS 17. The details of accounting policies under Ind AS 17 are disclosed separately, if they are different from those under Ind AS 116 and the impact of changes is disclosed in note 37.

Policy applicable from April 1, 2019

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assess whether:

- the contract involves the use of an identified asset – this may be specified explicitly or implicitly and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified;
- the Company has the right to obtain substantially all of the economic benefits from use of the asset through the period of use; and
- the Company has the right to direct the use of the asset. The Company has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases, where the decision about how and for what purpose the asset is used is predetermined, the Company has the right to direct the use of the asset if either:
 - the Company has the right to operate the asset; or
 - the Company designed the asset in a way that predetermines how and for what purpose it will be used

An entity shall reassess whether a contract is, or contains, a lease only if the terms and conditions of the contract are changed.

This policy is applicable to contracts entered into, or changed, on or after 1 April 2019.

At inception or on reassessment of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices.

Company as lessee

The Company accounts for assets taken under lease arrangement in the following manner:

Notes to the Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right of use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentive received.

The right of use asset is subsequently depreciated using the straight line method from the commencement date to the end of the lease term. The estimated useful lives of right-of-use assets are determined on the basis of remaining lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the Company's incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise the fixed payments, including in-substance fixed payments.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is

recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Short-term leases and leases of low-value assets

The Company has elected not to recognise right-of use assets and lease liabilities for short term leases that have a lease term of 12 months or less and leases of low value assets. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Policy applicable before April 1, 2019

In the comparative period, a lease arrangement is classified as either a finance lease or an operating lease, based on the substance of the lease arrangement.

Finance leases

Assets held under finance lease are initially recognised as assets at the fair value at the inception of lease or at the present value of the minimum lease payments, whichever is lower. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of profit and loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Company's general policy on the borrowing cost.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating leases

Lease rental expenses from operating leases is generally recognised on a straight line basis over the term of the relevant lease. Where the rentals

Notes to the Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

are structured solely to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, such increases are recognised in the year in which such benefits accrue. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

10 Borrowing costs

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. Borrowing costs incurred for the period from commencement of activities relating to construction/development of the qualifying asset upto the date of capitalisation of such asset are added to the cost of the asset. All other borrowing costs are expensed in the period in which they occur.

In case of a specific borrowing taken for the purpose of acquisition, construction or production of a qualifying asset, the borrowing costs capitalised shall be the actual borrowing costs incurred during the period less any interest income earned on temporary investment of specific borrowing pending expenditure on qualifying asset.

In case funds are borrowed generally and such funds are used for the purpose of acquisition, construction or production of a qualifying asset, the borrowing costs capitalised are calculated by applying the weighted average capitalisation rate on general borrowings outstanding during the period, to the expenditures incurred on the qualifying asset.

If any specific borrowing remains outstanding after the related asset is ready for its intended use, that borrowing is considered part of the funds that are borrowed generally for calculating the capitalisation rate.

11 Foreign Currencies

Transactions in foreign currencies are recorded on initial recognition at the exchange rate prevailing on the date of the transaction.

(i) Monetary assets and liabilities denominated in foreign currency remaining unsettled at the end of the year, are translated at the closing rates prevailing on the Balance Sheet date. Non-monetary items which are carried in terms of historical cost denominated in foreign currency are reported using the exchange rate at the date of transaction. Any gains or losses arising due to differences in exchange rates at the time of translation or settlement are accounted for in the Statement of Profit and Loss either under the head foreign exchange fluctuation or interest cost, as the case may be, except those relating to exchange differences arising from cash flow hedges to the extent that the hedges are effective and those covered below.

(ii) Exchange differences pertaining to long term foreign currency loans obtained or re-financed on or before March 31, 2016:

Exchange differences on long-term foreign currency monetary items relating to acquisition of depreciable assets are adjusted to the carrying cost of the assets and depreciated over the balance useful life of the assets.

(iii) Exchange differences pertaining to long term foreign currency loans obtained or re-financed on or after April 1, 2016:

Notes to the Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

The exchange differences pertaining to long term foreign currency loans obtained or re-financed on or after April 1, 2016 is treated in accordance with Ind AS 21 / Ind AS 109.

12 Inventories

Inventories are valued at cost or net realisable value, whichever is lower. The basis of determining the cost for various categories of inventory are as follows:

- (a) Raw materials, packing materials and stores and spares (including fuel) - Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis. The aforesaid items are valued at Net Realisable Value if the finished products in which they are to be incorporated are expected to be sold at a loss.
- (b) Traded goods, Stock in progress and finished goods- Direct cost plus appropriate share of overheads and excise duty, wherever applicable.
- (c) By products - At estimated realisable value

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

13 Provisions and Contingent Liabilities

Provisions

The Company recognises a provision when there is a present obligation (legal or constructive) as a result of past events and it is more likely than not that an outflow of resources would be required to settle the obligation and a reliable estimate can be made.

When the Company expects some or all of a provision to be reimbursed, for example, under

an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain.

The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liability

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent liabilities and commitments are reviewed by the management at each balance sheet date.

14 Revenue recognition

a) Sale of goods

Revenue from sale of products is recognised upon transfer of control of products to customers at the time of shipment to or receipt of goods by the customers. Service income is recognised as and when the underlying services are performed. The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time.

Notes to the Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

Revenues are measured based on the transaction price, which is the consideration, net of tax collected from customers and remitted to government authorities such as goods and services tax and applicable discounts and allowances.

Any fees including upfront fees received in relation to contract manufacturing arrangements is recognised on straight line basis over the period over which the Company satisfies the underlying performance obligations. Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenue (only act of invoicing is pending) when there is unconditional right to receive cash as per contractual terms. Advance from customers ("contract liability") is recognised when the Company has received consideration from the customer before it delivers the goods.

b) Interest and dividend income

Interest income is recognised when it is probable that the economic benefits will flow to the Company using the effective interest rate and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding.

Dividend income from investments is recognised when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably).

c) Export Incentives

The benefit accrued under the Duty Drawback scheme and other schemes as per the Export and Import Policy in respect of exports made

under the said Schemes is included under the head "Revenue from Operations" under 'Export and other Incentives'.

15 Taxation

Income tax expense represents the sum of current tax and deferred tax.

a) Current tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss i.e. in other comprehensive income or in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

b) Deferred tax

Deferred tax is provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts at the reporting date.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off.

Notes to the Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss i.e. in other comprehensive income or in equity.

Deferred tax assets/liabilities are not recognised for below mentioned temporary differences:

- (i) At the time of initial recognition of goodwill;
- (ii) Initial recognition of assets or liabilities (other than in a business combination) at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT asset is recognised in the Balance Sheet when it is probable that future economic benefit associated with it will flow to the Company.

The Company considers whether it is probable that a taxation authority will accept an uncertain

tax treatment. If the Company concludes that it is probable that the taxation authority will accept an uncertain tax treatment, the Company determines the taxable profit (tax loss), tax bases, unused tax losses, unused tax credits or tax rates consistently with the tax treatment used or planned to be used in its income tax filings. However, if the Company concludes that it is not probable that the taxation authority will accept an uncertain tax treatment, the Company reflects the effect of uncertainty in determining the related taxable profit (tax loss), tax bases, unused tax losses, unused tax credits or tax rates.

16 Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with.

A government grant that becomes receivable as compensation for expenses or losses incurred in a previous period. Such a grant is recognised in profit or loss of the period in which it becomes receivable.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Company recognises as expenses the related costs for which the grants are intended to compensate.

Government grants related to assets are presented in the balance sheet as deferred income and is recognised in profit or loss on a systematic basis over the expected useful life of the related assets.

17 Employee benefits

Short-term employee benefits

Wages and salaries including non monetary benefits that are expected to be settled within the operating cycle after the end of the period in which the related services are rendered and measured at the undiscounted amount expected to be paid.

Notes to the Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

Defined contribution plans

Provident fund administered through Regional Provident Fund Commissioner, Superannuation Fund and Employees' State Insurance Corporation are defined contribution schemes. Contributions to such schemes are charged to the statement of profit and loss in the year when employees have rendered services entitling them to contributions. The Company has no obligation, other than the contribution payable to such schemes.

Defined benefit plans

The Company has defined benefit gratuity plan and provident fund for certain category of employees administered through a recognised provident fund trust. Provision for gratuity and provident fund for certain category of employees administered through a recognised provident fund trust are determined on an actuarial basis at the end of the year and charged to Statement of Profit and Loss, other than remeasurements. The cost of providing these benefits is determined using the projected unit credit method.

Remeasurements, comprising of actuarial gains and losses and the effect of the asset ceiling, (excluding amounts included in net interest on the net defined benefit liability and return on plan assets), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through other comprehensive income in the period in which they occur. Remeasurements are not reclassified to statement of profit and loss in subsequent periods.

Other long-term employee benefits

The Company also has other long-term employee benefits in the nature of compensated absences and long term retention pay. Provision for compensated absences and long term retention pay are determined on an actuarial basis at the end of the year and charged to Statement of Profit and Loss. The cost of providing these benefits is determined using the projected unit credit method.

Share based payments

Equity settled share based payments to employees under SRF Long Term Share Based Incentive Plan (SRF LTIP) are measured at the fair value (which is the market price less exercise price) of the equity instruments on the grant date. This compensation expense is amortised over the remaining tenure over which the employees renders their service on a straight line basis.

18 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

19 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

20 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

A) Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus transaction costs that are directly attributable to the acquisition of the financial asset.

Notes to the Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

Subsequent measurement

For purposes of subsequent measurement, financial assets of the Company are classified in three categories:

- a) At amortised cost
- b) At fair value through profit and loss (FVTPL)
- c) At fair value through other comprehensive income (FVTOCI)

Financial Asset is measured at amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in other income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss. This category generally applies to trade and other receivables.

Financial assets not classified as measured at amortised cost or FVTOCI as are measured at FVTPL. Financial assets included within

the FVTPL category are measured at fair value with all changes recognised in the statement of profit and loss.

Equity Investments

All equity investments in the scope of Ind AS 109 are measured at fair value.

Equity instruments which are held for trading are measured at fair value through profit and loss.

For all other equity instruments, the Company may make an irrevocable election to present subsequent changes in the fair value in other comprehensive income. The Company makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in other comprehensive income. This cumulative gain or loss is not reclassified to statement of profit and loss on disposal of such instruments.

Investments representing equity interest in subsidiaries are carried at cost less any provision for impairment.

Derecognition

A financial asset (or, where applicable, a part of a financial asset) is primarily derecognised (i.e. removed from the balance sheet) when:

- a) The rights to receive cash flows from the asset have expired, or
- b) The Company has transferred its rights to receive cash flows from the asset

Notes to the Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (i) the Company has transferred substantially all the risks and rewards of the asset, or (ii) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

The Company recognizes loss allowance using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all financial assets with contractual cash flows other than

trade receivable, ECLs are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of ECL (or reversal) that is required to adjust the loss allowance at the reporting date is recognised as an impairment gain or loss in the Statement of Profit and Loss.

B) Financial liabilities and Equity instruments

Initial recognition and measurement

All financial liabilities are recognised initially at fair value, net of directly attributable transaction costs, if any.

The Company's financial liabilities includes borrowings, trade and other payables including financial guarantee contracts and derivative financial instruments.

Subsequent measurement

Borrowings

Borrowings are subsequently measured at amortised cost. Any differences between the proceeds (net of transaction costs) and the redemption/repayment amount is recognised in profit and loss over the period of the borrowings using the effective interest rate method.

Trade and other payables

Trade and other payables represent liabilities for goods and services provided to the Company prior to the end of the financial year which are unpaid.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Notes to the Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

Financial guarantee contracts

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified entity fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Equity instrument

Equity instruments are any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

Debt or equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

21 Derivative financial instruments and hedge accounting

Initial recognition and subsequent measurement

The Company uses derivative financial instruments (such as forward currency contracts,

interest rate swaps) or non-derivative financial assets / liabilities to hedge its foreign currency risks and interest rate risks respectively. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss, except for the effective portion of cash flow hedges, which is recognised in OCI and later reclassified to profit and loss when the hedge item affects profit or loss.

