The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk factor over another.

The risk factors are classified as under for the sake of better clarity and increased understanding:

Internal Risk Factors

- 1. *The COVID-19 pandemic and resulting deterioration of general economic conditions has adversely impacted our business and results of operations and the extent to which it will continue to do so will depend on future developments, which are difficult to predict.***

The rapid and diffused spread of COVID-19 and global health concerns relating to this outbreak have had a severe negative impact on all businesses, including the forging industry in which our Company operates and from where it derives substantial revenues and profits. The COVID-19 pandemic could continue to have an impact that may worsen for an unknown period of time. In view of the onslaught of another wave of the virus, this pandemic may continue to cause unprecedented economic disruption in India and in the rest of the world. The scope, duration and frequency of such measures and the adverse effects of COVID-19 remain uncertain and could be severe.

The COVID-19 pandemic and government actions to contain it have weighed heavily on global and national economic conditions, have significantly increased economic uncertainty, and have reduced economic activity.

The extent of the resulting impact on our business and results of operations will depend, among other things, on the duration and severity of the pandemic, the nature and scope of government actions to contain it, and the potential impact on global and national economic conditions, including inflation, interest rates, availability of capital markets, consumer spending rates, energy availability and costs (including fuel surcharges). Governments around the world have taken steps to mitigate some of the more severe anticipated economic effects, but there can be no assurance that such steps will be effective or achieve their desired results in a timely fashion.

The COVID-19 pandemic and related volatility in financial markets and deterioration of national and global economic conditions could affect our business and operations in a variety of ways. For example, we experienced operational disruptions and financial losses as a result of the following:

- a temporary shutdown of all of our manufacturing facilities commencing from March 23, 2020 for a period of approximately two months, due to government restrictions or illness in connection with COVID-19;
- a decrease in demand for our components as a result of COVID-19 on account of government restrictions imposed;
- supply chain disruptions for us particularly components imported from outside India as well as from local suppliers due to a shortage of working capital;
- a significant percentage of our workforce being unable to work, including because of travel or government restrictions in connection with COVID-19, including stay at home order;
- our strategic projects becoming delayed or postponed;
- our inability to collect full or partial payments from customers owing to their liquidity constraints and our inability to make payments to suppliers due to delay in collections and other liquidity issues.

Accordingly, our results of operations were negatively impacted during the yearended March 31, 2021. Our revenue from operations for the year March 31, 2021 was ₹ 48, 741.15 lakhs compared with ₹ 58,783.25 lakhs for the year ended March 31, 2020. In addition, the spread of COVID-19 has caused us to modify our business practices and implement significant proactive measures to protect the health and safety of our employees, and we may take further actions as may be required by government authorities or as we determine appropriate under the circumstances. There is no certainty that such measures will be sufficient to mitigate the risks posed by the pandemic.

In addition, we cannot predict the impact that the COVID-19 pandemic will have on our customers, suppliers and other business partners, and each of their financial conditions. However, any material effect on these parties could adversely impact us. Adverse consequences of, and conditions resulting from, the COVID-19 pandemic may remain prevalent for a significant period of time and may continue to adversely affect our business, results of operations and financial condition even after the COVID-19 outbreak has subsided. The RBI estimates real GDP growth in FY2021 to remain in negative territory (*Source: RBI Governor Statement dated August 6, 2020*). It is possible that COVID-19 will lead to a prolonged global economic crisis or recession. Any of these consequences may result in loss of business and/or claims for compensation from our clients, which may have an adverse effect on our results of operations and financial condition.

Further, as COVID-19 adversely affects our business and results of operations, it may also have the effect of exacerbating many of the other risks described in this “*Risk Factors*” section.

2. *In past, our Company had delayed in the repayment of its debt obligations. Any failure of our Company to comply with its debt obligations in future may adversely affect our ability to conduct our business and operations or implement our business plans and also to secure further credit.*

In order to overcome stress owing to COVID 19 situation, the Company had proposed debt resolution under the RBI notification on the one-time Resolution Framework for COVID-19-related Stress dated August 6, 2020 read together with the RBI notification on Resolution Framework for COVID-19-related Stress – Financial Parameters dated September 7, 2020 to lenders (“OTR”). For the same, the Company had called for a meeting of all lenders on September 17, 2020 to discuss the way forward through OTR and subsequently a formal request for invocation of OTR framework was shared the lenders on September 27, 2020. During the meeting held in September, along with the request for invocation of OTR, Company had also requested its lenders for deferment of the payment of interest / instalment on all credit facilities from September 1, 2020 till the OTR invoked and allowing holding on operations without any deductions from the collections till the implementation of the resolution plan. Further, the credit ratings agencies had also adopted a revised approach

in case of entities witnessing stress due to the pandemic in as much as if any entity has applied for resolution under OTR framework before due date of repayment, the overdue of such payment would not be considered as a default, if the application is accepted by the lenders or was pending with the lenders (period between application and implementation). Considering the same, no payment towards repayment of term loan or servicing of its interest was made by the Company between the date of the lenders' meeting and the date of invocation of the OTR scheme. However, the lenders did not consider the date of lenders meeting and date of invocation of the OTR scheme and the Company was expected to make the necessary repayment towards its term loans during this period. According to the lenders, the date of invocation of scheme was the date on which Company had submitted an OTR plan with the lenders which was in October 2020. As the payments due in September were not cleared by the Company, the credit rating agency had considered it as an event of default.

Thereafter, owing to stress on account of COVID-19, the Indian government announced the Emergency Credit Line Guarantee Scheme ("ECLGS") under the third tranche of the "Atmanirbhar Bharat Package" on November 12, 2020, which allowed 100% guaranteed collateral free pre-approved sanction limit of up to 20% of outstanding as on February 29, 2020. Considering the revival in the industry and Company witnessing a turnaround, Company in discussions with its lenders decided to withdraw its OTR proposal and opt for the ECLGS facility in December 2020. Post submission of its request for withdrawing from OTR scheme, Company had cleared its outstanding with all the lenders. Further, the Company has overdues as on March 31, 2021.

Any future failure to comply with any condition or covenant under our financing agreements that is not waived by our lenders or is not otherwise cured by us, may lead to a termination of our credit facilities, acceleration of all amounts due under the said credit facility, which may adversely affect our ability to conduct our business and operations or implement our business plans and secure further credit.

3. ***We have incurred losses in the recent past. Continuous financial losses incurred by us may be perceived adversely by external parties such as clients and bankers, which could affect our reputation, business, financial condition and results of operation.***

Our Company has incurred losses in the previous financial years. Sustained financial losses by our Company may not be perceived positively by external parties such as customers, bankers, suppliers etc., which may affect our credibility and business operations. Our financial information derived from our audited financial statements is as follows:

(Rs. In lakhs)

4. ***We have certain contingent liabilities that have not been provided for in our Company's financials which if materialised, could adversely affect our financial condition.***

For Fiscal 2020, the Company has identified certain trade receivables aggregating to `868.01 lakhs, whose recovery is not as per the payment terms. Based on the management estimate and provisioning norms of the company, the Company has made provision of ` 623.64lakhs. For the quarter ended June 30, 2021, the Company has identified certain trade receivables aggregating to ` 9,683 lakhs, whose recovery is not as per the payment terms. Based on the management estimate and provisioning norms of the Company, the Company has made no provision for the quarter ended June 30, 2021. To take the remedial step, the Company has initiated the legal action against some of the customers for recovery of dues. In the event any such contingencies mentioned above were to materialize or if our contingent liabilities were to increase in the future, our financial condition could be adversely affected.

5. ***We focus primarily on the automobile and auto-components industry.***

Our business is focused primarily on the automobile and auto components industry and therefore, our business is dependent upon continued demand for our products in the automobile industry. The automobile industry is cyclical in nature. Our business is further linked mainly with the two-wheeler segment of the automobile

Industry. The auto-component industry is sensitive to changes in economic conditions and unforeseen events, including political instability, recession, inflation or other adverse occurrences. Any event that results in decreased demand in automobile industry, or increased pressure on automobile manufacturers to develop, implement and maintain in-house auto-component facilities, could have an adverse effect on our business, financial condition and results of operations.

6. ***Our Company has negative cash flows from its investing activities as well as financing activities in the past years, details of which are given below. Sustained negative cash flow could impact our growth and business.***

Our Company had negative cash flows from our investing activities as well as financing activities in the previous year(s) as per the Financial Statements and the same are summarized as under:

(` in lakhs)

Particulars	Financial Year ended March 31, 2021
Cash Flow from / (used in) Operating Activities	7,164.74
Cash Flow from / (used in) Investing Activities	(1,837.58)
Cash Flow from / (used in) Financing Activities	(321.38)

Cash flow of the Company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flows in future, it may adversely affect our business and financial operations.

7. ***We have certain contingent liabilities that have not been provided for in our Company's financials which if materialized, could adversely affect our financial condition.***

As at March 31, 2021, contingent liabilities disclosed in the notes to our audited financial statements aggregated ₹487 lakhs. Set forth below are our contingent liabilities that had not been provided for as at March 31, 2021.

Nature of contingent liability	Amount (₹ in lakhs)
PF liability where the cases are pending at various stages of appeal	70.00
Bank Guarantees	14.16
Sales tax demands financial Year 2014-15	247.01
Sales tax demands for financial Year 2015-16 (including interest)	30.71
Sales tax demands for 1financial Year 2016-17	107.19
Traces demands	17.39

In the event any such contingencies mentioned above were to materialize or if our contingent liabilities were to increase in the future, our financial condition could be adversely affected. For further details, see the section entitled "Financial Statements" on page 62 of this Draft Letter of Offer.

8. ***Our Company requires significant amounts of working capital for a continued growth. Our inability to meet our working capital requirements may have an adverse effect on our results of operations.***

Our business is working capital intensive. A significant portion of our working capital is utilized towards inventories, trade receivables and other financial assets such as subsidy receivable. For further details, see the section entitled "Financial Statements" on page 62 of this Draft Letter of Offer.

We intend to continue growing by expanding our business operations. This may result in increase in the quantum of current assets particularly inventories and trade receivables. Our inability to maintain sufficient cash flow, credit facility and other sources of fund, in a timely manner, or at all, to meet the requirement of working capital could adversely affect our financial condition and result of our operations. For further details regarding our working capital requirements, please refer to the chapter titled "Objects of the Issue" beginning on page 41 of this Draft Letter of Offer.

9. *Downgrade in credit ratings would increase our future borrowing costs and constrain our access to capital and lending markets and as a result, would negatively affect our business.*

The cost and availability of capital, amongst other factors, is also dependent on our credit ratings. In May 2020, there have been a downgrade in our credit rating by CARE, details of which are as below:

Rating Agency	Particulars of downgrade	Particulars of debt
CARE	CARE D (Single D)	Long term Bank facilities
CARE	CARE D (Single D)	Short term Bank facilities

Such downgrading of our credit ratings has occurred on account of:

- Due to disruption in the operations owing to the outbreak of Covid-19 pandemic, liquidity profile of the company weakened resulting in delays in debt servicing;
- The liquidity position is delicately poised due to high working capital utilization;
- Working capital intensive nature of operations and cyclical nature of auto sector.

We cannot assure you that our credit rating will improve in the future or not deteriorate further. If our Company is unable to improve its credit rating or if there is further downgrading of our credit ratings, it may accelerate repayment terms of our present borrowings and may also adversely affect our ability to avail future borrowings at commercially favourable terms or at all, which may adversely affect our operations, cash flows and financial performance. Further, any downgrading of our credit rating may adversely affect the price of our Equity Shares.

10. *Our Statutory Auditors have included certain qualifications in the Auditors' reports for the financial year ended March 31, 2021 and emphasis of matters in the Unaudited Limited Review Financial Statements for the quarter ended June 30, 2021.*

Our Statutory auditors have included certain qualifications in the Annual Audited Financial Statements and the emphasis of matters in the Unaudited Limited Review Financial Statements for the nine months period ended June 30, 2021. In respect of Fiscal 2021, the Auditors have observed that: (i) The Company's internal control system in respect of supervisory and review controls over process of booking of material consumption, booking of proper inventory and accounting of returnable gate pass, reconciliation of old stock lying with third party and allocation of fixed and variable overheads on product costing on periodical basis were not operating effectively during the current financial year to arrive at the correct value of stock including physical number, which could potentially result in material misstatement of cost of goods sold and inventories as on March 31, 2021. Based on physical verification of Inventories, consumption and reconciliation of closing stock as done by the Management subsequently, necessary remedial measures have been taken to arrive at the correct value of inventories as on March 31, 2021 and also to arrive at cost of goods sold for the year then ended. (ii) The Company's internal control weakness has been observed in respect of approval of expenses/ reimbursement of expenses and payment to the vendors/employees were not operating effectively and due to deficiency in the control, the company has made some excess payment to vendors/employees of the company however as confirmed by management these payments were subsequently been approved by the management of the company. (iii) Due to issues and bugs in software the system is not able to calculate the depreciation correctly. All variations in depreciation on account of these issues are updated in the system manually on the basis of manual depreciation calculation. The management is in continuous discussions with the software provider to fix this anomaly in the system so that correct output can be obtained directly from the system.

