Chairman's Letter to Shareholders

Dear Shareholders,

It gives me immense pleasure to present the Annual Report of your Company for the Financial Year 2013-14.

The year 2013-14 was full of challenges both for economy and financial sector. GDP grew by 4.7% while industrial production showed a negative growth of 0.1%. Other significant challenges faced by the economy during the year were, persistent high inflation, fiscal imbalances, decelerating saving rate and external sector vulnerability. These macroeconomic weaknesses were reflected in large capital outflows and sliding currency. Rupee witnessed historic low of 68.88 INR per USD on August 28, 2013 and shortage of liquidity in the system added further stress in the economy. Short term interest rates were raised by Reserve Bank of India. It also hiked the Marginal Standing Facility (MSF) rate by 200 basis points and sucked off excess liquidity with a view to defend rupee exchange rate. Monetary policy thus had to face an extra ordinary spell of financial turbulence. Ten year government security yield, which opened at 7.95% as on March 31, 2013, witnessed extreme volatility touching a low of 7.09% to high of 9.46% before closing at 8.80%.

Faced with the aforesaid macro economic conditions and market challenges, your company maneuvered to its best ability to maintain its profitability during the year. The company made some important changes internally, streamlined its risk management and trading operations and also revamped its HR practices. I am happy to inform you that your company registered a Profit Before Tax of Rs. 90.70 crore in FY 2013-14 as against Rs. 88.76 crore in FY 2012-13. Despite significant increase in yields, trading profit of the company amounted to Rs. 31.40 crore. The total secondary market outright turnover stood at Rs. 3.08 lac crore.

During 2013-14, the company made a bonus issue of 1 : 3 (one equity share for every three shares held). On the enhanced equity, for the year 2013-14, the Board of Directors has recommended a dividend of 9%. The Net Worth of your company increased by nearly 7% to Rs. 662.53 crore as on March 31, 2014 as against Rs. 620.08 crore in previous year. The company is adequately capitalized with capital adequacy ratio of 49.14% as on March 31, 2014, against RBI's minimum stipulation of 15%. The company fulfilled all its obligations as a Primary Dealer by successfully achieving the minimum stipulations laid down by the regulator. Besides, robust risk management systems kept the Company's risk profile in check throughout the year.

This year's performance is a testimony to our capabilities, strategic orientation, the discipline of our risk management systems and the dedication of the employees. Continued support of all our shareholders has also been a huge motivating factor for us to improve our endeavors in delivering better results. We are immensely grateful to you for your unwavering support and cooperation, which has helped us to sail smoothly through all these years.

During FY 2013-14, Company posted trading income of Rs. 3140.78 lacs under extreme volatility in the bond market. The G-Sec Yields rose due to surging headline inflation, falling domestic currency, apprehensions on U.S stimulus tapering and spike in short term borrowing rates. The commencement of term repo auctions served to infuse adequate liquidity into the market. While short term rates remained under continuous upward pressure due to tight liquidity conditions and hike in policy rates, long term yields rose due to heavy supply over the year. Amid these factors, the yield on 10-yr benchmark paper closed the year at 8.80 per cent after touching a high and low of 9.46 per cent and 7.09 per cent respectively as against 7.95 per cent as on March 31, 2013.

MANAGEMENT DISCUSSION AND ANALYSIS

MACROECONOMIC REVIEW: 2013-14

Domestic Overview

During 2013-14, the GDP growth at 4.70 percent was marginally higher than it was in 2012-13 though, it continued to be sub-5 per cent for the second consecutive year. This largely reflected a contraction in the industrial sector even as agricultural growth improved due to the good monsoon while the services sector remained unchanged. Inflation remained elevated during the year mainly due to high food prices. Inflation in terms of the All India Consumer Price Index (CPI)-Combined (Rural + Urban) declined to 8.31 per cent in March, 2014 from a high of 11.16 per cent in November, 2013 induced by a fall in vegetable prices. Despite the moderation, inflation