For the purpose of hedge accounting, hedges are classified as:

- a) Fair value hedges when hedging the exposure to changes in the fair value of a recognised asset or liability.
- b) Cash flow hedges when hedging the exposure to variability in cash flows that is either attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognised firm commitment.

At the inception of a hedge relationship, the Company formally designates and documents the hedge relationship to which the Company wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes the Company's risk management objective and strategy for undertaking hedge, the hedging/ economic relationship, the hedged item or transaction, the nature of the risk being hedged and how the entity will assess the effectiveness of changes in the hedging instrument's fair value in

Notes to the Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

Hedges that meet the strict criteria for hedge accounting are accounted for, as described below:

Fair value hedges

The change in the fair value of a hedging instrument is recognised in the statement of profit and loss. The change in the fair value of the hedged item attributable to the risk hedged is recorded as part of the carrying value of the hedged item and is also recognised in the statement of profit and loss .

If the hedged item is derecognised, the unamortised fair value is recognised immediately in profit or loss. When an unrecognised firm commitment is designated as a hedged item, the subsequent cumulative change in the fair value of the firm commitment attributable to the hedged risk is recognised as an asset or liability with a corresponding gain or loss recognised in statement of profit and loss.

Cash flow hedges

The effective portion of the gain or loss on the hedging instrument is recognised in other comprehensive income in the cash flow hedge reserve, while any ineffective portion is recognised immediately in the statement of profit and loss.

The Company uses forward currency contracts as hedges of its exposure to foreign currency risk in forecast transactions and firm commitments. The ineffective portion relating to foreign currency contracts is recognised in the statement of profit or loss.

The Company also designates non derivative financial liabilities, such as foreign currency borrowings from banks, as hedging instruments for the hedge of foreign currency risk associated with highly probable forecasted transactions and, accordingly, applies cash flow hedge accounting for such relationships.

Amounts recognised as other comprehensive income are transferred to profit or loss when the hedged transaction affects profit or loss, such as when the hedged financial income or financial expense is recognised or when a forecast transaction occurs.

If the hedging instrument expires or is sold, terminated or exercised without replacement or rollover (as part of the hedging strategy), or if its designation as a hedge is revoked, or when the hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss previously recognised in other comprehensive income remains separately in other equity until the forecast transaction occurs or the foreign currency firm commitment is met.

22 Fair value measurement

The Company measures some of its financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- a) In the principal market for the asset or liability, or
- b) In the absence of a principal market, in the most advantageous market for the asset or liability

Notes to the Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- a) Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- b) Level 2 — Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- c) Level 3 — Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

23 Segment Reporting

Based on "Management Approach" as defined in Ind AS 108 -Operating Segments, the Chief Operating Decision Maker evaluates the Company's performance and allocates the resources based on an analysis of various performance indicators by business segments. Inter segment sales and transfers are reflected at market prices.

Unallocable items includes general corporate income and expense items which are not allocated to any business segment.

Segment Policies:

The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the standalone financial statements of the Company as a whole. Common allocable costs are allocated to each segment on an appropriate basis.

24 Dividend

The Company recognises a liability to make cash distributions to equity holders when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

25 Non-current assets held for sale and discontinued operations

Non-current assets (or disposal groups) are classified as held for sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use. The appropriate level of management

Notes to the Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

must be committed to a plan to sell, an active programme to locate a buyer and complete the plan has been initiated, the sale is considered highly probable and is expected within one year from the date of classification.

Non-current assets (or disposal groups) held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Assets and liabilities classified as held for sale are presented separately from other assets and liabilities in the balance sheet. Property, plant and equipment and intangible assets once classified as held for sale are not depreciated or amortised.

A discontinued operation is a component of the Company that either has been disposed of, or is classified as held for sale, and:

- a) Represents a separate major line of business or geographical area of operations,
- b) Is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations, or
- c) Is a subsidiary acquired exclusively with a view to resale.

Discontinued operations are excluded from the results of continuing operations and are presented separately in the statement of profit and loss.

26 Applicability of New and Revised Ind AS

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2020.

C Significant accounting judgements, estimates and assumptions

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the

application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Judgements, estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in the following notes.

- Leasing arrangement (classification and accounting) – Note 1.B.9
- Financial instruments - Note 1.B.20
- Fair value measurement – Note 1.B.22
- Assessment of useful life of property, plant and equipment and intangible asset – Note 1.B.4
- Recognition and estimation of tax expense including deferred tax– Note 1.B.15
- Estimation of assets and obligations relating to employee benefits (including actuarial assumptions) – Note 1.B.17
- Estimated impairment of financial assets and non-financial assets – Note 1.B.8
- Recognition and measurement of contingency: Key assumption about the likelihood and magnitude of an outflow of resources – Note 1.B.13

- (i) Section 115BAA of the Income Tax Act, 1961 was introduced by the Taxation Laws (Amendment) Ordinance, 2019. Based on the current estimate of expected timing of exercising of the option under Section 115BAA, the Company has re-measured its deferred tax balances. Consequently, credit of ₹ 136.11 Crores (net of MAT adjustment of ₹ 74.02 Crores) has been recorded in the Statement of Profit and Loss during the year.
- (ii) MAT credit entitlement of ₹ 74.02 Crores (out of total ₹ 87.85 Crores generated during the year) expiring in the financial year ending March 31, 2035 is not recognised in the statement of profit and loss of the current year, due to expected timing of exercising of the option under section 115BAA of Income Tax Act, 1961.
- (iii) As on March 31, 2019 there were capital losses of ₹ 186.32 Crores expiring in the financial year ending March 31, 2023 on which no deferred tax asset was created, due to lack of probability of future capital gains against which such deferred tax assets can be realised. Pursuant to recognition of long term capital gain in the current year, such capital losses have been set-off (Refer note 40).

- b. The Company has been served with show cause notices regarding certain transactions as to why additional customs/excise duty / service tax amounting to ₹ 25.61 Crores (Previous year: ₹ 20.10 Crores) should not be levied. The Company has been advised that the contention of the department is not tenable and hence the show cause notice may not be sustainable.

The Company has received a draft assessment order for assessment year 2016-17 in which adjustments amounting to ₹ 367.37 Crores have been proposed on account of transfer pricing adjustments etc. which are pending before Dispute Resolution Panel. Based on the transfer pricing study, facts of the case and applicable case laws, the company is of the view that the proposed adjustments will not sustain.

- c. In February 2019, the Honorable Supreme Court of India in its judgement opined on the applicability of allowances that should be considered to measure obligations under Employees Provident Funds and Miscellaneous Provisions Act, 1952. The Company believes that there are interpretative challenges on the application of judgement retrospectively and therefore has applied the judgement on a prospective basis.

33. Employee Benefits

33.1 Defined contribution plans:

Amounts recognized in the statement of profit and loss are as under:

	Year ended March 31, 2020	Year ended March 31, 2019
Superannuation fund (Refer to note (i) below)	0.65	0.58
Provident fund administered through Regional Provident Fund Commissioner (Refer to note (ii) below)	12.58	9.73
Employees' State Insurance Corporation	0.58	1.13
National Pension Scheme	1.99	1.78
	15.80	13.22

The expenses incurred on account of the above defined contribution plans have been included in Note 25 "Employee Benefits Expenses" under the head "Contribution to provident and other funds".

(i) Superannuation fund

The Company makes contributions to a Trust which in turn contributes to ICICI Prudential Life Insurance Company Limited. Apart from being covered under the Gratuity Plan described below, the employees of the Company also participate in a defined contribution superannuation plan maintained by the Company. The Company has no further obligations under the plan except making annual contributions based on a specified percentage of each covered employee's salary. From November 1, 2006, the Company provided an option to the employees to receive the said benefit as cash compensation along with salary in lieu of the superannuation benefit. Thus, no contribution is required to be made for the category of employees who opted to receive the benefit in cash.

(ii) Provident fund administered through Regional Provident Fund Commissioner

All employees are entitled to Provident Fund benefits as per the law. For certain category of employees the Company administers the benefits through a recognised Provident Fund Trust. The Company has an obligation to fund any shortfall on the yield of the trust's investments over the administered interest rates on an annual basis. For other employees contributions are made to the Regional Provident Fund Commissioners. The Government mandates the annual yield to be provided to the employees on their corpus. This plan is considered as a Defined Contribution Plan. For the first category of employees (covered by the Trust), the Company has an obligation to make good the shortfall, if any, between the yield on the investments of the trust and the yield mandated by the Government and these are considered as Defined Benefit Plans and are accounted for on the basis of an actuarial valuation.

Notes to the Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

33.2 Defined benefit plans

The Company sponsors funded defined benefit plans for qualifying employees. The defined benefit plans are administered by separate funds which are legally separate from the Company. These plans are:

- (a) Gratuity
 - (b) Provident fund for certain category of employees administered through a recognised provident fund trust
- (i) These plans typically expose the company to actuarial risks such as investment risk, interest rate risk, longevity risk and salary risk**

Investment Risk

The probability or likelihood of occurrence of losses relative to the expected return on any particular investment.

Salary Risk

The present value of defined benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in rate of increase in salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

Interest Risk

The plan exposes the Company to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in value of the liability.

Longevity Risk

The present value of defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after employment. An increase in the life expectancy of the plan participants will increase the plans liability.

- (ii) The principal assumption used for the purpose of the actuarial valuation were as follows:**

	As at March 31, 2020		As at March 31, 2019	
	Gratuity	Provident Fund	Gratuity	Provident Fund
Discount Rate	6.77%	6.77%	7.66%	7.66%
Expected statutory interest rate	-	8.50%	-	8.65%
Salary increase	7.00%	-	7.00%	-
Retirement Age (years)	58	58	58	58
Mortality Rates	IALM (2012-14)	IALM (2012-14)	IALM (2006-08)	IALM (2006-08)
Withdrawal rate				
Upto 30 years	20.00%	20.00%	20.00%	20.00%
31 to 44 years	7.00%	7.00%	7.00%	7.00%
Above 44 years	8.00%	8.00%	8.00%	8.00%

Notes to the Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

The cost of the defined benefit plans and other long term benefits are determined using actuarial valuations. Actuarial valuations involve making various assumptions that may differ from actual developments in the future. These includes the determination of the discount rate, future salary increases and mortality rate. Due to these complexity involved in the valuation it is highly sensitive to the changes in these assumptions. All assumptions are reviewed at each reporting date. The present value of the defined benefit obligation and the related current service cost and planned service cost were measured using the projected unit cost method.

(iii) Amounts recognised in statement of profit and loss in respect of these benefit plans are as follows:

	Year ended March 31, 2020		Year ended March 31, 2019	
	Gratuity	Provident Fund	Gratuity	Provident Fund

Plan assets comprises primarily of investment in HDFC Group Unit Linked Plan fund. The average duration of the defined benefit obligation is 9.08 years (Previous year: 8.99 years). The Company expects to make a contribution of ₹ 8.68 Crores (Previous year: ₹ 7.01 Crores) to the defined benefit plans during the next financial year.

Provident fund:

The plan assets have been primarily invested in government securities and corporate bonds.

(viii) Sensitivity Analysis

Significant actuarial assumptions for the determination of the defined obligation are discount rate and expected salary increase. The sensitivity analysis below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of reporting period, while holding all other assumptions constant.

	11.40	7.10

(i) Long Term Retention Pay

The Company has a Long Term Retention Pay Plan which covers employees selected on the basis of their current band and their long term value to the Company. The incentive is payable in three year blocks subject to achievement of certain performance ratings. The Company also has a scheme for talent retention of certain identified employees under which an incentive is payable over a period of three years. Based on actuarial valuation, the Company has accrued the above mentioned amounts.

