The news item relates to procurement of power by distribution companies through the Government of India's e-bidding portal and the first such bidding that was recently conducted. As it has been mentioned in the newspaper article, multiple bids for sale of power were offered by generators supporting PTC India Ltd. and many of them were successful. The event is part of the company's business as usual activities in its power trading business model. It is noteworthy only because this was the first such procurement conducted by the distribution companies after the initiative of the Government of India.
