

PRESS RELEASE

Cyient Awarded for Excellence in Aerospace Exports at Aero India 2015

Bangalore, India, 18 February 2015 — Aero India 2015 kicked off on a positive note for Cyient Limited, as the company was pronounced a winner in 'Excellence in Aerospace Exports' by the SAP Media Aerospace and Defense Awards jury in a ceremony held on 17th February at Le Meridian, Bangalore. SAP Media is an official media partner for Aero India, a premier aerospace exhibition in Asia.

The awards committee evaluated a number of contenders based on their unique service capabilities, technical knowhow, resource strength, quality standards and export revenue.

"Cyient's top-notch engineering talent, proven processes, innovation, and client-centric business models set it apart from the competition in aerospace and defense, as well as a number of other key industry segments", said **Rajendra Velagapudi, Senior Vice President and Head – Engineering Operating Unit, Cyient**, commenting on the award. "We are honored to receive the SAP Media award for 'Excellence in Aerospace Exports' at Aero India 2015. Over the years, the company has continued to win several coveted honors consistently across a range of key categories, reflecting our acute focus on strengthening existing capabilities and continuously building new ones", he added.

Cyient, formerly Infotech Enterprises, was a pioneer in bringing engineering services to India, and is among the few elite suppliers to support the complete product development life cycle, from concept to design, to product manufacturing.

About Cyient Limited

Cyient is a global provider of engineering, data analytics, networks and operations solutions. We collaborate with our clients to achieve more and shape a better tomorrow.

With decades of experience, Cyient is well positioned to solve problems. Our solutions include product development and life-cycle support, process and network engineering, and data transformation and analytics. We provide expertise in the aerospace, consumer, energy, medical, oil and gas, mining, heavy equipment, semiconductor, rail transportation, telecom and utilities industries.

Strong capabilities combined with a global network of more than 12,500 associates across 38 global locations enable us to deliver measurable and substantial benefits to major organizations worldwide.