34. Employee Share Based Payments

The Company has an Employee Share Purchase Scheme (SRF Long Term Share Based Incentive Plan) to provide equity settled share based payments to certain employees. The expenses related to the grant of shares under the Scheme are accounted for on the basis of fair value of the share on the grant date (which is the market price of the Company's share on the date of grant less exercise price). The fair value so determined is expensed on a straight line basis over the remaining tenure over which the employees renders their services.

There were no equity shares granted during the current year. The number and fair value of equity shares granted during the previous year are as under:

	Year ended March 31, 2019
Number of equity shares granted during the year	60,000
Market price on the grant date (₹ per equity share)	1,724.73
Exercise price (₹ per equity share)	10.00
Fair value on the grant date (₹ per equity share)	1,714.73

35. Segment Reporting

Based on the guiding principles laid down in Indian Accounting Standard (Ind AS) - 108 "Segment Reporting", the Managing Director of the Company is the Chief Operating Decision Maker (CODM) and for the purposes of resource allocation and assessment of segment performance the business of the Company is segregated in the segments below:

- Technical Textiles business: includes nylon tyre cord fabric, belting fabric, polyester tyre cord fabric and industrial yarns and its research and development
- Chemicals business: includes refrigerant gases, chloromethane, pharmaceuticals, fluorochemicals & allied products and its research and development.
- Packaging Film business: includes polyester films.
- Others: includes coated fabric, laminated fabric and other ancillary activities.

Segment revenue, results and capital employed include the respective amounts identifiable to each of the segments. Other unallocable expenditure includes expenses incurred on common services provided to the segments, which are not directly identifiable.

Notes to the Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

In addition to the significant accounting policies applicable to the business segments as set out in note 1 above, the accounting policies in relation to segment accounting are as under:

a) Segment revenue and expenses

Joint revenue and expenses of segments are allocated amongst them on a reasonable basis. All other segment revenue and expenses are directly attributable to the segments. These amounts relate to continuing operations, unless otherwise stated. (Refer to note 40 with regard to information in relation to discontinued operations).

b) Segment assets and liabilities

Segment assets include all operating assets used by a segment and consist principally of operating cash, trade receivables, inventories and property plant and equipment and intangible assets, net of allowances and provisions, which are reported as direct offsets in the balance sheet. Segment liabilities include all operating liabilities and consist principally of creditors and accrued liabilities and do not include deferred income taxes. While most of the assets / liabilities can be directly attributed to individual segments, the carrying amount of certain assets / liabilities pertaining to two or more segments are allocated to the segments on a reasonable basis.

38. Financial Instruments and Risk Management

38.1 Capital Management

The Company manages its capital to ensure that it will be able to continue as a going concern and provide reasonable return to the shareholders by maintaining a reasonable balance between debt and equity. The capital structure of the Company consists of net debt (borrowings net of cash and cash equivalents and current investments) and total equity of the Company. The Company is not subject to any externally imposed capital requirements. The Company's management reviews the capital structure of the Company on periodic basis. As part of its review, the management considers the cost of capital and risk associated with each class of capital. The Company also evaluates its gearing measures using Debt Equity Ratio to arrive at an appropriate level of debt and accordingly evolves its capital structure.

Notes to the Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

The following table provides the details of the debt and equity at the end of the reporting periods:

Derivative instruments	2	d	68.04	-	68.04	-
			68.04	-	68.04	-

The following methods/ assumptions were used to estimate the fair values:

- Fair valuation of financial assets and liabilities with short term maturities is considered as approximate to respective carrying amount due to the short term maturities of these instruments.
- Fair valuation of non-current financial assets has been disclosed to be same as carrying value as there is no significant difference between carrying value and fair value.
- The fair value of other long-term borrowings and lease liabilities is estimated by discounting future cash flows using current rates (applicable to instruments with similar terms, currency, credit risk and remaining maturities) to discount the future payouts.
- The fair value is determined by using the valuation model/ technique with observable/ non-observable inputs and assumptions.
- Investment value excludes investment in subsidiaries which are shown at cost in balance sheet as per Ind AS 27 "Separate financial statements".

There are no transfers between Level 1, Level 2 and Level 3 during the year ended March 31, 2020 and March 31, 2019.

Level 1:

Quoted prices in the active market: This level of hierarchy includes financial assets that are measured by reference to quoted prices in the active market.

Notes to the Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

Level 2:

Valuation techniques with significant observable inputs: This level of hierarchy includes items measured using inputs other than quoted prices included within Level 1 that are observable for such items, either directly or indirectly. This level of hierarchy consists of over the counter (OTC) derivative contracts and open ended mutual funds.

Level 3:

Valuation techniques with significant unobservable inputs: This level of hierarchy includes items measured using inputs that are not based on observable market data (unobservable inputs). Fair value is determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instruments nor based on available market data. The main item in this category are unquoted equity instruments and financial guarantees contracts.

The fair value of the financial instruments are determined at the amount that would be received to sell an asset in an orderly transaction between market participants. The following methods and assumptions were used to estimate the fair values:

- (i) Investments in mutual funds: Fair value is determined by reference to quotes from the financial institutions.
- (ii) Derivative contracts: The Company has entered into various foreign currency contracts and interest rate swaps contracts to manage its exposure to fluctuations in foreign exchange rates and interest rate respectively. These financial exposures are managed in accordance with the Company's risk management policies and procedures. Fair value of derivative financial instruments are determined using valuation techniques based on information derived from observable market data, i.e., mark to market values determined by the authorized dealers banks and forward exchange rates at the balance sheet date.
- (iii) Unquoted equity investments: Fair value is determined based on the recoverable value as per agreement with the investee.
- (iv) Financial guarantee contracts: Financial guarantee contracts are recognised initially as a liability at fair value determined based on comparative quotations from banks for provision of similar guarantees.

Reconciliation of Level 3 fair value measurements	Unlisted equity instruments	Financial Guarantee Contracts
As at March 31, 2018	0.12	5.73
Sale of investment	(0.01)	-
Income recognised in profit and loss	-	(3.18)

Purchase of investment	4.05	-
Income recognised in profit and loss	-	(2.55)
As at March 31, 2020	4.16	-

Sensitivity of the fair value measurement to changes in unobservable inputs for financial instruments in Level 3 level of hierarchy is insignificant.

38.3 Financial Risk Management

The Company is exposed to various financial risks arising from its underlying operations and finance activities. The Company is primarily exposed to market risk (i.e. interest rate and foreign currency risk) and to credit risk and liquidity risk. The Company's Corporate Treasury function plays the role of monitoring financial risk arising from business operations and financing activities.

Financial risk management within the Company is governed by policies and guidelines approved by the senior management and the Board of Directors. These policies and guidelines cover interest rate risk, foreign currency risk, credit risk and liquidity risk. Company policies and guidelines also cover areas such as cash management, investment of excess funds and the raising of short and long-term debt. Compliance with the policies and guidelines is managed by the Corporate Treasury function within the Company. Review of the financial risk is done on a monthly basis by the Managing Director and on a quarterly basis by the Board of Directors. The objective of financial risk management is to contain, where deemed appropriate, exposures on net basis to the various types of financial risks mentioned above in order to limit any negative impact on the Company's results and financial position.

In accordance with its financial risk management policies, the Company manages its market risk exposures by using specific type of financial instruments duly approved by the Board of Directors as and when deemed appropriate. It is the Company's policy and practice neither to enter into derivative transactions for speculative purpose, nor for any purpose unrelated to the underlying business. The Board of Directors/ Managing Director reviews and approves policies for managing each of the above risks.

38.3.1 Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of interest rate risk and foreign currency risk. Financial instruments affected by market risk includes loans and borrowings, deposits, investments and derivative financial instruments. The Company enters into derivative contracts as approved by the Board to manage its exposure to interest rate risk and foreign currency risk.

A. Foreign Currency Risk Management

Foreign currency risk also known as Exchange Currency Risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. Foreign currency risk in the Company is attributable to Company's operating activities and financing activities.

In the operating activities, the Company's exchange rate risk primarily arises when revenue / costs are generated in a currency that is different from the reporting currency (transaction risk). In compliance with the Board approved policy, the Company manages the net exposure on a rolling 12 month basis and for exposures between 12 to 36 months, hedging is done based on specific exposure. The information is monitored by the Audit committee and the Board of Directors on a quarterly basis. This foreign currency risk exposure of the Company are mainly in U.S. Dollar (USD), Euro (EUR), Japanese Yen (JPY) and British Pound Sterling (GBP). The Company's exposure to foreign currency changes for all other currencies is not material.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting periods expressed in ₹ are as follows:

Foreign exchange derivative contracts

The Company uses derivative financial instruments exclusively for hedging financial risks that arise from its commercial business or financing activities. The Company's Corporate Treasury team manages its foreign currency risk by hedging transactions that are expected to occur within of 1 to 24 months for hedges of forecasted sales, purchases and capital expenditures. When a derivative is entered into for the purpose of being a hedge, the Company negotiates the terms of those derivatives to match the terms of the hedged exposure. For hedges of forecast transactions the derivatives cover the period of exposure from the point the cash flows of the transactions are forecasted up to the point of settlement of the resulting receivable or payable that is denominated in the foreign currency. All identified exposures are managed as per the policy duly approved by the Board of Directors.

The following table details the foreign currency derivative contracts outstanding at the end of the reporting period:

B. Interest Rate Risk Management

Interest rate risk arises from movements in interest rates which could have effects on the Company's net income or financial position. Changes in interest rates may cause variations in interest income and expenses resulting from interest-bearing assets and liabilities. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates.

The Company manages its interest rate risk by having a portfolio of fixed and variable rate loans and borrowings. The Company enters into interest rate swaps, in which it agrees to exchange, at specified intervals, the difference between fixed and variable rate interest amounts, calculated by reference to an agreed principal amount outstanding at the time of inception of the swap. Out of the total long term borrowings, the amount of fixed interest loan is ₹ 838 Crores and floating interest loan is ₹ 1,026 Crores (Previous year: Fixed interest loan ₹ 853 Crores and Floating interest loan ₹ 1215 Crores).

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate long term borrowings, as follows:

Notes to the Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

	Year ended March 31, 2020		Year ended March 31, 2019	
	₹ loans interest rate decreases by 0.50 %	Foreign currency loans interest rate decreases by 0.15 %	₹ loans interest rate decreases by 0.50 %	Foreign currency loans interest rate decreases by 0.15 %
Increase in profit before tax by	1.48	1.09	2.09	1.20

In case of increase in interest rate by above mentioned percentage, there would be a comparable negative impact on the profit before tax as mentioned above.

Interest Rate Swap Contracts

Under interest rate swap (IRS) contracts, the Company agrees to exchange the difference between fixed and floating rate interest amounts calculated on the agreed notional principal amounts. Such contracts enables the Company to mitigate the risk of changing interest rates.

The following table details the IRS contracts outstanding at the end of the reporting period:

Outstanding Contracts	No. of Deals		Contract Value of Foreign Currency (In Millions)		Maturity			
					Up to 12 months Nominal Amount* (₹ Crores)		More than 12 months Nominal Amount* (₹ Crores)	
	As at March 31, 2020	As at March 31, 2019	As at March 31, 2020	As at March 31, 2019	As at March 31, 2020	As at March 31, 2019	As at March 31, 2020	As at March 31, 2019
IRS Contracts*	3	4	15.05	23.13	26.71	54.24	86.99	105.58

* Sensitivity on the above IRS contracts in respect of interest rate exposure is insignificant

Each of the above trades are in the nature of cash flow hedges and are effective hedges. The mark to market on these trades is therefore routed through Cash flow Hedge Reserve. The interest rate swap and the interest payments on the loan are paid simultaneously and are charged off to the statement of profit and loss.

38.3.2 Credit Risk Management

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables, loans and other financial assets) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with counterparties who meet the parameters specified in Investment Policy of the Company. The investment policy is reviewed by the Company's Board of Directors on an annual basis and if required, the same may be updated during the year. The investment policy specifies the limits of investment in various categories of products so as to minimize the concentration of risks and therefore mitigate financial loss due to counterparty's potential failure.