In respect of the quarter ended June 30, 2021, the Auditors have observed that (i) The Company has unabsorbed business depreciation and MAT credit which according to the management will be used to set off taxable profit arising in subsequent years from operation. However, As a matter of prudence, Deferred Tax Assets have been restricted to Rs.3,669.31 Lakhs created till March 31, 2021 and no deferred tax has been created during the quarter ended June 30, 2021; (ii) Due to non-updation of Bill of material (BOM) and expansion of the customer base, quantitative variance were observed between physical and book records. (iii) Variance as observed has been considered as consumption of material for the preparation of the quarterly results.; We cannot assure you that our audit reports for future Fiscal periods will not contain certain adverse remarks, matters of emphasis, qualifications, or other observations which affects our results of operations in such future periods.

11. *A select group of our customers contribute significantly to our revenues and failure to retain one or more of them will have an adverse effect on our financial performance and results of operations.*

During Fiscal 2021, our top 10 customers contributed 88.40% of our total revenue from operations. Hero MotoCorp Limited is one of the largest customers of the Company contributing to 61.01% of our total revenue in Fiscal 2021. Any adverse effect on business of Hero MotoCorp Limited may lead to a decrease in the orders placed by them with us thereby adversely affect affecting our revenues. However, the composition and revenue generated from these clients might change as we continue to add new customers in normal course of business. Our revenues may be adversely affected if there is an adverse change in any of our customer's supply chain strategies or a reduction in their outsourcing of logistics, storage operations, or if our customers decide to choose our competitors over us or if there is a significant reduction in the volume of our business with such clients.

We enter into contracts with our customers, which are generally subject to periodic renewals and related negotiations. Our reliance on a select group of customers may also constrain our ability to negotiate these agreements in a manner favourable to us. Our business from our customers is dependent on our continuing relationship with such customers, the quality of our services, competitive pricing and our ability to timely deliver on their orders, and there can be no assurance that such customers will continue to do business with us in the future on commercially acceptable terms or at all. While we believe we have maintained good and long-term relationships with our customers, there can be no assurance that we will continue to have such long-term relationship with them. Significant dependence on a select group of customers may increase the potential volatility of our results of operations and exposure to individual contract risks. Further any delay or default in payment by these customers may adversely affect our business, financial condition and results of operations.

A loss of any of our significant customers, a decrease in the volume of work our customers outsource to us or a decline in our prices may materially and adversely affect our business, operations, financial condition, results of operations and prospects.

12. *We require certain approvals or licenses in the ordinary course of business and the failure to obtain or retain them in a timely manner, or at all, may adversely affect our operations.*

We require certain statutory and regulatory permits, licenses and approvals to carry out our business operations and applications for their renewal need to be made within certain timeframes. Further, we may also be required to obtain new licenses, registrations and approvals for any proposed operations, including any expansion of existing operations. There can be no assurance that the relevant authorities will renew such licenses, registrations and approvals in a timely manner or at all. For some of the approvals which may have expired, we may have either made or are in the process of making an application for obtaining the approval or its renewal. We have also made applications for obtaining certain fresh approvals. We cannot assure you that we will receive these approvals and registrations in a timely manner or at all. We cannot assure that the approvals, licenses, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. Further, if we are unable to renew or obtain necessary permits, licenses and approvals on acceptable terms, in a timely manner or at all, our business, financial conditions and operations may be adversely affected. For further details on the pending licenses for which applications have been made, please see the chapter titled "Government and Other Statutory Approvals" beginning on page 74 of this Draft Letter of Offer.

13. *Our Company is party to certain legal proceedings. Any adverse decision in such proceedings may have an adverse effect on our business, results of operations and financial condition.*

Our Company is party to certain legal proceedings. These legal proceedings are pending at different levels of adjudication before various courts, tribunals and forums. There can be no assurance that these litigations will be decided in our favour and consequently it may divert the attention of our management and waste our corporate resources and we may incur significant expenses in such proceedings and may have to make provisions in our financial statements, which could increase our expenses and liabilities. If such claims are determined against us, there could be an adverse effect on our reputation, business, financial condition and results of operations. For the details of the cases filed by and against our Company, please refer the chapter titled "Outstanding Litigations and Defaults" on page 73 of this Draft Letter of Offer.

14. *The Promoter & Promoter Group are holding an aggregate of 74.80% of the Equity Shares of the Company, which is a significant control over the management and affairs, as a result of which, the remaining shareholders may not be able to affect the outcome of shareholder voting.*

As on the date of this Draft Letter of Offer, the Promoter and Promoter Group hold an aggregate of 74.80% of the Equity Shares of the Company. As a result, the Promoter and Promoter Group, acting together, will influence the matters requiring shareholder approval, including the election of all or majority of Company's Directors and approval of significant corporate transactions, such as mergers, consolidations or the sale of

substantially all of Company's assets. The Promoter and Promoter Group will therefore have the ability to exercise controlling influence over Company's business and management affairs and may cause to take actions that may conflict with the interests of some of its shareholders.

15. *The automobile sector requires continuous up-gradation.*

The automobile sector is characterized by continuous up-gradation in terms of technology, manufacturing process and design capability. Consequently, the Company has to meet with the aforesaid demands and invest continuously to upgrade technology, manufacturing process and designs and keep abreast with the latest innovations in the automobile industry. In case the Company is unable to keep pace with the growth rate of technology advancements or process change or design changes, it may be unable to meet customer expectations which would adversely affect the revenues of our Company.

16. *Our inability to maintain an optimal level of inventory for our business may impact our operations adversely.*

Our daily operations largely depend on consistent inventory control which is generally dependent on our projected sales in different months of the year. An optimal level of inventory is important to our business as it allows us to respond to customer demand effectively and to maintain a range of products. If we overstock inventory, our required working capital will increase and if we under-stock inventory, our ability to meet consumer demand and our operating results may be adversely affected. Any mismatch between our planning and the actual off take by customers can impact us adversely.

17. *Our success depends largely upon the services of our Directors and other Key Managerial Personnel and our ability to attract and retain them. Demand for Key Managerial Personnel in the industry is intense and our inability to attract and retain Key Managerial Personnel may affect the operations of our Company.*

Our success is substantially dependent on the expertise and services of our Directors and our Key Managerial Personnel. They provide expertise, which enables us to make well informed decisions in relation to our business and our future prospects. Our future performance will depend upon the continued services of these persons. Demand for Key Managerial Personnel in the industry is intense. We cannot assure you that we will be able to retain any or all, or that our succession planning will help to replace, the key members of our management. The loss of the services of such key members of our management team and the failure of any succession plans to replace such key members could have an adverse effect on our business and the results of our operations.

18. *A significant portion of our range of products is sold to OEMs and any failure to maintain the relationship with these OEMs or find competent replacements could affect the sales of our products.*

Our Company currently caters to the OEMs in automobile segment, resulting into significant amount of our total sales. The OEM channel accounted for 61.20% of our total revenue in Financial Year 2020-21. Our business with OEMs is dependent on our continuing relationship with them, quality of our products and our ability to deliver their orders. We may be unable to maintain or renew relationships with our OEMs or we may not be able to obtain orders from our OEMs at the current levels. We may also be unsuccessful in competing for desired OEMs to promote and sell our products. If any of these relationships were to be so altered or terminated and we are unable to obtain sufficient orders on comparable terms, our business, financial condition, results of operations, cash flows and business prospects could be materially and adversely affected.

19. *The loss, shutdown or slowdown of operations at any of the Company's manufacturing facilities could have a material adverse effect on the Company's results of operations and financial condition.*

The Company's manufacturing facilities are subject to operating risks, such as the breakdown or failure of equipment, power supply interruptions, facility obsolescence or disrepair, labour disputes, natural disasters and industrial accidents. The occurrence of any of these risks could affect the Company's operations by causing production facilities to shut down or slow down. In January, 2020, the Workmen Union of the Company's manufacturing facility at Binola, Gurugram had undertaken a strike, which had disrupted the production process for the period between January 13, 2020 to January 20, 2020. Subsequently, the Company entered into a settlement dated January 17, 2020 with the workers pursuant to which the manufacturing activity was resumed at the Binola plant. Although the Company takes reasonable precautions to minimize the risk of any significant operational problems at its manufacturing facilities, no assurance can be given that one or more of the factors mentioned above will not occur, which could have a material adverse effect on the Company's results of operations and financial condition.

Further, due to the outbreak of novel Coronavirus (COVID-19) followed by the lockdown declared by the Government authorities, the manufacturing operations at Binola, Manesar, Rohtak, Haridwar and Kolar facilities were temporarily suspended for a period of approximately two months in the year 2020.

20. *Our Company has availed unsecured loans which may be recalled at any time.*

Our Company has availed unsecured loans of Rs. 3,500 lakhs from our promoter, DMIPL and Rs. 360 lakhs from Munjal Showa Limited as on March 31, 2021. These unsecured loans are to be repaid to the lenders upon expiry of the tenor fixed. Some portion of the unsecured loans availed from our Promoter shall be adjusted towards subscription for its entitlement in the Rights Issue and also towards additional subscription, if any. In the event our Company is unable to repay these loans on time, the same may be recalled by the lenders immediately which may affect our business, liquidity condition and cash flows. For further details in relation to the unsecured loans, please refer the chapter “Financial Statements” beginning on page 62 of this Draft Letter of Offer.

21. *We are subject to risks associated with product liability, warranty and recall.*

We are subject to risks and costs associated with product liability, warranties and recalls, relating to defective products, parts, or related after-sales services, including by generating negative publicity, which may have a material adverse effect on our business, financial condition and results of operations. These events could also require us to expend considerable resources in correcting these problems and could significantly reduce demand for our products. We may also be subject to class actions or other large scale product liability or other lawsuits in various jurisdictions where we have a significant presence.

22. *We could be adversely affected by employee misconduct or errors that are difficult to detect and any such incidences could adversely impact our financial condition, results of operations and reputation.*

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and cause serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees and agents may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

23. *Our future success depends on our ability to satisfy changing customer demands by offering innovative products in a timely manner and maintaining such products’ competitiveness and quality.*

Our competitors may gain significant advantages if they are able to offer products satisfying customer needs earlier than we are able to which may materially and adversely impact our sales and profitability. Unanticipated delays or cost overruns in implementing new product launches, expansion plans or capacity enhancements could also materially and adversely impact our financial condition and results of operations.

Customer preferences especially in many of the developed markets appear to be moving in favour of more fuel efficient and environmental friendly vehicles. Furthermore, in many countries there has been significant pressure on the automotive industry to reduce carbon dioxide emissions. In many markets these preferences are driven by increasingly stringent government regulations, rising fuel prices and customers' environmental considerations. Our business and operations may be significantly impacted if we experience delays in developing products that reflect changing customer preferences, especially in the premium automotive category. There can be no assurance that the market acceptance of our future products will meet our sales expectations, in which case we may be unable to realize the intended economic benefits of our investments and our revenues and profitability may increase materially.

24. *We are dependent on third party transportation providers for delivery of raw materials to us from our suppliers and delivery of our products to our customers. Any failure on part of such service providers to meet their obligations could have a material adverse effect on our business, financial condition and results of operation.*

Our products are transported through third party transportation providers to our OEMs. We rely on third parties to supply us with the raw materials, parts and components used in the manufacture of our products. Furthermore, for some of these parts and components, we are dependent on a single source of supply. Our ability to procure supplies in a cost effective and timely manner is subject to various factors, some of which are not within our control. While we manage our supply chain as part of our vendor management process, any significant problems with our supply chain in the future could severely disrupt our business and materially reduce our sales and net income.

Though, our business has not experienced any disruptions due to transportation strikes in the past, any future transportation strikes may have an adverse effect on our business. In addition, goods may be lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. There may also be delay in delivery of products which may also affect our business and results of operation negatively. An increase in the freight costs or unavailability of freight for transportation of our raw materials or finished goods may have an adverse effect on our business and results of operations. Further, disruptions of transportation services due to weather-related problems, strikes, lock-outs, inadequacies in the road infrastructure, or other events could impair ability to procure raw materials on time. Any such disruptions could materially and adversely affect our business, financial condition and results of operations.

