- Suzlon Energy Limited and its identified domestic subsidiaries and a jointly controlled entity (collectively 'the Group') and the CDR lenders executed a Master Restructuring Agreement ('MRA') during the financial year ending March 31, 2013. The MRA as well as the provisions of the Master Circular on Corporate Debt Restructuring issued by the Reserve Bank of India, gives a right to the CDR lenders to get a recompense of their waivers and sacrifice made as part of the CDR Proposal. The Company is in negotiation with CDR lenders for a voluntary exit from the CDR scheme. The amount payable by the Company as recompense is dependent on various factors and also on discussions and negotiations with the CDR lenders. The Group has recognised recompense liability payable to CDR lender based on reasonable estimate and accordingly, the Emphasis of Matter paragraph included by the auditors in the previous several quarters in the consolidated and standalone financial results has been removed.
- Suzlon Energy Limited and its three Indian subsidiaries and a jointly controlled entity (collectively 'the Group') are obligors under the Onshore SBLC Facility Agreement and have provided security under the Offshore SBLC Facility Agreement in connections with a SBLC issued by State Bank of India of USD 655 Million for securing the credit facility and covered bonds availed by AE Rotor Holding B.V.(AERH), a step-down wholly owned subsidiary of the Company. The Group has classified the Onshore facility availed as a financial guarantee contract. AERH has a borrowing of USD 626 million as at March 31, 2017, which is due for repayment in March 2018, as per original schedule. The Group has obtained No Objection Certificate from the SBLC lenders as well as approval from Reserve Bank of India for extension of SBLC from April 2018 to April 2023. The Group believes that based on the strength of extended SBLC, the outstanding borrowing of AERH can be extended/refinanced by the existing lenders or by new lenders. AERH and its subsidiaries are engaged in dealing of WTGs in international markets and the cash-flows generated from these business activities will be used for serving the finance cost as well as towards part repayment of outstanding debt of AERH. The ability of AERH to repay the outstanding debt is primarily dependent on generation of cash-flows from business operations in overseas market. The Company management believes that AERH has reasonable business forecast over the next few years and estimates that AERH will be able to refinance the outstanding debt, if required and meet the debt obligations as and when they fall due and hence they believe that the financial guarantee obligation of USD 538 Million is not required to be recognised in financial statements and it has been disclosed as contingent liability. The auditors have included an Emphasis of Matter paragraph on the same in their report on standalone financial results.
- The Company has recognised goodwill on amalgamation aggregating to Rs 1,059.80 Crore and amortised the same in accordance with the composite scheme of amalgamation and arrangement approved by the National Company Law Tribunal which is in compliance and accordance with the accounting standards applicable to the Company as of the appointed date of the Scheme. This accounting treatment is different from that prescribed under Ind AS 103 which are applicable to the Company. The auditors have included an Emphasis of Matter paragraph on the same in their report on standalone financial results.
- Exceptional item in standalone financial results for the quarter and the year ended March 31, 2017 includes impairment provision on loans given to subsidiary.
- The Company has allotted following securities of the Company pursuant to the conversion notices received from certain bondholders of the USD 546,916,000 Step-up Convertible Bonds due July 2019 (the "Bonds") for conversion of Bonds in to equity shares with a fixed rate of exchange on conversion of Rs. 60.225 to USD 1.00 in terms of the Information Memorandum dated June 17, 2014 as under:
 - allotment of 16,750,807 Equity Shares on April 25, 2017 on conversion of 4,300 Bonds worth USD 4,300,000.
 - allotment of 13,634,377 Equity Shares on May 3, 2017 on conversion of 3,500 Bonds worth USD 3,500,000.
 - allotment of 73,158,180 Equity Shares on May 12, 2017 on conversion of 18,780 Bonds worth USD 18,780,000.
 - allotment of 56,173,638 Equity Shares on June 3, 2017 on conversion of 14,420 Bonds worth USD 14,420,000.
 - allotment of 79,70,268 Equity Shares on June 26, 2017 on conversion of 2,046 Bonds worth USD 2,046,000.

Pune, India: Suzlon Group, India's largest renewable energy solutions provider, announced its audited quarterly (Q1 FY18) results.

J P Chalasani, Group CEO, said, *"We continue to achieve profitable growth as evidenced by the 4th consecutive quarter of delivering net profit. We are confident this momentum will continue. The transition from FiT to competitive bidding has created temporary volatility in terms of volume and margins. In the long-term, all stakeholders will benefit from higher volumes. We have commissioned our next generation turbine, the S111-140 meters which will establish new performance benchmarks. Our presence across the value chain, end-to-end solutions and best-in-class services gives us a competitive edge. The future of wind energy is brighter than yesterday. Wind as a source of energy will remain cost competitive, affordable and reliable."*

Kirti Vagadia, Group CFO, said, *"We remain focused on a profitability and sustainable volume growth. Delivering 412 MW in Q1, which is seasonally a low volume quarter, is a testament of the same. Our continued focus on cost optimization has helped us to secure a healthy bottom line and gives us operating leverage. We continue to maintain disciplined working capital level. In order to cope with the temporary uncertainties in the domestic market we have further strengthened our risk management in order to maintain our margins."*

USA PTC Volume: ~500 MW Pipeline Created for 100% PTC Projects

Production Tax Credit (PTC) Extension: Huge Volume Opportunity

- PTC in USA extended until 2019 with benefits stepping down every year before phase out
- In order to qualify, projects only need to start construction and make a minimum 5% investment (“Safe Harbour Investments”)
- Thus projects which meet safe harbour investments in 2016, will be eligible for 100% PTC benefit, while projects which meet safe harbour investments in 2017 will be eligible for 80% PTC benefit
- Timeline for completion of the projects is 4 years from the start of construction

Suzlon Strategy

- Established SPVs to implement Safe Harbor Projects and develop project pipeline
- ~500 MW Pipeline created of projects eligible for 100% PTC
- To translate into firm orders for execution over the next couple of years
