Global Comparison in terms of PV per thousand people ⁽¹⁾

- Strong prospects in the long-term. Growth to be driven by increase in income of households and higher passenger vehicle penetration
- Small Cars to drive growth in the long term due to higher aspiration levels led by economy recovery and lower cost of ownership
- With 17 cars per 1000 people, India's potential is greater
- MHCV goods vehicle sales in the long term to be supported by growth in economic activity, export-import and freight traffic, construction activities etc.
- Demand for LCVs in the long term to be fuelled by increase of hub-and-spoke model, growth of organised retail, rising consumption expenditure and improvement in rural road infrastructure
