CHAIRMAN'S MESSAGE

Dear Shareholders,

The year in review has been truly a watershed year for your Company, the Industry as well as the Indian economy. Momentous changes have been ushered in, which augur well for value creation at all levels in our field of operations.

First and foremost, your Company took the lead to trigger consolidation in the DTH industry by announcing the intended merger (subject to regulatory approvals) with Videocon d2h Limited thus forming one of the largest pay TV platforms in the world. The merged entity will have the scale, sweep and momentum to reshape the Indian distribution industry as well as provide a secure roadmap for sustained unlocking of value for its stakeholders. We have always been the pioneers in the spaces we operate in and this first consolidation in the DTH space reinforces our leadership and commitment to redefine our business to enhance value for our stakeholders.

The industry witnessed the introduction of transformative regulations by the TRAI, which for the first time seeks to genuinely empower customers in an open and transparent model, which will seek to do away with the anomalies of the present system of trade between broadcasters, platforms and consumers in a manner which will be truly beneficial to all players in the industry. Dish TV wholeheartedly welcomes the initiative by TRAI and believes, this will lead to smooth and accelerated growth for the industry. For Dish TV this move will be value accretive and will help improve the profitability of the Company as well as provide transparency and freedom of choice to its valued customers.

At the macro event, the demonetization exercise has given a huge fillip to the digital transactions ecosystem which is hugely accretive for the DTH industry which relies on 100% prepaid and electronic recharge model. The

more people adopt electronic payment modes, the more your Company benefits as it reduces the inefficiencies, costs and lost revenues due to delayed recharges. This again is a fundamental change in the transaction model which will provide a significant boost to both the topline as well as bottom line of your Company in the years to come.

The introduction of GST was another watershed event which is significantly accretive for your Company. Apart from immediate reduction in the rates of taxation for your Company by the subsumption of entertainment tax, the Company also benefits from the elimination of Special Additional Duty on imported CPE's and also in the significant overall ease of transactions that the GST regime brings to the table. This will also increase the overall productivity, as the transactions operate largely and primarily through the single window of GST instead of the multiple and complex state and central levy system currently in operation.

Operationally your Company did face some temporary headwinds in Q3 and Q4 FY 2017 due to the impact of demonetization, however with the long term benefits of these changes outlined above far outweigh any short term blips and the results thereto will need to be viewed through that lens.

Notwithstanding these headwinds, your Company made significant progress adding 2.6 million subscribers during the year, ending the year with 15.5 million net subscribers. The topline was recorded at ₹3014.4 crores and your Company generated a PAT of ₹109.3 crores remaining profitable for the third consecutive year. Your company remains the most profitable player in the Indian Industry.

We are extremely excited about the future with our consolidated entity bringing the synergies and scale of being one of the largest pay TV platform in the world, we remain equally excited with the opportunities thrown at us by virtue of the changing regulatory landscape in India as well as the changing macroeconomic dynamics in India. There has never been a better time for all of these to fall in place and we look forward to the opportunities as well as challenges to unlock greater and greater value for all of our investors, employees, partners and other stakeholders.

Sincerely,

Jawahar Lal Goel
Chairman & Managing Director

Overview

Dish TV India Limited (BSE Code - 532839, NSE Code - DISHTV), despite the increased competition in the market, continues to be India's largest Direct to Home (DTH) operator in terms of the registered subscriber numbers.

The entertainment industry has been consistently growing, both in terms of volume and value. DTH as a segment has also benefited from this overall growth story. Technology innovations, rising disposable incomes and government initiatives to push digitization acted as catalysts in this positive trend. More subscribers are coming into the fold, thanks to robust understanding of customer needs and packages tailor-made for both value conscious as well as content conscious customers. Our new innovative packs played a significant role in containing subscriber churn and increasing penetration in digital cable dominated areas. High Definition penetration has also increased and the High Definition (HD) customer base has broadened. Your company has strengthened its share in new HD connections, by acquiring new HD customers as well as by upgrading existing subscribers of Standard Definition service to High Definition service through segmented packages and offers. The increase in the High Definition subscribers has supported the EBIDTA margin and ARPU.

