## INNOVATION – OUR KEY DIFFERENTIATOR

### Easy Market Access
- New Trading Architecture – Eurex T7 Platform
- Direct Market Access (DMA)
- Co-location + HFT
- Smart Order Routing (SOR)
- Low latency Feeds
- Point of Presence (PoP)
- New Membership Drive
- Internet-based exchange hosted trading platform
- Trading via mobile phone

### Product Innovation
- Strategic Partnership with S&P Dow Jones Indices
- S&P BSE 100 Index
- IPO system accessible via APIs
- Liquidity Enhancement Incentives for equity derivatives
- Maker-Taker pricing
- Stock Lending & Borrowing
- Call Auction in pre-open session
- S&P BSE Realized Volatility Index
- IDRs, Rupee-denominated global indices, ETFs
- Listed Mutual Funds – with historical NAV and Exchange SIP
- Direct Access to MF Distributors
- Third-party warrants (In-progress)

### Enhanced Reach
- Revamped website – member & investor friendly features
- First Securities Market Infrastructure member of SWIFT in India
- New indices – S&P BSE 500 SHARIAH, S&P BSE India 10 Year Sovereign Bond Index (Total Return)
- BRICS Alliance – Inter-exchange alliance to develop world's largest emerging markets
- High-quality research and world class analytical tools on MFs
- SME Exchange – Platform for the emerging business community
- Launched S&P BSE Infrastructure – a benchmark and investable index that measures performance of Top 30 Indian Companies involved in Infrastructure and related operations.
EQUITIES

- **Access Range**: Over 5406 listed companies - Largest in the world

- **Best Execution** – out of these 5406 listed equities, over 1500 are dual listed with on the other Indian Exchange – Use SOR to realize a lower impact cost for your clients! *Savings of 6-8bps have been achieved by clients using SOR!!*

- **Dedicated Block Trade window** in the morning

- **Call-Auction for Illiquid Scrips**: All illiquid stocks are traded by way of hourly call-auctions

- **Pre-open Session**: The opening for the S&P BSE SENSEX basket of stocks. BSE exclusively listed stocks and initial offerings is conducted via a Call Auction.

- **Stock Lending and Borrowing** – With early pay-in and recall facilities

- **Maker-Taker Pricing**: BSE is the only Indian Exchange providing a maker-taker pricing for cash equities:
  - As a liquidity provider (passive orders), you pay 0.225 bps
  - As a liquidity taker (active orders), you pay 0.325 bps
  - This is approx. 25% lower than transaction costs at the other Exchange
A broad-based index that represents top 100 companies listed on the BSE ranked by float-adjusted market capitalization, value traded, and impact cost.

- Correlation with NIFTY – 0.99870
- Correlation with MSCI India index – 0.99760
- Correlation with S&P BSE SENSEX – 0.99839

Futures and Options of S&P BSE 100 have been launched and are actively traded.
An Offer For Sale is a new mechanism for increasing the public share holding as mandated under listing agreement.

BSE launched the Offer For Sale (OFS) module on iBBS (Internet based book building System) platform on 24th February, 2012.

As on June’14, 120 companies have completed their OFS issues of which BSE was appointed the Designated Stock Exchange in 100 (~85.5%) OFS issues. Over 500 members have participated in OFS via BSE platform.

The process has helped the Government to raise over Rs.37,520 Crs (USD 6.00 Billion) through divestment of holdings in PSUs.

66 OFS issues have been conducted exclusively only on BSE Platform.

GROWING PRESENCE IN DEBT SEGMENT

Secondary Market updates

- BSE has retained market share of over 55% in the retail trading of Corporate Bonds in the financial year 2013-14. In the month of June 2014, BSE has maintained its market-share of 55%.
- Market share in Reporting volumes in Wholesale Debt Market of Government Bonds for the month of Jun’14 is 26%. In 2013-14 volumes in this segment have exponentially increased to Rs. 48,952 crs vis a vis Rs.1,767 crs in the previous year 2012-13.
- The market share of BSE for corporate bond reporting is continually increasing from 17.57% in 2012-13 to 28% in the financial year 2013-14. In June 2014, BSE Market Share was around 20%.
- Settlement volumes of Corporate bonds have considerably increased from Rs. 42,976 crores in 2012 -13 to Rs. 60,521 crores in 2013-14.

