We also cannot assure you that there will be no such incidents in future*

and any future incident of this kind may impair our operations and adversely affect our financial condition.

- 5. Our Company had negative cash flow in recent fiscal, details of which are given below. Sustained negative cash flow could adversely impact our business, financial condition and results of operations.**

(₹ in lacs)

Cash flow from	March 31, 2014
Operating activities	(146.19)
Investing activities	(372.48)

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet its capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flow, it may adversely affect our business and financial operations. For further details please refer to the section titled 'Financial Information' and chapter titled 'Management's Discussion and Analysis of Financial Condition and Results of Operations' beginning on page 106 and 122, respectively, of the Prospectus.

- 6. The objects of the Issue for which funds are being raised have not been appraised by any bank or financial institution. The deployment of funds in the project is entirely at the discretion of our management and as per the details mentioned in the section titled "Objects of the Issue". Any revision in the estimates may require us to reschedule our project expenditure and may have a bearing on our expected revenues and earnings.**

Our funding requirements and the deployment of the proceeds of the Issue are purely based on our management's estimates and have not been appraised by any bank or financial institution. Our Company may have to revise such estimates from time to time and consequently our funding requirements may also change. Our estimates for expansion may exceed the value that would have been determined by third party appraisals and may require us to reschedule our expenditure which may have a bearing on our expected revenues and earnings. Further, the deployment of the funds towards the objects of the Issue is entirely at the discretion of our management and is not subject to monitoring by any external independent agency. However, the deployment of funds is subject to monitoring by our Audit Committee.

- 7. Our Company has not yet placed orders for equipments aggregating ₹300.00 lacs required by us for the proposed expansion. Any delay in placing the orders / or supply of plant and machinery may result in time and cost overruns, and may affect our profitability.**

Our Company has not yet placed orders for plant and machinery aggregating ₹ 300 lacs required by us which constitutes 100 % of the total plant and machinery propose to be acquired for our proposed expansion. Our Company is further subject to risks on account of inflation in the price of plant and machinery. Since the funding for the plant and machinery is solely from the IPO proceeds, any delay in access to IPO proceeds would eventually delay the process of placing the orders. The purchase of equipments would require us to consider factors including but not limited to pricing, delivery schedule and after-sales maintenance. There may also be a possibility of delay at the suppliers' end in providing timely delivery of these equipments, which in turn may delay the implementation of our project.

- 8. We have not made any alternate arrangements for meeting our capital requirements for the Objects of the issue. Further we have not identified any alternate source of financing the 'Objects of the Issue'. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.**

As on date, we have not made any alternate arrangements for meeting our capital requirements for the objects of the issue. We meet our capital requirements through our bank finance, owned funds and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in future would result in us being unable to meet our capital requirements, which in turn will negatively affect our financial condition and results of operations. Further we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this issue or any shortfall in the issue proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details please refer to the chapter titled "Objects of the Issue" beginning on page 53 of the Prospectus.

- 9. *There can be delay in the schedule of setting up of new Gyms for which the funds are being raised in this Issue. This may affect our financial condition and results of operation.***

As on the date of this Prospectus, we have not initiated any activities towards this Object of the Issue and there can be a possibility of us in delaying the schedule of rollout of the health clubs. We will have to identify suitable locations to open and operate the proposed gyms. If we are not able to identify a suitable location within the time and place that we desire or at all, we cannot guarantee that all the 6 health clubs will be rolled out in the fiscal 2015. This may affect our financial condition and results of operation.

Subsequently in October 2009, Q's Fitness Studio entered into an addendum agreement wherein it was agreed to grant 5 year extension upon payments being brought current. We have been authorised by Q's Fitness Studio to use the brand 'Powerhouse Gym' for our business in India. We along with Q's Fitness Studio negotiating with Powerhouse Gyms International for revised terms and extension of contract. In the event wherein we are unable to renew the contract we might have to change the brand name and which may adversely effect our business operations.***

- 11. *Third Party liability / Members getting injured or dying at our premises could result in a loss or shutdown of operations***

Our gyms are used by many members on a daily basis. Sometimes members may fall down while working out may result in loss of life / damage to life. While, till date, there have not been any incidents involving mishaps or major accidents, we cannot assure that these may not occur in the future. Any consequential losses arising due to such events will affect our operations and financial condition.

- 12. *The loss of key suppliers or their failure to deliver equipment and material on a timely basis could negatively impact our business prospects and results of operations.***

We rely on various suppliers to provide spare parts and equipment. We must have an adequate supply of such materials to continue our business. We purchase all the required materials from our suppliers on a purchase order basis and have no long-term contracts with any suppliers. If the suppliers, are unable to supply us with these materials services in a timely manner or the costs of these services increase due to unforeseen circumstances, this could negatively impact our operating results

- 13. *Our operations are significantly located in the Mumbai and failure to expand our operations may restrict our growth and adversely affect our business***

Currently, registered office is situated in Mumbai and we are carrying our business mainly in Mumbai. Hence our major revenues are generated from operations in this region only. In the event that demand for our services in general reduces or stops by any reason including political discord or instability or change in policies of State, then our financial condition and operating results may be materially and adversely affected. Geographical and functional expansion of our business domain requires establishment of adequate network. As we seek to diversify our regional focus we may face the risk that our competitors may be better known in other markets, enjoy better relationships with customers. Our lack of exposure in geographical boundaries outside our operating region could impact our future revenues.

- 14. *Our business requires us to obtain and renew certain registrations, licenses and permits from government and regulatory authorities and the failure to obtain and renew them in a timely manner may adversely affect our business operations.***

Our business operations require us to obtain and renew from time to time, certain approvals, licenses, registrations and permits, some of which may expire and for which we may have to make an application for obtaining the approval or its renewal. We will be applying for certain approvals relating to our business. If we fail to maintain such registrations and licenses or comply with applicable conditions, or a regulatory authority claims we have not complied, with these conditions, our certificate of registration for carrying on a particular activity may be suspended and/or cancelled and we will not then be able to carry on such activity.

