Dear Sirs,

Consolidated Generation at 11,663 MUs in Q2 FY15-16

The Company's Consolidated Generation for the quarter stood at 11,663 MUs. This marks a 6.5 per cent increase in the Company's Consolidated Generation as compared to Q2 FY15.

Together with all its subsidiaries, the Company achieved generation sales of 11,376 MUs of power from all its power plants during Q2. The Company continues to renew its focus on 'clean and renewable energy' generation capacities and restructured its renewable energy assets as part of its growth focus in the renewable energy space. The proposed structuring involves carving out of 500 MW of renewable assets of the Company to its subsidiary Tata Power Renewable Energy Ltd. (TPREL) and its subsidiaries. Post structuring, the total installed capacity of TPREL will be about 720 MW with additional 250 MW under construction.

The Press Release to be issued by the Company is attached for your ready reference.

Yours faithfully,
For The Tata Power Company Limited

(H. M. Mistry)
Company Secretary

Encl.

Tata Power Registers Consolidated Generation at 11,663 MUs in Q2 FY15-16

~Company continues its robust operations and performed well ~

National, November 13th 2015: Tata Power, India's largest integrated power company, today announced that Company's Consolidated Generation for the quarter stood at 11,663 MUs. This marks a 6.5 per cent increase in the Company's Consolidated Generation as compared to Q2 FY15.

Together with all its subsidiaries, the Company achieved generation sales of 11,376 MUs of power from all its power plants during Q2. The Company continues to renew its focus on 'clean and renewable energy' generation capacities and restructured its renewable energy assets as part of its growth focus in the renewable energy space. The proposed structuring involves carving out of 500 MW of renewable assets of the Company to its subsidiary Tata Power Renewable Energy Ltd. (TPREL) and its subsidiaries. Post structuring, the total installed capacity of TPREL will be about 720 MW with additional 250 MW under construction.

Commenting on the achievement, **Mr. Anil Sardana, CEO & Managing Director, Tata Power** said, *"It gives us great pride to be the largest integrated power company in India with significant increase across our operations. As we celebrate Tata Power's centenary year, we are committed to nation building and will continue to lighten up lives in the coming years."*

The Company, together with its subsidiaries and jointly controlled entities has an installed gross generation capacity of [8669] MW in India, wherein 1383 MW comes from clean and green energy sources. This comprises of Hydro of 576 MW, Solar of 56 MW, Wind of 511 MW and 240 MW from Waste Gas based generation.

GROWTH PLANS: Projects under Implementation:

Kalinganagar, Odisha CPP 1 - 202.5 MW (3 x 67.5 MW): The 202.5 MW Kalinganagar project is being executed through IEL, a JV of the Company (74%) with Tata Steel Limited (26%) for its steel plant in Kalinganagar, Odisha. The project is in advanced stages of commissioning.

Tata Power Renewable Energy Limited (TPREL): Aggregating Renewable Assets by carving out renewable assets at Tata Power: The Board, at its meeting held today, approved a scheme of arrangement to restructure the Company's renewables portfolio of wind, solar and waste heat recovery/production gases based generation into Tata Power Renewable Energy Limited (TPREL), a wholly owned subsidiary of the Company. The proposed restructuring will lead to the renewables assets in the books of the Company to be transferred to TPREL through slump sale. The assets include 376.5 MW of wind assets in Gujarat, Maharashtra and Tamil Nadu, 3 MW solar asset in Mulshi, 120 MW waste heat recovery based power plants at Haldia, West Bengal.

International Projects:

Cennergi, South Africa: The Company's JV in South Africa, Cennergi Limited, of 134.4 MW Amakhala Emoyeni Wind Farm and 95.3 MW Tsitsikamma Community Wind Farm is progressing on schedule. For Amakhala wind farm, all civil activities involving roads and foundations have been completed. All turbine components have been received at harbour and are being shipped to site. 18 turbines erected and are in the process of precommissioning. For Tsitsikamma Community Wind Farm Project, WTG foundations is 100% complete and the erection work is in progress.

Adjaristsqali Hydro Project, Georgia: The construction of 187 MW Shuakhevi Hydro Project in Georgia is progressing as per schedule. International Finance Corporation, Asian Development Bank and European Bank for Reconstruction and Development are the lenders to the project. Tunnelling works are under progress. Till date, the progress achieved for tunnel excavation is ahead of schedule. The COD for the 178 MW Shuakhevi PH is likely to be in end of FY17.

Itezhi Tezhi Hydro Power Project: The Company has acquired 50% shares held by Tata Africa Holdings (SA) (Pty) Limited (Tata Africa) in Itezhi Tezhi Power Corporation Limited during the year, which is implementing the 120 MW Itezhi Tezhi Hydro Project in Zambia. The balance 50% is held by Zambia Electricity Supply Company Limited, the national power utility of Zambia. The project is nearing completion and shall be commissioned before end of FY16.

About Tata Power:

Tata Power is India's largest integrated power company with a growing international presence. The Company together with its subsidiaries and jointly controlled entities has an installed gross generation capacity of [8669] MW and a presence in all the segments of the power sector viz. Fuel Security and Logistics, Generation (thermal, hydro, solar and wind), Transmission, Distribution and Trading. It has successful public-private partnerships in Generation, Transmission and Distribution in India namely "Tata Power Delhi Distribution Limited" with Delhi Vidyut Board for distribution in North Delhi, 'Powerlinks Transmission Ltd.' with Power Grid Corporation of India Ltd. for evacuation of Power from Tala hydro plant in Bhutan to Delhi and 'Maithon Power Ltd.' with Damodar Valley Corporation for a 1050 MW Mega Power Project at Jharkhand. Tata Power has developed the country's first 4000 MW Ultra Mega Power Project at Mundra (Gujarat) based on super-critical technology. It is also one of the largest renewable energy players in India. Its international presence includes strategic investments in Indonesia through a 30% stake in the leading coal company PT Kaltim Prima Coal (KPC), 26% stake in mines at PT Baramulti Suksessarana Tbk ("BSSR") and a geothermal project; in Singapore through Trust Energy Resources to securitise coal supply and the shipping of coal for its thermal power generation operations; in South Africa through a joint venture called 'Cennergi' to develop projects in South Africa, Botswana and Namibia; in Australia through investments in enhanced geothermal and clean coal technologies and in Bhutan through a hydro project in partnership with The Royal Government of Bhutan. With its track record of technology leadership, project execution excellence, world class safety processes, customer care and driving green initiatives, Tata Power is poised for a multi-fold growth and committed to 'lighting up lives' for generations to come.
