INTERNAL RISK FACTORS

BUSINESS RELATED RISKS

- 1. Our success largely depends upon the ability to bid and win various new e-Governance Projects. Any loss or our ability to bid and win new projects could adversely affect our business, operations and financial conditions.***

We have over the years built experience and execution capabilities to execute large scale field level Government projects. We are one of the few companies with the resources, the experience and the bandwidth to undertake nationwide e-Governance Projects and land record digitization & modernisation programme in India.

The success of our Company depends upon the management skills and guidance of our Promoter for development and implementation of business strategies and meeting future challenges.

The growth of our business mainly depends on our ability to obtain new projects in the sectors in which we operate. Generally, it is very difficult to predict whether and when we will be awarded a new project. Our future results of operations and cash flows can fluctuate materially from period to period depending on the timely award of projects, commencement of work and completion of projects in the scheduled time period. If we are unable to obtain new projects for our business, our business will be materially and adversely affected.

The Company has completed all the existing E-Governance projects and has currently put on hold its IT/ITES equipment trading and a B2B Trading service as it is in process of re-strategizing the future growth roadmap for the company. This will have material impact on the financials in the subsequent few quarters. The company shall leverage its previous experience and plans to Bid for New upcoming large scale Government projects, however in case the company fails to win the largescale e-Governance Projects than it would adversely affect our business, operations and financial conditions.

- 2. Our success depends on our ability to retain and attract key qualified personnel and operational staff and if we are not able to retain them or recruit additional qualified personnel, we may be unable to successfully develop our business.***

Our business and operations are led by a qualified, experienced and capable management team, the loss of whose services might delay or prevent the achievement of our business objectives. We may face attrition in our businesses from time to time. If we lose the services of any of the members of the management team or key personnel, we may be unable to identify suitable or qualified replacements and may incur additional expenses to recruit and train new personnel, which could adversely affect our business operations and affect our ability to continue to manage and expand our business. Furthermore, as we expect to continue to expand our operations and bid for new projects, we will be in need to continue to attract and retain experienced management, key research and development and other qualified personnel. In the event that we are unable to hire replacements in a timely manner or at all, our business operations and financial conditions may be adversely affected.

- 3. We participate in a competitive tender process to various government agencies, private entities and institutions. We may not successfully obtain tenders in the future and the tenders which we have successfully obtained may be withdrawn in the future and this could adversely impact our revenues and profitability.***

We participate in a competitive tender process to various government agencies, private entities and institutions. Pricing is a key factor in the tender process, and we may face challenges in participating in a tender process and having to manage our tender price due to internal budgets. If we are unable to win tenders, our future revenues and profitability may suffer. Additionally, for any reason, if we are disqualified from the tender process by a government agency, we may automatically be disqualified by other central and state government agencies. This may impact our business operations and growth.

- 4. If we fail to deliver our projects & services as per our contractual obligations to our customers, our Company could be subject to significant costs or liability and its reputation could be harmed.***

If we were to materially delay or err in the delivery of our projects or services, it could be subject to contract terminations as well as liability for damages that clients may sustain because of our errors and/or omissions. In such event, we could suffer material financial losses and/or reputational damage, which could materially and adversely affect its results of operations and financial condition.

5. ***Any project execution or quality control problems may damage our reputation and expose us to litigation or other liabilities and we are susceptible to liability claims that may not be covered by insurance and may require substantial expenditure and may adversely affect our reputation.***

The project execution or quality control may suffer due to delay in delivery of projects & services as per the project timeline. Such instances may be due to manpower / technology constraints and or any changes in government policies. Our involvement in a major project liability claim could damage our reputation and goodwill. Further, we would incur substantial litigation costs and the adverse outcome of any such claims, such as penalties, remediation would adversely affect our cash flow and financial statements and also divert management's time, thereby adversely affecting our results of operations and productivity.

6. ***We face the threat of fraud and cyber-attacks, such as hacking, phishing, trojans and advanced persistency threats, attempting to exploit our network to disrupt services to customers and/or theft of sensitive internal data or customer information, which may cause damage to our reputation and adversely impact our business and financial results.***

Our systemic and operational controls may not be adequate to prevent adverse impact from frauds, errors, hacking and system failures. Further, our computer systems may be open to being hacked or compromised by third parties, resulting in thefts and losses to our customers and us. Some of these cyber threats from third parties include hacking, phishing, trojans and advanced persistency threats. If we suffer from any of such cyber threats, it could materially and adversely affect our business, financial condition and results of operations. A significant system breakdown or system failure caused due to intentional or unintentional acts would have an adverse impact on our revenue-generating activities and lead to financial loss.

7. ***We may fail to provide best e-mobility practices and this could have an impact on our revenue and lead to financial loss.***

As India's infrastructural challenges are unique, and, hence, the best e-mobility practices identified in advanced international markets might not be effective or feasible to address India's problems. The approach to tackling the challenges and thereby developing solutions needs to be home-grown or tailor-made for Indian cities would have an adverse impact on our revenue-generating activities and lead to financial loss.

8. ***If we do not continue to invest in new technologies and equipment, our technologies and equipment may become obsolete and our cost of production may increase relative to our competitors, which would have a material adverse effect on our ability to compete, results of operations, financial condition and prospects.***

Our profitability and competitiveness are in large part dependent on our ability to maintain a low cost of production and upgrade our facility with the latest technology. Changes in technology may require us to make additional capital expenditures to upgrade our facilities to remain competitive. We need to continue to invest in new and more advanced technologies and equipment to enable us to respond to emerging technology, standards and practices in a cost-effective and timely manner that is competitive with our existing and potential competitors. If we are unable to adapt in a timely manner to changing market conditions, customer requirements or technological changes, our business and financial performance could be adversely affected.