Further, we may become liable to penal action if our activities are adjudged to be undertaken in the manner not authorized under the applicable law. This could materially and adversely affect our business, financial condition and results of operations. We cannot assure you that we will be able to obtain approvals in respect of such applications or any application made by us in the future. For more information about the licenses required in our business and the licenses and approvals applied for, please refer to sections titled “Government and other Key Approvals” beginning on page 135 of the Prospectus.

15. *Our success depends largely upon the services of our Directors and other Key Managerial Personnel and our ability to attract and retain them. Demand for Key Managerial Personnel in the industry is intense and our inability to attract and retain Key Managerial Personnel may affect the operations of our Company.*

Our Executive Director, Mr. Akshat Gupta and our Whole-time Director, Mr. Ankush Gupta has built relations with clients and other persons who are connected with us. Our success is substantially dependent on the expertise and services of our Directors and our Key Managerial Personnel. They provide expertise which enables us to make well informed decisions in relation to our business and our future prospects. Our future performance will depend upon the continued services of these persons. Demand for Key Managerial Personnel in the industry is intense. We cannot assure you that we will be able to retain any or all, or that our succession planning will help to replace, the key members of our management. The loss of the services of such key members of our management team and the failure of any succession plans to replace such key members could have an adverse effect on our business and the results of our operations.

16. *We face intense competition in our businesses, which may limit our growth and prospects.*

Our Company faces significant competition from other players in the gym and fitness industry. In particular, we compete with other brands in the markets in which we are present. We compete on the basis of a number of factors, including execution, depth of product and service offerings, innovation, reputation and price. Our competitors may have advantages over us, including, but not limited to:

- Substantially greater financial resources;
- Longer operating history than in certain of our businesses;
- Greater brand recognition among consumers;
- Larger customer bases in and outside India; or
- More diversified operations which allow profits from certain operations to support others with lower profitability.

These competitive pressures may affect our business, and our growth will largely depend on our ability to respond in an effective and timely manner to these competitive pressures.

17. *Our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.*

We have not paid any dividends since incorporation. Our future ability to pay dividends will depend on our earnings, financial condition and capital requirements. Dividends distributed by us will attract dividend distribution tax at rates applicable from time to time. There can be no assurance that we will generate sufficient income to cover the operating expenses and pay dividends to the shareholders.

Our ability to pay dividends will also depend on our expansion plans. We may be unable to pay dividends in the near or medium term, and the future dividend policy will depend on the capital requirements and financing arrangements for the business plans, financial condition and results of operations.

18. *We do not own our Registered Office from which we operate.*

We do not own the premises on which our Registered Office is situated. Mr. Akshat Gupta & Mr. Ankush Gupta, vide their letter dated April 1, 2014, has given the office premises to be used as the registered office, without payment of any lease rent and/or deposit. We cannot assure you that we will own, or have the right

to occupy, these premises in the future, or that we will be able to continue with the uninterrupted use of this property, which may impair our operations and adversely affect our financial condition. For further details of our office premises please refer to the section titled "Our Business Overview" on page 71 of this Prospectus.

19. Our Company has issued below mentioned Equity Shares in the last twelve months from the date of filing the Prospectus, the price of which is lower than the Issue Price

Our Company has on the following date, issued shares to the following persons/entities at a price which is lower than the Issue Price:

Date of Allotment	Nature of Allotment	No. of Shares	Issue Price (₹)	Whether part of Promoters and Promoter Group
29-Mar-13	Preferential Allotment	2,078,200	10	Yes
13-Jun-14	Preferential Allotment	421,800	10	Yes

20. Future issuances of Equity Shares or future sales of Equity Shares by our Promoters and certain shareholders, or the perception that such sales may occur, may result in a decrease of the market price of our Equity Shares.

In the future, we may issue additional equity securities for financing our capital requirements. In addition, our Promoters and certain shareholders may dispose off their interests in our Equity Shares directly, indirectly or may pledge or encumber their Equity Shares. Any such issuances or sales or the prospect of any such issuances or sales could result in a dilution of shareholders' holding or a negative market perception and potentially in a lower market price of our Equity Shares.

21. The equity shares of Santowin Corporation Limited, our Promoter Group Entity were suspended for trading by BSE for non-compliances with listing agreement in November 2007. However the suspension was revoked later and was resumed for trading w.e.f. October 20, 2010.

22. The growth of our business may require us to obtain substantial financing, which we may not be able to obtain on reasonable terms or at all. We may need to raise additional funds through incurring debt to satisfy our capital needs, which we may not be able to procure on acceptable terms or at all.

Our growth is dependent on having a strong balance sheet to support our activities. In addition to the Net Proceeds and our internally generated cash flow, we may need other sources of financing to meet our capital needs which may include entering into new debt facilities with lending institutions or raising additional debt or equity in the capital markets. We may need to raise additional capital from time to time, depending on business conditions. The factors that would require us to raise additional capital could be business growth beyond what our current balance sheet can sustain; additional capital requirements imposed due to changes in the regulatory regime or new guidelines; or significant depletion in our existing capital base due to unusual operating losses. Any fresh issue of shares or convertible securities would dilute existing shareholding, and such issuance may not be done at terms and conditions that are favourable to the existing shareholders of the Company.