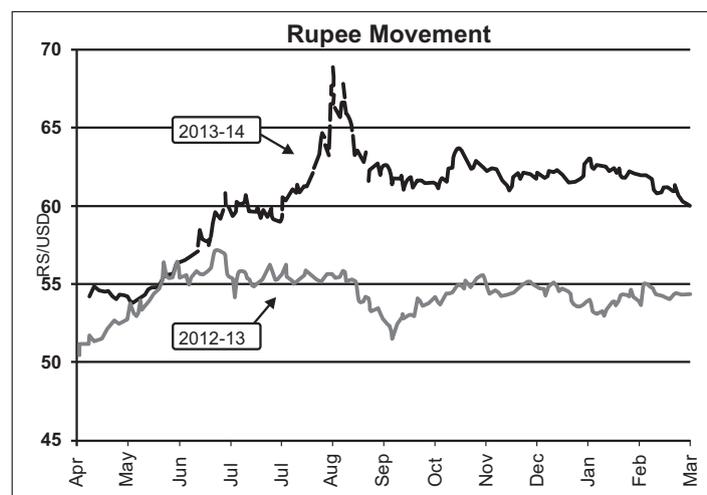

remained persistent with the average CPI inflation at 9.49 per cent during 2013-14 compared to 10.21 per cent in 2012-13. Excluding food and fuel segments, the CPI inflation was around 8 percent.

Low domestic growth and high inflation continued to have an adverse effect on saving-investment dynamics. While household's financial savings (which include bank deposits) as per cent of GDP have been falling, expenditure on valuables (which includes gold) has risen over the last few years though it declined in 2013-14. This trend reflects financial disintermediation with households switching away from financial savings to valuables mainly gold.

India's current account which had been under stress since 2011-12 was brought to a sustainable level during 2013-14 and CAD fell from 4.7 per cent during 2012-13 to 1.7 per cent during 2013-14. Modest recovery in key partner economies and the depreciation of the rupee helped India boost its exports in 2013-14 and robust demand for software exports also improved earnings from invisibles. With a fall in gold imports mainly due to restrictions, the trade balance improved to USD (138.59) billion from USD (190.36) billion in 2012-13. This along with strong capital inflows, particularly NRI deposits, brought stability to the external front. Reduction in CAD, improvement in capital inflows, accretion to foreign exchanges reserves and stability of the exchange rate improved the external sector's resilience.

Forex Market

During the year, rupee depreciated by over 10 per cent over previous year's closing as fragile global economic scenario weighed on the domestic currency. Rupee eroded sharply in value against the USD in the second quarter of the year, weakening to all time lows as global risk aversion, stemming from US monetary stimulus tapering apprehensions, resulted in diminutive demand for risky assets. Fear of early US stimulus tapering and interest rate hike apprehensions weighed on sentiment pushing rupee below 68 per USD mark. However, rupee recovered by the end of the second quarter, climbing back to 62 per USD levels as US currency weakened due to government shutdown and debt ceiling issues. During the residual part of the year, rupee stabilized due to persistent foreign currency inflows and traded in a narrow range of Rs. 59 to Rs. 61 per USD. Rupee closed the FY 2013-14 at Rs. 59.89 per USD as against Rs. 54.28 per USD as on March 28, 2013.

Rupee closed the FY 2013-14 at Rs. 59.89 per USD as against Rs. 54.28 per USD as on March 28, 2013.

Fiscal Deficit

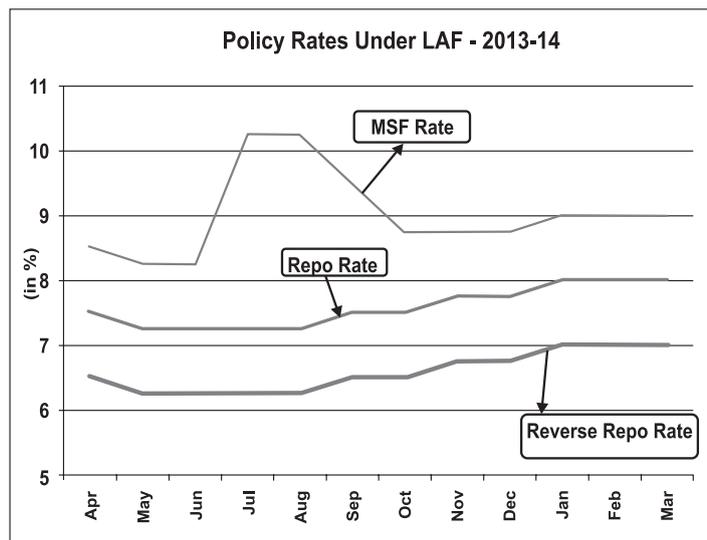

The fiscal consolidation process, which had resumed in 2012-13 through mid-year course corrective measures, was continued in 2013-14. With the growth slowdown affecting tax collections, particularly indirect tax collections, and market conditions not being conducive for meeting disinvestment targets, the reduction in fiscal deficit was mainly achieved through a sharp cutback in planned expenditure and higher receipts of non-tax revenues. The Gross fiscal deficit as a percent to GDP stood at 4.5 per cent against the budget of 4.8 per cent.