9. ***In case we do not receive the minimum subscription, we will have to refund the entire subscription.***

Our Promoter, Kinex India Private Limited (*Formerly Known as Antanium India Private Limited*) by its letter dated March 30, 2024, has confirmed its intention not to subscribe to the Rights Issue.

Accordingly, in terms of the SEBI ICDR Regulations, the requirement of minimum subscription in the Issue shall be applicable. Pursuant to regulation 86(2) of the SEBI ICDR Regulations in case of non-receipt of minimum subscription, all application monies received shall be refunded to the applicants forthwith, but not later than four days from the closure of the Rights Issue.

10. ***Our inability to collect receivables and default in payment from our customers /supplier advances could result in the reduction of our profits and affect our cash flows.***

Our business operations depend on our ability to successfully obtain payment from our customer(s) for our products sold to them. Our Company is in process of billing and collecting on relatively short cycles and maintaining provisions against receivables and unbilled services. Actual losses on client balances could differ from those that we currently anticipate and as a result we might need to adjust our provisions.

Our credit terms vary from the start date of the invoice to approximately 23 days for our customers. In spite of our efforts to collect our dues from the respective creditors within the stipulated time, and further providing extended credit periods to collect our dues, we face the risk of non-receipt of our outstanding amounts in a timely manner or at all, particularly in the absence of long-term arrangements with customers. We cannot guarantee that our customers will not default on their payments. Our inability to collect receivables from our customers in a timely manner or at all in future, could adversely affect our working capital cycle and cash flows.

11. Failure to maintain confidential information of our customers could adversely affect our results of operations and damage our reputation.

We are required to keep confidential certain details of our customers. In the event of any breach or alleged breach of our confidentiality arrangements with our customers, these customers may initiate litigation against us for breach of confidentiality obligations. Moreover, if our customers' confidential information is misappropriated by us or our employees, our customers may seek damages and compensation from us. Claims of misappropriation of confidential information or the intellectual property of our customers against us, if successful, could have a material adverse effect on our business, financial condition and results of operations. Even if such claims against us are unsuccessful, they may cause reputational harm and substantial cost.

12. Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements and capital expenditures and the terms of our financing arrangements.

There can be no assurance that we will pay dividends in the future. The declaration of dividends would be recommended by our Board of Directors, at its sole discretion, and would depend upon a number of factors, including Indian legal requirements, our future earnings, financial condition, cash flows, working capital requirements and capital expenditures.

13. Services to customers may be delayed, modified, cancelled or not fully paid for by our customers, which may have an adverse effect on our business, financial condition and results of operations.

We may encounter problems in providing services on a timely basis. Moreover, factors beyond our control or the control of our customers may lead to delay in providing service or cause its cancellation, including delays or failure to obtain necessary permits, authorizations, permissions and other types of difficulties or obstructions. Due to the possibility of cancellations or changes in scope and schedule of service, resulting from our customer's discretion or problems we encounter in providing service or reasons outside our control or the control of our customers, we cannot predict with certainty when, if or to what extent we may be able to provide timely service. Additionally, delays in providing service can lead to customers delaying or refusing to pay the amount, in part or full, that we expect to be paid in respect of such service. Further, we operate in highly competitive markets in relation to our service where it is difficult to predict whether and when we will receive such awards. As a result, our results of operations can fluctuate from quarter to quarter and year to year depending on whether and when such orders are awarded to us and the commencement and progress of work under the orders placed.

14. Our Company has reported negative cash flow from operating and financing activities for the FY 2022-23 on consolidated financials.

Our Company has experienced negative net cash flow in operating and financing activities in the past, the details of which are provided below:

For further details please refer page no.86 of section titled "Financial Information".

- 15. *The estimates for the funds to be used for the other objects of the issue are those of the management only and any variation in the actual expenses/deployment of funds may affect our profitability and business operations.***

We intend to use part of the Net Proceeds (i) for acquisition of new Companies to achieve inorganic growth, (ii) To meet the Long-Term Working Capital Requirements and (iii) for general corporate purposes. Since we have not got the funding requirement for these objects of the issue appraised by any external appraisal agency, the actual expenditure might vary. Also, the general corporate purposes may not necessarily improve our profitability or increase our market value. Our management will have considerable discretion in the application of the Net Proceeds which may not be the most efficient method and thus may delay our operations.

- 16. *Our inability to effectively manage our growth or to successfully implement our business plan and growth strategy could adversely affect our business, results of operations and financial condition.***

We cannot assure you that our growth strategies will continue to be successful or that we will be able to continue to expand further, or at the same rate. Our inability to execute our growth strategies in a timely manner or within budget estimates or our inability to meet the expectations of our customers and other stakeholders could have an adverse effect on our business, results of operations and financial condition. Our future prospects will depend on our ability to grow our business and operations. The development of such future business could be affected by many factors, including general, political and economic conditions in India, government policies or strategies in respect of specific industries, prevailing interest rates and price of equipment and raw materials. Further, in order to manage our growth effectively, we must implement, upgrade and improve our operational systems, procedures and internal controls on a timely basis. If we fail to implement these systems, procedures and controls on a timely basis, or if there are weaknesses in our internal controls that would result in inconsistent internal standard operating procedures, we may not be able to meet our customer's needs, hire and retain new employees or operate our business effectively. Failure to manage growth effectively could adversely affect our business and results of operations.

We cannot assure you that we will be able to obtain such registrations in a timely manner, in case we determine to apply in the later course of time. As a result, we may be unable to prevent use of our logo by any other party or ensure that we will continue to have a right to use it. We further cannot assure you that any third party will not infringe upon our logo in a manner that may have a material adverse effect on our business prospects, reputation and goodwill.

