Limited Review Report on the Unaudited Standalone Financial Results for the quarter / half year ended on September 30, 2013

To the Board of Directors **Prism Cement Limited**

- 1. We have reviewed the accompanying statement of unaudited standalone financial results of **Prism**Cement Limited (the Company) for the quarter / half year ended on September 30, 2013 except for the disclosures regarding 'Public Shareholding' and 'Promoter and Promoter Group Shareholding' which have been traced from disclosures made by the management to stock exchanges and have not been reviewed by us. This statement is the responsibility of the Company's Management and has been approved by the Board of Directors. Our responsibility is to issue a report on these financial statements based on our review.
- 2. We conducted our review in accordance with the Standard on Review Engagement (SRE) 2410, 'Review of Interim Financial Information performed by the Independent Auditor' of the Entity issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provide less assurance than an audit. We have not performed an audit and accordingly, we do not express an audit opinion.
- 3. Based on our review conducted as above, nothing has come to our notice that causes us to believe that the accompanying statement of unaudited standalone financial results prepared in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 which as per a clarification issued by the Ministry of Corporate Affairs continue to apply under section 133 of the Companies Act, 2013 and other recognised accounting practices and policies has not disclosed the information required to be disclosed in terms of Clause 41 of the Listing Agreement including the manner in which it is to be disclosed, or that it contains any material misstatement.

Performance Review and key developments

During the quarter ended September 30, 2013, the Company produced 7.36 lac tons of clinker and 10.89 lac tons of cement. During the same period, the Company despatched 10.98 lac tons of cement and 0.73 lac tons of clinker. In the corresponding period last year, the Company had despatched 9.31 lac tons of cement.

Sluggish demand from the housing and infrastructure segments continued to impact cement volumes and realisations during the Quarter.

The new Blending Silo at Unit II, Satna has become operational during the Quarter.

During the current quarter and half year ended September 30, 2013, expenditure of ₹ 18.70 crores (corresponding previous quarter and half year ₹ 19.67 crores) has been incurred on account of annual shutdown in one of the cement units of the Company.

H & R Johnson (India) (HRJ) Division operates in the TBK (Tile Bath Kitchen) Segment. The Division's sales revenues during the Quarter were ₹ 452 Crores, thereby growing by 5% when compared to the corresponding Quarter last year. The Division's profitability was adversely impacted during the Quarter on account of higher fuel and raw material costs when compared to the corresponding period last year. The Division continued to implement the cost-savings projects. The coal gassifier at one of AP Plants has been commissioned during the Ouarter and another coal gassifier in the other AP Plant is expected to be commissioned in Q3, FY 14. Company's AP plants have also started receiving Natural Gas from the allocated wells which would partially meet the fuel requirements of the plants thereby reducing the overall fuel costs. GAIL pipe-line work is in progress and is expected to be set-up during FY 2014. These initiatives would help in reducing the fuel cost of the Division. The Division's Business Process Re-engineering (BPR) project is also under implementation to significantly improve customer service, modernize sales & distribution policies, and reduce operational costs.

In order to further strengthen Johnson's brand equity, the Division has rolled out the new TV campaign featuring Katrina Kaif. The Division shall continue the brand promotion activities during the year.

The Company's wholly-owned foreign subsidiary, Lifestyle Investments Pvt. Limited (LIPL), has sold its stake in Norcros Plc, a company listed on the London Stock Exchange. The Company received an amount of ₹ 125 crores as dividend on the equity shares held in LIPL during the Quarter.

The Quarter under review continued to be challenging for RMC Readymix (India) (RMC) Division. The sales turnover of the Division remained constant on y-o-y basis. However, the profitability of the Division was under pressure due to lower capacity utilization and increase in costs, especially fuel.

Expansions

Mine development activities for the cement plant at Kurnool District, Andhra Pradesh are in progress. Project activities will be taken up at an appropriate time.

The basic infrastructure work and work on the incline is under progress at the Coal Block at Chhindwara, Madhya Pradesh. The construction of the ancillary buildings such as workshop, substation, etc., is nearing completion. The mined coal will be used for captive consumption of the cement plant located at Satna, Madhya Pradesh.

During the quarter, the number of plants operated by the RMC Division increased by four and two plants were demobilized, taking the total number of RMC Plants in operation to ninety.

Industry Scenario / Future Outlook

Cement prices are expected to improve during the balance period of the financial year in anticipation of a revival in demand on the back of a good monsoon and approvals for major infrastructure projects.

Bulk of H & R Johnson (India)'s products are targeted towards affordable housing segment which is growing at a healthy rate and is likely to continue in future as well due to India's economic growth and changing demographics. Moreover, HRJ also has a slew of lifestyle products at premium price points. The robust distribution network, strong brand equity, wide-spread manufacturing locations, and a comprehensive product portfolio of tiles, baths, and kitchens enable HRJ to enjoy a distinct competitive advantage over others in the market.

The Ready-mixed Concrete Industry in India is over 15 years old and was growing at a healthy rate over the last few years. However, due to the prevailing economic environment, the volume growth for the industry in the last few quarters has been under pressure. The markets in some of the metros are expected to see a turnaround shortly as Development permissions are being given at a greater pace. With the Mega Projects Vertical, RMC Division is focusing on infrastructure segment as well. The markets in 2-tier & 3-tier cities have also been showing maturity which will help the industry's growth.