Government Borrowings

The government reduced its market borrowing programme in the G-sec category as squeeze in expenditure limited the government's requirement for additional funds. The gross borrowing during the year was lower by Rs. 15,500 crore to Rs. 5,63,500 crore as against budgeted estimate of Rs. 5,79,000 crore. In addition to this, state governments also raised funds to tune of Rs. 1,96,660 crore through market borrowings as against Rs. 1,77,280 crore during the previous year.

Monetary Policy & Liquidity Situation

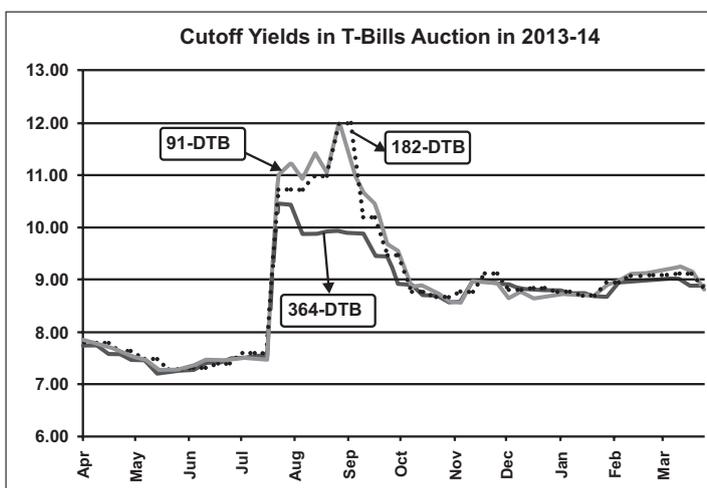

Monetary Policy had to face an extra ordinary spell of financial turbulence caused by persistent inflationary pressures, fiscal imbalances, acute volatility in domestic currency and low economic growth. Liquidity stress increased between mid July, 2013 and end October, 2013 after banks' borrowings from the overnight LAF were capped by the Reserve Bank leading them to borrow from the marginal standing facility (MSF) window. To contain inflation, the repo rate was hiked by 75 basis points in three tranches during FY'14. Reserve Bank also hiked the Marginal Standing Facility (MSF) rate by 200 basis points and sucked excess liquidity with a view to defending rupee exchange rate. However, with the introduction of RBI's term repo window, the liquidity stress fell and call rates were restored within the policy rate corridor.

During the year, net liquidity to the tune of about Rs. 52,000 crore was injected through outright OMOs, besides an average daily net liquidity injection of Rs. 90,600 crore through LAF, MSF and term repos and Rs. 29,400 crore through Export Credit Refinance (ECR).

Treasury Bill Market

During the year, in view of tight liquidity and high short term rates, the yield on Treasury bills surged significantly. The cut off yield on 91 DTB surged from 7.52 per cent in the beginning of July, 2013 to 9.69 per cent at the end of September, 2013 and 182 DTB yield spiked from 7.60 per cent in the beginning of July, 2013 to 9.47 per cent at the end of September, 2013. Borrowing through T-bills/ CMBs stood higher at Rs. 6,91,000 crore compared to Rs. 6,10,000 crore in the preceding financial year. During the second half of the year, yields on treasury