36. ***You may be subject to Indian taxes arising out of capital gains on the sale of the Rights Equity Shares and Rights Entitlement.***

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares held as investments in an Indian company are generally taxable in India. Any capital gain realised on the sale of listed equity shares on the Stock Exchanges held for more than 12 (Twelve) months immediately preceding the date of transfer will be subject to long term capital gains in India at the specified rates depending on certain factors, such as whether the sale is undertaken on or off the Stock Exchanges, the quantum of gains and any available treaty relief. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of Securities Transaction Tax, on the sale of any Equity Shares held for more than 12 (Twelve) months immediately preceding the date of transfer. Securities Transaction Tax will be levied on the seller and/or the purchaser of the Equity Shares and collected by the domestic stock exchange on which the Equity Shares are sold. Further, any capital gains realised on the sale of listed equity shares held for a period of 12 (Twelve) months or less immediately preceding the date of transfer will be subject to short term capital gains tax in India as well as Securities Transaction Tax.

Capital gains arising from the sale of the Equity Shares will not be chargeable to tax in India in cases where relief from such taxation in India is provided under a treaty between India and the country of which the seller is resident

read with the Multilateral Instrument, if and to the extent applicable, and the seller is entitled to avail benefits thereunder. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares.

37. *Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.*

In terms of the SEBI (ICDR) Regulations, Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Equity Shares to the Applicant's demat account with its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political, or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operation or financial condition, or other events affecting the Applicant's decision to invest in the Rights Equity Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. Occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares.

The Applicants shall not have the right to withdraw their Applications in the event of any such occurrence. We cannot assure you that the market price of the Equity Shares will not decline below the Issue Price. To the extent the market price for the Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Rights Equity Shares at a price that will be higher than the actual market price for the Equity Shares at that time. Should that occur, the shareholder will suffer an immediate unrealized loss as a result. We may complete the Allotment even if such events may limit the Applicant's ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

38. *Holders of Equity Shares could be restricted in their ability to exercise pre-emptive rights under Indian law and could thereby suffer future dilution of their ownership position.*

Under the Companies Act, any Company incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of equity shares to maintain their existing ownership percentages prior to the issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the equity shares voted on such resolution, unless our Company has obtained government approval to issue without such rights. However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without us filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights unless we make such a filing. We may elect not to file a registration statement in relation to pre-emptive rights otherwise available by Indian law to you. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interests in us would be reduced.

39. *There is no guarantee that our Equity Shares will be listed in a timely manner or at all which may adversely affect the trading price of our Equity Shares.*

In accordance with applicable laws and regulations and the requirements of the Stock Exchanges, in principle and final approvals for listing and trading of the Rights Equity Shares issued pursuant to this Issue will not be applied for or granted until after the Rights Equity Shares have been issued and allotted. Approval for listing and trading will require all the relevant documents authorising the issuance of Rights Equity Shares to be submitted. Accordingly, there could be a delay in listing the Rights Equity Shares on the Stock Exchanges. If there is a delay in obtaining such approvals, we may not be able to credit the Rights Equity Shares allotted to the Investors to their depository participant accounts or assure ownership of such Rights Equity Shares by the Investors in any manner promptly after the Issue Closing Date. In any such event, the ownership of the Investors over Rights Equity Shares allotted to them and their ability to dispose of any such Equity Shares may be restricted. For further information on issue procedure, please refer to the section titled '*Terms of the Issue*' beginning on page 160 of this Draft Letter of Offer.

40. *No market for the Right Entitlements may develop and the price of the Right Entitlements may be volatile.*

No assurance can be given that an active trading market for the Rights Entitlements will develop on the Stock Exchanges during the Renunciation Period or that there will be sufficient liquidity in Rights Entitlements trading during this period. The trading price of the Rights Entitlements will not only depend on supply and demand for the Rights Entitlements, which may be affected by factors unrelated to the trading in the Equity Shares, but also on the quoted price of the Equity Shares, amongst others. Factors affecting the volatility of the price of the Equity Shares, as described herein, may magnify the volatility of the trading price of the Rights Entitlements, and a decline in the price of the Equity Shares will have an adverse impact on the trading price of the Rights Entitlements. Since the trading of the Rights Equity Shares will be on a separate segment compared to the Equity Shares on the floor of the Stock

Exchanges, the trading of Rights Equity Shares may not track the trading of Equity Shares. The trading price of the Rights Entitlements may be subject to greater price fluctuations than that of the Equity Shares.

We will not distribute the Issue Materials to overseas Shareholders who have not provided an address in India for service of documents. We will dispatch the Issue Materials to the shareholders who have provided an address in India for service of documents. The Issue Materials will not be distributed to addresses outside India on account of restrictions that apply to circulation of such materials in overseas jurisdictions. However, the Companies Act requires companies to serve documents at any address, which may be provided by the members as well as through e-mail. Presently, there is lack of clarity under the Companies Act and the rules made thereunder with respect to distribution of Issue Materials in overseas jurisdiction where such distribution may be prohibited under the applicable laws of such jurisdictions. While we have requested all the shareholders to provide an address in India for the purposes of distribution of Issue Materials, we cannot assure you that the regulator or authorities would not adopt a different view with respect to compliance with the Companies Act and may subject us to fines or penalties.

41. *Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may adversely affect the value of our Equity Shares, independent of our operating results.*

On listing, our Equity Shares will be quoted in Rupees on the Stock Exchanges. Any dividends in respect of our Equity Shares will also be paid in Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by equity shareholders. For example, the exchange rate between the Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may adversely affect the trading price of our Equity Shares and returns on our Equity Shares, independent of our operating results.

42. *Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.*

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a Company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian Company than as shareholder of a corporation in another jurisdiction.

43. *Investors in the Rights Equity Shares may not be able to enforce a judgment of a foreign court against us or our management, except by way of a suit in India on such judgment.*

We are a limited liability company incorporated under the laws of India and majority of our directors and all executive officers are residents of India. It may be difficult for the investors to affect service of process upon us or such persons outside India or to enforce judgments obtained in courts outside India.

