On the path of growth

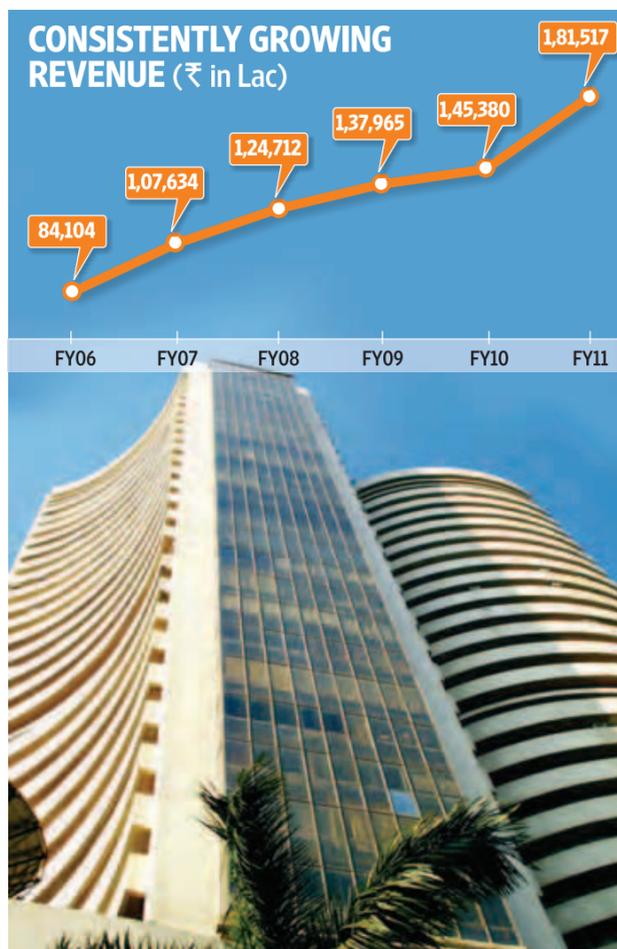

Company benefits from astute business decisions

HT Media has been actively at work strengthening its foundations for the last few years. Through a combination of sensible strategic moves, optimal resource allocation and considerable hard-work, the Company was able to build a strong base upon which to create its future. The initial results of this effort are evident in the success we have experienced in FY 2011.

The Fiscal Year 2010-11 attested to a strong, all-round performance for HT Media with growth across the board.

The readership of all group newspapers, Hindustan Times, Mint and Hindustan, registered new highs. Hindustan Times retained the top slot in Delhi NCR by a healthy margin above its closest competitor. In Mumbai, it became the second largest read newspaper. HT Media group's Hindi newspaper, Hindustan, ushered in a new vision for Hindi editorial as its novel direction and design proved to be a hit with the readers and made it the second largest read Hindi newspaper in the country in FY 11. Mint consolidated its position as the second largest business paper.

MINT

'Mint'ing Achievement

Mint's continued focus on growth and innovation has held it in excellent stead over the course of FY 2010-11. Mint committed itself to a stream of initiatives, which strengthened its product offering and also added new streams of revenue to the business. An action packed year has taken Mint from new launches and strategic collaborations, to leveraging technology to increase reader connect and engagement in cutting-edge business issues.

Having established itself as the second largest business paper in the country and the preferred choice of discerning business paper readers; Mint further expanded its national footprint with the Gujarat launch. Through this launch, Mint now reaches out to readers in Ahmedabad, Baroda, Surat, Rajkot and Gandhinagar. The effort at Mint is to keep enhancing the product offering so that it stays relevant to the changing consumer needs and stays true to the 'clarity' proposition it offers. Towards this end, Mint launched a new section on Markets & Personal Finance called 'Mint Money'. Through its well-researched and analysed content, Mint Money helps

its readers develop an understanding of how various financial products and markets work for them.

A significant Mint innovation was the special iPad application 'Mint on the decade'. As Mint readers are early adopters, the application is a critical way to connect with them. The application is feature rich and supports video, dynamic graphics and panoramas amongst other things.

Mint conducts high profile events, which aim to provide clarity on engaging business issues through debate among top corporate leaders and decision makers in the country. The events business has been a strong contributor to building the clarity proposition. Last year Mint ventured into new formats and created properties like 'Mint Luxury Conclave'.

Mint recently entered a strategic content alliance with business news channel Bloomberg UTV. Under this tie-up, they will share content with each other on a daily basis, and undertake various joint editorial initiatives through the year. This partnership will help Mint expand its content footprint

QUICK EDIT

Inspired by Innovation

Innovation has been a major buzz word at HT Media this year. Keeping in mind the changing needs and reading behaviour of the new-age consumer, HT donned a new look - that of a discerning reader's companion. Creating a seamless bouquet of interesting products, the publication took exciting steps to reach out to readers across geographies with content that was credible, informative and engaging. From initiating a slew of reader-friendly initiatives to gaining a strong hold in the existing readership domain, HT has defied convention.

The core values of HT namely, Courage, Responsibility, Empowerment, Continuous Self-Renewal and People-centricity were infused with the spirit of innovation and leveraged to great results. Taking readers beyond the realm of reported facts through its 'inspired by innovation' mantra, HT is further consolidating its position as an opinion-shaper.

FEVER 104

A new tune of success

India is a vast country. For many of its, upwards of, 1 billion citizens, reading a newspaper is not a reality. High illiteracy rates across many parts of the country as well as limited access to television have created an environment where the most effective and easily available media channel is the venerable radio. This longstanding, cheapest form of entertainment has made a major comeback in the lives of people. Radio, once again, has emerged as an integral part of the Indian media landscape; its reach phenomenal, its recall value influential. This revival can be attributed to the innovation and quality augmentation introduced into the segment by private players.

HT Media entered the segment with the launch of the Delhi station, Fever 104 in 2006. It began by catering to the musical taste of the

capital's youth, but 'Fever 104' soon expanded its reach to Mumbai, Bengaluru and Kolkata as well. Offering the best playlists of Indian and international hits and initiating a pioneering programming format, the FM station has been able to capture the imagination of millions of listeners. By staying true to its promise of quality music, the channel has become a trend-setter with regard to producing listener-oriented programmes and promotions.

Courtesy its vibrant content and exciting programme palette, Fever 104 registered robust growth on its quarterly and annual financial numbers. For the quarter ended March 31, 2011, Fever clocked a revenue of ₹26.16 Crore and an annual revenue of ₹70 Crore;

Hindustan Times continues to be the largest-read English newspaper in the region of Delhi NCR with average issue readership of 22.58 Lac readers (Source: IRS Q1 2011). Driven by the commitment to providing news and information that helps readers enhance and enjoy life, Hindustan Times, has in its portfolio, relevant special-interest supplements that cater to a variety of subjects. In Mumbai, Hindustan Times climbed to the No. 2 position in FY 11 amongst English broadsheets.

HT BURDA

Successful from the word Go

Union Minister for I&B, Smt. Ambika Soni inaugurating the HT Burda plant in Greater Noida on 2nd March, 2011 in the presence of Smt. Shobhana Bhartia, Chairperson, HT Media and Dr. Hubert Burda, CEO & Promoter of Hubert Burda Media, Germany.

In its first nine months of commercial production, HT Burda has registered total revenues of ₹65 Crore. A significant part of this came from exports, which accounted for nearly 80% of the revenues. HT Burda printed and exported about 132 million copies of high quality catalogues for a wide variety of clients across the length and breadth of Europe, as a result of which the company earned foreign exchange to the tune of ₹9.4 million. HT Burda successfully established some of the best practices in the industry in areas of pre-press, safety and environment friendliness and ensured they were incorporated in the everyday workings of the press. Every employee of HT Burda has been trained to embrace safety and the company is in the process of obtaining a 'green' certificate for compliance to environmental issues.

HT Burda is one of the largest commercial printing facilities in India. It was the first commercial Rotogravure installation in the sub-continent for paper as a substrate. The most unique proposition of Rotogravure technology is embedded in the very core of direct ink transfer to paper. World over, this technology has been adopted by publishers to produce quality product on lower grammage paper, thereby saving paper.

HT Burda has contributed greatly towards the Company's goal of sustainable value creation for its stakeholders. Not only does it help lower costs and optimize resources, HT Burda has also taken the HT brand beyond national borders and has positioned it as a serious contender in the commercial printing market overseas.

witnessing vigorous growth of 93% quarter on quarter and 63% on an annualised basis. The focus through the year was on consolidating and increasing yield in Delhi and Mumbai while Bengaluru and Kolkata saw Fever 104 surpass industry growth. With regard to the EBITDA numbers, Fever 104 yet again came out on top. For the quarter ended March 31, 2011 EBITDA numbers witnessed a healthy growth, generating ₹6.67 Crore with an EBITDA margin of 25.5%. The annual EBITDA number was recorded at ₹12 Crore, a major leap from ₹-0.82 Crore registered in 2009-10. The business continues to be cash positive and generates cash from operations internally.