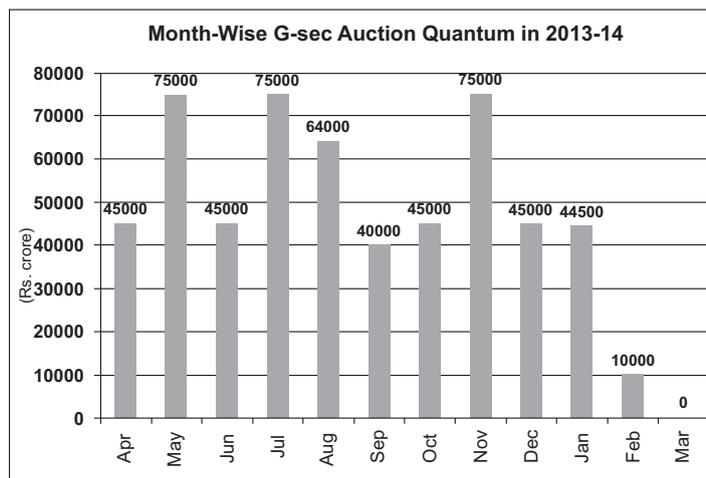

bills eased gradually, post the commencement of term repo auction conducted at regular intervals. Weighted average implicit yield at cut-off price on 91 DTB, 182 DTB and 364 DTB stood at 8.94 per cent, 8.81 per cent and 8.60 per cent as against 8.20 per cent, 8.17 per cent and 8.05 per cent in the previous year respectively.

Government Dated Securities

Primary Market

During FY 2013-14, government managed to keep borrowings well under the budgeted estimate for the year. The gross borrowings through dated issuances stood at Rs. 5,63,500 crore, while net borrowings stood at Rs. 4,68,900 crore. The weighted average maturity of the dated securities issued increased over the year, while the primary yields rose in view of the adverse market conditions and pursuance of hawkish monetary policy to curtail inflation. The weighted average maturity of issuances stood at 14.50 years vis-a-vis 13.50 years in the previous year. The weighted average yield of dated securities issued during FY 2013-14 increased to 8.51 per cent compared to 8.36 per cent during FY 2012-13.

Secondary Market

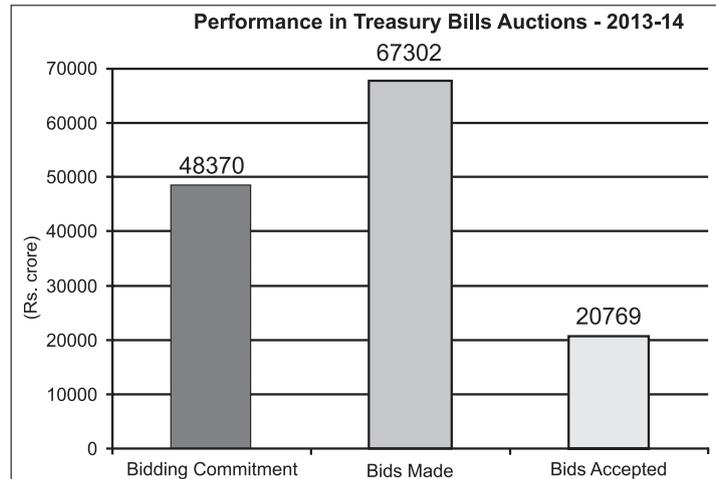

During the year, G-Sec yields rose due to surging headline inflation, falling domestic currency, U.S stimulus tapering apprehensions and spike in short term borrowing rates. The commencement of term repo auctions served to infuse adequate liquidity into the market. The yield curve inverted during the first half of the year, owing to sharp rise in short term rates. While short term rates remained under continuous upward pressure due to tight liquidity conditions and hike in interest rates, long term yields rose due to heavy supply over the year. Yield on 10-yr benchmark paper closed the year at 8.80 per cent after touching a high and low of 9.46 per cent and 7.09 per cent respectively as against 7.95 per cent as on March 31, 2013.

