CORPORATE POLICY STATEMENT ON INVESTOR RELATIONS

As Adopted by the Board of Directors

I. PURPOSE

Karuturi Global Limited is committed to providing timely, orderly, consistent and credible material information to the investing public, market analysts, the media and other third parties.

The purpose of this Corporate Policy Statement on Investor Relations (the “Policy”) is to provide clear guidelines and procedures for disclosing material information outside the Company in order to provide accurate and timely communications on a broadly disseminated basis to our shareholders and the financial markets. This Policy governs communications by our employees and directors with media personnel, members of the investment community including analysts, institutional and individual stockholders, and others who are not bound to us by a duty of confidentiality and/or do not have a “need to know” the information.

II. POLICY

The Company is subject to certain obligations regarding the disclosure of information to the public. These obligations are imposed by the Securities and Exchange board of India (the “SEBI Regulations”), and the listing rules of the exchanges on which the Company’s shares trade. Premature or otherwise unauthorized disclosure of internal information relating to the Company could adversely affect the Company’s ability to meet its disclosure obligations under the SEBI Regulations. In addition, unauthorized disclosure could cause competitive harm to the Company and in some cases result in liability for the Company.

This Policy requires that, whenever the Company (or a person acting on its behalf) intentionally discloses Unpublished Price Sensitive Information (also referred to as material nonpublic information) to certain specified persons (including broker-dealers, analysts and security holders), the Company must simultaneously disseminate the information to the public.

If the Company learns that it (or certain persons acting on its behalf) has unintentionally published price sensitive information, the Company must publicly disseminate the information promptly and no later than 24 hours after discovering the unintentional disclosure or at the opening of trading on the National Stock Exchange of India Limited (“NSE”), Bombay Stock Exchange India Limited (“BSE”).

Further, all information, whether material or immaterial, provided to outsiders by Karuturi Global Limited’ employees and directors must be accurate and consistent with these responsibilities.

The Company's Chief Compliance Officer, in consultation with the Company’s investor relations department and key managerial personnel shall have the authority to make materiality and distribution determinations covered by this Policy with respect to the information disclosed about the Company. The Chief Compliance Officer or his/her designees, in each case, together with the Company’s investor relations department and key managerial personnel have the authority to interpret and enforce this Policy. All questions about this Policy should be directed to the Chief Compliance Officer. The Chief Compliance Officer or his/her designee, in each case, together with the Company’s investor relations department must pre-approve any deviation from the policies and procedures outlined in this Policy. This policy is in addition to, and does not derogate from, the Company’s Policy for Determining Materiality for Disclosures.

A. WHAT IS MATERIAL NONPUBLIC INFORMATION OR UNPUBLISHED PRICE SENSITIVE INFORMATION?

Information should be regarded as “material” and “price sensitive” if there is a substantial likelihood that a reasonable investor would consider it important in making a decision to buy, sell, or hold a security or where the fact is likely to have a significant effect on the market price of the security. Either positive or negative information may be material.

Materiality must be determined on a case to case basis depending on specific facts and circumstances relating to the information/event. The primary approach for determining materiality will be qualitative. The quantitative criteria given hereunder shall be used as a guide or reference for determining materiality and arriving at the overall decision on report ability of the event by Chief Compliance Officer, the Company’s investor relations department and key management personnel.

Information is “nonpublic” or “Unpublished” until it has been widely disseminated to the public or is accessible to the public on a non-discriminatory basis and the public has had a chance to absorb and evaluate it. Unless you have seen material information publicly disseminated, you should assume the information is nonpublic.

Financial information is particularly sensitive. For example, nonpublic information about the results of the Company’s operations for even a portion of a quarter or the portion of the business might be material in helping an analyst predict the Company’s financial results for the quarter. Also the material information shall be disclosed as the SEBI (Listing Obligation and Disclosure Requirement) Regulations, 2015.

DISCLOSURE POLICY

Company personnel should not disclose internal information about the Company with anyone outside the Company, except as required in the performance of regular duties for the Company. When in doubt, you should assume that the information is material and nonpublic. If you have any questions as to whether information should be considered “material” or “nonpublic,” please consult the Chief Compliance Officer. The only persons authorized to speak on behalf of the Company to securities analysts, broker-dealers, security holders and any other finance industry professionals are the Company’s Chief Executive Officer, Chief Operating Officer, Chief Financial Officer or the senior investor relations officer (“IRO”) (each an “Authorized Spokesperson”).

At various times, any one of the Authorized Spokespersons may designate others (the “Designated Officers”) in writing to speak on behalf of the Company and/or respond to specific inquiries when necessary due to the unavailability of an Authorized Spokesperson or due to the specific nature of the request. While others may be designated in writing from time to time to speak on behalf of the Company, it is essential that the Legal Department and the IRO have knowledge of the information being disseminated by those individuals to facilitate the Company’s compliance with other applicable legal and regulatory requirements in its external communications.