Expected credit loss on financial assets:

To manage credit risk for trade receivables, the Company establishes credit approvals and credit limits, periodically assesses the financial reliability of customers, taking into account the financial conditions, economic trends, analysis of historical bad debts and aging of such receivables.

With regards to all financial assets with contractual cash flows other than trade receivable, management believes these to be high quality assets with negligible credit risk. The management believes that the parties, from which these financial assets are recoverable, have strong capacity to meet the obligations and where the risk of default is negligible and accordingly no provision for expected credit loss has been provided on these financial assets other than as detailed below.

Loss allowance for the following financial assets have been recognised by the Company:

	Note No.	As at March 31, 2020	As at March 31, 2019
Loans - non-current	6	-	0.07
Loans - current	6	2.74	2.74
Trade receivables	10	2.46	1.64
		5.20	4.45

Movement of loss allowance :

	Loans (current and non current)	Trade receivables
As at March 31, 2018	2.90	1.11
Provided during the year	1.07	0.77
Reversed during the year	(1.16)	(0.24)
As at March 31, 2019	2.81	1.64
Provided during the year	0.31	1.56
Reversed during the year	(0.38)	(0.74)
As at March 31, 2020	2.74	2.46

Other than financial assets mentioned above, none of the Company's financial assets are impaired, as there are no indications that defaults in payments obligation would occur.

38.3.3 Liquidity Risk Management

Liquidity risk is the risk of non-availability of financial facilities available to the Company to meet its financial obligations. The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of money market instruments, bank overdrafts, bank loans, debentures and other types of facilities. The liquidity management is governed by the Board approved liquidity management policy. Any deviation from the policy has to be approved by the Treasury Management comprising of Managing Director, Chief Financial Officer and Treasury Head. The Company assesses the concentration of risk with respect to refinancing its debt, guarantee given and funding of its capital expenditure needs of the future. The Company manages its liquidity by holding appropriate volumes of liquid assets which are available for its disposal on T +1 basis and by maintaining open credit lines with banks / financial institutions.

The table below analyze the Company's financial liabilities into relevant maturity profiles based on their contractual maturities:

	Less than 1 year	More than 1 year and upto 5 years	More than 5 years	Total

(g) In March 2020, the World Health Organization declared COVID-19 to be a pandemic. Consequent to this, Government of India declared a national lockdown on March 25, 2020, which has impacted the business activities of the Company. The Company has assessed the impact that may result from this pandemic on its liquidity position, carrying amounts of receivables, inventories, tangible and intangible assets, investments, and other assets / liabilities. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the Company has considered internal and external information available till the date of approval of these financial statements and has assessed its situation.

In that context and based on the current estimates, the Company believes that COVID-19 is not likely to have any material impact on its financial statements, liquidity or ability to service its debt or other obligations. However, the overall economic environment, being uncertain due to COVID-19, may affect the underlying assumptions and estimates in future, which may differ from those considered as at the date of approval of these financial statements. The Company would closely monitor such developments in future economic conditions and consider their impact on the financial statements of the relevant periods.

Independent Auditors' Report

To the Members of

SRF Limited

Report on the Audit of Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of SRF Limited (hereinafter referred to as the "Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), which comprise the consolidated balance sheet as at 31 March 2020, and the consolidated statement of profit and loss (including other comprehensive income), consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of other auditors on separate financial statements of such subsidiaries as were audited by the other auditors, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2020, of its consolidated profit and other comprehensive income, consolidated changes in equity and consolidated cash flows for the year then ended.

The key audit matter

Accounting for derivatives

An important element of Group's fund-raising strategy involves various types of borrowings including foreign currency denominated borrowings and a combination of fixed and floating interest rates. The Group's operating activities are also exposed to significant foreign exchange risk (refer to note 40 of the consolidated financial statements).

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence obtained by us along with the consideration of audit reports of the other auditors referred to in sub paragraph (a) of the "Other Matters" paragraph below, is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters:

How the matter was addressed in our audit

In view of the significance of the matter, we applied the following audit procedures in this area, among others, to obtain sufficient appropriate audit evidence:

- Tested the design, implementation and operating effectiveness of controls over the Group's treasury and other related functions which directly impact the relevant account balances and transactions, including hedge accounting.

The key audit matter

The Group uses derivative financial instruments to mitigate foreign currency risk and interest rate risk primarily through foreign currency forward exchange contracts and interest rate swaps.

Further, the Group has been using hedge relationship designation as per criteria set out in relevant Indian accounting standards.

Accounting thereof and related presentation and disclosures of these transactions require significant judgement.

Given the significant level of judgement and estimation involved and the quantitative significance, we have determined this to be a key audit matter.

Impact of adopting the new income tax regime

See notes 9 and 31 to the consolidated financial statements.

With effect from financial year 2019-2020, the Income Tax Act provides an option of paying income taxes at a lower rate subject to complying with certain prescribed conditions ('new tax regime'). The Group has opted to shift to the new tax regime from a financial year in the future.

Accordingly, the deferred tax balances which are expected to reverse subsequent to the Holding Company shifting to the new tax regime in the specified future year were remeasured and the consequential amount was recognised in the Consolidated Statement of Profit and Loss of the current year. This amount is considered to be significant.

The determination of the point in time at which the Holding Company would shift to the new tax regime involves significant judgement and estimation [including, consideration of uncertainties associated with COVID 19 pandemic, refer note 46(e)], regarding forecasting future taxable profits and realisation of MAT credit entitlement (an item of deferred tax assets). Since the impact of remeasurement of deferred tax balances as stated above is sensitive to these judgements and estimates, it affects the amount of deferred tax balances (including MAT credit) that are reversed in the Consolidated Statement of Profit and Loss of the current year.

Given the significant level of judgement involved and the quantitative significance, we have determined this to be a key audit matter.

How the matter was addressed in our audit

- For selected samples, obtained external confirmations from counterparties of the year end positions as well as agreed to original agreements.
- Performed sample tests of valuation and accounting of these transactions. In doing so we have involved valuation specialists to assist us in carrying out aforesaid procedure, as considered necessary.
- Assessed the adequacy of disclosures in the financial statements in respect of both non-derivative and derivative financial instruments.

In view of the significance of the matter, we applied the following audit procedures in this area, among others, to obtain sufficient appropriate audit evidence:

- Examined the implications of the new provisions on the tax position of the Holding Company to assess the impact of adopting the new tax regime from the specified future financial year.
- Obtained budgets/ business plans, underlying the projections prepared by the Holding Company
- Challenged key assumptions used in the projections based on business plans, historical data and trends, based on our knowledge of business.
- Assessed the recoverability of MAT credit entitlement (an item of deferred tax assets) against the forecast future taxable profits.
- Assessed the adequacy of related disclosures in the consolidated financial statements.

Other Information

The Holding Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the holding Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed and based on the work done/ audit report of other auditors, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibilities for the Consolidated Financial Statements

The Holding Company's Management and Board of Directors are responsible for the preparation and presentation of these consolidated financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated state of affairs, consolidated profit/ loss and other comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. The respective Management and Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each company and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were

operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Management and Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies included in the Group are responsible for assessing the ability of each company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group is responsible for overseeing the financial reporting process of each company.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient

and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;

- obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on the internal financial controls with reference to the consolidated financial statements and the operating effectiveness of such controls based on our audit;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors;
- conclude on the appropriateness of Management's and Board of Director's use of the going concern basis of accounting in preparation of consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation; and
- obtain sufficient appropriate audit evidence regarding the financial information of such

entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of financial information of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described in para (a) of the section titled 'Other Matters' in this audit report.

We believe that the audit evidence obtained by us along with the consideration of audit reports of the other auditors referred to in sub-paragraph (a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated

in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

(a) We did not audit the financial information of seven subsidiaries whose financial information reflect total assets of ₹ 2,813.91 crores (before consolidation adjustments) as at 31 March 2020, total revenues of ₹ 1,009.47 crores (before consolidation adjustments) and net cash flows amounting to ₹ 8.58 crores for the year ended on that date, as considered in the consolidated financial statements. These financial information have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, is based solely on the audit reports of the other auditors.

Certain of these subsidiaries are located outside India whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Holding Company's management has converted the financial statements of such subsidiaries located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Holding Company's management. Our opinion in so far as it relates to the balances and affairs of such subsidiaries located outside India is based on the report of other auditors and the conversion adjustments prepared by the management of the Holding Company and audited by us.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified

in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

A. As required by Section 143(3) of the Act, based on our audit and on the consideration of reports of the other auditors on separate financial statements of such subsidiaries as were audited by other auditors, as noted in the 'Other Matters' paragraph, we report, to the extent applicable, that:

- a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements;
- b) in our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors;
- c) the consolidated balance sheet, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and the consolidated statement of cash flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements;
- d) in our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under section 133 of the Act;
- e) on the basis of the written representations received from the directors of the Holding Company as on 31 March 2020 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary company incorporated in India, none of the directors

of the Group companies incorporated in India is disqualified as on 31 March 2020 from being appointed as a director in terms of Section 164(2) of the Act; and

- f) with respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company and its subsidiary company incorporated in India and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".

B. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate financial statements of the subsidiaries, as noted in the 'Other Matters' paragraph:

- i. the consolidated financial statements disclose the impact of pending litigations as at 31 March 2020 on the consolidated financial position of the Group. Refer Note 33 to the consolidated financial statements;
- ii. provision has been made in the consolidated financial statements, as required under the applicable law or Ind AS, for material foreseeable losses, on long-term contracts including derivative contracts. Refer Note 40 to the consolidated financial statements in respect of such items as it relates to the Group;
- iii. there have been no delays in transferring amounts to the Investor Education and

Protection Fund by the Holding Company or its subsidiary company incorporated in India during the year ended 31 March 2020; and

- iv. the disclosures in the consolidated financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in the financial statements since they do not pertain to the financial year ended 31 March 2020.

C. With respect to the matter to be included in the Auditor's report under section 197(16):

In our opinion and according to the information and explanations given to us and based on the report of the statutory auditors of the subsidiary Company incorporated in India which was not audited by us, the remuneration paid during the current year by the Holding Company and its subsidiary company to its directors is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director by the Holding Company and its subsidiary company is not in excess of the limits laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

Annexure A to the Independent Auditors' report on the consolidated financial statements of SRF Limited for the year ended 31 March 2020

Report on the internal financial controls with reference to the aforesaid consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

[Referred to in paragraph A(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date]

Opinion

In conjunction with our audit of the consolidated financial statements of SRF Limited as of and for the year ended 31 March 2020, we have audited the internal financial controls with reference to consolidated financial statements of SRF Limited (hereinafter referred to as "the Holding Company") and such company incorporated in India under the Companies Act, 2013 which is its subsidiary company, as of that date.

In our opinion, the Holding Company and such company incorporated in India which is its subsidiary company, have, in all material respects, adequate internal financial controls with reference to consolidated financial statements and such internal financial controls were operating effectively as at 31 March 2020, based on the internal financial controls with reference to consolidated financial statements criteria established by such companies considering the essential components of such internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The respective Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls with reference to consolidated financial statements based on the criteria established by the respective Company considering the essential components of internal controls stated in the Guidance Note. These responsibilities include the design, implementation

and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of the internal controls based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditor of the relevant subsidiary company in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements.

Meaning of Internal Financial controls with Reference to Consolidated Financial Statements

A company's internal financial controls with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to consolidated financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to consolidated Financial Statements

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Other Matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements insofar as it relates to one subsidiary company, which is a company incorporated in India, is based on the corresponding report of the auditor of such company incorporated in India. Our opinion is not qualified in respect of this matter.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

1 CORPORATE INFORMATION

SRF Limited ("the Company") is a public limited Company domiciled in India and incorporated under the provisions of the Companies Act, 1956. The Company's equity shares are listed at the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE). The registered office of the Company is situated at The Galleria, DLF Mayur Vihar, Unit No. 236 and 237, Second Floor, Mayur Vihar Place, Noida Link Road, Mayur Vihar Phase I Extn, Delhi - 110091. The Company's parent and ultimate holding group is KAMA Holdings Limited.