Fever's constant focus on programming innovation and listener entertainment has resulted in considerable increase in its audience and therefore a positive all-round financial performance. Over the course of the year it has been responsible for introducing exciting, path-breaking concepts to radio, for instance broadcasting the 'Ramayana', a first for the Indian radio industry. The program was an outstanding success and led to a breakthrough in listener numbers, facilitated collaborations with key corporations and most importantly, took radio as a medium beyond music. Fever Ramayana won the best editing and best sound award at the New York Radio Awards 2011. Fever will actively be broadening the reach of this award-winning content through CDs, mobile downloads and the like.

FY 11 was also the year of diversification as Fever widened its footprint to cover other areas of mass entertainment. Through events such as musical concerts with artists of great repute like Kailash Kher, Shubha Mudgal, Pankaj Udhhas, as well as shopping festivals and other international gigs, Fever was able to generate increased brand awareness.

Special mention must be made for the 'Fever Tree of Wishes' an initiative that was met with appreciation from all quarters of society and attracted the attention of thousands, one of whom was the Chief Minister of Delhi. The tree of wishes is a unique concept where wishes were written on balloons. The wishes were tied together and the "tree" of balloons was released into the open sky.

The coming year augurs well for the radio and entertainment divisions of HTML as management is confident that continued innovation and business diversity will help maintain and enrich the positive trends in the radio marketplace.

to multiple platforms and reach new audiences. Mint content is today available across formats - Print, TV, Web, Mobile and Onground Events. The business is able to offer these as integrated offering to both its readers and advertisers. To drive strong engagement with clients and hence revenue, the business adopted this approach of offering integrated solutions. This solutions approach is already contributing to the business and will be one of the key drivers of growth in the next few years.

Praise and recognition has been forthcoming for the efforts at Mint. Pitch magazine has rated Mint as the No. 1 business newspaper brand for the second year in a row. Mint won two awards at the 12th Society of Publishers in Asia awards for Editorial Excellence. Monika Halan, Editor, Mint Money has been selected as one of the 16 Yale World Fellows for 2011.

With a comprehensive product offering, strong pillars of growth in place, clear advertiser proposition and an eye to innovate - Mint is ready to leap into its second phase of growth that will make it a strong and profitable No. 2 business paper.

On the path of growth

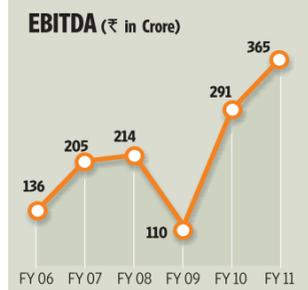

▶ FROM PAGE 1

Financially, the Company was ahead of the industry in more ways than one. On a consolidated basis, its revenues grew by 25% to reach ₹1,815 Crore, EBITDA grew by 26% to reach ₹365 Crore, net profit grew by 33% to reach ₹181 Crore. Revenue growth was driven by a 22% increase in advertisement revenue within the print segment, which reached ₹1,395 Crore from ₹1,141 Crore in the previous fiscal and an impressive 63% increase in revenue from the Radio & Entertainment segment from ₹43 Crore in FY 10 to ₹70 Crore this year. This robust revenue growth has been partially offset by a significant increase in cost of raw material, reaching ₹628 Crore in FY 11 from ₹476 Crore in the previous year, due to higher circulation and newsprint prices.

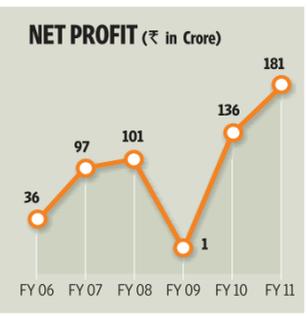

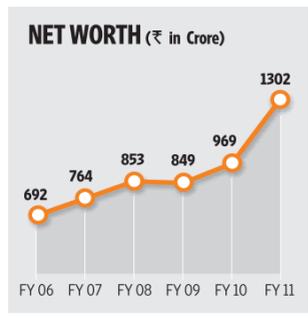

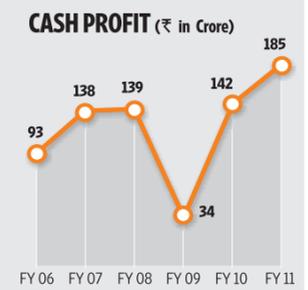

In a significant strategic move, HT Media demerged the Hindi business into a subsidiary company - Hindustan Media Ventures Limited w.e.f. December 2009. Therefore naturally, the standalone results for FY 11 are not comparable with those of FY 10. On a standalone basis, revenue stood at ₹1,256 Crore, EBITDA at ₹324 Crore, and

net profit at ₹178 Crore. The Board of Directors has recommended a dividend of 18% amounting to ₹8.46 Crore (excluding corporate dividend distribution tax of ₹1.37 Crore) for shareholders' approval at their ensuing AGM.

HT Media's business outlook

remains promising on account of consistent growing readership of its group newspapers, continuous improvement in advertising yields, a strong balance sheet capable of supporting investments in growing businesses, net cash of ₹406 Crore and net fixed assets of ₹824 Crore, increasingly improving performance of relatively newer businesses like HT Mumbai, Radio and Mint, and finally, the Company's continuing investments in the digital space.

chairperson's message

We have Multiple Growth Engines

Dear Shareholders,

The Indian story continues to be one of growth and opportunity. Now \$1.7 trillion large, the Indian economy continues to expand at a rate which continues to be in the high single digits. Yet, numbers can't capture the entire phenomenon that India is. The country remains a successful and enduring democracy of 1.2 billion people. Socio-economic indicators such as the literacy rate and life expectancy too continue to improve. According to the latest Census, the literacy rate in the country is 74%, almost 10 percentage points higher than what it was just a decade ago.

The market for most products and services is large, with more people entering the middle-income group every year. Rapid urbanization, a high proportion of young people, a growth in the number of the English-speaking working class, and increasing exposure to diverse lifestyles also make the market a sophisticated and complex one with two underlying themes - optimism and aspiration.

In the last decade, India consolidated its position as the world's second fastest growing major economy. This decade, it will build on those gains, unlocking the potential of its people and natural resources.

The macro-economic changes were accompanied by changing societal norms, attitude and behaviour. Media just doesn't have to chronicle these changes;

LETTER

it has to cope with them and continue to stay relevant and useful.

The latest economic data that came from the government indicate that the economy expanded by 8.5% in 2010-11. Clearly, it has rebounded smartly after a modest 6.7% expansion in 2008-09. In 2009-10, it grew by 7.4%. Other emerging economies too grew. Still, some worries remain on account of high interest rates and food price inflation.

The sharp revival of the Indian economy has helped the media sector regain momentum. The latest FICCI-KPMG report on the media industry indicates that this resurgence has come on account of a strong growth in advertising revenue. Advertising spends grew by 17% in 2010 to ₹26,600 Crore and accounted for 41% of the total revenue of the media industry.

Print continues to be relevant - it accounted for almost 50% of total advertising revenue in 2010 - and, according to the report, will see an average growth of 10% over the next five years in subscription and advertising revenue to touch ₹31,000 Crore.

Your Company has tracked the changing habits and preferences of readers and advertisers - sometimes even before the changes happen. Our continuous initiatives to sense the pulse of the audience and

realign our servings accordingly has been instrumental in the rising appeal and popularity of our brands - across the print, radio, online and mobile platforms. Our strategic focus on new media has started showing results and will intensify as we move ahead.

Your Company completed a corporate restructuring by demerging the Hindi business into a separate entity, Hindustan Media Ventures Limited (HMVL). This move was well thought through, keeping in mind the underlying growth potential of the Hindi business and the focus required to unlock its true potential. In 2010-11, HMVL successfully concluded an Initial Public Offering (IPO) of shares, recorded a healthy growth of 19% in revenue and 'Hindustan' emerged as the second largest read newspaper across all languages in India in terms of total readership.

Your Company did equally well in 2010-11. 'Hindustan Times' continued its dominance in Delhi and the National Capital Region and further strengthened its No.2 position in Mumbai. The No. 2 business daily in the country, 'Mint', continued to build on its strengths by its launch in Ahmedabad and Hyderabad. Our radio business returned healthy profits during the year. Our mobile solutions business gained good revenue in the very initial quarters of operations. Our world-class printing facility, under the joint venture company, HT Burda Media Limited, commenced commercial operations during the year. And our online businesses continued to grow.

