- Material Cost forming $68.6 \%$ of Net Sales decreased by $12.4 \%$ y-0-y to Rs. 647.1 million in Q3 FY17 from Rs. 738.8 million in Q3 FY16. Other Expenses increased to Rs. 172.1 million in Q3 FY17 from Rs. 103.4 million in Q3 FY16. Interest Cost declined to Rs. 27.9 million in Q3 FY17 from Rs. 78.2 million in Q3 FY16. - State Bank of India, being the leader of consortium of banks, has treated its lending facilities to the company as Non-Performing Asset on $28^{\text {th }}$ November, 2015. The reasons for non honouring commitments were insufficient cash flows due to drastic reduction in prices of steel products, cheaper imports to India and slowdown of global economy. As a result, interest on such loan of Rs. 800 million has not been provided in the financial statement for Q3 FY17 which has thus, impacted the profitability for the period under reporting, the said figure not being determinable as of now. Further, other consortium members such as Central Bank of India during April, 2016 and Punjab National Bank during May, 2016 have declared loan disbursed by them amounting to Rs. 58.4 million and Rs. 280 million respectively as nonperforming. As a result, interest component on such loan has not been provided in the financial statement for Q3 FY17. The said figure not being determinable as of now excepting Rs. 3.3 million treated as interest expense for the month of April, 2016 in respect of Ioan of Punjab National Bank, the above has an impact on the profitability of the quarter under reporting.
