Management Commentary

Commenting on the results, **Mr. Partha DeSarkar, CEO, Hinduja Global Solutions Limited** said:

“Financial year 2015 was an exciting year for us from an operations standpoint. Compared to FY 2014, revenues increased by around 12% in rupee terms, and 12.8 % in constant currency terms. This growth was achieved despite the impact of portfolio rationalization coupled with unfavorable foreign exchange variations. The growth was primarily driven by our healthcare vertical, but it is encouraging to report that our other verticals performed as per our expectations. All our geographies, except Canada continued their growth momentum. Our Canada operations had strong volume demand but the prevailing labor issues and adverse weather conditions impacted our client servicing capability. However, we believe this is a short term phenomenon and have taken necessary steps to overcome these challenges.

During the year, we undertook certain initiatives to widen our footprint and strengthen our capabilities. HGS MENA set up a marketing office in Dubai to capitalize on the opportunities in the region and the prospects are very encouraging. In March 2015, we acquired Colibrium, an innovation leader in delivering multi-channel sales, service and wellness automation to health plans. This acquisition in the US market complements and enhances our already strong healthcare payer servicing platform.

We believe the various strategic initiatives coupled with the expansion of facilities strengthen the foundation for sustained growth for HGS in the long term. These steps are anticipated to grow and have a meaningful impact from the second half of FY2016. The continuous improvement in performance of all the geographies coupled with gradual recovery of the European operations gives us confidence to continue the growth momentum.”

Business Highlights for the Year

- The US operation received an off-shoring opportunity from an existing consumer electronics client for Spanish language support from Philippines
- The Canadian operations performance remained soft due to prevailing labor market conditions and snow storm. However, demand from existing clients increased significantly
- The UK and Europe operation experienced significant expansion in business opportunity and improvement in profitability. Continues to add clients in the key verticals such as the public sector, CPG and telecom
- The Philippines operation's sales pipeline continues to remain strong and is expected to continue the growth momentum
- India International operation received a new line of business on the enterprise segment from an existing telecom client, which is expected to result in increased revenues in FY2016
- India Domestic operation received a contract for customer support from Bangalore and Mumbai for an existing UK based leading international FMCG and food company
- Established a marketing office in the Dubai Internet City with the objective to build sales pipeline. Demand trend from MENA region is encouraging and the operation has started adding new clients
- HGS Canada was awarded the Global Stevie award for the "Best Call Centre in Operational Excellence"
- As of March 31, 2015, HGS had 171 active clients (excluding payroll processing clients)
- As of March 31, 2015, total headcount was 28,435, of which 56% were based in India, 21% in Philippines, 9% in the US, 10% in Canada and the remaining 4% in Europe