The principal activities of the Company and its subsidiaries (together the Group) are manufacturing, purchase and sale of technical textiles, chemicals, packaging films and other polymers.

The consolidated financial statements were authorised for issue in accordance with a resolution of the directors on June 04, 2020.

2 SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of Preparation

These consolidated financial statements are prepared in accordance with Indian Accounting Standards (Ind AS), under the Companies (Indian Accounting Standards) Rules, 2015 notified under section 133 of the Companies Act 2013 ("the Act") as amended thereafter and other relevant provisions of the Act.

The consolidated financial statements have been prepared on an accrual basis and under the historical cost convention, except for the following assets and liabilities which have been measured at fair value:

- Derivative financial instruments
- Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments)
- Defined benefit plans - plan assets measured at fair value less present value of defined benefit obligation

- Share based payments

The functional currency of the Company is 'INR' and its subsidiaries are their respective local currencies. The financial statements are presented in INR and all values are rounded to the nearest crores, except when otherwise indicated.

The consolidated financial statements incorporate the financial statements of the holding group and its subsidiaries. Control is achieved when the group:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

Consolidation of a subsidiary begins when the group obtains control over the subsidiary and ceases when the group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit and loss from the date the group gains control until the date when the group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the group and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the group and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Necessary adjustments are made in the consolidated financial statements of subsidiaries to bring their accounting policies in line with the Company's accounting policies if any.

All intragroup assets and liabilities, equity, income, expenses, and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

The subsidiaries considered in the preparation of these consolidated financial statements are: -

Name of subsidiary	Country of incorporation	Proportion of ownership as at March 31, 2020	Proportion of ownership as at March 31, 2019
Indian Subsidiaries			
SRF Holiday Home Limited	India	100%	100%
SRF Employees Welfare Trust	India	*	*
Foreign Subsidiaries			
SRF Global BV	Netherlands	100%	100%
SRF Europe Kft (100% subsidiary of SRF Global BV)	Hungary	100%	100%
SRF Industries (Thailand) Limited (100% subsidiary of SRF Global BV)	Thailand	100%	100%
SRF Industex Belting (Pty) Limited (100% subsidiary of SRF Global BV)	Republic of South Africa	100%	100%
SRF Flexipak (South Africa) (Pty) Limited (100% subsidiary of SRF Global BV)	Republic of South Africa	100%	100%

*By virtue of management control under Ind As-24 "Related party disclosures"

The group owns 22.60% (Previous year – 22.60%) in Malanpur Captive Power Limited and the same has not been considered for the purposes of consolidation, since the group does not exercise significant influence over Malanpur Captive Power Limited.

The group owns 26.32% (Previous year – 26.32%) in Vaayu Renewable Energy (Tapti) Private Limited and the same has not been considered for the purposes of consolidation, since the group does not exercise significant influence over Vaayu Renewable Energy (Tapti) Private Limited.

The principal accounting policies are set out below.

2.2 Current versus non-current classification

The group presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle

- Held primarily for the purpose of trading
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Based on the nature of products and the time between acquisition of assets for processing and

Notes to the Consolidated Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

their realisation in cash and cash equivalents, the group has identified twelve months as its operating cycle for the purpose of current / non current classification of assets and liabilities.

2.3 Property, plant and equipment (PPE)

Property, plant and equipment are stated at cost of acquisition or construction less accumulated depreciation and accumulated impairment losses, if any.

All items of property plant and equipment have been measured at fair value at the date of transition to Ind AS. The Group have opted such fair valuation as deemed cost at the transition date i.e. April 1, 2015.

Cost of acquisition or construction is inclusive of freight, duties, non recoverable taxes, incidental expenses and interest on loans attributable to the acquisition of qualifying assets, up to the date of commissioning of the assets.

Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for qualifying assets, upto the date of commissioning of the assets

Likewise, when a major inspection for faults is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria is satisfied. All other repair and maintenance costs are recognised in the statement of profit and loss as incurred.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items of property, plant and equipment and depreciated accordingly.

Assets are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use.

Capital Work in Progress: Project under which assets are not yet ready for their intended use are carried at cost comprising direct cost, related incidental expenses and attributable interest.

Spare parts are capitalized when they meet the definition of PPE, i.e., when the group intends to use these for more than a period of 12 months.

2.4 Depreciation

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value.

Depreciation has been provided on the cost of assets less their residual values on straight line method on the basis of estimated useful life of assets determined by the Group which are different from the useful life as prescribed in Schedule II of the 2013 Act. The estimated useful life of the assets have been assessed based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc. and are as under:

Roads	40-50 years
Buildings (including temporary structures)	5-60 years
Plant and equipment	2-40 years
Furniture and fixtures	15 years
Office equipment	3-20 years
Vehicles	4-5 years

Freehold land is not depreciated.

Depreciation is calculated on a pro rata basis except, assets costing upto ₹ 5,000 each, which are fully depreciated in the year of purchase.

An item of property, plant and equipment or any significant part initially recognised of such item of property plant and equipment is derecognised

Notes to the Consolidated Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

The estimated useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

2.5 Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost.

Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses, if any.

Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The useful lives considered are as follows:

Trademarks / Brand	10-30 years
Technical Knowhow	30-40 years
Software	3 years
Other intangibles	2.5-8 years

The group has elected to continue with the carrying value of all of its intangibles assets recognised as on April 1, 2015 measured as per the previous GAAP and use that carrying value as its deemed cost as of transition date.

The amortisation period and the amortisation method for an intangible asset with a finite useful

life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

An intangible asset is derecognised on disposal or when no future economic benefit are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

2.6 Research and development expenditure

Expenditure on research and development of products is included under the natural heads of expenditure in the year in which it is incurred except which relate to development activities whereby research findings are applied to a plan or design for the production of new or substantially improved products and processes.

Such development costs are capitalised if they can be reliably measured, the product or process is technically and commercially feasible and the Group has sufficient resources to complete the development and to use or sell the asset.

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortisation and accumulated impairment losses, if any. Amortisation of the asset begins when development is complete and the asset is available for use. It is amortised over the period of expected future benefit. Amortisation expense is recognised in the statement of profit and loss

Notes to the Consolidated Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

unless such expenditure forms part of carrying value of another asset. During the period of development, the asset is tested for impairment annually.

2.7 Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units that is expected to benefit from the synergies of the combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

2.8 Impairment of tangible and intangible assets other than goodwill

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-

generating unit's (CGU) fair value less costs of disposal and its value in use.

Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets.

Impairment loss is recognised When the carrying amount of an asset or CGU exceeds its recoverable amount. In such cases, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other available fair value indicators.

The Group bases its impairment calculation on detailed budgets and forecast, which are prepared separately for each of the group's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of 5 years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after 5th year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, group extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously

Notes to the Consolidated Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

recognised impairment losses no longer exist or have decreased. If such indication exists, the group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years.

2.9 Leasing

Effective April 1, 2019, the group has applied Ind AS 116 using modified retrospective approach and, therefore, the comparative information has not been restated and continues to be reported under Ind AS 17. The details of accounting policies under Ind AS 17 are disclosed separately, if they are different from those under Ind AS 116 and the impact of changes is disclosed in note 43.

Policy applicable from April 1, 2019

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assess whether:

- the contract involves the use of an identified asset – this may be specified explicitly or implicitly and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified;
- the Group has the right to obtain substantially all of the economic benefits from use of the asset through the period of use; and

- the Group has the right to direct the use of the asset. The Group has this right when it has the decision- making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases, where the decision about how and for what purpose the asset is used is predetermined, the Group has the right to direct the use of the asset if either:
 - the Group has the right to operate the asset; or
 - the Group designed the asset in a way that predetermines how and for what purpose it will be used

An entity shall reassess whether a contract is, or contains, a lease only if the terms and conditions of the contract are changed.

This policy is applicable to contracts entered into, or changed, on or after 1 April 2019.

At inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices.

Group as lessee

The Group accounts for assets taken under lease arrangement in the following manner:

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right of use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentive received.

The right of use asset is subsequently depreciated using the straight line method from the

Notes to the Consolidated Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

commencement date to the end of the lease term. The estimated useful lives of right-of-use assets are determined on the basis of remaining lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the Group's incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise the fixed payments, including in-substance fixed payments.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in Group's estimate of the amount expected to be payable under a residual value guarantee, or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Short-term leases and leases of low-value assets

The Group has elected not to recognise right-of-use assets and lease liabilities for short term leases that have a lease term of 12 months or less and leases of low value assets. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Policy applicable before April 1, 2019

In the comparative period, a lease arrangement is classified as either a finance lease or an

operating lease, based on the substance of the lease arrangement.

Finance leases

Assets held under finance lease are initially recognised as assets at the fair value at the inception of lease or at the present value of the minimum lease payments, whichever is lower. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of profit and loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Group's general policy on the borrowing cost.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Group will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating leases

Lease rental expenses from operating leases is generally recognised on a straight line basis over the term of the relevant lease. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, such increases are recognised in the year in which such benefits accrue. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

2.10 Borrowing costs

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. Borrowing costs incurred for the period from commencement of activities relating to construction/development of the qualifying asset upto the date of capitalisation of such asset are added to the cost of the asset. All other borrowing costs are expensed in the period in which they occur.

In case of a specific borrowing taken for the purpose of acquisition, construction or production of a qualifying asset, the borrowing costs capitalised shall be the actual borrowing costs incurred during the period less any interest income earned on temporary investment of specific borrowing pending expenditure on qualifying asset.

In case funds are borrowed generally and such funds are used for the purpose of acquisition, construction or production of a qualifying asset, the borrowing costs capitalised are calculated by applying the weighted average capitalisation rate on general borrowings outstanding during the period, to the expenditures incurred on the qualifying asset.

If any specific borrowing remains outstanding after the related asset is ready for its intended use, that borrowing is considered part of the funds that are borrowed generally for calculating the capitalisation rate.

2.11 Foreign Currencies

Transaction and balances

Transactions in foreign currencies are recorded on initial recognition at the exchange rate prevailing on the date of the transaction.

- (i) Monetary assets and liabilities denominated in foreign currency remaining unsettled at the end of the year, are translated at the

closing rates prevailing on the Balance Sheet date. Non-monetary items which are carried in terms of historical cost denominated in foreign currency are reported using the exchange rate at the date of transaction. Any gains or losses arising due to differences in exchange rates at the time of translation or settlement are accounted for in the Statement of Profit and Loss either under the head foreign exchange fluctuation or interest cost, as the case may be, except those relating to exchange differences arising from cash flow hedges to the extent that the hedges are effective and those covered below.

- (ii) Exchange differences pertaining to long term foreign currency loans obtained or re-financed on or before March 31, 2016

Exchange differences on long-term foreign currency monetary items relating to acquisition of depreciable assets are adjusted to the carrying cost of the assets and depreciated over the balance useful life of the assets.

- (iii) Exchange differences pertaining to long term foreign currency loans obtained or re-financed on or after April 1, 2016

The exchange differences pertaining to long term foreign currency loans obtained or re-financed on or after April 1, 2016 is treated in accordance with Ind AS 21/ Ind AS 109.

2.12 Inventories

Inventories are valued at cost or net realisable value, whichever is lower. The basis of determining the cost for various categories of inventory are as follows:

- (a) Raw materials, packing material and stores and spares including fuel - Cost

Notes to the Consolidated Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis. The aforesaid items are valued below cost if the finished products in which they are to be incorporated are expected to be sold at a loss.

- (b) Traded goods, Stock in progress and finished goods- Direct cost plus appropriate share of overheads and excise duty, wherever applicable
- (c) By products - At estimated realisable value

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

2.13 Provisions and Contingent Liabilities

Provisions

The group recognised a provision when there is a present obligation (legal or constructive) as a result of past events and it is more likely than not that an outflow of resources would be required to settle the obligation and a reliable estimate can be made.