The government's focus on e-payments, coupled with benefits offered by banks and e-wallets, made recharge experience more rewarding and convenient for subscribers. Dish TV is committed to promote this behavior by making it easier through our various online tools and tie-ups. Further to this, on-time recharge behavior and long-term recharges are special focus areas with new initiatives to benefit the subscribers. These saving propositions together with our increasing & ever improving bouquet of channels will definitely have a significant positive impact on customer satisfaction.

Technology has been at the core of the development of the entertainment industry. On one hand, decreasing prices of panel TVs is enabling a large number of families to upgrade from CRT TVs. This is a trigger to upgrade from cable to DTH or SD to HD as the case may be. On the other hand, decreased costs of data, penetration of smart phones and connected TVs are drawing customers to a new mode of receiving entertainment. These developments offer a significant opportunity from a current and near future perspective. Our strengths in sales and distribution has ensured that we are well poised to leverage this new emerging opportunity. We are also exploring ways to tap into the growing potential of data driven entertainment.

Dish TV is in the midst of a merger with Videocon D2H Ltd. The merged entity is expected to emerge as one of the world's leading cable and satellite distribution platforms. This will offer an unparalleled opportunity to broadcasters, suppliers and technology providers to reach out to a wide spectrum of customer base. The scale of operations and the synergy is expected to have a positive impact with significant room for growth.

Our strategies, plans and actions have always been driven with focus on our subscribers. Content enrichment and pack offerings will play a crucial role in enhancing customer satisfaction. Investment in the brand in the form of campaigns and engagements will lead to improved affinity with the customer. These efforts will have a significant impact in driving retention.

As a pioneer in the space of DTH, Dish TV has continuously looked at enhancing the experience of its customers with premium quality content. Any break in delivery of this content to the customer is a big cause of angst and dissatisfaction. While this is a natural part of our business, a continuous focus on improving our systems and increasing our network has enabled us to bring down the response time under 4 hrs for redressal of any complaint of a customer.

Among the various initiatives taken by the Company, this year will see the launch of a new improved STB. An advanced User Interface, Multi-Lingual menu and HD with 5X picture clarity will take the customer experience to an all-time high.

The internet is changing the consumers purchase behavior. E-Commerce is a growing trend amongst customers across categories and industries. Dish TV has continuously expanded its presence online to be available to its customers through all popular online retail platforms. We continue to strengthen online sales through our own website and strongly supplement the same through key e-commerce portals. This presence will be strengthened not only in terms of availability but also focus and investments in driving brand engagement and traffic on digital mediums.

SWOT ANALYSIS

Strengths

Dish TV continues to be the largest DTH operator in the country on the basis of registered subscriber numbers. The Company continued to be focused on the consumer and their satisfaction. A deep understanding of the category and customer across categories has resulted in introduction of new innovative packs and compelling propositions. Cross category learnings resulted in the introduction of affordable HD packs which enabled a large set of customers to move up the experience ladder.

Brand DishTV continued to be one of the most recalled brands amongst its peers and was highly-placed in the customers consideration set. This was a result of the consistent investment in the brand in the form of campaigns across various media platforms. A special focus on social media keeps up the engagement with customers on a 24x7 basis.

A strong brand can't go anywhere without significant strength in sales and service. Your Company, DishTV enjoys the advantage of an unparalleled network in the category. This would be enhanced further by the ongoing merger with Videocon D2H Ltd. As a natural process, the combined entity would fill up any gap which may exist in this vast country of ours.

The merger will open up a vast opportunity in synergizing operations across all verticals. Your Company will pursue to seize these opportunities and ensure that the potential on this front is maximized.

While the earlier high incidence of taxation and variance in taxes across the country were restricting growth, and decreasing the ease of doing business, the implementation of GST is a bold step which will have a positive impact on the Company as well as the industry.

Weakness

The corrective actions of the Government such as demonetization necessitated a process of learning and adjustment which has contributed to some slowdown. The overall growth temporarily came down and contraction in key sectors such as real estate, IT and others have proved to be a sentiment dampener for customers. However, corrective actions have been initiated in the economy by the Government which will have a positive impact in the long run.