Your Company's consolidated revenue reached ₹1,815 Crore in 2010-11, from ₹1,454 Crore in 2009-10. Consolidated EBITDA recorded a growth of 26% to touch ₹365 Crore. Our consolidated net profit was ₹181 Crore in 2010-11, an impressive 33% growth over the previous year's ₹136 Crore.

I'd like to share with you my view on the Company's performance and the road ahead.

In the past decade, we launched Mint, Fever, job portal Shine.com and student-focused portal HTCampus.com, a mobile solutions business, and the Mumbai edition of Hindustan Times; grew Hindustan

into the force it has become; launched a joint venture, HT Burda, to take advantage of opportunities in the printing space; and listed two companies on the stock exchange. This is an impressive record for a decade's achievements by any standard.

Going forward, these businesses will serve as multiple growth engines for your Company. The impressive growth in the radio business, and encouraging signs of revenue opportunities in our online ventures has encouraged us to look for opportunities to grow, both organic and inorganic. We are systematically building a diversified media conglomerate, in line with emerging trends and opportunities in the business across the world.

I'd like to thank all our stakeholders - employees, shareholders, readers, advertisers, listeners, lenders, governments and society at large.

And I'd like to invite all of you to accompany us in our quest to create and share sustained value.

Thank You!

Shobhana Bhartia

ceo interview

OUR STRATEGY WORKS RAJIV VERMA

Kindly share with us an operational review on sustained growth of Hindustan Times.

Riding on the back of an encouraging 2009-10, a significant objective this year was to sustain our growth in key markets by focusing on young readers, fast-growing geographies and, as always, high-quality editorial content. Over the last few years, we have made sustainable growth an unrelenting focus for the Company across the board. As a result we have seen consistent results over the past year.

The revamp of our flagship brand, Hindustan Times, was very well received and has helped in strengthening our leadership in Delhi and NCR. At the same time, Hindustan Times has registered significant growth in Mumbai where it is now the No. 2 among English broadsheets. In the last round of IRS (Q1 2011), the average issue readership of Hindustan Times in Delhi NCR was 22.58 Lac (a 3% increase over the previous round). In Mumbai, Hindustan Times has established itself as the clear no.2 with a readership of 6.88 Lac. More importantly, Hindustan Times has registered a growth in readership in 10 of the last 11 rounds.

We launched revamped Hindustan Times in several key cities of Punjab in order to significantly improve our readership in the region. Mint was launched in Hyderabad in April of this year, expanding its footprint to a key market in the South.

We are also branching out to connect with readers in ways that are not based upon print media. Hindustan Times Leadership Summit is now acknowledged as the premier conclave in the country; in addition, properties like Campus Calling and HT City Crystal Awards were enhanced in terms of content and overall experience to engage with readers on a different level.

Fever 104 has truly arrived. This year has seen significant improvement in the Delhi listenership of Fever 104. We started the year at an 18.8% share (12+ listeners) in Week 1. We hit no.1 in the first week of March and went on to consolidate our position successfully in the month of May with an average weekly share of 20.2%. Fever 104 has also registered a remarkable revenue growth of 63% this year. Going

forward, we see immense potential in radio and the broader entertainment industry and are working on tapping into this exciting segment.

FY 11 has shaped up to be a validation and confirmation of the smart business decisions we have taken over the last few years. It has provided us with a strong foundation to build upon in the coming future.

You have finally managed to make solid inroads in the western markets through your Mumbai edition. Where else do you plan to expand with the presence of your flagship brand Hindustan Times?

Consolidation is the need of the hour. We plan to take steps to secure our position in our key markets.

Delhi NCR is an extremely fast-growing market. Its importance cannot be overstated - given the rapid development in the state, the growth of the new townships of Gurgaon, Noida, Kundli and others and the setting up of base of a number of multinational and national companies, Delhi NCR is becoming a major consumption state within the country. The continuing growth in readership in Delhi NCR would have a major impact on revenues. We need to leverage our leadership position here to build loyalty for the brand amongst a broad section of readers.

In Mumbai, we are on a strong upward trajectory and we would like to continue this trend in readership and revenue.

As I mentioned, we have recently relaunched Hindustan Times in five key cities in Punjab. As part of our strategic plan, we are also revamping our products in the key upcountry markets of UP, Uttarakhand, MP, Chattisgarh, Bihar, Jharkhand, Rajasthan and Haryana. As a national news organization, our aim is to reach readers beyond the metros.

Our core target group continues to be the affluent and the young readers. This focus of ours has not undergone any change and we remain committed to provide high quality and credible content to our readers across various segments.

However, we are now looking at smaller segments within these large groups to reach out with customised offerings. We have done several seasonal supplements

and magazines which reach out to more specific targets.

What were your thoughts on the IRS survey 3 and 4 for 2010?

The IRS survey is a shining validation of our customer-centric approach to the business. We have worked at making our operating model more customer-centric, with decision-making focused in this area. Customer inclusion and interaction are becoming a way of life. We have developed a number of properties based directly upon our understanding of our consumers. Building a Company where the customer is at the centre is a critical determinant of success. The IRS Survey has validated that we are on the right track.

Overall, Hindustan Times has emerged as the second largest English newspaper in India with 36.9 Lac daily readers. It is also the fastest growing among all English dailies, having added nearly 1 Lac readers over the previous round.

As per the results of the survey, HT Delhi has been ranked the leading newspaper in Delhi NCR in the last 4 rounds of the IRS. This is an incredible achievement and showcases the reach of our publication in Delhi. Additionally, brand HT is registering a strong impact in an important section of the market - it has a lead of 1.4 Lac readers in SEC A over its competitors. In Mumbai, HT continues to be the fastest growing daily and has entrenched itself as the undisputed No.2 English daily.

This year, our premium business daily, Mint, consolidated its position as the No.2 business daily in the country. According to the IRS, Mint had a readership of 1.99 Lac, with 80% being exclusive readers.

This unprecedented showing in the IRS is a source of pride for us as an organization because it confirms our close relationship with our readers.

After capturing the interest of the youth readers and audience, since revamping Hindustan Times two years back, what lies in the offing?

The last few years have been about strengthening the foundations of our business. They have been about creating a stable architecture at HT Media through its various businesses supported by functions such as Marketing, Finance and Human Resources. We are building a house with strong foundations. One of our leading goals is satisfied customers, stakeholders and employees.

A major strategy this year was to ener-

gize the HT ethos and culture. The key decision of developing innovation as a core competency was undertaken by the HT Media leadership team. We are going to be relentless in our pursuit of embedding innovation into the very foundations of our organization as it is a widely held view that this century is going to belong to the companies that are willing to innovate. From No TV Day to Reverse Channel for old newspapers to movie reviews by people, there are fantastic, innovative ideas emerging from our teams. Developing our innovation muscle is a priority for us and we are looking to enhance capabilities in this area over the coming year.

An important area that we have consciously looked at is the induction of fresh talent into the Company, especially at the entry level. We are certain that, overtime, the talent within HT Media would increasingly become younger and sharper. A primary area for the induction of young talent was in the key function of editorial.

Our focus on the young readers in our markets remains paramount. HT Next, our newspaper for schools, continues to do well. HT Edge, our new offering for the youth has met with an enthusiastic response in Delhi. Hindustan, our Hindi daily, has introduced a slew of interesting and innovative products aimed at the youth; these include Hindustan Jobs, *Jaano English* and *Movie Magic*. In addition, Hindustan has launched a women's supplement and magazine - *Anokhi* - and a personal finance supplement, *Hindustan Money*. The launch of these products and the introduction of new youth oriented sections are making our mainline dailies - Hindustan Times and Hindustan - more youthful. Equally, the editorial content is becoming richer and more relevant.

We intend to maintain our course on sustainable growth to achieve the long term goals that we have set for ourselves. We will not get complacent in our success but continually strive to build upon it to reach new heights of achievement. Through prudent control over our costs and expenses, diligent evaluation and mitigation of risk, adherence to the highest standards of corporate governance, treating our customers as paramount and working as a great team, I have not a shadow of a doubt that we will be well on our way to triumph.