When the group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain.

The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability.

When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liability

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The group does not recognize a contingent liability but discloses its existence in the financial statements unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent liabilities and commitments are reviewed by the management at each balance sheet date.

2.14 Revenue recognition

a) Sale of goods

Revenue from sale of products is recognised upon transfer of control of products to customers at the time of shipment to or receipt of goods by the customers. Service income is recognised as and when the underlying services are performed. The Group exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time.

Revenues are measured based on the transaction price, which is the consideration, net of tax collected from customers and remitted to government authorities such as sales tax/value added tax and goods and services tax and applicable discounts and allowances.

Any fees including upfront fees received in relation to contract manufacturing arrangements

Notes to the Consolidated Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

is recognised on straight line basis over the period over which the Group satisfies the underlying performance obligations. Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenue (only act of invoicing is pending) when there is unconditional right to receive cash as per contractual terms. Advance from customers ("contract liability") is recognised when the group has received consideration from the customer before it delivers the goods.

b) Interest and dividend income

Interest income is recognised when it is probable that the economic benefits will flow to the group using the effective interest rate and the amount of income can be measured reliably. Interest income is accrued on time basis, by reference to the principal outstanding.

Dividend income from investments is recognised when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the group and the amount of income can be measured reliably).

c) Export incentive

The benefit accrued under the Duty Drawback scheme and other schemes as per the Export and Import Policy in respect of exports made under the said Schemes is included under the head "Revenue from Operations" under 'Export and other incentives'.

2.15 Taxation

Income tax expense represents the sum of the current tax and deferred tax.

a) Current tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to

compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss account i.e. in Other comprehensive income or equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

b) Deferred tax

Deferred tax is provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts at the reporting date.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the group has a legally enforceable right for such set off.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered. Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax relating to items recognised outside profit or loss is recognised in other comprehensive income or in equity.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

Deferred tax assets/liabilities are not recognised for below mentioned temporary differences:

- (i) At the time of initial recognition of goodwill;
- (ii) Initial recognition of assets or liabilities (other than in a business combination) at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- (iii) In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the group will pay normal income tax. Accordingly, MAT asset is recognised in the consolidated Balance Sheet when it is probable that future economic benefit associated with it will flow to the group.

The group considers whether it is probable that a taxation authority will accept an uncertain tax treatment. If the group concludes that it is probable that the taxation authority will accept an uncertain tax treatment, the group determines the taxable profit (tax loss), tax bases, unused tax losses, unused tax credits or tax rates consistently with the tax treatment used or planned to be used in its income tax filings. However, if the group concludes that it is not probable that the taxation authority will accept an uncertain tax treatment, the group reflects the effect of uncertainty in determining the related taxable profit (tax loss), tax bases, unused tax losses, unused tax credits or tax rates.

2.16 Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with.

A government grant that becomes receivable as compensation for expenses or losses incurred in a previous period. Such a grant is recognised in profit or loss of the period in which it becomes receivable.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the group recognizes as expenses the related costs for which the grants are intended to compensate.

Government grants related to assets are presented in the consolidated balance sheet as deferred income and is recognised in profit or loss on a systematic basis over the expected useful life of the related assets.

2.17 Employee benefits

Short term employee benefits

Wages and salaries including non monetary benefits that are expected to be settled within the operating cycle after the end of the period in which the related services are rendered and measured at the undiscounted amount expected to be paid

Defined contribution plans

Provident fund administered through Regional Provident Fund Commissioner, Superannuation Fund, National pension scheme and Employees' State Insurance Corporation are defined contribution schemes. Contributions to such schemes are charged to the statement of profit and loss in the year when employees have rendered services entitling them to the contributions. The group has no obligation, other than the contribution payable to such schemes.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

Defined benefit plans

The group has defined benefit plan such as gratuity, provident fund for certain category of employees administered through a recognised provident fund trust and legal severance plans.

Provision for gratuity, provident fund for certain category of employees administered through a recognised provident fund trust and legal severance plans are determined on an actuarial basis at the end of the year and charged to consolidated statement of profit and loss, other than remeasurements. The cost of providing these benefits is determined using the projected unit credit method.

Remeasurements, comprising of actuarial gains and losses and the effect of the asset ceiling, (excluding amounts included in net interest on the net defined benefit liability and return on plan assets), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through other comprehensive income in the period in which they occur. Re-measurements are not reclassified to consolidated statement of profit and loss in subsequent periods.

Other long term employee benefits

The group also has other long term benefits plan such as compensated absences and retention pay. Provision for compensated absences and long term retention pay are determined on an actuarial basis at the end of the year and charged to consolidated Statement of Profit and Loss. The cost of providing these benefits is determined using the projected unit credit method.

Share based payments

Equity settled share based payments to employees under SRF Long Term Share Based Incentive Plan (SRF LTIP) are measured at the fair value (which is the market price less exercise price) of the equity instruments on the grant date. This compensation cost relating to

employee stock purchase scheme is amortised over the remaining tenure over which the employees renders their service on a straight line basis.

2.18 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

2.19 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

2.20 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

A) Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus transaction costs that are directly attributable to the acquisition of the financial asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets of the group are classified in three categories:

Notes to the Consolidated Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

- a) At amortised cost
- b) At fair value through profit and loss (FVTPL)
- c) At fair value through other comprehensive income (FVTOCI)

Financial asset is measured at amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in other income in the consolidated statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss. This category generally applies to trade and other receivables.

Financial assets not classified as measured at amortised cost or FVOCI as are measured at FVTPL. Financial assets included within the FVTPL category are measured at fair value with all changes recognised in the statement of profit and loss.

Equity Investments

All equity investments in the scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are measured at fair value through profit and loss.

For all other equity instruments, the group may make an irrevocable election to present subsequent changes in the fair value in other comprehensive income.

The group makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

If the group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in other comprehensive income. This cumulative gain or loss is not reclassified to statement of profit and loss on disposal of such instruments.

Derecognition

A financial asset (or, where applicable, a part of a financial asset) is primarily derecognised (i.e. removed from the balance sheet) when:

- a) The rights to receive cash flows from the asset have expired, or
- b) The group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (i) the group has transferred substantially all the risks and rewards of the asset, or (ii) the group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred

Notes to the Consolidated Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

control of the asset, the group continues to recognise the transferred asset to the extent of the group's continuing involvement. In that case, the group also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the group could be required to repay.

Impairment of financial assets

The group recognizes loss allowance using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all financial assets with contractual cash flows other than trade receivable, ECLs are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of ECL (or reversal) that is required to adjust the loss allowance at the reporting date is recognised as an impairment gain or loss in the Statement of Profit and Loss.

B) Financial liabilities and Equity instruments

Initial recognition and measurement

All financial liabilities are recognised initially at fair value, net of directly attributable transaction costs, if any.

The group's financial liabilities include borrowings and trade and other payables including derivative financial instruments.

Subsequent measurement

Borrowings

Borrowings are subsequently measured at amortised cost. Any differences between the proceeds (net of transaction cost) and the redemption/repayment amount is recognised in profit and loss over the period of the borrowings using the Effective interest rate method.

Trade and other payables

Trade and other payables represent the liabilities for goods and services provided to the group prior to the end of the financial year which are unpaid.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the consolidated statement of profit or loss.

Equity Instruments

Equity Instruments are any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

Debt or equity instruments issued by the group are classified as either financial liability or as equity in accordance with the substance of

Notes to the Consolidated Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

contractual arrangements and the definitions of a financial liabilities and an equity instruments.

2.21 Derivative financial instruments and hedge accounting

Initial recognition and subsequent measurement

The group uses derivative financial instruments (such as forward currency contracts, interest rate swaps) or non derivative financial assets/liabilities to hedge its foreign currency risks and interest rate risks respectively. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss, except for the effective portion of cash flow hedges, which is recognised in OCI and later reclassified to profit and loss when the hedge item affects profit and loss.

For the purpose of hedge accounting, hedges are classified as:

- a) Fair value hedges when hedging the exposure to changes in the fair value of a recognised asset or liability.
- b) Cash flow hedges when hedging the exposure to variability in cash flows that is either attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognised firm commitment.

At the inception of a hedge relationship, the group formally designates and documents the hedge relationship to which the group wishes to apply hedge accounting and the

risk management objective and strategy for undertaking the hedge. The documentation includes the group's risk management objective and strategy for undertaking hedge, the hedging/ economic relationship, the hedged item or transaction, the nature of the risk being hedged and how the entity will assess the effectiveness of changes in the hedging instrument's fair value in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

Hedges that meet the strict criteria for hedge accounting are accounted for, as described below:

Fair value hedges

The change in the fair value of a hedging instrument is recognised in the consolidated statement of profit and loss. The change in the fair value of the hedged item attributable to the risk hedged is recorded as part of the carrying value of the hedged item and is also recognised in the statement of profit and loss.

If the hedged item is derecognised, the unamortised fair value is recognised immediately in profit or loss. When an unrecognised firm commitment is designated as a hedged item, the subsequent cumulative change in the fair value of the firm commitment attributable to the hedged risk is recognised as an asset or liability with a corresponding gain or loss recognised in consolidated profit and loss.

Cash flow hedges

The effective portion of the gain or loss on the hedging instrument is recognised in

Notes to the Consolidated Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

other comprehensive income in the cash flow hedge reserve, while any ineffective portion is recognised immediately in the consolidated statement of profit and loss.

The Group uses forward currency contracts as hedges of its exposure to foreign currency risk in forecast transactions and firm commitments. The ineffective portion relating to foreign currency contracts is recognised in the consolidated statement of profit and loss.

The Group also designates certain non derivative financial liabilities, such as foreign currency borrowings from banks, as hedging instruments for the hedge of foreign currency risk associated with highly probable transactions and, accordingly, applies cash flow hedge accounting for such relationships.

Amounts recognised as other comprehensive income are transferred to profit or loss when the hedged transaction affects profit or loss, such as when the hedged financial income or financial expense is recognised or when a forecast transaction occurs.

If the hedging instrument expires or is sold, terminated or exercised without replacement or rollover (as part of the hedging strategy), or if its designation as a hedge is revoked, or when the hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss previously recognised in other comprehensive income remains separately in other equity until the forecast transaction occurs or the foreign currency firm commitment is met.

2.22 Fair value measurement

The group measures some of its financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an

orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- a) In the principal market for the asset or liability, or
- b) In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- a) Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- b) Level 2 — inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Notes to the Consolidated Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

- c) Level 3 — inputs for the asset or liability that are not based on observable market data (unobservable inputs).

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

2.23 Foreign Currency translation reserve

On consolidation, the assets and liabilities of foreign operations are translated into Rupees at the rate of exchange prevailing at the reporting date and their statements of profit or loss are translated at exchange rates prevailing at the dates of the transactions. For practical reasons, the group uses an average rate to translate income and expense items, if the average rate approximates the exchange rates at the dates of the transactions. The exchange differences arising on translation for consolidation are recognised in OCI. On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is recognised in profit or loss.

2.24 Segment reporting

Based on "Management Approach" as defined in Ind AS 108 - Operating Segments, the Chief Operating Decision Maker evaluates the group's performance and allocates the resources based on an analysis of various performance indicators by business segments. Inter segment sales and transfers are reflected at market prices.

Unallocable items includes general corporate income and expense items which are not allocated to any business segment.

Segment Policies:

The group prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the consolidated financial statements of the group as a whole. Common allocable costs are allocated to each segment on an appropriate basis.

2.25 Dividend

The group recognises a liability to make cash distributions to equity holders when the distribution is authorised and the distribution is no longer at the discretion of the group. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

2.26 Non-current assets held for sale and discontinued operations

Non-current assets (or disposal groups) are classified as held for sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use. The appropriate level of management must be committed to a plan to sell, an active programme to locate a buyer and complete the plan has been initiated, the sale is considered highly probable and is expected within one year from the date of classification.