India has reciprocal recognition and enforcement of judgments in civil and commercial matters with only a limited number of jurisdictions, which includes the United Kingdom, Singapore, Hong Kong, and the United Arab Emirates. In order to be enforceable a judgment from a jurisdiction with reciprocity must meet certain requirements of the Code of Civil Procedure, 1908. Judgments or decrees from jurisdictions, which do not have reciprocal recognition with India, cannot be executed in India. Therefore, a final judgment for the payment of money rendered by any court in a non-reciprocating territory for civil liability, whether predicated solely upon the general laws of the non-reciprocating territory, would not be enforceable in India. Even if an investor obtained a judgment in such a jurisdiction against us or our officers or directors, it may be required to institute a new proceeding in India and obtain a decree from an Indian court. However, the party in whose favour such final judgment is rendered may bring a new suit in a competent court in India based on a final judgment that has been obtained in a non-reciprocating territory within 3 (Three) years of obtaining such final judgment in the same manner as any other suit filed to enforce a civil liability in India. If, and to the extent that, an Indian court were of the opinion that fairness and good faith so required, it would, under current practice, give binding effect to the final judgment that had been rendered in the non-reciprocating territory, unless such a judgment contravenes principles of public policy in India. It is unlikely that an Indian court would award damages on the same basis or to the same extent as was awarded in a final judgment rendered by a court in another jurisdiction if the Indian court believed that the amount of damages awarded was excessive or inconsistent with Indian practice. In addition, any person seeking to enforce a foreign judgment in India is required to obtain prior approval of the RBI to repatriate any amount recovered pursuant to the execution of such a judgment.

EXTERNAL RISK FACTORS

- 44. Any downturn in the macroeconomic environment in India could adversely affect our business, financial condition, results of operations and cash flows.**

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, consumer debt levels, unemployment trends, terrorist threats and activities, worldwide military and domestic disturbances and conflicts, and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude. Any downturn in the macroeconomic environment in India could adversely affect our business, financial condition, results of operations and cash flows.

- 45. Any downgrading of India's debt rating by an international rating agency could have a negative impact on our business.**

Any adverse revision to India's credit rating for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our financial performance and our ability to obtain financing to fund our growth on favourable terms or at all.

- 46. The occurrence of natural calamities or man-made disasters could have a negative effect on the Indian economy and cause our business to suffer.**

India has experienced natural calamities such as earthquakes, floods, drought, fires, explosions, pandemic disease, and man-made disasters including acts of terrorism and military actions in the past few years. The extent and severity of these natural and man-made disasters determines their effect on the Indian economy. The erratic progress of a monsoon would also adversely affect sowing operations for certain crops. Further prolonged spells of below normal rainfall or other natural calamities in the future could have a negative effect on the Indian economy, adversely affecting our business and the price of our Equity Shares.

- 47. A slowdown in economic growth in India could cause our business to suffer.**

We are incorporated in India, and all our assets and employees are located in India. As a result, we are highly dependent on prevailing economic conditions in India and our results of operations are significantly affected by factors influencing the Indian economy. A slowdown in the Indian economy could adversely affect our business, including our ability to grow our assets, the quality of our assets, and our ability to implement our strategy.

Factors that may adversely affect the Indian economy, and hence our results of operations, may include:

- a. Any increase in Indian interest rates or inflation.
- b. Any scarcity of credit or other financing in India.
- c. Prevailing income conditions among Indian consumers and Indian corporations.
- d. Changes in India's tax, trade, fiscal or monetary policies.
- e. Political instability, terrorism, or military conflict in India or in countries in the region or globally, including in India's various neighbouring countries.
- f. Prevailing regional or global economic conditions; and
- g. Other significant regulatory or economic developments in or affecting India.

Any slowdown in the Indian economy or in the growth of the sectors we participate in or future volatility in global commodity prices could adversely affect our borrowers and contractual counterparties. This in turn could adversely affect our business and financial performance and the price of our Equity Shares.

48. *Financial instability in both Indian and international financial markets could adversely affect our results of operations and financial condition.*

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the United States and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have an adverse effect on the securities of companies in other countries. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in the Indian economy in general. Any global financial instability, including further deterioration of credit conditions in the U.S. market, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our results of operations and financial condition.

The Indian economy is also influenced by economic and market conditions in other countries. This includes, but is not limited to, the conditions in the United States, Europe, and certain economies in Asia. Financial turmoil in Asia and elsewhere in the world in recent years has affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and directly or indirectly, adversely affect the Indian economy and financial sector and its business.

Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby impact the Indian economy. Financial disruptions in the future could adversely affect our business, prospects, financial condition, and results of operations. The global credit and equity markets have experienced substantial dislocations, liquidity disruptions and market corrections.

There are concerns that a tightening of monetary policy in emerging markets and some developed markets will lead to a moderation in global growth. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, have implemented a number of policy measures designed to add stability to the financial markets. However, the overall long-term impact of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have had the intended stabilizing effects. Any significant financial disruption in the future could have an adverse effect on our cost of funding, loan portfolio, business, future financial performance, and the trading price of the Equity Shares.

49. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

As an Indian Company, we are subject to exchange controls that regulate borrowing in foreign currencies, including those specified under FEMA. Such regulatory restrictions limit our financing sources for our projects under development and hence could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that the required approvals will be granted to us without onerous conditions, or at all.

Further, under the foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI, or any other government agency can be obtained on any particular terms or at all.

50. *Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, may adversely affect our business, prospects, and results of operations.*

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy. For example, the Government of India implemented a comprehensive national goods and services tax (hereinafter referred to as 'GST') regime with effect from July 1, 2017, that combined multiple taxes and levies by the Central and State Governments into a unified tax structure.

Our business and financial performance could be adversely affected by any unexpected or onerous requirements or regulations resulting from the introduction of GST or any changes in laws or interpretation of existing laws, or the promulgation of new laws, rules and regulations relating to GST, as it is implemented. The Government has enacted the GAAR which have come into effect from April 1, 2017.

