Commenting on the results, Mr. Manohar Bidaye, Chairman – Zicom Electronic Security Systems Limited said, *“In the current year our performance has been affected mainly due to slowdown in the Middle East market. Due to slump in the global crude prices, the project executions have slowed down, resulting in delay in recovery from debtors. We are making every effort to focus on collections, but however in our opinion external situations may take some time to settle down. We are also exploring other options to seek investments from strategic investors so that we continue to excel in our business operations in that geography.*

To drive the profitability we are focusing on service and maintenance business which offers steady cash flow. We are also taking up distribution of Unisafe branded products which are approved by Civil Defense to GCC and North African Region. As the weightage of Middle East business is high in the total revenue of Group, the consolidated performance has been affected adversely.

As regards to business in India, Zicom SaaS has performed exceptionally well with new addition of Banks and other Enterprise Customers for ATM and Facility Surveillance. We have seen significant growth in SaaS wherein service income has grown from Rs. 33.55cr to Rs. 48.20 cr and EBDITA has increased from Rs. 23.04cr to Rs. 33.05 cr.

Environment in our Distribution Business continued to remain competitive. The initiative of the Central Government to remove custom duties on import of CCTV equipments, in Budget 2016, has made significant impact on electronic security industry. However, this sudden change has unfortunately impacted the valuation of existing inventories held by the company and resulted in a one-time adjustment impact in profitability for the current financial year. This has impacted standalone performance.”