Non-current assets (or disposal groups) held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Assets and liabilities classified as held for sale are presented separately from other assets and liabilities in the balance sheet. Property, plant and equipment and intangible assets once classified as held for sale are not depreciated or amortised.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

A discontinued operation is a component of the Company that either has been disposed of, or is classified as held for sale, and:

- a) Represents a separate major line of business or geographical area of operations,
- b) Is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations, or
- c) Is a subsidiary acquired exclusively with a view to resale.

Discontinued operations are excluded from the results of continuing operations and are presented separately in the statement of profit and loss.

2.27 Applicability of new and revised Ind AS

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2020.

3 Significant accounting judgements, estimates and assumptions

The preparation of consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Judgements, estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the consolidated financial statements is included in the following notes.

- Leasing arrangement (classification and accounting) – Note 2.9
- Financial instruments - Note 2.20
- Fair value measurement – Note 2.22
- Assessment of useful life of property, plant and equipment and intangible asset – Note 2.4
- Recognition and estimation of tax expense including deferred tax– Note 2.15
- Estimation of assets and obligations relating to employee benefits (including actuarial assumptions) – Note 2.17
- Estimated impairment of financial assets and non-financial assets – Note 2.20 and Note 2.8
- Recognition and measurement of contingency: Key assumption about the likelihood and magnitude of an outflow of resources – Note 2.13

Notes:

- (i) At March 31, 2020, there was no recognised deferred tax liability (Previous year : Nil) for taxes that would be payable on the unremitted earnings of certain of the Group's subsidiaries. The Group has determined that undistributed profits of its subsidiaries will not be distributed in the foreseeable future.
- (ii) Section 115BAA of the Income Tax Act, 1961 was introduced by the Taxation Laws (Amendment) Ordinance, 2019. Based on the current estimate of expected timing of exercising of the option under Section 115BAA, the Company has re-measured its deferred tax balances. Consequently, credit of ₹ 136.11 Crores (net of MAT adjustment of ₹ 74.02 crores) has been recorded in the Statement of consolidated Profit and Loss during the year.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

- (iii) MAT credit entitlement of ₹ 74.02 Crores (out of total ₹ 87.85 Crores generated during the year) expiring in the financial year ending March 31, 2035 is not recognised in the statement of profit and loss of the current year, due to expected timing of exercising of the option under section 115BAA of Income Tax Act, 1961.
- (iv) As on March 31, 2019 there were capital losses of ₹ 186.32 Crores expiring in the financial year ending March 31, 2023 on which no deferred tax asset was created, due to lack of probability of future capital gains against which such deferred tax assets can be realised. Pursuant to recognition of long term capital gain in the current year, such capital losses have been set-off. Also refer note 42(A).

*Amount deposited against contingent liability ₹ 2.72 Crores (Previous year: ₹ 6.17 Crores)

**Amount deposited against contingent liability ₹ 4.62 Crores (Previous year: ₹ 2.57 Crores)

***Amount deposited against contingent liability ₹ 0.49 Crores (Previous year: ₹ 0.08 Crore)

****Amount deposited against contingent liability ₹ 5.68 Crores (Previous year: ₹ 7.14 Crores)

*****In the matter of a demand for Stamp duty related to Tyrecord Division at Malanpur, Gwalior, Madhya Pradesh, the Division Bench of the Hon'ble High Court of Madhya Pradesh decided in favour of Revenue department during the year. The Company's petition in the Supreme Court was dismissed. The Company has paid the entire duty demand of ₹ 28.82 crores (including penalty of ₹ 5.09 crores) during the year.

**Includes demand by Madhya Pradesh Paschim Kshetra Vidyut Vitaran Company Ltd. (MPPKV Ltd) of ₹ 10.06 Crores which is disputed by the Company .

All the above matters are subject to legal proceedings in the ordinary course of business. In the opinion of the management, the legal proceedings, when ultimately concluded, will not have a material effect on the results of the operations or financial position of the group.

b The Company has been served with show cause notices regarding certain transactions as to why additional customs / excise duty / service tax amounting to ₹ 25.61 Crores (Previous year: ₹ 20.10 Crores) should not be levied. The Company has been advised that the contention of the department is not tenable and hence the show cause notice may not be sustainable.

The Company has received a draft assessment order for assessment year 2016-17 in which adjustments amounting to ₹ 367.37 Crores have been proposed on account of transfer pricing adjustments etc. which are pending before Dispute Resolution Panel. Based on the transfer pricing study, facts of the case and applicable case laws, the company is of the view that the proposed adjustments will not sustain.

c In February 2019, the Honorable Supreme Court of India in its judgement opined on the applicability of allowances that should be considered to measure obligations under Employees Provident Funds and Miscellaneous Provisions Act, 1952. The Company believes that there are interpretative challenges on the application of judgement retrospectively and therefore has applied the judgement on a prospective basis.

d The amounts shown above represents the best possible estimates arrived at on the basis of available information. The uncertainties and possible reimbursements are dependent on the outcome of the different legal processes which have been invoked by the group or the claimants as the case may be and therefore cannot be predicted accurately or relate to a present obligations that arise from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate cannot be made.

34. Capital and Other Commitments

(i) Superannuation fund

The Company makes contributions to a Trust which in turn contributes to ICICI Prudential Life Insurance Company Limited. Apart from being covered under the Gratuity Plan described below, the employees of the Company also participate in a defined contribution superannuation plan maintained by the Company. The Company has no further obligations under the plan except making annual contributions based on a specified percentage of each covered employee's salary. From November 1, 2006, the Company provided an option to the employees to receive the said benefit as cash compensation along with salary in lieu of the superannuation benefit. Thus, no contribution is required to be made for the category of employees who opted to receive the benefit in cash.

(ii) Provident fund administered through Regional Provident Fund Commissioner

All employees are entitled to Provident Fund benefits as per the law. For certain category of employees the group administers the benefits through a recognized Provident Fund Trust. For other employees contributions are made to the Regional Provident Fund Commissioners. The Government mandates the annual yield to be provided to the employees on their corpus. This plan is considered as a Defined Contribution Plan. For the first category of employees (covered by the Trust), the group has an obligation to make good for the shortfall, if any, between the yield on the investments of the trust and the yield mandated by the Government and these are considered as Defined Benefit Plans and are accounted for on the basis of an actuarial valuation.

36.2 Defined benefit plans

The group sponsors funded defined benefit plans for qualifying employees. The defined benefit plans are administered by separate funds which are legally separate from the group. These plans are:

- Gratuity
- Provident fund for certain category of employees administered through a recognized provident fund trust.
- Legal Severance pay & Health care (Unfunded) as applicable with respect to foreign entities

- (i) **These plans typically expose the group to actuarial risks such as investment risk, interest rate risk, longevity risk and salary risk.**

Investment Risk

The probability or likelihood of occurrence of losses relative to the expected return on any particular investment.

Salary Risk

The present value of defined benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in rate of increase in salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

Interest Risk

The plan exposes the group to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of the providing the above benefits and will thus result an increase in value of the liability.

Longevity Risk

The present value of defined benefit plan liability is calculated by reference to the best estimate of the mortality of the plan participants both during and after the employment. An increase in the life expectancy of plan participants will increase the plan's liability.

- (ii) **The principal assumption used for the purpose of the actuarial valuation were as follows:**

Notes to the Consolidated Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

The cost of the defined benefit plans and other long term benefits are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These includes the determination of the discount rate, future salary increases and mortality rate. Due to these complexity involved in the valuation it is highly sensitive to the changes in these assumptions. All assumptions are reviewed at each reporting date.

The present value of defined benefit obligation and the related current service cost and past service cost were measured using projected unit credit method.

(iii) Amounts recognized in statement of profit and loss in respect of these benefit plans are as follows:

The group expects to make a contribution of ₹ 8.68 Crores (Previous year : ₹ 7.01 Crores) to the defined benefit plans during the next financial year.

Provident fund:

The plan assets have been primarily invested in government securities and corporate bonds.

(viii) Sensitivity Analysis

Significant actuarial assumptions for the determination of the defined obligation are discount rate and expected salary increase. The sensitivity analysis below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of reporting period, while holding all other assumptions constant.

36.3 Other long-term employee benefit

Amounts recognised in the statement of profit and loss in note 27 "Employee benefits expenses" under the head "Salaries and wages, including bonus"

	Year ended March 31, 2020	Year ended March 31, 2019
Long term retention pay (Refer to note (i) below)	0.14	0.17
Compensated absences	11.26	6.93
	11.40	7.10

(i) Long Term Retention Pay

The group has a Long Term Retention Pay Plan which covers employees selected on the basis of their current band and their long term value to the Company. The incentive is payable in three year blocks subject to achievement of certain performance ratings. The Company also has a scheme for talent retention of certain identified employees under which an incentive is payable over a period of three years. Based on actuarial valuation, the Company has accrued the above mentioned amounts.

37. Employee Share Based Payments

The Company has an Employee Share Purchase Scheme (SRF Long Term Share Based Incentive Plan) to provide equity settled share based payments to certain employees. The expenses related to the grant of shares under the Scheme are accounted for on the basis of fair value of the share on the grant date (which is the market price of the Company's share on the date of grant less exercise price). The fair value so determined is expensed on a straight line basis over the remaining tenure over which the employees renders their services.

There were no equity shares granted during the current year. The number and fair value of equity shares granted during the previous year are as under:

	Year ended March 31, 2019
Number of equity shares granted during the year	60,000.00
Market price on the grant date (₹ per equity share)	1,724.73
Exercise price (₹ per equity share)	10.00
Fair value on the grant date (₹ per equity share)	1,714.73

38. Segment Reporting

Based on the guiding principles laid down in Indian Accounting Standard (Ind AS) - 108 "Segment Reporting", the Managing Director of the group is the Chief Operating Decision Maker (CODM) and for the purposes of resource allocation and assessment of segment performance the business of the group is segregated in the segments below:

- Technical Textiles business: includes nylon tyre cord fabric, belting fabric, polyester tyre cord fabric and industrial yarns and its research and development
- Chemicals business: includes refrigerant gases, chloromethane, pharmaceuticals, fluorochemicals & allied products and its research and development.
- Packaging Film business: includes polyester films.
- Others: includes coated fabric, laminated fabric and other ancilliary activities

Segment revenue, results and capital employed include the respective amounts identifiable to each of the segments. Other unallocable expenditure includes expenses incurred on common services provided to the segments, which are not directly identifiable.

In addition to the significant accounting policies applicable to the business segments as set out in note 1 above, the accounting policies in relation to segment accounting are as under:

a) Segment revenue and expenses

Joint revenue and expenses of segments are allocated amongst them on a reasonable basis. All other segment revenue and expenses are directly attributable to the segments. These amounts relate to continuing operations, unless otherwise stated. (Refer to note 42 with regard to information in relation to discontinued operations).

b) Segment assets and liabilities

Segment assets include all operating assets used by a segment and consist principally of operating cash, trade receivables, inventories and property plant and equipment and intangible assets, net of allowances and provisions, which are reported as direct offsets in the consolidated balance sheet. Segment liabilities include all operating liabilities and consist principally of creditors and accrued liabilities and do not include deferred income taxes. While most of the assets / liabilities can be directly attributed to individual segments, the carrying amount of certain assets / liabilities pertaining to two or more segments are allocated to the segments on a reasonable basis.

40. Financial Instruments and Risk Management

40.1 Capital Management

The group manages its capital to ensure that it will be able to continue as a going concern and provide reasonable return to the shareholders by maintaining a reasonable balance between debt and equity. The capital structure of the group consists of net debt (borrowings net of cash and cash equivalents and current investments) and total equity of the group. The group is not subject to any externally imposed capital requirements. The group's management reviews the capital structure of the group on periodic basis. As part of its review, the management considers the cost of capital and risk associated with each class of capital. The group also evaluates its gearing measures using Debt Equity Ratio to arrive at an appropriate level of debt and accordingly evolves its capital structure.