To the extent practicable, Authorized Spokespersons must contact the Chief Compliance Officer and the IRO before having conversations with any finance industry professionals in order to review as much of the substance of the intended communication as possible, including slides and other prepared materials.

Pre-written speeches, written statements, presentations and other external communications should, to the extent practicable or appropriate, be reviewed by the Legal Department and the IRO (or his or her designee).

Selective disclosure is also prohibited if made to any security holder under circumstances in which it is reasonably foreseeable that the security holder would purchase, hold or sell the Company's securities on the basis of the information.

Communications in the ordinary course of business with customers, suppliers or strategic partners, as well as communications with the press or news organizations, rating agencies, or the government, are not covered by this Policy.

B. PROCEDURES

Any time an Authorized Spokesperson determines to disclose or discuss nonpublic Company information with anyone who is or might be a finance industry professional, the Authorized Spokesperson should consult with the Chief Compliance Officer and the investor relations department to determine whether the information is material. If the determination is made that the information to be disclosed is material, the information must be disclosed through appropriate medium. The public disclosure may either disclose the material information or, if it is issued prior to disclosure to the finance industry professionals, may disclose that a conference call and/or webcast will be held to disclose the information.

C. DAY-TO-DAY COMMUNICATIONS.

Inquiries from analysts, security holders and other finance industry professionals in any department other than the Investor Relations Department and the offices of any of the Authorized Spokespersons must be forwarded to the IRO. Under no circumstances should any attempt be made to handle these inquiries without prior authorization from an Authorized Spokesperson, Chief Compliance Officer or the IRO.

Planned conversations must include at least one Authorized Spokesperson and should, if practicable, include a second person. It should be determined in advance whether it is intended that any material nonpublic information be disclosed. If so, the material nonpublic information should be disclosed prior to or simultaneously with the planned conversation by appropriate media.

D. PRESS RELEASES

The Company will issue press releases from time to time to disclose information that management believes is important or of use to the public, whether or not the information is material. The Authorized Spokespersons or the Designated Officers will designate the appropriate officer to prepare press releases to be issued by the Company. All press releases will be reviewed and approved by the Authorized Spokespersons or the Designated Officers.

In addition, press releases of a financial nature and other material releases as determined by the Chief Financial Officer shall also be reviewed by the Legal Department, and financial releases by independent auditors. The Authorized Spokespersons or the Designated Officers will also designate the "Key Contact" for follow-up inquiries on the press releases. Alternatively, the Authorized Spokespersons or the Designated Officers may, at their discretion, determine that the Company's press release represents its sole response to inquiries on the matter.

If a director, member of management or employee of the Company learns of information that causes him or her to believe that a disclosure may have been misleading or inaccurate when made or may no longer be true, such person should report that information to the Legal Department or the IRO.

The Chief Financial Officer, another Authorized Spokesperson or a Designated Officer will supervise the transmission of financial information through the appropriate communication channels. These duties may include:

Authorized Spokespersons, Designated Officers and the IRO may discuss financial results of operations for completed quarters, following the public disclosure of the results, but shall not disclose any material information regarding nonpublic results, the Company's internal projections or other matters.

The IRO or another member of the investor relations department should be present in all such meetings along with the Authorized Spokesperson or Designated Officer. The IRO or another member of the investor relations department should minute the key points discussed in all the meetings and bring to the notice of the Chief Executive Officer or Chief Operating Officer or Chief Financial Officer of any material non-public information discussed in such meetings. Where it is not possible for the IRO or another member of the investor relations department to be present at such meetings, the meeting must be recorded or minutes of the meeting must be obtained. Such transcripts or records of proceedings of meetings with analysts and other investor relations conferences shall be made available on the Company's website promptly upon conclusion of the meetings or conferences. Additionally, the Chief Executive Officer or Chief Operating Officer or Chief Financial Officer in consultation with the Chief Compliance Officer and the IRO may require the IRO to disseminate the information to the general public.

The Company has adopted a "silent" period before the earnings releases are due. During this period, no representatives of the Company will meet with any analysts, investors, reporters or newscasters. During the silent period, the Company will continue to issue disclosure to stock exchange and communicate with the media regarding its business, products or operations, provided that such releases or communications do not contain or discuss financial information or results that have not previously been publicly disclosed. If any analyst inquires as to the reliability of a previously, publicly disseminated projection, the Authorized Spokesperson or Designated Officer should follow the "no comment" policy.

Analyst reports and earnings models may only be reviewed to correct errors that can be corrected by referring to publicly available, historical, factual information or to correct any mathematical errors. No other analyst feedback or guidance on earnings models may be communicated to an analyst. A written record should be kept of any comments provided on an analyst's report. "This report has been prepared and distributed by an unaffiliated third party and is being provided to you simply for your information. The Company makes no statement regarding the report or its contents. You should not regard the statements made in the report as being affiliated with or confirmed or denied by the Company in any way."