The Government of India has announced the union budget for Fiscal 2021 and the Ministry of Finance has notified the Finance Act, 2020 (hereinafter referred to as ‘**Finance Act**’) on March 27, 2020, pursuant to assent received from the President, and the Finance Act will come into operation with effect from July 1, 2020. There is no certainty on the impact that the Finance Act may have on our business and operations or on the industry in which we operate. We cannot predict whether any amendments made pursuant to the Finance Act would have a material adverse effect on our business, financial condition, and results of operations. Unfavourable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals. Any such decisions in future or any further changes in interpretation of laws may have an impact on our results of operations.

Uncertainty in the applicability, interpretation, or implementation of any amendment to, or change in, governing law, regulation, or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming and may impact the viability of our current businesses or restrict our ability to grow our businesses in the future.

51. *Inflation in India could have an adverse effect on our profitability and if significant, on our financial condition.*

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of salaries, and other expenses relevant to our business. High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to pass on to our customers, whether entirely or in part, and the same may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or increase our rates to pass the increase in costs on to our customers. In such case, our business, results of operations, cash flows and financial condition may be adversely affected. Further, the GoI has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future.

India's digital health market is projected to grow from \$3.83 Bn in 2022 to \$18.34 Bn by 2030, registering a CAGR of 21.6% during the forecast period of 2022-30. According to World Health Organization (WHO) Global Health Expenditure database, health expenditure (% of GDP) of India has grown from 2.95% in 2018 to 3.01% in 2019. The majority of healthcare costs in India is borne by individuals rather than the government or insurance companies. Though it has declined over time, it remains higher than the global average of 18.1%. Attempts have been made to boost government expenditure on healthcare and extend health insurance coverage.

Digital healthcare entails the use of digital tools and communication platforms to offer healthcare services and information remotely. Video consultations with physicians, remote monitoring of patient's health status, and the use of mobile applications to track symptoms and manage chronic diseases are examples of this. They have been widely impactful in providing convenience and accessibility to patients and potentially lowering healthcare costs. The digital health market in India is quickly expanding, with the potential to enhance healthcare access and boost healthcare system efficiency. Continuous technological innovation and investment by the private sector will encourage market expansion in the future.

Electronic governance or e-governance- business vertical for IT & BPM industry

Electronic governance or e-governance is adopted by countries across the world. In a fast-growing and demanding economy like India, e-governance has become essential. The rapid growth of digitalisation has led to many governments across the globe to introduce and incorporate technology into governmental processes. Electronic governance or e-governance can be defined as the usage of Information and Communication Technology (ICT) by the government to provide and facilitate government services, exchange of information, communication transactions and integration of various standalone systems and services.

Over the years, a large number of initiatives have been undertaken by various State Governments and Central Ministries to usher in an era of e-Government. Sustained efforts have been made at multiple levels to improve the delivery of public services and simplify the process of accessing them.

e-Governance in India has steadily evolved from computerization of Government Departments to initiatives that encapsulate the finer points of Governance, such as citizen centricity, service orientation and transparency. Lessons from previous e-Governance initiatives have played an important role in shaping the progressive e-Governance strategy of the country. Due cognizance has been taken of the notion that to speed up e-Governance implementation across the various arms of Government at National, State, and Local levels, a programme approach needs to be adopted, guided by common vision and strategy. This approach has the potential of enabling huge savings in costs through sharing of core and support infrastructure, enabling interoperability through standards, and of presenting a seamless view of Government to citizens.

The National e-Governance Plan (NeGP), takes a holistic view of e-Governance initiatives across the country, integrating them into a collective vision, a shared cause. Around this idea, a massive countrywide infrastructure reaching down to the remotest of villages is evolving, and large-scale digitization of records is taking place to enable easy, reliable access over the internet. The ultimate objective is to bring public services closer home to citizens, as articulated in the Vision Statement of NeGP.

"Make all Government services accessible to the common man in his locality, through common service delivery outlets, and ensure efficiency, transparency, and reliability of such services at affordable costs to realise the basic needs of the common man".

The Government IT spending in India likely to cross USD 9.5 Billion in 2022, an increase of 12.1% from last year. Now the Government is executing the innovative activities by harnessing technology to streamline digital services, advance automation processes and evolve citizen experience services accordingly. Global Government IT spending crossed USD 565.7 Billion in 2022, an increase of 5% from last year as legacy modernization continues to be a priority in Government organizations globally.

The Ministry of Electronics and Information Technology (MeitY), Government of India launched the 'Digital India' programme with the vision to transform India into a digitally empowered society and knowledge-based economy by ensuring digital access, digital inclusion, digital empowerment and bridging the digital divide. In summary, our mission is to ensure that the digital technologies improve the life of every citizen; expand India's digital economy, create investment & employment opportunities and global digital technological capabilities in the country.

Digital India has dramatically reduced distance between Government and citizens significantly. Further, Digital India has also helped in delivery of substantial services directly to the beneficiary in a transparent and corruption free manner. India has become one of the pre-eminent nations of the world to use technology to transform the lives of citizens. Digital India is an umbrella programme that covers multiple projects of various Central Ministries/Departments and States/UTs.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated financial statements of the current period. These matters were addressed in the context of our audit of the Consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined there are no key audit matters to be communicated in our report in our report for the reporting period

Information other than the financial statements and auditors' report thereon

The Parent's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Report on Corporate Governance and Business Responsibility Report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information , we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Parent's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these Consolidated financial statements that give a true and fair view of the financial position,

financial performance (including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act, read with relevant Rules issued there under. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the group's financial reporting process.

