TOTAL - ASSETS	14,183.89	12,774.49

3 Project construction activities are in line with the estimated targets of the Management.

4 The Company is engaged in power generation and the setting up of power projects for generating, transmitting and supplying all forms of electrical energy and to undertake allied/ incidental activities. Considering the nature of the Company's business and operations, the company has one reportable business segment i.e. "Power generation and allied activities" and operates in one geographical segment, i.e. "within India". Hence, no separate information for segment wise disclosure is given in accordance with the requirements of Accounting Standard 17 - 'Segment Reporting', as specified under Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014.

5 The figures for the quarter ended March 31, 2016 and March 31, 2015 are the balancing figures between audited figures in respect of the full financial year and the year to date figures upto the third quarter ended December 31, 2015 and December 31, 2014 respectively.

6 During the quarter ended March 31, 2016, the Company has revised the estimated useful lives of its plant and equipment consisting of Project assets used in generation of power with effect from April 1, 2015, based on an independent technical study and evaluation of useful lives of such assets conducted in this regard, and management's assessment thereof. Consequently, the depreciation charge for the quarter and year ended March 31, 2016 is lower by Rs. 96.86 Crores. Consequently, the figures in respect of depreciation charge of the quarter and year ended March 31, 2016 are not directly comparable with the corresponding previous quarter and previous year.

7 The Company was restrained from sourcing the shortfall on account of linkage coal through alternate sources, as was required pursuant to the decision of the Cabinet Committee on Economic Affairs of June 2013, followed by change in the National Coal Distribution Policy and direction from the Ministry of Power to the regulatory commissions in July 2013. Further, as per the Power Purchase Agreements ("PPAs") entered into between the Company and Maharashtra State Electricity Distribution Company Limited ("MSEDCL"), MSEDCL was to make arrangements for evacuation of entire contracted capacity of 1200 MW. However due to transmission constraints, MSEDCL could arrange for evacuation of only 750 MW. As a result of the above, during the year, the Company has raised its claim estimated at Rs. 396.89 Crores with MSEDCL in respect of resultant unscheduled units and is in the process of filing its petition for the same with the appropriate authority. Consequently, the same has not been recognized in the financial statements.

8 During the quarter ended March 31, 2016, an aggregate of 218,910 Equity shares of face value Rs. 10/- each in RattanIndia Masik Power Limited (RNPL), a wholly owned subsidiary of the Company, were issued and allotted in favour of the Company at a premium of Rs. 885/- per share.

9 Previous period/ year's figures have been regrouped/ reclassified wherever considered necessary.