The following methods / assumptions were used to estimate the fair values:

- Fair valuation of financial assets and liabilities with short term maturities is considered as approximate to respective carrying amount due to the short term maturities of these instruments.
- Fair valuation of non-current financial assets has been disclosed to be same as carrying value as there is no significant difference between carrying value and fair value.
- Fair value of other long-term borrowings and lease liabilities is estimated by discounting future cash flows using current rates (applicable to instruments with similar terms, currency, credit risk and remaining maturities) to discount the future payouts.
- The fair value is determined by using the valuation model/technique with observable/non-observable inputs and assumptions.

There are no transfers between Level 1, Level 2 and Level 3 during the Year ended March 31, 2020 and March 31, 2019

Level 1:

Quoted prices in the active market: This level of hierarchy includes financial assets that are measured by reference to quoted prices in the active market.

Level 2:

Valuation techniques with significant observable inputs: This level of hierarchy includes items measured using inputs other than quoted prices included within Level 1 that are observable for such items, either directly or indirectly. This level of hierarchy consists of over the counter (OTC) derivative contracts and open ended mutual funds.

Level 3:

Valuation techniques with significant unobservable inputs: This level of hierarchy includes items measured using inputs that are not based on observable market data (unobservable inputs). Fair value is determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices

from observable current market transactions in the same instruments nor based on available market data. The main item in this category are unquoted equity instruments

The fair value of the financial instruments are determined at the amount that would be received to sell an asset in an orderly transaction between market participants. The following methods and assumptions were used to estimate the fair values:

- (i) Investments in mutual funds: Fair value is determined by reference to quotes from the financial institutions.
- (ii) Derivative contracts: The group has entered into various foreign currency contracts and interest rate swaps contracts to manage its exposure to fluctuations in foreign exchange rates and interest rate respectively. These financial exposures are managed in accordance with the group's risk management policies and procedures. Fair value of derivative financial instruments are determined using valuation techniques based on information derived from observable market data, i.e., mark to market values determined by the authorized dealers banks and forward exchange rates at the balance sheet date.
- (iii) Unquoted equity investments: Fair value is determined based of the recoverable value as per agreement with the investee

Reconciliation of Level 3 fair value measurements	Unlisted equity instruments
As at March 31, 2018	0.12
Sale of investment	(0.01)
As at March 31, 2019	0.11
Purchases of investment	4.05
As at March 31, 2020	4.16

Sensitivity of the fair value measurement to changes in unobservable inputs for financial instruments in Level 3 level of hierarchy is insignificant.

40.3 Financial Risk Management

The group is exposed to various financial risks arising from its underlying operations and finance activities. The group is primarily exposed to market risk (i.e. interest rate and foreign currency risk) and to credit risk and liquidity risk. The Group's Corporate Treasury function plays the role of monitoring financial risk arising from business operations and financing activities.

Financial risk management within the group is governed by policies and guidelines approved by the senior management and the Board of Directors. These policies and guidelines cover interest rate risk, foreign currency risk, credit risk and liquidity risk. Group policies and guidelines also cover areas such as cash management, investment of excess funds and the raising of short and long-term debt. Compliance with the policies and guidelines is managed by the Corporate Treasury function within the group. Review of the financial risk is done on a monthly basis by the Managing Director and on a quarterly basis by the Board of Directors. The objective of financial risk management is to contain, where deemed appropriate, exposures on net basis to the various types of financial risks mentioned above in order to limit any negative impact on the group's results and financial position.

In accordance with its financial risk management policies, the group manages its market risk exposures by using specific type of financial instruments duly approved by the Board of Directors as and when deemed

appropriate. It is the group's policy and practice neither to enter into derivative transactions for speculative purpose, nor for any purpose unrelated to the underlying business. The Board of Directors / Managing Director reviews and approves policies for managing each of the above risks.

40.3.1 Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of interest rate risk and foreign currency risk. Financial instruments affected by market risk includes loans and borrowings, deposits, investments and derivative financial instruments. The group enters into derivative contracts as approved by the Board to manage its exposure to interest rate risk and foreign currency risk.

A. Foreign Currency Risk Management

Foreign currency risk also known as Exchange Currency Risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. Foreign currency risk in the group is attributable to group's operating activities and financing activities.

In the operating activities, the group's exchange rate risk primarily arises when revenue / costs are generated in a currency that is different from the reporting currency (transaction risk). In compliance with the Board approved policy, the Group manages the net exposure on a rolling 12 month basis and for exposures between 12 to 36 months, hedging is done based on specific exposure. The information is monitored by the Audit committee and the Board of Directors on a quarterly basis. This foreign currency risk exposure of the group are mainly in U.S. Dollar (USD), Euro (EUR), Japanese Yen (JPY) and British pound sterling (GBP). The group's exposure to foreign currency changes for all other currencies is not material.

The carrying amounts of the group's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting periods expressed in ₹ are as follows:

	Assets		Liabilities	
	As at March 31, 2020	As at March 31, 2019	As at March 31, 2020	As at March 31, 2019

EUR	114.34	128.48	813.85	475.72
JPY	-	-	6.87	7.72
GBP	4.13	4.85	0.26	0.58

Foreign currency sensitivity analysis

The group is mainly exposed to changes in USD, EURO, JPY and GBP exchange rates.

The following table details the group's sensitivity to a 1% increase and decrease in the ₹ against the relevant foreign currency. The sensitivity analysis includes only outstanding foreign currency denominated monetary items as tabulated above and adjusts their translation at the period end for 1% change in foreign currency rates. A positive number below indicates an increase in profit before tax or vice-versa.

Foreign exchange derivative contracts

The group uses derivative financial instruments exclusively for hedging financial risks that arise from its commercial business or financing activities. The group's Corporate Treasury team manages its foreign currency risk by hedging transactions that are expected to occur within 1 to 24 months for hedges of forecasted sales, purchases and capital expenditures. When a derivative is entered into for the purpose of being a hedge, the group negotiates the terms of those derivatives to match the terms of the hedged exposure. For hedges of forecast transactions the derivatives cover the period of exposure from the point the cash flows of the transactions are forecasted up to the point of settlement of the resulting receivable or payable that is denominated in the foreign currency. All identified exposures are managed as per the policy duly approved by the Board of Directors.

The following table details the foreign currency derivative contracts outstanding at the end of the reporting period:

B. Interest Rate Risk Management

Interest rate risk arises from movements in interest rates which could have effects on the group's net income or financial position. Changes in interest rates may cause variations in interest income and expenses resulting from interest-bearing assets and liabilities. The group's exposure to the risk of changes in market interest rates relates primarily to the group's long-term debt obligations with floating interest rates.

The group manages its interest rate risk by having a portfolio of fixed and variable rate loans and borrowings. The group enters into interest rate swaps, in which it agrees to exchange, at specified intervals, the difference between fixed and variable rate interest amounts calculated by reference to an agreed principal amount outstanding at the time of inception of the swap. Out of the total long term borrowings, the amount of fixed interest loan is ₹ 995.04 Crores and floating interest loan is ₹ 2,096.36 Crores (Previous year : Fixed interest loan ₹ 853 Crores and Floating interest loan ₹ 1,757 Crores)

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the group's profit before tax is affected through the impact on floating rate long term borrowings, as follows:

	Year ended March 31, 2020		Year ended March 31, 2019	
	₹ loans interest rate decreases by 0.50 %	Foreign currency loans interest rate decreases by 0.15 %	₹ loans interest rate decreases by 0.50 %	Foreign currency loans interest rate decreases by 0.15 %
Increase in profit before tax by	1.48	2.70	2.09	2.01

In case of increase in interest rate by above mentioned percentage, there would be a comparable negative impact on the profit before tax as mentioned above.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2020

(All amounts in ₹ Crores, unless otherwise stated)

Interest Rate Swap Contracts

Under interest rate swap (IRS) contracts, the group agrees to exchange the difference between fixed and floating rate interest amounts calculated on the agreed notional principal amounts. Such contracts enables the group to mitigate the risk of changing interest rates.

The following table details the IRS contracts outstanding at the end of the reporting period:

Outstanding Contracts	No. of Deals		Contract Value of Foreign Currency (In Millions)		Maturity			
					Up to 12 months Nominal Amount* (₹ Crores)		More than 12 months Nominal Amount* (₹ Crores)	
	As at March 31, 2020	As at March 31, 2019	As at March 31, 2020	As at March 31, 2019	As at March 31, 2020	As at March 31, 2019	As at March 31, 2020	As at March 31, 2019
IRS Contracts*	3	4	15.05	23.13	26.71	54.24	86.99	105.58

Each of the above trades are in the nature of cash flow hedges and are effective hedges. The mark to market on these trades is therefore routed through Cash flow Hedge Reserve. The interest rate swap and the interest payments on the loan are paid simultaneously and are charged to statement of profit and loss.

*Sensitivity on the above IRS contracts in respect of interest rate exposure is insignificant

40.3.2 Credit Risk Management

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The group is exposed to credit risk from its operating activities (primarily trade receivables, loans and other financial assets) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

Credit risk from balances with banks and financial institutions is managed by the group's treasury department in accordance with the group's policy. Investments of surplus funds are made only with counterparties who meet the parameters specified in Investment Policy of the groups. The investment policy is reviewed by the group's Board of Directors on an annual basis and if required, the same may be updated during the year. The investment policy specifies the limits of investment in various categories of products so as to minimize the concentration of risks and therefore mitigate financial loss due to counterparty's potential failure.

Expected credit loss on financial assets:

To manage credit risk for trade receivables, the group establishes credit approvals and credit limits, periodically assesses the financial reliability of customers, taking into account the financial conditions, economic trends, analysis of historical bad debts and aging of such receivables.

With regards to all financial assets with contractual cash flows other than trade receivable, management believes these to be high quality assets with negligible credit risk. The management believes that the parties, from which these financial assets are recoverable, have strong capacity to meet the obligations and where the risk of default is negligible and accordingly no provision for expected credit loss has been provided on these financial assets other than as detailed below.

Provided during the year	0.17	1.88
Reversed during the year	(0.24)	(0.76)
As at March 31, 2020	2.74	3.61

Other than financial assets mentioned above, none of the group's financial assets are impaired, as there are no indications that defaults in payments obligation would occur.

40.3.3 Liquidity Risk Management

Liquidity risk is the risk of non-availability of financial facilities available to the group to meet its financial obligations. The group's objective is to maintain a balance between continuity of funding and flexibility through the use of money market instruments, bank overdrafts, bank loans, debentures and other types of facilities. The liquidity management is governed by the Board approved liquidity management policy. Any deviation from the policy has to be approved by the Treasury Management comprising of Managing Director, Chief Financial Officer and Treasury Head. The group assesses the concentration of risk with respect to refinancing its debt, guarantee given and funding of its capital expenditure according to needs of the future. The group manages its liquidity by holding appropriate volumes of liquid assets which are available for its disposal on T +1 basis and by maintaining open credit lines with banks / financial institutions.

The table below analyze the group's financial liabilities into relevant maturity profiles based on their contractual maturities:

	Less than 1 year	More than 1 year and upto 5 years	More than 5 years	Total
As at March 31, 2020

- (e) In March 2020, the World Health Organization declared COVID-19 to be a pandemic. Consequent to this, Government of India declared a national lockdown on March 25, 2020, which has impacted the business activities of the group. The group has assessed the impact that may result from this pandemic on its liquidity position; carrying amounts of receivables; inventories; tangible and intangible assets; investments; and other assets/liabilities. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the group has considered internal and external information available till the date of approval of these financial statements and has assessed its situation.

In that context and based on the current estimates, the group believes that COVID - 19 is not likely to have any material impact on its financial statements, liquidity or ability to service its debt or other obligations. However, the overall economic environment, being uncertain due to COVID-19, may affect the underlying assumptions and estimates in future, which may differ from those considered as at the date of approval of these financial statements. The group would closely monitor such developments in future economic conditions and consider their impact on the financial statements of the relevant periods.
