There was however a significant change of market conditions and sharp change incustomer preferences which led to a drop in the demand of the product over a period of time resulting in the Company incurring losses, as well as the need for significant investments in the future, due to which reason a decision had to taken to divest the holding in RBC, after conducting necessary market research to establish the above.

- d) Mr. Huq said that the yield at Glenlorna Estate was the best in relative terms., He explained that the expected yield levels of tea could not be achieved at Annamalai's due to dry weather and prolonged drought conditions coupled with lack of irrigation facilities due to rigid government restriction on drawing of water from the streams for irrigation, shade regulation etc. He informed that the Company has initiated action to replace the poor yielding varieties in a phased manner and the young plants are establishing well, which should improve the yields in the coming years.
- e) As regards low yields at Jumboor Estate, he explained that this was due to an attack of White Stem Borer and said that the Company has taken up large scale replanting of borer affected plants and the young plants are coming up well, which should improve the yields. He also added that due to unprecedented drought in the last 2 years, there has been severe infestation of White Stem Borer and the Company has taken all measures to control this pest including taking assistance from Tata Chemicals, Rallis India Ltd and also Indian Institute of Science. Similar efforts are being taken in the Valparai Estate to improve yields.

However, the Company has been extending all possible assistance including substantial financial contributions in the past. He assured the meeting that the Company would look into the requirements of this hospital and endeavour do the needful.

- ii. As regards uneven production pattern of Coffee and Pepper observed by Mr. Sharad Shah, Mr. Huq informed that the production of these crops is cyclical in nature.
