Industry Overview

Indian Real Estate market

India Housing demand by 2022						
Particulars	Urban (mn units)	Rural (mn units)	Total (mn units)			
Current Shortage	19	40	59			
Required units by 2022	28	23	51			
Total need	47	63	110			
Vacant houses	9	10	20			
Core Demand	37	53	90			

Quantification of urban housing needs (in terms of number of units crores)

- The current housing shortage in urban areas is estimated at 19 million units
 - Of this, about 95.6% is estimated to be from Economically Weaker Sections (EWS) and Low Income Group (LIG) households, who cannot afford houses costing
 above INR 15 lakh
- However supported by the strong growth in household income in urban areas, it is expected that income growth may push a significant number of EWS and LIG
 households into a higher category
 - By 2022, majority of demand is expected to be from LIG and MIG segments of households, constituting 50% of the total housing demand
- Even assuming the vacant houses are occupied, the total investment required would be about US\$ 2 trillion

Unmet housing demand expected to expand with house-hold savings being the largest source of financing

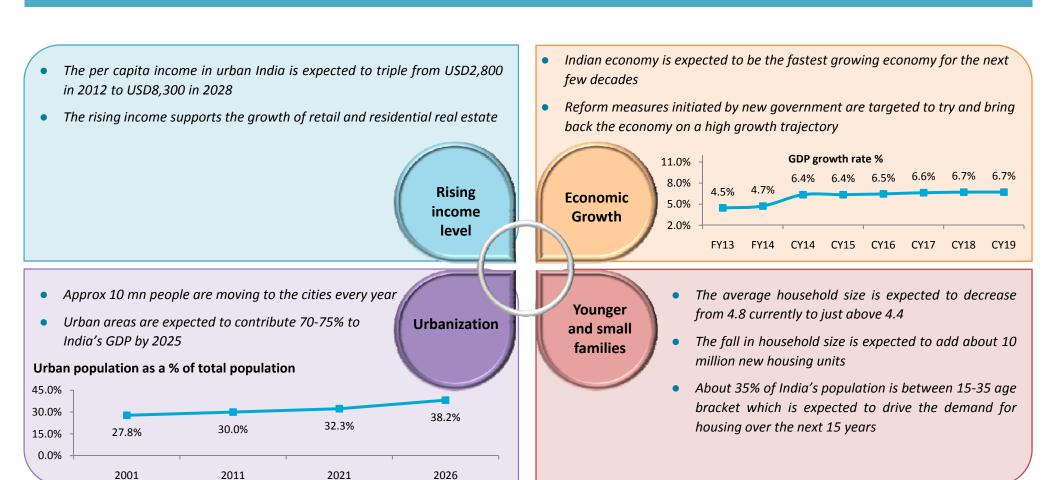

Source: Industry sources

Note: EWS – Economically Weaker Section; LIG – Low erIncome Group; MIG – Middle Income Group; HIG – High Income Group;

Drivers for growth in real estate

Drivers of the real estate sector

Source: Industry sources; Report of the Technical Group on population projections constituted by the National Commission on population- May 2006, IMF

Multiplicity of approvals and indirect taxes act as impediments for real estate developers

Approvals and indirect taxes applicable on real estate projects

Тах	% of property cost	Key Approvals	Maharashtra
Developer Agreement stamp duty	5	NA Permission/Land Conversion	3 months +
Stamp duty on purchase of property	5	Ownership Certificate	15 days
Registration	1	Building Layout Approval	1 month
Value added tax	1	Commencement Certificate	15-30 days
Service tax	2.6	Archaeological Survey of India	6 months
VAT to contractor	4	Airport Authority of India	3-4 months
Other levies such as service tax	2.6	Environment	3 months +
Excise and custom duty	15	Building Completion Certificate	30 days
Total	~35	Occupancy Certificate	60 days

Any positive change in regulatory and tax environment to facilitate processes and simplify procedure will act as an impetus to the real estate sector

Source: KPMG –Decoding Housing for all by 2022; KPMG – Funding the Vision – "Housing for all by 2022, FICCI

Government focus and policy initiatives

Focus from central government...

