

Dear Sir/Madam,

**Sub: Updated Outlook for Q4FY15 and FY15**

**Pune (India), March 16, 2014**

KPIT today updated the outlook for Q4FY15 and FY15.

The revenues for the fourth quarter of FY15 will be flat as compared to the revenue of Q3FY15 in reported USD number, mainly due to significant negative cross currency impact.

For the whole year the cross currency impact will be more than 1% of the annual revenues. Thus the revenue guidance for FY15 will be met on constant currency terms but will be proportionately lower in terms of USD reported revenue.

There will be marginal growth in the Profit after Tax (PAT) for FY15 as compared to PAT for FY14.

We remain positive about the growth prospects for FY16 and beyond.
