The first order of residential development for Godrej Prana at Undri, Pune, awarded by Dream World Landmarks LLP, involves constructing two towers viz. A & G of 12 floors & five towers viz. B, C, D, E, F of 14 floors along with 1 level of podium and basement parking for each. The second project bagged by IVRCL, aiming at creating an integrated sanitation improvement in Bhubaneswar, involves constructing sewers for the district and is indeed, one of the single largest sewerage projects in India. The project strives to improve the water quality of surrounding rivers while improving sanitary conditions in Bhubaneswar in an area of about 57 sq.km. The project is envisioned taking into account the rising population of the area which is expected to rise from 2.9 lac in 2011 to 7.42 lac in 2041 showing more than two-fold increase in a span of 30 years.

The complete sewerage project of Bhubaneswar is divided into six Sewerage Districts and the Sewerage District-VI is covered under the JICA-assisted Odisha Integrated Sanitation Improvement Project. The work requires design and establishment of a full build-out sewerage network for about 150-km long sewer pipeline.