COMPANY PERFORMANCE

Primary Market

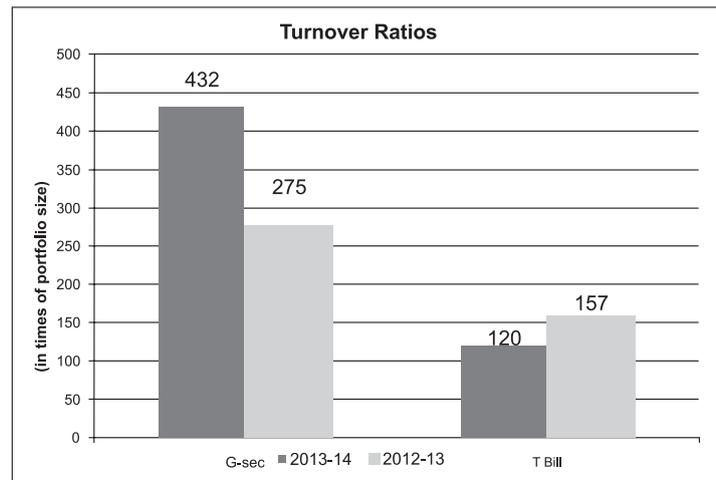

In primary market, the company continued to comply with all the regulatory requirements of bidding under Minimum Underwriting Commitments (MUC) and Additional Competitive Underwriting (ACU) for Primary Dealers. During the year, company earned an underwriting commission of Rs. 14.51 crore as against previous year's commission of Rs. 1.76 crore. In treasury bill auctions, during the first half, GOI raised Rs. 3,92,000 crore as against Rs. 3,40,000 crore in the corresponding period of last fiscal. In the second half, GOI raised another Rs. 2,99,000 crore through

T-bills as against Rs. 2,70,000 crore raised in corresponding period of last fiscal. The company submitted bids aggregating to Rs. 67,302 crore against the commitment of Rs. 48,370 crore (being 7 per cent of notified amount). Out of this, bids amounting to Rs. 20,769 crore were accepted. Fulfilling its primary market commitment, company achieved success ratio of 40.17 per cent and 46.57 per cent in H1 and H2 respectively of FY 2013-14.

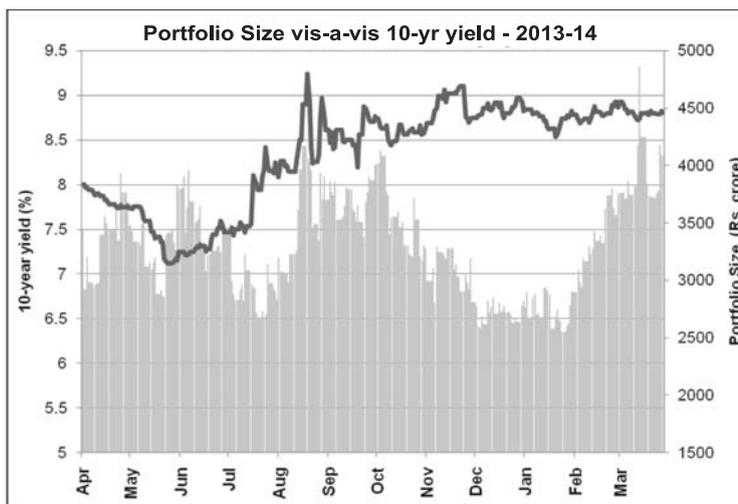

Secondary Market

Company's total turnover ratio (secondary market) stands at 120 times for treasury bills and 432 times for government-dated securities as on March 31, 2014 against the minimum RBI stipulation of 10 times and 5 times respectively.

Portfolio Size and Composition

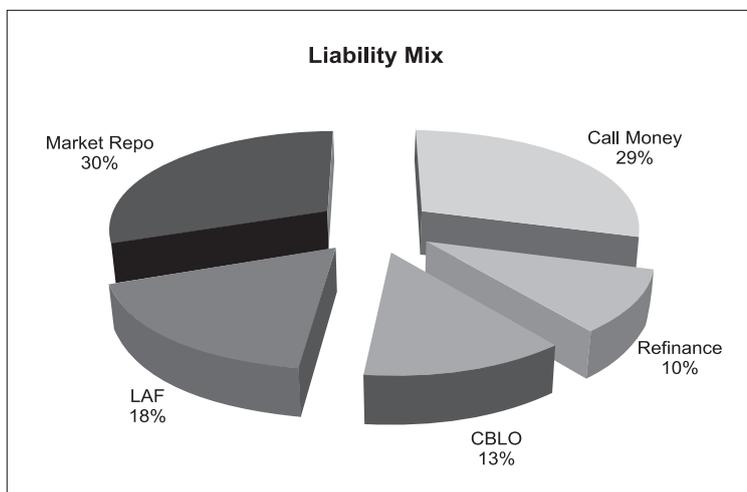

Portfolio size and composition is a function of arbitrage opportunities and tradability. Company maintained high holding of treasury bills in view of positive arbitrage and minimal risk. Daily average holding in T-bills during the year stood at Rs. 1801 crore as against Rs. 1576 crore during the preceding year. The peak holding in T-bills stood at Rs. 2,922 crore. The RBI increased the HTM limit for standalone Primary Dealers from 100 per cent to 200 per cent of Net Owned Funds (NOF) during the year and the company increased the holding of Central G-sec accordingly, as compared to the previous year. Daily average holding of Central G-sec during FY 2013-14 stood at Rs. 1015 crore as against Rs. 624 crore in FY 2012-13.

