NBCC might buy 4 smaller PSUs from govt

ARUP ROYCHOUDHURY
New Delhi, 13 February

ON THE AGENDA

- Govt looking to sell NPCC, EPIL, Hindustan Prefabs, HSCC
- DIPAM issued ads, RFPs for advisors to help in sale
- DIPAM plans 'strategic disinvestment through merger with similarly placed CPSE'
- Publicly-listed NBCC could scoop up these companies
- Govt planning a glut of M&A activity among PSUs to shore up disinvestment numbers

State-owned construction and real estate company NBCC Ltd might buy four smaller public sector enterprises engaged in similar activities. This could be the first of many mergers and acquisitions by state-owned companies in 2017-18 as the Narendra Modi government looks at consolidation to shore up revenues from disinvestment. The four smaller firms which NBCC, a listed 'Navratna' company with a market cap of ₹16,980 crore as of Monday, could buy are Hindustan Prefab, Engineering Projects India Ltd, NPCC Ltd, and HSCC Ltd. The Centre owns 75 per cent stake in NBCC and a 100 per cent stake in others.

The finance ministry's department of investment and public asset management (DIPAM) has advertised for legal and financial advisors to help in what it calls 'strategic disinvestment through merger with similarly placed CPSE' of the four unlisted companies. It should be noted that DIPAM had earlier planned strategic sales of 100 per cent of these companies separately from each other.

While officially it is up to the advisors to come up with a prospective buyer among large PSUs, senior government sources say that NBCC is the one likely to buy the four companies as there is 'synergy'.

"These companies are involved in construction and project management consultancy. There are synergies, which can be combined to create a larger PSU that leads in its sector," said an official.

Hindustan Prefab builds primarily prefabricated components for railway projects, Engineering Projects does turnkey projects, NPCC is involved in irrigation and hydel projects, while HSCC is concerned with healthcare infrastructure.

In his 2017-18 Union Budget speech on February 1, Finance Minister Arun Jaitley said that the government saw "opportunities to strengthen" PSUs through consolidation, mergers and acquisitions. He gave the example of the oil and gas sector. "We propose to create an integrated public

sector 'oil major' which will be able to match the performance of international and domestic private sector oil and gas companies."

Economic Affairs Secretary Shaktikanta Das had told *Business Standard* that the details of the merger among energy PSUs could be announced very soon. However, NBCC's merger with four PSUs could be the first one off the block.

While technically this would help the government meet its disinvestment target of ₹72,500 crore in 2017-18, the fact is that such kinds of mergers would lead to listed PSUs paying the government to buy unlisted ones.

"It is more of a balancing act. Rather than going the whole hog and selling off companies and assets to private players, the Centre may be looking at consolidation. Selling stakes to private companies has not always been successful. Vedanta's troubles with Balco are an example," said Navin Agrawal, Partner and head of PSU advisory, KPMG India.

"The efforts here could be to try and make the PSU books look good, maybe consolidate and reduce the number of loss-making PSUs," Agrawal said.

As reported in *Business Standard* earlier, some other sectors in which the Centre could consider mergers among PSUs could be power, chemicals, diversified manufacturing, mining and steel.

HM workers ready for VRS after Ambassador sale

AVISHEK RAKSHIT
Uttarpara, 13 February

Faced with an uncertain future, the remaining 450-odd workers at the Uttarpara plant of Hindustan Motors — from where the iconic Ambassador once rolled out — are ready to opt for a fresh voluntary retirement scheme (VRS), provided the compensation is better than what was offered in the past.

According to some of them *Business Standard* met on the shabby premises of the factory township, the sale of the Ambassador brand seals the fate of the factory that stopped producing in 2014, once and for all. Uttarpara is around 20km west of Kolkata.

Workers' mistrust with the management as well as the trade unions has grown over the past two years. Neither have the unions been able to successfully pursue the company management to clear workers' dues and obtain better compensation, nor has the management addressed the appalling living conditions inside the factory township.

A majority of workers, whose monthly earnings after the factory closed down in May 2014 has dwindled by over 50 per cent as they took up other jobs, are of the opinion that the management can offer "better than before".

They want ₹4-5 lakh as compensation and clearance of all pending dues, including gratuity, at a single

go, which will prompt them to strike off their names from the company's roll book and vacate the quarters.

"Since the management has received ₹80 crore from the sale of the Ambassador brand, they can now look forward to clearing the dues and offer a better VRS package," Jamil Nawaz, who used to work as a factory supervisor, said. In all the previous three tranches of VRS, Hindustan Motors had offered ₹1 lakh as one-time compensation.

"While those who opted for the first tranche had received the money, people from the other two tranches are yet to receive their dues," C Singh, who joined the company in 1981 and survived the previous three VRS tranches, said.

Toll tax on cartons: Kashmir fruit industry to face heat

Fruit growers/dealers write to CM

SAQIB MALIK

Srinagar, Feb 13: Miffed at the "exorbitant" increase in toll tax on cardboard boxes, Kashmir Valley Fruit Growers Cum Dealers Union (KVFGDU) Monday wrote a letter to Chief Minister Mehbooba Mufti apprising her that the step would adversely impact the growers/exporters. As per notification dated 1.2.2017 issued by Finance department, the toll tax on "import of cardboard boxes has been increased from Rs 80 to Rs 175 per quintal." The growers and exporters said it will directly hit their business. Bashir Ahmad Basheer, Chairman, KVFGDU said the increase will make each carton (used for packaging of fruit) dearer by almost one rupee fifty paise. "Not just the apple, it will also badly impact the export of cherry, peach, plum, grapes and other fruits. "There is no alternative to this form of packaging. Instead of encouraging the growers

and supporting the horticulture industry, the state government is adding to our woes. "Even as the Kashmir fruit industry is still grappling with the post-flood and post-unrest situation, there is now this order by the government. "Apart from the toll tax, 14.5 per cent VAT is already being charged on import of molded trays used for packaging of apples. The tax component in J&K on these trays constitutes more than what is its total price in some other states. "We hope government would bring down the VAT and roll-back the toll tax," Basheer said. To mention, despite presence of several local carton manufacturing units, Kashmir fruit industry is heavily dependent on cardboard boxes imported from states such as Punjab, Delhi and Gujarat etc. For the local carton manufacturers, raw material which is imported from outside states has also seen increase in toll tax which will make the locally made boxes dearer as well, Basheer said.

Giving details it said the variety derived from European material from Yugoslavia has cold tolerance and early maturity. "Presently an area of about 8000 ha is covered under the variety." Meanwhile, Governor NN Vohra, Chancellor SKUAST-K has congratulated Prof Nazeer Ahmed, Vice Chancellor of the University and the team of researchers on being awarded. The award was received by Prof M Y Zargar, Director Research of the university on behalf of the scientists.
