PetroNeft Resources Plc is listed at Dublin Stock Exchange and London Stock Exchange. The total commitment from OIL will be US\$ 85 million including US\$ 45 million for development capex. License 61 is located on the eastern side of the Ob river in the oil-bearing region of the Tomsk Oblast. The 4,991 sq. Km. license contains 7 oil fields and over 25 identified prospects and leads. The block started production in 2010. Current production from the license is around 2,100 barrels of oil per day.

OIL had earlier signed definitive agreements on 17<sup>th</sup>April, 2014, with PTR, to take 50% non-operating interest in Licence 61 in Tomsk Oblast in Russia. Subsequent to the signing of the definitive agreements, the major Conditions Precedents for successful closure of the deal, including the approval of shareholders of PetroNeft and Russian regulatory approvals were obtained. The deal was successfully closed on 3<sup>rd</sup>July, 2014.