ECONOMY

The financial year 2010-11 proved to be mixed bag for the global economy. While some mature economies, like the United States and Germany, managed to avoid the threat of a double dip recession, other smaller economies were not as fortunate. Portugal, Greece and Ireland were forced to confront critical challenges related to sovereign debt, necessitating the enforcement of severe austerity measures. The United States, however, was able to increase its quarterly GDP growth to 3%, on an adjusted basis, by Q4 of FY 2011. Moreover, according to the US Labour Department, unemployment fell to 8.7% from 10% over the previous year. In spite of decreased unemployment, the enduring upward pressure on pricing and growth of home sales continue to be a cause for concern. The spotlight has recently been turned on commodity prices, which have shot up exponentially over the past year, especially in the case of base metals, crude oil and precious metals. The unabated rise in food prices is of persistent concern. The crisis itself has led to a dramatic deterioration in fiscal positions, causing some market worries about fiscal imbalance in many countries. The global economy was also plagued by geo-political tensions on display in Greece and Libya which effectively led to a surge in crude oil prices. Subsequently, natural calamities in Japan also resulted in logistics supply setbacks and could be responsible for checking economic growth in the immediate future.

In sharp contrast to the global economic difficulties, the Indian economy has continued on its track of recovery over the past year, even though soaring rates of inflation triggered some alarm. Not unlike China, the other major emerging economy in the region, the Reserve Bank of India was compelled to raise interest rates in tranches eight times last year in order to keep inflation under control while still maintaining a healthy rate of growth. According to quick estimates released by CSO, the GDP of India may have grown by 8.6% during FY 2011. The country continues to benefit from the advantages of growing domestic consumption, led by favorable demographics, as the average spending per capita also shows increases thereby supporting the country's growth. The Reserve Bank of India estimates the country's GDP will continue to grow at least 8% per annum despite certain monetary tightening measures.

The WPI inflation remained in the alarming double digits for the major part of the year, primarily due to high food commodity prices. The boost to the economy was aided by a healthy 4% growth in the agricultural sector, following a robust monsoon season, as well as sustained growth in some areas of the service sector.

INDUSTRY

After struggling through a lean patch in 2009 due to the global slowdown, the media industry showed clear signs of recovery in 2010. Following the growth in the country's GDP, a simultaneous hike was seen in different industry sectors and the subsequent increase in advertising expenditure and sales promotion reflected positively in media sector growth as well. In order to mitigate the slowdown of the previous year, the media and entertainment industry had undertaken a number of cost optimization measures as a result of which it not only surpassed revenue growth in 2010 over 2009 by 11% (Source: FICCI Frames 2011), but also improved its profitability. These growth trends are expected to persist in the coming year since the overall Media Spend as a percentage of GDP is still extremely low in India, when compared to other key global markets (Source: IIFL Research). According to the FICCI-KPMG Report, the media and entertainment industry may achieve growth of 13% in 2011 to reach ₹738 billion, and an overall CAGR of 14% over the next five years across all segments. The contribution of advertising revenues to the overall revenues for the industry is increasing every year and is likely to touch 42% in 2012, a jump from approximately 35-37% in previous years.

According to the FICCI Frames estimates, advertisement revenues in the print media segment promise to show a projected growth of around 13% over the next three years from a much lower CAGR of 8% between 2007 and 2010.

Unlike developed countries, it is estimated that the future of print media in India is far from bleak. The FICCI-KPMG study suggests that a higher level of literacy is helping the cause of print media in reaching out to the masses, particularly in Tier II and Tier III towns. Print media accounts for approximately 30% i.e. ₹19,288 Crore of the total M&E revenues. It is expected to grow at a CAGR of 10% reaching ₹31,010 Crore in 2015.

It may be noticed that over the years, revenues from English language print media have enjoyed a majority share of revenue. Revenue generated from Hindi and regional languages will catch up with English, but will take a few years to match the annual revenues anticipated for the English print media segment in the coming years.

OPERATIONS REVIEW

The financial year 2011 was a landmark year for HT Media. It began with the completion of the Company's restructuring following the demerger of its Hindi business undertaking into Hindustan Media Ventures Limited (HMVL) and a subsequent IPO by HMVL. The demerger and IPO were instrumental to the Company's process of unlocking the value of the Hindi publications, and brought about a subsequent autonomic significance to the publications as independent profit centers.

In FY 2011, HT Media cashed in on growing advertising volumes and posted strong growths in revenue and profits following the revival of the economy in India.

An operator adjusting the Console (control panel) of Regioman printing machine

Leading from the front with Hindustan Times

HT Media substantially expanded its reach across all business verticals within print media. As per the Indian Readership Survey released by the Media Research Users' Council in April 2011 [IRS Q4 2010], Hindustan Times has consolidated its position as the second largest read English newspaper in India, as the market leader in both Delhi and NCR area, and as a strong No. 2 player in Mumbai, with growth registered in nine out of the last ten rounds of IRS reporting. Hindustan Times was also re-launched in key towns of Punjab to serve this affluent state even better, and is now within striking distance of leading circulation and readership in most key markets of Punjab and Chandigarh. In the readership survey undertaken last year, HT Mumbai surpassed the competitor in terms of readership though the lead is marginal at present. We hope to build on our lead to aggressively take on the competition and to strengthen our leadership in the commercial capital.

Pan-India Business newspaper

In FY 2011 our business newspaper Mint made strong progress with its launch in Kolkata and Chennai to establish strong Pan-India credentials within the ₹6 billion business newspaper segment. It was also launched in Hyderabad in April 2011. Thanks to these moves, it consolidated its position as the 2nd largest read business daily in India, with an over 25% readership share in the key markets of Delhi, Mumbai and Bengaluru. Mint's collaboration with 'The Wall Street Journal' and 'Bloomberg' has given the newspaper the edge in appealing to the sensibilities of a discerning and exceedingly well-educated reader. Our immediate challenge is increasing readership in all other places at a similar pace as in Delhi, where Mint remains the reader's choice.

Growing the Hindi segment

The aggressive investments made into the expansion of Hindustan in previous years were also responsible for Hindustan becoming India's second largest Hindi newspaper, according to the Total Readership figures from IRS Q4 2010. Hindustan's position as a dominant No.1 in Bihar and Jharkhand and a strong No.2 in Delhi NCR remains unchallenged; it further accelerated its rapid pace of expansion by a launch in Gorakhpur. We are proud to report that with regard to our Hindi flagship product Hindustan, HMVL was able to register strong growth of over 27% in advertisement revenue over the previous financial year, well above the industry average of 20% (approx). This proved to be a major contributor in ensuring our overall growth in FY 2011 revenues was at a healthy 25%.

Impetus on Radio business

HT's foray into the ₹4 billion radio industry was part of the Company's strategic goal of gaining a toehold in all segments of the media business. It currently runs a radio channel, Fever 104, in four metro cities-Delhi, Mumbai, Bengaluru and Kolkata. Since breaking even approximately a year ago, HT Media's radio business has begun to make an impact. The pace at which the radio business grew over the last financial year was astounding. Even though revenues were a modest ₹70 Crore, growth was close to 63%. Supported by these encouraging results the Company will focus on consolidating and strengthening radio presence in metropolitan cities before expanding elsewhere.

Meanwhile, the Company continues to look for inorganic opportunities in this business, as there are chances that this sector may show signs of consolidation in the near future. According to the FICCI-KPMG report, the radio segment in the media and entertainment industry is expected to record a CAGR of close to 20% from 2010 to 2015, promising a healthy future for early entrants into the business.

Mobile Solutions - Capturing opportunity

HT Mobile continued its successful run in the year 2010-11. The Company ventured into many new areas, where it established itself as a credible player by winning clients' trust through innovation and optimum delivery using advanced technology. Many

new clients were welcomed onboard. Innovative mobile applications for varied platforms like J2ME, Android, BlackBerry and iPhone were developed and proved to be instant hits. Many campaigns also played a part in scripting this success. HT Mobile is well on its way to tremendous vertical growth.

Digital foray and Internet business

In FY 2011, HT Media's subsidiary Firefly e-Ventures, which manages the digital businesses saw significant development on a number of its projects.

The job portal Shine.com has gained traction in terms of increasing its database from 40 Lac candidates to over 65 Lac candidates. Shine continues to be the fastest growing job portal in the Indian market, with page views of over 18 million per month, and almost 4 million visits per month, as of March 2011.

HTCampus.com was a new launch for the business, aimed at providing students with the help they need to make informed decisions regarding higher education. Comprehensive, updated and relevant college information is in place for over 15,000 institutes across the country. The website has been appreciated for its intuitive user experience and traffic has already grown to almost 2.5 million page views per month.

Printing - Starting on a strong note

During FY 2011, the Company successfully launched its printing business with its joint venture partner Burda Druck, Germany in full commercial operations, and hopes to capture on the opportunities emerging in the business in the near future. With the expertise of Burda and the state-of-the-art printing facilities in Greater Noida, well equipped to meet global requirements for bulk printing and publishing, HT Burda has already experienced international success and is gearing up for an action-packed year.

