# AAI rejects AI plan to turn ₹2,000-cr dues into equity

New Delhi, March 16

**S**TATE-OWNED Airports Authority of India has rejected a proposal by national carrier Air India to partially convert dues worth ₹2,300 crore

an Air India spokesperson declined to comment.

On an earlier occasion also, the airports operator had rejected similar proposals from the government-owned airline. AAI manages a total of 125 airports, including 11 international ones. It also provides Air Traffic Management Services (ATMS) over entire Indian airspace and adjoining oceanic areas.

Airlines have to pay certain fees for using the airport and for availing ATMS, among other services.

Air India has been making various efforts to revive its fortunes amid stiff competition. It is surviving on a ₹30,000-crore bailout package extended by the Centre. So far, the government has released just over ₹24,700 crore as equity support to the airline.

Air India reported an operational profit of ₹105 crore in 2015-16 — its first in more than a decade. Last week, the government said AI is expected to increase total revenue by nearly 10% to ₹22,521 crore in the current fiscal.

PTI

These dues are towards landing and parking charges as well as route navigation charges. Recently, a proposal from Air India to convert the outstanding dues into equity was rejected, a senior AAI official said.

## 31 out of 182 AI-operated sectors loss-making

**■ New Delhi, March 16:** Nearly 17% of the total routes operated by Air India are loss-making, the government said on Thursday. Of the total 182 sectors, Air India is unable to

account the revenue contributions made by the subject services to its other services by feeder traffic. Non-profitability of any one flight is not taken in isolation as the sole barometer of its financial performance." PTI

into equity. Air India, which is staying afloat on taxpayers' money, owes around ₹2,300 crore to the national airports operator.

### NOTICE

**ADDENDUM to the Scheme Information Document (SID) / Key Information Memorandum (KIM) of HDFC Infrastructure Fund and HDFC Capital Builder Fund**

# DIAL gives Aerocity land to Airbus for its India HQ

fe Bureau

**New Delhi, March 16:** The GMR Airport-led Delhi international airport (DIAL) on Monday announced that it has signed a land licence agreement with French aircraft manufacturer Airbus for setting up the country's first full flight simulator at the Aerocity — terminal district of Indira Gandhi Inter-

national (IGI) Airport.

On the 1.11 acre, the France-based company will set up its full flight simulator to address the growing demand of trained pilots and aircraft maintenance engineers. Airbus will also establish its India Headquarter within the same development.

The land licence agreement was signed for a period till March 31, 2086. DIAL has

received the initial security deposit and ADC and will also receive an annual licence fee from this agreement.

Airbus India had decided to open its full flight training centre at Delhi Aerocity keep- ing in mind the growing requirements of its customers as Delhi is a key base for air-

lines like Air India, Indigo and Vistara.

Most of the Indian carriers, barring SpiceJet, are customers of Airbus. It also has a huge order book from Indigo and GoAir. So Airbus needs a place in the city to cater to the service demand.

"This is the second significant transaction in Delhi Aerocity after a recent deal with Bharti Realty Holdings. DIA is putting together a plan for development of infrastructure for public amenities at Aerocity in an effort to increase the velocity of land monetisation," said a DIA spokesperson.