Natural disasters and man-made accidents, adverse economic conditions, decline in automobile demand, and lack of access to sufficient financing arrangements, among others, could have a negative financial impact on our suppliers and distributors in turn impairing timely availability of components to us or increasing the costs of such components. Similarly, impairments to the financial position of our distributors may adversely impact our performance in some markets. In addition, if one or more of the other global automotive manufacturers were to become insolvent, this would severely disrupt our supply chains and may further materially reduce our sales and net income.

25. *Our Company has been cost competitive due to lower wage rates as compared to developed countries. However, increase in wage rates would put pressure on Company's operating margins.*

Our Company's business is a low margin, volume driven business. It has been cost competitive due to lower wage rates as compared to developed countries. While we are normally able to meet the pricing requirements by passing on the same to the OEMs, it might not be possible for us to achieve the same at all times. Increase in wage rates would put pressure on our operating margins, which may have an adverse impact on its profit margins.

26. *Any slowdown in the automobile Industry in India could significantly decrease the demand for our products.*

The demand for our products is dependent, among other things, on the conditions of the global economy and in particular, the Indian economy. The demand for our products is significantly affected by the automobile industry. A decline in economic activity in India or in international markets may have an adverse effect on consumer and industrial demand for new vehicles. The OEM channel accounted for 61.20% of our total revenue in Financial Year 2020-21 and 57.79% of our total revenue for the quarter ended June 30, 2021. Sales of new vehicles in India are affected by the time of year, weather, interest rates, fuel prices and the overall economic environment. If industrial or consumer demand for new vehicles decreases, it would have a corresponding impact on the demand for our products and may materially and adversely affect our business, financial condition, results of operations, cash flows and business prospects.

27. *Our Company's management will have flexibility in applying the proceeds of this Issue within the parameters as mentioned in the chapter titled 'Objects of this Issue' beginning on page 41 of this Draft Letter of Offer. The fund requirement and deployment mentioned in the Objects of this Issue have not been appraised by any bank or financial institution.*

We intend to use Net Proceeds from Issue to meet the working capital requirements, adjustment of unsecured loans availed from our Promoter, and general corporate purposes. We intend to deploy the Net Proceeds from Issue in Financial year 2021-2022 and such deployment is based on certain assumptions and strategy which our Company believes it will implement in future. The funds raised from the Issue may remain idle on account of change in assumptions, market conditions, strategy of our Company, etc. For further details on the use of the Net Proceeds from Issue, please refer to the chapter titled "Objects of the Issue" beginning on page 41 of this Draft Letter of Offer.

The deployment of funds for the purposes described above is at the discretion of our Company's Board of Directors. The fund requirement and deployment is based on internal management estimates and has not been appraised by any bank or financial institution. Accordingly, within the parameters as mentioned in the chapter titled 'Objects of the Issue' beginning on page 41 of this Draft Letter of Offer, the management of our Company will have significant flexibility in applying the proceeds received by our Company from the Issue. Our Board of Directors will monitor the proceeds of the Issue.

28. *No tangible assets will be created out of the Issue proceeds.*

The issue proceeds shall be utilized towards augmenting working capital requirements of our Company and adjustment of unsecured loans availed from the Promoter of ` 3000 lacs against the Rights Entitlement of the Promoter. No tangible assets will be created out of the proceeds of the Issue. The Promoter intends to convert its unsecured loans into equity. The unsecured loans provided by the Promoter shall be adjusted towards subscription for its entitlement in the Rights Issue and also towards additional subscription, if any. Further, the cost of acquisition of these shares issued through the Rights Issue to the Promoter by way of such conversion of loan into equity may be lesser than the market price and these shares will not be subject to any lock-in.

29. *Our insurance policies do not cover all risks, specifically risks like product defect/liability risk, loss of profits and terrorism. In the event of the occurrence of such events, our insurance coverage may not adequately protect us against possible risk of loss.*

We have obtained insurance coverage in respect of certain risks. Our significant insurance policies consist of, among others, Commercial General Liability, Group Health (Floater) Insurance, Group Personal Accident Policy, Marine Cargo Sales Turnover Policy, Standard Fire and Special Perils (Material Damage) Policy, Burglary Housebreaking Insurance Policy, Electronic Equipment Insurance Policy, Machinery Breakdown Insurance Policy, Business Package Insurance Policy and vehicle Insurance in respect of certain of our premises and vehicles. While we believe that we maintain insurance coverage in adequate amounts consistent with size of our business, our insurance policies do not cover all risks, specifically risks like product defect/liability risk, loss of profits, losses due to terrorism, etc. There can be no assurance that our insurance policies will be adequate to cover the losses in respect of which the insurance has been availed. If we suffer a significant uninsured loss or if insurance claim in respect of the subject-matter of insurance is not accepted or any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and results of operations may be materially and adversely affected.

30. *Our business requires extensive research and development initiatives in designing the products and delay in validations by customers thereby impacting the schedules for manufacturing and realization of the profits out of the same. This affects the financial conditions and business operations of our company in long run.*

Our industry is characterized by the changing technology and user preferences, evolving industry standards and the frequent introduction of new products and enhancements. Development of new products has become increasingly complex in today's fast-moving business environments. Our business process involves extensive research and development initiatives in designing the products to be used in the automotive industry. The Company has in-house research and development unit to carry out extensive research for development of better products. The Department of Scientific and Industrial Research Technology Bhavan, New Delhi, Ministry of Science and Technology, Government of India vide its letter dated January 1, 2020 has provided recognition to our in-house research and development unit. Further, our products are extensively validated at our customers' end. Owing to advancement in technology and/or changes in consumer preferences, we may be forced to reduce the price of our products, which we sell to our customers and therefore may have to resort to discounts and price reductions to continue to sell these products. Our competitors may succeed in developing products that are more cost effective than any of our products that we may develop, which may render our products obsolete or uncompetitive and adversely affect our business and financial results. Because of the pace of technological advances, we may in addition to our existing products, also be required to introduce new products that offer our customers the latest competitive technologies while managing the production of our existing products on a timely basis. The success of any new product is dependent on factors including timely completion of new product design, acceptable production yields and market acceptance. If we cannot respond adequately to the increased competition we expect to face or delay in customer validations or delay in developing products, we will lose our market credibility and market share and our profits will decline, which will adversely affect our business, results of operations and financial condition.

31. *Intellectual property rights are important to our business and we may be unable to protect them from being infringed by others which may adversely affect our business value, financial condition and results of operations*

As on the date of this Draft Letter of Offer, we have not yet obtained registration for our logo  and hence, we do not enjoy the statutory protection accorded to a registered trademark. All our trademarks and patent are our material assets and are crucial to our business operations. As on the date of this Draft Letter of Offer, our Company has 1 (one) patent and applications for registration of 12 (twelve) patents are pending before the relevant authorities. However, there can be no assurance that our applications will succeed. If we are unable to obtain a registration, we may still continue to use the logo but remain vulnerable to infringement and passing-off by third parties and will not be able to enforce any rights against them. We may also be

required to change our logo which may adversely affect our reputation and business and could require us to incur additional costs. Although, we believe that our present systems are adequate to protect our confidential information and intellectual property, there can be no assurance that our intellectual property data, trade secrets or proprietary technology will not be copied, infringed or obtained by third parties. Further, our efforts to protect our intellectual property may not be adequate and may lead to erosion of our business value and our operations could be adversely affected. This may lead to litigations and any such litigations could be time consuming and costly and their outcome cannot be guaranteed. Our Company may not be able to detect any unauthorized use or take appropriate and timely steps to enforce or protect our intellectual property, which may adversely affect our business, financial condition and results of operations. For further details pertaining to our intellectual property, please refer to the chapter titled "Government and Other Statutory Approvals" beginning on page 74 of this Draft Letter of Offer.

32. *Our Company is also dependent on contract labour at our manufacturing units. If we are unable to continue to hire skilled contract labour, the quality of our products being manufactured in our manufacturing facilities can get affected.*

Our operations are significantly dependent on access to contract labour for our manufacturing units. The number of contract labourers employed by us varies from time to time based on the nature and extent of work we are involved in. Our dependence on such contract labour may result in significant risks for our operations, relating to the availability and skill of such contract labourers, as well as contingencies affecting availability of such contract labour during peak periods. There can be no assurance that we will have adequate access to skilled workmen at reasonable rates. As a result, we may be required to incur additional costs to ensure timely execution of order of our products in a timely manner in peak season.

Our Company appoints independent contractors who in turn engage on-site contract labourers for carrying out the manufacturing process. Although our Company does not engage these labourers directly, we may be held responsible for any wage payments to be made to such labourers in the event of default by such independent contractors. Any requirement to fund their wage requirements may have an adverse impact on our results of operations and financial condition.

Also, on an application made by contract labourers, an Industrial court or Tribunal may direct that the contract labourers are required to be regularized or absorbed by our Company. Further, the State Government may prohibit employment of contract labour. If either of the above should occur, we may be required to induct such labourers on our payroll, as employees which may result in increased expenses. Further, even though we have obtained all necessary approvals as required under the statutes there can be no assurance that we may continue to hold such permits, licenses or approvals in the time-frame anticipated by it or at all. Such non-issuance or non-renewal may result in the interruption of our operations and may have a material adverse effect on our business, financial condition and future results of operations.

33. *Compliance with safety or emissions standards relating to our Company's products or its manufacturing facilities, or other environmental and governmental regulation, may adversely affect Company's business and results of operations.*

We are subject to extensive governmental regulations regarding vehicle emission levels, noise, safety and levels of pollutants generated by its production facilities. Furthermore, the risk remains that legislation may impose requirements in excess of what the current planned design actions can achieve. In order to comply with current and future safety and environmental norms, we may have to incur additional costs to: (i) operate and maintain our production facilities; (ii) install new emissions controls or reduction technologies and (iii) invest in research and development to upgrade products and manufacturing facilities. If we are unable to develop commercially viable technologies or otherwise unable to attain compliance within the time frames set by the new standards, we could face significant civil penalties or be forced to restrict product offerings drastically. Moreover, safety and environmental standards may at times impose conflicting imperatives, which pose engineering challenges and would, among other things, increase our costs. While we are pursuing the development and implementation of various technologies in order to meet the required standards in the various countries in which our products are used, the costs for compliance with these required standards could be significant to our operations and may materially and adversely affect our business, financial condition and results of operations.

34. *We are exposed to operational risks, including risks in connection with our use of information technology.*

Operational risk is the risk of loss resulting from inadequate or failed internal systems and processes, whether resulting from internal or external events. Such risks could stem from inadequacy or failures of controls within internal procedures, violations of internal policies by employees, disruptions or malfunctioning of information technology systems such as computer networks and telecommunication systems, other mechanical or

equipment failures, human error, natural disasters or malicious acts by third parties. Any unauthorized access to or misuse of data on our information technology systems, human errors or technological or process failures of any kind could severely disrupt our operations, including our manufacturing, design and engineering processes, and could have a material adverse effect on our financial condition and results of operations.

35. ***The deployment of funds raised through this Issue shall not be subject to any Monitoring Agency and shall be purely dependent on the discretion of the management of our Company.***

Since the proceeds from Issue are less than `1,000 Million, there is no mandatory requirement of appointing an Independent Monitoring Agency for overseeing the deployment of utilization of funds raised through this Issue. The deployment of these funds raised through this Issue, is hence, at the discretion of the management and the Board of Directors of our Company and will not be subject to monitoring by any independent agency. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financials.

36. ***Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.***

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Additionally, under some of our financing agreements, we may not be permitted to declare any dividends, if there is a default under such financing agreements or unless our Company has paid all the dues to the lender up to the date on which the dividend is declared or paid or has made satisfactory provisions thereof. Accordingly, realization of a gain on shareholders' investments may largely depend upon the appreciation of the price of our Equity Shares.

37. ***Our results of operations and cash flows could be impacted by changes in tariffs imposed by the GoI and/or foreign governments.***

Our ability to competitively source and sell auto-components could be significantly impacted by changes in tariffs imposed by various governments, whether the GoI or any of the governments of the countries in which we sell our auto-components. India may impose tariffs on auto-components or the raw materials that we use to manufacture our auto-components, which may increase our cost of supplying auto-components to certain jurisdictions and the cost of our raw materials. In the event that we are unable to pass on any increased costs due to the imposition of tariffs on our products and/or raw materials by increasing the prices of our products, our profitability may be adversely affected and we could lose market share due to the opportunity for other competitors to establish or increase their presence in markets where we participate.

