Bombay Stock Exchange (BSE)

BSE is the oldest exchange in Asia. It has evolved over the years into its present status as an icon among its peers. Its proud 131-year history combined with its base of electronic communications and processing knowledge has made it a formidable institution.

BSE offers a large variety of products for trading in the securities market and has always been at par with the international standards.

Over the past 130 years, BSE has also facilitated the growth of corporates by providing them with an efficient access to resource mobilization. There is perhaps no leading corporate in India, which has not sourced BSE's services in raising resources from the capital market. Today, BSE stands tall - an image of the iconic stature in the Indian Capital Markets.

Drawing from its rich past and its equally robust performance in the recent past, BSE will continue to remain an icon and an indicator of the Indian securities markets.

Ernst & Young

Ernst & Young, a global leader in professional services, is committed to restoring the public's trust in professional services firms and in the quality of financial reporting. Its 106,000 people in 140 countries pursue the highest levels of integrity, quality and professionalism in providing a range of sophisticated services centered on our core competencies of auditing, accounting, tax and transactions.