If we decide to raise additional funds through the incurrence of debt, our interest obligations will increase and we may be subject to additional covenants, which could further limit our ability to access cash flows from our operations. Such financing could cause our debt to equity ratio to increase or require us to create further charges or liens on our assets in favour of lenders. We cannot assure you that we will be able to secure adequate financing in the future on acceptable terms, in time, or at all. Our failure to obtain sufficient financing could result in the delay or abandonment of our expansion plans. Our business and future results of operations may be adversely affected if we delay or are unable to implement our expansion strategy.

23. Covenants with institutional lenders may restrict our operations and expansion ability, which may affect our business and results of operations and financial condition.

As per our current financing arrangements with banks, we are subject to certain restrictive covenants which require us to obtain the prior consent of the respective lenders before undertaking certain actions such as:

- effect any change in the capital structure
- formulate any scheme of amalgamation or reconstruction.
- implement any scheme of expansion or acquire fixed assets.
- make investments/ advances or deposit amounts with any other concern.
- enter into borrowing arrangements with any bank/FI/company.
- undertake guarantee obligations on behalf of any other company.
- declare dividends for any year except out of profits relating to that year

Although have applied for the NoC cum Consent from our lenders for this issue, we can not assure you that we will be able to receive such consents.

24. We have unsecured loans, which are repayable on demand. Any demand from lenders for repayment of such unsecured loans, may adversely affect our business operations.

As per our restated financial statements, as on March 31, 2014, we have unsecured loan of ₹ 10.00 lacs which is repayable on demand. Any demand from lenders for repayment of such unsecured loans, may adversely affect our business operations and liquidity. For further details of these unsecured loans, please refer to Auditors' Report beginning on page 157 of the Prospectus.

25. We have in the past entered into related party transactions and may continue to do so in the future.

We have entered into transactions with our Promoters and our Promoter Group. While we believe that all such transactions have been conducted on an arm's length basis, there can be no assurance that we could not have achieved more favorable terms had such transactions not been entered into with related parties. Furthermore, it is likely that we may enter into related party transactions in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operations. For further details, please refer to "Annexure XV – Related Party Transactions" of the "Auditors Report" beginning on page 119 of this Prospectus.

26. Our insurance cover may be inadequate to fully protect us from all losses and may inturb adversely affect our financial condition.

We maintain such insurance coverage as we believe is customary for our Company. Our insurance policies, however, may not provide adequate coverage in certain circumstances and are subject to certain deductibles, exclusions and limits on coverage. We maintain premises and vehicle insurance coverage. However, we cannot assure you that the terms of our insurance policies will be adequate to cover any damage or loss suffered by us or that such coverage will continue to be available on reasonable terms or will be available in sufficient amounts to cover one or more large claims, or that the insurer will not disclaim coverage as to any future claim. Further, there can be no assurance that any claim under the insurance policies maintained by us will be honoured fully, in part or on time. To the extent that we suffer loss or damage that is not covered by insurance or which exceeds our insurance coverage, our results of operations or cash flow may be affected.

27. The requirements of being a listed company may strain our resources.

As a listed company, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur as an unlisted company. We will be subject to the listing agreements with the BSE, which require us to file audited annual and unaudited quarterly reports with respect to our business and financial condition. If we experience any delays, we may fail to satisfy our reporting obligations and/or we may not be able to readily determine and accordingly report any changes in our results of operations as timely as other listed companies. As a listed company, we will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, for which significant resources and management overview will be required.

EXTERNAL RISKS

1. We cannot predict the effect of the proposed notification of the Companies Act, 2013 on our business.

The Companies Act, 2013 (the “2013 Act”) has been notified by the Government of India on August 30, 2013 (the “Notification”). Under the Notification, Section 1 of the 2013 Act has come into effect and the remaining provisions of the 2013 Act have and shall come into force on such dates as the Central Government has notified and shall notify. Section 1 of the 2013 Act deals with the commencement and application of the 2013 Act, and among others, sets out the types of companies to which the 2013 Act applies. Further the Ministry of Corporate Affairs has by their notification dated September 12, 2013 notified 98 sections of the 2013 Act, which have come into force from September 12, 2013.

The 2013 Act is expected to replace the existing Companies Act, 1956. The 2013 Act provides for, among other things, changes to the regulatory framework governing the issue of capital by companies, corporate governance, audit procedures, corporate social responsibility, the requirements for independent directors, director’s liability, class action suits, and the inclusion of women directors on the boards of companies. The 2013 Act is expected to be complemented by a set of rules that shall set out the procedure for compliance with the substantive provisions of the 2013 Act. In the absence of such rules, it is difficult to predict with any degree of certainty the impact, adverse or otherwise, of the 2013 Act on the Issue, and on the business, prospects and results of operations of the Company. Further, as mentioned above, certain provisions of the 2013 Act have already come into force and the rest shall follow in due course. In event some or all of the provisions of the 2013 Act and the rules thereto are notified prior to the consummation of the Issue, we may have to undertake certain additional actions that we are not currently aware of (in the absence of the rules), which may result in delay of the Issue.

While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled ‘*Industry Overview*’ beginning on page number 68 of the Draft Red Herring Prospectus. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

3. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.*

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, consumer debt levels, unemployment trends, terrorist threats and activities, worldwide military and domestic disturbances and conflicts, and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude.

4. *Global economic conditions have been unprecedented and continue to have, an adverse effect on the global and Indian financial markets which may continue to have a material adverse effect on our business.*

Recent global market and economic conditions have been unprecedented and challenging with tighter credit conditions and an economic recession has been witnessed in most economies in 2009. Continued concerns about the systemic impact of potential long-term and wide-spread economic recession, energy costs, geopolitical issues, the availability and cost of credit, and the global housing and mortgage markets have contributed to increased market volatility and diminished expectations for western and emerging economies. These conditions, combined with volatile oil prices, declining business and consumer confidence and increased unemployment, have contributed to volatility of unprecedented levels. As a result

of these market conditions, the cost and availability of credit has been and may continue to be adversely affected by illiquid credit markets and wider credit spreads. Concern about the stability of the markets generally and the strength of counterparties specifically has led many lenders and institutional investors to reduce, and in some cases, cease to provide credit to businesses and consumers. These factors have led to a decrease in spending by businesses and consumers alike and corresponding decreases in global infrastructure spending and commodity prices. These market and economic conditions have an adverse effect on the global and Indian financial markets and may continue to have a material adverse effect on our business and financial performance, and may have an impact on the price of the Equity Shares.