Auditors Responsibility for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on

the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

We did not audit the financial statements of two subsidiaries included in the consolidated financial results, whose financial statements reflect total assets of Rs. 37,904.07 lakhs as at March 31, 2023, total revenue of Rs.0.00 lakhs, total net loss after tax of Rs.0.00 lakhs and total comprehensive income of Rs.0.00 lakhs and net cash flows of Rs.0.00 lakhs for the year ended on that date, as considered in the consolidated financial results. These un-audited financial statements / Consolidated financial statements and other financial information have been certified by the management and furnished to us, and our opinion on the statement, in so far as it relates to the amounts and disclosures included in respect of the subsidiaries is based solely on the un-audited financial statement/ consolidated financial statements certified by the management

ANNEXURE 'A' TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31 March 2023, we have audited the internal financial controls over financial reporting of Bartronics India Limited ("the Holding Company") and its subsidiary companies which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting;

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding their liability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note.

Other Matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements insofar as it relates to 2 subsidiary companies, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

2. SIGNIFICANT ACCOUNTING POLICIES

A) Principles of Consolidation

The consolidated financial statements relates to Bartronics India Limited ("the Company") and its subsidiary companies (the "Group"). The consolidated financial statements have been prepared on the following basis:

- a) The financial statements of the Company and its subsidiary companies have been consolidated on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after fully eliminating intra-group balances and unrealised profits or losses on intra-group transactions as per Accounting Standard 21 - "Consolidated Financial Statements" notified by the Companies (Accounting Standard) Rules, 2006.
- b) The financial statements of the subsidiaries used in the consolidation are drawn up to the reporting date as that of the Company, i.e. March 31, 2023.
- c) The excess of cost to the Company, of its investment in the subsidiaries over the Company's share of equity is recognised in the financial statements as Goodwill.
- d) Minority interest in the net assets of the consolidated subsidiaries is identified and presented in consolidated balance sheet separately from current liabilities and equity of the company.

Minority Interest in the net assets of consolidated subsidiaries consists of:

- i) The amount of equity attributable to minorities at the date on which investment in a subsidiary is made; and
 - ii) The minorities' share of movements in the equity since the date the parent subsidiary relationship came into existence.
- e) Minority interest in the net profit for the year of consolidated subsidiaries is identified and adjusted against the profit after tax of the group.

- f) In case of foreign subsidiaries, being integral operations, revenue items are consolidated at yearly average of exchange rate prevailing during the year. All assets and liabilities are converted at the rate prevailing at the end of the year. Foreign subsidiaries being integral, exchange gain/ (loss) arising on consolidation is recognized as Foreign Exchange Fluctuation gain/ (loss).
- g) Intra-group balances and intra- group transactions and resulting unrealised profit/loss have been eliminated.
- h) The consolidated financial statements are prepared to the extent possible using uniform accounting policies for like transactions and other events in similar circumstances and are presented to extent possible, in the same manner as the Company's separate financial statements.

B. Investment in subsidiary not considered for consolidation has been accounted as per Accounting Standard 13- "Accounting for Investments" notified by Companies (Accounting Standard) Rules, 2006.

C. Basis of preparation of financial statements.

- a) The Consolidated Financial Statements are prepared on accrual basis under historical cost convention in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) and accounting standards prescribed in Companies (Accounting Standards) Rules, 2006 notified by the Central Government in terms of section 133 of the companies Act, 2014.

b) Use of Estimates:

The preparation of the financial statements in conformity with Indian GAAP requires the management to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent liabilities as at the date of the financial statements, and the reported amounts of income and expenses during the reported period. Actual results could differ from those estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and if material, their effects are disclosed in the financial statements.

c) Fixed Assets

Tangible Assets

Parent Company:

Fixed Assets are stated at cost (net of duties and taxes) less accumulated depreciation. Cost includes installation and expenditure during construction, including import duties freight, insurance and incidental expenses relating to acquisition. Fixed Assets costing less than Rs.5,000 are fully depreciated in the year of purchase. Assessment of indication of impairment of an asset is made at the year-end and impairment loss, if any, is recognised. Depreciation is provided on Straight Line Method as per the rates and in the manner provided in the Schedule II of the Companies Act, 2013

Subsidiaries:

Fixed assets are depreciated over the estimated useful lives of the assets as follows.

Computers	3-5 Years
Furniture and Fixtures	5-7 Years
Office Equipment	5-7 Years
Vehicles	7 Years

Intangible Assets

Parent Company:

Intangible Assets are stated at cost less accumulated amortisation. These are amortised on a straight line basis using the following rates such that the related assets are depreciated over their estimated useful lives.

Intellectual Property Rights	15.83% (6 Years)
Software	15.83% (6 Years)

Subsidiaries:

Goodwill on acquisition is being tested for impairment annually and where the recoverable amount is less than the carrying value of the Goodwill, such reduction is recorded as an impairment loss.

d) Borrowing Costs

Borrowing costs that are attributable to acquisition, construction or production of a qualifying asset are capitalised as part of the cost of such asset. A qualifying asset is one that necessarily takes a substantial period of time i.e., more than 12 months to get ready for its intended use. All other borrowing costs are recognised as expense in the Profit and Loss account.

e) Impairment of Assets

At each balance sheet date, Management reviews the carrying amounts of its assets to determine whether there is any indication that those assets were impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of impairment loss. Recoverable amount is the higher of an asset's net selling price and value in use. In assessing value in use, the estimated future cash flows expected from the continuing use of asset and from its disposal are discounted to their present value using a pre-tax discount rate that reflects the current market assessments of time value of money and the risks specific to the asset.

