Specialized School Security initiated by Zicom to address the current crisis in educational institutions

- *Zero Investment Zero Management*
- *Announces free Security Audits in educational institutes who have approached Zicom in the past.*
- *Offers verification of teaching, non-teaching staff as well as visitors free of cost to Schools who have Zicom Systems.*

Mumbai, 18 September 2017: In the wake of the recent crimes against children in leading private and public schools across major metros in India, it is the need of the hour to step up security in educational institutes across the country. Zicom Electronic Security Systems Ltd, a pioneer in the field of Electronic Security in India, has offered its services to make educational institutes safer for children across India through its subsidiary, Zicom SaaS Pvt. Ltd.

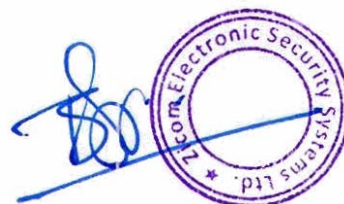

A leader in the security domain, Zicom strives to provide and ensure all round security and therefore peace of mind to all its customers.

The Specialized School Security Solutions involves Proactive Monitoring of your Security Devices so that the System functions when you need it the most.

The company has launched

- Real Time CCTV Monitoring Service wherein the school authorities get to know if any camera is not functioning or if the recording is not happening or if the system is unplugged.
- Real time bus tracking Service wherein you can track the child when they board the bus and when they disembark. Parents can know the whereabouts of the school bus and are informed real time about the location of the bus along with pick up and drop updates of their child via Android or iOS notifications. A panic button allows school authorities to be informed in case of an emergency.
- Fire Monitoring Service to check in case smoke is emanating from anywhere
- Attendance Monitoring on the cloud for students as well as staff
- Aadhar Verification Service of the teaching and non teaching staff not excluding the outsourced staff of the school.

These Monitoring Services convert passive security systems into active deterrent as they all are connected to an Advanced 24 x 7 Emergency Response Service "Zicom Command Centre." The Command Centre monitors all the devices and are trained to act in event of crisis. The Command Centre currently monitors around 1 million devices across the country.

Distinctive innovations keeping unique situations and needs of customers in mind, Zicom's all – round security services can be adopted and implemented by education institutes across India to ensure the safety of all school going children.

Promoter and Managing Director of Zicom Electronic Security Systems Ltd, Pramoud Rao said, "The safety of school children is a mounting concern for the country today. While the Supreme Court is acting fast to set guidelines for the safety of children in schools across India, we have introduced Specialized School Security which can offer safety and security to children from the time they leave their homes till the time they enter home."

With a history of offering high quality products and solutions to the most complex projects in the country, the name Zicom has now become synonymous with electronic security in India. While talking about the services, Rao also added, "Zicom is also offering a free security audit of educational institutes who have approached Zicom in the past across India. To those institutes who have Zicom security services and would like to ensure that they leave no stone unturned for the security of their children, Zicom also has offered to conduct an Aadhar Verification Service free of cost as to verify teaching staff, non-teaching staff as well as visitors."
