5. The Company's Share in Associate, Global Rural Netco Limited is accounted based on Un-audited financial statements for the year ended March 31, 2014. The Company has investment in Associates, GTL Infrastructure Limited (GIL) and Chennai Network Infrastructure Limited (CNIL). The share capital of GIL & CNIL is expected to change in view of :
- a. conversion option available to the holders of FCCB of GIL.
 - b. GIL and CNIL have filed requisite merger petitions with high court of judicature at Bombay and Madras. The appointment date for merger is August 01, 2010. The proposed merger of CNIL with GIL has been approved by Hon'ble Mumbai High Court and is pending for approval from Madras High court. The Board of Directors of GIL have decided to discuss and finalize with the lenders the modification to the Scheme of Arrangement / Merger between GIL and CNIL subject to approval of lenders. This is likely to change Swap ratio.
 - c. Moreover, the scheme of arrangement / merger of GIL and CNIL also envisages impact on the Financials of GIL and CNIL from appointed date.

In view of the above uncertainties, the percentage shareholding of the Company in GIL and CNIL and its share in the Associates is not presently quantifiable and therefore the same is not considered and is proposed to be accounted post resolution of these uncertainties. This treatment being in preference to AS23 has been reported by Auditors.

6. The Company's business activities comprises of two segments viz "Network Services" and "Power Management". During the last few years, the telecom industry has been adversely affected by the general economic slowdown, forcing the operators to substantially curtail capex on rollout of towers. This has an adverse impact on company's revenue from Network, Deployment, Operation and Energy Management and other Network services and consequentially operating margins and cash flow from this segment.

In Power sector, increase in energy cost by Genco's without commensurate revision in energy price to consumers has adversely affected profitability of Power Management. Coupled with this Company's inability to incur sufficient capex could not result in achieving desired efficiency and thereby further affecting operating margins and cash flow of said segment.

In view of the above, Company has incurred Cash losses which has resulted in substantial erosion of the Company's net worth.

The Company is taking various measures such as cost optimisation, renegotiation of contracts with the customers, improving operating efficiency, capex to reduce distribution losses in Power distribution franchises so as to improve Company's operating margins and cash flows.

The management believes that these measures together with expected growth in Telecom sector and overall turnaround in economy will have positive impact on the Company's business operations and will generate improved margins and cash flows. In view of above, the Company continues to prepare its financial statements on going concern basis, which contemplates realization of assets and settlement of liabilities in the normal course of business.

7. Provision of Income tax includes tax liability of ₹ 25.57 Cr towards tax liability determined for Assessment Years 2005-06 to 2012-13 upon conclusion of proceedings before Appropriate Statutory Authority and the Company also to receive balance tax refund of ₹ 44.14 Cr. (inclusive of interest).
8. In view of Loss, Debenture Redemption Reserve has not been created for the year ending March 31, 2014.
9. Formula used for computation of "Debt Service Coverage Ratio" (DSCR) = [Profit before Interest, Depreciation and Tax / (Principal repayment during the period + Interest)] and for Interest Service Coverage Ratio (ISCR) = [Profit before Interest, Depreciation and Tax / Interest]