Reversal of impairment loss recognized in prior years if any is recorded when there is an indication that the impairment losses recognized for the asset no longer exist or have decreased. However, the increase in carrying amount of an asset due to reversal of an impairment loss is recognized to the extent it does not exceed the carrying amount that would have been determined (net of depreciation) had no impairment loss been recognized for the asset in the prior years.

f) Investments

Long-term Investments are carried at cost less diminution which is other than temporary in the value of investments. Current investments are carried at lower of cost and fair value.

g) Inventories

Inventories are valued at lower of cost and net realisable value. The method of arriving at cost of various categories of inventories is as below.

a) Raw Materials	First in First Out Method
b) Finished Goods and Stock in Progress	Direct Material cost plus appropriate overheads

h) Income Taxes

i. Indian Entities

The current income tax charge is determined in accordance with the relevant tax regulations applicable to the Group. Tax expense relative to overseas operations is determined in accordance with the tax laws applicable in countries where such operations are domiciled. Deferred tax charge or credits are recognised for the future tax consequences attributable to timing differences that result between the profit / (loss) offered for income taxes and the profit as per the financial statements.

Deferred tax in respect of timing differences which originate during the tax holiday period but reverse after the tax holiday period is recognised in the year in which the timing differences originate. For this purpose the timing differences which originate first are considered to reverse first. The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates that have been enacted or substantively enacted by the Balance Sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in future; however, when there is a brought forward loss or unabsorbed depreciation under taxation laws, deferred tax assets are recognised only if there is virtual certainty of realisation of such assets. Deferred tax assets are reviewed as at each Balance Sheet date and written down or written up to reflect the amount that is reasonably / virtually certain to be realised. The Company offsets, on a year on year basis, the current tax assets and liabilities, where it has a legally enforceable right and intends to settle such assets and liabilities on a net basis.

MAT credit

Minimum Alternate Tax (MAT) credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. 2. The Statement, which is the responsibility of the Company's Management and approved by the Board of Directors, has been prepared in accordance with recognition and measurement principles laid down in the Indian Accounting Standard 34 "Interim Financial Reporting" ("Ind AS 34") prescribed under Section 133 of the Companies Act, 2013 read with relevant rules issued thereunder and other accounting principles generally accepted in India. Our responsibility is to express a conclusion on the Statement based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Institute of Chartered Accountants of India ("ICAI"). This standard requires that we plan and perform the review to obtain moderate assurance as to whether the Statement are free of material misstatement. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
4. Based on our review conducted as stated above, nothing has come to our attention that causes us to believe that the Statement prepared in accordance with aforesaid Indian Accounting Standards and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in terms of Regulation 33 of the SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015 as amended, including the manner in which it is to be disclosed, or that it contains any material misstatement.

However, the management of the Company is in the process of identifying and communicating with the respective parties and regulatory authorities and reconciling variations, if any.

As part of the implementation of the Resolution Plan, the Management has written off and written back certain foreign currency assets and liabilities in the books of accounts, which would require relevant approval from the Reserve Bank of India (RBI). As represented to us, the Management is in the process of making suitable representations and filings with the Regulatory Authority.

TAX PROCEEDINGS

a. The Principal Commissioner of Income Tax Vs. Bartronics India Limited (“Company”) (ITTA/517/2018)

This Income Tax Tribunal Appeal is filed by the Principal Commissioner of Income Tax before The Hon’ble High Court of Telangana, challenging the decision dated May 4, 2018, in ITA No. 1732/Hyd/2012 passed by the Income Tax Appellate Tribunal (“**ITAT**”), Hyderabad Benches “B”, Hyderabad.

An appeal in ITA No. 1732/Hyd/2012 was filed by our Company (“**assessee**”) against the rulings of assessing officer (“**Appeal in ITA**”). Our Company had two subsidiaries located in USA as Bartronics America Inc., USA (“**BAI**”) and the other in Singapore as Bartronics Asia Pte. Ltd., Singapore (“**BAPL**”). Due to international transactions concerning these subsidiaries abroad, the matter was referred to transfer pricing officer (“**TPO**”). The issue under the transfer pricing provisions is with reference to the advances which assessee had funded to its subsidiaries and raising FCCB Bonds. The TPO recommended to charge interest on the advances to subsidiaries, citing the issuance of FCCBs at an interest coupon rate. The assessee objected before the dispute resolution panel (“**DRP**”), arguing that the FCCBs were issued for the expansion of BAI and BAPL, and the interest rate imposed by TPO was higher than the market rate. For the reasons stated in the Appeal in ITA, ITAT concluded that no adjustments were necessary, thereby granting relief to the assessee.

In the Appeal in ITA, certain deductions made by the assessee in the Income Tax returns were disallowed by the assessing officer. The ITAT deemed it necessary for the assessing officer to re-evaluate the matter. Consequently, the appeal for the AY 2008-09 was considered allowed for statistical purposes, and the appeals in the remaining assessment years were granted.

Aggrieved by the order of ITAT, Principal Commissioner of Income Tax preferred an appeal before The High Court of Telangana to call for the records relating to ITA No 1732/Hyd/2012 dated May4, 2018 for the assessment year 2008-09 on the file of the ITAT Hyderabad Bench B and set aside the same to the aforesaid extent. - f. **B. Ravi Kumar (“Petitioner”) Vs. The Authority appointed under section 48(3) of the Telangana State Shops and Establishment Act, 1988 & the Deputy Commissioner of Labour, Ranga Reddy District (“Respondent No. 1”) & Bartronics India Limited, represented by its managing director (“Company/Respondent No. 2”) (W.P. No. 4410 of 2020)**

In the writ petition dated February 24, 2020, filed by B. Ravi Kumar, (“**Petitioner**”) it is alleged that our Company extended an offer letter cum appointment letter dated November 26, 2010, which was duly accepted by the Petitioner. The Petitioner commenced employment on November 29, 2010, and worked until December 27, 2010. The Petitioner in the writ petition further alleges that our Company did not allowed him to continue working and forced him to resign on January 6, 2011. According to the Petitioner, our Company neither terminated his services nor paid wages, nor accepted his resignation. The Petitioner also alleged that our Company did not issue service certificate to him.