Primary Market updates

- BSE is the preferred choice by issuers for listing Privately Placed Debt Instruments , having listed more number of instruments than the other Exchange in 2013-14. In Financial Year 2014-15, BSE has listed 342 Instruments vis-a-versa 226 on other Exchange.
- Out of 10 Debt Public Issues, 6 times BSE has been appointed as Designated Stock Exchange during the Financial year 2014-15.
- Over 96% of the average bids amongst all public debt issues had been garnered through the BSE IBBS Platform till June 2014. In 2013-14, 89% of the average bids amongst all public debt issues was through the BSE IBBS Platform and amount mobilized was Rs.41,860 crores.
RETAIL CORPORATE DEBT VOLUMES BSE V/S NSE

BSE Volume & Avg M-Share (From Apr-13 till Jun-14) – 56.97%
BSE StAR MF

INDIA’S LEADING MUTUAL FUND DISTRIBUTION PLATFORM

- A web-based transaction processing system
- BSE StAR MF is a web browser based fully automated online MF collection and settlement system. Popular amongst brokers with more than 81% market share (June 2014)
- Launched BSE StAR MF Platform for Distributors on March 6, 2014.
- AMFI Registered ARN Holders can transact on BSE StAR MF Platform

System Flexibility
- Feature-rich and highly flexible electronic order platform – easy and simple to use
- In-built risk management: Creation of multiple branches and multiple dealers (IDs)
- Simple UCC process: Every client has to be registered in system before entering orders - thus full transparency regarding source of funds, investor, etc.
- File upload facility for virtually all functions making it highly user friendly
- Detailed MIS reports available to brokers, issue of client confirmations built-in
- Innovative new products like Lo Schemes (Historic NAV) and Exchange SIP (XSIP)

Order Routing hours
- Existing NAV norms (cut-off at 3pm) to apply, apart from the liquid schemes offered for historical NAV (cut-off at 1.00 pm). Timings are extended for subscription only in case of NFOs at request of AMC.
- We also accept L-1 scheme types (other than liquid schemes) where transactions of minimum Rs 2 lakhs and above would be accepted, wherein broker will fulfill obligations on T day itself for availing same day NAV. Cut off time 1.00 PM
- For Registration Process, refer: http://ir.bseindia.com/mfdforms/members/LoginMF.aspx?expandable=0
BENEFITS OF USING StAR MF PLATFORM

- Investor gets to view all his/her investments in one single location (that too electronically) – can use same demat account as that for equity shares.
- Latest NAVs displayed in system for all available scheme options
- Investor gets full service from broker – no need to go to one broker for equity shares and another for Mutual Funds – broker is one stop shop. Also investor need not go to his distributor – just call!
- No cumbersome manual filling of MF application forms
- Under XSIP, Multiple SIPs can be registered under single Mandate for any AMC
- MFIs will have flexibility of charging brokerage to client on SIP at the time of registration
- Investor can also pledge MF units held by him as collateral (margin) with his broker as brokers are allowed to do so with exchange in turn
- Separate KnowYour Client not needed if transacting in Demat mode
- System accessible via APIs
- Pay-in timings tweaked to synergies with timing for liquid fund investment – brokers can make invest surplus funds in liquid fund units giving maximum utilization of funds which would otherwise lie idle. These same liquid fund units can be deposited as collateral for trading segments, as cash equivalent.

BSE Avg M-Share (From Apr-13 till Jun-14) – 74%
EQUITY DERIVATIVES: HIGHLIGHTS

- Underlying Assets: Index Derivatives on:
  - Investable and Broad Indices – S&P BSE SENSEX and S&P BSE 100
  - Sector Indices – S&P BSE TECK, S&P BSE BANKEX, S&P BSE OIL AND GAS.

- Maturities available:
  - Index & Stock Futures: Near, Mid, Far Month
  - Index Options: Weekly, Monthly & Long Dated – Only Exchange in India offering weekly expiring Options
    - 5 Weekly, 3 Monthly and 12 Long Dated (4 quarterly and 8 semiannual)
  - Stock Options: Weekly and Monthly
    - 5 Weekly / 3 Monthly

- Ongoing Liquidity Enhancement Programme to create lasting liquidity in BSE derivatives. Market-Makers incentivized to maintain tight spreads and deep quotes

- Lower transaction costs for all participants:
  - As Liquidity provider, you pay Zero
  - As Liquidity taker, you pay 0.05 bps of Futures contract value and 0.05 bps of Options Premium value
  - For Options, this is almost 200 times lower transaction fees compared to the other exchange
NEW TRADING ARCHITECTURE – EUREX T7

- We have partnered with the Eurex Group through a long-term technology alliance under which BSE has joined the Eurex technology roadmap and deployed the T7 system.

- New Technology to allow BSE achieve highest global standards for speed, reliability and order-handling capacity. BSE matching Engine to be one of the fastest platforms globally in terms of throughput, latency and turnaround time, BSE to get best in class order types and risk management features which is already in place at the Eurex platform.