38. ***Two of our independent directors are also non-executive independent directors in a stock broking company on which regulatory action has been taken by SEBI and Stock Exchange.***

Two of our non- executive independent directors, namely, Mr. Bhagwan Dass Narang and Ms. Jyothi Prasad are also non- executive independent directors of Kavy Stock Broking Limited, a stock broking company which has been prohibited from taking new clients in respect of its stock broking activities on account of misuse of client funds and securities and thereby has been expelled from the trading membership of NSE, vide SEBI confirmatory order dated November 20, 2020. Further, in terms of the applicable NSE circular, persons associated as directors with expelled/declared defaulter members of the NSE shall become ineligible to hold office as directors in any other entity which is a member of a Stock Exchange. Accordingly, while there is no bar on our aforesaid directors from being associated as directors in our Company, we cannot assure you that any such or other prohibition will not be placed on them in future, which may lead to their discontinuation as non-executive independent directors in our Company.

39. ***We have not commissioned an industry report for the disclosures made in the chapter titled "Industry Overview" and made disclosures on the basis of the data available in the public domain and such data has not been independently verified by us.***

We have neither commissioned an industry report, nor sought consent from the quoted website source for the disclosures which need to be made in the chapter titled — Industry Overview of this Draft Letter of Offer. We have made disclosures in the said chapter on the basis of the relevant industry related data available online for which relevant consents have not been obtained. We have not independently verified such data. We cannot assure you that any assumptions made are correct or will not change and, accordingly, our position in the

market may differ from that presented in this Draft Letter of Offer. Further, the industry data mentioned in this Draft Letter of Offer or sources from which the data has been collected are not recommendations to invest in our Company. Accordingly, Investors should read the industry related disclosure in this Draft Letter of Offer in this context.

External risk factors

40. *Deterioration in global economic conditions could have a material adverse impact on our sales and results of operations.*

The automotive industry and the demand for automobiles are influenced by general economic conditions, including among other things, rates of economic growth, availability of credit, disposable income of consumers, interest rates, environmental and tax policies, safety regulations, freight rates and fuel and commodity prices. Negative trends in any of these factors impacting the regions where we operate could materially and adversely affect our business, financial condition and results of operations.

The Indian automotive industry is affected materially by the general economic conditions in India and around the world. Muted industrial growth in India in recent years along with continuing high levels of inflation and interest rates continue to pose risks to overall growth in this market. The automotive industry in general is cyclical and economic slowdowns in the recent past have affected the manufacturing sector, including the automotive and related industries in India. A continuation of negative economic trends or further deterioration in key economic metrics such as the growth rate, interest rates and inflation as well as reduced availability of financing for vehicles at competitive rates could materially and adversely affect our automotive sales in India and results of operations.

In addition, the Indian automotive market and the Indian economy are influenced by economic and market conditions in other countries. Although economic conditions are different in each country, investors' reactions to economic developments in one country can have adverse effects on the securities of companies and the economy as a whole, in other countries, including India. A loss of investor confidence in the financial systems of other emerging markets may cause volatility in Indian financial markets and indirectly, in the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy, including the movement of exchange rates and interest rates in India. In the event the recovery of global economy is slower than expected, or if there is any significant financial disruption, this could have a material adverse effect on our cost of funding, portfolio of financing loans, business, prospects, financial condition, results of operations and the trading price of our securities.

41. *We may be affected by competition law in India and any adverse application or interpretation of the Competition Act could in turn adversely affect our business.*

The Competition Act was enacted for the purpose of preventing practices that have or are likely to have an adverse effect on competition in India and has mandated the CCI to regulate such practices. Under the Competition Act, any arrangement, understanding or action, whether formal or informal, which causes or is likely to cause an appreciable adverse effect on competition is void and attracts substantial penalties. Further, any agreement among competitors which, directly or indirectly, involves determination of purchase or sale prices, limits or controls production, or shares the market by way of geographical area or number of subscribers in the relevant market is presumed to have an appreciable adverse effect in the relevant market in India and shall be void.

The Competition Act also prohibits abuse of a dominant position by any enterprise. On March 4, 2011, the Central Government notified and brought into force the Competition Commission of India (Procedure in regard to the transaction of business relating to combinations) Regulations (Combination Regulations) under the Competition Act with effect from June 1, 2011. The Combination Regulations require acquisitions of shares, voting rights, assets or control or mergers or amalgamations that cross the prescribed asset and turnover based thresholds to be mandatorily notified to, and pre-approved by, the CCI. Additionally, on May 11, 2011, the CCI issued the Competition Commission of India (Procedure for Transaction of Business Relating to Combinations) Regulations, 2011, which sets out the mechanism for implementation of the merger control regime in India. The Competition Act aims to, among other things, prohibit all agreements and transactions which may have an appreciable adverse effect in India. Consequently, all agreements entered into by us could be within the purview of the Competition Act. Further, the CCI has extra-territorial powers and can investigate any agreements, abusive conduct or combination occurring outside of India if such agreement, conduct or combination has an appreciable adverse effect in India. However, the impact of the provisions of the Competition Act on the agreements entered into by us cannot be predicted with certainty at this stage. We do not have any outstanding notices in relation to non-compliance with the Competition Act or the agreements entered into by us. However, if we are affected, directly or indirectly, by the application or interpretation of

any provision of the Competition Act, or any enforcement proceedings initiated by the CCI, or any adverse publicity that may be generated due to scrutiny or prosecution by the CCI or if any prohibition or substantial penalties are levied under the Competition Act, it would adversely affect our business.

42. *Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, may adversely affect our business, prospects and results of operations.*

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy. For example, the Government of India implemented a comprehensive national goods and services tax regime with effect from July 1, 2017 that combines multiple taxes and levies by the Central and State Governments into a unified tax structure. While the Government of India and certain State governments have announced that all committed incentives will be protected following the implementation of the GST, given that the various rules and regulations regarding the new regime are being evaluated in terms of various implications concerning the GST, we cannot provide you with any assurance as to this or any other aspect of the tax regime following implementation of the GST including anti profiteering regulations of the new tax regime and availability of input tax credit.

Unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment laws governing our business, operations and group structure could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current businesses or restrict our ability to grow our businesses in the future.

43. *Investors may not be able to enforce a judgment of a foreign court against our Company.*

Our Company is incorporated under the laws of India. Our Company's assets are primarily located in India and the all our Directors and all our Key Managerial Personnel are residents of India. As a result, it may not be possible for Investors to effect service of process upon our Company or such persons in jurisdictions outside India, or to enforce against them judgments obtained in courts outside India. Moreover, it is unlikely that a court in India would award damages on the same basis as a foreign court if an action were brought in India or that an Indian court would enforce foreign judgments, if it viewed the amount of damages as excessive or inconsistent with Indian public policy.

44. *Foreign Investors may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under current Indian tax laws, unless specifically exempted capital gains arising from the sale of the Equity Shares are generally taxable in India. Any gain realized on the sale of the Equity Shares on a stock exchange held for more than 12 (twelve) months will not be subject to capital gains tax in India if the securities transaction tax has been paid on the transaction. The securities transaction tax will be levied on and collected by an Indian stock exchange on which the Equity Shares are sold. Any gain realized on the sale of the Equity Shares held for more than 12 (twelve) months, which are sold other than on a recognized stock exchange and on which no securities transaction tax has been paid, will be subject to capital gains tax in India. Further, any gain realized on the sale of the Equity Shares held for a period of 12 (twelve) months or less will be subject to capital gains tax in India. Capital gains arising from the sale of the Equity Shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares.

45. *We are subject to regulatory, economic and social and political uncertainties and other factors beyond our control.*

We are incorporated in India and we conduct our corporate affairs and our business in India. Our Rights Equity Shares are proposed to be listed on the BSE and the NSE, subject to the receipt of the final listing and trading approvals from the respective Stock Exchanges. Consequently, our business, operations, financial

performance and the market price of our Equity Shares will be affected by interest rates, government policies, taxation, social and ethnic instability and other political and economic developments affecting India.

Factors that may adversely affect the Indian economy, and hence, our results of operations may include:

- any exchange rate fluctuations, the imposition of currency controls and restrictions on the right to convert or repatriate currency or export assets;
- any scarcity of credit or other financing in India, resulting in an adverse effect on economic conditions in India and scarcity of financing for our expansions;
- prevailing income conditions among Indian customers and Indian corporations;
- political instability, terrorism, military conflict, epidemic or public health issues in India or in countries in the region or globally, including in India's various neighbouring countries;
- macroeconomic factors and central bank regulation, including in relation to interest rates movements which may in turn adversely impact our access to capital and increase our borrowing costs;
- Instability in financial markets and volatility in, and actual or perceived trends in trading activity on, India's principal stock exchanges;
- decline in India's foreign exchange reserves which may affect liquidity in the Indian economy;
- downgrading of India's sovereign debt rating by rating agencies;
- difficulty in developing any necessary partnerships with local businesses on commercially acceptable terms and/or a timely basis;
- changes in India's tax, trade, fiscal or monetary policies; and
- other significant regulatory or economic developments in or affecting India or its logistics sector.

Moreover, a fall in the purchasing power of our customers, for any reason whatsoever, including rising consumer inflation, availability of financing to our customers, changing governmental policies and a slowdown in economic growth may have an adverse effect on our customers' revenues, savings and could in turn negatively affect their demand for our products. In addition, any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy, could adversely affect our business, results of operations and financial condition and the price of the Equity Shares.

46. *Financial instability in other countries may cause increased volatility in Indian financial markets.*

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, particularly emerging market countries in Asia. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss of investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business, our future financial performance and the prices of the Equity Shares.

47. *Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.*

India's sovereign rating is Baa2 with a "stable" outlook (Moody's), BBB- with a "stable" outlook (S&P) and BBB- with a "stable" outlook (Fitch). Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

48. *The occurrence of natural or man-made disasters may adversely affect our business, financial condition, results of operations and cash flows.*

The occurrence of natural disasters, including hurricanes, floods, tsunamis, earthquakes, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, may adversely affect our financial condition or results of operations. The potential impact of a natural disaster on our results of operations and financial position is speculative and would depend on numerous factors. Further,

the present outbreak and further escalation of COVID-19 pandemic, if any, or an outbreak of a communicable disease in India or in the particular region in which we have manufacturing facilities would adversely affect our business and financial conditions and the result of operations. We cannot assure prospective investors that such events will not occur in the future or that our business, financial condition, results of operations and cash flows will not be adversely affected.

49. *Terrorist attacks, civil unrests and other acts of violence or war in South Asia could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.*

India has, from time to time, experienced social and civil unrest within the country and hostilities with neighbouring countries. These hostilities and tensions could lead to political or economic instability in India and a possible adverse effect on our business and future financial performance. There can be no assurance that such situations will not recur or be more intense than in the past. Terrorist attacks and other acts of violence or war may adversely affect global markets and economic growth. These acts may also result in a loss of business confidence, make travel and other services more difficult and have other consequences that could have an adverse effect on our business, results of operations and financial condition. Such violence may have an adverse impact on the Indian and worldwide financial markets. In addition, any deterioration in international relations may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares.

Risks Relating to the Equity Shares and this Issue

50. *Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.*

The Rights Entitlements that are not exercised or transferred/sold prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renouncees may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renouncees prior to the Issue Closing Date. Further, in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renouncee will not be able to apply in this Issue with respect to such Rights Entitlements.

51. *The trading price of our Equity Shares may be subject to volatility and you may not be able to sell your Equity Shares at or above the Issue Price.*

The trading price of our Equity Shares may fluctuate after this Issue due to a variety of factors, including our results of operations and the performance of our business, competitive conditions, general economic, political and social factors, the performance of the Indian and global economy and significant developments in India's fiscal regime, volatility in the Indian and global securities market, performance of our competitors, changes in the estimates of our performance or recommendations by financial analysts and announcements by us or others regarding contracts, acquisitions, strategic partnerships, joint ventures, or capital commitments. In addition, if the stock markets in general experience a loss of investor confidence, the trading price of our Equity Shares could decline for reasons unrelated to our business, financial condition or operating results. The trading price of our Equity Shares might also decline in reaction to events that affect other companies in our industry even if these events do not directly affect us. Each of these factors, among others, could adversely affect the price of our Equity Shares.

