TCS Achieves AWS Automotive Competency

Tata Consultancy Services Offers Comprehensive Cloud-Based Automotive Services and Solutions that Help Clients Accelerate Innovation, Provide Superior Customer Experiences and Drive Growth

NEW YORK | MUMBAI, September 18, 2023: Tata Consultancy Services (TCS) (BSE: 532540, NSE: TCS) has achieved the Amazon Web Services (AWS) Automotive Competency. This designation recognizes TCS as an AWS Premier Consulting Partner with demonstrated expertise and proven customer success in providing consulting services and software solutions on AWS to accelerate the digital transformation of clients in the automotive industry.

TCS offers a comprehensive portfolio of automotive services across the value chain for global automotive manufacturers. It helps automotive customers design and develop smart, safe, and connected products and ecosystems, utilizing its deep domain knowledge, global services experience in consulting, embedded software, hardware electronics, mechanical engineering, infrastructure services, data management, automation, artificial intelligence and machine learning (AI/ML), and analytics.

A dedicated research team focuses on developing new methodologies in automotive services and processes to innovate faster and adopt new trends and technology advancements. TCS' Neural Automotive and Industrial Experience Center in Troy, Michigan, helps customers reimagine their businesses and accelerate innovation. The new center provides customers and partners access to the latest technologies to experiment, co-innovate, build prototypes, and take them from lab grade to industry grade solutions.

Additionally, the center provides customers with access to the cutting-edge research and innovation being carried out at the various TCS Pace Ports, as well as to the larger start-up ecosystem which is part of TCS' Co-Innovation Network.

Further, TCS has invested in building proprietary accelerators for the sector. TCS' Mobility Cloud suite is a rich toolbox of cloud-enabled, ready-to-deploy, automotive-specific solutions, digital frameworks, custom solutions, accelerators, and use cases to help automotive manufacturers and suppliers adapt to the rapid changes in their industry, innovate and expand their ecosystems. These curated offerings help clients embrace digital technologies and new business models across the entire mobility value chain—from product design and manufacturing to sales and warranty, as well as new ecosystem partnerships.

*"We have been working with TCS Smart Mobility group over the last 2 years and TCS has demonstrated its deep domain expertise in autonomous vehicle development and validation and was able to handle multi-sensor fusion data at scale leveraging AWS cloud services that is needed to innovate, accelerate, and scale the development of TierIV AV stack based on Autoware," said **Christian John, President, Tier IV North America**. "Congratulations to TCS on achieving this new competency designation. They are a strategic partner of choice, and we look forward to expanding our work together as we continue to innovate in the AV space."*

*"TCS is pleased to achieve the AWS Automotive Competency. We use our deep domain knowledge, technology expertise, investments in research and innovation, and large portfolio of intellectual property to help leading automotive companies leverage cloud and other digital technologies to drive their growth and transformation and enhance competitive differentiation," said **Partha Reddy, Head, Manufacturing, Energy and Resources, TCS Americas**.*

TCS partners with clients in their cloud transformation journeys using the deep expertise, contextual knowledge and execution experience of its domain experts and over 17,000 AWS-certified engineers. It has made significant investments in building an industry-leading portfolio of solutions, products and toolsets, available on AWS, to enable accelerated time to value.

TCS' AWS Business Unit is a full-stack, multidisciplinary group that offers enterprise customers end-to-end

services and solutions around cloud migration, application, and data modernization, managed services, and industry-specific innovation on AWS. TCS is an AWS Premier Tier Services Partner, AWS Managed Service Provider, AWS Public Sector Partner, AWS Solution Provider, AWS Well-Architected Partner, and has achieved over 25 AWS Competency and AWS Service Delivery validations.
