The words and expressions used but not defined in this Draft Letter of Offer will have the same meaning as assigned to such terms under the Companies Act, the SEBI (ICDR) Regulations, the SCRA, the Depositories Act and the rules and regulations made thereunder.

NOTICE TO INVESTORS

The distribution of this Draft Letter of Offer, the Abridged Letter of Offer, the Application Form, the Rights Entitlements Letter and any other Issue material and the issue of Rights Entitlements and the Rights Equity Shares on a rights basis to persons in certain jurisdictions outside India is restricted by legal requirements prevailing in those jurisdictions. Persons into whose possession this Draft Letter of Offer, the Abridged Letter of Offer, the Application Form or the Rights Entitlements Letter may come, are required to inform themselves about and observe such restrictions.

The Company is making this Issue on a rights basis to the Eligible Equity Shareholders and will dispatch the Abridged Letter of Offer, Application Form, Rights Entitlements Letter and other Issue material (i) only to e-mail addresses of the resident Eligible Equity Shareholders who have provided their e-mail addresses; (ii) only to the Indian address of resident Eligible Equity Shareholders, on a reasonable effort basis, whose e-mail addresses are not available with the Company or the Eligible Equity Shareholders have not provided the valid email address to the Company or to their email addresses; (iii) only to the Indian addresses of the non-resident Eligible Equity Shareholders, on a reasonable effort basis, who have provided an Indian address to the Company; and (iv) to the e-mail addresses of the foreign corporate or institutional shareholders.

Further, the Letter of Offer will be provided, by the Company to any existing Shareholder who have provided their Indian address and who make a request in this regard.

Investors can also access this Draft Letter of Offer, the Abridged Letter of Offer and the Application Form from the websites of the Registrar, the Company, the Lead Manager and the Stock Exchange.

No action has been or will be taken to permit the Issue in any jurisdiction where action would be required for that purpose, except that this Draft Letter of Offer has been filed with the BSE for observation. Accordingly, this Draft Letter of Offer, Abridged Letter of Offer, the Rights Entitlements Letter or the Application Form or any Issue materials or advertisements in connection with the Issue may not be distributed, in whole or in part, in or into any jurisdiction, except in accordance with the legal requirements applicable in such jurisdiction and the Rights Entitlements and the Rights Equity Shares may not be offered or sold, directly or indirectly, in any jurisdiction, except in accordance with legal requirements applicable in such jurisdiction. Receipt of this Draft Letter of Offer, Abridged Letter of Offer, the Rights Entitlements Letter or the Application Form (including by way of electronic means) will not constitute an offer, invitation to or solicitation by anyone in any jurisdictions or in any circumstances in which such an offer, invitation or solicitation is unlawful or not authorised or to any person to whom it is unlawful to make such an offer, invitation or solicitation. In those circumstances, this Draft Letter of Offer, Abridged Letter of Offer, the Rights Entitlements Letter or the Application Form must be treated as sent for information only and should not be acted upon for subscription to Rights Equity Shares and should not be copied or re-distributed or passed on, directly or indirectly, to any other person or published, in whole or in part, for any purpose. Accordingly, persons receiving a copy of this Draft Letter of Offer, Abridged Letter of Offer, the Rights Entitlements Letter or the Application Form should not, in connection with the issue of the Rights Equity Shares or the Rights Entitlements, distribute or send this Draft Letter of Offer, Abridged Letter of Offer, the Rights Entitlements Letter or the Application Form in or into any jurisdiction where to do so, would or might contravene local securities laws or regulations or would subject the Company or its affiliates or the Lead Managers or their respective affiliates to any filing or registration requirement (other than in India). If this Draft Letter of Offer, Abridged Letter of Offer, the Rights Entitlements Letter or the Application Form is received by any person in any such jurisdiction, or by their agent or nominee, they must not seek to subscribe to the Rights Equity Shares or the Rights Entitlements referred to in this Draft Letter of Offer, Abridged Letter of Offer, the Rights Entitlements Letter or the Application Form.

Any person who makes an application to acquire Rights Entitlement and the Rights Equity Shares offered in the Issue will be deemed to have declared, represented, warranted and agreed that such person is authorised to acquire the Rights Entitlements and the Rights Equity shares in compliance with all applicable laws and regulations prevailing in such person's jurisdiction and India, without requirement for the Company or our affiliates or the Lead Manager or its affiliates to make any filing or registration (other than in India).

The Company, the Registrar, the Lead Manager or any other person acting on behalf of the Company reserves the right to treat any Application Form as invalid where they believe that (i) Application Form does not include the certification set out in the Application Form to the effect that the subscriber does not have a registered address (and is not otherwise located) in the United States and is authorized to acquire the rights and the Equity Shares in compliance with all applicable laws and regulations; (ii) the Application Form appears to have been executed in or dispatched from the United States; (iii) a registered Indian address is not provided; or (iv) the Application Form is incomplete or acceptance of such Application Form may infringe applicable legal or regulatory requirements and we shall not be bound to allot or issue any Rights Equity Shares or Rights Entitlement in respect of any such Application Form. Neither the delivery of this Draft

The Sandur Manganese & Iron Ores Limited

Letter of Offer nor any sale hereunder, shall, under any circumstances, create any implication that there has been no change in the Company's affairs from the date hereof or the date of such information or that the information contained herein is correct as at any time subsequent to the date of this Draft Letter of Offer or the date of such information.

The contents of this Draft Letter of Offer and Abridged Letter of Offer should not be construed as business, financial, legal, tax or investment advice. Prospective investors may be subject to adverse foreign, state or local tax or legal consequences as a result of the offer of Rights Equity Shares or Rights Entitlements. As a result, each investor should consult their own counsel, business advisor and tax advisor as to the legal, business, tax and related matters concerning the offer of the Rights Equity Shares or Rights Entitlements. In addition, neither the Company nor the Lead Manager is making any representation to any offeree or purchaser of the Rights Equity Shares regarding the legality of an investment in the Rights Equity Shares by such offeree or purchaser under any applicable laws or regulations.

Any investment in equity securities involves a high degree of risk. Investor should carefully consider all the information in this draft Letter of Offer, including the risks and uncertainties described below, before making an investment in our Equity Shares. To obtain a more complete understanding, you should read this section together with Sections titled, “Our Business”, “Particulars of the Issue”, “Industry Overview”, “Financial Information”, “Outstanding Litigation and Other Material Developments”, and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on page no. 50, 37, 44, 66, 139, and 136 respectively, as well as the other financial and statistical information contained in this draft Letter of Offer.

Any of the following risks, as well as the other risks and uncertainties discussed in this draft Letter of Offer, could have an adverse effect on our business, financial condition, results of operations and prospects and could cause the trading price of our Equity Shares to decline, which could result in the loss of all or a part of your investment. The risks and uncertainties described in this section are not the only risks that we may face. Additional risks and uncertainties not known to us or that we currently believe to be immaterial may also have an adverse effect on our business, results of operations, financial condition and prospects.

This draft Letter of Offer contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements because of certain factors, including the considerations described below and elsewhere in this draft Letter of Offer.

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are certain risk factors where the effect is not quantifiable and hence has not been disclosed in such risk factors. You should not invest in this Issuing unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your tax, financial and legal advisors about the consequences to you of an investment in the Equity Shares.

The financial information in this section is, unless otherwise stated, derived from our Audited Financial Statements and Results prepared in accordance with IND AS, as per the requirements of the Companies Act, 2013, and SEBI (ICDR) Regulations.

The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.

- 1. Some risks may not be material individually but may be material when considered collectively.*
- 2. Some risks may have material impact qualitatively instead of quantitatively.*
- 3. Some risks may not be material at present but may have a material impact in the future.*

INTERNAL RISK FACTORS

- 1. Information relating to our mineral reserve and resource base included in this Draft Letter of Offer are estimates, and our actual production, revenue and expenditure with respect to our reserves and resources may differ materially from these estimates.***

Our future performance depends on, among other things, the accuracy of our estimation of reserve and resource base. Reserve and Resource of Iron Ore and Manganese Ore are estimated by inhouse team of Geologists by using Data Mine and Autocad software by cross sectional method. For interpretation of Ore body Surface Geological data and Sub-surface Geological data collected by drilling bore holes in the mining lease area as per United Nations Framework Classifications (UNFC) guidelines. UNFC is three-digit code base system where first digit stands for Economic axis, second digit stands for Feasibility axis and third digit stands for Geological axis. Reserves and Resources estimated by us is validated through Mining Plan approved by Indian Bureau of Mines –Ministry of Mines, Government of India. Any estimates of reserves and resources that we may prepare following this Issue may not provide you with a basis for comparison of our estimated reserve and resource base with that of other listed mining companies. Reserve estimation is a subjective process of estimating deposits of minerals that cannot be measured in an exact manner, and the accuracy of any reserve estimate is a function of the quality of available data and engineering and geological interpretation and judgment. Estimates of different engineers may vary, and results of our mining and production subsequent to the date of an estimate may lead to revision of estimates. If our reserve estimates differ materially from mineral quantities that we may actually recover, estimates of mine life may prove inaccurate and market price fluctuations and changes in operating and capital costs may render certain ore reserves or mineral deposits uneconomical to mine. If this occurs, we may need to revise our manganese and iron ore reserves downwards, which may adversely affect the life of mine, and consequently affect the aggregate value of our mining asset base. There are various factors and assumptions inherent in the estimation of our reserve and resource base and the cost associated with mining such reserves that may materially differ from actual

The Sandur Manganese & Iron Ores Limited

production, revenues and expenditure with respect to our reserves. These factors and assumptions include: interpretation of geological and geophysical data; geological and mining conditions, which may not be fully identified by available exploration data and/or may differ from our experiences in areas where we currently mine; quality of the manganese ore and the percentage of manganese ore ultimately recoverable; the assumed effects of regulation, including the issuance of required permits, and taxes, including royalties, and other payments to governmental agencies; assumptions concerning the timing for the development of the reserves; and assumptions concerning equipment and productivity, future manganese ore prices, operating costs, including for critical supplies such as fuel and explosives, capital expenditures and development costs. Many of the factors, assumptions and variables involved in estimation of our reserve and resource base are based on data that are currently available and subject to variations over time. No information relating to our reserve and resource base included in this Draft Letter of Offer should be interpreted as assurance of the economic life of our manganese ore reserves and resources or the profitability of our future operations. Any material inaccuracy in, or future variations from, our estimates related to our reserves and resources could result in decreased profitability from lower than expected revenues and/or higher than expected costs, which could adversely affect our business prospects, financial condition and the price of our Equity Shares. You should therefore not place undue reliance on the manganese ore and iron ore reserves and resources data contained in this Draft Letter of Offer.

2. *The unexpected loss, shutdown or slowdown of operations at any of our manufacturing plants could have a material adverse effect on our results of operations and financial condition.*

Our manufacturing plants are subject to operating risks, such as the breakdown or failure of equipment, power supply interruptions, facility obsolescence or disrepair, labour disputes, natural disasters and industrial accidents. While we undertake precautions to minimize the risk of any significant operational problems at our plants, there can be no assurance that our business, financial position and operations will not be adversely affected by disruption caused by operational problems at our manufacturing plants. Any unscheduled, unplanned or prolonged disruption of our manufacturing operations, including, power failure, fire and unexpected mechanical failure of equipment, performance below expected levels of output or efficiency, obsolescence, labour disputes, strikes, lock-outs, earthquakes and other natural disasters, industrial accidents, any significant social, political or economic disturbances or infectious disease outbreaks such as the COVID - 19 pandemic, could reduce our ability to meet the conditions of our contracts and adversely affect sales and revenues from operations in such period. The occurrence of any of these risks could affect our operations by causing production at our manufacturing plant located at Vyasankere, Mariyammanahalli, Hosapete Taluk, 583222 Vijayanagar District, Karnataka to shut down or slowdown. We have faced such instances in past, during the year 1990, where operations of Ferroalloys became unviable due to inadequate and expensive power including company being referred to BIFR. There were delay in implementing coke oven plant in the year 2020 due to COVID 19 pandemic. No assurance can be given that one or more of the factors mentioned above will not occur, which could have a material adverse effect on our results of operations and financial condition.

3. *Our mining activities and manufacturing plants are primarily concentrated in Karnataka and any adverse developments affecting this region could have an adverse effect on our business, results of operation and financial condition.*

We have and operate mining activities, ferroalloy manufacturing, coke and energy productions which are concentrated in and around Ballari and Vijayanagar Districts of Karnataka. Any materially adverse social, political or economic development, natural calamities, civil disruptions, or changes in the policies of the central or state government or local governments in the Karnataka state in India could adversely affect, amongst others, manufacturing operations and transport operations, and require a modification of our business strategy, or require us to incur significant capital expenditure or suspend our operations. Any such adverse development affecting continuing operations at our manufacturing plans could result in significant loss due to an inability to meet customer contracts and production schedules, which could materially affect our business reputation within the industry. The occurrence of, or our inability to effectively respond to, any such events or effectively manage the competition in the region, could have an adverse effect on our business, results of operation, financial condition, cash flows and future business prospects.

4. *If we are unable to successfully exploit our existing reserves and acquire and develop additional reserves or the ore mined is of a lower quality than expected, our business prospects and growth plans may be adversely affected.*

Our continuing growth and success depend on our ability to conduct successful exploration and development activities at our existing mines and to acquire and develop additional reserves. Our manganese ores and iron ores reserves may not be capable of being mined at costs comparable to our current costs. Additionally, if we encounter geophysical or geological conditions different from that predicted by past exploration activities, sampling and similar examination, our reserve estimates may have to be adjusted downward. In the event that the manganese

The Sandur Manganese & Iron Ores Limited

ore and iron ores mined is of a lower quality than expected, the demand for, and realizable price of, our manganese ore and iron ores may decrease, thereby affecting our profitability and financial condition. Similarly, if we fail to acquire or develop additional economically viable reserves on a continuing basis in pace with our production levels, our existing reserves will decline and may eventually be depleted, which would adversely affect our business, results of operation and financial condition. Our strategy for increasing our manganese ores and iron ores resources and reserves includes leveraging our exploration capabilities to enhance our reserve and resource base in India. However, there can be no assurance that our planned development and exploration projects and acquisition initiatives will result in additional reserves or that such reserves will result in profitable mining activities being able to be carried out at current production levels or at all. In particular, we may not be able to successfully identify new exploration areas with appropriate geophysical or geological conditions, or we may not receive prospecting licenses for any such areas identified, thereby reducing our ability to locate further ore bodies.

5. *Our expansion of mining operations is subject to specific approvals*

Our Manganese ore capacities are expected to expand to 0.46 MTPA from the current 0.286 MTPA, and our iron ore capacities are expected to expand to 4.5 MTPA from the current 1.60 MTPA, in compliance with the parameters prescribed by the Hon'ble Supreme Court of India. However, this expansion is subject to specific approval from the Central Empowered Committee constituted by the Hon'ble Supreme Court which is pending as on date. Any rejection of our expansion application will have an adverse impact on our mining operations and the consequential impact on our financials and profitability.

6. *Our insurance coverage may not adequately protect us from all material risks and liabilities.*

We maintain insurance which we believe is typical in our industry in India and for amounts which we believe to be commercially appropriate for risks. However, such insurance may not be adequate to cover all our losses or liabilities that may arise from our business. Our insurance policies contain exclusions and or all limitations on coverage, as a result of which, we may not be able to successfully assert our claims for any liability or loss under the said insurance policies. Additionally, there may be various other risks and losses, specially arising out of our business agreements, for which we are not insured because such risks are either uninsurable or not insurable on commercially acceptable terms. Furthermore, there can be no assurance that in the future we will be able to maintain insurance of the types or at levels which we deem necessary or adequate or at premiums which we deem to be commercially acceptable. The occurrence of an event for which we are not insured, where the loss is in excess of insured limits or where we are unable to successfully assert insurance claims for losses, could result in unforeseen liabilities and losses. Further, despite such unforeseen losses we may remain obligated for any future financial indebtedness or other obligations related to our business. Any such unforeseen losses or liabilities could result in an adverse effect on our business operations, financial conditions and results of operations.

7. *The Company is party to certain legal proceedings. Any adverse decision in such proceedings may have an adverse effect on our business, result of operations and financial conditions.*

The Company is party to certain legal proceedings which are pending at different levels of adjudication before competent authority, appeals, tribunal and forums. We cannot assure you that these proceedings will be decided in favour of the Company. Further, there is no assurance that similar proceedings will not be initiated against the Company, our Directors or Promoters in the future. Any adverse outcome in any of the proceedings could have an adverse effect on our reputation and may affect our future business, prospects, financial condition and results of operations. It further may divert the attention of our management and promoters and waste our corporate resources. For details of these proceedings, see "Outstanding Litigation, Defaults and Material Developments" beginning from page 139 of this Draft Letter of Offer.

8. *The Company has certain contingent liabilities and profitability may be adversely affected if any of these contingent liabilities materialize*

The Company has certain contingent liabilities that had not been provided for the financial year March 31, 2022, which can have a material adverse effect on our financial position and results of operations if any of these contingent liabilities materialize. For further details, please refer "Outstanding Litigation, Defaults and Material Developments" beginning on page 139 of this Draft Letter of Offer.

- 9. *Operating mines requires obtaining and maintaining leasehold rights, approvals and clearances based on a mining plan submitted to IBM, which are not granted in perpetuity. Further, our mining leases are typically granted till 31st December, 2033***

Our business and operations are dependent on our ability to obtain, maintain and renew relevant mining leases. If we are not able to obtain, maintain and renew such mining leases, approvals and clearances on acceptable terms, or at all, our production and result of operations could be adversely affected. Our exploration and mining activities depend on the grant, renewal or continuance in force of mining leases of which some are valid only for a definite period of time and may provide for early termination. Operating mines requires obtaining and maintaining leasehold rights and approval for a certain period which contains annual extraction limits, as well as stopping permissions, forest clearances and environmental approvals relating to the specific plans described in the mining plan. These rights are not granted in perpetuity. Our mining leases are typically granted for a period of 20 years till 31st December, 2033. We have 2 mining leases currently. There can be no assurance in future that we will be able to obtain mining leases on acceptable terms or in a timely manner, or, if obtained, that such rights may not involve conditions that restrict our ability to conduct our operations or to do so profitably. Moreover, in India, entering into new mining leases or extending existing mining leases is time-consuming and requires the review and approval of several Indian governmental authorities. Furthermore, private individuals and the general public possess rights to comment on and otherwise engage in the licensing process, including through intervention in courts. The relevant laws and regulations are often unclear and may not be consistently applied. Our mining leases contain various obligations and restrictions and for seeking prior Government approval for assignment or any other form of transfer of the lease. If we breach these obligations, we may suffer adverse consequences, such as suspension or termination of mining lease, forfeiture of security deposit and notices from the State Government requiring us to pay the rent, royalty or remedy the breach within a specified period. We cannot assure you we will be able to renew all our leases, which will have a material adverse effect on our business, results of operations and financial condition.

- 10. *Risk relating to Objects of the issue***

The proceeds from this Offer will not be available to us. The object for which the Rights issue is made involves investing in the Equity of the proposed SPV Renew Sandur Green Energy Private Limited. If the intended purpose for which the funds are used by the Proposed SPV is not met resulting in losses then we may not be able to recover the funds and this may in turn have a material effect on our financials and profitability.

- 11. *We are dependent on our key personnel, including our senior management, and the loss of or our inability to attract or retain such persons could adversely affect our business, results of operation and financial condition.***

Our performance depends largely on the efforts and abilities of our senior management and other key personnel. We believe that the inputs and experience of our senior management and key managerial personnel are valuable for the development of business and operations and the strategic directions taken by the Company. We cannot assure you that we will be able to retain these employees or find adequate replacements in a timely manner, or at all. We may require a long period of time to hire and train replacement personnel when qualified personnel terminate their employment with the Company. We may also be required to increase our levels of employee compensation more rapidly than in the past to remain competitive in attracting employees that our business requires. The loss of the services of such persons may have an adverse effect on our business and our results of operations. The continued operations and growth of our business is dependent upon our ability to attract and retain personnel who have the necessary and required experience and expertise. Competition for qualified personnel with relevant industry expertise in India is intense. A loss of the services of our key personnel may adversely affect our business, results of operation and financial condition.

- 12. *We derive significant (~75%) of our revenues from our top ten customers. The loss of revenues from such customers, in particular would have an adverse impact on our results of operations and financial condition.***

Our top ten customers represented (~ 75%) of our sales of manganese ores, iron ores and other products for Fiscal 2022. There can be no assurance that any of the agreements with these customers will be entered into and renewed upon expiration thereof, or that any such new agreements will be entered into on terms and conditions satisfactory to us. If we fail to enter into new agreements on acceptable terms with any of our top ten customers, and in particular with our key customers, our business, financial condition, results of operations and prospects could be materially and adversely affected.

- 13. Our operations are subject to extensive governmental and environmental regulations. Any failure to comply with such requirements, including obtaining required permits, approvals and leases, in a timely manner may adversely affect our operations.**

Our obligations under the mining leases, numerous governmental permits, approvals, licenses and leases are required in connection with our operations as the mining sector is subject to numerous laws and extensive regulation by national, state and local authorities in India. Failure to comply with any laws or regulations or to obtain or renew the necessary permits, approvals and leases may result in various enforcement measures such as the loss of the right to mine or operate facilities, administrative, civil or criminal penalties, the imposition of clean-up or site restoration costs and liens, the imposition of costly compliance procedures, the issuance of injunctions to limit or cease operations, the suspension or revocation of permits, including mining leases and exploration licenses, and other enforcement measures that could have the effect of closing or limiting production from our operations. Bringing mines into operation and operating such mines requires obtaining approval of a mining plan, which stipulate extraction limits, as well as applicable forest and environmental approvals in respect of the mine. In connection with our mining operations, we are required to obtain various regulatory approvals including, but not limited to, consents to operate under environmental statutes such as the Air Act, Water Act, authorizations under the hazardous waste rules and licenses for the possession and use of explosives, permissions under Regulation 107(3) of the Metalliferous Mines Regulations, 1961 and amended from time to time for carrying out stopping operations and exemptions under regulation 106(2) of the Metalliferous Mines Regulations, 1961 and amended from time to time for extraction of manganese ore through mechanized open cast methods. We engage contractors and other third parties in the course of our operations in these mining areas. These third parties are also required under the applicable legislation to obtain licenses, approvals and permits in relation to the services they may provide to us. If they do not obtain such approvals, or such approvals expire and are not renewed by these third parties, operations at our mines may be affected. Our operations are also subject to continued review and applicable statutory and regulatory requirements may be amended or modified. There can be no assurance that the approvals, licenses, registrations and permits issued in our favour will not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. The costs, liabilities and requirements associated with complying with existing and future laws and regulations may be substantial and time-consuming and may delay the commencement or continuation of exploration, mining or production activities. Environmental regulations may also subject us to substantial costs and liabilities or require suspension of activity or closure of our mines or other facilities. New legislation or regulations, or different or more stringent interpretation or enforcement of existing laws and regulations, may also require us or our customers to change operations significantly or incur increased costs, which could have a material adverse effect on our results of operations or financial condition.

- 14. Compliance with environmental laws and regulations requires ongoing expenditures and considerable capital commitments. We may incur material costs to comply with, or suffer material liabilities or other adverse consequences as a result of failure to comply with, environmental laws and regulations.**

Our operations are subject to extensive environmental and hazardous waste management laws and regulations in India, including with respect to limitations on land use, including forest land; mine permit and licensing requirements; risks of exploration activities; reclamation and restoration of mines after mining is completed; management of materials used in mining operations; the storage of manganese ore produced and associated risks; the storage, treatment and disposal of wastes; remediation of contaminated soil and groundwater; air quality standards; water pollution; protection of human health, plant-life and wildlife and discharge of hazardous materials into the environment. Our mining operations involve significant environmental hazards including land degradation resulting in land subsidence and destruction of surface infrastructure, deforestation, damage to the local ecosystem, as well as water pollution and dilapidation of the water table in and around mining areas. We are required to undertake various measures to minimize the impact of our operations on the environment and to protect natural resources. Existing compliance requirements which involve material costs include the need to reduce dust and the management of wastes and wastewater. We are required to actively monitor specific parameters such as air emissions, wastewater discharge, ambient air quality, quality of nearby surface water, soil and groundwater quality and the generation of solid waste. We are required to submit an annual statistical report on these monitoring results to the Indian environmental authorities. These authorities conduct independent tests from time to time to validate our results. If our emissions exceed certain levels established by the site permits we could be subject to monetary penalties. Moreover, in the course, or as a result, of an environmental investigation, regulatory authorities in India can issue an order reducing or halting production at a facility that has violated environmental standards. If production is reduced or halted at one or more of our facilities, our business, financial condition, result of operations and prospects could be materially and adversely affected. We may not be able to satisfy any of our remediation, rehabilitation and other obligations under environmental laws and regulations in a timely manner or at all, which could result in financial or other penalties. To the extent that such penalties are significant, this may

The Sandur Manganese & Iron Ores Limited

result in our cash flows being insufficient to meet our obligations. In addition, such failure to satisfy our legal obligations could lead to the suspension or loss of our license or mining lease contracts. The occurrence of any of these risks could have a material adverse effect on our business, financial condition, results of operations and prospects.

- 15. We are dependent on the availability and reliability of adequate transportation infrastructure and related facilities to and from the Company in connection with the dispatch of our manganese ores, iron ores and other products and any failure of, or disruption in, these services could have a material adverse effect on our business, results of operations, financial condition and prospects.***

We depend on the availability of adequate transportation infrastructure and related facilities for the transportation of manganese ore, iron ores to our customers and to our processing facilities. We depend primarily on road transportation to deliver manganese ore and iron ores to our customers. Our sales volumes may be constrained by inadequate transportation capacities, including non-availability of adequate railway infrastructure. Disruptions in road traffic could impact our ability to transport our goods, impacting our results of operation and financial condition. We are also dependent on third party road transportation providers, including truckers, for the supply of manganese ore and iron ores from the mine to our processing facilities and the railway sidings and also for the supply of our manganese ores and iron ores to customers. Non-availability of adequate road transportation, including in the form of transportation strikes and COVID 19 disruptions, have had in the past, and could have in the future, an adverse effect on our supply of materials and dispatch arrangements for our manganese ores, iron ores and other products. Road and rail transportation may also be adversely affected as a result of adverse weather conditions, mechanical failures, infrastructure damage, accidents, strikes, insurgency threats in the regions we operate in, adequate highway infrastructure, taxes in various state and local municipalities and customers' ability to arrange adequate and cost-effective transportation, or other factors beyond our control. In addition, in some cases, state-owned physical infrastructure suffers from a lack of funding and maintenance. Any deterioration of the transport infrastructure in India could disrupt the transportation of goods and supplies, and interrupt business operations. The failure to maintain adequate transportation services or a disruption in transportation services could cause transportation delays for our manganese ore and other products and affect our ability to ensure supply to our customers, which could impact our results of operations and sales volumes.

- 16. Some of our mining and processing operations, including transportation of manganese ore and iron ores to dispatch points, are conducted through third party contractors. As a result, we are exposed to fluctuations in contractor costs and risks relating to the quality of their services which may affect our results of operations.***

We conduct a part of our mining and overburden removal operations through third-party contractors. We also engage third party contractors for transportation of all of our manganese ore and iron ores from our mines to loading points, transportation of materials, loading of manganese ore on wagons and a range of activities ancillary to our mining and processing operations. We are required to pay the contractors for their services according to specified rates fixed by us. We cannot assure you that skilled third parties or contractors will continue to be available at reasonable rates or at all and in the areas in which we conduct our projects. We have experienced increases in the cost of third party contractors in recent years, resulting from, among other factors, increases in the cost of engaging contract labourers, machinery and equipment and fuel costs incurred by these contractors. We are also exposed to risks relating to the quality of the services of, and the equipment and supplies used by contractors. The timing and quality of our projects depends on the availability and skill of these parties, as well as contingencies affecting them, including labour and raw material shortages and industrial actions such as strikes and lockouts. Any failure by our contractors to comply with their obligations under their operating agreements (whether as a result of financial or operational difficulties or otherwise), any termination or breach of our operating agreements by our contractors, any protracted dispute with a contractor, any material labour dispute between our contractors and their employees or any major labour action by those employees against our contractors could adversely affect our operations. Furthermore, we may not be able to recover from a contractor any losses that may be suffered by us due to any performance shortfalls of our contractors.

- 17. A violation of applicable health and safety requirements and the occurrence of accidents could disrupt our operations and increase operating costs, which may have an adverse effect on the financial performance.***

Central and State safety and health regulations applicable to the mining industry in India provide a comprehensive regulatory framework for protection of employee safety, and compliance with these requirements imposes significant costs. Moreover, new health and safety legislation and regulations may be introduced that may adversely affect our operations. Any failure to comply with applicable health and safety laws and regulations could result in temporary shutdowns of all, or a portion of our mines and processing and handling facilities, which may disrupt our operations and result in imposition of costly remedial measures. In addition, we do not make provisions

The Sandur Manganese & Iron Ores Limited

for our workers' compensation liabilities relating to accidents and other hazards, which could adversely affect our future operating results. We do not maintain insurance coverage against various potential risks associated with our operations, including any accidents or other hazards, and there can be no assurance that we will not be required to make significant payouts in this connection in the future.

- 18. *The Logo used by the Company is currently not registered under Trade Marks Act, 1999. Failure to protect our intellectual property rights may adversely affect our brand, competitive business position, financial condition and profitability.***

Presently, the Company is using logo and we are in the process of making application for registration of the same under the Trade Marks Act, 1999. Therefore, as on date we do not enjoy the statutory provisions that are accorded to a registered trademark. Further, we may not be able to detect any unauthorized use or infringement or take appropriate and timely steps to enforce or protect our intellectual property, nor can we provide any assurance that any unauthorized use or infringement will not cause damage to our business prospects. Thus, we cannot guarantee that the application to be made for registration of our trademark will be allowed. In case we are unable to obtain the registration for the said trademark in our name, our business revenues and profitability may be impacted.

- 19. *Fluctuation in foreign currency exchange rates could affect our financial condition and results of operations.***

We face foreign exchange risks as we import certain raw materials from outside India which could adversely affect our results of operations. Our business involves import transactions with foreign companies, as such we are exposed to fluctuations in foreign exchange rates between foreign and Indian currencies. We are exposed to the risk of incurring potential losses if currencies fluctuate significantly. Any such losses on account of foreign exchange fluctuations may adversely affect our results of operations. We cannot guarantee that we will not experience foreign exchange losses going forward and that such losses will not adversely affect our business, financial condition or results of operations.

- 20. *Any future issuance of Equity Shares may dilute your shareholdings, and sale of the Equity Shares by our major shareholders may adversely affect the trading price of our Equity Shares.***

Any future equity issuances by the Company may lead to the dilution of investors' shareholdings in the Company. In addition, any sale of substantial Equity Shares in the public market after the completion of this Issue, including by our major shareholders, or the perception that such sales could occur, could adversely affect the market price of the Equity Shares and could significantly impair our future ability to raise capital through offerings of the Equity Shares. We cannot predict what effect, if any, market sales of the Equity Shares held by the major shareholders of the Company or the availability of these Equity Shares for future sale will have on the market price of our Equity Shares.

- 21. *Industry information included in this draft Letter of Offer has been derived from industry reports. There can be no assurance that such third-party statistical, financial and other industry information is either complete or accurate.***

We have relied on the reports of certain independent third party for purposes of inclusion of such information in this draft Letter of Offer. These reports are subject to various limitations and based upon certain assumptions that are subjective in nature. We have not independently verified data from such industry reports and other sources. Although we believe that the data may be considered to be reliable, their accuracy, completeness and underlying assumptions are not guaranteed and their dependability cannot be assured. While we have taken reasonable care in the reproduction of the information, the information has not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore, we make no representation or warranty, express or implied, as to the accuracy or completeness of such facts and statistics. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere. Statements from third parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this draft Letter of Offer.

- 22. *The price of the Equity Shares may be highly volatile after the Issue.***

The price of the Equity Shares on the Indian stock exchanges may fluctuate after this Issue as a result of several factors, including, volatility in the Indian and global securities market; our operations and performance; performance of our competitors and the perception in the market about investments in the our industry; adverse media reports on us or the industry; changes in the estimates of our performance or recommendations by financial analysts; significant developments in India's economic liberalization and deregulation policies; and significant

developments in India's fiscal and environmental regulations. There can be no assurance that the prices at which the Equity Shares are initially traded will correspond to the prices at which the Equity Shares will trade in the market subsequently.

RISKS RELATING TO RIGHTS ISSUE

1. *Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of Investor's shareholding.*

The Rights Entitlements that are not exercised prior to the end of the Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in the Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of the Company that may be caused as a result of the Rights Issue. Renouncees may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renouncees prior to the Issue Closing Date. Further, in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renouncee will not be able to apply in this Rights Issue with respect to such Rights Entitlements. For details, see “**Terms of the Issue**” on page 150.

2. *There is no guarantee that the Rights Equity Shares issued pursuant to this Rights Issue will be listed on the Stock Exchange in a timely manner.*

In accordance with Indian law and regulations and the requirements of the Stock Exchange, in principle and final approvals for listing and trading of the Rights Equity Shares issued pursuant to this Rights Issue will not be applied for or granted until after the Rights Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorising the issuing of Rights Equity Shares to be submitted. Accordingly, there could be a failure or delay in listing the Rights Equity Shares on the Stock Exchange. If there is a delay in obtaining such approvals, we may not be able to credit the Rights Equity Shares allotted to the Investors to their depository participant accounts or assure ownership of such Rights Equity Shares by the Investors in any manner promptly after the Closing Date. In any such an event, the ownership of the Investors over Rights Equity Shares allotted to them and their ability to dispose of any such Equity Shares may be restricted. For further information on issue procedure, see “**Issue Information**” beginning on page 150.

3. *Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.*

The Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in the Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Right Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of the Company that may be caused as a result of the Issue. Renouncees may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renouncees prior to the Issue Closing Date. Further, in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation (the last day for which is [●]), such Renouncee will not be able to apply in this Issue with respect to such Rights Entitlements. For details, see — “**Terms of the Issue**” on page 150.

4. *The Eligible Equity Shareholders holding Equity Shares in physical form will have no voting rights in respect of Equity Shares until they provide details of their demat account and Equity Shares are transferred to such demat account from the demat suspense account thereafter.*

The Equity Shares will be credited to a demat suspense account to be opened by the Company, in case of Allotment in respect of resident Eligible Equity Shareholders holding Equity Shares in physical form and who have not provided the details of their demat account to the Registrar or the Company at least two Working Days prior to the Issue Closing Date. Such Eligible Equity Shareholders are required to send, amongst others, details of their demat accounts to the Company or the Registrar to enable the Company to transfer, after verification of the details of such demat account by the Registrar, the Equity Shares from the demat suspense account to the demat accounts of such Eligible Equity Shareholders. Unless and until such Eligible Equity Shareholders provide details of their demat account and the Equity Shares are transferred from demat suspense account to such demat accounts thereafter, they will have no voting rights in respect of Equity Shares. For details, see — **Terms of the Issue on page 150.**

5. *The Rights Entitlement of Eligible Equity Shareholders holding Equity Shares in physical form (“Physical Shareholder”) may lapse in case they fail to furnish the details of their demat account to the Registrar.*

The concept of crediting Rights Entitlements into the demat accounts of the Eligible Equity Shareholders has recently been introduced by the SEBI. Accordingly, the process for such Rights Entitlements has been recently devised by capital market intermediaries. Eligible Equity Shareholders are encouraged to exercise caution, carefully follow the requirements as stated in the SEBI circulars dated January 22, 2020 and May 6, 2020, read with SEBI circular SEBI/HO/CFD/DIL1/CIR/P/2020/136 dated July 24, 2020, SEBI circular SEBI/HO/CFD/DIL1/CIR/P/2021/13 dated January 19, 2021 and SEBI circular bearing reference number SEBI/HO/CFD/DIL2/CIR/P/2021/552 dated April 22, 2021, and ensure completion of all necessary steps in relation to providing/updating their demat account details in a timely manner. For details, see —Terms of the Issue on page 150. In accordance with Regulation 77A of the SEBI ICDR Regulations read with the SEBI Rights Issue Circulars, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialized form only.

6. *Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.*

In terms of the SEBI ICDR Regulations, Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Equity Shares to the Applicant's demat account with its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operation or financial condition, or other events affecting the Applicant's decision to invest in the Equity Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. Occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares. The Applicants shall not have the right to withdraw their applications in the event of any such occurrence. We cannot assure you that the market price of the Equity Shares will not decline below the Issue Price. To the extent the market price for the Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Equity Shares at a price that will be higher than the actual market price of the Equity Shares at that time. Should that occur, the shareholder will suffer an immediate unrealized loss as a result. We may complete the Allotment even if such events may limit the Applicants' ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

7. *Holders of Equity Shares could be restricted in their ability to exercise pre-emptive rights under Indian law and could thereby suffer future dilution of their ownership position.*

Under the Companies Act, any company incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages prior to the issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the shares voted on such resolution, unless the Company has obtained government approval to issue without such rights. However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without us filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights unless we make such a filing. We may elect not to file a registration statement in relation to pre-emptive rights otherwise available by Indian law to you. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interests in us would be reduced.

8. *Rights of shareholders under Indian law may be more limited than under the laws of other jurisdictions.*

Our Articles of Association and Indian law govern our corporate affairs. Legal principles relating to these matters and the validity of corporate procedures, Director's fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a corporate entity in another jurisdiction. Shareholders' rights under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as one of our shareholders than as a shareholder of a bank or corporate entity in another jurisdiction. In accordance with the provisions of the Companies Act, the voting rights of an equity shareholder in a company shall be in proportion to the share of a person in the paid-up equity share capital of that company

9. *No market for the Rights Entitlements may develop and the price of the Rights Entitlements may be volatile.*

No assurance can be given that an active trading market for the Rights Entitlements will develop on the Stock Exchanges during the Renunciation Period or that there will be sufficient liquidity in Rights Entitlements trading during this period. The trading price of the Rights Entitlements will not only depend on supply and demand for the Rights Entitlements, which may be affected by factors unrelated to the trading in the Equity Shares, but also

The Sandur Manganese & Iron Ores Limited

on the quoted price of the Equity Shares, amongst others. Factors affecting the volatility of the price of the Equity Shares, as described herein, may magnify the volatility of the trading price of the Rights Entitlements, and a decline in the price of the Equity Shares will have an adverse impact on the trading price of the Rights Entitlements. Since the trading of the Equity Shares will be on a separate segment compared to the Equity Shares on the floor of the Stock Exchanges, the trading of Equity Shares may not track the trading of Equity Shares. The trading price of the Rights Entitlements may be subject to greater price fluctuations than that of the Equity Shares.

EXTERNAL RISK FACTORS

1. *Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.*

Our business and industry are regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

2. *You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under current Indian tax laws, capital gains arising from the sale of equity shares within 12 months in an Indian company are classified as short-term capital gains and generally taxable. Any gain realized on the sale of listed equity shares on a stock exchange that are held for more than 12 months is considered as long-term capital gains and is taxable at 10%, in excess of Rs. 1,00,000. Any long-term gain realized on the sale of equity shares, which are sold other than on a recognized stock exchange and on which no STT has been paid, is also subject to tax in India. Capital gains arising from the sale of equity shares are exempt from taxation in India where an exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable to pay tax in India as well as in their own jurisdiction on a gain on the sale of equity shares.

3. *Taxes and other levies imposed by the Government of India or other State Governments, as well as other financial policies and regulations, may have a material adverse effect on our business, financial condition and results of operations.*

Taxes and other levies imposed by the Central or State Governments in India that affect our industry include:

- Custom duties on imports of products;
- Goods and Service Tax

These taxes and levies affect the cost and prices of our products and therefore demand for our product. An increase in any of these taxes or levies, or the imposition of new taxes or levies in the future, may have a material adverse effect on our business, profitability and financial condition.

4. *Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.*

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

5. *We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and Indian Metal & Mining Industry contained in the draft letter of offer.*

While facts and other statistics in the draft letter of offer relating to India, the Indian economy and the Indian Metal & Mining Industry has been based on various government publications, reports from government agencies, India Brand Equity Foundation and industry publications etc. that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled "Industry Overview" beginning on page 44 of this draft letter of offer. Due to possibly flawed or ineffective

The Sandur Manganese & Iron Ores Limited

data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

6. *Global economic, geo political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.*

Global economic and geo political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

7. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfer of shares between non- residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

8. *The extent and reliability of Indian infrastructure could adversely affect the Company's results of operations and financial condition.*

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt the Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt the Company's business operations, which could have an adverse effect on its results of operations and financial condition.

9. *Natural calamities could have a negative impact on the Indian economy and cause the Company's business to suffer.*

The current Covid-19 pandemic had brought the world to a standstill affecting all sectors and the livelihood of many are at stake including the Indian economy. However, our Country is achieving normalcy by various measures taken by the Government. The pandemic is still to be controlled and any major outbreak will seriously impact our business. Further, our Country in the past has experienced natural calamities such as earthquakes, tsunami, floods etc. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

10. *Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.*

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks in India, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect the Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

The Sandur Manganese & Iron Ores Limited

- 11. *The demand and pricing in the steel industry is volatile and are sensitive to the cyclical nature of the industries it serves. A decrease in steel prices may have an adverse effect on our business, results of operations, prospects and financial condition.***

Sales prices and volumes in the manganese and iron ore mining industry depend mainly on the prevailing and expected level of demand for manganese and iron ore in the steel industry. During periods of sluggish or declining regional or world economic growth, demand for steel products generally decreases, which usually leads to corresponding reductions in demand for manganese and iron ore. Historically, international prices for manganese and iron ore has been volatile and subject to wide fluctuations in response to relatively minor changes in supply and demand, market uncertainties, the overall performance of the global or regional economies, the related cyclical nature in the steel industry and various other factors beyond our control. The price of manganese and iron ore is directly affected by the steel industry, which is cyclical in nature. The prices of steel products are influenced by many factors, including demand, worldwide production capacity, capacity-utilization rates, raw-material costs, exchange rates, trade barriers and improvements in steel-making processes.

Any significant decrease in demand for steel products or decline in the price of these products could result in reduced manganese and iron ore demand and manganese and iron ore prices which could significantly reduce our revenues, thereby materially and adversely affecting our business, financial condition, results of operations and prospects.

Background

Power availability has always been a critical factor for existing operations of the ferroalloys plant and for future expansions. The Company has several times contemplated to explore the possibility of procurement of power from different sources at cheaper cost to operate all the three existing furnaces of ferroalloy plant and other expansion activities. In the process, the Company has initially ventured into establishing a 32MW Thermal Power Plant and commissioned the same during the year 2010. With the object of reducing the cost of generating power, the Company has set up Waste Heat Recovery Boilers and commissioned the same during 2021 and is now venturing into green energy to meet additional power requirements.

The abovesaid investment in proposed SPV “Renew Sandur Green Energy Private Limited” is authorised by resolution of the Board of Directors of the Company passed at its 355th Board Meeting held on 10 April 2022. Renew Sandur Green Energy Private Limited (“Proposed SPV”) is in the process of setting up a 42.9 MW AC renewable energy power plant comprising of a 33 MW solar power plant and 9.9 MW of wind power plant, at Kudligi Taluk, Ballari District, Karnataka which will be designated as a captive power plant for supplying power to the Company subject to complying with the conditions provided in the Electricity Act and the Electricity Rules for consumption of electricity by the Company.

Principal terms and conditions of the proposed SPV are as follows

- Renew Sandur Green Energy Private Limited shall be the Special Purpose Vehicle (‘SPV’) of Renew Green in which the Company (SMIORE) shall acquire 49% equity stake and the balance 51% shall be acquired/ held by Renew Green. The SPV shall develop the solar and wind units in Karnataka for dedicated use of/ supply to the Company, being the user of power, at its ferroalloy plant located at Vyasankere, Mariyammanahalli, Hosapete Taluk- 583222 Vijayanagar District, Karnataka.
- Source of supply shall be solar and wind power generated from the respective solar and wind units. The project is proposed to be set up in Kudligi Taluk, Vijayanagara District, Karnataka by the Power Producer i.e Renew Sandur Green Energy Private Limited.

The Sandur Manganese & Iron Ores Limited

- All land with all approvals/ clearances and right of way required for development and operation of the Project (“Project Site”) shall be obtained by the Proposed SPV at its cost and risk.
- The Proposed SPV shall be responsible for arranging the finance for the Project, at its sole cost and risk, without any recourse to the Company (except for seeking specific performance of the obligations of the Company under the Share Subscription and Shareholder Agreement).
- As per the executed Term Sheet the minimum off-take commitment shall be for 25 years from the Commercial Operation Date (‘COD’) of the Project.
- The benefit that will accrue to The Sandur Manganese & Iron Ores Limited will be assured supply of power to its Metal & Ferro Alloy Plant to the extent mentioned in above para and at a concessional rate which will result in savings in power cost.

Subject: Statement of possible Special tax benefits ("the Statement") available to The Sandur Manganese & Iron Ores Limited ("the Company") and the shareholders of the Company in connection with the proposed rights issue of equity shares of the Company under Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended ("SEBI ICDR Regulations")

Dear Sirs,

We, R Subramanian and Company LLP ('the Firm'), Chartered Accountants, the statutory auditors of the Company hereby confirm the enclosed statement in the Annexure I prepared and issued by the Company, which provides the possible special tax benefits under direct and indirect tax laws, including the Income-tax Act, 1961 ('Act') presently in force in India viz. the Income-tax Act, 1961, ('Act'), the Income-tax Rules, 1962, ('Rules'), regulations, circulars and notifications issued thereon, as applicable to the assessment year 2022-23 relevant to the financial year 2021-22, The Central Goods and Services Tax Act, 2017/ The Integrated Goods and Services Tax Act, 2017/ relevant State Goods and Services Tax Act, 2017 ("GST Act"), and the rules made thereunder as amended by The Finance Act 2021, i.e., as applicable to the assessment year 2022-23 relevant to the financial year 2021-22, presently in force in India, available to the Company, and its shareholders. Several of these benefits are dependent on the Company and its shareholders, as the case may be, fulfilling the conditions prescribed under the relevant provisions of the aforesaid Acts. Hence, the ability of the Company and its shareholders to derive the special tax benefits is dependent upon their fulfilling such conditions. The Company and its shareholders may or may not choose to fulfil such conditions based on the business imperatives the Company and its shareholders face in the future.

This statement of possible special tax benefits is required as per Schedule VI (Part B-1) (10) of the SEBI ICDR Regulations. While the term 'special tax benefits' has not been defined under the SEBI ICDR Regulations, it is assumed that with respect to special tax benefits (under direct and indirect tax laws (together the Taxation Laws)) available to the Company and its shareholders, the same would include those benefits as enumerated in the statement. Any benefits under the Taxation Laws other than those specified in the statement are considered to be general tax benefits and therefore not covered within the ambit of this statement. Further, any benefits available under any other laws within or outside India, except for those specifically mentioned in the statement, have not been examined and covered by this statement.

Our views are based on the existing provisions of law and its interpretation, which are subject to change from time to time. We do not assume responsibility to update the views consequent to such changes.

The benefits discussed in the enclosed statement cover the possible special tax benefits available to the Company and its shareholders and do not cover any general tax benefits available to them.

In respect of non-residents, the tax rates and the consequent taxation shall be further subject to any benefits available under the applicable Double Taxation Avoidance Agreement, if any, between India and the country in which the non-resident has fiscal domicile.

The benefits stated in the enclosed statement are not exhaustive and the preparation of the contents stated is the responsibility of the Company's Board of Directors. We are informed that this statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the distinct nature of the tax consequences and the changing tax laws, each investor is advised to consult their own tax consultant with respect to the specific tax implications arising out of their participation in the Rights issue and we shall in no way be liable or responsible to any shareholder or subscriber for placing reliance upon the contents of this statement. Also, any tax information included in this written communication was not intended or written to be used, and it cannot be

used by the Company or the investor, for the purpose of avoiding any penalties that may be imposed by any regulatory body, tax authority or agency.

We do not express any opinion or provide any assurance whether:

- The Company and, its shareholders will continue to obtain these benefits in future.
- The conditions prescribed for availing the benefits have been/ would be met.
- The revenue authorities/ courts will concur with the views expressed herein.

The contents of the enclosed statement are based on information, explanations and representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company. We have relied upon the information and documents of the Company being true, correct, and complete and have not audited or tested them. Our view, under no circumstances, is to be considered as an audit opinion under any regulation or law. Our Firm or any of partners or affiliates, shall not be responsible for any loss, penalties, surcharges, interest or additional tax or any tax or non-tax, monetary or non-monetary, effects or liabilities (consequential, indirect, punitive or incidental) before any authority / otherwise within or outside India arising from the supply of incorrect or incomplete information of the Company.

This Statement is addressed to Board of Directors and issued at specific request of the Company. The enclosed Annexure to this Statement is intended solely for your information and for inclusion in the Letter of Offer and any other material in connection with the proposed right issue of equity shares of the Company, and is not to be used, referred to or distributed for any other purpose without our prior written consent. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this certificate is shown or into whose hands it may come without our prior consent in writing. While reasonable care has been taken in the preparation of this certificate, we accept no responsibility for any errors or omissions therein or for any loss sustained by any person who relies on it.

Annexure- I

ANNEXURE TO THE STATEMENT OF SPECIAL TAX BENEFITS AVAILABLE TO THE SANDUR MANGANESE & IRON ORES LIMITED ("THE COMPANY") AND ITS SHAREHOLDERS

The information provided below sets out the possible direct and indirect tax benefits available to the Company and its shareholders in a summary manner only and is not a complete analysis or listing of all potential tax consequences under the current tax laws presently in force in India. Several of these benefits are dependent on the Company and its shareholders fulfilling the conditions prescribed under the relevant tax laws. Hence, the ability of the Company and its shareholders to derive the direct and indirect tax benefits is dependent upon their fulfilling such conditions, which is based on business imperatives the Company and its shareholders may face in the future and accordingly, the Company and its shareholders may or may not choose to fulfill. Further, certain tax benefits may be optional, and it would be at the discretion of the Company or its shareholders to exercise the option by fulfilling the conditions prescribed under the Tax laws.

The following overview is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. Investors are advised to consult their own tax consultant with respect to the tax implications of an investment in the shares particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation on the benefits, which an investor can avail.

The tax benefits stated below are as per the Income-tax Act, 1961 ('IT Act'), the Income-tax Rules, 1962 ('IT Rules'), as amended from time to time and applicable for financial year 2021-22 relevant to assessment year (AY) 2022-23 and Indirect Tax Laws as amended from time to time and applicable for financial year 2021-22.

SPECIAL TAX BENEFITS AVAILABLE TO THE COMPANY UNDER IT ACT AND IT RULES

a) Lower corporate tax rate under Section 115BAA

- A new section 115BAA has been inserted by the Taxation Laws (Amendment) Act, 2019 ("the Amendment Act, 2019") w.e.f. April 1, 2020, i.e. AY 2020-21 granting an option to domestic companies to compute corporate tax at a reduced rate of 25.17% (22% plus surcharge of 10% and cess of 4%) provided such companies do not avail specified exemptions/incentives (e.g. deduction under Section 10AA, 32(1)(ia), 33ABA, 35(2AB), 80-IA of the IT Act etc.).
- The Amendment Act, 2019 further provides that domestic companies availing such option will not be required to pay Minimum Alternate Tax ("MAT") on its book profits under section 115JB of the IT Act. The Company has exercised the above option for lower corporate tax rate.

b) Section 80M - Deduction in respect of inter-corporate dividends

- A new section 80M is inserted in The Finance Act, 2020 w.e.f. 1st April 2020, providing for deduction from gross total income of a domestic company, of an amount equal to dividends received by such company from another domestic company or a foreign company or a business trust as does not exceed the amount of dividend distributed by it on or before one month prior to the date of filing its tax return as prescribed under Section 139(1) of the Act.

SPECIAL TAX BENEFITS AVAILABLE TO THE SHAREHOLDERS

- The Company would be required to deduct tax at source on the dividend paid to the shareholders, at applicable rates. The shareholders would be eligible to claim the credit of such tax in their return of income.
- The non-resident shareholders can offer the dividend income to tax under the beneficial provisions of the Double Taxation Avoidance Agreement, if any. Further, the non-resident shareholders would be eligible to claim the foreign tax credit, based on the local laws of the country of which the shareholder is a resident.
- There are no special tax benefits available to the shareholders (other than resident corporate shareholder) of the Company.

The Sandur Manganese & Iron Ores Limited

- With respect to a resident corporate shareholder, a new section 80M is inserted in The Finance Act, 2020 w.e.f. 1st April 2020, providing for deduction from gross total income of a domestic company, of an amount equal to dividends received by such company from another domestic company or a foreign company or a business trust as does not exceed the amount of dividend distributed by it on or before one month prior to the date of filing its tax return as prescribed under Section 139(1) of the Act.

SPECIAL TAX BENEFITS AVAILABLE TO THE COMPANY AND ITS SHAREHOLDERS UNDER INDIRECT TAX LAWS

- Solely in relation to the Issue, there are no special indirect tax benefits available to the Company or its shareholders.

Notes:

- These benefits are dependent on the Company fulfilling the conditions prescribed under the relevant provisions of the Tax Laws.
- This statement is intended only to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of tax consequences, each investor is advised to consult his or her tax advisor with respect to specific tax consequences of his/her investment in the shares of the Company.
- No assurance is given that the revenue authorities/courts will concur with the views expressed herein. The views are based on the existing provisions of law and its interpretation, which are subject to changes from time to time. We do not assume responsibility to update the views consequent to such changes.

This statement has been prepared solely in connection with the Rights Issue under the Regulations as amended.

Overview of Global Economic Conditions and Indian Metals and Mining Industry

GLOBAL ECONOMY

Global prospects remain highly uncertain under the prevailing global pandemic, geopolitical situations and raising inflations. New virus mutations and the accumulating human toll raise concerns, even as growing vaccine coverage lifts sentiment. Geopolitical tensions due to war between Russia and Ukraine have created economic uncertainties and inflations across the world. The *World Economic Situation and Prospects as of mid-2022* warns that the global economy may be on the cusp of a new crisis, while still recovering from the pandemic. The war in Ukraine has upended the fragile global recovery, triggering a devastating humanitarian crisis in Europe, pushing up food and commodity prices, slowing growth globally and exacerbating inflationary pressures worldwide. Geopolitical and economic uncertainties are dampening business confidence and investment and further weakening short-term economic prospects. Against this backdrop, the world economy is now projected to grow by only 3.1 per cent in 2022 and 2023. (Source: Department of Economic and Social Affairs Economic Analysis, United Nations)

METAL AND MINING INDUSTRIES OVERVIEW

Minerals are vital inputs in our daily life as well as necessary for India’s growth and improving the lives of more than 130 crores Indians. India is well endowed with natural resources, particularly minerals, which serve as raw material for many industries, paving a path for rapid industrialisation and infrastructural development. This, in turn, will facilitate the economy’s ascent to a path of sustained growth and a five trillion-dollar economy. Mining accounted for 2% of the country’s gross value added and contribute to 1.65% of GDP.

Central Governments ambitious Nation Steel Policy 2017 couples with National Mineral Policy 2019 has given more needed thrust to the mining companies in India. The Government of India has ambitious plan to achieve 300 million tonnes of crude steel production capacity by 2030–31. In other words, the country would have to add roughly 200 million tonnes to its present steel production capacity. Raw material requirement projection in million tons for different minerals are iron ore 447, cooking coal 161, natural gas 20, manganese ore 11, chromite ore 5, limestone and dolomite 86, ferro-alloys 4, refractories 3 and scrap 19.

The National Mineral Policy 2019 replaces the National Mineral Policy 2008. The policy was introduced with the aim to increase transparency and enforcement, and implement sustainable mining practices. Among other things, the policy includes incentives to attract private investment and state-of-the-art technology through rights of first refusal at auction and opportunities for the private sector to take up exploration activities. The policy also emphasises strengthening the regulatory mechanism by incorporating e-governance systems to: (a) prevent illegal mining and value leakages; (b) facilitate end-to-end accounting of mineral ore in the supply chain; (c) increase awareness and information campaigns to involve local populations, to supplement law enforcement capabilities in preventing illegal mining.

Owing to high taxation, logistics and fuel costs etc., the Indian mineral sector has been facing high production cost. After the advent of auction, the production cost in the country has risen steeply from the auctioned mines. As more and more mines are granted through auction, the entire mineral sector is being subjected to high production costs.

The mining sector in India is highly regulated and the legal framework has undergone significant changes in the past five years, the result of which is a more transparent and efficient regime.

The Sandur Manganese & Iron Ores Limited

The Mineral Laws (Amendment) Act 2020, amends the Mines and Minerals (Development and Regulation) Act 1957 (MMDR Act). The amendments to the MMDR Act, among other things: (a) enables State governments to take advance actions for the auction of a mining lease before its expiry; (b) provides for approvals, licences and clearances of the previous lessee to be automatically transferred to the new lessee for a period of two years from the date of grant of the new lease; and (c) allows holders of a non-exclusive reconnaissance permit to apply for other licences.

COMPOSITION OF INDIA'S METAL AND MINING SECTOR

India is home to 1,531 operating mines. Production of as many as 95 minerals is undertaken in India, including 4 fuel minerals, 10 metallic minerals, 23 non-metallic minerals, 3 atomic minerals and 55 minor minerals (including building and other materials). The country has large reserves of iron ore, bauxite, chromium, manganese ore, baryte, rare earth and mineral salts. Odisha was the leading producer of minerals with 47% market share, followed by Chhattisgarh at 16% and Karnataka at 14%. Production of metallic minerals in the country increased from US\$ 6.96 billion in FY18 to US\$ 9.1 billion in FY22E. In the same period, production of non-metallic minerals increased from US\$ 1.16 billion in FY18 to US\$ 1.22 billion in FY22E.

MARKET SIZE

India ranks fourth globally in terms of iron ore production. Production of iron ore in FY21 stood at 681.516 million tonnes. The production of iron ore consisting of Lumps, Fines and Concentrates at 204 million tonnes in 2020-21 decreased by almost 16.9% as compared to 246 million tonnes in the previous year. In FY20, India had a total number of 878 steel plants producing crude steel. In FY21, India's crude steel production stood at 103.54 million tonnes. The steel production in India has been increase by 18% to reach 120 million tonnes (MT) by FY22 (approx.). India's crude steel production stood at 102.49 million tonnes (MT) in FY21. Combined aluminium production (primary and secondary) in India stood at 4.1 MT in FY21, thereby becoming the 2nd largest in the world. Aluminium production stood at 3,285,186 tonnes between April 2020 and January 2021.

India's ranking in 2019 in world production was 2nd in Steel (crude/liquid), 4rd in Zinc slabs, 3rd in aluminium, and Chromite, 4th in Iron ore and lead (refined); 5th in Bauxite, 7th in Manganese ore, 13th in copper (refined), 17th in Magnesite and 16th in apatite & rock phosphate.

During 2021-22, mineral production was reported from 21 States/Union Territories of which the bulk of value of mineral production (excluding fuel and atomic minerals, and minor minerals) of about 88.7% was confined to 4 States. Odisha is in leading position, in terms of estimated value of mineral production in the country and had the share of 47.2% in the national output. Next in order was Chhattisgarh with a share of 16.2% followed by Karnataka (14.31%), Rajasthan (11%) and Jharkhand (4.5%) in the total value of mineral production. State-wise analysis revealed that during 2021-22, the value of mineral production (excluding fuel & atomic minerals) has shown a mixed trend as compared to that in the previous year. The States which have indicated major increase in the value of mineral production are Orissa (93%), Jharkhand (87%), Karnataka (65%) etc. However, some of the principal mineral producing states recorded decrease in value of mineral production (excluding fuel & atomic minerals) and those include Tamil Nadu (-0.85%), Kerala (-2.31%), Himachal Pradesh (-5.45%), etc. (Source Annual Report Ministry of Mines)

OVERVIEW OF OVERALL MINERALS, IRON AND MANGANESE ORE PRODUCTION

Production level of important minerals in March, 2022 were: Coal 958 lakh tonnes, Lignite 60 lakh tonnes, Natural gas (utilized) 2813 million cu. m., Petroleum (crude) 25 lakh tonnes, Bauxite 2031 thousand tonnes, Chromite 414 thousand tonnes, Copper conc. 9 thousand tonnes, Gold 169 kg, Iron ore 270 lakh tonnes, Lead conc. 39 thousand tonnes, Manganese ore 269 thousand tonnes, Zinc conc. 182 thousand tonnes, Limestone 373 lakh tonnes, Phosphorite 158 thousand tonnes, Magnesite 12 thousand tonnes, and Diamond 8 carat.

The production of important minerals showing positive growth during March 2022 over March 2021 include: Iron Ore (19.2%), Phosphorite (17.4%), Lignite (16.2%), Gold (13.8%), Zinc conc (10.9%), Natural Gas (U) (7.6%), and Magnesite (6.3%). The production of other important minerals showing negative growth include: Coal (-0.2%), Petroleum (crude) (-3.4%), Bauxite (-4.8%), Lead conc (-5.1%), Limestone (-5.4%), Copper conc (-22.7%), Chromite (-31.8%), Manganese ore (-32.7%), and Diamond (-75.8%). Iron ore is a key input for production of steel and primary iron. Majority (over 85%) of iron ore reserves are of medium- to high-grade and are directly used in blast furnace and direct reduced iron (DRI) plants in the form of sized lumps or sinters or pellets. India was estimated to be the fourth-largest producer of iron ore in 2019. Iron ore production in the country stood at 204.48 million tonnes in FY21. To increase availability of iron ore in India, the government took several initiatives, such as 'Mining and Mineral Policy' reforms, to ramp up production and maximum capacity utilisation by government mining

companies. For example, SAIL, with the approval to sell 25% fresh fines and 70 MT dumps and tailings, accelerated sale of iron ore.

The State-wise production of iron ore during 2018-19 to 2020-21(P) and 2020- 21 (April-January) vis-à-vis 2021-22 (April-January) is provided at Table in Annexure. The total production of iron ore in India increased during 2019-20 as compared to 2018- 19, but it decreased in 2020-21(P) as compared to 2019-20. The reason for decline in the production of iron ore was that the year 2020-21 was affected by the pandemic as well as large number of leases expiring on 31.03.2020. However, total production of iron ore in India increased by 27% during 2021-22 (April-January) as compared to the same period of the previous year. In the states of Andhra Pradesh, Goa and Maharashtra, the production of iron ore decreased during this period.

The Government has taken various steps to increase production and availability of iron ore, which *inter-alia* include Mining and Mineral Policy reforms to ensure enhanced production, early auction & operationalization of expired mines, ease of doing business, seamless transfer of all valid rights & approvals, incentivizing for starting of mining operation & dispatch, transfer of mining leases, allowing captive mines to sell upto 50% of the minerals produced, enhancing exploration activities, etc.

The production of manganese ore at 2,904 thousand tonnes in 2019-20 has increased by 2.98% compared to the year 2018-19. There were 131 reporting mines of manganese ore in 2019-20, and Madhya Pradesh continued to remain the largest producer of Manganese Ore, contributing 32.99% in the total output of the country, followed by Karnataka. The Indian market is thriving with its varied applications for manganese, and the push from the government in this direction adds to its potential.

FAVOURABLE POLICIES ARE SUPPORTING THE SECTOR GROWTH

- Mineral Laws (Amendment) Bill, 2020 - Aims to open a new era in Indian coal and mining sector, specially to promote 'ease of doing business'. It will boost coal production and will reduce dependency on import.
- National Mineral Policy 2019 - Proposed to grant 'industry' status to mining with an objective of boosting financing of private sector
- Relaxed FDI norms - FDI up to 100% is permitted under the automatic route to explore and exploit all nonfuel and non-atomic minerals and process all metals as well as for metallurgy.
- Allowing Private ownership - Government of India is encouraging private ownership for steel operations and other high priority industry
- Skill Development Plan for the Mining Sector (2016-22) - Focus on upgradation of skill sets to foster adaptation of new state of art technology. Increase the capacity and quality of training infrastructure and trainers to address human resource needs.

The Sandur Manganese & Iron Ores Limited

- As per the planned policy, SBI is open to provide some of the financing required to put 41 coal mines with a combined annual production capacity of 225 million tonnes to private companies.
- Opening of export of iron ores by Karnataka Government.

FOREIGN INVESTMENTS FLOWING IN INDIA

- FDI up to 100% is allowed in exploration, mining, minerals processing metallurgy and exploration of metal and non-metal ores under the automatic route for all non-fuel and non-atomic minerals including diamonds and precious stones.
- From April 2000 to June 2021, FDI inflows in the metallurgical industry stood at US\$ 16.01 billion, followed by the mining (US\$ 3.0 billion), diamond & gold ornaments (US\$ 1.19 billion) and coal production (US\$ 27.73 million) industries.
- In April 2021, the directorate general of foreign trade (DGFT) notified that the import policy for copper and aluminium is amended from “free” to “free with compulsory registration” under the non-ferrous metal import monitoring system (NFMIMS). The policy is effective from April 12, 2021.
- In August 2021, Hindustan Zinc collaborated with Normet Group, a Finnish technology firm, to bring battery-powered service equipment and utility vehicles in underground mining.
- The Union Cabinet has approved a memorandum of understanding (MoU) between the Ministry of Steel of the Republic of India and the Ministry of Energy of the Russian Federation on cooperation in the field of coking coal, which is used in steelmaking.
- Epsilon Carbon, a coal tar derivatives company, has built India's first integrated carbon black complex in Bellary, Karnataka, with a Rs. 550-crore (US\$ 74.02 million) investment.
- In November 2021, AMNS India announced that it is planning to manufacture specialty steel under the production-linked incentive (PLI) scheme.

GOVERNMENT INITIATIVES

- The Ministry of Mines notified the Mineral Conservation and Development (Amendment) Rules in November 2021 to provide rules regarding conservation of minerals, systematic and scientific mining, development of minerals in the country for environment protection.
- Steel Authority of India Ltd. (SAIL) and Central Public Sector Enterprises (CPSEs), under the Ministry of Steel, supplied 48,200 tonnes of steel for the Purvanchal Expressway, which was inaugurated by the Prime Minister Shri Narendra Modi on November 16, 2021.
- As part of unlocking India's vast mineral potential by exploration this year, the Ministry of Mines has handed over 152 mineral block reports to different state governments until November 2021. Also, 52 potential G-4 mineral blocks approved by the Geological Survey of India (GSI) have been handed over to 15 state governments.
- In September 2021, India and Australia participated in a joint working group (JWG) meeting on ‘coal and mines’ to strengthen bilateral collaboration in the coal sector.
- In September 2021, Union Cabinet approved the memorandum of understanding between the Geological Survey of India (GSI) and the Joint Stock Company Rosgeologia, Russia, in the area of geosciences.
- In July 2021, the Odisha government approved five key industrial projects worth Rs. 1.46 lakh crore (US\$ 19.60 billion) that are expected to boost capacity of steel production by 27.5 million tonnes.
- In June 2021, the Union Cabinet, chaired by the Prime Minister Shri Narendra Modi approved the memorandum of understanding (MoU) to be signed between the Ministry of Mines and the Secretariat of Mining Policy of the Ministry of Productive Development of the Argentine Republic. The MoU will provide an institutional mechanism for cooperation in the field of mineral resources.
- In June 2021, Energy Efficiency Services Ltd (EESL) signed a memorandum of understanding (MoU) with MECON Ltd. to support energy efficiency in steel, mining industry.
- In April 2021, the directorate general of foreign trade (DGFT) notified that the import policy for copper and aluminium is amended from “free” to “free with compulsory registration” under the non-ferrous metal import monitoring system (NFMIMS). The policy is effective from April 12, 2021.
- To increase availability of iron ore in India, the government took several initiatives, such as ‘Mining and Mineral Policy’ reforms, to ramp up production and maximum capacity utilisation by government mining companies. For example, SAIL, with the approval to sell 25% fresh fines and 70 MT dumps and tailings, accelerated sale of iron ore.

The Sandur Manganese & Iron Ores Limited

- In Union Budget 2021, the government reduced customs duty to 7.5% on semis, flat and long products of non-alloy, alloy and stainless steels to provide relief to MSMEs.
- To boost recycling of copper in India, the government announced reduction of import duty on copper scrap from 5% to 2.5% in the Union Budget 2021.
- The National Steel Policy aims to boost per capita steel consumption to 160 kgs by 2030-31. The government has a fixed objective of increasing rural consumption of steel from the current 19.6 kgs per capita to 38 kgs per capita by 2030-31.

ROAD AHEAD

There is a significant scope for new mining capacities in iron ore, bauxite and coal and considerable opportunities for future discoveries of sub-surface deposits. Infrastructure projects continue to provide lucrative business opportunities for steel, zinc, and aluminium producers. Iron and steel make up a core component for the real estate sector. Demand for these metals is set to continue given strong growth expectations for the residential and commercial building industry.

OVERVIEW & KEY SECTORS OF KARNATAKA

- Karnataka is located in the south of India. It is surrounded by the Arabian Sea on the west, Goa on the northwest, Maharashtra on the north, Andhra Pradesh on the east, Tamil Nadu on the southeast, and Kerala on the southwest.
- At current prices, Karnataka's gross state domestic product (GSDP) is projected to be ~Rs. 18.85 trillion (US\$ 243.56 billion) in 2022-23. The state's GSDP increased at a CAGR of 8.79% between 2015-16 and 2022-23.
- In FY22 (until February 2022), the state's total exports stood at US\$ 22.83 billion. In overall exports, sectors such as petroleum products, iron & steel and organic chemicals were the key contributors.
- As of March 2022, the state had an installed power generation capacity of 30,577.59 MW. Of this, central utilities contributed 4,047.70 MW, private utilities (17,684.41 MW) and state utilities (8,845.49 MW).
- In May 2022, the Karnataka Government announced the new 'Karnataka Renewable Energy Policy' for the 2022-27 period. The policy intends to position Karnataka as a preferred renewables investment location and to build a sustainable and green energy-friendly economy.
- As per the State Budget 2022-23, Rs. 12,226 crore (US\$ 1.57 billion) has been allocated for the energy sector. Out of this, Rs. 9,419 crore (US\$ 1.21 billion) has been allocated to provide subsidies to the Karnataka Power Transmission Corporation Limited.
- In FY22 (till January 2022), Karnataka produced 33.91 million tonnes of iron ore, which was an 18.80% growth YoY.
- Total export value of iron & steel from Karnataka in FY22 (till February 2022) was US\$ 2.22 billion.
- On December 19, 2020, Minister of Road Transport & Highways, Shri Nitin Gadkari, inaugurated and laid the foundation for 33 national highway projects in Karnataka. These projects include 1,197 km long roads worth Rs. 10,904 crore (US\$ 1.48 billion).
- In December 2020, the Karnataka government approved investments of Rs. 22,419 crore (US\$ 3.18 billion) of three different proposals involving electric vehicles (EV) and lithium-ion battery manufacturing with the potential to create nearly 5,000 new jobs.
- Karnataka has emerged as the information technology (IT) hub of India. Export of electronics and computer software from the state reached US\$ 81.4 billion in FY20 and US\$ 38.8 billion in FY21 (until November 2020), respectively. Export of electronics and computer software accounted for 85% share in Karnataka's overall exports.
- More than 60% of the biotechnology companies in India have a base in Bangalore and the state drives 50% of the total revenue in India's biotechnology sector.

The Sandur Manganese & Iron Ores Limited

- Karnataka is the first state which came out with an aerospace policy in the country. The Karnataka Aerospace Policy has identified an investment potential of US\$ 12.5 billion in this sector during 2013-23 and plans to develop aerospace clusters in different regions of the state.

ABOUT THE COMPANY

The Company was originally incorporated in the name of “The Sandur Manganese & Iron Ores Private Limited” having its Registered Office at ‘Satyalaya’, Door No. 266 (old No.80), Behind Taluka Office, Ward No.1, Palace Road, Sandur 583 119, Ballari District, Karnataka and its Corporate Office at No. 9, Sandur House, Ballari Road, Sadashivnagar Bangalore 560 080 under the provisions of the Companies Act, VII of 1913 vide Certificate of Incorporation bearing Registration Number C722/53-54 dated January 18, 1954 issued by the Registrar of Joint Stock Companies, Mysore, Bangalore (“ROC”). Subsequently, the Company was converted into a Public Limited Company and name was changed to “The Sandur Manganese & Iron Ores Limited” pursuant to issuance of fresh certificate of incorporation dated November 28, 1964 by Registrar of Companies, Mysore, Bangalore.

The Company was incorporated under the support and guidance of his Highness Yeshwantrao Hindurao Ghorpade with a vision to develop the manganese and iron ore mines in a scientific manner and his eldest son Murarirao Yeshwantrao Ghorpade took on the mantle to achieve his father’s dream which led to the beginning of an era. Currently, the descendant of the Royal Family, Bahirji A. Ghorpade who is the Managing Director of the Company is spearheading the business of the Company.

Over the decades, the Company, “The Sandur Manganese & Iron Ores Limited” (SMIORE) operations have expanded to cover mining, downstream facilities of ferroalloy, coke and energy. The Company believes in integrating across its value chain and consolidating its business, to ensure that the Company adds value in each stage and the operations are complementary to each other.

The Company is a private sector merchant miners and commodity producers with an operational track record spanning nearly seven decades. The cornerstone of its business still lies in environmentally friendly, systematic, safe and scientific mining. The Company believes it is one among the largest Manganese Ore miner in India. The Company is engaged in mining of manganese and iron ores in Deogiri village of Sandur taluk, Bellary District, Karnataka. The Company is also engaged in the manufacture of ferroalloys & coke.

At present, the Company’s operations span over three business segments i.e., **Mining (Manganese & Iron Ores), Ferroalloys and Coke & Energy**. Together, these assets work in conjunction with each other to leverage the benefits of being an integrated Company in the metals and mining industry.

Upon the introduction of the Sustainable Development Framework (SDF) by the Government of India, SMIORE was the only Mining Lessee in the State of Karnataka to have received a **5-star award** and was one among the three iron ore Mining Lessees in the country. Thereafter, SMIORE has been continuously receiving a 5-star rating every year - a testament to its operational track record.

The Company has been conferred with the following awards by various esteemed government and private bodies for its dedicated effort:

- ❖ **Five Star Award for Implementing SDF (Sustainable Development Framework)** - The Government of India, Ministry of Mines, evaluates mining organizations on a framework of compliance mechanism for the environment and forest safeguard. It awards a star-based rating on the basis of performance. SMIORE has been winning the award from 2014-15 to 2019-20.
- ❖ **Vishwakarma Rashtriya Puraskar, National Safety Awards (Mines)** - The Ministry of Labour & Employment, Government of India has conferred SMIORE with the highest safety awards for the years 1983, 1991 and 2017.

The Sandur Manganese & Iron Ores Limited

- ❖ ***Excellence Award, Productivity, Quality, Innovation and Management, 2009*** - SMIORE was awarded the Excellence Award by the Institute of Economic Studies (IES) and was presented by Shri Korn Dabbaransi, Hon'ble Former Deputy Prime Minister of Thailand.
- ❖ ***Recognized by Vasudeva Committee (Constituted by Government of India) for Systematic Mining***
- ❖ ***Participation award in second NCMM 15 February 2017, Ministry of Mines, Government of India***
- ❖ ***1st Prize for Occupational health, welfare and amenities and creation of awareness on silicosis Mines Safety week observation 2019, Mines Safety Association Karnataka***
- ❖ ***1st Overall performance, Mines Safety week observation 2019, Mines Safety Association Karnataka***

PRODUCT PORTFOLIO

Our product range covers different business segments as mentioned below:

SECTORS THAT THE COMPANY IS ENGAGED IN

Sector(s) that the Company is engaged in	a) Mining of Manganese Ore (NIC Code 07293)
	b) Mining of Iron Ore (NIC Code 07100)
	c) Manufacture of Ferroalloys (NIC Code 24104)
	d) Generation of Power (Captive consumption) (NIC Code 35102)
	e) Manufacturing of Coke (NIC Code 19101)

PRINCIPAL ACTIVITIES OF THE COMPANY

I. MINING

Mining operations are the mainstay of the Company, and it is engaged in the mining of Manganese Ore and Iron Ore, from its mining leases located in Sandur, Ballari district of Karnataka. These mining leases have been operated by the Company since its inception in 1954. At present, the Company has 2 mining leases with a cumulative lease area of 1,999 HA, valid up to 31 December 2033. These leases are estimated to have a total reserves to the tune of 14 MT of Manganese Ore and 110 MT of Iron Ore. It has been proposed to enhance manganese ore from 0.28 to 0.46 MTPA and iron ore production from 1.60 to 4.50 MTPA, duly complying with the parameters prescribed by the Hon'ble Supreme Court

The Sandur Manganese & Iron Ores Limited

a) Manganese Ore (0.28 MTPA)

Since its inception in 1954, the Company has owned and operated the largest manganese ore mines in the private sector, along with sizeable iron ore reserves located within the vicinity of Sandur taluk, Ballari District of Karnataka State. Our mining operations have won multiple accolades and awards for setting unprecedented standards in safety, sustainability and innovation for nearly seven decades. Among other mentionable recognition, the Government of India has successively awarded SMIORE with the highest standards of safety awards for many years. These awards acknowledge the Company's focus on safety norms and the working conditions of the mineworkers and its endeavour to make its operations accident-free with zero incidents.

SMIORE's manganese ore is known for its low phosphorus content (below 0.05%). It has the unique reputation of being one of the finest grades, low phosphorus metallurgical ores used in blends for producing ferroalloys and steel. A part of our mined ore is used captively in the ferroalloy operations, and the rest is sold out. The Company has assessed Manganese ore reserves of 14 MT for future mining operations.

SMIORE is permitted to mine Manganese Ore up to 0.28 MTPA, as per the parameters prescribed by the Hon'ble Supreme Court. The Company is engaged in semi-mechanized Manganese Ore mining operations.

The SMIORE mines are well-connected to two railway sidings - Swamihalli (SMLI) and Sunderambencha (SDMG) on the Swamihalli - Hospet BG Line. Further, to facilitate movement of the product directly to the railway siding, the Company is currently setting up a Downhill Conveyor to transport the ore in a pollution-free and environment-friendly manner.

b) Iron Ore (1.60 MTPA)

SMIORE is mining iron ore from our vast reserves of 110 MT. the Company's fully-mechanized iron ore mining operations generate internal efficiencies and ensure better workplace safety and compliance to environmental protection norms. SMIORE is one of the few mining lessees in India with a consistent track record of receiving 5-Star rating awards for its systematic and safe mining operations from the Government of India.

Our iron ore mining operations are also vital to future downstream integrations, especially in manufacturing steel.

SMIORE is permitted to mine Iron Ore up to the 1.60 MTPA, as per the Environmental Clearance obtained for the mining lease. It primarily produces iron ore, with 56% - 58% Fe grade. The Company has assessed iron ore reserves of 110 MT for future mining operations under various categories.

II. MANUFACTURING

a) FERROALLOYS (95,000 TPA)

The Company began its journey in the Ferroalloys business in 1966, shortly after it was listed on BSE. SMIORE commissioned an Electro Metallurgical plant at Vyasankere, Karnataka, in 1968 and began its operations. This unit is equipped with Italian and Norwegian submerged electric arc furnaces which are utilized to produce Ferroalloys.

In 1977, the Company setup two additional 20 MVA furnaces venturing into the production of Ferroalloys such as Ferromanganese, Ferrosilicon and Silicomanganese.

By the year 1980, the Company's metal & ferroalloy plant was recognized as one of the finest metallurgical plants of the country and gained prominence for supplying quality low-phosphorous pig iron to the Indian foundry industry, especially for the quality-conscious automobile industry, and also ferroalloys to SAIL and other steel plants in India and overseas.

Due to inadequate supply of power from the State Electricity Board, and unviable rates, the Company's Ferroalloys operations became unviable in the 1990's and had to be shut temporarily between 2000 - 2007. Later, the Company established a 32 MW thermal power plant to meet its power needs. In FY21, to further address the cost-feasibility of power generation, the Company commissioned a Waste Heat Recovery Boiler (WHRB) plant. This plant coupled with the Power Generation plant produces electricity as a byproduct. This helped to address the power supply issue, while also addressing the upcoming Coke demand for the Hot Metal plant.

The Sandur Manganese & Iron Ores Limited

The primary product produced by SMIORE is **Silicomanganese**, and other products could include **Ferromanganese** and **Ferrosilicon**. Currently, the existing production capacity of the Company is 95,000 TPA/ 1,25,000 TPA (Silicomanganese/ Ferromanganese) (Existing capacities are used primarily to produce SiMn/FeMn, hence capacity calculations are as per SiMn/FeMn. However, the Company plans to add new products, hence actual capacities may differ as per the product-mix.)

b) COKE AND ENERGY (0.5 MTPA Coke oven plant & 32 MW Waste Heat Recovery Boiler)

SMIORE strives for fully-integrated operations with a vision to achieve self-sufficiency and optimum operational efficiency through forward and backward integrations. It is this philosophy that guided the Company to set up a captive thermal (coal-based) power plant and further expansion of coke production using newly added coke oven plants. The Company is conscious of the massive power requirements in ferroalloy production and other downstream operations and contemplated to switch to cleaner energy sources to arrest adverse environmental impact.

The Company completed its coke oven expansion in FY21 with the commissioning of two coke oven units. The Coke Oven plant is the most recent addition to SMIORE's operations. It consists of 4 batteries and has a cumulative capacity of 0.5 MTPA.

The Company with these plant expansions, the Company has enabled a feasible power generation set up to support the Ferroalloys operations. It has also enabled backward integration of Coke for future steel expansion.

Additionally, two Waste Heat Recovery Boilers (WHRB) with a cumulative capacity of 32 MW have been set up to generate cleaner energy during the production of industrial coke.

By setting the coke oven plant with integrated Waste Heat Recovery Boilers (WHRB), the Company has taken major steps towards producing metallurgical coke and generating cleaner energy for the power requirement of ferroalloy manufacturing operations.

Expanding and enabling Coke production is strategic to the Company's vision to augment its product portfolio while building internal capabilities to materialize the long-term goal of the Company to set up a 0.3 MTPA DI pipe plant.

Energy conservation and adoption of cleaner energy have been core to the sustainable development framework of the Company. Recently, the Company has installed solar-based devices with an aggregated installed capacity of 296.80 kW to replace a part of our total requirement of non-production electricity.

MANUFACTURING PROCESS

◆ **Manganese Ores**

Most manganese mining occurs in open pits. The open-pits are worked manually by benching method, using portable compressors, jackhammers and dumper trucks. Height of the benches in overburden is kept at 7.5 m and that in the ore at 6 m. Drills of 100 mm dia with 0.9 to 1.7 m³ capacity of shovels and 20-25 tonnes dumpers are used for production, loading & transport.

◆ **Iron ores**

The mining in the earlier decades was done manually as was scattered in various locations. SMIORE modernized its activities by inducting mining machineries, such as excavator and wheel loader developing the benches in such a way that the height of the bench does not exceed 7.5 Meter and the width not less than 15 Meter. The overall slope angle is 170 to 180.

The overburden is removed by drilling 105mm dia blast holes with wagon drills and blasting is done with ANFO with SLURRY explosives. The blasted material is removed by the Excavators/ Wheel Loaders with tipper combinations. Ore excavation is done by drilling and blasting 33mm dia blast holes 1.5M – 2.4 MN depth. Then blasted ore is transported to the sorting yard & segregated manually. Ore is sorted, sized, stacked and sampled according to different grades after obtaining sample results; the ore is transported to different designated destinations.

◆ **Ferromanganese Process**

The process involves direct reduction of the oxides of manganese and iron by carbon to form ferromanganese and removal of undesirable oxide like Al₂O₃ and SiO₂ by fluxing them to form a fluid basic slag. Manganese ore as a source of Mn, pearl coke as reductant, lime stone as flux are the main raw materials. Liquid alloy and slag are

intermittently tapped through a common tap hole. Slag is easily separated and granulated by impingement of high-pressure water jets.

The liquid alloy is cascaded in pans so as to cast in to slabs. The solidified slab is cooled and broken to lump size (50 to 110mm). Ferromanganese is used for steel making.

◆ **Silicomanganese Process**

The process involves direct reduction of the oxides of manganese, iron and silicon by carbon to form Silicomanganese and removal of undesirable oxides like Al_2O_3 and CaO by fluxing them to form a fluid basic slag. Manganese ore as a source of manganese, quartz as a source of silicon, pearl coke as reductant, lime stone as a flux all the main raw materials. Liquid alloy and slag are intermittently tapped through a common tap hole. Slag is easily separated by impingement of high-pressure water jets. The liquid alloy is cascaded in pans so as to cast in to slabs. The solidified slab is cooled and broken to lump size (50 to 110mm). Silicomanganese is used for steel making.

◆ **Ferro Silicon Process**

This slag less process involves direct reduction of the oxides of silicon and iron by carbon to form ferrosilicon. Quartz as a source of Si, charcoal as reductant and iron as a source Fe are the main raw materials. The liquid is tapped through one of the tap holes in refractory lined ladles and cast in beds lined with ferrosilicon powder. The solidified slab is cooled and broken to lump size (50 to 150mm). Ferrosilicon is mainly used for steel making.

◆ **Coke**

There are two units of non-recovery type coke ovens with total capacity of 0.5 MTPA. Already one unit having two batteries with 28 ovens in each battery is in operation and similar capacity of unit under construction and nearly completed. The main objective of the coke oven unit is carbonization of coking coal to coke which occurs in coke oven batteries at 1200 °C.

Coal handling and preparation facilities for Coke:

Coal is received in railway wagons. Steps of coal preparation for the coking include reception, preliminary crushing, storing, proportioning, coal blend, final crushing, mixing and transportation of the coal blend to the coal tower.

Coking Process & Coke handling facilities:

To convert coal into coke by carbonizing coal in limited air combustion thereby distilling the volatile matter out of coal i.e. flue gas is collected in a common header used for heat recovery. The coal cake formed in the stamping unit is charged into oven using pusher car. The carbonization takes place in ovens at 1200 °C with a conversion time of 36 hours using heat from walls of the oven and controlled combustion takes place with air admitted in controlled manner. The flue gas generated from this process is directed to waste heat recovery boiler for electrical power generation using steam. The coke is pushed in to quench car where it is quenched with cold water in quench tower after which coke is transported to wharf for further quenching if missed out in the previous stage and to protect from high temperature for downstream system and handling such as cutter and screen for the dispatch.

◆ **Power Generation**

The Waste heat from the coke oven exhaust gases is passed through the Waste Heat Recovery Boiler(WHRB). The Sensible Heat in the gases is transferred to water in the boiler tubes and converted in to Steam. The Gases from two batteries of coke oven is connected to One WHRB of 60 TPH capacity. We have 2 X 60 TPH WHRB Boilers connected to four Batteries of Coke oven plant. The Steam generated in WHRB Boilers is fed to the Turbine which in turn coupled to Generator for the power generation. Steam turbo generator converts the heat energy captured by steam in to Mechanical Energy and the Mechanical Energy is converted in to electrical energy in the generator. i.e. chemical energy held within the coal is first translated into heat energy & then to mechanical energy & finally in to electrical energy.

The Power Generated at 11 KV voltage is partially utilized at power plant for its auxiliary units. The Balance energy is then pumped to the Sub Station where it is stepped up to 110 KV level voltage. The Energy received at Substation is distributed to Ferro Alloy plant and Coke oven plant and balance will be exported to Grid

It is expected to benefit from the management's ability to ensure smooth flow of operations. The Company is managed by a team of competent personnel having knowledge of core aspects of our Business. We have an experienced management team having vast experience in the industry. We believe that our senior management has pioneered our growth and fostered a culture of innovation, entrepreneurship and teamwork within our organization. We believe that a motivated and empowered employee base is key to our competitive advantage. Our personnel policies are aimed towards recruiting talented employees and facilitating their integration into our organization and encouraging the development of their skills and expertise. We believe that our experience, knowledge and human resources will enable us to drive the business in a successful and profitable manner. We are dedicated to the development of expertise and know-how of our employees and continue to invest in them through training and skills.

4. Existing Supplier Relationship: Our existing supplier relationship protects the business with terms of supply and pricing of the products, the quality of the products offered etc. Further we also leverage the past experience of our management in maintaining effective supplier relationship.

5. Scientific Mining: At SMIORE, right from its inception, the Company has always laid emphasis on scientific mining, safety, afforestation and environment protection. The vision of Late Yeshwantrao Ghorpade, stands true even today. SMIORE's culture and philosophy of utmost regard and respect to the various statutes and rules of mining, has held it in good stead. The Company has been accorded various awards by esteemed government and private bodies for its dedicated effort.

6. Environment friendly Mining operations: SMIORE's commitment towards the environment is one of the top priorities of the Company. The Company efficiently and effectively works towards the development of its mining lease land, and believes that it is incumbent on them to protect and conserve the environment. In its endeavour to remain environmentally conscious, SMIORE is committed to reducing waste, greenhouse gas emission and energy use in its operations. The Company takes concrete steps to minimise ecological disturbance and rejuvenate the flora in its operational areas. The Company believes that it must conduct its business ethically, and it is cognizant of the hazards and risks of mining. It places its employees at the forefront of its business, and therefore does not compromise on the health and safety of its people and employees.

The Sandur Manganese & Iron Ores Limited

SMIORE is committed to preserving the environment and the welfare of people and communities associated with mining operations or living around the mining buffer zones, as manifested in its continual contribution towards afforestation, health and education.

8. 5-Star Rating Award: The Government of India, Ministry of Mines, evaluates mining organizations on a framework of compliance mechanism for the environment and forest safeguard. It awards a star-based rating on the basis of performance. SMIORE has been winning the award from 2014-15 to 2019-20.

9. Quality & ISO Certifications: Our ISO certificates shows our good quality of services and good strength.

OUR BUSINESS STRATEGY

- 1. Quality Assurance:** We will continue to maintain quality of our existing products to cater to various customers in the market. We endeavor to maintain the quality of our products, and follow strict procedures to ensure timely delivery and at competitive prices.
- 2. Expansion:** As we step into a new era, we keenly await the expansion of our mining operations, which is pending approval from relevant authorities. Our Manganese ore capacities are expected to expand to 0.46 MTPA from current 0.28 MTPA, and our iron ore capacities are expected to expand to 4.5 MTPA from current 1.60 MTPA, which is in compliance with the parameters prescribed by the Hon'ble Supreme Court of India. We realise that the Company must transition from a pure-play merchant miner to an integrated steel manufacturing company, which will enhance our value proposition multifold. In this connection the Company has already received EC approval to set up 0.4 MTPA Hot Metal Plant with associated facilities. We are well on our way in this journey towards value-addition, and are geared to forward integrate and be present across the entire value chain of producing steel. The Company is also planning to expand its Mining operations. We aim to integrate fully and not lose any aspect in the value chain. Our unique strategy is to consolidate the business, so that one product compliments the other, and the best possible value-addition can be achieved.
- 3. Leverage and enhance our brand name:** The Company believes that its main accumulation of wealth over the last six decades of its existence has been its "goodwill". We believe that our brand commands a recall amongst the consumers in the areas where we operate due to its image and goodwill established over the years. We intend to leverage the brand equity that we enjoy. Also, we plan to leverage our existing brand, which have good recall with customers to introduce a wider range of services.
- 4. Improving operational efficiencies:** The Company strives for fully-integrated operations with a vision to achieve self-sufficiency and optimum operational efficiency through forward and backward integrations. It is this philosophy that guided the Company to set up a captive thermal (coal-based) power plant and further expansion of coke production using newly added coke oven plant. The Company is conscious of the massive power requirements in ferroalloy production and other downstream operations and has envisioned switching to cleaner energy sources to arrest adverse environmental impact.
- 5. Community Development:** The Company believes in inclusive growth and it effectively reaches out to the underprivileged communities and addresses their challenges to improve their quality of life. Inspired from its rich heritage and strong parentage, SMIORE takes pride in being a responsible mining company, laying emphasis on scientific mining, safety, afforestation and environment protection. Over the last six decades, the Company has undertaken several measures to improve the quality of education, healthcare, sanitation, community development, housing, environment and infrastructure.
- 6. Unprecedented standards in safety, sustainability and innovation:** Our mining operations have won multiple accolades and awards for setting unprecedented standards in safety, sustainability and innovation for over six decades. Among other mentionable recognition, the Government of India has successively awarded SMIORE with the highest standards of safety awards for many years. These awards acknowledge the Company's focus on safety norms and the working conditions of the mineworkers and its endeavour to make its operations accident-free with zero incidents.

IMPACT OF COVID-19 PANDEMIC

The COVID 19 pandemic has emerged as biggest risk nationally and globally. The outbreak which started impacting and damaging the health, business, trade and lives of people negatively during the financial year 2019- 2020 continued affecting the same in the financial year 2020-21 also. The outbreak seriously impacted physical and emotional wellbeing of the people across the country and worldwide. Though there was relaxation on movement of people after September 2020 due to series of effort by Union and State Governments, lower number of daily infections, and adherence of COVID appropriate behaviour by people, the emergence of 2nd wave during April 2021 and lockdown by state government brought bigger plight in the lives of citizens.

The operation and productivity of the Company was marred during the 1st quarter of the financial year 2020-21 due to nationwide lockdown, reduced demand of downstream products and operational inconvenience. The Company had to shut down the mines and ferroalloy plant culminating into meagre output. All the major CAPEX plans were stalled temporarily and commercial production from the projects required to be rescheduled. Upkeeping of plant through regular maintenance activity was a major challenge during 1st Quarter. During 2nd quarter of the financial year 2020-21 with systematic unlocking process undertaken by the State Government and resumption of demand and increased production of steel, production capabilities of manganese and iron ores, silicon manganese and coke of o Company increased. During September 2020 the production capacity of Battery 1 and 2 were ramped up. Waste Heat Recovery Boiler (WHRB) which was restarted during the last week of July 2020 stabilized during the 2nd quarter of the financial year.

During 3rd quarter and 4th quarter of the financial year 2020-21 there was ramp up in business operations at mines and ferroalloy plant. Consistent effort and endeavour of the Company brought the business back to normalcy. Collective and concerted effort of management, executives and entire workforce have enabled the Company to tackle the difficulties with courage and bring back the operations to its optimum level. Even during 2nd wave of pandemic Company's endeavour has been to keep the operations at normal level while ensuring the safety of employees, their families and dependants. During COVID 19, Company's top priority has been to ensure physical and emotional wellbeing of its 2400 strong workforce, their families and dependants. Company released a Safe Operating Procedure (SOP) and COVID protocol to arrest the spread of virus at work place. Strict adherence of SOP was ensured at mines, plant and offices to maintain good hygiene. Initiatives were taken to support the employees and their dependants during these periods of turmoil.

During the financial year 2021-22 the Company operated optimally without any adverse impact of COVID on business.

Our responsibilities under those Standards are further described in the "Auditor's Responsibilities" section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our opinion.

Management's Responsibilities

The Statement has been prepared based on the annual financial results. The Board of Directors of the Company are responsible for the preparation and presentation of the Statement that gives a true and fair view of the net profit and other comprehensive income of the Company and other financial information in accordance with the applicable accounting standards prescribed under Section 133

of the Act read with relevant rules issued there under and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Listing Regulations.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Statement, the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities

Our objectives are to obtain reasonable assurance about whether the Statement, as a whole, is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken based on the Statement.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant in the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors.

The Sandur Manganese & Iron Ores Limited

R.Subramanian and Company LLP
Chartered Accountants

- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Statement or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the Annual Financial Results, including the disclosures, and whether the Annual Financial Results represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Financial Results that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Results may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Financial Results.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matters

The Annual Financial Results include the results for the quarter ended 31 March 2022 being the balancing figure between the audited figures in respect of the full financial year and the published unaudited year to date figures up to the third quarter of the current financial year which were subject to limited review by us.

Audited Financial Statements – 31 March 2021

Independent Auditor's Report

To the Members of
The Sandur Manganese & Iron Ores Limited
Report on the audit of Financial Statements

OPINION

We have audited the financial statements of **The Sandur Manganese & Iron Ores Limited** ("the Company"), which comprise the balance sheet as at 31st March 2021, and the statement of Profit and Loss, including the statement of Other Comprehensive Income, Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, and profit including Other Comprehensive Income, changes in equity and its cash flows for the year ended on that date.

BASIS FOR OPINION

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements for the financial year ended March 31, 2021. These matters were addressed in the context of our audit of the financial statements, as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter (KAM)	Response to Key Audit Matter and Conclusion
Evaluation of uncertain tax positions The Company has material uncertain tax positions including matters under dispute which involves significant judgment to determine the possible outcome of these disputes.	Principal Audit Procedures Obtained details of completed tax assessments and demands for the year ended March 31, 2021 from management. We involved our internal experts to analysis the management's underlying assumptions in estimating the tax provision and the possible outcome of the disputes. We also considered legal precedence and other rulings in evaluating management's position on these uncertain tax positions. Additionally, we considered the effect of new information in respect of uncertain tax positions as of April 1, 2020 to evaluate whether any change was required to management's position on these uncertainties.

INFORMATION OTHER THAN THE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

- The Company's Board of Directors is responsible for the other information. The other information comprises the Director's report and its annexures, but does not include the consolidated financial statements, financial statements and our auditor's report thereon.
- Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that if there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, (changes in equity) and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation

Independent Auditor's Report

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our Auditor's Report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by Section 143(3) of the Act, we report that:

- a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c. The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
- d. In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act.

e. On the basis of the written representations received from the directors as on 31st March, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.

f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.

g. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended,

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note 29 to the financial statements.
- ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.
- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company {or, following are the instances of delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company or there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

The Sandur Manganese & Iron Ores Limited

2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

Independent Auditor's Report

Annexure-A to the Independent Auditors' Report

(Referred to in paragraph 1 (f) under 'Report on Other Legal and Regulatory requirements' section of our report of even date to the Ind AS financial statements of the company for the year ended March 31, 2021.)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to the Ind AS financial statements of **The Sandur Manganese & Iron Ores Limited** ("the Company") as of March 31, 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company's management is primarily responsible for establishing and maintaining internal financial controls with reference to the Ind AS financial statements. These responsibilities include the design, implementation and maintenance of internal financial controls with reference to the Ind AS financial statements that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on the Company's existence and operating efficiency of internal financial controls systems with reference to the Ind AS financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls With Reference to Ind AS Financial Statements (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether internal financial controls with reference to the Ind AS financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about existence of the internal financial controls with reference to the Ind AS financial statements and their

operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of the internal financial controls with reference to the Ind AS financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to the Ind AS financial statements.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING WITH REFERENCE TO THESE FINANCIAL STATEMENTS

A Company's internal financial controls with reference to the Ind AS financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles including the Ind AS. A company's internal financial controls with reference to the Ind AS financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING WITH REFERENCE TO THESE FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with reference to the Ind AS financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also,

The Sandur Manganese & Iron Ores Limited

projections of any evaluation of the internal financial controls with reference to the Ind AS financial statements to future periods are subject to the risk that the internal financial controls with reference to the Ind AS financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, to the best of our information and according to the explanation given to us, the Company has, in all material respects, there exists an adequate internal financial controls with reference to the Ind AS financial statements and such internal financial controls with reference to the Ind AS financial statements were operating effectively as at March 31, 2021, based on the internal financial controls with reference to the Ind AS financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the Institute of Chartered Accountants of India.

Notes to the Financial Statements

Notes to the Financial Statements

for the year ended 31 March 2021

1. CORPORATE INFORMATION

The Company is engaged in mining of manganese and iron ores in Deogiri village of Sandur taluk, Bellary District, Karnataka. The Company is also engaged in the manufacture of ferroalloys & coke located at Vyasanakere, Hospet. The Company is a public limited company incorporated and domiciled in India. The Company has its Registered Office at 'Satyalaya', Door No. 266 (old No.80), Behind Taluka Office, Ward No.1, Palace Road, Sandur 583 119, Bellary District, Karnataka and its Corporate Office at No. 9, Sandur House, Ballari Road, Sadashivnagar Bangalore 560 080.

1.1 Significant accounting policies

(i) Statement of compliance

These financial statements have been prepared in accordance with the Indian Accounting Standards (referred to as "Ind AS") as prescribed under section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules as amended from time to time

(ii) Basis of preparation of the financial statements

These financial statements have been prepared on an accrual basis and in accordance with the historical cost convention, except for certain financial instruments which are measured at fair value or amortised cost at the end of each reporting period, as explained in the accounting policies below. This financial statements comply in all material aspects with Ind AS notified under section 133 of the Companies Act, 2013 (the Act) (to the extent notified) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act. All assets and liabilities are classified into current and non current based on the operating cycle of less than twelve months all based on the criteria of realisation / settlement within twelve month period from the balance sheet date.

Accounting policies have been consistently applied except where a new accounting standard is initially adopted or revision to an existing accounting standard, requires a change in the accounting policy hitherto in use.

1.2 Use of estimates and judgements

The preparation of these financial statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Company to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amount of assets and liabilities, revenues and expenses and disclosure of contingent liabilities. Such estimates and assumptions are based on management's evaluation of relevant facts and circumstances as on the date of financial

statements. The actual outcome may diverge from these estimates. Estimates and assumptions are reviewed on a periodic basis. Appropriate changes in estimates are made when the management of the Company becomes aware of the changes in the circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which the changes are made and, if material, their effects are disclosed in the notes to the financial statements.

1.3 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

Ores:

Revenue from sale of ores is recognised on completion of e-auction and receipt of money from the customer. In case of sale of sub-grade ores the revenue from sale of ores is recognised on despatch of goods to customers from plant or stock points as applicable when significant risks and rewards of ownership are considered to be transferred and realisation is reasonably assured.

Ferro alloys & Coke:

Revenue from sale of goods is recognised on dispatch of ferro alloys & coke to customers from plant, when significant risks and rewards of ownership are considered to be transferred and realisation is reasonably assured.

Energy:

Revenue from sale of energy is recognised on accrual basis based on the energy generated and supplied as per applicable rates from time to time and includes unbilled revenue accrued up to the end of the accounting year.

1.3.1 Rendering of services:

In case of service income, revenue is recognised when the service is rendered to the customer.

1.4 Dividend and interest income

Dividend income from investments is recognised when the Company's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably).

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective

interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

1.5 Leases

Policy before April 1, 2019

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Rental expense from operating leases is generally recognised on a straight-line basis over the term of the relevant lease. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

Policy applicable after April 1, 2019

"The Company has adopted Ind AS 116 effective from April 1 2019 using modified retrospective approach. For the purpose of preparation of Standalone Financial Information, management has evaluated the impact of change in accounting policies required due to adoption of Ind AS 116 for year ended March 31 2020. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified assets, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset."

As a lessee, the Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful

lives of right-of-use assets are determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the fixed payments, including in substance fixed payments. The lease liability is measured at amortised cost using the effective interest method.

The Company has used number of practical expedients when applying Ind AS 116: - Short-term leases, leases of low-value assets and single discount rate. The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of less than 12 months and leases of low-value assets. The Company recognises the lease payments associated with these leases as an expense on a straightline basis over the lease term. The Company applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date.

The Company as lessor

Rental income from operating leases is generally recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

1.6 Foreign currency transactions and balances

Transactions in foreign currency are recorded at exchange rates prevailing on the date of the respective transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at the exchange rates prevailing at reporting date of monetary assets and liabilities denominated in foreign currencies are recognized in the statement of profit and loss and reported within foreign exchange gains/ (losses).

Non-monetary assets and liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.

1.6.1 Functional Currency

The financial statements are presented in Indian rupees, the national currency of India, which is the functional currency of the Company. Functional currency of an entity is the currency of the primary economic environment in which the entity operates.

Notes to the Financial Statements

1.7 Employee benefits

1.7.1 Retirement benefit costs and termination benefits

Employee benefits include provident fund, employee state insurance scheme, pension, gratuity, superannuation and compensated absences.

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- remeasurement

The Company presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

A liability for a termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.

1.7.2 Short-term and other long-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

1.8 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

1.8.1 Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Advance taxes and provisions for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision.

1.8.2 Minimum alternate tax

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognised as an asset in the Balance Sheet when it is highly probable that future economic benefit associated with it will flow to the Company.

1.8.3 Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable

profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

1.8.4 Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

1.9 Property, plant and equipment

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses. Freehold land is not depreciated.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Depreciation is recognised so as to write off the cost of assets at head office and mines (including assets transferred to plant from these locations other than freehold land and properties under construction) less their residual values over their useful lives, using The Company's assets are depreciated on the written down value method and at plant (including assets transferred to other locations from plant) are depreciated on the straight line method over the useful life and in manner prescribed in Schedule II to the 2013 Act. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives.

Items such as spare parts, stand-by equipment and servicing equipment are recognised as property, plant and equipment when they meet the definition of property, plant and equipment under Ind AS 16. i.e., Property, plant and equipment are tangible items that:

- (a) are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes; and
- (b) are expected to be used during more than one period.

If the above said definition is not met, they are classified as inventories in accordance with Ind AS 2 Inventories."

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

1.10 Investment property

Investment properties are properties held to earn rentals and/ or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured in accordance with Ind AS 16's requirements for cost model.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

1.11 Intangible assets

1.11.1 Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

1.11.2 Derecognition of intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible

Notes to the Financial Statements

asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

1.11.3 Useful lives of intangible assets

Intangible assets are amortised over their estimated useful life on straight line method as follows:

Software Licenses : 5 years

1.12 Inventories

Inventories are valued at the lower of cost and the net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes all charges in bringing the goods to the point of sale, including all levies, transit insurance and receiving charges. Work-in-progress and finished goods include appropriate proportion of overheads and, where applicable, excise duty. Cost is determined as follows:

Stores, spares and consumables	Monthly weighted average rates
Raw materials	Monthly weighted average rates
Work in progress & finished goods	Full absorption costing method based on annual cost of production

1.13 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

The financial obligation towards mine closure plans under relevant Acts and Rules are technically estimated, based on total available ore reserves of all the mining leases. The amount so determined is provided in the books of account on the basis of run of mine ore production of the mines of all the mining leases.

1.14 Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

1.15. Earnings per share

The basic earnings/ (loss) per share is computed by dividing the net profit/ (loss) attributable to equity shareholders for the year by the weighted average number of equity shares outstanding during the year. The number of shares used in computing diluted earnings per share comprises the weighted average shares considered for deriving basic earnings per share, and also the weighted average number of equity shares that could have been issued on the conversion of all dilutive potential equity shares.

1.16. Segment accounting:

Operating segments are reported in the manner consistent with the internal reporting to the chief operating decision maker (CODM). The Company has identified business segment as its primary segment with secondary information reported geographically.

The Company's primary segments consist of Mining, Ferroalloys, Coke & energy.

Unallocable represents other income and expenses which relate to the Company as a whole and are not allocated to segments.

1.17 Operating cycle

As mentioned in para 1 above under 'Corporate information', the Company based on the normal time between acquisition of assets and their realisation in cash or cash equivalents, has determined its operating cycle as one year. The above basis is used for classifying the assets and liabilities into current and non-current as the case may be.

1.18. Cash flow statement

Cash flows are reported using the indirect method, whereby profit/ (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

1.19. Financial instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of

The Sandur Manganese & Iron Ores Limited

the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets to collect contractual cash flows and the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling financial assets.

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless they are measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in statement of profit and loss.

Financial liabilities

Financial liabilities are measured at amortised cost using the effective interest method

Equity instruments

An equity instrument is a contract that evidences residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received net of direct issue cost.

Hedge accounting

The Company designates currency options and futures contracts as hedge instruments in respect of foreign exchange risks. These hedges are accounted for as cash flow hedges

The Company uses hedging instruments that are governed by the policies of the Company which are approved by the Board of Directors. The policies provide written principles on the use of such financial derivatives consistent with the risk management strategy of the Company.

The hedge instruments are designated and documented as hedges at the inception of the contract. The Company determines the existence of an economic relationship between the hedging instrument and hedged item based on the currency, amount and timing of their respective cash flows. The effectiveness of hedge instruments to reduce the risk associated with the exposure being hedged is assessed and measured at inception and on an ongoing basis. If the hedged future cash flows are no longer expected to occur, then the amounts that have been accumulated in other equity are immediately reclassified in net foreign exchange gains in the statement of profit and loss.

The effective portion of change in the fair value of the designated hedging instrument is recognised in the other comprehensive income and accumulated under the heading cost of hedging.

The Company separates the intrinsic value and time value of an option and designates as hedging instruments only the change in intrinsic value of the option. The change in fair value of the time value and intrinsic value of an option is recognised in the statement of other comprehensive income and accounted as a separate component of equity. Such amounts are reclassified into the statement of profit and loss when the related hedged items affect profit or loss.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated or no longer qualifies for hedge accounting. Any gain or loss recognised in other comprehensive income and accumulated in equity till that time remains and is recognised in statement of profit and loss when the forecasted transaction ultimately affects the profit or loss.

1.20 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which

Notes to the Financial Statements

are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in the Statement of Profit and Loss in the year in which they are incurred

The Company determines the amount of borrowing costs eligible for capitalisation as the actual borrowing costs incurred on that borrowing during the year less any interest income earned on temporary investment of specific

borrowings pending their expenditure on qualifying assets, to the extent that an entity borrows funds specifically for the purpose of obtaining a qualifying asset. In case if the Company borrows generally and uses the funds for obtaining a qualifying asset, borrowing costs eligible for capitalisation are determined by applying a capitalisation rate to the expenditures on that asset.

Borrowing Cost includes exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the finance cost.

Effective April 01, 2019, the Company had adopted Ind AS-116 "Leases" retrospectively with cumulative effect of initially applying the standard, recognised as an adjustment to the opening balance of retained earnings as on the date of initial application (1 April 2019). Accordingly, the company was not required to restate the comparative information for the year ended March 31, 2019.

The major impact of adopting Ind AS 116 on the company's financial statements for the year ended March 2020 were as follows:

- Depreciation expenses for the year ended March 31, 2020 increased by ₹ 459.87 lakh.
- Finance costs for the year ended March 31, 2020 increased due to interest accrued on outstanding lease liability amounting to ₹ 114.67 lakh.
- Transitional impact of Ind AS 116 as on April 01, 2019, amounting to ₹ 54.06 lakh has been adjusted against opening balance of retained earnings.

Future lease commitments

All leases other than included above are of either low value or cancellable at the option of lessee.

NOTE NO. 31 - EMPLOYEE BENEFITS

(a) Defined Contribution Plan

The Company's contribution to provident fund and superannuation fund aggregating ₹ 297.64 lakh (previous year : ₹ 269.98 lakh) has been recognised in the Statement of Profit or Loss under the head employee benefits expense.

(b) Defined Benefit Plans:

Gratuity

The Company operates a gratuity plan covering qualifying employees. The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act, 1972 or the Company scheme applicable to the employee. The Company makes annual contributions to an Insurance managed fund to fund its gratuity liability. The activity of the Company is administered by SMIORE Gratuity Fund Trust. The scheme provides for lump sum payment to vested employees on retirement, death while in employment or on termination of employment as per the Company's Gratuity Scheme, vesting occurs upon completion of three years of service.

Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

Asset volatility

The plan liabilities are calculated using a discount rate set with references to government bond yields; if plan assets under perform compared to the government bonds discount rate, this will create or increase a deficit. The defined benefit plans hold a significant proportion of debt type assets, which are expected to outperform government bonds in the long-term.

Changes in bond yields

A decrease in government bond yields will increase plan liabilities, although this is expected to be partially offset by an increase in the value of the plans' bond holdings and interest rate hedging instruments.

Inflation risk

Some of the Company's retirement obligations are linked to inflation, and higher inflation will lead to higher liabilities (although, in most cases, caps on the level of inflationary increases are in place to protect the plan against extreme inflation). The plans hold a significant proportion of assets in index linked gilts, together with other inflation hedging instruments and also assets which are more loosely correlated with inflation. However an increase in inflation will also increase the deficit to some degree.

Life expectancy

The majority of the plan's obligations are to provide benefits for the life of the member, so increases in life expectancy will result in an increase in the plan's liabilities. This is particularly significant in the Company's defined benefit plans, where inflationary increases result in higher sensitivity to changes in life expectancy.

The Sandur Manganese & Iron Ores Limited

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

Principal Assumptions		Changes in assumption	Impact on defined benefit obligation	
			Increase in assumption	Decrease in assumption
Discount rate	2021	0.50%	-4.04%	4.33%
Salary growth rate	2021	0.50%	4.35%	-4.09%

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance sheet.

The methods and types of assumptions used in preparing the sensitivity analyses did not change compared to previous period.

The Company expects to contribute ₹ 100 lakh to the gratuity trusts during the next financial year of 2021.

Plan Assets

The fair value of Company's pension plan asset as of 31 March 2021 and 31 Mar 2020 by category are as follows:

Particulars	2021	2020
Asset category:		
Insurer managed funds	2,054.05	1,845.36
Others	25.20	76.43
Total	2,079.25	1,921.79

The Company's policy is driven by considerations of maximizing returns while ensuring credit quality of the debt instruments. The asset allocation for plan assets is determined based on investment criteria prescribed under the Indian Income Tax Act, 1961, and is also subject to other exposure limitations. The Company evaluates the risks, transaction costs and liquidity for potential investments. To measure plan asset performance, the Company compares actual returns for each asset category with published benchmarks.

The weighted average duration of the defined benefit obligation as at 31 March 2021 is 8.37 years.

Fair value hierarchy

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 — Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 — Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

Financial risk management objectives

The Board of Directors of the Company have the overall responsibility for the establishment and oversight of the their risk management framework. The Company has constituted a Risk Management Committee. The Company has in place a Risk management framework to identify, evaluate business risks and challenges across the Company. The risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Audit Committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Audit Committee is assisted in its oversight role by Internal Audit which regularly reviews risk management controls and procedures, the results of which are reported to the Audit Committee. These risks include credit risk and liquidity risk.

Foreign currency risk management

The company is generally exposed to foreign exchange risk arising through its purchases denominated in foreign currency predominately in US dollars.

During the current year there is no exports of ores and alloys, however the company has imported ores and coking coal which is subjected to foreign exchange risk. The Company normally enters into either an option contract forward contract s to mitigate the risk of changes in exchange rates on foreign currency exposures. These contracts are measured at fair value through profit and loss.

Commodity price risk

The Company doesn't enter into any long term contract with its suppliers for hedging its commodity price risk.

Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The company is exposed to credit risk from its operating activities mainly Trade receivables. The Company has adopted a policy of only dealing with creditworthy counterparties as a means of mitigating the risk of financial loss from defaults. Credit risk is managed by the Company through approved credit norms, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

The provision for doubtful receivables has been historically negligible. The assessment is done at regular intervals and allowance for doubtful trade receivables as at March 31, 2021 is considered to be adequate.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. Ultimate responsibility for liquidity risk management rests with the management, which has established an appropriate liquidity risk management framework for the management of the Company's short-term, medium-term and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, by continuously monitoring forecast and actual short term and long term cash flows, and by matching the maturity profiles of financial assets and liabilities. The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is exposed to interest rate risk because funds are borrowed at both floating interest rates. Interest rate risk is measured by using the cash flow sensitivity for changes in variable interest rate. The borrowings of the Company are principally denominated in rupees at floating rates of interest.

Total Borrowings as at the balance sheet date is as follows:

₹ in Lakh

Particulars	As at March 31, 2021	As at March 31, 2020
Team Loan (Including Current Maturities)	36,411.65	33,122.41
Other loans	-	6,864.82

The sensitivity analyses below have been determined based on the exposure to interest rates for floating rate liabilities, assuming the amount of the liability outstanding at the year-end was outstanding for the whole year.

If interest rates had been 100 basis points higher / lower and all other variables were held constant, the Company's profit for the year ended 31 March 2021 would decrease / increase by ₹ 364.12 Lakh (for the year ended 31 March 2020: decrease / increase by ₹ 399.87 Lakh). This is mainly attributable to the Company's exposure to interest rates on its variable rate borrowings.

Capital management

The Company's objective for capital management is to maximize shareholder wealth, safeguard business continuity and support the growth of the Company. The Company determines the capital management requirement based on annual operating plans and long term and other strategic investment plans. The funding requirement are met through equity, borrowings and operating cash flows required.

NOTE NO. 38 - SCHEME OF ARRANGEMENT ('THE SCHEME')

Merger of Star Metallics & Power Private Limited ('SMPPL') with The Sandur Manganese and Iron Ores Limited ('the Company') during the previous year ended March 31, 2020

Pursuant to the Scheme of Arrangement ('The Scheme') approved by the National Company Law Tribunal ('the NCLT'), Bengaluru Bench vide its order number "C.P. (CAA) NO.53/BB/2019" dated 4th March 2020., Star Metallics & Power Private Limited (the Merged undertaking) subsidiary of the Company, merged with the Company with effect from April 1, 2019 ('the appointed date'). As per appendix C of Ind AS 103 - "Business Combinations", the financial information in the standalone financial statements in respect of prior periods is restated as if the business combination had occurred from the beginning of the preceding period in the financial statements, irrespective of the date of actual combination. Accordingly, business combination is accounted with effect from April 1, 2018.

The Merged undertaking was a subsidiary of the Company in which the Company held 80.58% of the issued and paid up capital.

Accounting treatment of the arrangement:

Business combination was accounted for using the 'pooling of interests' method as per Appendix C of Ind AS 103 - Business Combinations as notified under Section 230 to 232 of the Companies Act, 2013 which involved the following:

a) The financial information in the financial statements in respect of prior periods was restated as if the business combination had occurred from the beginning of the preceding period in the financial statements, irrespective of the actual date of the combination. Accordingly, business combinations was accounted with effect from April 1 2018.

b) The Company recorded the asset and liabilities of the Merged Undertaking vested in it pursuant to this Scheme at the respective book values appearing in the books of the Merged Undertaking.

c) The value of investment in the Merged Undertaking in the books of the Company was cancelled. Accordingly 75,240,000 equity shares constituting 80.58% of the issued, subscribed and paid up share capital of SMPPL held by the Transferee Company was cancelled;

d) No adjustments were made to reflect fair values, or recognise any new assets or liabilities.

e) As per clarification in Ind AS Transition Facilitation Group (ITFG) Clarification Bulletin 9, goodwill was recognised in the books of the Company and the good will was impaired subsequently.

f) The difference between the net assets of the Merged Undertaking transferred to Company, after making adjustment specified in (c) and (d) was adjusted in 'Other Equity' of the Company.

g) The Company as on 30 March 2020, allotted 251,941 equity shares of the Company to the minority shareholders constituting 19.42% of the issued, subscribed and paid up share capital of SMPPL, in the ratio of 1 equity share of ₹ 10/- each of the Company for every 72 equity shares of ₹ 10/- each held by such shareholder in SMPPL.

SIGNIFICANT DEVELOPMENTS SUBSEQUENT TO THE LAST AUDITED PERIOD

In the opinion of the Board of Directors of the Company and except as disclosed in this Draft Letter of Offer and as disclosed below, since the date of the last audited period i.e., March 31, 2022, there have not arisen any circumstance that materially or adversely affect or are likely to affect the trading or profitability of the Company or the value of its assets or its ability to pay its material liabilities within the next twelve months:

1. Incorporation of a wholly-owned subsidiary company under the name and style of "Sandur Pellets Private Limited"
2. The Supreme Court on 20 May 2022 directed for relaxing the curbs on sale of iron ore mined in three districts in Karnataka. The court also allowed for the export of excavated iron ore subject to terms and conditions set by the central government.
3. The Government of India customs duty on import of Coking Coal. It increased export duty on Coke to 5% on iron ore from 30% to 50%.

KEY FACTORS AFFECTING OUR RESULTS OF OPERATION

Our business is subjected to various risks and uncertainties, including those discussed in the section titled "**Risk Factor**" beginning on page 16 of this Draft Letter of Offer. Our results of operations and financial conditions are affected by numerous factors including the following:

1. Any failure to comply with the financial and restrictive covenants under our financing arrangements;
2. Our ability to retain and hire key employees or maintain good relations with our workforce;
3. Impact of any reduction in sales of our services/products;
4. Increased competition in industries/sector in which we operate;
5. General economic and business conditions in India and in the markets in which we operate and in the local, regional and national economies;
6. Changes in laws and regulations relating to the Sectors in which we operate;
7. Political instability or changes in the Government in India or in the government of the states where we operate could cause us significant adverse effects;
8. Failure to obtain any applicable approvals, licenses, registrations and permits in a timely manner;
9. Occurrence of natural or man-made disasters could adversely affect our results of operations and financial condition;
10. Our inability to successfully diversify our product offerings may adversely affect our growth and negatively impact our profitability; and
11. Changes in applicable levies and policies of the Government.

COMPARISON OF THE FINANCIAL PERFORMANCE OF FISCAL 2022 WITH FISCAL 2021

Total Revenue: Our total revenue during the financial year 2022, has been increased to ₹2,28,397 Lakhs as compared to ₹76,436 Lakh in the previous financial year 2021, registering a substantial increase of 198.81% YOY. This increase was primarily due to the addition of full year operation of coke and energy division and considerable improvement of realization from ferroalloy and mining division supported by higher demand.

Total Expenses: The total expenditure excluding depreciation, Interest and tax amount, for the financial year 2022 has increased to ₹1,27,462 Lakh (55.81% of total revenue) as against ₹47,495 Lakh (62.14% of total revenue) in the previous year 2021. This increase was mainly due to increase in volume of operation during the financial year 2022 as mentioned in revenue above.

EBITDA (Earnings before Interest, Tax Depreciation & Amortization expenses): Our EBITDA for the financial year 2022 stood at ₹1,00,935 Lakhs (44.19% of total revenue) compared to ₹28,941 Lakh (37.86% of total revenue) in the previous financial year 2021, registering a substantial growth of 248.77% from YOY. This increase was mainly due to full year operations of Coke and better margin from the existing product.

The Sandur Manganese & Iron Ores Limited

PBT (Profit before Tax): Our PBT for the financial year 2022 stood at ₹ 91,532 Lakh (40.08% of total revenue) compared to ₹24,953 Lakhs (32.65% of total revenue) in the previous financial year 2021, registering a substantial growth of 266.82% from YOY. This increase was mainly due to full year operations of Coke and better margin from the existing product.

PAT (Profit after Tax): Our PAT for the financial year 2022 stood at ₹67,511 Lakh (29.56% of total revenue) compared to ₹15,393 Lakh (20.14% of total revenue) in the previous financial year 2021, registering a substantial growth of 338.59% from YOY. This increase was mainly due to full year operations of Coke and better margin from the existing product.

COMPARISON OF THE FINANCIAL PERFORMANCE OF FISCAL 2021 WITH FISCAL 2020

Total Revenue: Our total revenue during the financial year 2021, has been increased to ₹ 76,436 Lakhs as compared to ₹ 59,727 Lakh in the previous financial year 2020, registering a substantial increase of 27.98% YOY. This increase was primarily due to commencement of coke operations in Q4 of Financial Year 2021 along with healthy realization in Mining and Ferroalloys segment over the year.

Total Expenses: The total expenditure excluding depreciation, Interest and tax amount, for the financial year 2021 has increased to ₹47,495 Lakh (62.14% of total revenue) as against ₹39,628 Lakh (66.35% of total revenue) in the previous year 2020. This increase was mainly due to increase in volume of operation during the financial year 2022 as mentioned in revenue above.

EBITDA (Earnings before Interest, Tax Depreciation & Amortization expenses): Our EBITDA for the financial year 2021 stood at ₹28,941 Lakhs (37.86% of total revenue) compared to ₹ 20,099 Lakh (33.65% of total revenue) in the previous financial year 2020, registering a substantial growth of 43.99% from YOY. This increase was due to superior realisations in the Mining business, a successful turnaround of the Ferroalloys business following the commissioning of the WRHB, in addition of Coke to the Company's portfolio.

PBT (Profit before Tax): Our PBT for the financial year 2021 stood at ₹ 24,953 Lakhs (32.65% of total revenue) compared to ₹ 17,480 Lakhs (29.27% of total revenue) in the previous financial year 2020, registering a substantial growth of 42.75% from YOY. This increase was mainly due to increase in sale volume of coke and iron ore quantity during during the year and better sales realization.

PAT (Profit after Tax): Our PAT for the financial year 2021 stood at 15,393 Lakh (20.14% of total revenue) compared to ₹ 14,739 Lakh (24.68% of total revenue) in the previous financial year 2020, registering a substantial growth of 4.44% from YOY. This increase was mainly due to increase in sale volume of coke and iron ore quantity during during the year and better sales realization.

iv. **Forest Lease Rent Case: Government of Karnataka vs. The Sandur Manganese & Iron Ores Limited (SMIORE)& Ors.**

Court/Authority	Hon'ble High Court of Karnataka, Review Petition 203/2011
Section Code	Article 226 of the Constitution of India, Civil Procedure Code 1908 (CPC)
Date of Filing	23 May 2011
Case Details	<p>The Company and other Lease holders were served with Demand notices, by State Authority, calling upon them to pay the balance part of Rent and supervision charges based on Karnataka Government order dated 21 May 1997 and 29 August 1997.</p> <p>The Company and other Lease holders had filed Writ Petition before the Hon'ble High Court of Karnataka challenging the demands and contended that in the absence of legislation, the State Government has no authority in law to impose, demand and recover lease rent and supervision charges, for lease land. Not finding merit on the arguments of the State of Karnataka that the lease rent and supervision charges are a tax on the leased forest land and observing that the State has not discharged its obligation to establish that the Government Orders are under Article 265 (Taxes not to be imposed save by authority of law) and Entry 49 List II (taxes on land and buildings), it was held that the demand was not an impost in accordance with law, and the Writ Petitions were allowed.</p> <p>Later an appeal was filed by the State Government against the Order of the Single Bench, which was withdrawn with liberty to file Review Petition before Single Judge and a Review Petition 203/2011 has been filed. The Review Petition was dismissed for default vide Order dated 11 January 2016. However, vide Order dated 29 April--2016, the Review Petition has been restored and the dismissal order recalled. If the Letter of Offer, the Abridged Letter of Offer, the Rights Entitlement Letter or the Application Form is received by any person in any such jurisdiction, or by their agent or nominee, they must not seek to make an Application or acquire the Rights Entitlements referred to in the Letter of Offer, the Abridged Letter of Offer, the Rights Entitlement Letter or the Application Form. Any person who acquires Rights Entitlements or makes an Application will be deemed to have declared, warranted and agreed, by accepting the delivery of the Letter of Offer, the Abridged Letter of Offer, the Rights Entitlement Letter and the Application Form, that it is entitled to subscribe for the Rights Equity Shares under the laws of any jurisdiction which apply to such person.

PRINCIPAL TERMS OF THIS ISSUE

Face Value

Each Rights Equity Share will have the face value of ₹10/-.

Issue Price

Each Rights Equity Share is being offered at a price of ₹10/- per Rights Equity Share in this issue. Investors will have to pay the entire offer price i.e., ₹10/- per Rights Equity Share at the time of Application.

The Issue Price for Rights Equity Shares has been arrived at by the Company prior to the determination of the Record Date.

Ranking of Equity Shares

The Rights Equity Shares being issued shall be subject to the provisions of the Memorandum of Association and Articles of Association. The Rights Equity Shares shall rank pari-passu, in all respects including dividend, with our existing Equity Shares.

The voting rights in a poll, whether present in person or by representative or by proxy shall be in proportion to the paid-up value of the Shares held, and no voting rights shall be exercisable in respect of moneys paid in advance, if any.

Rights Entitlements Ratio

The Rights Equity Shares are being offered on a rights basis to the Eligible Equity Shareholders in the ratio of 2 new Equity Shares for every 1 Equity Share held by the Eligible Equity Shareholders as on the Record Date, which will be credited in the demat account of the Applicant after the Allotment.

Fractional Entitlements

The Rights Equity Shares are being offered on a rights basis to existing Eligible Equity Shareholders in the ratio of 2 new Equity Shares for every 1 Equity Share held as on the Record Date. As per SEBI Rights Issue Circulars, the fractional entitlements are to be ignored.

Process of Credit of Rights Entitlements in dematerialised account

In accordance with Regulation 77A of the SEBI ICDR Regulations read with the SEBI Rights Issue Circulars, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialized form only. Prior to the Issue Opening Date, the Company shall credit the Rights Entitlements to (i) the demat account of the Eligible Equity Shareholders holding the Equity Shares in dematerialised form; and (ii) a demat suspense escrow account (namely, "[●]") opened by the Company, for the Eligible Equity Shareholders holding Equity Shares in physical form.

In this regard, the Company has made necessary arrangements with NSDL and CDSL for the crediting of the Rights Entitlements to the demat account of the Eligible Equity Shareholders in a dematerialized form. A separate ISIN for the Rights Entitlements has also been generated which is [●]. The said ISIN shall remain frozen (for debit) till the Issue Opening Date and shall become active on the Issue Opening Date and remain active for renunciation or transfer during the Renunciation Period. It is clarified that the Rights Entitlements shall not be available for transfer or trading post the Renunciation Period. The said ISIN shall be suspended for transfer by the Depositories post the Issue Closing Date.

Eligible Equity Shareholders are requested to provide relevant details (such as copies of self-attested PAN and client master sheet of demat account etc., details/ records confirming the legal and beneficial ownership of their respective Equity Shares) to the Company or the Registrar not later than two Working Days prior to the Issue Closing Date, i.e., by [●] to enable the credit of their Rights Entitlements by way of transfer from the demat suspense escrow account to their demat account at least one day before the Issue Closing Date i.e., by [●], to enable such Eligible Equity Shareholders to make an application in this Issue, and this communication shall serve as an intimation to such Eligible Equity Shareholders in this regard. Such Eligible Equity Shareholders are also requested to ensure that their demat account, details of which have been provided to the Company or the Registrar, account is active to facilitate the aforementioned transfer.

Additionally, the Company will submit the details of the total Rights Entitlements credited to the demat account of the Eligible Equity Shareholders and the demat suspense escrow account to the Stock Exchanges after completing the corporate action. The details of the Rights Entitlements with respect to each Eligible Equity Shareholders can be accessed by such respective Eligible Equity Shareholders on the website of the Registrar after keying in their respective details along with other security control measures implemented thereat.

Renunciation of Rights Entitlements

This Issue includes a right exercisable by Eligible Equity Shareholders to renounce the Rights Entitlements credited to their respective demat account either in full or in part.

The renunciation from non-resident Eligible Equity Shareholder(s) to resident Indian(s) and vice versa shall be subject to provisions of FEMA Rules and other relevant circulars, directions, or guidelines issued by RBI or the Ministry of Finance from time to time. However, the facility of renunciation shall not be available to or operate in favour of an Eligible Equity Shareholders being an erstwhile OCB unless the same is in compliance with the FEMA Rules and other relevant circulars, directions, or guidelines issued by RBI or the Ministry of Finance from time to time.

The renunciation of Rights Entitlements credited in your demat account can be made either by sale of such Rights Entitlements, using the secondary market platform of the Stock Exchanges or through an off-market transfer. For details, see "*Procedure for Renunciation of Rights Entitlements*" on page 161.

In accordance with SEBI Circular No. SEBI/HO/CFD/DIL2/CIR/P/2020/78 dated May 6, 2020 read with SEBI Circular No. SEBI/HO/CFD/DIL1/CIR/P/2020/136 dated July 24, 2020, and SEBI/HO/CFD/DIL1/CIR/P/2021/13 dated January 19, 2021 the Eligible Equity Shareholders, who hold Equity Shares in physical form as on Record Date and who have not furnished the details of their demat account to the Registrar or the Company at least two Working Days prior to the Issue Closing Date, ***will not be able to renounce their Rights Entitlements.***

Trading of the Rights Entitlements

In accordance with the SEBI January 22, 2020 - Rights Issue Circulars, the Rights Entitlements credited shall be admitted for trading on the Stock Exchanges under ISIN [●]. Prior to the Issue Opening Date, the Company will obtain the approval from the Stock Exchanges for trading of Rights Entitlements. Investors shall be able to trade their Rights Entitlements either through On Market Renunciation or through Off Market Renunciation. The trades through On Market Renunciation and Off Market Renunciation will be settled by transferring the Rights Entitlements through the depository mechanism.

The On Market Renunciation shall take place electronically on the secondary market platform of the Stock Exchanges on T+2 rolling settlement basis, where T refers to the date of trading. The transactions will be settled on trade-for-trade basis. The Rights Entitlements shall be tradable in dematerialized form only. The market lot for trading of Rights Entitlements is one Rights Entitlement.

The On Market Renunciation shall take place only during the Renunciation Period for On Market Renunciation, i.e., from [●] to [●] (both days inclusive). No assurance can be given regarding the active or sustained On Market Renunciation or the price at which the Rights Entitlements will trade. Eligible Equity Shareholders are requested to ensure that renunciation through off-market transfer is completed in such a manner that the Rights Entitlements are credited to the demat account of the Renouncees on or prior to the Issue Closing Date. For details, see *“Procedure for Renunciation of Rights Entitlements – On Market Renunciation”* and *“Procedure for Renunciation of Rights Entitlements – Off Market Renunciation”* on page 161.

Please note that the Rights Entitlements which are neither renounced nor subscribed by the Investors on or before the Issue Closing Date shall lapse and shall be extinguished after the Issue Closing Date.

Payment Schedule of Rights Equity Shares

Each Rights Equity Share is being offered at a price of ₹10/- per Rights Equity Share for every 1 Rights Equity Share allotted in this Issue. Investors will have to pay the entire offer price i.e. ₹10/- per Rights Equity Share at the time of Application.

Where an Applicant has applied for additional Rights Equity Shares and is Allotted a lesser number of Rights Equity Shares than applied for, the excess Application Money blocked shall be unblocked. The un-blocking of ASBA funds shall be completed within such period as prescribed under the SEBI ICDR Regulations and SEBI/HO/CFD/DIL2/CIR/P/2021/552 dated April 22, 2021. In the event that there is a delay in unblocking of ASBA funds beyond such period as prescribed under applicable law, the Company shall pay the requisite interest at such rate as prescribed under applicable law.

Listing and trading of the Rights Equity Shares to be issued pursuant to this Issue

Subject to receipt of the listing and trading approvals, the Rights Equity Shares proposed to be issued on a rights basis shall be listed and admitted for trading on the Stock Exchanges. Unless otherwise permitted by the SEBI ICDR Regulations, the Rights Equity Shares Allotted pursuant to this Issue will be listed as soon as practicable and all steps for completion of necessary procedures for listing and commencement of trading in the Rights Equity Shares will be taken within such period prescribed under the SEBI ICDR Regulations. The Company has received in-principle approval from the BSE through letter bearing reference number [●] dated [●]. The Company will apply to the BSE for final approval for the listing and trading of the Rights Equity Shares subsequent to their Allotment. No assurance can be given regarding the active or sustained trading in the Rights Equity Shares or the price at which the Rights Equity Shares offered under this Issue will trade after the listing thereof.

The existing Equity Shares are listed on BSE (Scrip Code: 504918) under the ISIN: INE149K01016. The Rights Equity shall be credited to temporary ISINs which will be frozen until the receipt of the final listing/ trading approvals from the Stock Exchange. Upon receipt of such listing and trading approvals, the Rights Equity Shares shall be debited from such temporary ISINs and credited to the existing ISIN as fully paid-up Equity of the Company and thereafter be available for trading and the temporary ISIN shall be permanently deactivated in the depository system of CDSL and NSDL.

The listing and trading of the Rights Equity Shares issued pursuant to this Issue shall be based on the current regulatory framework then applicable. Accordingly, any change in the regulatory regime would affect the listing and trading schedule. In case the Company fails to obtain listing or trading permission from the Stock Exchange, we shall unblock the respective ASBA Accounts, the entire monies blocked within four days of receipt of intimation from the Stock Exchange, rejecting the application for listing of the Rights Equity Shares, and if any such money is not unblocked within four days after the Company becomes liable to repay it, the Company and every director of the Company who is an officer -in-default shall, on and from the expiry of the fourth day, be jointly and severally liable to repay that money with interest at rates prescribed under applicable law.

The Sandur Manganese & Iron Ores Limited

Subscription to this Issue by our Promoter and our Promoter Group

For details of the intent and extent of subscription by our Promoter and the Promoter Group, see “*Capital Structure - Intention and extent of participation by our Promoter and Promoter Group*” on page 35.

Rights of holders of Rights Equity Shares of the Company

Subject to applicable laws, holders of the Rights Equity Shares shall have the following rights:

- The Rights Equity Shares shall rank pari-passu with the existing Equity Shares in all respects.
- The right to receive dividend, if declared;
- The right to vote in person, or by proxy, except in case of Rights Equity Shares credited to the demat suspense account for resident Eligible Equity Shareholders holding Equity Shares in physical form;
- The right to receive surplus on liquidation;
- The right to free transferability of Rights Equity Shares;
- The right to attend general meetings of the Company and exercise voting powers in accordance with law; and
- Such other rights as may be available to a shareholder of a listed public company under the Companies Act, 2013, the Memorandum of Association and the Articles of Association.

GENERAL TERMS OF THE ISSUE

Market Lot

The Rights Equity Shares of the Company shall be tradable only in dematerialized form. The market lot for the Rights Equity Shares in dematerialized mode is one Equity Share.

Minimum Subscription

Pursuant to the Regulation 86 of the SEBI ICDR Regulations, as amended, the provision relating to the minimum subscription shall not be applicable to the proposed issue as the object of the proposed issue involves financing other than financing of capital expenditure for a project and our Promoter and Promoter Group have confirmed that they will subscribe to their entitlement in full and would also subscribe to any unsubscribed portion in this Issue.

Joint Holders

Where two or more persons are registered as the holders of any Equity Shares, they shall be deemed to hold the same as the joint holders with the benefit of survivorship subject to the provisions contained in our Articles of Association. Application forms would be required to be signed by all the joint holders (in the same order as appearing in the records of the Depository) to be considered as valid for allotment of Rights Equity Shares offered in this Issue.

Nomination

Nomination facility is available in respect of the Rights Equity Shares in accordance with the provisions of the Section 72 of the Companies Act, 2013 read with Rule 19 of the Companies (Share Capital and Debenture) Rules, 2014. Since the Allotment is in dematerialised form, there is no need to make a separate nomination for the Rights Equity Shares to be Allotted in this Issue. Nominations registered with the respective DPs of the Investors would prevail. Any Investor holding Equity Shares in dematerialised form and desirous of changing the existing nomination is requested to inform its Depository Participant.

Arrangements for Disposal of Odd Lots

Our Rights Equity Shares are traded in dematerialized form only and therefore the marketable lot is one Equity Share and hence no arrangements for disposal of odd lots are required.

Notices

In accordance with the SEBI ICDR Regulations and SEBI Rights Issue Circulars, the Company will send the Abridged Letter of Offer, the Rights Entitlement Letter, Application Form and other issue material (i) only to e-mail addresses of resident Eligible Equity Shareholders who have provided their e-mail addresses; (ii) physical delivery, only to the Indian addresses of the resident Eligible Equity Shareholders, on a reasonable effort basis, whose e-mail addresses are not available with the Company or the Eligible Equity Shareholders have not provided the valid e-mail address to the Company; (iii) physical delivery, only to the Indian addresses of the non-resident Eligible Equity Shareholders, on a reasonable effort basis, who have provided an Indian address to the Company or to their email addresses; and (iv) to the e-mail addresses of foreign corporate or institutional shareholders, in each case who make a request in this regard.

The Letter of Offer will also be provided by the Company to any existing Shareholder who have provided their Indian address and who makes a request in this regard.

The Sandur Manganese & Iron Ores Limited

Further, the Company along with the Lead Manager will undertake all adequate steps to dispatch the physical copies of the Abridged Letter of Offer, the Rights Entitlement Letter and the Application Form. However, the Company, Lead Manager and the Registrar will not be liable for non-dispatch of physical copies of Issue materials, including the Letter of Offer, the Abridged Letter of Offer, the Rights Entitlement Letter and the Application Form.

All notices to the Eligible Equity Shareholders required to be given by the Company shall be published in one English language national daily newspaper with wide circulation, one Hindi language national daily newspaper with wide circulation and one Kannada language daily newspaper with wide circulation (Kannada being the regional language of Karnataka, where our Registered and Corporate Office is situated).

The Letter of Offer, the Abridged Letter of Offer and the Application Form shall also be submitted with the BSE for making the same available on their websites.

Offer to non-resident Eligible Equity Shareholders/Investors

As per Rule 7 of the Foreign Exchange Management (Non-debt Instruments) Rules, 2019, the RBI has given general permission to Indian companies to issue rights equity shares to non-resident shareholders including additional rights equity shares. Further, as per the Master Direction on Foreign Investment in India dated January 4, 2018 issued by the RBI, non-residents may, amongst other things, (i) subscribe for additional shares over and above their Rights Entitlements; (ii) renounce the shares offered to them either in full or in part thereof in favour of a person named by them; or (iii) apply for the shares renounced in their favour. Applications received from NRIs and non-residents for allotment of Rights Equity Shares shall be, amongst other things, subject to the conditions imposed from time to time by the RBI under FEMA in the matter of Application, refund of Application Money, Allotment of Rights Equity Shares and issue of Rights Entitlements Letters/ letters of Allotment/Allotment advice.

The Draft Letter of Offer, the Letter of Offer, Abridged Letter of Offer, the Rights Entitlement Letter and Application Form shall be sent to the e-mail address of non-resident Eligible Equity Shareholders who have provided an Indian address to the Company or who are located in jurisdictions where the offer and sale of the Rights Equity Shares is permitted under laws of such jurisdictions. Investors can access the Letter of Offer, the Abridged Letter of Offer and the Application Form (provided that the Eligible Equity Shareholder is eligible to subscribe for the Rights Equity Shares under applicable securities laws) from the websites of the Registrar, the Company, the Lead Manager and the Stock Exchanges. The Rights Issue Committee may at its absolute discretion, agree to such terms and conditions as may be stipulated by the RBI while approving the Allotment. The Rights Equity Shares purchased by non-residents shall be subject to the same conditions including restrictions in regard to the repatriation as are applicable to the original Equity Shares against which Rights Equity Shares are issued on rights basis.

In case of change of status of holders, i.e., from resident to non-resident, a new demat account must be opened. Any Application from a demat account which does not reflect the accurate status of the Applicant is liable to be rejected at the sole discretion of the Company and the Lead Manager.

Any non-resident shareholder who has applied in the Issue without submitting RBI approval and/or without providing Indian address, his/her application will be liable for rejection.

Please note that pursuant to Circular No. 14 dated September 16, 2003 issued by the RBI, Overseas Corporate Bodies (“OCBs”) have been derecognized as an eligible class of investors and the RBI has subsequently issued the Foreign Exchange Management (Withdrawal of General Permission to Overseas Corporate Bodies (OCBs)) Regulations, 2003. Any Investor being an OCB is required not to be under the adverse notice of the RBI and to obtain prior approval from RBI for applying in this Issue.

The non-resident Eligible Equity Shareholders can update their Indian address in the records maintained by the Registrar and the Company by submitting their respective copies of self-attested proof of address, passport, etc. through email to.

Additional Rights Equity Shares

Investors are eligible to apply for additional Rights Equity Shares over and above their Rights Entitlements, provided that they are eligible to apply for Rights Equity Shares under applicable law and they have applied for all the Rights Equity Shares forming part of their Rights Entitlements without renouncing them in whole or in part. The Rights Entitlements comprise of 2 (Two) Rights Equity. Where the number of additional Rights Equity Shares applied for exceeds the number available for Allotment, the Allotment would be made as per the Basis of Allotment finalised in consultation with the Designated Stock Exchange. Applications for additional Rights Equity Shares shall be considered and Allotment shall be made in accordance with the SEBI ICDR Regulations and in the manner prescribed under the section “Basis of Allotment” on page 170.

Eligible Equity Shareholders who renounce their Rights Entitlements cannot apply for additional Rights Equity Shares.

Resident Eligible Equity Shareholders who hold Equity Shares in physical form as on the Record Date cannot renounce until the details of their demat account are provided to the Company or the Registrar and the dematerialized Rights Entitlements are transferred from suspense escrow demat account to the respective demat accounts of such Eligible Equity Shareholders within prescribed timelines. However, Such Eligible Equity Shareholders, where the dematerialized Rights Entitlements are transferred from the suspense escrow demat account to the respective demat accounts within prescribed timelines, can apply for additional Rights Equity Shares while submitting the Application through ASBA process.

Procedure for Renunciation of Rights Entitlements

The Investors may renounce the Rights Entitlements, credited to their respective demat accounts, either in full or in part (a) by using the secondary market platform of the Stock Exchanges; or (b) through an off -market transfer, during the Renunciation Period. Such renunciation shall result in renouncement of the Rights Equity Shares. The Investors should have the demat Rights Entitlements credited/lying in his/her own demat account prior to the renunciation. The trades through On Market Renunciation and Off Market Renunciation will be settled by transferring the Rights Entitlements through the depository mechanism.

Investors may be subject to adverse foreign, state or local tax or legal consequences as a result of trading in the Rights Entitlements. Investors who intend to trade in the Rights Entitlements should consult their tax advisor or stock broker regarding any cost, applicable taxes, charges and expenses (including brokerage) that may be levied for trading in Rights Entitlements.

The Lead Manager and the Company accept no responsibility to bear or pay any cost, applicable taxes, charges and expenses (including brokerage), and such costs will be incurred solely by the Investors.

Please note that the Rights Entitlements which are neither renounced nor subscribed by the Investors on or before the Issue Closing Date shall lapse and shall be extinguished after the Issue Closing Date.

(a) On Market Renunciation

The Investors may renounce the Rights Entitlements, credited to their respective demat accounts by trading/selling them on the secondary market platform of the Stock Exchanges through a registered stock broker in the same manner as the existing Equity Shares of the Company.

In this regard, in terms of provisions of the SEBI ICDR Regulations and the SEBI Rights Issue Circulars, the Rights Entitlements credited to the respective demat accounts of the Eligible Equity Shareholders shall be admitted for trading on the Stock Exchanges under the ISIN that shall be allotted for the Rights Entitlement subject to requisite approvals. The details for trading in Rights Entitlements will be as specified by the Stock Exchanges from time to time.

The Rights Entitlements are tradable in dematerialized form only. The market lot for trading of Rights Entitlements is one Rights Entitlements.

The On Market Renunciation shall take place only during the Renunciation Period for On Market Renunciation, i.e., from [●] to [●] (both days inclusive).

The Investors holding the Rights Entitlements who desire to sell their Rights Entitlements will have to do so through their registered stock brokers by quoting the ISIN - [●] (for Rights Entitlement) that shall be allotted for the Rights Entitlement and indicating the details of the Rights Entitlements they intend to sell. The Investors can place order for sale of Rights Entitlements only to the extent of Rights Entitlements available in their demat account.

The On Market Renunciation shall take place electronically on secondary market platform of BSE under automatic order matching mechanism and on ‘T+2 rolling settlement basis’, where ‘T’ refers to the date of trading. The transactions will be

The Sandur Manganese & Iron Ores Limited

settled on trade-for-trade basis. Upon execution of the order, the stock broker will issue a contract note in accordance with the requirements of the Stock Exchanges and the SEBI.

(b) Off Market Renunciation

The Investors may renounce the Rights Entitlements, credited to their respective demat accounts by way of an off-market transfer through a depository participant. The Rights Entitlements can be transferred in dematerialised form only.

Eligible Equity Shareholders are requested to ensure that renunciation through off-market transfer is completed in such a manner that the Rights Entitlements are credited to the demat account of the Renouncees on or prior to the Issue Closing Date.

The Investors holding the Rights Entitlements who desire to transfer their Rights Entitlements will have to do so through their depository participant by issuing a delivery instruction slip quoting the ISIN (for Rights Entitlement) that shall be allotted for the Rights Entitlement, the details of the buyer and the details of the Rights Entitlements they intend to transfer. The buyer of the Rights Entitlements (unless already having given a standing receipt instruction) has to issue a receipt instruction slip to their depository participant. The Investors can transfer Rights Entitlements only to the extent of Rights Entitlements available in their demat account.

The instructions for transfer of Rights Entitlements can be issued during the working hours of the depository participants. The detailed rules for transfer of Rights Entitlements through off-market transfer shall be as specified by the NSDL and CDSL from time to time.

The Sandur Manganese & Iron Ores Limited

"I/ We understand that neither the Rights Entitlement nor the Equity Shares have been, or will be, registered under the United States Securities Act of 1933, as amended (the "US Securities Act") or any United States state securities laws, and may not be offered, sold, resold or otherwise transferred within the United States or to the territories or possessions thereof (the "United States") except in a transaction exempt from, or not subject to, the registration requirements of the US Securities Act. I/ we understand the offering to which this application relates is not, and under no circumstances is to be construed as, an offering of any Equity Shares or Rights Entitlement for sale in the United States, or as a solicitation therein of an offer to buy any of the said Equity Shares or Rights Entitlement in the United States. Accordingly, I/ we understand that this application should not be forwarded to or transmitted in or to the United States at any time. I/ we understand that none of the Company, the Registrar, the Lead Managers or any other person acting on behalf of the Company will accept subscriptions from any person, or the agent of any person, who appears to be, or who we, the Registrar, the Lead Managers or any other person acting on behalf of the Company has reason to believe is in the United States, or if such person is outside India and the United States, such person is not a corporate shareholder, or is ineligible to participate in the Issue under the securities laws of their jurisdiction. I/ We will not offer, sell or otherwise transfer any of the Equity Shares which may be acquired by us in any jurisdiction or under any circumstances in which such offer or sale is not authorized or to any person to whom it is unlawful to make such offer, sale or invitation except under circumstances that will result in compliance with any applicable laws or regulations. We satisfy, and each account for which we are acting satisfies, all suitability standards for investors in investments of the type subscribed for herein imposed by the jurisdiction of our residence.

I/ We understand and agree that the Rights Entitlement and Equity Shares may not be reoffered, resold, pledged or otherwise transferred except in an offshore transaction in compliance with Regulation S under the US Securities Act ("Regulation S"), or otherwise pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the US Securities Act. I/We (i) am/are, and the person, if any, for whose account I/we am/are acquiring such Rights Entitlement, and/or the Equity Shares, is/are outside the United States, and (ii) is/are acquiring the Rights Entitlement and/or the Equity Shares in an offshore transaction meeting the requirements of Regulation S.

I/ We acknowledge that the Company, the Lead Manager, their affiliates and others will rely upon the truth and accuracy of the foregoing representations and agreements." In cases where multiple Application Forms are submitted for Applications pertaining to Rights Entitlements credited to the same demat account or in demat suspense escrow account, including cases where an Investor submits Application Forms along with a plain paper Application, such Applications shall be liable to be rejected. Investors are requested to strictly adhere to these instructions. Failure to do so could result in an Application being rejected, with the Company, the Lead Manager and the Registrar not having any liability to the Investor.

I/ We acknowledge that the Company, the Lead Manager and the Registrar shall not be responsible if the Applications are not uploaded by SCSB or funds are not blocked in the Investors' ASBA Accounts on or before the Issue Closing Date".

Mode of payment

All payments against the Application Forms shall be made only through ASBA facility. The Registrar will not accept any payments against the Application Forms, if such payments are not made through ASBA facility.

In case of Application through ASBA facility, the Investor agrees to block the entire amount payable on Application with the submission of the Application Form, by authorizing the SCSB to block an amount, equivalent to the amount payable on Application, in the Investor's ASBA Account. The SCSB may reject the application at the time of acceptance of Application Form if the ASBA Account, details of which have been provided by the Investor in the Application Form, does not have sufficient funds equivalent to the amount payable on Application mentioned in the Application Form. Subsequent to the acceptance of the Application by the SCSB, the Company would have a right to reject the Application on technical grounds as set forth in this Draft Letter of Offer.

After verifying that sufficient funds are available in the ASBA Account, details of which are provided in the Application Form, the SCSB shall block an amount equivalent to the Application Money mentioned in the Application Form until the Transfer Date. On the Transfer Date, upon receipt of intimation from the Registrar, pursuant to the finalization of the Basis of Allotment as approved by the Designated Stock Exchange, the SCSBs shall transfer such amount as per the Registrar's instruction from the ASBA Account into the Allotment Account which shall be a separate bank account maintained by the Company, other than the bank account referred to in sub-section (3) of Section 40 of the Companies Act, 2013. The balance amount remaining after the finalisation of the Basis of Allotment on the Transfer Date shall be unblocked by the SCSBs on the basis of the instructions issued in this regard by the Registrar to the respective SCSB.

Application by Eligible Equity Shareholders holding Equity Shares in physical form

Please note that in accordance with Regulation 77A of the SEBI ICDR Regulations read with the SEBI Rights Issue Circulars, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialised form only. Accordingly, Eligible Equity Shareholders holding Equity Shares in physical form as on Record Date and desirous of

The Sandur Manganese & Iron Ores Limited

subscribing to Rights Equity Shares in this Issue are advised to furnish the details of their demat account to the Registrar or the Company at least two Working Days prior to the Issue Closing Date, to enable the credit of their Rights Entitlements in their respective demat accounts at least one day before the Issue Closing Date.

Prior to the Issue Opening Date, the Rights Entitlements of those resident Eligible Equity Shareholders, among others, who hold Equity Shares in physical form, and whose demat account details are not available with the Company or the Registrar, shall be credited in a demat suspense escrow account opened by the Company.

To update respective email addresses/ mobile numbers in the records maintained by the Registrar or the Company, Eligible Equity Shareholders should visit www.vccipl.com.

Procedure for Application by Eligible Equity Shareholders holding Equity Shares in physical form

Eligible Equity Shareholders, who hold Equity Shares in physical form as on Record Date and who have opened their demat account after the Record Date, shall adhere to following procedure for participating in this Issue:

- (a) The Eligible Equity Shareholders shall send a letter to the Registrar containing the name(s), address, e-mail address, contact details and the details of their demat account along with copy of self-attested PAN and self-attested client master sheet of their demat account either by e-mail, post, speed post, courier, or hand delivery so as to reach to the Registrar no later than two Working Days prior to the Issue Closing Date.
- (b) The Registrar shall, after verifying the details of such demat account, transfer the Rights Entitlements of such Eligible Equity Shareholders to their demat accounts at least one day before the Issue Closing Date;

Depository account and bank details for Investors holding Shares in demat accounts and applying in this Issue

IT IS MANDATORY FOR ALL THE INVESTORS APPLYING UNDER THIS ISSUE TO APPLY THROUGH THE ASBA PROCESS, TO RECEIVE THEIR RIGHTS EQUITY SHARES IN DEMATERIALISED FORM AND TO THE SAME DEPOSITORY ACCOUNT/ CORRESPONDING PAN IN WHICH THE EQUITY SHARES ARE HELD BY THE INVESTOR AS ON THE RECORD DATE. ALL INVESTORS APPLYING UNDER THIS ISSUE SHOULD MENTION THEIR DEPOSITORY PARTICIPANT'S NAME, DP ID AND BENEFICIARY ACCOUNT NUMBER/ FOLIO NUMBER IN THE APPLICATION FORM. INVESTORS MUST ENSURE THAT THE NAME GIVEN IN THE APPLICATION FORM IS EXACTLY THE SAME AS THE NAME IN WHICH THE DEPOSITORY ACCOUNT IS HELD. IN CASE THE APPLICATION FORM IS SUBMITTED IN JOINT NAMES, IT SHOULD BE ENSURED THAT THE DEPOSITORY ACCOUNT IS ALSO HELD IN THE SAME JOINT NAMES AND ARE IN THE SAME SEQUENCE IN WHICH THEY APPEAR IN THE APPLICATION FORM OR PLAIN PAPER APPLICATIONS, AS THE CASE MAY BE.

Investors applying under this Issue should note that on the basis of name of the Investors, Depository Participant's name and identification number and beneficiary account number provided by them in the Application Form or the plain paper Applications, as the case may be, the Registrar will obtain Demographic Details from the Depository. Hence, Investors applying under this Issue should carefully fill in their Depository Account details in the Application.

These Demographic Details would be used for all correspondence with such Investors including mailing of the letters intimating unblocking of bank account of the respective Investor. The Demographic Details given by the Investors in the Application Form would not be used for any other purposes by the Registrar. Hence, Investors are advised to update their Demographic Details as provided to their Depository Participants.

By signing the Application Forms, the Investors would be deemed to have authorised the Depositories to provide, upon request, to the Registrar, the required Demographic Details as available on its records.

The Allotment advice and the email intimating unblocking of ASBA Account would be emailed to the address of the Investor as per the email address provided to the Company or the Registrar or Demographic Details received from the Depositories. The Registrar will give instructions to the SCSBs for unblocking funds in the ASBA Account to the extent Rights Equity Shares are not Allotted to such Investor. Please note that any such delay shall be at the sole

The Sandur Manganese & Iron Ores Limited

risk of the Investors and none of the Company, the SCSBs, Registrar or the Lead Manager shall be liable to compensate the Investor for any losses caused due to any such delay or be liable to pay any interest for such delay.

In case no corresponding record is available with the Depositories that match three parameters, (a) names of the Investors (including the order of names of joint holders), (b) the DP ID, and (c) the beneficiary account number, then such Application Forms are liable to be rejected.

Modes of Payment

All payments against the Application Forms shall be made only through ASBA facility. The Registrar will not accept any payments against the Application Forms, if such payments are not made through ASBA facility.

Mode of payment for Resident Investors

All payments on the Application Forms shall be made only through ASBA facility. Applicants are requested to strictly adhere to these instructions.

Mode of payment for non-resident Investors

As regards the Application by non-resident Investors, the following conditions shall apply:

1. Individual non-resident Indian Applicants who are permitted to subscribe to Rights Equity Shares by applicable local securities laws can obtain Application Forms on the websites of the Registrar, the Company and the Lead Manager.

Note: In case of non-resident Eligible Equity Shareholders, the Abridged Letter of Offer, the Rights Entitlement Letter and the Application Form shall be sent to (i) the Indian addresses of the non-resident Eligible Equity Shareholders, on a reasonable effort basis, who have provided an Indian address to the Company or to their email addresses; and (ii) the e-mail addresses of the foreign corporate or institutional shareholders.

The Letter of Offer will be provided by the Registrar on behalf of the Company or the Lead Manager to the Eligible Equity Shareholders at (i) the Indian addresses of the non-resident Eligible Equity Shareholders, on a reasonable effort basis, who have provided an Indian address to the Company or to their email addresses; and (ii) the e-mail addresses of the foreign corporate or institutional shareholders, in each case who make a request in this regard.

2. Application Forms will not be accepted from non-resident Investors in any jurisdiction where the offer or sale of the Rights Entitlements and Rights Equity Shares may be restricted by applicable securities laws.
3. Payment by non-residents must be made only through ASBA facility and using permissible accounts in accordance with FEMA, FEMA Rules and requirements prescribed by the RBI.

Notes:

- In case where repatriation benefit is available, interest, dividend, sales proceeds derived from the investment in Rights Equity Shares can be remitted outside India, subject to tax, as applicable according to the Income-tax Act.
- In case Rights Equity Shares are Allotted on a non-repatriation basis, the dividend and sale proceeds of the Rights Equity Shares cannot be remitted outside India.
- In case of an Application Form received from non-residents, Allotment, refunds and other distribution, if any, will be made in accordance with the guidelines and rules prescribed by the RBI as applicable at the time of making such Allotment, remittance and subject to necessary approvals.
- Application Forms received from non-residents/ NRIs, or persons of Indian origin residing abroad for Allotment of Rights Equity Shares shall, amongst other things, be subject to conditions, as may be imposed from time to time by RBI under FEMA, in respect of matters including Refund of Application Money and Allotment.
- In the case of NRIs who remit their Application Money from funds held in FCNR/NRE Accounts, refunds and other disbursements, if any shall be credited to such account.
- Non-resident Renouncees who are not Eligible Equity Shareholders must submit regulatory approval for applying for additional Rights Equity Shares.

Multiple Applications

In case where multiple Applications are made in respect the Rights Entitlements using same demat account, such Applications shall be liable to be rejected. However supplementary applications in relation to further Rights Equity Shares with/without using additional Rights Entitlements will not be treated as multiple application. Similarly, a separate Application can be made against Equity Shares held in dematerialised form and Equity Shares held in physical form, and such Applications shall not be treated as multiple applications. A separate Application can be made in respect of each scheme of a mutual fund registered with SEBI and such Applications shall not be treated as multiple applications. For details, see **“Procedure for Applications by Mutual Funds”** below. Cases where Investor submits Application Forms along with plain paper or multiple plain paper Applications for same Rights Entitlements shall be treated as multiple applications.

The Sandur Manganese & Iron Ores Limited

In cases where multiple Application Forms are submitted, such Applications shall be treated as multiple applications and are liable to be rejected.

Last date for Application

The last date for submission of the duly filled in the Application Form or a plain paper Application is [●], i.e., Issue Closing Date. The Board/the Rights Issue Committee may extend the said date for such period as it may determine from time to time, subject to the Issue Period not exceeding 30 days from the Issue Opening Date (inclusive of the Issue Opening Date).

If the Application Form is not submitted with an SCSB, uploaded with the Stock Exchanges and the Application Money is not blocked with the SCSB, on or before the Issue Closing Date or such date as may be extended by The Board/ the Rights Issue Committee, the invitation to offer contained in this Draft Letter of Offer shall be deemed to have been declined and The Board / the Rights Issue Committee shall be at liberty to dispose of the Rights Equity Shares hereby offered, as provided under the section, “**Basis of Allotment**” on page 170.

Please note that on the Issue Closing Date Applications through ASBA process will be uploaded until 5.00 p.m. (Indian Standard Time) or such extended time as permitted by the BSE.

Withdrawal of Application

An Investor who has applied in this Issue may withdraw their application at any time during Issue Period by approaching the SCSB where application is submitted. However, no Investor, may withdraw their application post the Issue Closing Date.

Our Board / The Rights Issue Committee may however decide to extend the Issue Period as it may determine from time to time but not exceeding 30 days from the Issue Opening Date (inclusive of the Issue Opening Date).

The Sandur Manganese & Iron Ores Limited

Basis of Allotment

Subject to the provisions contained in this Draft Letter of Offer, the Abridged Letter of Offer, the Rights Entitlement Letter, the Application Form, the Articles of Association and the approval of the Designated Stock Exchange, our Board will proceed to Allot the Rights Equity Shares in the following order of priority:

- a) Full Allotment to those Eligible Equity Shareholders who have applied for their Rights Entitlements of Rights Equity Shares either in full or in part and also to the Renouncee(s) who has or have applied for Rights Equity Shares renounced in their favour, in full or in part.
- b) Eligible Equity Shareholders whose fractional entitlements are being ignored and Eligible Equity Shareholders with zero entitlement, would be given preference in allotment of one additional Rights Equity Share each if they apply for additional Rights Equity Shares. Allotment under this head shall be considered if there are any unsubscribed Rights Equity Shares after allotment under (a) above. If number of Rights Equity Shares required for Allotment under this head are more than the number of Rights Equity Shares available after Allotment under (a) above, the Allotment would be made on a fair and equitable basis in consultation with the Designated Stock Exchange and will not be a preferential allotment.
- c) Allotment to the Eligible Equity Shareholders who having applied for all the Rights Equity Shares offered to them as part of this Issue, have also applied for additional Rights Equity Shares. The Allotment of such additional Rights Equity Shares will be made as far as possible on an equitable basis having due regard to the number of Equity Shares held by them on the Record Date, provided there are any unsubscribed Rights Equity Shares after making full Allotment in (a) and (b) above. The Allotment of such Rights Equity Shares will be at the sole discretion of our Board in consultation with the Designated Stock Exchange, as a part of this Issue and will not be a preferential allotment.
- d) Allotment to Renouncees who having applied for all the Rights Equity Shares renounced in their favour, have applied for additional Rights Equity Shares provided there is surplus available after making full Allotment under (a), (b) and (c) above. The Allotment of such Rights Equity Shares will be made on a proportionate basis in consultation with the Designated Stock Exchange, as a part of this Issue and will not be a preferential allotment.
- e) Allotment to any other person, that our Board may deem fit, provided there is surplus available after making Allotment under (a), (b), (c) and (d) above, and the decision of our Board in this regard shall be final and binding. After taking into account Allotment to be made under (a) to (d) above, if there is any unsubscribed portion, the same shall be deemed to be 'unsubscribed'.

Upon approval of the Basis of Allotment by the Designated Stock Exchange, the Registrar shall send to the Controlling Branches, a list of the Investors who have been allocated Rights Equity Shares in this Issue, along with:

1. The amount to be transferred from the ASBA Account to the separate bank account opened by the Company for this Issue, for each successful Application;
2. The date by which the funds referred to above, shall be transferred to the aforesaid bank account; and
3. The details of rejected ASBA applications, if any, to enable the SCSBs to unblock the respective ASBA Accounts.

Allotment Advice or Refund/ Unblocking of ASBA Accounts

The Company will e-mail Allotment advice, refund intimations or demat credit of Shares and/or letters of regret, along with crediting the Allotted Rights Equity Shares to the respective beneficiary accounts (only in dematerialised mode) or in a demat suspense account (in respect of Eligible Equity Shareholders holding Equity Shares in physical form on the Allotment Date) or issue instructions for unblocking the funds in the respective ASBA Accounts, if any, within a period of 15 days from the Issue Closing Date. In case of failure to do so, the Company and the Directors who are "officers in default" shall pay interest at 15% p.a. and such other rate as specified under applicable law from the expiry of such 15 days' period.

The Rights Entitlements will be credited in the dematerialized form using electronic credit under the depository system and the Allotment advice shall be sent, through email, to the email address provided to the Company or at the address recorded with the Depository.

In the case of non-resident Investors who remit their Application Money from funds held in the NRE or the FCNR Accounts, refunds and/or payment of interest or dividend and other disbursements, if any, shall be credited to such accounts.

The Sandur Manganese & Iron Ores Limited

Payment of Refund

Mode of making refunds

The payment of refund, if any, including in the event of oversubscription or failure to list or otherwise would be done by unblocking amounts blocked using ASBA facility.

Refund payment to non-residents

The Application Money will be unblocked in the ASBA Account of the non-resident Applicants, details of which were provided in the Application Form.

Allotment Advice or Demat Credit of Shares

The demat credit of Shares to the respective beneficiary accounts or the demat suspense account (pending receipt of demat account details for Eligible Equity Shareholders holding Equity Shares in physical form/ with IEPF authority/ in suspense, etc.) will be credited within 15 days from the Issue Closing Date or such other timeline in accordance with applicable laws.

Receipt of the Rights Equity Shares in Dematerialized Form

PLEASE NOTE THAT THE RIGHTS EQUITY SHARES APPLIED FOR UNDER THIS ISSUE CAN BE ALLOTTED ONLY IN DEMATERIALIZED FORM AND TO

(A) THE SAME DEPOSITORY ACCOUNT/ CORRESPONDING PAN IN WHICH THE EQUITY SHARES ARE HELD BY SUCH INVESTOR ON THE RECORD DATE, OR

(B) THE DEPOSITORY ACCOUNT, DETAILS OF WHICH HAVE BEEN PROVIDED TO THE COMPANY OR THE REGISTRAR AT LEAST TWO WORKING DAYS PRIOR TO THE ISSUE CLOSING DATE BY THE ELIGIBLE EQUITY SHAREHOLDER HOLDING EQUITY SHARES IN PHYSICAL FORM AS ON THE RECORD DATE, OR

(C) DEMAT SUSPENSE ACCOUNT PENDING RECEIPT OF DEMAT ACCOUNT DETAILS FOR RESIDENT ELIGIBLE EQUITY SHAREHOLDERS HOLDING EQUITY SHARES IN PHYSICAL FORM/ WHERE THE CREDIT OF THE RIGHTS ENTITLEMENTS RETURNED/REVERSED/FAILED.

Investors shall be Allotted the Rights Equity Shares in dematerialized (electronic) form.

INVESTORS MAY PLEASE NOTE THAT THE RIGHTS EQUITY SHARES CAN BE TRADED ON THE STOCK EXCHANGES ONLY IN DEMATERIALIZED FORM.

The procedure for availing the facility for Allotment of Rights Equity Shares in this Issue in the dematerialised form is as under:

1. Open a beneficiary account with any depository participant (care should be taken that the beneficiary account should carry the name of the holder in the same manner as is registered in the records of the Company. In the case of joint holding, the beneficiary account should be opened carrying the names of the holders in the same order as registered in the records of the Company). In case of Investors having various folios in the Company with different joint holders, the Investors will have to open separate accounts for such holdings. Those Investors who have already opened such beneficiary account(s) need not adhere to this step.
2. It should be ensured that the depository account is in the name(s) of the Investors and the names are in the same order as in the records of the Company or the Depositories.
3. The responsibility for correctness of information filled in the Application Form vis-a-vis such information with the Investor's depository participant, would rest with the Investor. Investors should ensure that the names of the Investors and the order in which they appear in Application Form should be the same as registered with the Investor's depository participant.
4. If incomplete or incorrect beneficiary account details are given in the Application Form, the Investor will not get any Rights Equity Shares and the Application Form will be rejected.
5. The Rights Equity Shares will be allotted to Applicants only in dematerialized form and would be directly credited to the beneficiary account as given in the Application Form after verification or demat suspense account (pending receipt of demat account details for resident Eligible Equity Shareholders holding Equity Shares in physical form/ with IEPF authority/ in suspense, etc.). Allotment advice, refund order (if any) would be sent directly to the Applicant by email

The Sandur Manganese & Iron Ores Limited

and, if the printing is feasible, through physical dispatch, by the Registrar but the Applicant's depository participant will provide to him the confirmation of the credit of such Rights Equity Shares to the Applicant's depository account.

6. Non-transferable Allotment advice/ refund intimation will be directly sent to the Investors by the Registrar, by email and, if the printing is feasible, through physical dispatch.
7. Renounees will also have to provide the necessary details about their beneficiary account for Allotment of Rights Equity Shares in this Issue. In case these details are incomplete or incorrect, the Application is liable to be rejected.

Procedure for Applications by FPIs

In terms of applicable FEMA Rules and the SEBI FPI Regulations, investments by FPIs in the Equity Shares is subject to certain limits, i.e., the individual holding of an FPI (including its investor group (which means multiple entities registered as foreign portfolio investors and directly and indirectly having common ownership of more than 50% of common control)) shall be below 10% of our post -Offer Equity Share capital. In case the total holding of an FPI or investor group increases beyond 10% of the total paid-up Equity Share capital of the Company, on a fully diluted basis or 10% or more of the paid-up value of any series of debentures or preference shares or share warrants that may be issued by the Company, the total investment made by the FPI or investor group will be re-classified as FDI subject to the conditions as specified by SEBI and the RBI in this regard and the Company and the investor will also be required to comply with applicable reporting requirements. Further, the aggregate limit of all FPIs investments, with effect from April 1, 2020, is up to the sectoral cap applicable to the sector in which the Company operates.

FPIs are permitted to participate in this Issue subject to compliance with conditions and restrictions which may be specified by the Government from time to time. The FPIs who wish to participate in the Offer are advised to use the Application Form for non-residents. Subject to compliance with all the applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI may issue, subscribe to or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by an FPI against Shares held by it that are listed or proposed to be listed on any recognised stock exchange in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only to persons registered as Category I FPI under the SEBI FPI Regulations; (ii) such offshore derivative instruments are issued only to persons who are eligible for registration as Category I FPIs (where an entity has an investment manager who is from the Financial Action Task Force member country, the investment manager shall not be required to be registered as a Category I FPI); (iii) such offshore derivative instruments are issued after compliance with 'know your client' norms; and (iv) compliance with other conditions as may be prescribed by SEBI.

An FPI issuing offshore derivative instruments is also required to ensure that any transfer of offshore derivative instruments issued by or on its behalf, is carried out subject to inter alia the following conditions: (a) such offshore derivative instruments are transferred only to persons in accordance with the SEBI FPI Regulations; and (b) prior consent of the FPI is obtained for such transfer, except when the persons to whom the offshore derivative instruments are to be transferred to are pre – approved by the FPI.

Procedure for Applications by AIFs, FVCIs and VCFs

The SEBI VCF Regulations and the SEBI FVCI Regulations prescribe, among other things, the investment restrictions on VCFs and FVCIs registered with SEBI. Further, the SEBI AIF Regulations prescribe, among other things, the investment restrictions on AIFs.

As per the SEBI VCF Regulations and SEBI FVCI Regulations, VCFs and FVCIs are not permitted to invest in listed companies pursuant to rights issues. Accordingly, applications by VCFs or FVCIs will not be accepted in this Issue. Venture capital funds registered as Category I AIFs, as defined in the SEBI AIF Regulations, are not permitted to invest in listed companies pursuant to rights issues. Accordingly, applications by venture capital funds registered as category I AIFs, as defined in the SEBI AIF Regulations, will not be accepted in this Issue. Other categories of AIFs are permitted to apply in this Issue subject to compliance with the SEBI AIF Regulations. Such AIFs having bank accounts with SCsBs that are providing ASBA in cities / centres where such AIFs are located are mandatorily required to make use of the ASBA facility. Otherwise, applications of such AIFs are liable for rejection.

Procedure for Applications by NRIs

Investments by NRIs are governed by the FEMA Rules. Applications will not be accepted from NRIs that are ineligible to participate in this Issue under applicable securities laws.

The Sandur Manganese & Iron Ores Limited

As per the FEMA Rules, an NRI or Overseas Citizen of India (“OCI”) may purchase or sell capital instruments of a listed Indian company on repatriation basis, on a recognised stock exchange in India, subject to the conditions, inter alia, that the total holding by any individual NRI or OCI will not exceed 5% of the total paid-up equity capital on a fully diluted basis or should not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together will not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrants. The aggregate ceiling of 10% may be raised to 24%, if a special resolution to that effect is passed by the general body of the Indian company.

Further, in accordance with press note 3 of 2020, the FDI Policy has been recently amended to state that all investments by entities incorporated in a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country (“Restricted Investors”), will require prior approval of the Government of India. It is not clear from the press note whether or not an issuance of the Rights Equity Shares to Restricted Investors will also require a prior approval of the Government of India and each Investor should seek independent legal advice about its ability to participate in the Issue. In the event such prior approval of the Government of India is required and such approval has been obtained, the Investor shall intimate the Company and the Registrar about such approval within the Issue Period.

Procedure for Applications by Mutual Funds

A separate application can be made in respect of each scheme of an Indian mutual fund registered with SEBI and such applications shall not be treated as multiple applications. The applications made by asset management companies or custodians of a mutual fund should clearly indicate the name of the concerned scheme for which the application is being made.

Procedure for Applications by Systemically Important Non-Banking Financial Companies (“NBFC-SI”)

In case of an application made by NBFC-SI registered with the RBI, (a) the certificate of registration issued by the RBI under Section 45IA of the RBI Act, 1934 and (b) net-worth certificate from its statutory auditors or any independent chartered accountant based on the last audited financial statements is required to be attached to the application.

Impersonation

As a matter of abundant caution, attention of the Investors is specifically drawn to the provisions of Section 38 of the Companies Act, 2013 which is reproduced below:

“Any person who makes or abets making of an application in a fictitious name to a company for acquiring, or subscribing for, its Shares; or makes or abets making of multiple applications to a company in different names or in different combinations of his name or surname for acquiring or subscribing for its Shares; or otherwise induces directly or indirectly a company to allot, or register any transfer of, Shares to him, or to any other person in a fictitious name, shall be liable for action under Section 447.”

The liability prescribed under Section 447 of the Companies Act for fraud involving an amount of at least ₹ 10 lakhs or 1% of the turnover of the company, whichever is lower, includes imprisonment for a term of not less than six months extending up to 10 years (provided that where the fraud involves public interest, such term shall not be less than three years) and fine of an amount not less than the amount involved in the fraud, extending up to three times of such amount.

In case the fraud involves (i) an amount which is less than ₹ 10 lakhs or 1% of the turnover of the company, whichever is lower; and (ii) does not involve public interest, then such fraud is punishable with an imprisonment for a term extending up to five years or a fine of an amount extending up to ₹ 50 lakhs or with both.

Payment by Stockinvest

In terms of RBI Circular DBOD No. FSC BC 42/24.47.00/2003- 04 dated November 5, 2003, the stockinvest scheme has been withdrawn. Hence, payment through stockinvest would not be accepted in this Issue.

Disposal of Application and Application Money

No acknowledgment will be issued for the Application Money received by the Company. However, the Designated Branch of the SCSBs receiving the Application Form will acknowledge its receipt by stamping and returning the acknowledgment slip at the bottom of each Application Form.

The Board/ The Rights Issue Committee reserves its full, unqualified and absolute right to accept or reject any Application, in whole or in part, and in either case without assigning any reason thereto.

In cases where refunds are applicable, such refunds shall be made within a period of 15 days. In case of failure to do so, the Company and the Directors who are “officers in default” shall pay interest at the prescribed rate. In case an Application is rejected in full, the whole of the Application Money will be unblocked in the respective ASBA Accounts. Wherever an

The Sandur Manganese & Iron Ores Limited

Application is rejected in part, the balance of Application Money, if any, after adjusting any money due on Rights Equity Shares Allotted, will be unblocked in the respective ASBA Accounts of the Investor within a period of 15 days from the Issue Closing Date. In case of failure to do so, the Company shall pay interest at such rate and within such time as specified under applicable law.

For further instructions, please read the Application Form carefully.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

There are two routes through which foreign investors may invest in India. One is the “automatic route”, where no government approval is required under Indian foreign exchange laws to make an investment as long as it is within prescribed thresholds for the relevant sector. The other route is the “government route”, where an approval is required under foreign exchange laws from the relevant industry regulator, prior to the investment.

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the FIPB. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment (“FDI”) and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion) (“DPIIT”), Ministry of Finance, Department of Economic Affairs, FIPB section, through a memorandum dated June 5, 2017, has notified the specific ministries handling relevant sectors.

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated FDI Policy Circular of 2020 (“FDI Policy”) by way of circular bearing number DPIIT file number 5(2)/2020-FDI Policy dated October 15, 2020, which with effect from October 15, 2020, consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict between FEMA and such policy pronouncements, FEMA prevails.

As per Rule 7 of the Foreign Exchange Management (Non-debt Instruments) Rules, 2019, the RBI has given general permission to Indian companies to issue rights securities to non-resident shareholders including additional rights securities. Further, as per the Master Direction on Foreign Investment in India dated January 4, 2018 issued by the RBI, non-residents may, inter alia, (i) subscribe for additional securities over and above their rights entitlement; (ii) renounce the securities offered to them either in full or part thereof in favour of a person named by them; or (iii) apply for the securities renounced in their favour. Applications received from NRIs and non-residents for allotment of Rights Equity Shares shall be inter alia, subject to the conditions imposed from time to time by the RBI under the FEMA in the matter of refund of Application Money, Allotment of Rights Equity Shares and issue of Allotment advice. This Draft Letter of Offer, Abridged Letter of Offer, Rights Entitlement Letter and Application Form shall be dispatched to non-resident Eligible Equity Shareholders at their Indian address only. If an NR or NRI Investors has specific approval from the RBI, in connection with his shareholding, he should enclose a copy of such approval with the Application. Our Board/ Right Issue Committee may at its absolute discretion, agree to such terms and conditions as may be stipulated by RBI while approving the allotment of Rights Equity Shares. The Rights Equity Shares purchased by non-residents shall be subject to the same conditions including restrictions in regard to the repatriation as are applicable to the original Equity Shares against which Rights Equity Shares are issued on rights basis.

As per the existing policy of the Government of India, erstwhile OCBs cannot participate in this Issue.

The Rights Entitlements, Rights Equity Shares and Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the “U.S. Securities Act”), or the securities laws of any state of the United States and may not be offered or sold within the United States, except pursuant to exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws. Accordingly, the Rights Entitlements and Rights Equity Shares are being offered and sold only outside the United States in offshore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers, and sale occur. The Rights Entitlements, Rights Equity Shares and Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Applicants. the Company and the Lead Manager are not liable for any amendments or modifications or changes in applicable laws or regulations, which may occur after the date of this Draft Letter of Offer. Applicants are advised to consult their legal counsel, to make their independent investigations and ensure that Applications are not in violation of laws or regulations applicable to them and do not exceed the applicable limits under the laws and regulations prior to accepting any provisional allotment of Rights Equity Shares, applying for excess Rights Equity Shares or making any offer, sale, resale, pledge or other transfer of the Rights Entitlements or the Rights Equity Shares.

SECTION X: STATUTORY AND OTHER INFORMATION
