Dear Sirs,

**Tata Power strengthens its Renewable portfolio;
successfully commissions 44 MW Lahori wind farm project in Madhya Pradesh**

The Company, today, announced the successful commissioning of its 44 MW Lahori wind farm project, located in Shajapur district of Madhya Pradesh. Tata Power has developed this project through its 100% subsidiary, Tata Power Renewable Energy Limited (TPREL). With this addition, Tata Power's total installed capacity now stands at 9,183 MW, besides 2 million customers it serves through retail power distribution.

The 44 MW Lahori wind farm project is expected to generate approximately 84 million units (MUs) per year. TPREL also has a further 500 MW of wind capacity under development and construction in the states of Gujarat, Andhra Pradesh, Madhya Pradesh and Karnataka. The company continues to pursue avenues to add clean and renewable energy generation capacities to increase its portfolio.

The Press Release to be issued by the Company is attached for your ready reference.

Yours faithfully,
For The Tata Power Company Limited

(H. M. Mistry)
Company Secretary

Encl.

Tata Power strengthens its Renewable portfolio; successfully commissions 44 MW Lahori wind farm project in Madhya Pradesh

~ Total installed capacity stands now at 9183 MW ~

~ Current installed non-fossil fuel capacity is 1674 MW ~

National, April 28th, 2016: Tata Power, India's largest integrated power company, today announced the successful commissioning of its 44 MW Lahori wind farm project, located in Shajapur district of Madhya Pradesh. Tata Power has developed this project through its 100% subsidiary, Tata Power Renewable Energy Limited (TPREL). With this addition, Tata Power's total installed capacity now stands at 9,183 MW, besides 2 Million customers it serves through retail power distribution.

The 44MW Lahori wind farm project is expected to generate approximately 84 million units (MUs) per year. TPREL also has a further 500 MW of wind capacity under development and construction in the states of Gujarat, Andhra Pradesh, Madhya Pradesh and Karnataka. The company continues to pursue avenues to add clean and renewable energy generation capacities to increase its portfolio.

Speaking on the commissioning, **Mr. Anil Sardana, MD and CEO, Tata Power**, said, *"The commissioning of 44 MW wind farm project fortifies Tata Power's vision of generating significant percentage of its total generation capacity from clean energy sources. The project is a clean energy project, which will enhance and increase the Company's clean energy footprint, across its value chain. This is our fourth wind asset and we are in constant look out for similar opportunities in respect of wind and solar plants. This is yet another step towards the Company's commitment to sustainability and contribute towards building the nation, stronger."*

TPREL proposes to grow its capacity through organic and inorganic means over the next few years. TPREL's strategy emphasizes the development of clean energy generation from non-fossil fuel and renewable energy sources to balance the carbon emissions from fossil fuel based generation capacity while contributing towards energy security of the country.

About Tata Power:

Tata Power is India's largest integrated power company with a growing international presence. The Company together with its subsidiaries and jointly controlled entities has an installed gross generation capacity of **9183 MW** and a presence in all the segments of the power sector viz. Fuel Security and Logistics, Generation (thermal, hydro, solar and wind), Transmission, Distribution and Trading. It has successful public-private partnerships in Generation, Transmission and Distribution in India namely "Tata Power Delhi Distribution Limited" with Delhi Vidyut Board for distribution in North Delhi, 'Powerlinks Transmission Ltd.' with Power Grid Corporation of India Ltd. for evacuation of Power from Tala hydro plant in Bhutan to Delhi and 'Maithon Power Ltd.' with Damodar Valley Corporation for a 1050 MW Mega Power Project at

Jharkhand. Tata Power is serving more than 2 million distribution consumers in India and has developed the country's first 4000 MW Ultra Mega Power Project at Mundra (Gujarat) based on super-critical technology. It is also one of the largest renewable energy players in India with a clean energy portfolio of 1630 MW. Its international presence includes strategic investments in Indonesia through a 30% stake in the leading coal company PT Kaltim Prima Coal (KPC), 26% stake in mines at PT Baramulti Suksessarana Tbk ("BSSR") and a geothermal project; in Singapore through Trust Energy Resources to securitize coal supply and the shipping of coal for its thermal power generation operations; in South Africa through a joint venture called 'Cennerg' to develop projects in sub-Sahara Africa; in Zambia through 50:50 joint venture with ZESCO for 120 MW Hydro which has become operational in 2016; in Georgia through AGL which is a joint venture with Clean Energy, Norway & IFC for development of 185 MW hydro project which is scheduled to be commissioned in 2016; in Australia through investments in enhanced geothermal and clean coal technologies and in Bhutan through a hydro project in partnership with The Royal Government of Bhutan. With its track record of technology leadership, project execution excellence, world class safety processes, customer care and driving green initiatives, Tata Power is poised for a multi-fold growth and committed to 'lighting up lives' for generations to come".
