VIII - MANAGEMENT DISCUSSIONS AND ANALYSIS

Financial Review

Provestment Services Limited has to its credit Full Fledged Money Changer License and ticketing business and has shown satisfactory financial and operating performance during the period under review i.e.2009-10.

Resources and Liquidity

During the year, the Company relied upon internal and retained resources. The liquidity position of the Company was comfortable during the period.

Industry Scenario

It is boom time for India's Tourism and Hospitality sector. A 5,000 year history, culture, religion and alternative medicine fascinate both budget and luxury travelers alike. Driven by a surge in business traveler arrivals and a soaring interest in India as a tourist destination, the last couple of years to come have been the best year till date, with foreign visitor arrivals reaching a record 3.92 million, resulting in international tourism receipts of USD 5.7 billion.

The Department of Tourism's resolve in promoting Indian tourism has strengthened as it recognises its potential. Tourism in India is the third largest foreign exchange earner, accounting for 2.5 per cent of GDP. It also makes a direct contribution to economy with significant linkages with agriculture, horticulture, handicrafts and construction and continued to focus on the "*Atithi Devo Bhavah*" campaign, targeted at the inbound foreign tourists in the country. Translated literally this means "*Guest is God*".

Current Status

Commencing with a slow growth at the start of the millennium, the Indian tourism industry has performed quite well in the last couple of years. The Indian tourism industry has out performed the global tourism industry in terms of growth in the volume of international tourists as well as in terms of revenue. The World Travel and Tourism Council (WTTC) has named India along with China as one of the most fastest growing tourism industries for the next 10 to 15 years.

According to World Travel and Tourism Council (WTTC) the Travel & Tourism Industry contributes 2.1per cent to India's GDP. The industry employed an estimated 24,349,000 people in 2006 (5.4per cent of total employment, or 1 in every 18.4 jobs).

The key driver for this growth in the Indian tourism industry has been a fast growing economy for the last 3-4 years. Despite lagging in the basic infrastructure that supports the tourism industry, Indian tourism industry has been showing an impressive double-digit growth. In order to sustain this growth and meet the expectations, it is essential for the Government of India to invest in infrastructure such as transport and accommodations.

Future Outlook

The Indian travel and Hospitality sector is expected to show a healthy growth in the medium term. Strong economic growth, increased FDI, greater emphasis on tourism development, favorable Government policies, impending 2010 Commonwealth games, 2011 Cricket World Cup and other international events, will be the major drivers for the growth. There exists a lot of scope for growth in tourism sector. According to the Ministry of Tourism, the contribution of tourism to India's GDP is only 5.9 per cent as compared to the worldwide average of 11 per cent.

By 2020, the Government of India expects travel and tourism to contribute Rs 8,500 billion to GDP, almost four times the value in 2005. With successive Governments committed to reform, a strong manufacturing sector and a private sector that already has a critical mass that is needed to drive growth, it is unlikely that the strong growth in GDP is likely to be reversed. The rising middle class is also becoming increasingly affluent, mobile, Internet savvy and more sophisticated in terms of what is demanded in terms of tourism products and services, and more importantly the price they are willing to pay for it.

Major impediments to the growth are sensitivity to business cycles and adverse political and social events (including terrorist attacks), high rate of tax, high land price, bureaucracy, and poor infrastructure. For instance, the effective rate of taxation on tourism in India is 21 per cent as compared to 7 per cent in Thailand, 4 per cent in Malaysia and 1 per cent in Hong Kong. Furthermore, owing to high land prices, there are more five star hotels than budget hotels, making India a high cost deluxe destination. Additionally, India still does not have facility of modernised e-visa. The existing visa process is cumbersome and comparatively more expensive than other destinations. Yields are expected to be low in coming years on account of continuing price-cutting and discounts.

OUTLOOK

Provestment Services Limited plans to foray into other consultancy services and also expand its tourism and travel business so as to broad base its clientele. A brief overview is provided below-:

Inbound and Outbound Travel Business: With a view to broaden the area of operations and provide a single window service to clients , the Company has started its inbound and outbound packages divisions in the name and style of Pro Holidays within the umbrella of Provestment. The response has been encouraging. The Company has revamped its website www.provestment.net and added new features and attractions.

Travel Portal: The easy availability of computers and internet has motivated companies to provide online access to clients to book tickets at their convenience. We have also initiated the process of developing our own travel portal, the proposed name of which

could be www.proyatra.com or www.travelbindas.com, The final name would be selected based on the market survey.

Other Verticals : The Company has also signed MOU with a UK based Company in imparting education to people ,more specifically trading in Forex , Shares and Commodities in overseas market. We would like to highlight that Reserve Bank of India permit investment in shares, stock and Forex in overseas market to the tune of US \$ 2, 00,000 under Liberalized Remittance Scheme.