Within the DTH industry, new customers coming in from Tier III and IV towns while pushing up the overall base, continues to be a challenge for ARPU's with their limited disposable income.

Opportunities

The aforementioned synergies resulting from the merger would be the most significant opportunity for the Company. While there will be natural areas of synergy, our efforts would be to leverage the combined scale of operations across all frontiers such as broadcast, technology

acquisition, new subscription, increasing the margins etc.

The potential in HD is still to be realized. Your Company has made tremendous inroads on this front with the introduction of affordable low-cost packs designed to whet the appetite for more. A continued focus on HD would result in both greater penetration as well as enhanced ARPU.

Digitization continues to be another opportunity and our introduction of low-cost packs with scope for customization would definitely result in tapping of this segment.

Fueled by social media, content creation is at an all-time high. This healthy appetite demonstrated by consumers is an untapped potential for us to explore.

Threats

While the category continues to grow and thrive, subscribers are increasingly flirting with other modes of consuming content. At one end, enhanced content available on Free Dish has found an increasing number of takers amongst the price conscious consumer. At the other end, IPTV & OTT are finding new takers with lower costs of data, increased smart phone penetration and content creation.

Strategy

The year under review has thrown an equal amount of opportunities and complexities for the Company to grapple with. The rapid pace of change has been met with innovation across all frontiers of business. This will be the scheme of things to come and we will continue to operate at two levels. One, keeping in view our long-term strategy and the other, of a quick and rapid response necessitated by the changing business environment. Nevertheless, the guiding light in all situations has always been our focus on customer satisfaction.

Your Company will continue to look at meeting the needs of our customers across the matrix of value, content requirement and delivery mechanism. Innovative packs have been introduced at extremely low prices for the value conscious customers. Affordable HD packs have been created for those on the threshold of graduating from SD. A new policy of long-term recharges has been announced which will introduce the customer to a new world of value enhancement.

The merger with Videocon D2H will multiply our advantage of scale and catapult us into an entirely new orbit to build new strategy around growth and profitability.

Annexure to the Independent Auditor's Report of even date to the members of Dish TV India Limited, on the standalone financial statements for the year ended 31 March 2017

ANNEXURE I

Based on the audit procedures performed for the purpose of reporting a true and fair view on the financial statements of the Company and taking into consideration the information and explanations given to us and the books of account and other records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) The fixed assets, other than viewing cards installed at the customers premises, have been physically verified by the management during the year and no material discrepancies were noticed on such verification. In our opinion, the frequency of verification of the fixed assets, other than viewing cards installed at the customers' premises, is reasonable having regard to the size of the Company and nature of its assets. The existence of activated viewing cards installed at the customers' premises is considered on the basis of the 'active user status' of the viewing cards. We are unable to comment on the discrepancies, if any, that could have arisen on physical verification of "inactive" viewing cards installed at the customer's premises.
- (c) The Company does not hold any immovable property (in the nature of 'fixed assets'). Accordingly, the provisions of clause 3(i)(c) of the Order are not applicable.
- (ii) The Company does not have any inventory. Accordingly, the provisions of clause 3(ii) of the Order are not applicable.
- (iii) The Company has not granted any loan, secured or unsecured to companies, firms, Limited Liability Partnerships (LLPs) or other parties covered in the register maintained under Section 189 of the Act. Accordingly, the provisions of clauses 3(iii)(a), 3(iii)(b) and 3(iii)(c) of the Order are not applicable.
- (iv) In our opinion, the Company has complied with the provisions of Sections 185 and 186 of the Act in respect of loans, investments, guarantees and security.
- (v) In our opinion, the Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) The Central Government has not specified maintenance of cost records under sub-section (1) of Section 148 of the Act, in respect of Company's products/services. Accordingly, the provisions of clause 3(vi) of the Order are not applicable.
- (vii) (a) Undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues, as applicable, have generally been regularly deposited to the appropriate authorities, though there has been a slight delay in a few cases. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they became payable.
- (b) The dues outstanding in respect of income-tax, sales-tax, service tax, duty of customs, duty of excise and value added tax on account of any dispute, are as follows:

Annexure to the Independent Auditor's Report of even date to the members of Dish TV India Limited, on the standalone financial statements for the year ended 31 March 2017

ANNEXURE II

Independent Auditor's report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

1. In conjunction with our audit of the standalone financial statements of Dish TV India Limited ("the Company") as of and for the year ended 31 March 2017, we have audited the internal financial controls over financial reporting ("IFCoFR") of the company of as of that date.