5. *Any disruption in the supply of power, IT infrastructure, telecom lines and disruption in internet connectivity could disrupt our business process or subject us to additional costs.*

Any disruption in basic infrastructure or the failure of the Government to improve the existing infrastructure facilities could negatively impact our business since we may not be able to provide timely or adequate services to our clients. We do not maintain business interruption insurance and may not be covered for any claims or damages if the supply of power, IT infrastructure, internet connectivity or telecom lines is disrupted. This may result in the loss of a client, impose additional costs on us and have an adverse effect on our business, financial condition and results of operations and could lead to decline in the price of our Equity Shares.

6. *Natural calamities and changing weather conditions caused as a result of global warming could have a negative impact on the Indian economy and consequently impact our business and profitability.*

Natural calamities such as draughts, floods, and earthquakes could have a negative impact on the Indian economy and may cause suspension, delays or damage to our current projects and operations, which may adversely impact our business and our operating results. India's being a monsoon driven economy, climate change caused due to global warming bringing deficient / untimely monsoons could impact Government policy which in turn would adversely affect our business.

7. *Political instability or changes in the Government could adversely affect economic conditions in India generally and our business in particular.*

The Government of India has traditionally exercised and continues to exercise a significant influence over many aspects of the economy. Our business, and the market price and liquidity of our Equity Shares, may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. Since 1991, successive governments have pursued policies of economic liberalization and financial sector reforms. However, there can be no assurance that such policies will be continued in the future. A significant change in India's economic liberalization and deregulation policies could disrupt business and economic conditions in India generally and adversely affect our business, financial condition and results of operations.

8. *Civil unrest, acts of violence including terrorism or war involving India and other countries could materially and adversely affect the financial markets and our business.*

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Terrorist attacks and other acts of violence may adversely affect the Indian stock markets, where our Equity Shares will trade, and the global equity markets generally.

9. *There is no guarantee that the Equity Shares issued pursuant to the Issue will be listed on the SME Platform of BSE in a timely manner, or at all.*

In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Issue will not be granted until after the Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the SME Platform of BSE. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

10. *The price of our Equity Shares may be volatile, or an active trading market for our Equity Shares may not develop.*

Prior to this Issue, there has been no public market for our Equity Shares. Our Company and the Lead Manager have appointed Market Maker for the equity shares of our Company. However, the trading price of our Equity Shares may fluctuate after this Issue due to a variety of factors, including our results of operations and the performance of our business, competitive conditions, general economic, political and social factors, the performance of the Indian and global economy and significant developments in India's fiscal regime, volatility in the Indian and global securities market, performance of our competitors, the Indian Capital Markets and Finance industry, changes in the estimates of our performance or recommendations by financial analysts and announcements by us or others regarding contracts, acquisitions, strategic partnerships, joint ventures, or capital commitments.

In addition, if the stock markets experience a loss of investor confidence, the trading price of our Equity Shares could decline for reasons unrelated to our business, financial condition or operating results. The trading price of our Equity Shares might also decline in reaction to events that affect other companies in our industry even if these events do not directly affect us. Each of these factors, among others, could materially affect the price of our Equity Shares. There can be no assurance that an active trading market for our Equity Shares will develop or be sustained after this Issue, or that the price at which our Equity Shares are initially offered will correspond to the prices at which they will trade in the market subsequent to this Issue. For further details of the obligations and limitations of Market Makers please refer to the chapter titled "General Information" beginning on page 36 of this Prospectus.

11. *There are restrictions on daily movements in the price of the Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.*

Following the Issue, we will be subject to a daily "circuit breaker" imposed by BSE, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based, market-wide circuit breakers generally imposed by SEBI on Indian stock exchange. The percentage limit on our circuit breakers will be set by the stock exchange based on the historical volatility in the price and trading volume of the Equity Shares.

The BSE may not inform us of the percentage limit of the circuit breaker in effect from time to time and may change it without our knowledge. This circuit breaker will limit the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance can be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

12. *Conditions in the Indian securities market may affect the price or liquidity of our Equity Shares.*

The Indian securities markets are smaller than securities markets in more developed economies and the regulation and monitoring of Indian securities markets and the activities of investors, brokers and other participants differ, in some cases significantly, from those in the more developed economies. Indian stock exchange have in the past experienced substantial fluctuations in the prices of listed securities. Further, the Indian stock exchanges have experienced volatility in the recent times. The Indian stock exchanges have also experienced problems that have affected the market price and liquidity of the securities of Indian companies, such as temporary exchange closures, broker defaults, settlement delays and strikes by brokers. In addition, the governing bodies of the Indian stock exchanges have from time to time restricted securities from trading and limited price movements. A closure of, or trading stoppage on the BSE could adversely affect the trading price of the Equity Shares.

SECTION III – INTRODUCTION

SUMMARY OF OUR INDUSTRY

Indian Fitness & Slimming Industry constitutes about 8% of the wellness market. Presently, the fitness industry is in its nascent stages. The industry is fairly fragmented since the majority of the market appears to be dominated by a large number of mom-and-pop gyms. Organized fitness services account for merely 25% of the overall fitness industry.