- By aligning BSE, Eurex Exchange and ISE markets on a common trading infrastructure, IT costs for shared customers will reduce significantly. This will also reduce technology development and installation efforts for Eurex and ISE members who wish to connect to BSE and vice versa as well as strengthen the case for cross-listing.
NEW TRADING ARCHITECTURE – BOLT PLUS

- Bolt Plus Live
  - Products available for trading
    - Currency Derivatives - 29 Nov 2013
    - Interest Rates Futures - 28 Jan 2014
    - Equity Derivatives - 7 Feb 2014
    - Equity - 7 April 2014

- Member Access
  - API based access
    - Through existing IML API
    - Advanced High performance APIs (ETI, MDI/EMDI)

- Peripheral Systems connecting to BOLT Plus
  - Reference Data, Risk Management, Surveillance, Clearing & Settlement, Data Warehouse

- Performance Testing & Benchmarking
  - Latency: < 200 µs (Gateway in to Gateway out)
  - Network Latency for Colo Users: 70 µs
  - Throughput: 5 lacs order per second
  - Scalability: Horizontally scalable by adding partitions

INTRODUCTION TO LEIPS

BSE DERIVATIVES INCENTIVE PROGRAMME

- BSE LEIPS was initiated in September 2011, in order to create lasting liquidity in BSE’s equity derivatives segment.
- Current focus of the on-going phase is to bring liquidity in index products such as S&P BSE SENSEX and S&P BSE 100.
- The programme invites participants to empanel either as a Market-Maker (MM) or a General Market Participant (GMP).
  - MMs have obligations to quote and maintain spreads, whereas GMPs have no obligations.
  - MMs avail a higher incentive, on achieving obligations. GMPs receive trading incentives.
- For all participants, the transaction charge has been made zero for passive orders and 0.05bps for active orders.
- Incentives are paid on a daily basis. Annual budget of USD 8 million + for incentives.
- Co-location racks, servers and algorithmic software provided free of cost (refer last slide details).
- Additional Incentive provided for Retail Client Trades.
Effective from 10th Feb 2014, BSE introduced Maker Taker pricing for Non-LEIPS Products.

Transaction charges on Index and Stock options which are part of Non-LEIPS contracts will be as follows:

- **Passive order** (price maker) to receive Rs.2,400 per crore of premium value
- **Active order** (price taker) to pay Rs.2,500 per crore of Premium Value (inclusive of IPF and TGF charges)

**Passive Orders:** Passive orders are defined as the orders that already exist in the order book at the time of matching (trade taking place).

**Active Orders:** Active orders are defined as those orders that match with passive orders that already exist in the order book at the time of matching (trade taking place).

- Launched Interest Rate Futures (IRF) on 10 Year GOI Bonds on Jan 28, 2014
- Underlying Assets: Interest Rate Derivatives offers trading in following two products:
  - 91-Day T-Bill Futures
  - 10-year G-sec Futures

### Business Benefits to Members

- Membership at no cost and no deposit, At present 120 + registered members
- Low transaction charges: No Transaction charges for one year (wef January 28, 2014)
- Clearing & Settlement by ICCL and Uniform Risk Management & Margin framework

*Total Turnover since launch from 28 Jan 2014 till Jun-14*
Fastest Co-location

- Fastest Co-location service by a Stock Exchange in India with network latency of only 50 microseconds.
- BSE trading system with Low latency (200 microseconds) coupled with high end ALGO servers provide full efficiency to the ALGO trader.
- Order execution round trip latency is only 250 microseconds.
- Market access across Equity, Equity Derivatives and Currency Derivatives segments.
- State-of-the-art Data Centre services from NTT – Netmagic.

BSE Co-location: NTT Netmagic Data Centre

BSE Co-location is entirely managed by a third party service provider - NTT Netmagic. Key technical highlights are:

- 10 Gbps Fibre optic cable connection with BSE trading system with full redundancy
- 24 X 7 operations support
- 24 X 7 High security zone
- Uninterrupted Power Supply with DG back up
- ITIL and ISO 27001 compliant
- FM200 Fire suppression facility
- Global Exchanges’ feed from Thomson Reuters Electron network
- 99.999% uptime

Upgrades in Progress at Co-location

- Low latency switches to be deployed at BSE Co-location gateway.
- Provision to connect members trading servers directly to Co-location switches to further reduce latency.
- Upgrade connection between Members’ Colo Racks and Co-location switches from 1 Gbps to 10 Gbps Fibre.
- Copper links being upgraded to end-to-end Fibre connectivity.
- Low latency Solarflare NIC cards to be provided for trading servers of the members.
For services opted by member, BSE bears the cost on behalf of the member for:
- The software license cost for ALGO trading and market access
- The infrastructure cost on Co-location rack space
- The ALGO trading servers at Co-location
- The internet connectivity between BSE Co-location and member’s office

**ALGO Trading**

Algo Trading software is available from the following vendors for quoting and market making in Futures and Options including auto hedging capabilities across Exchanges and Segments:
- Greeksoft Technologies Pvt. Ltd
- uTrade Solutions Pvt. Ltd
- Omnesys Technologies Pvt. Ltd
