News Release

July 26, 2014

ICICI Bank Limited (NYSE: IBN) filed its annual report in Form 20-F for the year ended March 31, 2014 (FY2014) on July 25, 2014, as required by United States securities regulations. The Form 20-F annual report includes the Bank's consolidated financial statements under Indian GAAP and a reconciliation of consolidated profit after tax and net worth under Indian GAAP to net income and stockholders' equity under U.S. GAAP, approved by the Audit Committee of the Board.

The consolidated profit after tax for FY2014 under Indian GAAP was Rs. 11,041 crore (US\$ 1,840 million) and the net income under U.S. GAAP was Rs. 10,142 crore (US\$ 1,690 million). Stockholders' equity as per U.S. GAAP was Rs. 80,188 crore (US\$ 13.4 billion) at March 31, 2014 compared to the consolidated net worth as per Indian GAAP of Rs. 76,430 crore (US\$ 12.7 billion).

Pursuant to its issuance and listing of securities in the United States under registration statements filed with the SEC, ICICI Bank files annual report in Form 20-F with the SEC as required by US securities laws and regulations. These regulations require that this annual report include financial statements prepared according to a comprehensive body of accounting principles with reconciliation to generally accepted accounting principles in the United States (U.S. GAAP). When ICICI Bank first listed its securities in the United States in 2000, generally accepted accounting principles in India (Indian GAAP) were not considered a comprehensive body of accounting principles under US laws and regulations. Accordingly, ICICI Bank had included U.S. GAAP financial statements in its annual reports in Form 20-F till fiscal year ended March 31, 2005. However, pursuant to a significant expansion of Indian accounting standards, Indian GAAP constitutes a comprehensive body of accounting standards. Accordingly, from fiscal year ended March 31, 2006 onwards ICICI Bank includes in its annual report in Form 20-F, consolidated financial statements according to Indian GAAP, with a reconciliation of profit after tax and net worth to net income and stockholders' equity under U.S. GAAP and a description of significant differences between Indian GAAP and U.S. GAAP.

It may be noted that there are significant differences in the basis of accounting between U.S. GAAP and Indian GAAP primarily relating to determination of allowance for loan losses, amortization of fees and costs, accounting for securities and derivatives, accounting for securitizations, accounting for business combinations, compensation cost, deferred tax and consolidation.

Copies of the Form 20-F are available from the United States Securities and Exchange Commission (SEC) website www.sec.gov or via a direct link to the SEC website at "About Us/Investor Relations/SEC Filings" page of ICICI Bank's website:
