In making an investment decision with respect to this Issue, you must rely on your own examination of our Company and the terms of this Issue, including the merits and risks involved. You should consult your tax, financial, and legal advisors about the consequences of an investment in our Equity Shares and its impact on you.

INTERNAL RISK FACTORS

1. *Our Individual Promoters have been penalised by SEBI’s Adjudicating Officer for violation of the provisions of SEBI (PFUTP) Regulations.*

A penalty of ₹70,00,000.00/- (Rupees Seventy Lakhs Only) has been imposed under Section 15HA of the SEBI Act on our Individual Promoters, Girraj Kishor Agrawal and Tanu Girraj Agarwal, jointly and severally with Tilak Finance Limited (now Tilak Ventures Limited (our associate company)), via SEBI’s order bearing reference number ‘MC/HP/2021-2022/12813-12829 dated July, 30 2021’, for the violation of the provisions of Regulations 3 (a),(b),(c),(d), and 4 of the SEBI (PFUTP) Regulations. We cannot however assure you that no other proceedings will be initiated by SEBI against the Promoters for the violation which in turn may have a material adverse effect on our reputation and business.

As on date of this Draft Letter of Offer, the Company has paid-off the levied penalty, however, the Company is in the process of filing an appeal application to Supreme Court of India, against the said SEBI order. We cannot assure you that these legal proceedings will be decided in favour of our Company, or that no further liability will arise out of these proceedings. We may incur significant expenses in such legal proceedings, and we may have to make provisions in our financial statements, which could increase our expenses and liabilities. Any adverse decision may adversely affect our business, results of operations and financial condition.

Further, a penalty of ₹3,00,00,000.00/- and ₹2,00,00,000.00/- has been imposed under the provisions of 15HA of the SEBI Act against on our Individual Promoters, Girraj Kishor Agrawal, and Tanu Girraj Agarwal, respectively vide SEBI Order bearing reference number ‘EAD-9/AO/SM/52-86/2019-20 dated August 02, 2019’, for violation of the provisions of Regulations 3 (a), (b), (c), and (d) of the SEBI (PFUTP) Regulations. Securities Appellate Tribunal has reverted to SEBI the said order for its review. However, we cannot assure you that these legal proceedings will be decided in favour of our Company, or that no further liability will arise out of these proceedings. We may incur significant expenses in such legal proceedings, and we may have to make provisions in our financial statements, which could increase our expenses and liabilities. Any adverse decision may adversely affect our business, results of operations and financial condition.

The amounts claimed in these proceedings have been disclosed to the extent ascertainable and include amounts claimed jointly and/or severally from us and/or other parties. As on date of this Draft Letter of Offer, an amount of ₹15,98,42,760.00/- (Rupees Fifteen Crores Ninety-Eight Lakhs Forty-Two Thousand Seven Hundred and Sixty Only) is the ascertainable amount for the tax liabilities. 3. *The authorized share capital of the Company was erroneously updated as 5,33,00,000 (Fifty Crores Thirty-Three Lakhs) Equity Shares amounting to ₹53,30,00,000.00/- (Rupees Fifty-Three Crores Thirty Lakhs Only) whereas the actual authorized 5,13,00,000 (Fifty Crores Thirteen Lakhs) Equity Shares amounting to ₹51,30,00,000.00/- (Rupees Fifty-One Crores Thirty Lakhs Only).*

Our Company had wrongly updated the authorized share capital of the Company as 5,33,00,000 (Fifty Crores Thirty-Three Lakhs) Equity Shares amounting to ₹53,30,00,000.00/- (Rupees Fifty-Three Crores Thirty Lakhs Only) whilst filing e-forms with the Registrar of Companies, however, the actual authorized is 5,13,00,000 (Fifty Crores Thirteen Lakhs) Equity Shares amounting to ₹51,30,00,000.00/- (Rupees Fifty-One Crores Thirty Lakhs Only), as specified in the Audited Financial Statements of the Company. As on date of this Draft Letter of Offer, no notice has been issued by the relevant regulatory authority for the same. However, any penalty imposed for such non-compliance could affect our financial conditions to the extent of penalty imposed.

4. *The novel coronavirus (Covid-19) pandemic outbreak and steps taken to control the same have significantly impacted our business, results of operations, financial condition, and cash flows and further impact will depend on future developments, which are highly uncertain.*

The rapid and diffused spread of COVID-19 and global health concerns relating to this outbreak have had a severe negative impact on all businesses. The COVID-19 pandemic could continue to have an impact that may worsen for an unknown period. Currently, there is substantial medical uncertainty regarding COVID-19 and this pandemic may continue to cause unprecedented economic disruption in India and in the rest of the world. The scope, duration, and frequency of such measures and the adverse effects of COVID-19 remain uncertain and could be severe. In case due to any consequent wave of Coronavirus, if long-term lockdown is imposed in the country or the state in which we perform of business, we may face losses and our business operations could be severely impacted.

5. *The financing industry is becoming increasingly competitive, and our Company's growth and profitability will inter alia depend on its ability to compete effectively.*

Our Company faces increasing competition from public and private sector Indian commercial banks, and from other financial institutions that provide financial products or services. Some of our Company's competitors have greater resources than our Company does. The competition our Company faces from banks is increasing as more banks are targeting products and services similar to ours. Competition in our industry depends on, among other things, the ongoing evolution of government policies relating to the industry, the entry of new participants in the industry and the extent to which there is consolidation among banks and financial institutions in India.

As our Company enters new markets in the financial services industry, our Company is likely to face additional competition from entities who may be better capitalized, have longer operating histories, a greater retail and brand presence, and more experienced management. If our Company is unable to compete with these entities effectively in these new markets, its operations and/or profitability may be adversely affected.

6. ***Our business is vulnerable to interest rate risk and volatility in interest rates which could adversely affect our income from our operations and adversely affect our financial performance and profitability.***

Our business is dependent on interest income from the loans disbursed. Accordingly, we are affected by volatility in interest rates in our lending operations. Interest rates are highly sensitive to many factors beyond our control, including the monetary policies of the RBI, deregulation of the financial sector in India, domestic and international economic and political conditions, and other factors. Due to these factors, interest rates in India have historically experienced a relatively high degree of volatility.

7. ***We provide unsecured loans to our borrowers. If our customers default in their repayment obligations, our business, results of operations, financial condition and cash flows may be adversely affected.***

Our Company mainly provides unsecured loans i.e., loans without any security. Hence, we run the risk of recovery by defaulters. Further, any deterioration in the quality of our borrowers in terms of their financial worth may also expose us to difficulties in timely recovery of interest and principal amount from such borrowers. In the event of such deterioration in our Company's asset portfolio, there could be an adverse impact on our business and our future financial performance. Further, any default in repayment by our borrowers, will result in losses to our Company. While we have been very selective and conservative in our lending policies and are generally satisfying ourselves with credit worthiness and repayment capacities of our borrowers, there can be no assurance that we will be able to timely recover the interest and / or principal of loans advanced by us.

8. ***Our Company has reported negative cash flow in the past. Any negative cash flows in the future would adversely affect our cash flow requirements, which may adversely affect our ability to operate our business and implement our growth plans, thereby affecting our financial condition.***

Our Company has experienced negative net cash flow from investing and operating activities in the recent past, the details of which are provided below:

- No appraisal, renewal, policies, procedure, committee, or documents have been prescribed and executed.
- The Company's internal control system is not commensurate to the size and scale of operation over purchase and sale of shares and inventory and for expenses incurred.