Partnership for Growth - Going strong

HT Media's 'Partnership for Growth' initiative, begun in FY 2007-08, enables the Company to enter into strategic partnerships with potential growth companies. Through these collaborations, HT Media provides a complete media platform to its partners in order to cater to their advertising and brand-building needs and thereby contributes to their growth. In return, HT Media ensures a committed stream of revenue for a longer term and participates in the growth and value created by advertising.

The Company continued to show a strong performance under this initiative even though the external economic environment was not entirely favourable in the wake of the economic slowdown. The highlight of the year was a well defined focus on the active management of the portfolio of investments. This focus ensured that the Company obtained significant returns through planned exits, sale of assets and portfolio rationalization measures. In terms of new partnerships, the Company executed a number of quality deals with prestigious companies across sectors under this initiative.

The profits earned from the sale of assets under this initiative in FY 2010-11 were to the tune of ₹13.53 Crore, and thus contributed significantly to the Company's bottom-line. Furthermore, the initiative continued to bring in appreciable incremental advertising revenue and thereby also contributed to the top-line of the Company.

Deal exits will become increasingly critical as the investment portfolio of the Company expands. In such a scenario, the strong measures taken by HT Media this year for active portfolio management will serve as an important foundation for the future.

CONSOLIDATED REVENUES

Net Consolidated Revenues registered a growth of 25%, up from ₹1,454 Crore to ₹1,815 Crore. The broad factors that contributed to this growth were as follows:

- Net increase of ₹307 Crore in revenues from the print segment representing a growth of 22%. This was primarily contributed to by the following:
 - Growth of 22% in Advertising Revenues which moved from ₹1,141 Crore in FY 2010 to ₹1,395 Crore in FY 2011. This growth was attributable to, both, an increase in advertising volumes as the media industry expanded as also pricing aided by a surge in readership scores across HT Media's publications.
 - HT Burda registered revenues of ₹62 Crore in the first year of operations (₹7 Crore earned in FY 2009-10) following commissioning of both its printing machines in the first quarter of FY 2010-11.
 - Job work and scrap sales grew 80% and 82% respectively (contributing to additional revenues of ₹17 Crore and ₹9 Crore respectively) - the former on account of better utilisation of (higher) printing capacity and the latter, following an increase in newspaper circulation and consequent newsprint consumption.
 - Circulation revenue remained static over last year at ₹183 Crore as an increase in newspaper circulation was offset by reductions in cover prices across several locations consequent to competitive pressures.
- Revenues from the Radio & Entertainment segment registered growth of 63%, up from ₹43 Crore in FY 2010 to ₹70 Crore in FY 2011, driven by growth in advertising volumes and also from sponsored events.
- The Internet segment witnessed a growth of 85% in its revenues which expanded from ₹5.6 Crore in FY 2010 to ₹10.4 Crore in FY 2011. This increase in revenue was attributable in large part to the success of the Shine.com portal which has seen a surge in registrations and page views in its second year of operations.

CONSOLIDATED PROFITS

While a large part of the growth in profits during the year is attributable to increasing revenues, there has been a conscious effort to contain costs while, at the same time, make investments in new ventures which require nurturing in the initial phases. The potential erosion in profitability from a hike in newsprint prices combined with adverse foreign currency movements during the year and additional cost of operation of new ventures (for example, HT Burda, launch of Hindustan in Gorakhpur and launch of Mint in Ahmedabad and Hyderabad) was effectively managed through careful planning of inventories, currency hedges, more effective manpower planning and capacity utilisation. As a consequence, Net Consolidated EBITDA witnessed a growth of 26%, up from ₹289 Crore in FY 2010 to ₹365 Crore in FY 2011. EBITDA as a percentage of revenue was maintained at 20%.

A significant reduction in interest cost was achieved during the year on account of optimised treasury operations. The debt mix and volume have been optimized in such a manner that despite eight rounds interest rate increase by RBI, the overall interest out-go was reduced by 20%.

Net Profits rose by 33% from ₹136 Crore in FY 2010 to ₹181 Crore in FY 2011. As a percentage of Revenue, PAT improved from 9% to 10%.

FIXED ASSETS

Gross Block as at 31st March, 2011 expanded to ₹1,213 Crore from its previous level of ₹1,033 Crore as at 31st March, 2010. This increase is primarily attributable to commissioning of the printing facilities at HT Burda, launch of printing facilities in Gorakhpur (HMVL) and enhancement of printing capacity in Mohali (HTML) and the Indo-Gangetic belt (HMVL).

The increase in Gross Block corresponds to a reduction in Capital Work-in-Progress from ₹129 Crore as at 31st March, 2010 to ₹19 Crore as at 31st March, 2011. This is on account of completion of work related to commissioning of the printing facilities in HT Burda as also some part of the Indo-Gangetic belt expansion whereby work had commenced by 31st March, 2010.

Consequent to the above, the Fixed Assets Turnover Ratio has improved from 1.7 times to 2.2 times.

INVESTMENTS

Investments as at 31st March, 2011 increased to ₹760 Crore, up from ₹475 Crore as at 31st March, 2010.

This increase is primarily attributable to additional investments in Mutual Funds and Fixed Maturity Plans with cash generated from operations as also from temporary deployment of IPO proceeds from HMVL, earlier during the year.

INVENTORIES

Inventories as at 31st March, 2011 increased marginally from ₹120 Crore to ₹146 Crore. Some part of this increase is attributable to the start-up of HT Burda operations during the year. However, the Inventory Turnover Ratio has improved from 12.11 times to 12.47 times.

SUNDRY DEBTORS

Sundry Debtors increased from ₹242 Crore (61days) as at 31st March, 2010 to ₹252 Crore (51days) as at 31st March, 2011. This increase is a consequence of the start-up of HT Burda's operations. Excluding debtors related to HT Burda, Sundry Debtors have remained static despite higher revenues, demonstrating that debtor collections have been very robust during the year.

LOANS

Loans decreased from ₹402 Crore as at 31st March, 2010 to ₹312 Crore as at 31st March, 2011. The proceeds from the HMVL IPO were utilised to repay loans availed during the initial period of transfer of operations of the Hindi business from HTML to HMVL in FY 2010. This has also contributed to the lower interest expense for the year.

INNOVATIVE INITIATIVES

Our Company persisted with its strategy of pursuing an innovation led model. This strategy resulted in a number of enterprise level innovations as well as day-to-day innovations which took place in FY 2011.

A novel innovation that was embarked upon in FY 2011 was the creation of a 'No TV Day' in the Mumbai market. This campaign encouraged citizens of Mumbai to say no to watching television on the 29th January, 2011 and instead connect with their city and fellow citizens. The strategy met with resounding success, and we hope to build upon this property in the future.

Another successful innovation that was undertaken at our Hindi newspaper was called 'Hindustan Money'. This initiative is joint venture between HMVL and Mint where Mint is the exclusive content provider. Once again, 'Hindustan Money' received a very positive response from readers in the Hindi heartland.

In addition to the various initiatives, we constantly strive to create a good mix of exclusive news stories, in-depth features, analytical pieces, news-you-can-use, and international content in our business newspaper 'Mint'. Furthermore, this last year has marked the beginning of a concerted effort to make digital platforms an important point of connect with readers.

On the Hindi publication front, the goal is to create a truly local paper with appropriate coverage of national and international events as well. The different editions of 'Hindustan' make proximity the primary factor when determining the news to be published. The major driving force behind coverage is local news and events.

RISK MANAGEMENT & INTERNAL CONTROL

The Company has a robust Internal Audit Program wherein all locations along with their different functions are audited once a year to obtain a 360° view of

View of the HT Mumbai Press

the business. Special emphasis on adequacy of Internal Controls is backed by the Company's risk - based internal audit approach which ensures:

- accurate financial reporting and adherence to existing policies and procedures
- compliance with legal and statutory obligations
- thorough vouching for transactions encompassing all the areas of operations
- review of all functions and departments for their efficiency and effectiveness

Internal audits are thoroughly discussed for all the identified risks and their action plans, at both the location and corporate levels which in turn leads to effective and efficient mitigation plans with definite timelines. Subsequent audits further confirm the compliance of the previous action plans to ensure effective treatment of the identified risks.

Key findings are periodically discussed at the Management Committee meetings for their oversight and necessary deliberations. The Audit Committee periodically reviews the internal audit reports and initiates corrective action as and when necessary.

During the year, based on the internal audit observations, several processes were mapped, policies and guidelines were formulated to further streamline and strengthen the processes. Special attention was paid to strengthen the IT Security platform and create awareness across the organization regarding the following of IT best practices.

This approach has led to higher level of risk consciousness in the system and in turn has helped the Company achieve higher standards of corporate governance.

