This Statement is the responsibility of the Company's Management and has been approved by the Board of Directors. Our responsibility is to issue a report on the Statement based on our review.
2. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity', issued by the Institute of Chartered Accountants of India. This Standard requires that we plan and perform the review to obtain moderate assurance as to whether the Statement is free of material misstatement. A review is limited primarily to inquiries of Company personnel and analytical procedures applied to financial data and thus provide less assurance than an audit. We have not performed an audit and accordingly, we do not express an audit opinion.
3. Based on our review conducted as stated above, nothing has come to our attention that causes us to believe that the accompanying Statement has not been prepared in accordance with the Accounting Standards specified under the Companies Act, 1956 (which are deemed to be applicable as per Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014) and other accounting principles generally accepted in India, and has not disclosed the information required to be disclosed in terms of Clause 41 of the Listing Agreements with the Stock Exchanges, including the manner in which it is to be disclosed, or that it contains any material misstatement.

Our opinion is not qualified in respect of this matter.

5. Further, we also report that we have traced the number of shares as well as the percentage of shareholding in respect of the aggregate amount of public shareholding and the number of shares as well as the percentage of shares pledged/encumbered and non-encumbered in respect of the aggregate amount of promoters and promoter group shareholding in terms of Clause 35 of the Listing Agreements with the Stock Exchanges and the particulars relating to investor complaints disclosed in Part II - Select Information for the Quarter and six months ended 30 September 2014 of the Statement, from the details furnished by the Registrars.

The implementation of other ongoing projects like CAL-2, Modernisation of BF-1 and Electrical steel complex at Vijayanagar and Capacity Expansion project from 3.3 MTPA to 5 MTPA at Dolvi are progressing satisfactorily, and is likely to complete as per schedule.

Outlook:

The International Monetary Fund (IMF) has revised its global economic growth estimates for CY14 downward to 3.3% amidst fresh signs of weakness in Euro Area and moderation in Japanese and Chinese growth expectations. The global economic recovery has weakened and is now hinged upon US consumption, policy support in Europe and China. Global economic moderation has affected the demand prospects for most of the commodities including metals.

Property slump and moderating industrial production in China has adversely influenced the Chinese steel demand. World Steel Association has cut CY14 Chinese steel demand growth forecast from 3% (in Apr'14) to 1% and consequently has revised global steel demand growth forecast for CY14 from 3.1% to 2%. The regional steel prices have softened mirroring continued softness in raw material prices, low demand and surging exports from China.

The Indian economy posted a moderate recovery in 1QFY15; however, improvement in overall activity levels seem to be getting right-shifted with weaker monsoon, subdued industrial growth in 2QFY15, and elevated interest rates. While medium term business sentiment remains strong, expected revival of the investment cycle now appears likely in FY16.

The Indian iron ore market has remained divergent to global trends. In contrast to declining prices in international markets, domestic iron ore prices remain sticky and elevated with constrained supply. The Indian steel industry has to consequently resort to imports as an alternate source.

Indian crude steel production increased by 2.6%QoQ during the quarter. The domestic steel industry has battled against a surge in imports, especially from China and Korea. This, coupled with a seasonal weakness and subdued economic activities resulted in country's steel consumption remain flattish, growing by 0.9% QoQ during the quarter.

Constraint of domestic iron ore availability, consistently large imports at concessional duty from Japan and Korea under CEPA-FTA, as well as rising imports of boron-added steel from China, and growing imbalance of global steel supply and demand remain major challenges for the Indian steel industry.