10. *The Practising Company Secretary of the Company in their Secretarial Audit Report has issued a qualification remark in the Annual Report for the Financial Year ending March 31, 2021.*

11. *As an NBFC, we must adhere to several regulatory norms prescribed by RBI from time to time. Further, as the Equity Shares of our Company are listed on BSE Limited, our Company is subject to certain obligations and reporting requirements under the SEBI (LODR) Regulations and comply with other SEBI regulations. Any non-compliances/delay in complying with such obligations and reporting requirements may render us liable to prosecution and/or penalties.*

NBFCs in India are subject to strict regulation and supervision by the RBI. We require certain approvals, licenses, registrations, and permissions for operating our business. Such approvals, licenses, registrations, and permissions must be maintained / renewed over time, and we may have to comply with certain conditions in relation to these approvals. Moreover, the applicable requirements may change, and we may not be aware of or may comply with all requirements all the time. We are required to obtain and maintain a certificate of registration for carrying on business as an NBFC. If we fail to obtain or retain any of these approvals or licenses, or renewals thereof, in a timely manner, or at all, our business may be adversely affected. RBI has the authority to change these norms/ criteria as and when required. Inability to meet the prescribed norms/ criteria, can adversely affect the operations and profitability of our Company.

Further, as the Equity Shares of our Company are listed on BSE Limited, therefore we are subject to the obligations and reporting requirements prescribed under the SEBI (LODR) Regulations, to the extent applicable, and must adhere to and comply with other applicable Regulations framed by SEBI. Our Company endeavours to comply with all such obligations and reporting requirements, any non-compliance which might have been committed by us, may result into BSE Limited and/or SEBI imposing penalties, issuing warnings and show cause notices against us and/or taking actions as provided under the SEBI Act and the rules and regulations made there under and applicable SEBI Circulars. Any such adverse regulatory action or development could affect our business reputation, divert management attention, and result in a material adverse effect on our business prospects and financial performance and on the trading price of the Equity Shares.

12. *We have, in the past, entered related party transactions and may continue to do so in the future.*

The Company has entered and continue to enter transactions with certain of its related parties. For further details, please refer to the section titled '**Financial Information**' beginning on page 71 of this DLoF. Whilst we believe that all such transactions have been conducted on an arm's length basis, there can be no assurance that we could not have achieved more favourable terms had such transactions not been entered into with related parties.

13. *Our success depends upon our management team and skilled personnel and our ability to attract and retain such persons.*

Our future performance will be affected by the continued service of our management team and skilled personnel. We face a continuing challenge to recruit and retain enough suitably skilled personnel, particularly as we continue to grow. There is significant competition for management and other skilled personnel in the various segments of the financial services industry in which we operate, and it may be difficult to attract and retain the personnel we need in the future. The loss of key personnel may have a material and adverse effect on our business, future financial performance, results of operations and ability to grow in line with our strategy and future plans.

- 14. *We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.***

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and cause serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees and agents may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations, and goodwill could be adversely affected.

- 15. *Our insurance policies do not cover all risks, specifically risks like terrorism, etc. In the event of the occurrence of such events, our insurance coverage may not adequately protect us against possible risk of loss.***

Our Company has obtained insurance coverage in respect of certain risks. Our significant insurance policies consist of, among others, standard fire and special perils, fidelity guarantee, plate glass insurance, etc. While we believe that we maintain insurance coverage in adequate amounts consistent with size of our business, our insurance policies do not cover all risks, specifically risks like terrorism, etc. There can be no assurance that our insurance policies will be adequate to cover the losses in respect of which the insurance has been availed. If we suffer a significant uninsured loss or if insurance claim in respect of the subject-matter of insurance is not accepted or any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and results of operations may be materially and adversely affected.

- 16. *Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.***

Our Company may retain all our future earnings, if any, for use in the operations, and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholder's investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate.

- 17. *We require number of approvals, NOCs, licenses in ordinary course of our Business.***

We need to apply for renewal of approvals which expire, from time to time, as and when required in the ordinary course of our business. Any failure to renew the approvals that will expire, or to failure/delay to apply for and obtain the required approvals, licences, registrations or permits, or any suspension or revocation of any of the approvals, licences, registrations and permits that have been or may be issued to us, could result in delaying the operations of our business, which may adversely affect our business, financial condition, results of operations and prospects.

We cannot assure you that the approvals, licences, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action.

Our failure to comply with existing or increased regulations, or the introduction of changes to existing regulations, could adversely affect our business, financial condition, results of operations and prospects.

- 18. *The deployment of funds is entirely at our discretion and as per the details mentioned in the chapter titled 'Objects of the Issue'.***

As the Issue size is not more than ₹10,000 lakhs, under Regulation 82 of the SEBI (ICDR) Regulations it is not required that a monitoring agency be appointed by our Company, for overseeing the deployment and utilisation of funds raised through this Issue. Therefore, the deployment of the funds towards the Objects of this Issue is entirely at the discretion of our Board of Directors and is not subject to monitoring by external independent agency. Our Board of Directors along with the Audit Committee will monitor the utilisation of Issue proceeds and shall have the flexibility in applying the proceeds of this Issue. However, the management of our Company shall not have the power to alter

the objects of this Issue except with the approval of the shareholders of the Company given by way of a special resolution in a general meeting, in the manner specified in Section 27 of the Companies Act. Additionally, the dissenting shareholders being those shareholders who have not agreed to the proposal to vary the objects of this Issue, our Promoters shall provide them with an opportunity to exit at such price, and in such manner and conditions as may be specified by the SEBI, in respect to the same. For further details, please refer to the section titled '**Objects of the Issue**' on page 48 of this Draft Letter of Offer.

As on the date of Draft Letter of Offer, our Company holds 6,61,00,000 (Six Crores Sixty-One Lakhs) partly paid-up equity shares representing 68.59% (Sixty-Eight point Five Nine Percent) of the voting share capital of Tilak Ventures Limited and has paid an application amount of ₹16,52,50,000.00/- (Rupees Sixteen Crores Fifty-Two Lakhs and Fifty Thousand Only) from internal sources for subscribing to their rights issue. The balance amount of ₹16,52,50,000.00/- (Rupees Sixteen Crores Fifty-Two Lakhs and Fifty Thousand Only) shall be called by the board of the TVL subject to suitable market conditions and discretionary power of the Board. Out of the Net Proceeds, we intend to raise an amount of ₹16,52,50,000.00/- (Rupees Sixteen Crores Fifty-Two Lakhs and Fifty Thousand Only) for funding our associate company through the Proceeds of Rights Shares, subject to assuming full subscription in the said Issue.

If in the event, our Company fails to achieve full subscription in the Issue, our Company may have to resort to additional fund-raising options in compliance with the provisions of applicable laws. Due to this fund-raising activity, in the form of securities or debt borrowings there might be dilution of stake of the Promoters and members of the Promoter Group of our Company, or it might affect the financial operations of our Company.

Further, if we are unable to arrange adequate financing on timely basis, it could adversely affect our ability to complete investment plans. Our ability to arrange financing and the costs of capital of such financing are dependent on numerous factors, including general economic and capital market conditions, credit availability from banks, investor confidence, the continued success of our operations and regulatory framework that allows us to raise capital. If we decide to meet our capital requirements through debt financing, we may be subject to certain restrictive covenants. If we are unable to raise adequate capital in a timely manner and on acceptable terms, or at all, our business, results of operations, cash flows and financial condition could be adversely affected.

ISSUE SPECIFIC FACTORS

21. *Our Company will not distribute the Offer Documents to certain overseas shareholders who have not provided an address in India for service of documents.*

Our Company will dispatch the Offer Documents to such shareholders who have provided an address in India for the service of documents or who are in jurisdictions where the offer and sale of the Right Shares permitted under laws of such jurisdictions and in each case who make a request in this regard. The Offer Documents will not be distributed to addresses outside India on account of restrictions that apply to the circulation of such materials in various overseas jurisdictions. However, the Companies Act requires companies to serve documents at any address, which may be provided by the members as well as through e-mail. Presently, there is a lack of clarity under the Companies Act, 2013, and the rules thereunder, with respect to the distribution of Issue Materials in overseas jurisdictions where such

distribution may be prohibited under applicable laws of such jurisdictions. While we have requested all the shareholders to provide an address in India for the purposes of distribution of Issue Materials, we cannot assure you that the regulator or authorities would not adopt a different view with respect to compliance with the Companies Act and may subject us to fines or penalties.

22. ***SEBI has recently, by way of circulars dated January 22, 2020, May 6, 2020, and January 19, 2021, streamlined the process of rights issues. You should follow the instructions carefully, as stated in such SEBI circulars, and in this Letter of Offer.***

The proportionate ownership and voting interest in our Company of Eligible Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for dilution of your percentage ownership of the equity share capital of our Company that may be caused because of the Issue. Renouncees may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renouncees prior to the Issue Closing Date. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Further, any gain realized on the sale of listed equity shares held for a period of 12 (Twelve) months or less will be subject to short-term capital gains tax in India. Capital gains arising from the sale of the Equity Shares may be partially or completely exempt from taxation in India in cases where such exemption is provided under a treaty between India and the country of which the seller is a resident. Generally, Indian tax treaties do not limit India’s ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on gains made upon the sale of the Equity Shares.

Further, the Finance Act, 2019, which has been notified with effect from April 01, 2019, stipulates the sale, transfer and issue of securities through exchanges, depositories or otherwise to be charged with stamp duty. The Finance Act has also clarified that, in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, and the onus will be on the transferor. The stamp duty for transfer of securities other than debentures, on a delivery basis is specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount. These amendments have been notified on December 10, 2019 and have come into effect from July 01, 2020.

The Finance Act, 2020 has also provided several amendments to the direct and indirect tax regime, including, without limitation, a simplified alternate direct tax regime and that dividend distribution tax will not be payable in respect of dividends declared, distributed or paid by a domestic company after March 31, 2020, and accordingly, such dividends would not be exempt in the hands of the shareholders, both resident as well as non-resident.

30. *You may not receive the Equity Shares that you subscribe in the Issue until 15 (Fifteen) days after the date on which this Issue closes, which will subject you to market risk.*

The Equity Shares that you subscribe in the Issue may not be credited to your demat account with the depository participants until approximately 15 (Fifteen) days from the Issue Closing Date. You can start trading such Equity Shares only after receipt of the listing and trading approval in respect thereof. There can be no assurance that the Equity Shares allocated to you will be credited to your demat account, or that trading in the Equity Shares will commence within the specified time period, subjecting you to market risk for such period.

31. *Holders of Equity Shares could be restricted in their ability to exercise pre-emptive rights under Indian law and could thereby suffer future dilution of their ownership position.*

Under the Companies Act, any Company incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages prior to the issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the shares voted on such resolution, unless our Company has obtained government approval to issue without such rights. However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without us filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights unless we make such a filing. We may elect not to file a registration statement in relation to pre-emptive rights otherwise available by Indian law to you. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interests in us would be reduced.

32. ***There is no guarantee that our Equity Shares will be listed in a timely manner or at all which may adversely affect the trading price of our Equity Shares.***

In accordance with applicable laws and regulations and the requirements of the BSE Limited, in principle and final approvals for listing and trading of the Right Shares issued pursuant to this Issue will not be applied for or granted until after the Right Shares have been issued and allotted. Approval for listing and trading will require all the relevant documents authorising the issuance of Right Shares to be submitted. Accordingly, there could be a delay in listing the Right Shares on the NSE. If there is a delay in obtaining such approvals, we may not be able to credit the Right Shares allotted to the Investors to their depository participant accounts or assure ownership of such Right Shares by the Investors in any manner promptly after the Issue Closing Date. In any such event, the ownership of the Investors over Right Shares allotted to them and their ability to dispose of any such Equity Shares may be restricted. For further information on issue procedure, please refer to the section titled '**Terms of the Issue**' beginning on page 136 of this Draft Letter of Offer.

33. ***Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may adversely affect the value of our Equity Shares, independent of our operating results.***

On listing, our Equity Shares will be quoted in Rupees on the Stock Exchanges. Any dividends in respect of our Equity Shares will also be paid in Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by equity shareholders. For example, the exchange rate between the Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may adversely affect the trading price of our Equity Shares and returns on our Equity Shares, independent of our operating results.

34. ***Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.***

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a Company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian Company than as shareholder of a corporation in another jurisdiction.

EXTERNAL RISK FACTORS

35. ***Global economic, political, and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.***

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, consumer debt levels, unemployment trends, terrorist threats and activities, worldwide military and domestic disturbances and conflicts, and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude.

36. ***Any downgrading of India's debt rating by an international rating agency could have a negative impact on our business.***

Any adverse revision to India's credit rating for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our financial performance and our ability to obtain financing to fund our growth on favourable terms or at all.

37. ***The occurrence of natural calamities or man-made disasters could have a negative effect on the Indian economy and cause our business to suffer.***

India has experienced natural calamities such as earthquakes, tsunami, floods, drought, fires, explosions, tornadoes, pandemic disease and man-made disasters including acts of terrorism and military actions in the past few years. The extent and severity of these natural and man-made disasters determines their effect on the Indian economy. The erratic progress of a monsoon would also adversely affect sowing operations for certain crops. Further prolonged spells of below normal rainfall or other natural calamities in the future could have a negative effect on the Indian economy, adversely affecting our business and the price of our Equity Shares.

38. ***The impact of the COVID-19 pandemic on our business and operations is uncertain and cannot be predicted.***

The impact of the pandemic on our business, operations and future financial performance includes, but are not limited to:

- ***Operations and business continuity:*** Pursuant to the lockdown, we temporarily closed our office. With the easing of the lockdown, we have gradually resumed business operations, following hygiene checks and sanitization. However, a surge in the number of COVID-19 cases in the future could result in a complete or partial closure of, or other operational issues at our offices resulting from government action.
- ***Collections:*** The lockdown resulted in an inability to physically collect from the retail customers on-field due to several restricted activities. Further, our collections were affected owing to the restrictions on gathering of more than certain number of people specifically in relation to micro loans where collections are undertaken through a meeting. Since the gradual relaxations in the lockdown, we have recommenced our collection efforts and increased our workforce dedicated to collection efforts. However, such efforts could be adversely affected in case there is a surge in COVID-19 cases.
- ***Net interest income and Fee income:*** With the slowdown in disbursement and maintenance of additional liquidity, there was a substantial drop in fee income and net interest income in the first quarter of Financial Year 2021. The fees earned by way of processing fees; cross-selling could be further impacted due to slower economic activity on account of the pandemic.
- ***Non-payment or defaults by customers:*** Due to economic slowdown caused by the COVID-19, there could be delays and defaults associated with repayment of advance from customers which may adversely affect our cash flows.
- ***Security:*** There was an increased vulnerability to cyber-security threats and potential breaches, including phishing attacks, malware, and impersonation tactics, resulting from the increase in numbers of individuals working from home.
- ***Productivity:*** Inherent productivity, connectivity, and oversight challenges due to an increase in number of individuals working from home may affect our business and results of operations.

The impact of the COVID-19 pandemic on our business will depend on a range of factors which we are not able to accurately predict, including the duration, severity and scope of the pandemic, the geographies impacted, the impact of the pandemic on economic activity in India, and the nature and severity of measures adopted by governments. Other factors include but are not limited to significant volatility in financial markets and measures adopted by governments and central banks.

39. ***A slowdown in economic growth in India could cause our business to suffer.***

We are incorporated in India, and all our assets and employees are located in India. As a result, we are highly dependent on prevailing economic conditions in India and our results of operations are significantly affected by factors influencing the Indian economy. A slowdown in the Indian economy could adversely affect our business, including our ability to grow our assets, the quality of our assets, and our ability to implement our strategy.

Factors that may adversely affect the Indian economy, and hence our results of operations, may include:

- Any increase in Indian interest rates or inflation.
- Any scarcity of credit or other financing in India.
- Prevailing income conditions among Indian consumers and Indian corporations.
- Changes in India's tax, trade, fiscal or monetary policies.
- Political instability, terrorism, or military conflict in India or in countries in the region or globally, including in
- India's various neighbouring countries.
- Prevailing regional or global economic conditions; and
- Other significant regulatory or economic developments in or affecting India.

Any slowdown in the Indian economy or in the growth of the sectors we participate in or future volatility in global commodity prices could adversely affect our borrowers and contractual counterparties. This in turn could adversely affect our business and financial performance and the price of our Equity Shares.

40. *Financial instability in both Indian and international financial markets could adversely affect our results of operations and financial condition.*

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the United States and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have an adverse effect on the securities of companies in other countries. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in the Indian economy in general. Any global financial instability, including further deterioration of credit conditions in the U.S. market, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our results of operations and financial condition.

The Indian economy is also influenced by economic and market conditions in other countries. This includes, but is not limited to, the conditions in the United States, Europe, and certain economies in Asia. Financial turmoil in Asia and elsewhere in the world in recent years has affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and directly or indirectly, adversely affect the Indian economy and financial sector and its business.

Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby impact the Indian economy. Financial disruptions in the future could adversely affect our business, prospects, financial condition, and results of operations. The global credit and equity markets have experienced substantial dislocations, liquidity disruptions and market corrections.

There are concerns that a tightening of monetary policy in emerging markets and some developed markets will lead to a moderation in global growth. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, have implemented a number of policy measures designed to add stability to the financial markets. However, the overall long-term impact of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have had the intended stabilizing effects. Any significant financial disruption in the future could have an adverse effect on our cost of funding, loan portfolio, business, future financial performance and the trading price of the Equity Shares.

41. *Inflation in India could have an adverse effect on our profitability and if significant, on our financial condition.*

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of salaries, and other expenses relevant to our business.

High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to pass on to our customers, whether entirely or in part, and the same may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or increase our rates to pass the increase in costs on to our customers. In such case, our business, results of operations, cash flows and financial condition may be adversely affected.

Further, the GoI has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future.

42. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

As an Indian Company, we are subject to exchange controls that regulate borrowing in foreign currencies, including those specified under FEMA. Such regulatory restrictions limit our financing sources for our projects under development and hence could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that the required approvals will be granted to us without onerous conditions, or at all. Limitations on foreign debt may adversely affect our business growth, results of operations and financial condition.

Further, under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI, or any other government agency can be obtained on any particular terms or at all.

43. *Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, may adversely affect our business, prospects, and results of operations.*

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy. For example, the Government of India implemented a comprehensive national goods and services tax (hereinafter referred to as 'GST') regime with effect from July 1, 2017, that combined multiple taxes and levies by the Central and State Governments into a unified tax structure.

Our business and financial performance could be adversely affected by any unexpected or onerous requirements or regulations resulting from the introduction of GST or any changes in laws or interpretation of existing laws, or the promulgation of new laws, rules and regulations relating to GST, as it is implemented. The Government has enacted the GAAR which have come into effect from April 1, 2017.

The Government of India has announced the union budget for Fiscal 2021 and the Ministry of Finance has notified the Finance Act, 2020 (hereinafter referred to as '**Finance Act**') on March 27, 2020, pursuant to assent received from the President, and the Finance Act will come into operation with effect from July 1, 2020. There is no certainty on the impact that the Finance Act may have on our business and operations or on the industry in which we operate. We cannot predict whether any amendments made pursuant to the Finance Act would have a material adverse effect on our business, financial condition, and results of operations. Unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals. For instance, the Supreme Court of India has, in a decision clarified the components of basic wages, which need to be considered by companies while making provident fund payments. Our Company has

not made relevant provisions for the same, as on date. Any such decisions in future or any further changes in interpretation of laws may have an impact on our results of operations. Further, a draft of the Personal Data Protection Bill, 2019 (hereinafter referred to as '**Bill**') has been introduced before the Lok Sabha on December 11, 2019, which is currently being referred to a joint parliamentary committee by the Parliament. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects.

Uncertainty in the applicability, interpretation, or implementation of any amendment to, or change in, governing law, regulation, or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current businesses or restrict our ability to grow our businesses in the future.

44. *We are subject to regulatory, economic, social, and political uncertainties and other factors beyond our control.*

We are incorporated in India, and we conduct our corporate affairs and our business in India. Consequently, our business, operations, financial performance will be affected by interest rates, government policies, taxation, social and ethnic instability, and other political and economic developments affecting India.

SECTION VI – ABOUT THE COMPANY

INDUSTRY OVERVIEW

INTRODUCTION TO INDIAN FINANCIAL SERVICE INDUSTRY

India has a diversified financial sector undergoing rapid expansion, both in terms of strong growth of existing financial services firms and new entities entering the market. The sector comprises commercial banks, insurance companies, non-banking financial companies, co-operatives, pension funds, mutual funds, and other smaller financial entities. The banking regulator has allowed new entities such as payments banks to be created recently thereby adding to the types of entities operating in the sector.

The Government of India has introduced several reforms to liberalize, regulate and enhance this industry. The Government and Reserve Bank of India (RBI) have taken various measures to facilitate easy access to finance for Micro, Small and Medium Enterprises (MSMEs). These measures include launching Credit Guarantee Fund Scheme for Micro and Small Enterprises, issuing guideline to banks regarding collateral requirements and setting up a Micro Units Development and Refinance Agency (MUDRA). With a combined push by both government and private sector, India is undoubtedly one of the world's most vibrant capital markets.

REFORMS IN INDIAN FINANCIAL SERVICES INDUSTRY

Until the early 1990s, the role of the financial system in India was primarily restricted to the function of channeling resources from the surplus to deficit sectors. Whereas the financial system performed this role reasonably well, its operations came to be marked by some serious deficiencies over the years. The banking sector suffered from lack of competition, low capital base, low productivity, and high intermediation cost. After the nationalization of large banks in 1969 and 1980, public ownership dominated the banking sector. The role of technology was minimal, and the quality of service was not given adequate importance. Banks also did not follow proper risk management system and the prudential standards were weak. All these resulted in poor asset quality and low profitability. In the insurance sector, there was little competition. The mutual fund industry also suffered from lack of competition and was dominated for long by one institution, viz., the Unit Trust of India.

Wide-ranging financial sector reforms in India were introduced as an integral part of the economic reforms initiated in the early 1990s. Financial sector reforms in India were grounded in the belief that competitive efficiency in the real sectors of the economy will not be realized to its full potential unless the financial sector was reformed as well. Thus, the principal objective of financial sector reforms was to improve the allocative efficiency of resources and accelerate the growth process of the real sector by removing structural deficiencies affecting the performance of financial institutions and financial markets.

The main thrust of reforms in the financial sector was on the creation of efficient and stable financial institutions and markets. Reforms in respect of the banking as well as non-banking financial institutions focused on creating a deregulated environment and enabling free play of market forces while at the same time strengthening the prudential norms and the supervisory system. In the case of non-banking financial intermediaries, reforms focused on removing sector-specific deficiencies. Thus, while reforms in respect of Development Financial Institutions focused on imparting market orientation to their operations by withdrawing assured sources of funds, in the case of NBFCs, the reform measures brought their asset side also under the regulation of the Reserve Bank. In the case of the insurance sector and mutual funds, reforms attempted to create a competitive environment by allowing private sector participation. Reforms in financial markets focused on removal of structural bottlenecks, introduction of new players/instruments, free pricing of financial assets, relaxation of quantitative restrictions, improvement in trading, clearing and settlement practices, more transparency, etc. Reforms encompassed regulatory and legal changes, building of institutional infrastructure, refinement of market microstructure and technological upgradation. In the various financial market segments, reforms aimed at creating liquidity and depth and an efficient price discovery process.

STRUCTURE OF CREDIT MARKET IN INDIA

Credit markets perform the critical function of intermediation of funds between savers and investors and improve the allocative efficiency of resources. Banks, which are major players in the credit market, play an important role in providing various financial services and products, including hedging of risks. Credit markets also play a key role in the monetary transmission mechanism.

The credit market in India has traditionally played a predominant role in meeting the financing needs of various segments of the economy. Credit institutions range from well-developed and large sized commercial banks to development finance institutions (DFIs) to localized tiny co-operatives. They provide a variety of credit facilities such as short-term working loans to corporates, medium and long-term loans for financing large infrastructure projects and retail loans for various purposes. Unlike other segments of the financial market, the credit market is well spread throughout the country, and it touches the lives of all segments of the population.

The credit market structure in India has evolved over the years. A wide range of financial institutions exist in the country to provide credit to various sectors of the economy. These include commercial banks, regional rural banks (RRBs), cooperatives [comprising urban cooperative banks (UCBs), State co-operative banks (STCBs), district central co-operative banks (DCCBs), primary agricultural credit societies (PACS), state co-operative and agricultural rural development banks (SCARDBs) and primary co-operative and agricultural rural development banks (PCARDBs)], financial institutions (FI) (term-lending institutions, both at the Centre and State level, and refinance institutions) and non-banking financial companies (NBFCs).

RECENT DEVELOPMENTS IN NBFC SECTOR

At this juncture, NBFC sector is passing through a critical phase. Recent failures of certain large Non-Banking Financial Companies (NBFCs), severe liquidity strain confronting the sector and the consequent financial stability concerns have brought NBFC regulations back into focus. We thought that the time is opportune to talk a little bit on the innovative transformations taking place in the NBFC sector and the regulatory response from the Reserve Bank. It would be contextual to take stock of the direction in which regulatory focus has moved and what could be the future shape of NBFC regulations. This is intended as an analysis to evoke discussion and debate on the subject.

Growth of NBFC sector and the need for prudence 3. NBFCs have come a long way in terms of their scale and diversity of operations. They now play a critical role in financial intermediation and promoting inclusive growth by providing last-mile access of financial services to meet the diversified financial needs of less-banked customers. Over the years, the segment has grown rapidly, with a few of the large NBFCs becoming comparable in size to some of the private sector banks. The sector has also seen advent of many non-traditional players leveraging technology to adopt tech-based innovative business models. Between March 31, 2009 and March 31, 2019, the total assets² of NBFCs grew at a compounded annual growth rate (CAGR) of 18.6 per cent, while the balance sheets of scheduled commercial banks (SCBs) grew at a CAGR of 10.7 per cent. Consequently, the aggregate balance sheet size of NBFCs increased from 9.3 per cent to 18.6 per cent of the aggregate balance sheet size of SCBs during the corresponding period. In absolute terms, the asset size of NBFC sector (including HFCs), as on March 31, 2020, is Rs.51.47 lakh crore³. As at end-March 2020, NBFCs have been the largest net borrowers of funds from the financial system, of which, more than half of the funds were from SCBs, followed by Asset Management Companies-Mutual Funds (AMC-MFs) and Insurance Companies. As the financial intermediation has shifted, so has interconnectedness. Many NBFCs now rely on banking system for funds and emergency liquidity needs. Therefore, it is not enough to understand and confront the vulnerabilities of the banking sector alone. The need of the hour is to understand vulnerabilities in the NBFC sector and how shocks are transmitted to or from the sector.

Chart 1: Size & Growth of NBFC sector

Source: Supervisory Returns, RBI

It is important to recognize that challenges faced by some of the NBFCs were reflective of inherent fragilities. As financial markets started differentiating between strong/well managed NBFCs and those having perceptible weaknesses, market discipline started to play out - entities with asset-liability mismatches or asset quality concerns faced constraints on market access. RBI, in response, took several calibrated steps to channel credit flow into the NBFC sector and improve the sector's long-term resilience. 8. As the sector was slowly inching towards normalcy (as can be seen from Table-1 below), the outbreak of COVID-19 and disruptions in economic activity due to lockdowns led to building up of huge stress in the financial system. While the entire financial system was affected, the impact was significantly greater on NBFCs due to their underlying business models, thereby straining their profitability. Table

Profitability of NBFC Sector (Deposit Taking and NDSI) (Amount in Rs. Crore)

Profitability Parameters	March 2017	March 2018	March 2019	March 2020

Annualised RoE (%)	6.3	6.8	2.4	5.1

Data source- Supervisory Return

The regulatory approach of the Reserve Bank has adapted to the increase in complexity of the entities within the NBFC sector as well as the growing significance of NBFCs within the financial sector. The core principles of NBFCs regulation, however, has remained intact, i.e., - a) protection of depositors (in case of deposit-accepting companies) and customers; and, b) preserving financial stability. The varying emphasis on these objectives at different points in time has led RBI to deploy different policy tools as appropriate. We must recognise that NBFC regulation has undergone certain fundamental changes in recent years.

Here are five outlines of these most significant changes in brief - (i). First and foremost, in line with RBI's emphasis on ownership-neutral regulations, Government owned NBFCs have been brought under the purview of prudential regulation since May 2018. Considering that Government owned NBFCs account for more than one-third of the sector, predominantly in infrastructure financing, this is a significant change. (ii). Second, considering the recent turmoil some NBFCs had to face because of liquidity stress, the criticality of sound liquidity risk management by NBFCs has been reinforced with the introduction of the liquidity risk management framework for NBFCs with asset size above Rs.100 crores. All NBFCs, irrespective of size are encouraged to follow the framework. The guidelines emphasize the 'Principles of Sound Liquidity Risk Management and Supervision' published by Basel Committee on Banking Supervision. The framework expects the Boards of NBFCs to take an active role in the management of liquidity risk and deploy internal monitoring tools suitable to their business profile. More importantly, the regulations have devised a simplified and tailored Liquidity Coverage Ratio (LCR) meant for large NBFCs. It would prepare large NBFCs to

effectively meet cash outflows even under severe liquidity stress scenarios over a 30-day horizon. No doubt, maintaining adequate high-quality liquidity assets would have repercussion on the overall yields of NBFCs, but the regulation is commensurate with the need to mitigate risks associated with maturity/liquidity transformation the NBFCs engage in. (iii). The third important development is in connection with FinTech based product delivery. It is now well recognised that non-banking financial sector would be a fertile ground for technology-based experimentation in financial products and services. Regulations have sought to create a conducive environment in this regard. For example, the timely introduction of guidelines for P2P lending platforms has ensured orderly growth of the segment anchored in high standards of prudence. Those have made lending platforms a neutral meeting place for lenders and borrowers and keeping them insulated from handling of funds involved in the underlying transactions. Regulations have brought down risks while creating the right environment for legitimate expansion of business opportunities. The ecosystem created under the Account Aggregator (AA) framework is yet another example of proactive regulation in the technology-intense activities. The AA framework has ushered in the required framework for safe, secure and consent-based sharing of information on financial assets of a customer. The critical regulatory aspect to be noted here is that the Account Aggregator does not store or view the data passing through it, thereby leaving no scope for any perverse incentive to abuse/ misuse the financial data.

With the growth in size and interconnectedness, NBFCs have increasingly become systemically significant and the prudential regulations for NBFC sector have evolved to give greater focus to the theme of financial stability. However, let's not forget that regulation-light structure of NBFCs has enabled the flexibility enjoyed by them. This flexibility is the primary advantage of NBFCs over banks, enabling them to serve the last mile of financial intermediation. Therefore, it is imperative to strike a balance between regulating the NBFCs more tightly and the need to provide them the required flexibility. This will remain the cornerstone while we imagine the future of regulation for NBFCs. The Future Principle of Proportionality

There is a view that any regulatory framework would ideally be designed according to the principle of proportionality. By extension, the spill-over of risks from a systematically important NBFC capable of transmitting perceptible impact on financial stability, must be dealt with in a proportionate manner. So, NBFCs with significant externalities and which contribute substantially to systemic risks must be identified and subjected to a higher degree of regulation. One can also argue that the design of prudential regulatory framework for such NBFCs can be comparable with banks so that beyond a point of criticality to systemic risks, such NBFC should have incentives either to convert into a commercial bank or scale down their network externalities within the financial system. This would make the financial sector sound and resilient while allowing a majority of NBFCs to continue under the regulation-light structure.

Within the proportionality paradigm, one must deal with entities which neither belong to the critical ones in terms of systemic risk nor are they too small in their scale and complexity. These NBFCs currently enjoy great degree of regulatory arbitrage vis-à-vis banks. As a group, these entities can contribute to build-up of systemic risks because of the regulatory arbitrage enjoyed by them; hence there is a need to recalibrate the regulations.

While dealing with proportionality principle, let me also touch upon the regulation of microfinance sector as well. We all are aware of the circumstances under which the regulatory framework for NBFC-MFIs was framed. Much water has flown under the bridge since then. Several large MFIs have converted into Small Finance Banks. The share of NBFC-MFIs in the overall microfinance sector has come down to a little over 30 per cent. Today we are in a situation, where the regulatory rigour is applicable only to a small part of the microfinance sector. There is a need to re-prioritise the regulatory tools in the microfinance sector so that our regulations are activity-based rather than entity-based. After all, the core of microfinance regulation lies in customer/consumer protection.

We need to strike the right balance between the degree of regulation and the need for flexibility – a critical issue I alluded to a while ago. We could perhaps consider a graded regulatory framework for NBFCs calibrated in relation to their contribution to systemic significance. Regulating the FinTech

Although significant regulatory steps have been taken already in the FinTech, the dynamic nature of the FinTech focused NBFCs keeps throwing up new challenges. The NBFC sector has been in the forefront in adopting innovative fintech-led delivery of products and services which are transforming the way one can imagine access to and interaction with these services. The advance technological solutions such as Big Data Analytics and Artificial Intelligence are being adopted by a large number of players to extend credit in an efficient manner over digital platforms. The Reserve

Bank has been on the forefront of creating an enabling environment for growth of digital technology for new financial products and services. In fact, in the non-banking space, the RBI has been ahead of the curve and has come out with regulations for new products and services when the industry itself was at nascent stage. Peer to peer (P2P) lending, Account Aggregator (AA), and credit intermediation over “only digital platform” are case in point where the regulations have helped the industry to grow in a systematic and robust manner. While making regulation for the future in FinTech area, orderly growth and customer protection and data security will remain the guiding principles for the RBI. Ensuring transparency and governance

Ensuring good corporate governance in NBFCs is at the core of any regulatory change. This is not an easy objective to meet, as good governance is essentially an aspirational achievement for an entity and it can seldom be founded only on regulatory prescriptions. Good governance would be a natural outcome if promoters/owners and senior management are fundamentally ‘fit and proper’. It is extremely critical that appropriate filtering mechanisms are in place to allow only the genuine and able promoters to start the business of NBFCs. After all, by issuing Certificate of Registration to new NBFCs, we provide them with the regulatory mandate to access public funds multiple times their net worth. Besides, it is necessary that NBFCs do not become conduits in money laundering and terrorist financing in any manner. While the current mechanism within RBI focuses on the above objective for companies seeking registration, there is a need to extend similar rigor of due diligence whenever there is a change in ownership/ control in an existing NBFC.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2021, and profit including other comprehensive income, its cash flows and changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the 'Auditors' Responsibilities for the Audit of the Standalone financial statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on Standalone financial statements.

Emphasis of Matter

We further draw an attention to the uncertainties and the management's assessment of the financial impact due to the lockdowns and other restrictions and conditions related to the Covid-19 pandemic situation, for which a definitive assessment of the impact in the subsequent period is highly dependent upon circumstances as they evolve.

Our opinion is not modified in respect of these matters.

Information other than Consolidated financial statements and Auditors' report thereon

The company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report but does not include the Standalone financial statements and our auditors' report thereon.

Our opinion on Consolidated financial statements does not cover the other information and we do not express any form of conclusion thereon.

If, based on the work we have performed, we conclude that there is material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of the Consolidated Ind AS financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error. In preparing the Consolidated Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility

Auditor's Responsibilities is for the Audit of the Consolidated Ind AS Financial Statements. Our objectives are to obtain reasonable assurance about whether the Consolidated Ind AS Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the Consolidated Ind AS Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Ind AS Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our

opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated Ind AS Financial Statements, including the disclosures, and whether the Consolidated Ind AS Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we are required to determine those matters that were of most significance in the audit of the Consolidated Ind AS Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

ANNEXURE B TO THE AUDITOR'S REPORT-31ST MARCH 2021

Report on the Internal Financial Controls under Clause (i) of sub- section 3 of the Section 143 of the Companies Act, 2013 ('the Act)

We have audited the internal financial controls over financial reporting of M/s Banas Finance Limited (the company) and its Associate Company as of 31st March 2021 in conjunction with our audit of the Consolidated financial statements of the company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountant of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Not on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control-based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorization of the Management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Consolidated financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and

not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Qualified Opinion

According to the information and explanations given to us and based on our audit, the following material weaknesses have been identified as at March 31, 2021.

a) The Company did not have an appropriate internal control system for granting Loans. Demand and other loans given are governed by the Board policies. Considering the close monitoring of Board, no appraisal, renewal, Policies, Procedure, Committee or documents have been prescribed and executed.

b) The Company's internal control system is not commensurate to the size and scale of operation over purchase and sale of shares and inventory and for expenses incurred.

A 'material weaknesses' is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

In our opinion, except for the effects / possible effects of the material weaknesses described above on the achievement of the objectives of the control criteria, the Company has maintained, in all material respects, adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as of March 31, 2021, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Chartered Accountants of India.

We have considered the material weaknesses identified and reported above in determining the nature, timing, and extent of audit tests applied in our audit of the March 31, 2021, Consolidated financial statements of the Company, and the material weaknesses does not affect our opinion on the Consolidated financial statements of the Company.

BANAS FINANCE LIMITED

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR YEAR PERIOD 31.03.2021

Note: - 1

A) Basis of preparation of Consolidated Financial Statements

In accordance with the notification issued by the Ministry of Corporate Affairs, the Company is required to prepare its Financial Statements as per the Indian Accounting Standards prescribed under Section 133 of the Companies Act, 2013 read with rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 as amended by the Companies (Accounting Standards) Amendment Rules, 2016 with effect from 1st April, 2016. Accordingly, the Company has prepared these Consolidated Financial Statements which comprise the Balance Sheet as at 31st March, 2021, the Statement of Profit and Loss, the Statement of Cash Flows and the Statement of Changes in Equity for the year ended 31st March, 2021, and a summary of the significant accounting policies and other explanatory information of the company and its joint venture company (together hereinafter referred to as Consolidated Financial Statements")

B) Basis of measurement

The Consolidated Ind AS Financial Statements have been prepared on a going concern basis using historical cost convention and on an accrual method of accounting, except for certain financial assets and liabilities, which are measured at fair value.

C) Going Concern Assumption: -

The Consolidated Financial Statements have been prepared assuming entity will be able to continue its operation in near foreseeable future and there is no material circumstances casting doubt over going concern ability of company and neither management intends to liquidate its operation. Though company has accumulated loss, management has made sufficient viable plan to overcome such situation in future and the plan appears to be promising to validate the going concern assumption.

D) Inventory valuation

Cost of inventories includes cost of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Net realisable value represents the estimated selling price for inventories in the ordinary course of business less all estimated costs of completion and estimated costs necessary to make the sale.

E) Use of Estimates

The preparation of the Consolidated Financial Statements requires that the Management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities as at the date of the Consolidated Financial Statements and the reported amounts of revenue and expenses during the reporting period. The recognition, measurement, classification or disclosure of an item or information in the Consolidated Financial Statements is made relying on these estimates. ii) The estimates and judgements used in the preparation of the Consolidated Financial Statements are continuously evaluated by the Company and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future periods.

Actual results may differ from these estimates under different assumptions and conditions. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected. In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the Consolidated Financial Statements.

F) Cash Flow Statement

Cash flows are reported using indirect method as set out in Ind AS -7 of Cash whereby profit / (loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

G) Earnings per share

The Company presents basic and diluted earnings per share data for its equity shares. Basic EPS is calculated by dividing the profit and loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. Diluted EPS is determined by adjusting the profit and loss attributable to equity shareholders and the weighted average number of equity shares outstanding for the effects of all dilutive potential equity shares.

H) Provisions, Contingent Liabilities and Contingent Assets

A provision is recognized when an enterprise has a present obligation as a result of past event it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Possible future obligations or present obligations that may but will probably not require outflow of resources or where the same cannot be reliably estimated, is disclosed as contingent liabilities in the notes to accounts of Consolidated Financial Statements.

I) Property, plant and equipment (PPE) and Intangible assets Tangible Assets

Fixed assets are stated at cost, less accumulated depreciation and impairment losses if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use. Borrowing costs relating to acquisition of fixed assets which takes, substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use. Capital work in progress includes expenditure incurred till the assets are put into intended use.

Intangible Assets

Intangible Assets are stated at cost of acquisition net of recoverable taxes less accumulated amortisation / depletion and impairment loss, if any. The cost comprises purchase price, borrowing costs, and any cost directly attributable to

bringing the asset to its working condition for the intended use and net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the intangible assets.

a) Depreciation

Depreciation on tangible assets is provided using the Straight-Line Method over the useful lives of the assets estimated by the Management. Depreciation for the assets purchased / sold during the year is proportionately charged as prescribed in Schedule II to the Companies Act, 2013. Intangible assets are amortised over their respective individual estimated useful lives on a straight-line basis, commencing from the date the asset is available to the Company for its use.

b) Impairment of assets

The carrying amounts of assets are reviewed at each balance sheet dates and if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value at the weighted average cost of capital. If at the balance sheet date, there is an indication that a previously assessed impairment loss no longer exists, then such loss is reversed and the asset is restated to extent of the carrying value of the asset that would have been determined (net of amortization / depreciation), had no impairment loss been recognized. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

J) Investments

Investments that are readily realizable and intended to be held for not more than one year are classified as current investments. All other investments are classified as long-term investments. The investments have been valued at fair value in compliance with the Indian Accounting Standards

K) Taxation

Tax expense comprises of current income tax and deferred income tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act. Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits. At each balance sheet date, the Company re-assesses unrecognised deferred tax assets. It recognizes unrecognized deferred tax assets to the extent that it has become reasonably certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized. Minimum Alternative Tax (MAT) credit is recognised as an asset and carried forward only if there is a reasonable certainty of it being set off against regular tax payable within the stipulated statutory period.

L) Financial

A financial instrument is defined as any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Trade receivables and payables, loan receivables, investments in securities and subsidiaries, debt securities and other borrowings, preferential and equity capital etc. are some examples of financial instruments. All the financial instruments are recognised on the date when the company becomes party to the contractual provisions of the financial instruments. For tradable securities, the Group recognises the financial instruments on settlement date.

(i) Financial assets

Financial assets include cash, or an equity instrument of another entity, or a contractual right to receive cash or another financial asset from another entity. Few examples of financial assets are loan receivables, investment in equity and debt instruments, trade receivables and cash and cash equivalents.

Initial measurement

All financial assets are recognised initially at fair value including transaction costs that are attributable to the acquisition of financial assets except in the case of financial assets recorded at FVTPL where the transaction costs are charged to profit or loss."

Subsequent measurement

For the purpose of subsequent measurement, financial assets are classified as Equity instruments designated at FVOCI

All equity investments in scope of Ind AS 109 'Financial instruments' are measured at fair value. The company has strategic investments in equity for which it has elected to present subsequent changes in the fair value in OCI. The classification is made on initial recognition and is irrevocable.

All fair value changes of the equity instruments, excluding dividends, are recognised in OCI and not available for reclassification to profit or loss, even on sale of investments. Equity instruments at FVOCI are not subject to an impairment assessment."

Impairment of financial assets

Expected credit loss (ECL) are recognised for financial assets held under amortised cost, and certain loan commitments.

Financial assets where no significant increase in credit risk has been observed are considered to be in 'stage 1'. Financial assets that are considered to have significant increase in credit risk are considered to be in 'stage 2' and those which are in default or for which there is an objective evidence of impairment are considered to be in 'stage 3'. ECL is recognised for stage 2 and stage 3 financial assets.

In the event of a significant increase in credit risk, allowance (or provision) is required for ECL towards all possible default events over the expected life of the financial instrument ('lifetime ECL'). Financial assets (and the related impairment loss allowances) are written off in full, when there is no realistic prospect of recovery."

Treatment of the different stages of financial assets and the methodology of determination of ECL

(a) Credit impaired (stage 3)

The Company recognises a financial asset to be credit impaired and in stage 3 by considering relevant objective evidence, primarily whether the loan is otherwise considered to be in default."

(b) Significant increase in credit risk (stage 2)

An assessment of whether credit risk has increased significantly since initial recognition is performed at each reporting period by considering the change in the risk of default of the loan exposure."

(c) Without significant increase in credit risk since initial recognition (stage 1)

ECL resulting from default events that are possible in the next 12 months are recognised for financial instruments in stage 1. The Company has ascertained default possibilities on past behavioural trends witnessed for each homogenous portfolio using application/behavioural score cards and other performance indicators, determined statistically.

(d) Measurement of ECL

The assessment of credit risk and estimation of ECL are unbiased and probability weighted. It incorporates all information that is relevant including information about past events, current conditions and reasonable forecasts of future events and economic conditions at the reporting date. In addition, the estimation of ECL takes into account the time value of money. Forward looking economic scenarios determined with reference to external forecasts of economic parameters that have demonstrated a linkage to the performance of our portfolios over a period of time have been applied to determine impact of macro-economic factors. The Company has calculated ECL using three main components: a probability of default (PD), a loss given default (LGD) and the exposure at default (EAD). ECL is calculated by multiplying the PD, LGD and EAD and adjusted for time value of money using a rate which is a reasonable approximation of EIR. I Determination of PD is covered above for each stages of ECL. I EAD represents the expected balance at default, taking into account the repayment of principal and interest from the Balance Sheet date to the date of default together with any expected drawdowns of committed facilities. I LGD represents expected losses on the EAD given the event of default, taking into account, among other attributes, the mitigating effect of collateral value at the time it is expected to be realised and the time value of money."

M) Revenue recognition

Interest and related income

Interest and related income Interest income, for all financial instruments measured either at amortised cost or at fair value through other comprehensive income, is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset.

Dividend income

Dividend income is recognised when the Company's right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of the dividend can be measured reliably. This is generally when shareholders approve the dividend.