- The Central Government to roll out **Sardar Patel Urban Housing Mission**, which will ensure 30 million houses by 2022, mostly for the economically weaker sections and low income groups, through public-private-partnership, interest subsidy and increased flow of resources to housing sector
- An investment of about INR 50 trillion would be required over the next few years for various initiatives like :
 - Housing for All (INR 22.5 trillion)
 - urban infrastructure development (INR 16.5 trillion)
 - urban sanitation (INR 620 billion) and
 - building smart cities
- About 85 to 90% of the total investments in "Housing for All" would be required for developing urban housing, where development costs are high due to factors such as land prices, construction cost, fees, and taxes

... supported by policy initiatives already in place

FDI

- Minimum requirement of the built up area and capital conditions has been reduced from 50,000 sq.m to 20,000 sq.m and from US\$10mn to US\$ 5mn respectively with a 3 year lock in
- Housing projects that commit at least 30% of total project cost for affordable housing exempted from above rule

Fund allocation

- INR 4,000crore to National Housing Bank to provide cheaper credit for affordable housing
- Further allocation of INR 8,000crore for the year 2014–15 to expand and support rural housing

Tax

- Proposal to increase the deduction limit on account of interest on loan in respect of self occupied house property from INR 1.5 lacs to INR 2 lacs
- Proposed that the Real Estate Investment Trusts (REITs) and Infrastructure Investment Trusts (InvITs) would have pass through status for the purposes of taxation

Lending

- RBI has included "affordable housing loans" to fall under the priority sector lending
 - Housing loans of upto INR50 lacs for houses of values up to INR65 lacs located in six metropolitan centers including Mumbai
 - The revised definition of affordable housing current mortgage lending rates may reduce

Smart cities

- "Smart cities" are envisaged to consist of satellite towns of larger cities, and modernized existing midsize cities.
- Projects which commit at least 30% of the total project cost for low cost affordable housing will be exempted from minimum built up area and capitalization requirements

Affordable housing | definition

Various agencies define affordable housing differently, NAREDCO defines affordable housing as under

Categories	Typical Size of unit	Cost of house (INRmn)
Economically weaker section	Up to 300 sq. ft.	Up to INR0.5mn
Lower income group	550 - 750 sq. ft.	INR1.5mn-INR3.0mn
Middle income group	800 to 1,200 sq. ft.	INR4.0mn-INR4.5mn

We believe affordable housing should be defined after taking into account local factors

We believe affordability of housing should be defined while taking into consideration price trends in the local and nearby markets and a one-size fit all definition at a national level may not be relevant in many geographies/ micro markets

Categories	Typical Size of unit
Economically weaker section (EWS)	 Residential units, typically 1 RK apartments with an average size of less than 300 sq.ft. Carpet Area These units typically cost up to INR15.0 lacs
Lower income group (LIG)	 Residential units, typically 1 BHK apartments with an average size between 270 – 450 sq.ft. Carpet Area These units typically cost up to INR35.0 lacs
Middle income group (MIG)	 Residential units, typically 1.5 BHK, 2 BHK and 3 BHK apartments with an average size over 450 sq.ft. Carpet Area These units typically cost up to INR45.0 lacs
Value Segment	Projects which provide relatively lower priced residential units within city limits

About Poddar Developers Limited (PDL)

Company Overview

Overview and history of the Company

- We have over 6 years of experience in development of real estate focusing on affordable and value housing in and around Mumbai and are one of the leading companies in this category
- As of December 31, 2014, we have completed development of 3 projects totaling 1.05 million sq.ft. in Saleable Area, with 4 ongoing projects of 1.18 million sq.ft, and pipeline of 7 projects expected to translate into 7.22 million sq.ft. in Saleable Area
- We operate across EWS, LIG, MIG and Value segments with our key strength being our ability to identify and balance the budget constraints and aspirations of our endusers across our focus geography of Mumbai and nearby areas
- Land forms an integral part of our business and we follow a balanced approach for securing land bank through a combination of owned land, joint development and JVs
- PDL is listed on BSE (Scrip code: 523628)

Note: Net Debt = Total Debt - Cash & cash equivalents; Net current Assets - Total current assets (excluding cash & cash equivalents) - Total current liabilities (excluding short term debt and current maturities of long term debt)

Our key strengths and differentiators

Understanding the requirements of endusers and design a project to fulfill them

- Experienced and dedicated management team
- 7 Strong brand and reputation
 - 6 Low leverage and conservative liquidity management

Strong presence in Mumbai and its nearby areas

2

Experience in land acquisition & growth through JDAs

3

Proven execution and project management skills

4

Strong project pipeline providing near term cash flow visibility

5

Understanding customer needs

Affordability

 Lay-out options starting from 1RK with Carpet Area of <300 sq.ft. which enables us to offer residential units under INR15.00 lacs

- Focus on areas within 100kms of Mumbai city
- Site selection guided by connectivity especially distance from Mumbai local train network
- In certain projects we also offer regular shuttle service to nearest local railway station

-HOUSING-

 Our flats across various projects offer a combination of in-flat amenities such as concealed electrical wiring, plumbing, instant geysers etc.