CONNECTING WITH THE YOUTH

HT Media, as a group, has made the youth of India a priority, be it school children reading a newspaper for the first time or a student trying to get into university. 'HT Next', the school newspaper, has seen significant investment in the past year with initiatives such as the 'Wall of Books' and the Annual HT School Quiz in Delhi, all of which deepened HT's relationship with schools, students and their teachers. Hindustan increased its investment into 'Pratibha Samman', which offers an annual scholarship to students. Hindustan Times in Mumbai adopted the idea as well and launched a HT Scholarship program which saw 13,000 applicants, vying for 500 scholarships of

₹50,000 each. It was the biggest School Scholarship program in the country.

In Delhi, youth engagement went a step further with the launch of India's first dedicated youth daily - 'HT Edge', a newspaper that was designed specifically for and with inputs from the youth. The mainstay of this paper is content contributed by a specially formed Youth Editorial Board that works in collaboration with HT Editorial.

In addition, 'HT Campus.com' is a new initiative we launched with the dual goal of carrying out business objectives as well as providing students with the help they need in making informed decisions about their educational future. Innovative new features to support students are being continually added, including Test Preparation Modules and a revolutionary new concept of Common Application Forms expected to drive significant growth for the website in the future.

HUMAN RESOURCES INITIATIVES

HT Media places great import on the well-being and development of its people. As of 31st March, 2011, the manpower strength of HTML was 2,708. It is vital for the Human Resources function to develop innovative methods to engage with and partner in the growth of each of those employees.

Training was a major initiative on HR's agenda this year. Our Annual Training Calendar is rigorously followed in terms of both behaviour and skill development programs. Certain Supervisory Development Programs are mandatory and are part of the joining formalities, ensuring that HT's leadership approach is understood and followed across the board. Editorial trainings in editing, reporting and design are conducted in-house by experienced senior journalists and adapted to suit the nature of publications or other business interests of HTML.

The Company's five guiding values are deeply ingrained in the organization and are instilled in all employees, from new recruits to the Leadership Team. It is our organizational philosophy that employee engagement comes from challenging tasks, appreciation, celebration of success and competitive remuneration. Measuring performance against these criteria makes it objective and transparent and therefore reward becomes fair and non-ambiguous.

The Performance Management Process is strong and standardized in its implementation. There are three

main segments in the PMP - Self Appraisal, Developmental Feedback and Rating Discussion. These segments address the employee's growth journey with HT Media and are closely reviewed by department heads. Feedback surveys are carried out for employees at the Leadership levels along with skill enhancement trainings in order to build team work and management capacities.

Finally, the quarterly Star Awards function is a corporate reward mechanism in which star performers are identified and significantly rewarded. The culture of the organization is that of promoting transparency and adopting a progressive, people-centric approach to the functioning of the Company.

OUTLOOK

HT Media will look to consolidating and building upon a year of encouraging results and forging ahead in the coming years towards our goal of rising amongst the country's leading media conglomerates while adapting to our reader's changing needs and lifestyles.

We remain upbeat about sustaining a high growth rate in advertisement revenue in both English and Hindi publications. These will be achieved in light of a major revival in advertisement spending in various sectors. The Company plans to promote its businesses, in particularly the ones that have been significantly impacted by the hike in domestic consumption, and attract the attention of an increased number of young readers in the coming years.

Our strategy to focus on high growth areas of classifieds, DAVP, automobiles, FMCG, education and real estate is likely to be sustainable as these areas contribute the maximum in terms of advertising revenues.

We remain committed to improving yields and volumes of the Mumbai edition, which has already gained the second spot in readership. The Mumbai edition has been showing revenue growth of close to 30%, well above the average 20% for our English publications.

With regard to our radio business, the target is to consolidate our No. 1 position in Delhi and strengthen our position in Mumbai, Kolkata and Bengaluru. The industry projections for radio indicate robust growth in the coming year. With the introduction of Fever Entertainment, we now have additional product offerings in the market as well as an improved perception as a thought-leader in the industry.

With the growth of internet penetration in the country, HT's digital business continues its journey of consolidating its position as a major player in the industry. HT's digital offerings, Shine.com and HTCampus.com are on aggressive growth paths and aim to become the leading platforms in their segment in the coming years. Riding on the strength of our innovative propositions and a keen understanding of the rapidly changing needs of digital consumers, we believe we are in an excellent position to leverage the increasing popularity of internet across the country.

HINDUSTAN

A new chapter for Hindustan

FY 2010-11 proved to be a landmark year for Hindustan. In the latter half of the year the Indian Readership Survey (IRS) results for Q4 2010 confirmed the daily had raced ahead of its competition to emerge as the second largest read newspaper across all languages in the country. Post the demerger, Hindustan Media Ventures Limited (HMVL) has continued to focus on strengthening its regional footprint and moving towards faster growth. As a result of which, Hindustan, the flagship brand of the company, attained significant success and consolidated its leadership position.

The brand underwent a massive makeover in the beginning of 2008. The overarching result of this shift was an introduction of innovation in all aspects of the marketing mix, change in product philosophy, design overhaul, an aggressive wave of brand promotion, extensive on-ground activation and critically, a massive expansion in its footprint in the states of UP and Uttarakhand. Consequently, Hindustan instantaneously captured the hearts and minds of young readers in India, ensuring the publication's continued growth in readership, which has reached to 3.66 Crore readers (Total Readership IRS Q1 2011). From the hinterlands of India to its urban landscapes, the daily, with its credible, informative and engaging content mix, reasserted its position as an eminent source of news for its readers.

As a responsible publication, Hindustan takes its role of an opinion shaper seriously and is constantly striving to enhance the standards of journalistic quality it has set for itself. It is thanks to this ethos, that in round after round of the IRS, Hindustan regularly comes out on top. Over the last three years Hindustan has grown from 4 to 15 editions, 13 Lac to 21 Lac circulation and from 85.51 Lac (IRS R2 2007) daily readers to 118.1 Lac (IRS Q1 2011) readers.

The year 2010-11 was a significant year for HMVL in many other ways as well. Apart from its flagship brand, Hindustan, doing tremendously well, the Company also launched its maiden IPO. Unlocking the value of the Hindi print business, the IPO raised ₹270 Crore.

During the course of the year, Hindustan continued on its forward march in its expansion plans and launched a new edition in Gorakhpur covering an important

gap in its UP coverage. With this launch, Hindustan is now present in all but two districts of UP. Additionally, the company also modernised its printing facilities at various locations in Bihar and Jharkhand to better cater to a rapidly growing economic zone. The year saw another refresh of brand Hindustan with content overhaul of the Hindustan paper and a complete makeover of the supplement portfolio. With a stimulating bouquet like *Jaano English*, *Anokhi*, *Hindustan Jobs* and *Nayi Dishayein*, Hindustan, has taken another giant leap towards delighting its readers.

Owing to initiatives such as these, HMVL's turnover grew by 19% with advertising revenue showing an impressive increase of 27%. Aided by this improved turnover, HMVL grew its EBITDA by over 12%. Overall, HMVL had a successful year and looks to the future with a lot of optimism.

HT MUMBAI

Innovation Mumbai-style

HT Mumbai, the Mumbai based edition of Hindustan Times, started FY 2010-11 by crossing a new landmark and establishing itself as the No. 2 English broadsheet in the city. Readership grew to over 6 Lac and registered an impressive jump of 22% since the previous year. The edition has grown in ten of the last eleven Indian Readership Survey (IRS) rounds and has maintained its consistent growth story. The IRS 2010 demonstrated that when compared to its closest competitor, the publication held a lead of over 41,000 readers in terms of Average Issue Readership (AIR).

The growth in readership has come courtesy HT Mumbai's year-round efforts at connecting to readers with useful, informative and innovative content. Through their unique initiatives the team was able to address the interests of readers belonging to various demographic groups and communities. Every week a wide range of topics, from education, lifestyle, social responsibility to the environment, were tackled in the publication. An active dialogue with readers was maintained by inviting them to share their views and opinions on various topics. Social networking sites, like Facebook and Twitter, played an important role in attracting interest to these issues and were used

strategically to increase reader engagement.

HT continuously strives to be a thought leader rather than just a news distribution organization. This was especially evident in the way HT Mumbai broached issues that were relevant to the residents of the city and encouraged them to get involved and raise their voice on subjects that mattered to them. An initiative under the umbrella of 'Mumbai First' was the largest public dialogue held in Mumbai. Reporters met over 11,000 citizens of Mumbai and collected vast amounts of data on issues like health, civic infrastructure and education and were able to identify the 'weak links' responsible for hindering development at the grassroots level. Once again, the response was a direct validation of HT Mumbai's connect with the Mumbai reader. This exercise in collaboration with the citizens of Mumbai culminated in a citizen's charter which was handed over to the Maharashtra Government.