Management's Responsibility for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on Internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the company's business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's IFCoFR based on our audit. We conducted our audit in accordance with the Standards on Auditing, issued by the Institute of Chartered Accountants of India (ICAI) and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of IFCoFR, and the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate IFCoFR were

established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the IFCoFR and their operating effectiveness. Our audit of IFCoFR included obtaining an understanding of IFCoFR, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's IFCoFR.

Meaning of Internal Financial Controls over Financial Reporting

6. A company's IFCoFR is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's IFCoFR includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of IFCoFR, including the possibility of collusion or improper

management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the IFCoFR to future periods are subject to the risk that IFCoFR may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on Internal control over financial reporting criteria

established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

The carrying amounts of the Company's assets (including goodwill) are reviewed at each balance sheet date in accordance with Accounting Standard 28 'Impairment of Assets', to determine whether there is any indication of impairment. If any such indication exists, the recoverable amount of asset is estimated as higher of its net selling price and value in use. Value in use is arrived at by disclosing the estimated future cash flow to their present cash flow based on appropriate discounting rate. An impairment loss is recognized, whenever the carrying amount of an asset or its cash generating unit exceeds its recoverable amount. Impairment losses are recognised in the Statement of Profit and Loss.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined net of depreciation or amortisation, had no impairment loss been recognised.

j) Employee benefits

- i) Short-term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages, and bonus, etc., are recognised in the Statement of Profit and Loss in the period in which the employee renders the related service.

- ii) Post-employment benefit

Defined contribution plan

The Company deposits the contributions for provident fund and employees' state insurance to the appropriate government authorities and these contributions are recognised in the Statement of Profit and Loss in the financial year to which they relate.

Defined benefit plan

The Company's gratuity scheme is a defined benefit plan. The present value of the obligation under such defined benefit plan is determined based on actuarial valuation carried out at the end of the year by an independent actuary, using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plans is based on the market yields on Government Securities for relevant maturity. Actuarial gains and losses are recognized immediately in the Statement of Profit and Loss.

- iii) Other long term employee benefits

k) Employee stock option scheme

The Company calculates the compensation cost based on the intrinsic value method wherein the excess of value of underlying equity shares as on the date of the grant of options over the exercise price of the options given to employees under the employee stock option schemes of the Company, is recognised as deferred stock compensation cost and amortised over the vesting period on a graded vesting basis.

l) Leases

Operating lease

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased asset are classified as operating leases. Operating lease charges are recognised as an expense in the Statement of Profit and Loss on a straight line basis.

m) Earnings/(loss) per share

Basic earnings/ (loss) per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings/(loss) per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

n) Taxation

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the applicable tax laws. Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. However deferred tax arising from brought forward losses is recognised only when there is virtual certainty supported by convincing evidence that such asset will be realized.

Minimum alternative tax (MAT) paid in accordance with the tax laws, which gives rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax in future years. In the year in which MAT credit becomes eligible to be recognised as an asset in accordance with the recommendations contained in guidance note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the statement of profit and loss and shown as MAT credit entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay normal income tax during the specified year.

o) Provisions and contingent liabilities

The Company recognises a provision when there is a present obligation as a result of a past event and it is more likely than not that there will be an outflow of resources embodying economic benefits to settle such obligations and the amount of such obligation can be reliably estimated. Provisions are not discounted to their present value and are determined based on the management's estimation of the outflow required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect current management estimates.

