Notes:

1. The Financial Results for the quarter ended March 2014 were reviewed by the Audit Committee and taken on record by the Board of Directors of the Company at its meeting held on 14 May 2014 and have been subjected to limited review by the Statutory Auditors of the Company as required by Clause 41 of the listing agreement.
2. The application for a pre-insolvency procedure filed by FTM was admitted by the court of Milan on 7 June 2013 after having received confirmation of the possibility of continuity of the company, by calling for bids for the lease of its business. The successful bidder for the lease was foreseen to be finalized by early December 2013. However the commissioner has revised the procedure by which, instead of lease of a business the bidder will have to place an offer for outright sale of operational business to prospective bidders. The date of bid submission is finalized as 30 June 2014. In light of the ongoing procedure no financial statements of the company have been released to date and it is expected that this will not be released until the entire process is complete. Further the step down subsidiary holding the shares of FTM has entered into a memorandum of understanding with intended purchaser for sale of its investment in FTM. The sale purchase agreement is however subject to the regulators, bankers and shareholders' approval.
3. The Auditors of M/s SAE Powerlines S.r.l, Italy (SAE), a subsidiary of the Company have expressed their inability to opine on the financial statements in view of the said SAE's ability to operate as a going concern being at risk and the directors of the said SAE have highlighted the liquidity crisis. The Company had entered in to an MOU for sale of the said SAE that was subject to approvals of the bankers and the regulatory authorities, which has since been cancelled. The Company has exposure towards investment and guarantee against acquisition loan. In the previous year following principle of conservatism the Company has made a provision of Rs.11045 Lac and Rs.8829 Lac towards guarantees given for acquisition loan taken by SPV and the net exposure of the company is Rs.12000 Lac. The company is taking steps to draw up a business plan and for the revival of the company and carry out a business valuation of the same considering the strong references that the company holds in the international markets.
4. In respect of the projects undertaken by the company, in furtherance to the recommendation of the Dispute Resolution Board (DRB) and arbitration awards in the company's favour, the company has recognized income to the extent of Rs.15226 Lac including Rs.1629 Lac for the quarter which is part of Long Term trade receivable. The Company contends that such awards have reached finality for the determination of the amounts of such claims and are reasonably confident of recovery of such claims although the client has moved the court to set aside the awards. Considering the fact that the Company has received favourable awards from the DRB and the arbitration tribunal, the Management is reasonably certain that the claims will get favourable verdict from the courts. The Company had also recognised revenue of Rs.5800 Lac in respect of one of the project based on advanced negotiation and discussion with the client and is confident of realising the same, pending the final revision in contract value.
5. The Company's exposure towards Sofinter group is Rs.57503 Lac as at March 2014 including Investments and guarantees towards the acquisition loan taken by the SPV. The Company has carried out valuation of Sofinter group through an independent valuer considering business plan of all companies within the Sofinter group, order book position and economic environment where the company is operating. The carrying value is higher compared to the valuation by Rs.14832 Lac. The management is of the view that valuation carried out is based on current European scenario whereas growth option to various sub-continent in future cannot be ruled out. The management asserts that the valuation does not factor future growth when the world economies including those in Russia/CIS and USA improve and therefore considering the long term commitment of the management and its business plan, the management does not expect any provision towards diminution in the value of Investment in Sofinter. The management is of the view that the diminution in the value being the difference in the carrying value of investment over the valuation carried out by the external valuer is temporary in nature and does not require provisioning. Hence, based on valuation report and management perception for future scenario, the carrying value of investment in this group does not require any impairment.

6. The Auditor has qualified their audit report on the following matters-
- a) Their inability to opine on the adequacy of the provision towards impairment relating to investment in Franco Tosi Meccanica S.p.A. (FTM), step down subsidiary.
Management Response:
In view of the facts stated in note 2 above the final decision can be taken only after the completion of the proceeding including getting bids and the approval for the stake sale.
- b) Their inability to opine on the adequacy of provision for impairment relating to Investment and advance in SAE S.r.l. step down subsidiary of the Company.
Management Response:
In view of the facts stated in note 3 above the management feels that considering business prospects further provisions are not required.
- c) The Company's application for waiver of excess remuneration of Rs.184 Lac paid to CMD and Rs.25 Lac paid to an Executive Director during the year 2011-12 has been rejected. The Company has preferred a representation to the Ministry to reconsider its decision and reply is awaited.