Various initiatives were also undertaken to engage our younger readers. Editorial campaigns like 'Top schools of Mumbai', 'Campus Calling' - a counseling programme for students, 'Hot Careers in Mumbai' all received an extremely positive response from our readers. A new weekly column - 'Campus Cocktail' brought to readers the latest trends popular around

campuses and was a hit with the target readers.

This year HT Mumbai very actively and aggressively endeavoured to garner increased audience interest through various reader-centric initiatives and programmes. The strength of the print medium was smartly and significantly leveraged to reach out to a greater number of people. As a result, the publication not only gained readership but also emerged as a concerned and responsible player in the media landscape. Various causes like 'SOS! Save Our Open Spaces', 'BMC Prune Overgreen Trees Soon' and 'No TV Day', which were given the shape of a meaningful mass campaign during the fiscal year, stand testimony to the publication's position as a committed and responsible partner. A special 8 page memorial tribute was produced to mark the 2nd anniversary of the attacks of 26/11. Each edition of the newspaper carried with it a candle to commemorate the tragedy and express HT's solidarity with the citizens of the city.

2010-11 has been a year of great innovation and initiatives at HT Mumbai. In the coming years, the publication hopes to roll out many more reader-friendly initiatives, which will ensure high readership numbers and continually engaged readers.

Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

4. Statement of Significant Accounting Policies

(a) Fixed assets

Value for individual Fixed Assets acquired from The Hindustan Times Limited (the holding company) in an earlier year is allocated based on the valuation carried out by independent experts.

Other Fixed Assets are stated at cost less accumulated depreciation and impairment losses, if any. Cost comprises the purchase price and any directly attributable cost of bringing the asset to its working condition for its intended use. Borrowing costs relating to acquisition of Fixed Assets which takes substantial period of time to get ready are also included to the extent they relate to the year till such assets are ready for their intended use.

Leasehold improvements represent expenses incurred towards civil works, interior furnishings, etc on the leased premises at various locations.

(b) Depreciation

Leasehold Land is amortised over the primary period of lease.

Leasehold Improvements are amortized over the useful life of upto 10 years or unexpired period of lease (whichever is lower) on a straight line basis.

In respect of fixed assets acquired in an earlier year from the holding company, which are estimated to have lower residual lives than envisaged as per the rates provided in Schedule XIV to the Companies Act, 1956, depreciation is provided based on such estimated lower residual life.

In respect of fixed assets (Plant & Machinery- printing press) acquired during the year 2004-05 from the holding company, depreciation is provided on straight line method over estimated useful life of 5 years as technically assessed by an independent expert.

Assets costing below ₹5,000 each are fully depreciated in the year of acquisition.

Depreciation on other assets (except those acquired from the holding company) are provided on Straight Line Method at the rates computed based on estimated useful life of the assets, which are greater than or equal to the corresponding rates prescribed in Schedule XIV to the Companies Act, 1956.

(c) Intangibles

Income earned during construction year is adjusted against the total of the indirect expenditure.

All direct capital expenditure incurred on expansion is capitalized. Both direct and indirect expenditure are capitalized only if they increase the value of the asset beyond its originally assessed standard of performance.

(e) Leases (where the Company is the lessee)

Finance leases, which effectively transfer to the Company substantially all the risks and benefits incidental to ownership of the leased item, are capitalized at the lower of the fair value and present value of the minimum lease payments at the inception of the lease term and disclosed as leased assets. Lease payments are apportioned between the finance charges and reduction of the lease liability based on the implicit rate of return. Finance charges are charged directly against income. Lease management fees, legal charges and other initial direct costs are capitalised.

If there is no reasonable certainty that the Company will obtain the ownership by the end of the lease term, capitalized leased assets are depreciated over the shorter of the estimated useful life of the asset or the lease term.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the taxes on income levied by same governing taxation laws. At each balance sheet date the Company re-assesses unrecognized deferred tax assets. It recognizes unrecognized deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realised.

The carrying amount of deferred tax assets are reviewed at each balance sheet date. The Company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

MAT credit is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay normal Income-tax during the specified period. In the year in which the Minimum Alternative Tax (MAT) credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in Guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the Profit and Loss account and shown as MAT Credit Entitlement. 5. Contingent Liabilities

- a) During the year ended March 31, 2005, the Company acquired the printing undertaking at New Delhi from its holding company namely The Hindustan Times Limited (HTL). The writ petition filed by the ex-workmen of HTL challenging the transfer of business was quashed by the Hon'ble Delhi High Court on May 9, 2006. Thereafter, the ex-workmen of HTL raised the industrial dispute before Delhi Government, who referred the dispute to Industrial Tribunal-I, Karkardooma Courts, New Delhi (Tribunal). During the course of the proceedings before the Tribunal, the ex-workmen moved application for interim relief. The Tribunal vide its order dated March 8, 2007, granted interim relief to the ex-workmen of HTL to the extent of 50% of last drawn wages from the date of such order till the disposal of the matter.

However, HTL challenged the said order before Hon'ble Delhi High Court in a Writ Petition, wherein the Hon'ble Court modified the order of the Tribunal to the extent that the amount equivalent to 50% so received by ex-workmen will be set off against their retrenchment compensation (not encashed by the above ex-workmen till date), in the event of HTL succeeding in the writ petition. The Hon'ble Court further clarified that payment will be made only from date of the High Court order (i.e. March 23, 2007) till the disposal of writ petition and it further stayed the order and proceedings pending before the Tribunal.

The said writ stands disposed of by Delhi High Court vide order dated 16.01.2009 by holding that it was agreed between the parties to make the payment to ex-workmen till the amount of their Retrenchment Compensation is exhausted. The stay on the proceedings before the Industrial Tribunal was also vacated by High Court and accordingly proceedings before the Industrial Tribunal has re-started.

The matter has reached the stage of final arguments and no additional adverse order has been passed against the company during the current financial year.

In the meanwhile the workmen in question in the said Writ Petition has filed contempt petition against the Hindustan Times Limited and its Directors and is pending before the court. In view of this, no impairment provision is considered against this investment.

During the current year, the Company has also filed a Scheme of Arrangement and Restructuring u/s 391-394 read with Sections 100-104 of the Companies Act, 1956 (the Scheme) with Firefly. Grant Date	NA	20.05.2009
Expected Volatility	NA	47.68%
Life of the options granted (Vesting and exercise period) in years	NA	7.5 to 9 years

Consolidated Auditors' Report

To

The Board of Directors HT Media Limited

- We have audited the attached Consolidated Balance Sheet of HT Media Limited, comprising of its Subsidiaries (Hindustan Media Ventures Limited, HT Music and Entertainment Company Limited, HT Burda Media Limited, HT Digital Media Holdings Limited, Firefly e-Ventures Limited, HT Mobile Solutions Limited, and HT Overseas Pte. Ltd. Singapore) and Joint Venture (Metropolitan Media Company Private Limited), hereinafter referred as HT Media Group, as at March 31, 2011, and also the Consolidated Profit and Loss Account and the Consolidated Cash Flow Statement for the year ended on that date annexed thereto. These financial statements are the responsibility of the HT Media Limited's management and have been prepared by the management on the basis of separate financial statements and other financial information regarding its subsidiaries and joint venture. Our responsibility is to express an opinion on the Consolidated Financial Statements based on our audit.
- We conducted our audit in accordance with the Auditing Standards generally accepted in India. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes, examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
- We did not audit the financial statements of three subsidiaries (HT Mobile Solutions Limited, HT Digital Media Holdings Limited and HT Overseas Pte. Ltd., Singapore) of HT Media Limited whose financial statements reflect total assets of ₹795.05 lacs as at March 31, 2011 and total revenues of ₹529.38 lacs for the year ended March 31, 2011 and increase in cash flows amounting to ₹43.52 lacs for the year ended March 31, 2011. We also did not audit the financial statements of the Joint Venture (Metropolitan Media Company Private Limited) of HT Media Limited out of which total assets of ₹194.23 lacs as at March 31, 2011 and total revenue of ₹0.06 lac for the year ended March 31, 2011 and decrease in cash flows amounting to ₹3.20 lacs for the year ended March 31, 2011 have been considered for the purpose of preparation of these consolidated financial statements. The financial statements and other financial information of the above subsidiaries and joint venture have been audited by other auditors whose report have been furnished to us, and our opinion, in so far as it relates to the amounts included in respect of the subsidiaries and joint venture is based solely on the report of the other auditors.
- Consolidated Financial Statements includes deferred tax assets (net) of ₹4,543.60 lacs, ₹1,003.52 lacs, ₹134.02 lacs and ₹9.26 lacs in respect of the Subsidiary Companies - Firefly e-Ventures Limited, HT Burda Media Limited, HT Mobile Solutions Limited and HT Music and Entertainment Company Limited respectively as on March 31, 2011.

