The existing plant(s) are running at their full capacity (except routine maintenance shutdown) and the rationale for this capacity addition is increase in cane availability in our area.

- b) **Chlor Alkali business at Bharuch(Gujarat) and Kota (Rajasthan)** - Investment estimating to Rs. 97.9 Crores for increase in existing capacity from 1425 TPD(including 80 TPD under implementation, to be commissioned by September 2018) to 1655 TPD. The project is likely to be commissioned by September 2019. The existing plants are running at their full capacity (except routine maintenance shutdown) and the rationale for this capacity addition is to meet growing demand. This expansion will help in maintaining market and deriving economies of scale.
- c) **Power Plant at Kota (Rajasthan)** - Investment estimating to Rs. 240 Crores to install a new 66 MW power plant to replace existing old/inefficient 50 MW plants and provide additional 16 MW captive power for caustic soda expansion. Accordingly, the existing capacity shall increase from 133 MW to 149 MW. The project is likely to be commissioned by September'2019. The existing plants are running at their full capacity (except routine maintenance shutdown). The capacity addition is required because the existing plants are very old and outlived life.

All the above projects are to be financed through internal generations and debts.

The Board also took note of the completion of tenure of Dr. N.J. Singh as Whole Time Director(EHS) of the Company w.e.f. 19.11.2017(close of business hours) and his unwillingness to continue as Director of the Company w.e.f 19.11.2017 vide his resignation letter dated 6.11.2017.