Sale of Securities held for trading

Company recognizes revenue to depict the transfer of promised goods to customers in an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods. The Company recognizes revenue from the sale of goods measured at the fair value of the consideration received or receivable.

NOTE 24: FINANCIAL RISK MANAGEMENT

(a) Risk Management Framework

In the ordinary course of business, the Company is exposed to a different extent to a variety of financial risks: foreign currency risk, interest rate risk, liquidity risk, price risk and credit risk. In order to minimize any adverse effects on the financial performance of the Company, derivative financial instruments, such as foreign exchange forward contracts, foreign currency option contracts are entered to hedge certain foreign currency risk exposures. Derivatives are used exclusively for hedging purposes and not as trading or speculative instruments.

(b) Credit Risk

Credit risk is the risk of financial loss arising out of a customer or counterparty failing to meet their repayment obligations to the Company. The Company assesses the credit quality of all financial instruments that are subject to credit risk.

Classification of financial assets under various stages

The Company classifies its financial assets in three stages having the following characteristics:

Stage 1: unimpaired and without significant increase in credit risk since initial recognition;

Stage 2: a significant increase in credit risk since initial recognition on which a lifetime ECL is recognised.

Stage 3: objective evidence of impairment and are therefore considered to be in default or otherwise credit impaired on which a lifetime ECL is recognised.

Unless identified at an earlier stage, all financial assets are deemed to have suffered a significant increase in credit risk.

The Company has calculated ECL using three main components: a probability of default (PD), a loss given default (LGD) and the exposure at default (EAD) along with an adjustment considering forward macro-economic conditions [for a detailed note for methodology of computation of ECL please refer to significant accounting policies note no 1(L) to the Consolidated financial statements.

The table below summarises the gross carrying values and the associated allowances for expected credit loss (ECL) stage wise for loan portfolio:

As at 31 March 2021 Particulars	Unsecured		
	Stage 1	Stage 2	Stage 3
Gross Carrying Value	47,81,02,435	2,47,78,705	3,44,03,722
Allowance for Expected credit loss	-	54,88,246	3,44,03,722
Expected credit loss Coverage ratio	0.00%	22.15%	100.00%

Investments are reviewed for any fair valuation loss on periodically basis and necessary provision/fair valuation adjustments has been made based on the valuation carried by the management to the extent available sources, the management does not expect any investment counterparty to fail to meet its obligations.

Trade Receivable, Trade Payable, Short Term Borrowings and Short-Term Loans and Advances balances are subject to confirmation and reconciliation

(c) Liquidity Risk management

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding to meet obligations when due. Due to the dynamic nature of the underlying businesses, Company's treasury maintains flexibility in funding by maintaining sufficient cash and bank balances available to meet the working capital requirements. Management monitors rolling forecasts of the Company's liquidity position (comprising the unused cash and bank balances along with liquid investments) on the basis of expected cash flows. This is generally carried out at Company level in accordance with practice and limits set by the Company. These limits vary to take into account the liquidity of the market in which the Company operates.

Ultimate responsibility for liquidity risk management rests with the board of directors. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(a) This section explains the judgments and estimates made in deterring the fair values of the financial instruments. To provide an indication about the reliability of the inputs used in determining fair value. The Company has classified its financial instruments into the three levels prescribed under the accounting standard

Total	-	-	11,28,66,824	-	-	10,68,13,702	-	-	10,03,87,845

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

(c) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments includes:

- the use of quoted market prices or dealer quotes for similar instruments
- the fair value of forward foreign exchange contracts is determined using forward exchange rate at the balance sheet date.
- the fair value of the remaining financial instruments is determined using discounted cash flow analysis.

All the resulting fair value estimates are included in level 2 or level 3, where the fair value have been determined based on present values and the discount rates used were adjusted for counterparty or own credit risk.

(d) Fair value Estimations

Estimated fair value disclosures of financial instruments are made in accordance with the requirements of Ind AS 107 “**Financial Instruments: Disclosure**” Fair value is defined as the amount at which the instrument could be exchanged in a current transaction between knowledgeable willing parties in an arm’s length transaction other than in forced or liquidation sale. As no readily available market exists for a large part of the Company's Financial instruments, judgement is necessary in arriving at fair value, based on current economic conditions and specific risk attributable to the instrument. The estimates presented herein are not necessarily indicative of the amount the Company could realise in a market exchange from the sale of its full holding or a particular instrument.

Dividend/Interest-bearing investments

Fair value is calculate based on discounted expected future principles and interest cash flows. The carrying amount on the Company's investment are valued at fair value on the basis of fair market rate with reference to the investment with similar credit risk level and maturity period at the reporting date.

Trade & other receivable / Payables

The management assessed that Trade Receivables, Cash and Cash equivalents, Bank Balances, Deposits, other non-derivative current financial, assets, Short term borrowings, Trade payables, Non derivative Current Financial Liabilities approximate their carrying amount largely due to the short-term maturities of these instruments.

There are no transfers between level 1 and level 2 during the year

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

There are two routes through which foreign investors may invest in India. One is the ‘automatic route’, where no government approval is required under Indian foreign exchange laws to make an investment as long as it is within prescribed thresholds for the relevant sector. The other route is the “government route”, where an approval is required under foreign exchange laws from the relevant industry regulator, prior to the investment.

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise way such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the FIPB. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion), Ministry of Finance, Department of Economic Affairs, FIPB section, through a memorandum dated June 5, 2017, has notified the specific ministries handling relevant sectors.

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated FDI Policy Circular of 2020 (**‘FDI Circular 2020’**), which, with effect from October 15, 2020, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Circular 2020 will be valid until the DPIIT issues an updated circular.

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict, the relevant notification under Foreign Exchange Management (Non-Debt Instruments) Rules, 2019 will prevail. The payment of inward remittance and reporting requirements are stipulated under the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 issued by RBI. The FDI Circular 2020, issued by the DPIIT, consolidates the policy framework in place as on October 15, 2020, and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of RBI, provided that:

1. The activities of the investee company fall under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the SEBI (SAST) Regulations;
2. The non- resident shareholding is within the sectoral limits under the FDI Policy; and
3. The pricing is in accordance with the guidelines prescribed by SEBI and RBI.

No investment under the FDI route (i.e., any investment which would result in the investor holding 10% or more of the fully diluted paid-up equity share capital of the Company or any FDI investment for which an approval from the government was taken in the past) will be allowed in the Issue unless such application is accompanied with necessary approval or covered under a pre-existing approval from the government. It will be the sole responsibility of the investors to ensure that the necessary approval or the pre-existing approval from the government is valid to make any investment in the Issue.

The Lead Manager to the Issue and our Company will not be responsible for any allotments made by relying on such approvals. Please also note that pursuant to Circular no. 14 dated September 16, 2003, issued by RBI, Overseas Corporate Bodies have been derecognized as an eligible class of investors and RBI has subsequently issued the Foreign Exchange Management (Withdrawal of General Permission to Overseas Corporate Bodies (OCBs)) Regulations, 2003. Any Investor being an OCB is required not to be under the adverse notice of RBI and in order to apply for this issue as a incorporated non-resident must do so in accordance with the FDI Circular 2020 and Foreign Exchange

Management (Non-Debt Instrument) Rules, 2019. Further, while investing in the Issue, the Investors are deemed to have obtained the necessary approvals, as required, under applicable laws and the obligation to obtain such approvals shall be upon the Investors. Our Company shall not be under an obligation to obtain any approval under any of the applicable laws on behalf of the Investors and shall not be liable in case of failure on part of the Investors to obtain such approvals.

The above information is given for the benefit of the Applicants / Investors. Our Company and the Lead Manager to the Issue are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of the Draft Letter of Offer.