Aspirations

 External amenities include wide range of amenities such as children's play area, school, amenity hall, etc

- Project approvals from multiple banks and financial institutions catering to diverse needs of our customers
- If requested, we introduce our customers to such banks/ financial institutions

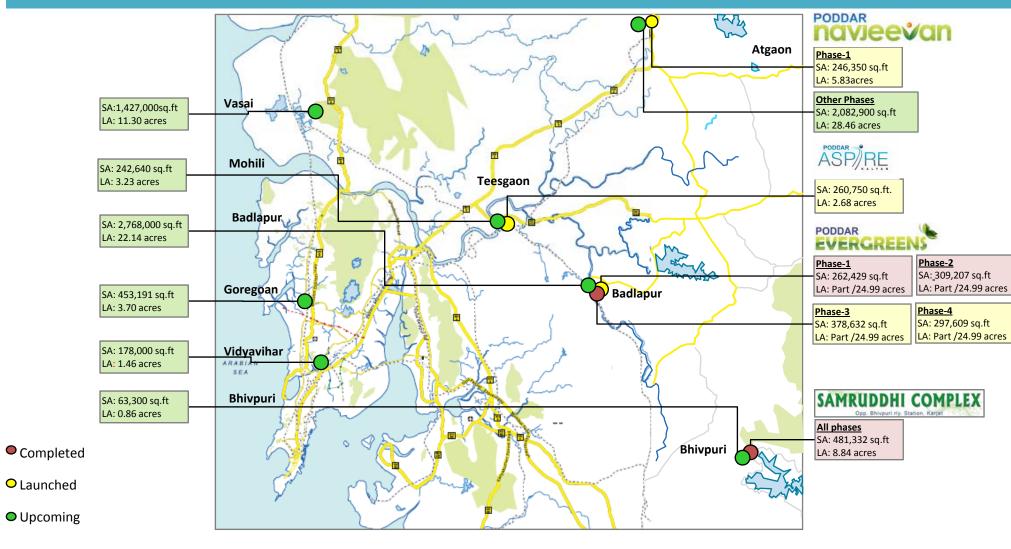

We have an in-depth understanding of what our customers look for in a residential unit

Strong presence in Mumbai and its nearby areas

Over the last 6 years we have built a pipeline of projects across multiple areas in and around Mumbai

Note: Figures on saleable area and economic interest for Vidyavihar are tentative

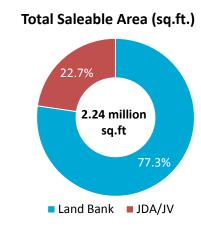

Proven experience in land acquisition & growth through JDAs

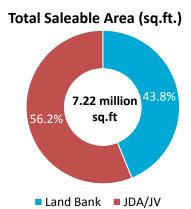

Completed and on-going projects

Project Name	Business model	Land Cost/per saleable sq.ft	% Economic interest
Samruddhi Complex	Ownership	63.51	100.00%
Poddar Evergreens- Phase I	Ownership	86.92	100.00%
Poddar Evergreens- Phase II	Ownership	86.87	100.00%

Project Brief & Location map

- Strategically located on main Karjat Kalyan Highway, 95 kms from Mumbai via Shedung exit on Mumbai-Pune Express way
- Distance from Neral is 6kms and Karjat is 5 kms
- Proposed airport at Navi Mumbai just 40 kms away, Less than 1 km from Bhivpuri station of Central Railway local lines

Project snapshot	
Land Area	8.84 acres
Saleable Area/Carpet Area (sq.ft.)	481,332 / 351,655
Launch Date/Completion date	April 2010/April 2014
No. of Residential Blocks/Units	79 Blocks, 1,264 Apartments
Type of Units	G+3 (1RK & 1BHK)
Commercial space	1 block, 45 shops
Construction Status	100% Complete
% Area Sold	98%, (29 shops unsold)
Status	Handed over to Customers, OC Received

Specifications & Amenities

- Well designed earthquake proof RCC Construction
- Sufficient drinking water supply
- Sanctioned separate water and electric connections for project
- 7,500 sq.ft. Amenity hall /Indoor games hall/Community Hall
- Low maintenance cost
- Shopping Arcade at entrance
- 24/7 security & facility management