Daily average holding of Central G-sec during FY 2013-14 stood at Rs. 1015 crore as against Rs. 624 crore in FY 2012-13.

Liability Mix

During the year, the company judiciously utilized different sources of borrowings, namely, Call Money, Collateralized Borrowing and Lending Obligation, Repo, LAF, etc. for active fund management. In view of extreme shortage of funds in the banking system, the company heavily utilized finance support made available by RBI to keep the borrowing cost under check. The average borrowings from all sources amounted to Rs. 2,891 crore as against Rs. 2,330 crore in FY 2012-13. The average

leverage during the year was higher at 4.43 times as against 3.87 times in FY 2012-13, while the maximum leverage for the year stood at 6.54 times the NOF. The average cost of funds during the fiscal through Call, CBLO, etc. at 8.16 per cent was higher than last year at 8.00 per cent. However, the same was about 30 basis points lower than the average NSE overnight MIBOR of 8.46 per cent during the year.

Trading Stance and Risk Management

During FY 2013-14, despite extreme financial turbulence and yield on 10-year benchmark increasing by 85 basis points, the company posted trading income of Rs. 31.41 crore. Company maintained a balanced composition of securities with an aim to maximize arbitrage income and also with a view to have better

trading opportunities. Risk management is a critical element of company's trading business. The Company's mid-office is primarily responsible for formulating and implementing the risk management policies. Value-at-Risk (VaR), PVBP limits, sensitivity analysis and cut-loss policies form the core of market risk management system. Counterparty exposure limits and instrument-wise exposure limits were the primary tools used for managing the credit risk in the business. Similarly, well-established systems and procedures provide adequate defense against the operational risk.

Financial Performance

During the year, the company's Profit Before Tax rose to Rs. 90.70 crore as against Rs. 88.76 crore in the previous year. The profitability was boosted by trading performance and judiciously taking advantage of arbitrage opportunities by the company. During the year, the company registered trading income of Rs. 31.41 crore.

During 2013-14, the company made a bonus issue of 1 : 3 (one equity share for every three shares held) increasing the paid-up capital to Rs. 180.01 crore. The net worth of the company increased by nearly 7 per cent to Rs. 662.53 crore as on March 31, 2014 as against Rs. 620.08 crore in previous year. The company is adequately capitalized with capital adequacy ratio of 49.14 per cent as on March 31, 2014, against RBI's minimum stipulation of 15 per cent. Besides, robust risk management systems kept the Company's risk profile in check throughout the year.

Human Resource Development

Human resource development is given high weightage and company employs the best HR practices to ensure a healthy and motivating work environment for its employees. Employee skills are constantly upgraded and honed by providing training suiting to individual requirements. Besides, in-house lectures and workshops are also conducted on a regular basis to stimulate healthy exchange of ideas.

Opportunities and Threats

Looking ahead, economic activity during the FY 2014-15 is expected to be optimistic with cautiously positive business sentiments, improved consumer confidence, modest recovery in growth and decline in inflation expectations. The net market borrowing of the central government for FY 2014-15 has been budgeted at Rs. 4,57,300 crore, which is lower than the revised estimates at Rs. 4,68,900 crore during the last fiscal year. Besides the fiscal outlook, other factors including private credit off-take, capital flows and the interest rate cycle impact the government market borrowing programme. A planned reduction in deficits and in the government's market borrowing will leave more resources for the private sector. RBI's stance and the monetary policy expectations constitute the root of every strategy formulated to trade in bond markets. Formation of a stable government and the expectation that the new government will address supply side constraints will

have a positive impact on inflationary expectations. Easing of domestic supply bottlenecks and progress on the implementation of stalled projects that have already been cleared should further improve the growth outlook. At the liquidity front, the Central Bank has affirmed to increase the quantum and perform the term repo auction at regular intervals, as it serves to infuse adequate liquidity in the market and hence, sustain the borrowing rates at comfortable level. Against the above backdrop, RBI is expected to cut the policy rates by 50 basis points to 75 basis points during FY 2014-15. However, the rate cuts will be highly dependent upon global condition of advanced economies. The progress of monsoons will also be a key determinant of the RBI's future course of action. Amidst these forces, the markets may remain less volatile than FY 2013-14. The company proposes to be nimble footed in trading and also look for more stable avenues of revenue to maintain consistency in the returns to the stakeholders. The company shall also endeavor to focus on non-traditional sources of income like fee based services and equity markets.

