### Siemens wins order worth Rs. 317 crores from Bihar Grid Company Ltd.

- **Siemens will be installing the first 220kV GIS substation in Bihar.**
- **Order involves setting up of 220kV and 132kV GIS substations on a turnkey basis.**

Siemens Ltd. said it recently won an order worth approximately Rs. 317 crores from Bihar Grid Company Ltd., a joint venture between Bihar State Power Holding Company Ltd. and Power Grid Corporation of India Ltd. This is Siemens' first GIS substation order from BGCL and also marks the establishment of the first 220 kV GIS in the state of Bihar.

Bihar Grid Company Ltd. was formed by the Bihar Government in a joint venture with PGCIL, for strengthening and augmenting the transmission system in the State. It is expected that more than 6000 MW electricity will be available to the state from different sources by 2017. The state-wide transmission of this bulk power will require construction of new transmission grids, sub-stations and transmission lines of 400/220/132 kV levels.

Proper handling and transmission of bulk power is important for state utilities to maintain a stable and assured supply of power, which is crucial for attracting industrial investments. Siemens' cost-effective solutions for transmission and distribution of bulk power such as Gas Insulated Switchgear provide a trouble free and reliable service to state utilities.

Siemens is a technology powerhouse that has stood for engineering excellence, innovation, quality and reliability. The company focuses on the areas of electrification, automation and digitalization. It is one of the leading producers of energy-efficient, resource-saving technologies; combined cycle turbines for power generation; and power transmission solutions. Siemens is a pioneer in infrastructure solutions and automation and software solutions for industry. The company is also a leading supplier of medical imaging equipment – such as computed tomography and magnetic resonance imaging systems – and a leader in laboratory diagnostics as well as clinical IT. At the end of September 2014, Siemens India had around 18,500 employees, 23 manufacturing plants and a nation-wide sales and service network. Siemens Limited, in which Siemens AG holds 75% of the capital, is the flagship listed company of Siemens AG in India.
