## Micro awarded contract for e-securing iconic educational institution in Odisha

- **Micro Technologies deploys integrated Electronic Security System & Solutions that secures over 2,000 students, staff and physical assets on campus**

Mumbai, July 8, 2013: Micro Technologies (India) Ltd, one of India's leading Electronic Security Solution company today announced that it has been awarded the contract to electronically secure the entire campus of a prestigious residential college – Kalinga Bharti College in Cuttack. The contract was won against stiff competition from leading electronic security system providers in India.

The contract has been executed in two stages; the first stage involved supply, installation and commissioning of electronic security devices across the campus and integrating it into a single software platform for monitoring purposes. The second stage involved smooth running, maintenance and up gradation of the system.

**Micro Technologies' Cuttack Implementation team with Dr Arun K Rath, Principal Kalinga Bharati Residential College**

Commenting on this initiative, **Dr. Arun K Rath, Principal, Kalinga Bharti Residential College** said, "Today security and safety of our students and staff are of utmost importance to us. Micro Tech's integrated electronic security solutions will enhance security on the campus and help us perform our academic duties in a safe environment. We found the technology, equipment and after sales service commitment of the company superior to competition, hence, we chose them."

The sprawling campus in Cuttack city with over 2,000 students enrolled, the college is a leading educational institute of Odisha. Micro Technologies have secured the campus with state-of-the-art surveillance and monitoring systems like hi-tech cameras, intrusion alarm systems, etc. that will be integrated into a single command and control room. The electronic security system will ensure 24X7 monitoring and pro-active action to prevent any untoward incident.

YOUR SECURITY IS OUR CONCERN

**Ms. Geetha V Head- Business Development, Micro Technologies** commented, "Kalinga Bharti Residential College is a renowned academic institution in Odisha and we are proud to be associated with it. We believe an integrated approach to Electronic Security Solutions is key to delivering real value to customers. We are confident this contract will open the doors to other educational institutions in the East."

Micro Technologies has given a ready to use product configured with administrative needs of the institution. Leading institutes choose the company's electronic security devices and solutions due to its innovative product range, superior quality and state-of-art technology. The company's products are certified by international and Indian government laboratories and testing centres. Micro Technologies products have the ability to seamlessly integrate the security systems into an educational institution's current SAP, ERP, Attendance and Payroll software and applications. The products operate in all weather conditions and the cost of ownership (maintenance) over the life cycle of the product is the lowest among all industry players.

The Indian homeland security market spend is poised to reach at about USD 8 billion by 2016 and Micro Technologies is ready to become a leader in the electronic security solutions (ESS) market globally.