52. *The Rights Entitlement of Eligible Equity Shareholders holding Equity Shares in physical form ("Physical Shareholders") may lapse in case they fail to furnish the details of their demat account to the Registrar.*

In accordance with the SEBI Circular SEBI/HO/CFD/DIL2/CIR/P/2020/13 dated January 22, 2020, the credit of Rights Entitlement and Allotment of Rights Equity Shares shall be made in dematerialised form only. Accordingly, the Rights Entitlements of the Physical Shareholders shall be credited in a suspense escrow demat account opened by our Company during the Issue Period. The Physical Shareholders are requested to furnish the details of their demat account to the Registrar not later than two Working Days prior to the Issue Closing Date to enable the credit of their Rights Entitlements in their demat accounts at least one day before the Issue Closing Date. The Rights Entitlements of the Physical Shareholders who do not furnish the details of their demat account to the Registrar not later than two Working Days prior to the Issue Closing Date, shall lapse.

Further, pursuant to a press release dated December 3, 2018 issued by the SEBI, with effect from April 1, 2019, a transfer of listed Equity Shares cannot be processed unless the Equity Shares are held in dematerialized form (except in case of transmission or transposition of Equity Shares).

53. *Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.*

Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Rights Equity Shares to the Applicant's demat account with its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operation, cash flows or financial condition, or other events affecting the Applicant's decision to invest in the Rights Equity Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. Occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares. The Applicants shall not have the right to withdraw their applications in the event of any such occurrence. We cannot assure you that the market price of the Equity Shares will not decline below the Issue Price. To the extent the market price for the Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Equity Shares at a price that will be higher than the actual market price for the Equity Shares at that time. Should that occur, the shareholder will suffer an immediate unrealized loss as a result. We may complete the Allotment even if such events may limit the Applicants' ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

54. *Investors will not have the option of getting the allotment of Rights Equity Shares in physical form.*

In accordance with the SEBI ICDR Regulations, the Rights Equity Shares shall be issued only in dematerialized form. Investors will not have the option of getting the allotment of Rights Equity Shares in physical form. The Rights Equity Shares Allotted to the Applicants who do not have demat accounts or who have not specified their demat details, will be kept in abeyance till receipt of the details of the demat account of such Applicants. For details, see "Terms of the Issue" on page 82. This may impact the ability of our shareholders to receive the Rights Equity Shares in the Issue.

55. *We will not distribute the Letter of Offer, Abridged Letter of Offer and Common Application Form to overseas Shareholders who have not provided an address in India for service of documents.*

We will dispatch the Letter of Offer, Abridged Letter of Offer and Common Application Form (the "Issue Materials") to the shareholders who have provided an address in India for service of documents. The Issue Materials will not be distributed to addresses outside India on account of restrictions that apply to circulation of such materials in overseas jurisdictions. However, the Companies Act requires companies to serve documents at any address, which may be provided by the members as well as through e-mail.

Presently, there is lack of clarity under the Companies Act and the rules made thereunder with respect to distribution of Issue Materials in overseas jurisdictions where such distribution may be prohibited under the applicable laws of such jurisdictions. While we have requested all the shareholders to provide an address in India for the purposes of distribution of Issue Materials, we cannot assure you that the regulator or authorities would not adopt a different view with respect to compliance with the Companies Act and may subject us to fines or penalties.

56. *The R-WAP payment mechanism facility required to be used for this Issue is newly introduced and may be pose risks pertaining to submission of applications and payment.*

In view of the COVID-19 pandemic, SEBI under SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2020/78 dated May 6, 2020 read with SEBI circular SEBI/HO/CFD/DIL1/CIR/P/2020/136 dated July 24, 2020 and SEBI circular SEBI/HO/CFD/DIL1/CIR/P/2021/13 dated January 19, 2021 and SEBI circular SEBI/HO/CFD/CIR/CFD/DIL/67/2020 dated April 21, 2021 and SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2021/633 dated October 01, 2021 has directed issuer to provide the Eligible Equity Shareholders with a separate web based application platform, i.e., the R-WAP for making Applications in this Issue by resident Investors. R-WAP is only an additional option and not a replacement of the ASBA process. On R-WAP, the resident Investors can access and fill the Application Form in electronic mode and make online payment using the internet banking or UPI facility from their own bank account. For details, see "Terms of the Issue – Procedure for Application through the R-WAP" on page 95. Such payment gateways and mechanisms are faced with risks such as:

- The R-WAP information technology systems need to be in sync with the technology in the payment services industries;
- Maintaining confidentiality of investors' data.

There can be no assurance that the R-WAP facility will not suffer from any unanticipated system failure or breakdown or delay, including failure on part of the payment gateway, and therefore, your Application may not be completed or rejected. These risks are indicative and any failure to manage them effectively can impair the efficacy and functioning of the payment mechanism for this Issue. Since Application process through R-WAP is different from the ASBA process, there can be no assurance that investors will not find difficulties in accessing and using the RWAP facility.

- 57. SEBI has recently, by way of circulars dated January 22, 2020, May 6, 2020, July 24, 2020, January 19, 2021 and April 22, 2021, streamlined the process of rights issues. You should follow the instructions carefully, as stated in such SEBI circulars and in this Draft Letter of Offer.**

The concept of crediting Rights Entitlements into the demat accounts of the Eligible Equity Shareholders has recently been introduced by the SEBI. Accordingly, the process for such Rights Entitlements has been recently devised by capital market intermediaries. Eligible Equity Shareholders are encouraged to exercise caution, carefully follow the requirements as stated in the SEBI circulars dated January 22, 2020, May 6, 2020, July 24, 2020, January 19, 2021 and April 22, 2021, and ensure completion of all necessary steps in relation to providing/updating their demat account details in a timely manner. For details, see "Terms of the Issue" beginning on page 82.

In accordance with Regulation 77A of the SEBI ICDR Regulations read with the SEBI Rights Issue Circular, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialized form only. Prior to the Issue Opening Date, our Company shall credit the Rights Entitlements to (i) the demat accounts of the Eligible Equity Shareholders holding the Equity Shares in dematerialised form; and (ii) a demat suspense escrow account opened by our Company, for the Eligible Equity Shareholders which would comprise Rights Entitlements relating to (a) Equity Shares held in a demat suspense account pursuant to Regulation 39 of the SEBI Listing Regulations; or (b) Equity Shares held in the account of IEPF authority; or (c) the demat accounts of the Eligible Equity Shareholder which are frozen or details of which are unavailable with our Company or with the Registrar on the Record Date; or (d) credit of the Rights Entitlements returned/reversed/failed; or (e) the ownership of the Equity Shares currently under dispute, including any court proceedings.

- 58. *Fluctuations in the exchange rate between the Rupee and the U.S. dollar could have an adverse effect on the value of our Equity Shares, independent of our operating results.***

Our Equity Shares are quoted in Rupees on the Stock Exchanges. Any dividends in respect of our Equity Shares will be paid in Rupees and subsequently converted into U.S. dollars for repatriation. Any adverse movement in exchange rates during the time it takes to undertake such conversion may reduce the net dividend to investors. In addition, any adverse movement in exchange rates during a delay in repatriating the proceeds from a sale of Equity Shares outside India, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares, may reduce the net proceeds received by shareholders. The exchange rate between the Rupee and the U.S. dollar has changed substantially in the last two decades and could fluctuate substantially in the future, which may have an adverse effect on the value of our Equity Shares and returns from our Equity Shares, independent of our operating results.

- 59. *You may not receive the Rights Equity Shares that you subscribe in the Issue until 15 days after the date on which this Issue closes, which will subject you to market risk.***

The Rights Equity Shares that you may be allotted in the Issue may not be credited to your demat account with the depository participants until approximately 15 days from the Issue Closing Date. You can start trading such Rights Equity Shares only after receipt of the listing and trading approval in respect thereof. There can be no assurance that the Rights Equity Shares allocated to you will be credited to your demat account, or that trading in the Rights Equity Shares will commence within the specified time period, subjecting you to market risk for such period.

- 60. *There is no guarantee that our Equity Shares will be listed, or continue to be listed, on the Indian stock exchanges or that the Rights Equity Shares will be listed thereon in a timely manner, or at all, and prospective investors will not be able to immediately sell their Equity Shares on a Stock Exchange.***

In accordance with Indian law and practice, final approval for listing and trading of our Rights Equity Shares will not be applied for or granted until after our Rights Equity Shares have been issued and allotted. Such approval will require the submission of all other relevant documents authorizing the issuance of our Equity Shares. Accordingly, there could be a failure or delay in listing our Equity Shares on the NSE and BSE, which would adversely affect your ability to sell our Equity Shares.

- 61. *Foreign investors are subject to foreign investment restrictions under Indian law that limit our ability to attract foreign investors, which may adversely affect the trading price of our Equity Shares.***

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the requirements specified by the RBI. If the transfer of shares is not in compliance with such requirements or falls under any of the specified exceptions, then prior approval of the RBI will be required. In addition, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no-objection or tax clearance certificate from the income tax authority. Additionally, the Indian government may impose foreign exchange restrictions in certain emergency situations, including situations where there are sudden fluctuations in interest rates or exchange rates, where the Indian government experiences extreme difficulty in stabilizing the balance of payments or where there are substantial disturbances in the financial and capital markets in India. These restrictions may require foreign investors to obtain the Indian government's approval before acquiring Indian securities or repatriating the interest or dividends from those securities or the proceeds from the sale of those securities. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

- 62. *Any future issuance of Equity Shares by us or sales of our Equity Shares by any of our significant shareholders may adversely affect the trading price of our Equity Shares.***

Any future issuance of our Equity Shares by us could dilute your shareholding. Any such future issuance of our Equity Shares or sales of our Equity Shares by any of our significant shareholders may also adversely affect the trading price of our Equity Shares, and could impact our ability to raise capital through an offering of our securities. We cannot assure you that we will not issue further Equity Shares or that the shareholders will not dispose of, pledge or otherwise encumber their Equity Shares. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Equity Shares.

SECTION III: INTRODUCTION THE ISSUE

The Issue has been authorized by way of a resolution passed by our Board on December 28, 2019, pursuant to Section 62 of the Companies Act, 2013.

Following is a summary of the Issue and should be read in conjunction with, and is qualified in its entirety by, more detailed information in the section “*Terms of the Issue*” beginning on page 82.

Details of the Objects of the Issue

1. Augmenting working capital requirements of our Company

Our business is predominantly working capital intensive. In past, we have funded our working capital requirements in the ordinary course of our business from internal accruals and debt.

We are in the business of manufacturing auto components, and have to maintain adequate inventory during all times. Since we also sell our products to customers on credit, the increased sales will result into increase in debtors. Further, at present holding level of creditors is much higher than the industry norms that is affecting our performance which we need to reduce. We intend to utilize our capacities at optimum level in our plants. As, we run our plants at different locations, hence need to maintain the sufficient inventory at each location to cover the lead time between ordering to delivery time and optimizing order quantity based on delivery cost and storage costs.

The equity infusion through Rights Issue is proposed to meet our increasing working capital requirement that will help in maintaining creditors, debtors, inventory holding levels as per our operations requirement and in order to achieve growth in next 2-3 years and also for maintaining growth pace with Industry going forward.

As on June 30, 2021, our sanctioned working capital facility consisted of aggregate fund based limits of Rs. 7,303 Lakhs.

INDUSTRY OVERVIEW

The information in this section includes extracts from publicly available information, data and statistics and has been derived from various government publications and industry sources. Neither we nor any other person connected with the Issue have verified this information. The data may have been re-classified by us for the purposes of presentation. Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but that their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured and, accordingly, investment decisions should not be based on such information. You should read the entire Draft Letter of Offer, including the information contained in the sections titled “Risk Factors” and “Financial Statements” and related notes beginning on page 16 and 62 Draft Letter of Offer.

Global Economic Overview

The pandemic raised unprecedented health challenges on a global scale and posed unique policy dilemmas. Since 2018, the growth momentum in global output was on a weakened footing owing to various factors like trade tensions, political instability, slowed demand and reduction in industrial activity. COVID-19 pandemic accentuated the deceleration by causing severe demand and supply disruptions. Economic activity has been belaboured by reduced mobility, owing both to official restrictions and private decisions; uncertainty regarding the post-pandemic economic prospects and policies has impacted investment; disruptions in education have decelerated human capital accumulation; concerns about the viability of global value chains; and the adverse impact on international trade and tourism.

The month of April 2020 became the month of “Global Lockdown” with world economic activity coming to a standstill – leading to a steep fall in output during second quarter of 2020. Global output is expected to witness the sharpest contraction in a century, contracting in the range of 3.5 - 4.3 per cent in 2020 as per the estimates provided by IMF and World Bank (below figure). The cumulative loss to global GDP over 2020 and 2021 is estimated at around USD 9 trillion – greater than the economies of Japan and Germany combined. Loss of output is anticipated to be more severe in AEs at 5.4 per cent compared to EMDEs, excluding China, which stood at 5.0 per cent for the year 2020 (below figure). This is aligned with the more severe impact of the pandemic spread in AEs than EMDEs as was seen above. The estimates for global growth were revised upward through the year with easing of lockdowns and resurgence in economic activity in July-September quarter of the year. The rebound in global activity has, however, been uneven and subdued since the beginning of second half of the year due to resurgence in COVID-19 infection rates in AEs.