Trends in the Industry

- Franchising
- Beyond Tier I
- Burgeoning Investments
- Innovative formats
- Training Trends

The Indian Fitness & Slimming Industry is set to ride high with all levers in place. Growing disposable income of the people coupled with rising awareness of a healthy body augur well for the Industry. Significant changes in lifestyle related to lack of physical activity and increased consumption of fast food among both affluent and working class population has led to greater need for healthy lifestyles. Indian fitness & slimming industry currently pegged at USD 0.78 billion is stated to grow at a CAGR of 25% to reach USD 2.4 Billion by 2015. We would not be surprised if the industry outperforms our ballpark figure.

The fitness industry is highly under penetrated in India with mere 0.4% (taken for top 7 cities) membership as compared to Asia Pacific average of 3.7%. The industry, as a whole, is expected to benefit from rising proportion of age group between 20 and 44 in India, which is expected to be ~40% of India's total population by the end of 2016. In addition, growing disposable incomes and rising lifestyle related diseases would pent up demand for quality health and fitness services.

The Indian wellness industry encompasses a large number of service segments including beauty services (salon, treatment based beauty products), personal health counselling, fitness and rejuvenation segments. The current size of the overall Indian wellness industry is estimated at ~ 49,000 crore. The industry comprises beauty services and cosmetics products, which is estimated at ~20,000 crore. The fitness and slimming market is estimated at ~4,000 crore, nutrition market (includes health and wellness food and beverages) at ~13,000 crore, rejuvenation at ~500 crore and alternate therapy market in India at ~11,500 crore, respectively. Further, according to the Ficci-PwC knowledge report, the Indian wellness industry is expected to grow at a CAGR of 20% for the next three years to reach around 87,500 crore on the back of rising disposable incomes and increasing need to 'look good' among the youth population in India.
(Source: FICCI, 2011 Report)

We expect the major growth driver for the fitness service industry to be the growing population in urban India. According to census 2011 provisional data, the urban population constituted 31.2% of the total population in 2011. There has been continuous growth in disposable income from 2001-02 to 2009-10. It suggests that the number of households earning below 1.4 lakh per annum declined from 135 million to 114 million in 2009-2010. However, the number of households earning between 3.1 lakh and 15.6 lakh in each segment grew at ~12% CAGR (from 11 million to 28 million) between 2001-02 and 2009-10. With rising income levels, we expect spending to also increase significantly. During the last few years, a sharp rise in wealth can be seen in several posh residential complexes that have emerged in the top few Indian cities like Mumbai, NCR, Chennai, Kolkata, Hyderabad, Bangalore and Pune. This segment of the population provides an upscale market for fitness centres to offer not just the basic gym facility but also advanced value added activities like spas, steam/sauna bath, nutrition centres, aerobics, spinning studios and personal training programmes.

Significant changes in lifestyle related to lack of physical activities and increased consumption of "junk foods" among the young population has created a greater need for a healthy lifestyle through exercise and counselling on dietary habits. According to the International Diabetic Federation, India alone has 61.3 million people living with diabetes. This places India second only to China. Due to its large child population, India accounts for most of the 1,12,000 children with type 1 diabetes. Rising number of diabetic patients in India in the adult age group is creating room for established gyms players to expand gyms with trained employees.

There is a growing demand for wellness services in urban markets beyond Tier 1 cities mainly due to rising awareness in the country on diseases like diabetes. A study of AC Nielsen's Global Online Consumer Survey 2009 reveals that going to gym is the second most preferred option for exercise after walking. Among total respondents, ~35% preferred exercise through walking while only 18% preferred gyms for the exercise. We expect penetration of gyms to increase in the near future with rising income level and awareness about lifestyle diseases among the adult age group.

The gym, health and fitness clubs industry is in the growth stage of its life cycle due to an increased awareness and interest in fitness & health and the need for exercise. Even in the midst of the economic downturn, the industry has maintained steady growth, with membership rates growing consistently and profits remaining solid. Demand for gyms and health and fitness clubs will continue to rise over the next five years as the general public becomes more health conscious and the aging population places a greater emphasis on staying fit. Additionally, the amount of leisure time and growth in household incomes will positively affect businesses, leading operators to expand into larger facilities.

Conclusion

The wellness industry in India is poised to touch Rs 1,00,000 crore (Rs 1 trillion) by 2015, with a compounded annual growth rate of 15-17%, from about Rs 70,000 crore in 2012. Of the entire wellness industry, beauty care would continue to dominate with almost 50% (about Rs 49,000 crore), followed by alternate therapy (about Rs 21,000 crore) and health and wellness food and beverages at about Rs 27,000 crore, according to the study.

The size of the beauty care industry is estimated at Rs 29,000 crore in 2012 estimate, while fitness and slimming market was estimated at Rs 60,000 crore in 2012. About 60% of the market is dominated by products. However, the industry is facing issues in getting standard skilled manpower, and no standard is followed across the industry.

As per clause (a) sub-regulation (1) Regulation 32 of the SEBI ICDR Regulations and in terms of the aforesaid table, an aggregate of 20% of the post-Issue Equity Share Capital of our Company shall be locked in by our Promoters for a period of three (3) years from the date of Allotment (“minimum Promoter’ contribution”).

The Promoters’ contribution has been brought in to the extent of not less than the specified minimum amount and has been contributed by the persons defined as Promoters under the SEBI ICDR Regulations. Our Company has obtained written consents from our Promoters for the lock-in of 14,70,000 Equity Shares for a period of three years from the date of Allotment in the Issue.

The balance pre-Issue Equity Share capital of our Company, *i.e.* 30,30,000 Equity Shares shall be locked in for a period of one year from the date of Allotment in the Issue. Equity Shares offered by the Promoters for the minimum Promoters’ contribution are not subject to pledge. Lock-in period shall commence from the date of Allotment of Equity Shares in the Issue.

