1. We have reviewed the results of Welspun Corp Limited (the "Company") for the quarter ended September 30, 2015 which are included in the accompanying 'Unaudited Standalone financial results for the quarter/half year ended September 30, 2015' and the statement of assets and liabilities as on that date (the "Statement"), except for the disclosures regarding 'Public Shareholding' and 'Promoter and Promoter Group Shareholding' which have been traced from disclosures made by the Management but have neither been reviewed nor been audited by us. The Statement has been prepared by the Company pursuant to Clause 41 of the Listing Agreement with the Stock Exchanges in India, which has been initialled by us for identification purposes. This Statement is the responsibility of the Company's management and has been approved by the Board of Directors. Our responsibility is to issue a report on the Statement based on our review.
2. We conducted our review in accordance with the Standard on Review Engagement (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Institute of Chartered Accountants of India. This Standard requires that we plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatement.
3. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit and, accordingly, we do not express an audit opinion
4. We have only traced the disclosures regarding 'Public Shareholding' and 'Promoter and Promoter Group Shareholding' in the Statement from the disclosures made by the Management and are, therefore, not expressing a review opinion thereon.
5. ### **Business outlook:**

Even amidst challenging business conditions in the world markets and the energy segment slowly settling down with "Lower for Longer" prices, we are cautiously optimistic on the demand outlook over the coming year. This optimism stems from the fact that with the fall in energy prices, customers are becoming more sensitive to transportation costs and prefer pipelines over other transportation modes.

Americas bid pipeline continues to be positive. Over last few years, energy usage patterns have seen a significant shift in favour of natural gas and away from oil.

Demand in MENA region is being driven by multiple levers including Iraq, parts of Africa, gas and water pipeline projects in Saudi Arabia.

Domestic pipe market demand in India is dominated by the water transmission, in the near term, with numerous water supply projects under implementation by various state Governments. Project work commencement on the proposed 15,000 km of gas pipeline would further add to the domestic opportunity.

---

For Plate & Coil Division, slab availability has improved over past few months enabling us to increase our capacity utilization and providing us competitive advantage in a few domestic market segments.
