Sub: Brief profile of Director in compliance of Regulation 30 read with Schedule III of Listing Regulation, 2015.

Ref.: ISIN No. INE848E01016

Sirs,

In continuation to our letter no. NH/CS/199 dated 01.04.2016 for appointment of Shri Balraj Joshi as Director (Technical) on the Board of NHPC Ltd with effect from 01.04.2016.

Please find enclosed herewith brief profile of Shri Balraj Joshi in compliance with regulation 30 of LODR, 2015 read with Para A of Part A of Schedule III of Listing Regulation.

This is for your record and information.

Thanking you.

Encl: a/a

Yours faithfully,

(Vijay Gupta)
Company Secretary

Shri Balraj Joshi has recently taken over as Director (Technical) of NHPC Limited, India's premier hydropower utility and a Schedule 'A' enterprise of Government of India on 1st April 2016.

Prior to his appointment as Director (Technical), he held the position of Executive Director, (Design & Engineering), NHPC.

Born on 21st December, 1959, Shri Joshi holds a degree in Civil Engineering from Govt. Engineering College, Karad, Maharashtra. He also holds PG Qualification in Hydropower development and planning from the prestigious Norwegian Technical Institute, Trondheim, Norway under NORAD Scholarship.

During his distinguished career spanning over 33 years in NHPC, Shri Joshi scaled new heights and contributed to NHPC's development by serving in many projects namely Salal, Dul Hasti, Kurichu Project (Bhutan), Teesta-V, Teesta Low Dam-III & IV, Parbati-III, Chutak, Chamera-III, Parbati-II etc. and rose to the position of Executive Director. He has also been associated with NHPC's Consultancy assignments for many projects as 1200 MW Tamanthi and 880 MW Shwezaye in Myanmar, 720 MW Mangdechhu, Bhutan & Bakreswar thermal power project of M/s West Bengal Development Corporation etc. He has also represented NHPC at International Court of Arbitration at 'The Hague' for Kishanganga Project. In an outstanding display of commitment Shri Joshi successfully undertook the highly challenging work of resurrecting the Dhauliganga Power Station (280MW) after its flooding in 2013.