Contingent liabilities are disclosed in respect of possible obligations that have arisen from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of future events, not wholly within the control of the Company. Contingent liabilities are also disclosed for the present obligations that have arisen from past events in respect of which it is not probable that there will be an outflow of resources or a reliable estimate of the amount of obligation cannot be made.

When there is an obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

p) Cash and cash equivalents

Cash and cash equivalents in the Cash Flow Statement comprise cash at bank and in hand, cheques in hand and short term investments with an original maturity of three months or less.

Had the compensation cost for employee stock options been determined on the basis of the fair value method as described in the said Guidance Note, the impact on the Company's net profit after tax and basic/diluted earnings per share would have been as stated below.

Particulars	For the year ended 31 March 2017 (Nos.)	For year ended 31 March 2016 (Nos.)

Annexure to the Independent Auditor's Report of even date to the members of Dish TV India Limited, on the consolidated financial statements for the year ended 31 March 2017

ANNEXURE I

Independent Auditor's report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

1. In conjunction with our audit of the consolidated financial statements of the Dish TV India Limited ("the Holding Company") and its subsidiaries, (the Holding Company and its subsidiaries together referred to as "the Group") and a joint controlled entity, as of and for the year ended 31 March 2017, we have audited the internal financial controls over financial reporting (IFCoFR) of the Holding Company, its subsidiary company and a jointly controlled entity incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

2. The respective Board of Directors of the Holding Company, its subsidiary company and a joint controlled entity incorporated in India, are responsible for establishing and maintaining internal financial controls based on Internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the company's business, including adherence to the company's policies, the safeguarding of the company's assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the IFCoFR of the Holding Company, its subsidiary company and a joint controlled entity as aforesaid, based on our audit. We conducted our audit in accordance with the Standards on Auditing, issued by the ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of IFCoFR and the Guidance Note, issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical

requirements and plan and perform the audit to obtain reasonable assurance about whether adequate IFCoFR were established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the IFCoFR and their operating effectiveness. Our audit of IFCoFR included obtaining an understanding of IFCoFR, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the IFCoFR of the Holding Company, its subsidiary company and joint controlled entity, as aforesaid.

Meaning of Internal Financial Controls over Financial Reporting

6. A Company's IFCoFR is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's IFCoFR includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of IFCoFR, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the IFCoFR to future periods are subject to the risk that IFCoFR may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion and based on the consideration of the report of the other auditors of subsidiary company, the Holding Company, its subsidiary company and a joint controlled entity incorporated in India, have, in all material respects, adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on Internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the ICAI.

Other Matters

9. We did not audit the IFCoFR insofar as it relates to a subsidiary company and joint controlled entity incorporated in India, whose financial statements reflect total assets of ₹ 318,196 lacs, net assets of ₹ 40,353 lacs as at 31 March 2017, total revenues of ₹ 112,554 lacs and net cash outflows amounting to ₹ 2,415 lacs for the year ended on that date. Our report on the adequacy and operating effectiveness of the IFCoFR for the Holding Company, its subsidiary company and joint controlled entity incorporated in India, under section 143(3)(i) of the Act insofar as it relates to the aforesaid subsidiary and joint controlled entity is solely based on the corresponding reports of the auditors of such Company. Our opinion is not modified in respect of the above matter with respect to our reliance on the work done by and the report of the other auditors.

Long-term investments, including their current portion, are carried at cost less diminution, other than temporary in value. Current investments are carried at the lower of cost and fair value which is computed category wise.

k) Employee benefits

i) Short-term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages, and bonus, etc., are recognised in the Consolidated Statement of Profit and Loss in the period in which the employee renders the related service.

ii) Post-employment benefit

Defined contribution plan

The Group deposits the contributions for provident fund and employees state insurance to the appropriate government authorities and these contributions are recognised in the Consolidated Statement of Profit and Loss in the financial year to which they relate.