Going forward, an effective vaccination campaign, restoration of consumer and business confidence as well as continued monetary and fiscal support are expected to lift the global output by 4.5 – 5.5 per cent in 2021. Downside risks to this forecast include the possibility of mutant strains, delays in vaccine procurement and distribution, disruptive effects on potential output from the pandemic, and financial stress triggered by high debt levels and weak growth.

Indian Economic Overview

The Indian economy, after subdued growth in 2019, had begun to regain momentum January 2020 onwards, only to be stalled by the once-in-a-century black swan COVID-19 outbreak. The economy witnessed a sharp contraction of 23.9 per cent in Q1: FY 2020-21 and 7.5 per cent in Q2: FY 2020-21 due to the stringent lockdown imposed during March-April, 2020. Since then, several high frequency indicators have demonstrated a V-shaped recovery. The fundamentals of the economy remain strong as gradual scaling back of lockdowns along with the astute support of Atmanirbhar Bharat Mission have placed the economy firmly on the path of revival.

There has been rapid recovery in India's economic activity from the COVID-19 pandemic induced unprecedented lows of the first quarter of FY 2020-21 on the back of extraordinary fiscal and monetary support provided by the Government and RBI. Overall movement of high frequency indicators over Q1, Q2 and Q3 indicated speedy pickup in Q2 and growing convergence to pre-pandemic levels in Q3. As India's mobility and pandemic trends aligned and improved concomitantly, indicators like E-way bills, rail freight, GST collections and power consumption not only reached pre-pandemic levels but also surpassed previous year levels.

India remained a preferred investment destination in FY 2020-21. FDI poured in amidst global asset shifts towards equities and prospects of quicker recovery in emerging economies. Subsequent to an unrivalled global portfolio investor selloff in March 2020, surges of FPI flows were witnessed June onwards marking a renewed appetite for risky assets and yield, and weakening of US dollar amid global monetary easing and fiscal stimulus packages. Net FPI inflows recorded an all-time monthly high of US\$ 9.8 billion in November 2020. During April-December 2020, equities witnessed inflow of at USD 30.0 billion, five times its previous year value - India was the only country among emerging markets to receive equity FII inflows in 2020. As a result of these inflows, buoyant Sensex and NIFTY resulted in India's market-capitalisation to Gross Domestic Product (GDP) ratio crossing 100 per cent for the first time since October 2010. While stock markets value the potential future growth, these elevated levels still raise concerns on the disconnect between the financial markets and real sector.

Overall, India is well on its path to a V-shaped recovery to pre-pandemic levels and beyond. The economy was well supported by strategically paced macro-economic policies and resilient fundamentals. The coordinated policy response on both health and economic fronts helped India to endure the pandemic-induced shocks this year.

Production process

The Company uses state-of-the-art equipment and is one of the pioneers in high speed progressive forging and near net shape forging operation through hot, warm and cold routes, gear cutting, machining, heat treatment and finishing operations. Our Company has lean plants which undertake all processes under one roof to ensure high volumes and stringent quality controls.

The generalized process of production follows the sequence as given below:

1. Billet Cutting - Sawing / Chopping is the first stage of process wherein steel rods are cut into the required size of the component as per the customer requirements. After that billets are transferred for warm / hot forging or cold extrusions;
2. Forging - The billets after chopping are heated in induction heater at a specified temperature and sent for forging. Forging is the process of beating metal by compressing it and making it flow into the desired shape of die in the Forging Press;
3. Normalizing / Annealing - After forging the component goes for normalizing / hardening / tempering which gives the components metallurgical structure as per the customer requirements;
4. Facing and turning by use of Computer Numerically Controlled Machine – The forged blank after normalizing is fed to the Computer Numerically Controlled Machine. Computer Numerically Controlled Machine contains two set up for each gear and shafts components. Through machining operations, forging blanks undergo facing, turning and boring operations to get the desired geometry of the part;
5. Milling by use of Vertical Machining Centre or Gear Hobbing / Shaping- After facing turning and boring, component is sent for broaching / milling by use of Vertical Machining Centre / hobbing / shaping, as may be required;
6. Case Carburizing/ Carbonitriding – After, broaching, milling and hobbing, as the case may be, the component is sent for carburizing;

7. Grinding – Grinding process is a machining operation for material removal from the work piece and simultaneously improving the surface finish and texture, using cutting tool made from abrasive material. There are various forms of grinding operation depending on the complexity of the work piece, accuracy requirement, work piece material properties, and surface finish requirement. For automotive application, all moving parts of transmission system such as gears and shafts, require grinding process in order to achieve the accuracy and surface finish. Various types of grinding operation performed on products manufactured by the Company are:
 - Cylindrical Grinding;
 - Angular Head Grinding;
 - Centreless Grinding;
 - Gear Grinding.
8. Pre-Despatch Inspection – The finished product is then inspected in-house prior to despatch for ensuring quality.

Turn around in Business Operations during the COVID-19 crisis

The ongoing COVID crisis has significantly affected the entire automotive and auto ancillary sector, with companies facing unprecedented challenges due to the disruption caused by lockdowns and subsequent impact on operations and restriction on movement of vehicles and people. Further, the automobile sector was already facing challenges pre-COVID times due to transition of automobile norms from BS IV to BS VI effective from April 01, 2020 and overall slowdown in automobile sector. On account of these factors, there has been significant pressure on the industry's top line and margins and a considerable extension of the working capital cycle due to pandemic.

Due to this crisis, the Company witnessed complete disruption in the operations on account of the national lock down. All the plants of the Company remained shut for a total of 60 days. Post relaxation in lockdown, all the plants restarted operations, albeit at low levels of capacity utilization. The Company operated at a capacity utilization of only 20% in the first quarter of Fiscal 2021 which resulted in net sales of only ` 3800.00 lakhs as against ` 17400.00 lakhs in the first quarter of Fiscal 2020 and EBITDA of ` -900.00 lakhs the first quarter of Fiscal 2021 as against ` 2200.00 lakhs in the first quarter of Fiscal 2020.

The Company has taken the following steps for revival of the Company:

1. The Company has begun resurrecting its operations in all plants after a prolonged lockdown. Post lockdown, the Company has been receiving continuous orders at a record pace specifically from Hero Motor Corp Limited, though it has not been able to fully capitalize on the situation due to liquidity issues.
2. The Company has undertaken infusion of of ₹ 3,000 lakhs which was availed as an unsecured loan at 10.5% interest per annum from the Promoter demonstrating the commitment and confidence of the Promoter in revival of the Company's operations. The aforesaid loan has been utilised for working capital requirements and general corporate purposes to increase operations of the Company.

To the Members of Shivam Autotech Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of **Shivam Autotech Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2021, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and notes to the financial statements including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, thereof ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, the loss and total comprehensive losses, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Emphasis of Matter

We draw attention to:

- i. Note 7 in the financial statements, wherein management has recognized deferred tax assets on the assumption that there would be sufficient future taxable profits, more fully been explained in the said note for reversal of such deferred tax assets.
- ii. Note 10 in the financial statements, regarding the booking of material consumption and accounting impact of physical verification observations, more fully been explained in the said note.

Our opinion is not modified in respect of above matters.

Key Audit Matters

Key audit matters (KAM) are those matters that, in our professional judgment were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined that there are no key audit matters to communicate in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this Auditors' Report. Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibilities for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, total comprehensive losses, changes in equity and cash flows of the Company in accordance with accounting principles generally accepted in India, including the Indian Accounting Standard (Ind AS) specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, thereof.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Annexure B to the Independent Auditor's Report to the members of Shivam Autotech Limited ('the Company') on its financial statement dated June 09, 2021.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act") as referred to in paragraph 1(f) of 'Report on Other Legal and Regulatory Requirements' section

We have audited the internal financial controls over financial reporting of **Shivam Autotech Limited** ("the Company") as of March 31, 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Management and Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the "Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit.

We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our Qualified audit opinion on the Company's internal financial controls system over financial reporting with reference to these financial statements.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that:

- a) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

- b) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- c) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Qualified Opinion

According to the information and explanations given to us and based on our audit, the following material weakness has been identified in the operating effectiveness with reference to its financial statements as at March 31, 2021.

- i. The Company's internal control system in respect of supervisory and review controls over process of booking of material consumption, booking of proper inventory and accounting of returnable gate pass, reconciliation of old stock lying with third party and allocation of fixed and variable overheads on product costing on periodical basis were not operating effectively during the current financial year to arrive at the correct value of stock including physical number, which could potentially result in material misstatement of cost of goods sold and inventories as on March 31, 2021.

Based on physical verification of Inventories, consumption and reconciliation of closing stock as done by the Management subsequently, necessary remedial measures have been taken to arrive at the correct value of inventories as on March 31, 2021 and also to arrive at cost of goods sold for the year then ended.

- ii. The Company's internal control weakness has been observed in respect of approval of expenses/ reimbursement of expenses and payment to the vendors/employees were not operating effectively and due to deficiency in the control, the company has made some excess payment to vendors/employees of the company however as confirmed by management these payments were subsequently been approved by the management of the company.
- iii. Due to issues and bugs in software the system is not able to calculate the depreciation correctly. All variations in depreciation on account of these issues are updated in the system manually on the basis of manual depreciation calculation. The management is in continuous discussions with the software provider to fix this anomaly in the system so that correct output can be obtained directly from the system.

A 'material weakness' is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

In our opinion, the Company has, in all material respects, maintained adequate internal financial controls over financial reporting with reference to these financial statements as of March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India, and except for the possible effects of the material weakness described above on the achievement of the objectives of the control criteria, the Company's internal financial controls over financial reporting with reference to these financial statements were operating effectively as of March 31, 2021.

Explanatory paragraph

We have also audited, in accordance with the Standards on Auditing issued by ICAI, as specified under Section 143(10) of the Act, the financial statements of the Company, which comprise the balance sheet as at March 31, 2021, and the statement of profit and loss, statement of changes in equity and cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information. This material weakness was considered in determining the nature, timing, and extent of audit tests applied in our audit of the March 31, 2021 financial statements of the Company and this report does not affect our report dated June 09, 2021, which expressed an unmodified opinion on these financial statements.

General and specific borrowing costs directly attributable to the construction of a qualifying asset are capitalized as part of the cost.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment. The cost of replacing part of an item of property, plant and equipment or major inspections performed, are recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The costs of all other repairs and maintenance are recognized in the statement of profit & loss as incurred.

Capital work-in-progress includes cost of property, plant and equipment under installation / under development as at the balance sheet date. Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets.

An item of property, plant and equipment is derecognized when no future economic benefit are expected to arise from the continued use of the asset or upon disposal. Any gain or loss on disposal of an item of property, plant and equipment is recognized in statement of profit or loss.

Subsequent Expenditure

Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the company and the costs of the item can be measured reliably. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the Property, Plant and Equipment and the resultant gain or losses are recognized in the statement of profit and loss.

ii) Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values, and is recognized in the statement of profit and loss. Depreciation on property, plant and equipment is provided on Straight Line Method at the rates determined on the basis of useful life of the assets as prescribed in Schedule II of the Companies Act, 2013.

	Useful Life as per Schedule II of Companies Act 2013 (in years)
-Plant & Machinery	15
-Buildings	30
-Computers	3
-Office equipment	5
-Furniture & fixtures	10
-Vehicles	8
-Lease hold Improvements	Amortised over the period of lease

Depreciation on additions to or on disposal of assets is calculated on pro-rata basis i.e. from (upto) the date on which the property, plant and equipment is available for use (disposed off).

Property, Plant and Equipment individually costing below Rs. 5,000 are fully depreciated during the year they are put to use.

b) Intangible assets

i) Recognition & measurement and amortization

Intangible Assets are recognized, if the future economic benefits attributable to the assets are expected to flow to the company and cost of the asset can be measured reliably. All other expenditure is expensed as incurred. The same are amortized over the expected duration of benefits. Such intangible assets are measured at cost less any accumulated amortization and impairment losses, if any and are amortized over their respective individual estimated useful life on straight line method.

The estimated useful lives are as follows:

Computer Software 4 years

The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period and adjusted prospectively, if appropriate.

