

Press Release

Global launch of Premium Hatchback Baleno

*“Liquid Flow” design, plush roomy interiors and class-leading features are among the highlights
Dual airbags and ABS provided in all Baleno variants*

New Delhi, October 26, 2015: India’s leading passenger vehicle company, Maruti Suzuki India Limited announced the global launch of its premium hatchback, Baleno, here today.

The car comes with two engine options, both offering best-in-class fuel efficiency: the acclaimed DDiS 190 diesel engine (1.3 litre) with a fuel efficiency of 27.39 km/litre and the proven VVT Petrol (1.2 litre) with a fuel efficiency of 21.4 km/litre. Baleno also comes with a CVT option (Continuously Variable Transmission) in the petrol variant.

Dynamic, energetic and premium, Baleno is packed with features (*refer to box*), many of them being offered for the first time in the premium hatchback segment.

Brand New Platform

Baleno has won praise from experts for its superior ride and handling, safety, fuel efficiency and low vehicle noise and harshness. It is built on a brand new Suzuki platform which is lighter (by 100 kg), stronger (by 10%) and more rigid compared to existing platforms in the industry.

At the introductory price announced by Maruti Suzuki today, Baleno offers substantially more value to customers and is set to redefine the premium hatchback segment in the country.

Baleno will be sold through NEXA, the new chain of premium exclusive automotive retail outlets recently launched by Maruti Suzuki.

World Car

To be manufactured exclusively in India, Baleno will be sold in over 100 countries.

Managing Director & CEO, Maruti Suzuki, Mr. Kenichi Ayukawa said: *“Baleno comes with sophisticated design and advanced technology. A lighter but stronger platform has helped our engineers offer best-in-class fuel efficiency in petrol as well as diesel options. Further, ABS and dual airbags are offered as standard in all variants of Baleno.”*

He added: *“Baleno is a real global model, to satisfy our customers not only in India but also across global markets. I am excited that this model will be exported to Japan from India, opening a new chapter in the long history of*