Defined benefit plan

The Group's gratuity scheme is a defined benefit plan. The present value of the obligation under such defined benefit plan is determined based on actuarial valuation carried out at the end of the year by an independent actuary, using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plans, is based on the market yields on Government Securities for relevant maturity. Actuarial gains and losses are recognized immediately in the Consolidated Statement of Profit and Loss.

iii) Other long-term employee benefits

Benefits under the Company's compensated absences constitute other long-term employee benefits. The liability in respect of compensated absences is provided on the basis of an actuarial valuation done by an independent actuary using the projected unit credit method at the year end. Actuarial gains and losses are recognised immediately in the Statement of Profit and Loss.

l) Employee stock option scheme

The Group calculates the compensation cost based on the intrinsic value method wherein the excess of value of underlying equity shares as on the date of the grant of options over the exercise price of the options given to employees under the employee stock option schemes of the Group, is recognised as deferred stock compensation cost and amortised over the vesting period on a graded vesting basis.

m) Leases

Operating lease

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased asset are classified as operating leases. Operating lease charges are recognised as an expense in the Consolidated Statement of Profit and Loss on a straight line basis.

(All amounts in ₹ lacs, unless stated otherwise)

n) Earnings per share

Basic earning/loss per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

o) Taxation

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income tax Act, 1961. Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. However deferred tax arising from brought forward losses is recognised only when there is virtual certainty supported by convincing evidence that such asset will be realized.

p) Provisions and contingent liabilities

The Group recognises a provision when there is a present obligation as a result of a past event and it is more likely than not that there will be an outflow of resources embodying economic benefits to settle such obligations and the amount of such obligation can be reliably estimated. Provisions are not discounted to their present value and are determined based on the management's estimation of the outflow required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect current management estimates.

Contingent liabilities are disclosed in respect of possible obligations that have arisen from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of future events, not wholly within the control of the Group. Contingent liabilities are also disclosed for the present obligations that have arisen from past events in respect of which it is not probable that there will be an outflow of resources or a reliable estimate of the amount of obligation cannot be made.

When there is an obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

q) Cash and cash equivalents

Cash and cash equivalents in the Cash Flow Statement comprise cash at bank and in hand, cheques in hand and short term investments with an original maturity of three months or less.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2017

(All amounts in ₹ lacs, unless stated otherwise)

31. With effect from 01 April 2016, the Company has changed its business policy and started recovering entertainment tax from its subscribers and then paying it to the relevant authorities, therefore, entertainment tax has been netted off from subscription revenue.

32. Employee stock option plan (ESOP) 2007

At the Annual General Meeting held on 3 August 2007, the shareholders of the Company had approved Employee Stock Option Plan, i.e., ESOP 2007 ("the Scheme"). The Scheme provided for issuance of 4,282,228 stock options (underlying fully paid equity share of ₹ 1 each) to the employees of the Group at the exercise price which shall be equivalent to the market price determined as per the Securities and Exchange Board of India (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 ['SEBI (ESOP) Guidelines, 1999'].

The options granted under the Scheme shall vest between one year to six years from the date of grant of options with 20% vesting each year. Once the options vest as per the Scheme, they would be exercisable by the grantee at any time within a period of four years from the date of vesting and the shares arising on exercise of such options shall not be subject to any lock-in period.

The shareholders in their meeting held on 28 August 2008 approved the re-pricing of outstanding options which were granted till that date and consequently the outstanding options were re-priced at ₹ 37.55 per option, determined as per SEBI (ESOP) Guidelines, 1999.

However, in respect of options granted subsequent to 28 August 2008, the exercise price of the options has been maintained as equivalent to the market price determined as per the SEBI (ESOP) Guidelines, 1999.

As stated above, the options are granted to the employees at an exercise price, being the latest market price as per SEBI (ESOP) Guidelines, 1999. Further, since the Group follows intrinsic value method for accounting of the above options, there is no charge in the Consolidated Statement of Profit and Loss.

As permitted by the Guidance Note on accounting for Employee Share - based payment, issued by the Institute of Chartered Accountants of India, the Company has elected to account for stock options based on their intrinsic value (i.e., the excess of fair market value of the underlying share over the exercise price) at the grant date rather than their fair value at that date. Had the compensation cost for employee stock options been
