

PRESS STATEMENT

"We are diligently working with the Food Safety and Standards Authority of India (FSSAI) to provide the technical information relating to our pending applications that they have requested. We import globally standardised product ingredients, with all applicable authorisations, and these are identical to the products that are served to our customers in over 60 countries where Starbucks operates. As a premium global retailer, Starbucks has the highest standards for the experience, beverages and food we offer our customers, and we are committed to complying with the regulations in every market we operate in".