Intangible assets are tested for impairment when there are indications that the carrying value may not be recoverable. All impairment losses are recognised immediately in profit or loss.

An item of intangible asset is derecognised when no future economic benefit are expected to arise from the continued use of the asset or upon disposal.

Any gain or loss on disposal of an item of intangible assets is recognized in statement of profit or loss.

c) Impairment of non-financial assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets (other than deferred tax assets) to determine whether there is any indication on impairment. If any such indication exists, then the asset's recoverable amount is estimated.

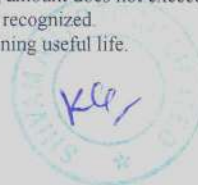

For impairment testing, assets that do not generate independent cash flows are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or Cash Generating Units ('CGUs').

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognized in the statement of profit and loss.

In respect of assets for which impairment loss has been recognized in prior periods, the company reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

After impairment, depreciation is provided on the revised carrying amount of the assets over its remaining useful life.

d) **Financial instruments**

i) **Initial recognition**

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at **fair value of the consideration received or receivable**. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

ii) **Subsequent measurement**

(i) **Financial assets carried at amortized cost**

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. When the financial asset is derecognized or impaired, the gain or loss is recognized in the statement of profit and loss.

(ii) **Financial assets at fair value through other comprehensive income**

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in profit and loss.

When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit and loss. Equity instruments are subsequently measured at fair value. On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVOCI – equity investment). This election is made on an investment by investment basis. Fair value gains and losses recognized in OCI are not reclassified to profit and loss.

(iii) **Financial assets at fair value through profit or loss**

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

(iv) **Financial liabilities**

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

iii) **Impairment of financial assets**

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. The Company recognizes a loss allowance for expected credit losses on financial asset. In case of trade receivables, the Company follows the simplified approach permitted by Ind AS 109 – Financial Instruments for recognition of impairment loss allowance. The application of simplified approach does not require the Company to track changes in credit risk. The Company calculates the expected credit losses on trade receivables using a provision matrix on the basis of its historical credit loss experience.

iv) **Derecognition**

Financial Assets

Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the company enters into transactions whereby it transfers assets recognized on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognized.

Financial liabilities

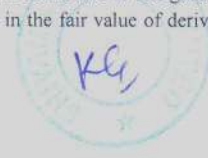

The company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire.

v) **Reclassification of financial assets and financial liabilities**

The company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The company does not restate any previously recognized gains, losses (including impairment gains or losses) or interest.

vi) **Derivative financial instruments**

The Company uses derivative financial instruments, such as forward currency contracts to hedge its foreign currency risks. Derivative financial instruments are initially recognized at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value at the end of each period. The method of recognizing the resulting gain or loss depends on whether the derivative is designated as a hedging instrument, and if so, on the nature of the item being hedged. Any gains or losses arising from changes in the fair value of derivatives are taken directly to statement of profit or loss.

vii **Offsetting**

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the company has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

e) **Fair value measurement**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using other valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

Fair values for measurement and/ or disclosure purposes are categorized into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 - This includes financial instruments measured using quoted prices.

Level 2 - The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2. Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. Derived from prices).

Level 3 - If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

f) **Provisions, Contingent Liabilities and Contingent Assets**

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Contingent Liability is disclosed after careful evaluation of facts, uncertainties and possibility of reimbursement, unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent liabilities are not recognized but are disclosed in notes. Contingent assets are not disclosed in the financial statements unless an inflow of economic benefits is probable.

g) **Revenue Recognition**

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

i) **Sale of goods-**

Sales is accounted for upon dispatch of goods from the factory when the risks and rewards of ownership are transferred to the buyer.

Ind AS 115 provides for a five step model for the analysis of Revenue transactions. The model specifies that revenue should be recognised when (or as) an entity transfer control of goods or services to a customer at the amount to which the entity expects to be entitled. Further the standard requires enhanced disclosures about the nature, amount, timing, and uncertainty of revenue and cash flows arising from the entity's contracts with customers.

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

ii) **Dividends**

Dividend is recognized when the shareholders' right to receive payment is established by the balance sheet date.

iii) **Insurance claim**

Claims lodged with the insurance companies are accounted on accrual basis to the extent these are measurable and ultimate collection is reasonably certain.

iv) **Interest Income**

Interest income is recognised on time proportion basis taking in to account the amount outstanding and the rate applicable.

v) **Government Grant & Subsidies**

Grant/subsidies is recognised when there is reasonable assurance the Grant/subsidy will be received and all attaching condition will be complied with.

h) **Employee Benefits**

i) **Short term employee benefits**

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

ii) Defined contribution plans

Employees benefits in the form of the Company's contribution to Provident Fund, Family Pension scheme and Employees State Insurance are defined contribution schemes. The Company recognizes contribution payable to these schemes as an expense, when an employee renders the related service.

If the contribution payable exceeds contribution already paid, the deficit payable is recognized as a liability (accrued expense), after deducting any contribution already paid. If the contribution already paid exceeds the contribution due for service before the end of the reporting period. The Company recognize that excess as an asset (prepaid expense) to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund.

iii) Defined benefit plans

Retirement benefits in the form of gratuity are considered as defined benefit plans. The Company's net obligation in respect of defined benefit plans is calculated by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The company provides for its gratuity liability based on actuarial valuation of the gratuity liability as at the Balance Sheet date, based on Projected Unit Credit Method, carried out by an independent actuary. The Company contributes to the gratuity fund, which are recognized as plan assets. The defined benefit obligation as reduced by fair value of plan assets is recognized in the Balance Sheet.

When the calculation results in a potential asset for the company, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurement of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in Other Comprehensive Income. Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, used to measure the net defined liability (asset), to the net defined liability (asset) at the start of the financial year after taking into account any changes as a result of contribution and benefit payments during the year. Net interest expense and other expenses related to defined benefit plans are recognized in statement of profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in statement of profit or loss. The company recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

iv) Other long-term employee benefits

Employee benefits in the form of long term compensated absences are considered as long term employee benefits. The Company's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Remeasurements are recognized in profit or loss in the period in which they arise.

The liability for long term compensated absences are provided based on actuarial valuation as at the Balance Sheet date, based on Projected Unit Credit Method, carried out by an independent actuary.

i) Valuation of inventories

- i) Finished goods are valued at lower of cost or net realizable value. Scrap is valued at net realizable value. cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity.
- ii) Work in progress is valued at raw material cost including proportionate production overheads.
- iii) Stores, spares and raw materials are valued at lower of cost or net realizable value. However materials & other items held for use in the production of inventories are not written below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. cost of purchases is assessed on first in first out (FIFO) method.
- iv) Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

j) Foreign Exchange Transactions / Translations / Hedge Accounting

Standalone financial statements have been presented in Indian Rupees (₹), which is the Company's functional and presentation currency.

• Initial recognition

Foreign currency transactions are recorded on initial recognition in the functional currency, using the exchange rate at the date of the transaction.

• Conversion

Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

• Exchange differences

The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in OCI or profit or loss are also recognized in OCI or profit or loss, respectively).

KC

k) Borrowing costs

Borrowing costs are interest and other ancillary costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. General and specific borrowing costs attributable to acquisition and construction of any qualifying asset (one that takes a substantial period of time to get ready for its designated use or sale) are capitalized until such time as the assets are substantially ready for their intended use or sale, and included as part of the cost of that asset. All the other borrowing costs are recognized in the Statement of Profit and Loss within Finance costs of the period in which they are incurred.

l) Income tax

Income tax expense comprises current and deferred tax. It is recognized in profit or loss except to the extent that it relates to items recognized directly in equity or in Other Comprehensive Income

i) Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year after taking credit of the benefits available under the Income Tax Act and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date. Current tax assets and liabilities are offset only if, the Company:

- a) has a legally enforceable right to set off the recognized amounts; and
- b) intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

ii) Deferred tax

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying values of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using the balance sheet liability method.

Deferred tax liabilities are generally recognized for all taxable temporary differences. In contrast, deferred tax assets are only recognized to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilized.

The carrying value of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realized based on the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to cover or settle the carrying value of its assets and liabilities.

Deferred tax assets and liabilities are offset only if:

- i) The entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
 - ii) The deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.
- Deferred tax assets include Minimum Alternate Tax (MAT) paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. MAT is recognized as deferred tax assets in the Balance Sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realized.

m) Segment Reporting

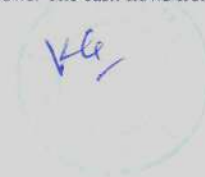

The Company's operating businesses are organized and managed separately according to the nature of products manufactured and services provided, with each segment representing a strategic business unit that offers different products. The analysis of geographical segments is based on the areas in which major operating divisions of the Company operate. The reportable segments have been identified based on the significant components of the enterprise for which discrete financial information is available and are reviewed by the Chief operating decision maker (CODM) to assess the performance and allocate resources to the operating segments. Refer Note -35.

n) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand and short-term deposits with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

o) Cash flow statement

Cash flows are reported using the indirect method as explained in the Accounting Standard on Statement of Cash Flows (Ind AS - 7), whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

p) Ind AS - 116 Lease

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to Company's operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances. After considering current and future economic conditions, the company has concluded that no changes are required to lease period relating to the existing lease contracts.

The Company as a lessee

The Company's lease asset classes primarily consist of leases for buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are re-measured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option. Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The Company as a lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases. When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease. For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

q) Earning per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

r) Government grants

Government grants are recognized at fair value when there is reasonable assurance that the grant would be received and the Company would comply with all the conditions attached with them. Government grants related to PPE are treated as deferred income (included under non-current liabilities with current portion considered under current liabilities) and are recognized and credited in the Statement of Profit and Loss on a systematic and rational basis over the estimated useful life of the related asset and included under "Other operating income". Government grants related to revenue nature are recognized on a systematic basis in the Statement of profit and loss over the periods necessary to match them with the related costs which they are intended to compensate and are adjusted with the related expenditure. If not related to a specific expenditure, it is taken as income and presented under "Other operating income".

s) Recent Pronouncements

On March 24, 2021, the Ministry of Corporate Affairs ("MCA") through a notification, amended Schedule III of the Companies Act, 2013. Due to disruption in the operations owing to the outbreak of Covid-19 pandemic, liquidity profile of the company weakened resulting in delays in debt servicing. The liquidity position is delicately poised due to high working capital utilization and working capital intensive nature of operations and cyclical nature of auto sector.

In order to overcome stress owing to COVID 19 situation, the Company had proposed debt resolution under the RBI notification on the one-Time Resolution Framework for COVID-19-related Stress dated August 6, 2020 read together with the RBI notification on Resolution Framework for COVID-19-related Stress - Financial Parameters dated September 7, 2020 to lenders ("OTR"). For the same, the Company discuss the way forward through OTR and subsequently a formal request for invocation of OTR framework was shared with the lenders on September 27, 2020.

Thereafter, owing to stress on account of COVID-19, the Indian government announced the Emergency Credit Line Guarantee Scheme ("ECLGS") under the third tranche of the "Atmanirbhar Bharat Package" on November 12, 2020, which allowed 100% guaranteed collateral free pre-approved sanction limit of up to 20% of outstanding as on February 29, 2020. Considering the revival in the industry and Company witnessing a turnaround, Company in discussions with its lenders decided to withdraw its OTR proposal and opt for the ECLGS facility in December 2020. Post submission of its request for withdrawing from OTR scheme, Company had cleared its outstanding with all the lenders. Further, the Company has over dues as on March 31, 2021, which was also cleared within 30 days.

Considering the fulfilment of conditions and compliances framed under the ECLGS, there were delays in servicing the loans. However these had not impacted the implementation of the Scheme and the said scheme was successfully implemented before March 31, 2021.

40 Financial Risk Management

Financial risk management objectives and policies:

The Company, as an internationally active supplier for the automobile industry expose its business and products to various market risks, credit risk and liquidity risk. The Company realizes that risks are inherent and integral aspect of any business. The primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The Company's senior management oversees the management of these risks and devise appropriate risk management framework for the Company. The senior management provides assurance that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. Below notes explain the sources of risks in which the Company is exposed to and how it manages the risks:

A Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. The Company is exposed to the risk of movements in interest rates, inventory price and foreign currency exchange rates that affects its assets, liabilities and future transactions. The Company is exposed to following key market risks:

a) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of the financial instruments will fluctuate because of changes in market interest rates. The Company's main interest rate risk arises from long-term

borrowings with variable rates, which exposes the Company to cash flow interest rate risk. During March 31, 2021 and March 31, 2020, the Company's borrowings at variable rate were mainly denominated in INR.

