## **NOTE - 16: SIGNIFICANT ACCOUNTING POLICIES**

### a. BASIS OF PRESENTATION

The accompanying financial statements have been presented for the year ended March 31, 2012 along with comparative information for the year ended March 31, 2011. The accompanying financial statements have been prepared on a going concern basis under the historical cost convention, on the accrual basis of accounting in conformity with the accounting principles generally accepted in India. The accounting policies have been consistently applied by the Company and are consistent with those used in the previous year.

### b. USE OF ESTIMATES

In preparing the Company's financial statements in conformity with accounting principles generally accepted in India, the Company's management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, if any, and the disclosure of contingent assets and liabilities at the date of the financial statements as well as the reported amounts of revenue and expenses during the reporting period. The actual results could differ from such estimates.

#### c. INVENTORIES

Traded goods are valued at lower of cost or net realizable value.

### d. REVENUE RECOGNITION

Revenue is recognized to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue from sale of goods is recognized when the significant risks and rewards of ownership of the goods are transferred to the customer.

### e. FOREIGN CURRENCY TRANSACTIONS

### Initial Recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount, the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

### Conversion

Foreign currency monetary items are reported using the closing rate at the date of the Balance Sheet.

### **Exchange Differences**

Exchange differences arising on the settlement of monetary items or on reporting Company's monetary items at rates different from those at which they were initially recorded during the period or reported in previous financial statements, are recognized as income or as expenses in the period in which they arise.

### f. INCOME TAX

Tax expense comprises both current and deferred taxes.

Deferred income tax reflects the impact of current period timing differences between income/(loss) as per Indian Income Tax Laws and income/(loss) as per the books of accounts, for the period and reversal of timing differences of earlier periods. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognized only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced by the extent that it is no longer probable that sufficient taxable profit will be available to allow all or a part of the aggregate deferred tax asset to be utilized.

### g. SEGMENT REPORTING

The Company has identified only one business segment and geographical segment during the reporting period. Accordingly, segment information as per AS-17 is not required to be disclosed, considering the fact that there is only one identifiable business segment and geographical segment, which is also in consistency with Accounting Standard Interpretation (ASI) 20 (Revised) namely 'Disclosure of Segment Information' issued by the Institute of Chartered Accountants of India.

## h. PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

Provisions are recognized for liabilities that can be measured only by using a substantial degree of estimation, if;

- The Company has a present obligation as a result of a past event ;
- A probable outflow of resources is expected to settle the obligation ; and
- The amount of the obligation can be easily estimated.

Contingent Liability is disclosed in the case of :

- A present obligation arising from a past event, when it is not probable that an outflow of resources will be required to settle the obligation.
- A possible obligation, unless the probability of outflow of resources is remote.

Depending on facts of each case and after due evaluation of relevant legal aspects, claims against the Company not acknowledged as debts, if any, are disclosed as contingent liabilities. In respect of statutory matters, continent liabilities are disclosed only for those demand(s) that are contested by the Company.

Contingent assets are neither recognized nor disclosed.

### i. CASH FLOW STATEMENT

Cash Flow Statements are prepared in accordance with 'Indirect Method' as explained in the Accounting Standards on Cash Flow Statements (AS-3) notified under the Companies (Accounting Standards) Rules, 2006. Cash and bank balances and current investments, if any, that have insignificant risk of change in value, which have durations up to three months, are included in the Company's cash and cash equivalents in the Cash Flow Statement.

### J. EARNINGS PER SHARE

Basic earnings per share are calculated by dividing the net profit/ (loss) for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.