The management of the group is confident that subsequent realization of the deferred tax assets is virtually certain in the near future based on future projections and existing business model. This basis is not in line with the requirements of Accounting Standard 22 notified pursuant to the Companies (Accounting Standards) Rules, 2006 (as amended) to determine virtual certainty. This had caused us to qualify our audit opinion on the consolidated financial statements relating to preceding year in respect of deferred tax assets of ₹3,325.10 lacs and ₹84.15 lacs recognized by Subsidiary Companies Firefly e-Ventures Limited and HT Mobile Solutions Limited respectively.

We further report that had the observation made by us in paragraph above been considered, the consolidated profits for the year and consolidated reserves & surplus would have decreased by ₹5,690.40 lacs each and consolidated deferred tax liabilities would have increased by ₹5,690.40 lacs (Refer Note No. 12 in Schedule 25 of the Consolidated Financial Statements).

- We report that subject to matter stated in para 4 above, the Consolidated Financial Statements have been prepared by HT Media Limited's management in accordance with the requirements of Accounting Standard (AS) 21, 'Consolidated Financial Statements' and AS 27, 'Financial Reporting of Interest in Joint Ventures' notified pursuant to the Companies (Accounting Standards) Rules, 2006 (as amended) and on the basis of the separate audited financial statements of HT Media Limited, its subsidiaries and Joint Venture included in the consolidated financial statements.
- Subject to the effect of matters stated in paras 4 and 5 above, based on our audit and on consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries and joint venture, and to the best of our information and according to the explanations given to us, we are of the opinion that the attached consolidated financial statements give a true and fair view in conformity with the accounting principles generally accepted in India:
 - in the case of the Consolidated Balance Sheet of the consolidated state of affairs of HT Media Group as at March 31, 2011;
 - in the case of the Consolidated Profit and Loss Account, of the Profit of the HT Media Group for the year ended on that date; and
 - in the case of the Consolidated Cash Flow Statement, of the Cash Flows of the HT Media Group for the year ended on that date.

Lease payments are apportioned between the finance charges and reduction of the lease liability based on the implicit rate of return. Finance charges are charged directly against income. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction and non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

Exchange Differences

Exchange differences, in respect of accounting periods commencing on or after December 7, 2006, arising on reporting of long-term foreign currency monetary items at rates different from those at which they were initially recorded during the period, or reported in previous financial statements, in so far as they relate to the acquisition of a depreciable capital asset, are added to or deducted from the cost of the asset and are depreciated over the balance life of the asset, and in other cases, are accumulated in a "Foreign Currency Monetary Item Translation Difference Account" in the enterprise's financial statements and amortized over the balance period of such long-term asset/liability but not beyond accounting period ending on or before March 31, 2011.

Any profit or loss arising on cancellation or renewal of forward exchange contract is recognized as income or as expense for the year.

Translation of Integral and Non-integral foreign operation

The financial statements of an integral foreign operation are translated as if the transactions of the foreign operation have been those of the company itself.

In translating the financial statements of a non-integral foreign operation for incorporation in financial statements, the assets and liabilities, both monetary and non-monetary, of the non-integral foreign operation are translated at the closing rate; income and expense items of the non-integral foreign operation are translated at exchange rates at the dates of the transactions; and all resulting exchange differences are accumulated in a foreign currency translation reserve until the disposal of the net investment.

On the disposal of a non-integral foreign operation, the cumulative amount of the exchange differences which have been deferred and which relate to that operation are recognised as income or as expenses in the same period in which the gain or loss on disposal is recognised.

When there is a change in the classification of a foreign operation, the translation procedures applicable to the revised classification are applied from the date of the change in the classification.

m) Retirement and other employee benefits

- Retirement benefits in the form of Provident Fund and Pension Schemes are defined contribution schemes and the contributions are charged to the Profit and Loss Account of the year when the contributions to the respective funds are due. There are no other obligations other than the contribution payable to the respective funds.
- Gratuity of employees of Parent Company is a defined benefit plan and provision in respect of it is made as per actuarial valuation carried out as per Projected Unit Credit method by an independent actuary as at year end and is contributed to Gratuity Fund created by the holding company of the Parent Company. The liability towards gratuity of certain employees of a Subsidiary Company is ascertained based on demand received from Life Insurance Corporation of India (LIC) with whom a Group Gratuity Policy has been taken and is paid to them. LIC has ascertained the gratuity liability on actuarial valuation basis at the year-end. The liability in respect of gratuity of employees of other Subsidiary Companies and Joint Venture Company is provided as per actuarial valuation as per projected unit credit method carried out by an independent actuary (ies) at the year end.

- Actuarial gains/losses are immediately taken to Profit and Loss account and are not deferred.

n) Impairment

- The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset.
- After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

o) Provisions

A provision is recognised when the HT Media Group has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on best estimate required to settle the obligation at each Balance Sheet date. These are reviewed at each Balance Sheet date and are adjusted to reflect the current best estimates. Provision for expenditure relating to voluntary retirement is made when the employee accepts the offer of early retirement and such provision amount is charged to Consolidated Profit and Loss Account in the year of provision.

p) Income Taxes

Tax expense comprises current and deferred taxes. Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961 enacted in India. Deferred Income Tax reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the taxes on income levied by same governing taxation laws. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the Group has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

At each balance sheet date the Group re-assesses unrecognised deferred tax assets. It recognises unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realized.

The carrying amount of deferred tax assets are reviewed at each balance sheet date. The Parent Company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

MAT credit is recognised as an asset only when and to the extent there is convincing evidence that the Group will pay normal income tax during the specified period. In the year in which the Minimum Alternative tax (MAT) credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in Guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the profit and loss account and shown as MAT Credit Entitlement. The Group reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal Income-tax during the specified period.

q) Earnings Per Share

Basic Earnings Per Share is calculated by dividing the net profit or loss for the year attributable to Equity Shareholders (after deducting preference dividend and attributable taxes) by the weighted average number of equity shares outstanding during the year. The weighted average numbers of equity shares outstanding during the year are adjusted for events of bonus issue, bonus element in a rights issue to existing shareholders, share split, and reverse share split (consolidation of shares).

For the purpose of calculating Diluted Earnings Per Share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

r) Cash and Cash equivalents

Cash and cash equivalents for the purposes of Cash Flow Statement comprises cash at bank and in hand and short term investments with an original maturity of three months or less.

Cash flows are reported using indirect method, whereby profit before tax is adjusted for the effect of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, financing and investing activities of the Company are segregated.

s) Employee Stock Compensation Cost

Measurement and disclosure of the employee share-based payment plans in case of Parent Company is done in accordance with SEBI (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 and the Guidance Note on Accounting for Employee Share-based Payments, issued by The Institute of Chartered Accountants of India. The Group measures compensation cost relating to employee stock options using the intrinsic value method. Compensation expense is amortized over the vesting period of the option on a straight line basis.

t) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

u) Expenses incurred on Initial Public Offer (IPO)

Expenses incurred in Initial Public Offer are adjusted against the securities premium account

The writ petition filed by the ex-workmen of HTL challenging the transfer of business was quashed by the Hon'ble Delhi High Court on May 9, 2006. Thereafter, the ex-workmen of HTL raised the industrial dispute before Delhi Government, who referred the dispute to Industrial Tribunal-I, Karkardooma Courts, New Delhi (Tribunal). During the course of the proceedings before Tribunal, the ex-workmen moved application for interim relief. The Tribunal vide its order dated March 8, 2007, granted interim relief to the ex-workmen of HTL to the extent of 50% of last drawn wages from the date of such order till the disposal of the matter

However, HTL challenged the said order before Hon'ble Delhi High Court in a Writ Petition, wherein the Hon'ble Court modified the order of the Tribunal to the extent that the amount equivalent to 50% so received by ex-workmen will be set off against their retrenchment compensation (not encashed by the above ex-workmen till date), in the event of HTL succeeding in the writ petition. The Hon'ble Court further clarified that payment will be made only from date of the High Court order (i.e. March 23, 2007) till the disposal of writ petition and it further stayed the order and proceedings pending before the Tribunal.

The said writ stands disposed of by Delhi High Court vide order dated 16.01.2009 by holding that it was agreed between the parties to make the payment to ex-workmen till the amount of their Retrenchment Compensation is exhausted. The stay on the proceedings before the Industrial Tribunal was also vacated by High Court and accordingly proceedings before the Industrial Tribunal has re-started.