We confirm that the minimum Promoters’ contribution of 20% which is subject to lock-in for three years does not consist of:

- a) Equity Shares acquired during the preceding three years for consideration other than cash and revaluation of assets or capitalisation of intangible assets;
- b) Equity Shares acquired during the preceding three years resulting from a bonus issue by utilisation of revaluation reserves or unrealised profits of the issuer or from bonus issue against equity shares which are ineligible for minimum Promoters' contribution;
- c) Equity Shares acquired by Promoters during the preceding one year at a price lower than the price at which equity shares are being offered to public in the Issue; or equity shares pledged with any creditor.

Further, our Company has not been formed by the conversion of a partnership firm into a company and no Equity Shares have been allotted pursuant to any scheme approved under Section 391-394 of the Companies Act, 1956.

The share certificates for the Equity Shares in physical form, which are subject to lock-in, shall carry the inscription 'non-transferable' and the non-transferability details shall be informed to the depositories.

Equity Shares locked-in for one year

In addition to 20% of the post-Issue shareholding of our Company locked-in for three years as the minimum Promoters' contribution, the balance Pre-Issue Paid-up Equity Share Capital *i.e.* 30,30,000 Equity Shares, would be locked-in for a period of one year from the date of Allotment in the proposed Initial Public Offering. Further, such lock-in of the Equity Shares would be created as per the bye laws of the Depositories.

Other requirements in respect of 'lock-in'

In terms of Regulation 40 of the SEBI ICDR Regulations, the Equity Shares held by persons other than the Promoter' prior to the Issue may be transferred to any other person holding the Equity Shares which are locked-in as per Regulation 37 of the SEBI ICDR Regulations, subject to continuation of the lock-in in the hands of the transferees for the remaining period and compliance with the Takeover Code as applicable.

In terms of Regulation 40 of the SEBI ICDR Regulations, the Equity Shares held by our Promoters which are locked in as per the provisions of Regulation 36 of the SEBI ICDR Regulations, may be transferred to and amongst Promoters / members of the Promoter Group or to a new promoter or persons in control of our Company, subject to continuation of lock-in in the hands of transferees for the remaining period and compliance of Takeover Code, as applicable.

In terms of Regulation 39 of the SEBI ICDR Regulations, the locked-in Equity Shares held by our Promoters can be pledged only with any scheduled commercial banks or public financial institutions as collateral security for loans granted by such banks or financial institutions, subject to the following:

- If the specified securities are locked-in in terms of sub-regulation (a) of Regulation 36 of the SEBI ICDR Regulations, the loan has been granted by such bank or institution for the purpose of financing one or more of the objects of the issue and the pledge of specified securities is one of the terms of sanction of the loan;
- If the specified securities are locked-in in terms of sub-regulation (b) of Regulation 36 of the SEBI ICDR Regulations and the pledge of specified securities is one of the terms of sanction of the loan.

SECTION IV – ABOUT THE COMPANY

INDUSTRY OVERVIEW

Indian Fitness & Slimming Industry constitutes about 8% of the wellness market. Presently, the fitness industry is in its nascent stages. The industry is fairly fragmented since the majority of the market appears to be dominated by a large number of mom-and-pop gyms. Organized fitness services account for merely 25% of the overall fitness industry.

Trends in the Industry

- Franchising
- Beyond Tier I
- Burgeoning Investments
- Innovative formats
- Training Trends

The Indian Fitness & Slimming Industry is set to ride high with all levers in place. Growing disposable income of the people coupled with rising awareness of a healthy body augur well for the Industry. Significant changes in lifestyle related to lack of physical activity and increased consumption of fast food among both affluent and working class population has led to greater need for healthy lifestyles. Indian fitness & slimming industry currently pegged at USD 0.78 billion is stated to grow at a CAGR of 25% to reach USD 2.4 Billion by 2015. We would not be surprised if the industry outperforms our ballpark figure.

The fitness industry is highly under penetrated in India with mere 0.4% (taken for top 7 cities) membership as compared to Asia Pacific average of 3.7%. The industry, as a whole, is expected to benefit from rising proportion of age group between 20 and 44 in India, which is expected to be ~40% of India's total population by the end of 2016. In addition, growing disposable incomes and rising lifestyle related diseases would pent up demand for quality health and fitness services.

The Indian wellness industry encompasses a large number of service segments including beauty services (salon, treatment based beauty products), personal health counselling, fitness and rejuvenation segments. The current size of the overall Indian wellness industry is estimated at ~ 49,000 crore. The industry comprises beauty services and cosmetics products, which is estimated at ~20,000 crore. The fitness and slimming market is estimated at ~4,000 crore, nutrition market (includes health and wellness food and beverages) at ~13,000 crore, rejuvenation at ~500 crore and alternate therapy market in India at ~11,500 crore, respectively. Further, according to the Ficci-PwC knowledge report, the Indian wellness industry is expected to grow at a CAGR of 20% for the next three years to reach around 87,500 crore on the back of rising disposable incomes and increasing need to 'look good' among the youth population in India.

(Source: FICCI, 2011 Report)

We expect the major growth driver for the fitness service industry to be the growing population in urban India. According to census 2011 provisional data, the urban population constituted 31.2% of the total population in 2011. There has been continuous growth in disposable income from 2001-02 to 2009-10. It suggests that the number of households earning below 1.4 lakh per annum declined from 135 million to 114 million in 2009-2010. However, the number of households earning between 3.1 lakh and 15.6 lakh in each segment grew at ~12% CAGR (from 11 million to 28 million) between 2001-02 and 2009-10. With rising income levels, we expect spending to also increase significantly. During the last few years, a sharp rise in wealth can be seen in several posh residential complexes that have emerged in the top few Indian cities like Mumbai, NCR, Chennai, Kolkata, Hyderabad, Bangalore and Pune. This segment of the population provides an upscale market for fitness centres to offer not just the basic gym facility but also advanced value added activities like spas, steam/sauna bath, nutrition centres, aerobics, spinning studios and personal training programmes.

