Management Discussion and Analysis:

Industry Structure and Development:

Healthcare has become one of India's largest sectors - both in terms of revenue and employment. Healthcare comprises hospitals, medical devices, clinical trials, outsourcing, telemedicine, medical tourism, health insurance and medical equipment.

India's competitive advantage lies in its large pool of well-trained medical professionals. India is also cost competitive compared to its peers in Asia and Western countries. The cost of surgery in India is about one-tenth of that in the US or Western Europe.

The overall Indian healthcare market worth is around US\$ 100 billion and is expected to grow to US\$ 280 billion by 2020, with a Compound Annual Growth Rate (CAGR) of 22.9 per cent. Healthcare delivery, which includes hospitals, nursing homes and diagnostics centres, and pharmaceuticals, constitutes 65 per cent of the overall market.

There is a significant scope for enhancing healthcare services considering that healthcare spending as a percentage of Gross Domestic Product (GDP) is rising. Rural India, which accounts for over 70 per cent of the population, is set to emerge as a potential demand source.

India requires 600,000 to 700,000 additional beds over the next five to six years, indicative of an investment opportunity of US\$ 25-30 billion. Given this demand for capital, the number of transactions in the healthcare space is expected to witness an increase in near future. The average investment size by private equity funds in healthcare chains has already increased to US\$ 20-30 million from US\$ 5-15 million.

A total of 3,598 hospitals and 25,723 dispensaries across the country offer AYUSH (Ayurveda, Yoga & Naturopathy, Unani, Siddha and Homoeopathy) treatment, thus ensuring availability of alternative medicine and treatment to the people.

The Indian medical tourism industry is pegged at US\$ 3 billion per annum, with tourist arrivals estimated at 230,000. The Indian medical tourism industry is expected to reach US\$ 6 billion by 2018, with the number of people arriving in the country for medical treatment set to double over the next four years. With greater number of hospitals getting accredited and receiving recognition, and greater awareness on the need to develop their quality to meet international standards, Kerala aims to become India's healthcare hub in five years.

Rising income level, greater health awareness, increased precedence of lifestyle diseases and improved access to insurance would be the key contributors to growth.

The private sector has emerged as a vibrant force in India's healthcare industry, lending it both national and international repute. It accounts for almost 74 per cent of the country's total healthcare expenditure.

Further, presence of world-class hospitals and skilled medical professionals has strengthened India's position as a preferred destination for medical tourism.

Opportunities and Threats

The Indian healthcare sector is growing at a brisk pace due to its strengthening coverage, services and increasing expenditure by public as well as private players.

There is a significant scope for enhancing healthcare services considering that healthcare spending as a percentage of Gross Domestic Product (GDP) is rising. Rural India, which accounts for over 70 per cent of the population, is set to emerge as a potential demand source.

Increase in Competitive intensity due to new entrants, Increased cost of resources, discontinuation of leases etc. are some major threats associated to the healthcare industries.

Segment-wise or product-wise performance

Your Company operates in only one segment i.e. Eye Care and Related Activities.

Sector Outlook

The overall Indian healthcare market worth is around US\$ 100 billion and is expected to grow to US\$ 280 billion by 2020, a Compound Annual Growth Rate (CAGR) of 22.9 per cent. Healthcare delivery, which includes hospitals, nursing homes and diagnostics centres, and pharmaceuticals, constitutes 65 per cent of the overall market.

Rising population, growing awareness of health, willingness to pay for good quality of healthcare services, Competitive cost advantages are some of the factors favouring Healthcare sector.

LOTUS EYE HOSPITAL AND INSTITUTE LIMITED

Presence of world-class hospitals and skilled medical professionals has strengthened India's position as a preferred destination for medical tourism.

The Government of India aims to develop India as a global healthcare hub. It has created the National Health Mission (NHM) for providing effective healthcare to both the urban and rural population. The Government is also providing policy support in the form of reduced excise and customs duty, and exemption in service tax, to support growth in healthcare.

Risk and Concerns

i. Competition:

The competition from the un-organized sector would be met by delivering quality eye care services at par with international standards which the un-organized sector lacks in view of constraints in investment to create a quality eye hospital.

Because of increased opportunities, many private players are entering into this sector. Your Company can counter this challenge by providing focused eye care delivery and by deploying the state of the art equipments backed by panel of expert Doctors.

ii. Shortage of skilled manpower:

Increasing demand for health care services combined with the aggressive expansion by the Indian private health care players is expected to significantly increase the demand for medical professionals. Similarly there is a shortage of medical and para-medical staff. We have a talented and skilled manpower in terms of Doctors, Nurses and para-medical staff. We continue to attract talented and skilled medical professionals.

iii. Investment:

The health care sector is a capital intensive sector and need significant funding to grow.

iv. Regulatory Risk

The evolution of the global regulatory environment has resulted in increased regulatory scrutiny that has raised the minimum standards to be maintained. This signifies the alignment of corporate performance objectives, while ensuring compliance with regulatory requirements.

v. Increased cost of resources

Failure to acquire resources at fair and reasonable rates and increase in operating expenses may impact the Company's growth and financials.

ANNEXURE 'B' TO INDEPENDENT AUDITORS' REPORT

(Referred to in paragraph 2 (f) under 'Report on Legal and Regulatory Requirements of our report of even date)

Report on the Internal financial controls Over Financial Reporting under clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of **LOTUS EYE HOSPITAL AND INSTITUTE LIMITED** (Formerly Lotus Eye Care Hospital Limited) ('the Company') as of 31st March 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of internal Financial controls over Financial Reporting (the "Guidance Note") issued by ICAI and standards on Auditing prescribed under section 143(10) of the companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and disposition of the assets of the company; (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of the management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company assets that could have a material effect on the financial statements.

LOTUS EYE HOSPITAL AND INSTITUTE LIMITED

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the Inherent Limitations of Internal Financial Controls Over Financial Reporting, including the possibility collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2017 based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