In the writ petition, the Petitioner states that he approached the Authority appointed under section 48(1) of the Telangana State Shops and Establishment Act, 1988 in S.E.No.2 of 2019, seeking reinstatement with back wages. The petition was dismissed on the grounds that employees less than 6 months of continuous service are not covered under section 48(1) of the Telangana State Shops and Establishment Act, 1988. Additionally, the Petitioner’s application was not considered due to the short duration of employment, and the considerable delay of 2993 days in filing the claim was not adequately explained. The claim for wages from December 1, 2010, to the present date was also dismissed.

Aggrieved by the Order in S.E. No. 2 of 2019, the Petitioner appealed to the Authority appointed under Section 48(3) of the Telangana State Shops and Establishment Act, 1988 in S.A.NO. 2 of 2019, which was subsequently dismissed.

The petitioner filed the present Writ Petition praying the Hon'ble High Court to issue writ, order or direction more particularly a writ in the nature of Certiorari calling for records relating to order in S.A.No. 2 of 2019 dated January 30,2019 on the file of the Appellate Authority under section 48(3) of the Telangana Shops and Establishments Act,1988 and to quash the same and pass such other order or orders as the Hon'ble Court may deem fit.

As per the case details on the High Court Portal, the matter is still pending, with the last listing date recorded on November 15, 2023. Further, an implead petition in I.A. 1/2023 is filed by the Petitioner, requesting the inclusion of the Resolution Applicant as a party respondent no.3 in the proceedings.

Further, Clause 15(ii) of the NCLT Order provides that *“all crystallised liabilities and unclaimed liabilities of the Corporate Debtor as on the date of this order shall stand extinguished on the approval of the Resolution Plan”*.

g. B. Ravi Kumar (“Petitioner”) Vs. The Authority appointed under Section 53 of the Telangana State Shops and Establishment Act, 1988 & the Deputy Commissioner of Labour, Ranga Reddy District (“Respondent No. 1”) & Bartronics India Limited, represented by its managing director (“Company/Respondent No. 2”) (W.P.No. 4343 of 2020)

In the writ petition dated February 24, 2020, filed by B. Ravi Kumar, (“**Petitioner**”), it is alleged that our Company extended an offer letter cum appointment letter dated November 26, 2010, which was duly accepted by the Petitioner. The Petitioner commenced employment on November 29, 2010, and worked until December 27, 2010. The Petitioner in the writ petition alleges that our Company did not allow him to continue working and forced him to resign on January 6, 2011. He further alleges that our Company neither terminated his services nor paid wages, nor accepted his resignation. The Petitioner also alleged that our Company did not issue service certificate to him.

In the writ petition, the Petitioner states that he approached the Authority appointed under section 50 of the Telangana State Shops and Establishment Act, 1988 in S.E.No.03 of 2019, seeking wages from December 1, 2010 till date at present value basis, which was dismissed stating that the assumed wages on the basis of no termination letter is not maintainable. The claim for reinstatement with back wages was also dismissed.

Aggrieved by the order in S.E.No.3 of 2019, the petitioner approached the Authority appointed under section 48(3) of the T.S. Shops and Establishment Act, 1988, which was subsequently dismissed on the grounds that the learned authority will not get jurisdiction unless, the question of whether the employee performed work or not or if he was prevented from doing so, was determined. With regard to condonation of delay in filing the application before the lower authority, the Authority held that the lower authority cannot exercise functional jurisdiction in hearing application SE No.3 of 2019, the issue of deciding the delay caused in filing the application becomes irrelevant and needs no order.

Challenging the order passed by Respondent No. 1 in S.A.No.3 of 2019 dated January 30, 2019, the Petitioner filed the current writ petition dated February 24, 2020, with a prayer that the Hon'ble High Court maybe pleased to issue writ, order or direction more particularly a writ in the nature of certiorari calling for records relating to the order in S.A. No. 1 of 2019 dated January 30, 2019 on the file of the Appellate Authority under section 53 of the Telangana State Shops and Establishment Act, 1988 and to quash the same and also requested to suspend the order in S.A. 1 of 2019, pending disposal of the above write petition and pass such other order or orders as the Hon'ble High Court may deem fit.

As per the case details on the High Court portal, the matter is still pending, with the last listing date recorded on November 15, 2023. Further, an implead petition in I.A. 1/2023 is filed by the Petitioner, requesting the inclusion of the Resolution Applicant as a party respondent no.3 in the proceedings.

Further, Clause 15(ii) of the NCLT Order provides that “*all crystallised liabilities and unclaimed liabilities of the Corporate Debtor as on the date of this order shall stand extinguished on the approval of the Resolution Plan*”.

As all crystallised liabilities and unclaimed liabilities of the Corporate Debtor as on the date of the NCLT Order are extinguished on the approval of the Resolution Plan, there are no proceedings involving the Company which involve an amount exceeding the Materiality Threshold or are otherwise material in terms of the Related Party Transactions Policy, and other pending matters which, if they result in an adverse outcome would materially and adversely affect the operations or the financial position of the Company.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the FIPB. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment (“**FDI**”) and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion) (“**DPIIT**”), Ministry of Finance, Department of Economic Affairs, FIPB section, through a memorandum dated June 5, 2017, has notified the specific ministries handling relevant sectors.

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated FDI Policy Circular of 2017 (“**FDI Circular 2017**”), which, with effect from August 28, 2017, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on August 28, 2017. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Circular 2017 will be valid until the DPIIT issues an updated circular.

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict between FEMA and such policy pronouncements, FEMA prevails. The Consolidated FDI Policy, issued by the DIPP, consolidates the policy framework in place as on August 27, 2017, and supersedes all previous press notes, press releases and clarifications on FDI issued by the DIPP that were in force and effect as on August 27, 2017. The Government proposes to update the consolidated circular on FDI Policy once every year and therefore the Consolidated FDI Policy will be valid until the DIPP issues an updated circular.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company falls under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non- resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI.

As per the existing policy of the Government of India, erstwhile OCBs cannot participate in this Issue.