Significant changes in lifestyle related to lack of physical activities and increased consumption of "junk foods" among the young population has created a greater need for a healthy lifestyle through exercise and counselling on dietary habits. According to the International Diabetic Federation, India alone has 61.3 million people living with diabetes. This places India second only to China. Due to its large child population, India accounts for most of the 1,12,000 children with type 1 diabetes. Rising number of diabetic patients in India in the adult age group is creating room for established gyms players to expand gyms with trained employees.

There is a growing demand for wellness services in urban markets beyond Tier 1 cities mainly due to rising awareness in the country on diseases like diabetes. A study of AC Nielsen's Global Online Consumer Survey 2009 reveals that going to gym is the second most preferred option for exercise after walking. Among total respondents, ~35% preferred exercise through walking while only 18% preferred gyms for the exercise. We expect penetration of gyms to increase in the near future with rising income level and awareness about lifestyle diseases among the adult age group.

The gym, health and fitness clubs industry is in the growth stage of its life cycle due to an increased awareness and interest in fitness & health and the need for exercise. Even in the midst of the economic downturn, the industry has maintained steady growth, with membership rates growing consistently and profits remaining solid. Demand for gyms and health and fitness clubs will continue to rise over the next five years as the general public becomes more health conscious and the aging population places a greater emphasis on staying fit. Additionally, the amount of leisure time and growth in household incomes will positively affect businesses, leading operators to expand into larger facilities.

Levels of services and offerings

Health clubs offer many services, and as a result the monthly membership prices can vary greatly. Costs can vary through the purchase of a higher-level membership, such as a Founders or a Life membership. Such memberships often have a high up-front cost but a lower monthly rate, making them potentially beneficial to those who use the club frequently and hold their memberships for years.

A fitness centre or a gym usually consists of the following facilities:

Main workout area

Most health clubs have a main workout area, which primarily consists of free weights including dumbbells, barbells and exercise machines. This area often includes mirrors so that exercisers can monitor and maintain correct posture during their workout. A gym which predominately or exclusively consists of free weights (dumbbells and barbells), as opposed to exercise machines, is sometimes referred to as a black-iron gym, after the traditional color of weight plates.

Cardio area/Theatre

A cardio theater or cardio area includes many types of cardiovascular training-related equipment such as rowing machines, stationary exercise bikes, elliptical trainers and treadmills. These areas often include a number of audio-visual displays (either integrated into the equipment, or placed on walls around the area itself) in order to keep exercisers entertained during long cardio workout sessions

Sports facilities

Some health clubs offer sports facilities such as a swimming pools, squash courts or boxing areas. In some cases, additional fees are charged for the use of these facilities.

Personal training

Most health clubs employ personal trainers who are accessible to members for training/fitness/nutrition/health advice and consultation. Personal trainers can devise a customized fitness routine, sometimes including a nutrition plan, to help clients achieve their goals. They can also monitor and train with members. More often than not, access to personal trainers involves an additional hourly fee.

Other services

Newer health clubs generally include health-shops, snack bars, restaurants, child-care facilities, member lounges and cafes. It is not unusual for a sauna, steam shower, or wellness areas to be present. Health clubs generally charge a fee to allow visitors to use the equipment, courses, and other provided services. A fairly new trend is the advent of eco friendly health clubs which incorporate principles of "green living" in its fitness regimen.

Group exercise classes

Most newer health clubs offer group exercise classes that are conducted by certified fitness instructors. Many types of group exercise classes exist, but generally these include classes based on aerobics, cycling (spin cycle), boxing or martial arts, high intensity training, step, regular and hot (Bikram) yoga, pilates, muscle training, and self-defense classes such as Krav Maga and Brazilian jiu-jitsu. Health clubs with swimming pools often offer aqua aerobics classes. The instructors often must gain certification in order to teach these classes and ensure participant safety

Conclusion

The wellness industry in India is poised to touch Rs 1,00,000 crore (Rs 1 trillion) by 2015, with a compounded annual growth rate of 15-17%, from about Rs 70,000 crore in 2012. Of the entire wellness industry, beauty care would continue to dominate with almost 50% (about Rs 49,000 crore), followed by alternate therapy (about Rs 21,000 crore) and health and wellness food and beverages at about Rs 27,000 crore, according to the study.

The size of the beauty care industry is estimated at Rs 29,000 crore in 2012 estimate, while fitness and slimming market was estimated at Rs 60,000 crore in 2012. About 60% of the market is dominated by products. However, the industry is facing issues in getting standard skilled manpower, and no standard is followed across the industry.

Competition

We operate in a highly competitive market and face stiff competition from other players operating both in organized and un-organized sectors. Some foreign players have also entered the Indian market. Pricing is one of the factors that play an important role in our customers’ selection of our services. There are several strategies adopted by our competitors to increase their market share i.e. through advertising, pricing, service and new product introductions among others. This increased competition by both traditional and new players may affect our margins. In order to protect our existing market share or capture market share, we may be required to increase expenditure for advertising and promotions and to introduce and establish new products. Due to inherent risks in the marketplace associated with advertising and new product introductions, including uncertainties about consumer response, increased expenditure may not prove successful in maintaining or enhancing our market share and could result in lower profitability.

Approach to Marketing and Marketing Set-up

Our Company is involved in providing fitness services. We market our centers through both high dollar and low dollar marketing. We use Print, Radio, Hoarding, Banners etc. Our Company plans brand building through media advertising. The various alternative products available in the market will be compared along such important parameters such as cost, services etc. The company will achieve product awareness by promoting the product to consumers.

Future Prospects

Presently, the fitness industry is in its nascent stages. The industry is fairly fragmented since the majority of the market appears to be dominated by a large number of mom-and-pop gyms. This high degree of fragmentation, lack of product differentiation, and customer price sensitivity result in prevalent price competition and low margins. The market also appears to have a shortage of talent, since qualified personal trainers, nutrition consultants and professional managers are scarce, which also contributes to the lack of differentiation. Yet, on the other hand, awareness about fitness and a healthy lifestyle is growing; along with higher disposable incomes and a growing young population. India presents a huge opportunity for the health and fitness industry.

Capacity and Capacity Utilization

Since we operate in the service industry, capacity and capacity utilisation is not applicable to us.

Export Possibilities & Export Obligation

Currently, we do not have any outstanding export obligations.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

You should read the following discussion of our financial condition and results of operations together with our restated financial statements included in the Prospectus. You should also read the section entitled "Risk Factors" beginning on page 10, which discusses a number of factors, risks and contingencies that could affect our financial condition and results of operations. The following discussion relates to our Company and, is based on our restated financial statements, which have been prepared in accordance with Indian GAAP, the Companies Act and the SEBI Regulations. Portions of the following discussion are also based on internally prepared statistical information and on other sources.

Business Overview

We are a fitness chain operating in Mumbai and also have the presence in Surat and Jaipur through our franchise. We operate our Gyms under the brand "Powerhouse Gyms" which is owned by Powerhouse Gyms International headquartered in Detroit, USA.

Our Gyms are state of the art facilities with services including gyms, steam, aerobics and diet counseling amongst others.

The first gym was established in May 1999, as "Q's Fitness Studio" a proprietary firm with Mr. Ashok Gupta HUF as its sole proprietor at Santacruz West, Mumbai. After the success of the Santacruz centre another centre was set up at Vile Parle, Mumbai in October 2004.

"Q's Fitness Studio" has signed a Master Licensing Agreement dated March 21, 2005 with Powerhouse Licensing LLC, which provides us with the exclusive right to set up and operate Powerhouse Gyms and to use and license of the Powerhouse Gyms and the associated trademarks in the gyms in India, Nepal, Bangladesh and Sri Lanka set up and run Powerhouse gyms in India, Sri Lanka, Nepal, Bangladesh and Maldives. The first Powerhouse fitness centre in India was set up in November 2005 at at Juhu (Mumbai). The centres at Santacruz and Vile Parle were converted to Powerhouse.

In February 2013, our Company, Powerhouse Fitness & Realty Limited was incorporated to consolidate the business and bring all the gyms into a single entity. We have been authorised by Q's Fitness Studio to use the brand 'Powerhouse Gym' for our business in India. Currently, we have 12 Powerhouse Gyms in Mumbai located at Juhu, Vile Parle, Chembur, Ghatkopar, Mulund(W), Chowpatty, Prabhadevi, Andheri(E), 4 Bungalows, Malad (W) & Bombay Central. Our gyms are generally located in neighbourhood markets in Mumbai.

Currently, our Company operates 13 fitness centres in Mumbai and three franchisees in Santacruz (Mumbai), Surat and Jaipur. Further we have also entered into a leave and license agreement for the opening of Gym in Thakur Complex, Kandivali (East) and interior work has commenced. As on date we have approximately 9000 members in all our gyms including our franchisees.

Significant developments subsequent to the last financial year:

After the date of last financial year i.e. March 31, 2014, the Directors of our Company confirms that, there have not been any significant material developments.

Key factors affecting the results of operation:

Our Company's future results of operations could be affected potentially by the following factors:

Competition

We primarily face competition from companies which offer similar products. The major brands with which we compete in the fitness industry include Golds Gym, Leena Mogre Fitness, Talwalkar's amongst others. We anticipate this competition to grow as the demand and awareness for fitness increases and we also expect additional companies to enter the Indian market. As our Company enter newer markets, we are likely to face additional competition from those who may be better capitalized, have longer operating history, have greater

brand presence, and better management than us. If we are unable to manage our business it might impede our competitive position and profitability.

Growth in the Indian economy

General economic conditions in India have a significant impact on our results of operations. The Indian economy has grown rapidly over the past decade and is expected to continue to grow in the future. As a result, real average household incomes have roughly doubled since 1985. There has been an overall increase in the awareness about the health and fitness in urban India and this has directly benefited the fitness industry..

Brand Image

Our success depends on our ability to maintain the brand image of our existing products and effectively enhancing the brand image for new products and brand extensions. Product quality issues, real or imagined, or allegations of product & services defects, even when false or unfounded, could tarnish the image of the established brands and may cause consumers to choose other products.

Regulatory developments

Our Company is regulated by the Companies Act and some of its activities are subject to supervision and regulation by statutory and regulatory authorities. It is therefore subject to changes in Indian law, as well as to changes in regulation and government policies and accounting principles.

While the FDI Policy prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the FDI Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The Government bodies responsible for granting foreign investment approvals are FIPB and the RBI.

In terms of the Consolidated FDI policy (effective from April 17, 2014), issued by the Department of Industrial Policy and Promotion, 100% foreign direct investment in the Company is permitted.

Subscription by foreign investors (NRIs/FIIs)

FIIs are permitted to subscribe to shares of an Indian company in a public offer without the prior approval of the RBI, so long as the price of the equity shares to be issued is not less than the price at which the equity shares are issued to residents.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the FDI Policy and transfer does not attract the provisions of the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011 (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI/ RBI.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.