A notice under Section 160 of the Act has been received from a member of the Company proposing them as candidates for the office of Director of the Company. All of them are not disqualified from being appointed as Directors in terms of Section 164 of the Act and have given their consent to act as Director.

In the opinion of the Board, all of them fulfill the conditions specified in the Companies Act, 2013 and the Rules made thereunder, for their appointment as an Independent Director of the Company and are independent of the management. Copy of draft letter of appointment of Independent Directors setting out the terms and conditions of their appointment would be available for inspection by members at the Registered Office of the Company during normal business hours on any working day (except Saturday).

A brief profile of the proposed Independent Directors, including nature of expertise, is provided at page no. 15 and 16 of the Notice.

The Board considers that their continued support and association would be of immense benefit to the Company and it is desirable to continue to avail the services of all of them as Independent Directors. Accordingly, the Board recommends the resolution set out at Item No. 9 to 12 in relation to appointment of Dr. O. P. Chawla, Dr. Kamal Gupta, Sh. S. K. Soni and Sh. P. P. Pareek as Independent Directors, for approval by the shareholders of the Company.

None of the Directors/Key Managerial Personnel of the Company/their relatives, other than the appointees for their respective appointment, are in any way, concerned or interested, financially or otherwise in the resolution set out at Item No. 9 to 12 of the Notice.

ITEM NO. 13

The members of the Company at their 16th Annual General Meeting held on 28th July, 2012 approved by way of an Ordinary Resolution under erstwhile Section 293(1)(d) of the Companies Act, 1956, authorized the Board to borrow over and above the aggregate of paid-up share capital and free reserves of the Company, provided the total amount of such borrowings together with the amounts already borrowed and outstanding at any point of time, apart from temporary loans obtained in ordinary course of business, shall not be in excess of Rs. 5000 crore (Rupees Five Thousand Crore only).

However, as per the corresponding provisions of Section 180(1)(c) of the Companies Act, 2013, notified on 12th September, 2013, the Board of Directors shall not borrow money in excess of the aggregate of the Company's paid-up share capital and free reserves, apart from temporary loans obtained in the ordinary course of business from its bankers, except with consent of members accorded by way of Special Resolution.

Further, as per clarification issued by Ministry of Corporate Affairs, Govt. of India vide circular no. 4/2014 dated 25th March, 2014, the resolution passed under Section 293(1)(d) of the Companies Act, 1956 prior to 12th September, 2013 will be treated as sufficient compliance of the requirements of Section 180 of the Companies Act, 2013, for a period of 1 year from the date of notification of said Section 180.

It is therefore necessary for the members to pass a Special Resolution under Section 180(1)(c) and other applicable provisions of the Companies Act, 2013 and Rules made thereunder, as set out at Item No. 13 of the Notice, to enable the Board of Directors to borrow money in excess of the paid-up share capital and free reserves of the Company. Approval of members is sought to borrow money upto Rs. 5000 crore in excess of the aggregate of paid-up share capital and free reserves of the Company, apart from temporary loans obtained in ordinary course of business.

None of the Directors / Key Managerial Personnel of the Company / their relatives are in any way, concerned or interested, financially or otherwise in the resolution set out at Item No. 13 of the Notice.

ITEM NO. 14

Pursuant to Section 188 and other applicable provisions of the Companies Act, 2013 and Rules made thereunder, the Company can enter into transaction(s) or contract(s) etc., which are not in ordinary course of business and /or are not at arm's length basis, only with the approval of members accorded by way of special resolution.

Though your Company always seeks to enter into transactions in the ordinary course of business and at arm's length basis, it enters into a limited number of contracts/arrangements/transactions with its parent bank, Punjab National Bank for giving residential premises on lease to the parent bank or its officers and for taking business premises on lease from the parent bank. Since the company and the parent bank enter into these transactions due to their relationship and as a matter of policy, they do not enter into similar transactions with unrelated parties, demonstrable evidence of arm's length price of these transactions may not be available. Similarly, the company proposes to sell some of residential flats owned by it, through open auction bid, in which the parent bank or any other related party is also eligible to bid. Hence as a measure of abundant caution, your approval is sought under the provisions of the Companies Act, 2013.