Interest rate risk exposure - The exposure of the Company's borrowing to interest rate changes at the end of the reporting period are as follows:

(All amounts are in lakhs unless otherwise stated)

Particulars	As at 31st March, 2021	As at 31st March, 2020

b) Price Risk

Fluctuation in commodity price in global market affects directly and indirectly the price of raw material and components used by the Company in its various products segment. Substantial pricing pressure from major OEMs to give price cuts and inability to pass on the increased cost to customers may also affect the profitability of the Company.

Key Raw material - As per the agreement with the customers, any increase in the raw material prices is passed on to the customer. But in some cases where the customer was already asking for reduction in prices, the company has to absorb the price increase.

c) Foreign Currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an foreign exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's export revenue and import of raw materials and other consumables.

B Credit risk:

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables and advances to suppliers) and from its financing activities, including deposits and other financial instruments.

The Company has developed guidelines for the management of credit risk from trade receivables. The Company's primary customers are major Indian automobile manufacturers (OEMs) with good credit ratings. Non-OEM clients are subjected to credit assessments as a precautionary measure, and the adherence of all clients to payment due dates is monitored on an on-going basis. An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogeneous groups and assessed for impairment collectively. The calculation is based on historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 44. The Company does not hold collateral as security except in case of few customers. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets.

Particulars	As at March 31, 2021			As at March 31, 2020		
	Upto 6 months	More than 6 months	Total	Upto 6 months	More than 6 months	Total

Net Carrying Amount (A-B)	6,193.89	544.52	6,738.41	6,519.68	623.83	7,143.51

Credit risk from balances with banks and other financial asset is managed in accordance with the Company's approved investment policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed on regular basis and the said limits gets revised as and when appropriate. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments. The Company has deposited liquid funds at various banking institutions. Primary banking institutions are major Indian and foreign banks. In long term credit ratings these banking institutions are considered to be investment grade. Also, no impairment loss has been recorded in respect of fixed deposits that are with recognised commercial banks and are not past due.

C Liquidity risk:

The liquidity risk encompasses any risk that the Company cannot fully meet its financial obligations. To manage the liquidity risk, cash flow forecasting is performed in the operating divisions of the Company and aggregated by Company finance. The Company's finance monitors rolling forecasts of the Company's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities / overdraft facilities at all times so that the Company does not breach borrowing limits or covenants (where applicable) on any of its borrowing facilities. II. SIGNIFICANT FACTORS AFFECTING OUR BUSINESS, FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Set out below are some of the more significant factors that have affected our results of operations in the past, as well as factors that are currently expected to affect our results of operations in the foreseeable future

Relationships with key clients

During Fiscal 2021, and the quarter ended June 30, 2021, our top 10 customers contributed 88.40% and 80.05% of our total revenue from operations. Hero MotoCorp Limited is one of the largest customers of the Company contributing to 61.01% of our total revenue in Fiscal 2021. Any adverse effect on business of Hero MotoCorp Limited may lead to a decrease in the orders placed by them with us thereby adversely affecting our revenues. However, the composition and revenue generated from these clients might change as we continue to add new customers in normal course of business. Our revenues may be adversely affected if there is an adverse change in any of our customer's supply chain strategies or a reduction in their outsourcing of logistics, storage operations, or if our customers decide to choose our competitors over us or if there is a significant reduction in the volume of our business with such clients.

Success of our R&D

Research & Development were carried in product development, process development, energy conservation, environment protection, cost reduction and automation. In this process design and material database are continuously improved and enhanced. Apart from process improvements, the research and development also aims at finding equivalent substitutes of various inputs and materials to have cost savings without compromising quality.

The efforts of the Company are focused on catering the requirement of our existing customers for their new models and indigenization of various components. The research and development is an ongoing exercise and suitable efforts will continue to be made in future. The expenditure incurred on research, development and improvement of products is an indirect cost which is reflected in the financials of the company.

Raw Material

The raw material used is steel in the form of straight and coiled bars of various sizes and tubes. The raw material for all products is as per relevant international, national or customer specific standards. Raw material quality is the most critical parameter for all our products, hence there is a robust process established to ensure right quality, before further processing. It is procured from reputed manufacturers, with rigorous inspection process in place, both at manufacturer and our end. The dedicated personnel, in purchase and quality, for managing procurement and inspection of raw material, are imparted relevant training at regular interval.

Performance of the Industries and Sectors in which our Products are used

Our products are used primarily in automotive industry. Majority of it is in 2-wheeler segment, in addition to passenger vehicle and commercial vehicle. All industries and sectors in which our products are used have been affected by the pandemic induced lockdowns, and the recession preceding the pandemic. However, there were green shoots visible after complete unlock from September 2020, and especially in 2-wheeler segment, sales number were promising. This was the result of majority of people opting for personal transport in order to avoid public transport; the sale of commuter segment (100 cc – 125 cc) dominated the overall segment sale numbers. The Company was able to exploit the rising sale numbers, as majority of our products are used in commuter segment 2-wheelers. Further, due to rise in fuel prices the sale of electric 2-wheelers have increased significantly. Currently, the Company is not supplying to any

electric vehicle manufacturer; however, there are several products specific to EV 2W & 3W, in various stages of development, and there is an aggressive yet achievable target in place for next 3 – 4 years to become a significant manufacturer of components, sub-systems, and systems for EVs.

Operating Efficiencies

We focus on improving our operational efficiencies and reducing operating costs in order to improve our results of operations. We also focus on investing in research & development efforts in our in-house tool room to continually upgrade the quality and functionality of our products and manufacturing processes addressing specific customer requirements and market segments and to improve operational efficiencies. Such investment is also expected to result in significant reduction in operating costs including a decrease in employee costs as our facilities will be significantly more mechanized. We have also made incremental improvements to our equipment and moulds to increase utilisation rates as well as operational efficiencies

Other factors beyond those identified above may materially affect our results of operations and financial condition. For further details, see the sections entitled “Risk Factors” and “Business Overview” beginning on pages 16 and 52 in this Draft Letter of Offer.

In respect of Fiscal 2021, the Auditors had observed that (i) The Company's internal control system in respect of supervisory and review controls over process of booking of material consumption, booking of proper inventory and accounting of returnable gate pass, reconciliation of old stock lying with third party and allocation of fixed and variable overheads on product costing on periodical basis were not operating effectively during the current financial year to arrive at the correct value of stock including physical number, which could potentially result in material misstatement of cost of goods sold and inventories as on March 31, 2021. Based on physical verification of Inventories, consumption and reconciliation of closing stock as done by the Management subsequently, necessary remedial measures have been taken to arrive at

the correct value of inventories as on March 31, 2021 and also to arrive at cost of goods sold for the year then ended. (ii) The Company's internal control weakness has been observed in respect of approval of expenses/ reimbursement of expenses and payment to the vendors/employees were not operating effectively and due to deficiency in the control, the company has made some excess payment to vendors/employees of the company however as confirmed by management these payments were subsequently been approved by the management of the company. (iii) Due to issues and bugs in software the system is not able to calculate the depreciation correctly. All variations in depreciation on account of these issues are updated in the system manually on the basis of manual depreciation calculation. The management is in continuous discussions with the software provider to fix this anomaly in the system so that correct output can be obtained directly from the system.

In respect of the quarter ended June 30, 2021, the Auditors have observed that (i) The Company has unabsorbed business depreciation and MAT credit which according to the management will be used to set off taxable profit arising in subsequent years from operation. However, As a matter of prudence, Deferred Tax Assets have been restricted to Rs.3,669.31 Lakhs created till March 31, 2021 and no deferred tax has been created during the quarter ended June 30, 2021. (ii) Due to non- updation of Bill of material (BOM) and expansion of the customer base, quantitative variance was observed between physical and book records. Variance as observed has been considered as consumption of material for the preparation of the quarterly results. We cannot assure you that our audit reports for future Fiscal periods will not contain certain adverse remarks, matters of emphasis, qualifications, or other observations which affects our results of operations in such future periods.

RESTRICTION ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”) makes policy announcements on FDI through press notes and press releases which are notified by the RBI as amendments to the FEMA. The DIPP also issues the Consolidated Foreign Direct Investment Policy (“**FDI Policy**”) from time to time. The regulatory framework pertaining to foreign investment, over a period of time, thus, consists of acts, regulations, master circulars, press notes, press releases, and clarifications among other amendments.

India’s current FDI Policy issued by the DIPP with effect from October 15, 2020, consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DIPP till October 15, 2020. In terms of the FDI Policy, Foreign investment is permitted (except in the prohibited sectors) in Indian companies either through the automatic route or the Government route, depending upon the sector in which foreign investment is sought to be made. In terms of the FDI Policy, the work of granting government approval for foreign investment under the FDI Policy and FEMA Regulations has now been entrusted to the concerned Administrative Ministries/Departments.

Further, the existing individual limits for an FPI in our Company shall not exceed 10% of the total paid-up Equity Share capital of our Company for each FPI and the total holdings of all FPIs in the Company shall not exceed 24% of the total paid-up Equity Share capital of our Company. The RBI, in exercise of its power under the FEMA, has also notified Foreign Exchange Management (Non-debt Instruments) Rules, 2019 and Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 to prohibit, restrict or regulate, transfer by or issue security to a person resident outside India. SEBI registered FPIs have been permitted to purchase shares of an Indian company through the Offer, subject to total FPI investment being within the individual FPI/sub account investment limit of less than 10% of the total paid-up equity capital on a fully diluted basis of the Company subject to the total holdings of all FPIs/sub accounts including any other direct and indirect foreign investments in the Company shall not exceed 24% of the paid-up equity capital of the Company on a fully diluted basis. The aggregate limit of 24% in case of FPIs may be increased up to the sectoral cap/statutory ceiling, as applicable, by the Company concerned by passing of resolution by the Board of the Company to that effect and by passing of a special resolution to that effect by its Shareholders. With effect from April 1, 2020, the aggregate limit of 24% has increased to the sectoral cap applicable to the Indian Company which in case of the Company is 100%. As per the Regulations, the aggregate limit as provided above was permitted to be decreased by the Company to a lower threshold limit of 24% or 49% or 74% as deemed fit, with the approval of its Board of Directors through a resolution and also of its shareholders by means of a special resolution, before March 31, 2020. The Company has not passed any such Board Resolution and hence, has not revised its sectoral caps. Our Company falls within the applicable statutory sectoral limits which presently stand at 100% for the manufacturing sector under the FDI Policy. Further, eligible NRIs and OCIs investing on repatriation basis are subject to individual investment limit of 5% of the total paid-up equity capital on a fully diluted basis subject to the aggregate paid-value of the shares purchased by all NRIs and OCIs put together on repatriation basis not exceeding 10% of the total paid-up equity capital on a fully diluted basis of the Company. The aggregate limit of 10% in case of NRIs and OCIs together may be raised to 24 % if a special resolution to that effect is passed by the shareholders of the Company. As on date, no such resolution for raising the limit has been passed by the Company.

As per Regulation 7 of the Foreign Exchange Management (Non-debt Instruments) Rules, 2019, the RBI has given general permission to Indian companies to issue securities on rights basis to non-resident shareholders including additional securities under the rights issue. Further, as per the Master Direction on Foreign Investment in India dated January 4, 2018, as amended, issued by the RBI, non-residents may, inter alia, (i) subscribe for additional securities over and above their rights entitlement; (ii) renounce the securities offered to them either in full or part thereof in favour of a person named by them; or (iii) apply for the securities renounced in their favour. Applications received from NRIs and non-residents for allotment of Rights Equity Shares shall be inter alia, subject to the conditions imposed from time to time by the RBI under the FEMA in the matter of refund of Application Money, Allotment of Rights Equity Shares and issue of Allotment advice. The Letter of Offer/Abridged Letter of Offer and CAF shall be dispatched by way of email to only those non-resident Eligible Equity Shareholders who have also provided their Indian addresses. If an NR or NRI Investor has specific approval from the RBI, in connection with their shareholding, they should enclose a copy of such approval with the Application. Our Board may at its absolute discretion, agree to such terms and conditions as may be stipulated by RBI while approving the allotment of Rights Equity Shares.

The Rights Equity Shares purchased by non- residents shall be subject to the same conditions including restrictions in regard to the repatriation as are applicable to the original Equity Shares against which Rights Equity Shares are

issued on rights basis. As per the existing policy of the Government of India, erstwhile OCBs cannot participate in this Issue. The above information is given for the benefit of the Investors. Our Company is not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Letter of Offer. Investors are advised to make their independent investigations and ensure that the number of Rights Equity Shares applied for do not exceed the applicable limits under laws or regulations.
