New Discoveries during the Quarter

ONGC has notified 4 discoveries in Q1 FY'16:

1. Well Gojalia#14, within Gojalia PML in South Tripura District. This new pool discovery is within established Gojalia field and is likely to augment the existing production potential. The well is situated about 5 km east of Belonia town in South Tripura district of Tripura state. Exploratory well Gojalia # 14 in Gojalia PML, Arakan Fold Belt Basin in the state of Tripura was drilled to a depth of 2501m. On conventional testing, the interval 1631-1627m in Upper Bhuvan formation produced gas @ 86900 m³/day through 8 mm bean.
2. One New Prospect Discovery at Komarada# 3, Tatipaka-Pasarlupudi PML, KG Onland Basin, Andhra Pradesh has also been notified. Exploratory well Komarada# 3 in Tatipaka-Pasarlupudi PML of KG Onland Basin, Andhra Pradesh was drilled to a depth of 3,155m. On conventional testing, the interval 3,040.5-3,043.5m, in Vadaparu formation of Eocene age, produced light oil @ 31.9 m³/day and gas @123,512 m³/day, through 6 mm bean. This discovery is close to Pasarlupudi field and will augment gas & oil production immediately. The discovery well is situated 18 km east of Razol town in East Godavari District.
3. Earlier **two** New pool Discoveries at, **KG-DWN-98/2-M-4(AD)** Oil & Gas Discovery in NELP-I Block **KG-DWN-98/2** and KG-OSN-2004/1 Gas discovery in NELP VI block in KG Offshore have been notified.

Other Highlights

1. **Board of ONGC approved investment decision for ₹ 2818.88 Crore** for further exploitation of Oil and Gas from its scheme of Neelam Redevelopment Plan in Western Offshore. The project comprises of drilling 14 new wells and 13 sidetrack wells and installation of facilities i.e. 1 process platform, 2 well platforms, 3 clamp-on facility for wells on existing platforms, associated pipelines, modifications, 21 zone transfers and 4 water injections conversions. The facilities under the project are scheduled to be installed by August 2018 and the overall project completion is scheduled for March 2023. The implementation of the project will lead to incremental gain of 2.76 MMT crude oil and 4.786 BCM gas by 2034-35.
2. **ONGC's LNG based C2-C3 plant, the first in world commences operation**

Commissioning of ONGC's LNG based C2-C3 plant at Dahej, Gujarat commenced on May 31, 2015. Commercial production of Ethane (C2), Propane (C3) and Butane (C4) started on 17th July 2015. The Plant is expected to produce 600-700 KT of VAP in FY'2015-16 with Commingled LNG feed from Petronet LNG Limited (PLL).

- 3. Sakhalin-1: World's Longest (13,500 meter, MD) well put on production**
The O#14 well with measured depth of 13,500 m, the longest well in the world, drilled from offshore platform Orlan, in Chayvo field under Sakhalin-1 project, in Russia was put on production on May'4, 2015. The well producing around 20,000 barrels per day (bpd) helped Sakhalin-1 project to attain peak production of 199,000 bpd on May 5, 2015. ONGC Videsh has 20% participating interest in the Project along with other partners Exxon 30% (Operator), SODECO (30%) and Rosneft (20%).
