TECHNOFAB ENGINEERING LIMITED

Dt: 17 Feb 2015

Information Update

The Board of Directors of Technofab Engineering have approved the financial results after limited review by Statutory Auditors, of the quarter ending 31 December 2014.

The Turnover (standalone) during the quarter was Rs 113.7 Crores. This is 37% more than the turnover during the corresponding quarter of the previous year and 24% more than the immediately preceding quarter.

The cumulative turnover for the 9 months ending 31 December 2014 was Rs 295.6 Crores which was 23% higher than the corresponding period of the previous fiscal.

The pre tax profit at Rs 3.13 Crores for the quarter and Rs 6.81 Crores for the 9 month period was significantly higher than the corresponding figures of the previous years (more so when other income is excluded). The same holds good for profit after tax which was Rs 2.08 Crores for the quarter and Rs 4.70 Crores for the 9 months period.

Work on the Liberian project continues to be suspended on account of the Ebola epidemic. The situation on the ground having considerably improved, the Company is hopeful that work can be resumed within the current quarter.

There continues to be pressure on out standings as retentions increase on ongoing projects and old out standings are not getting cleared due to last stages of several domestic projects being stuck for reasons well publicised.

There is still no visible improvement in the business environment, despite an upturn in sentiment in the second half of the last calendar year. Hopefully success of the ongoing coal mines auctioning process and the forthcoming budget will translate into a major improvement in the position on the ground.

The Company continues to actively look for business opportunities both domestically and overseas in sub Saharan Africa. At this time most of the domestic opportunities are in the Electrical sector. Keeping in mind the domestic market developments, the Company has begun to bid for Railway projects. The Company's business strategy of diversifying its market in terms of sectors and geographies continues to yield results. Since the last update Company has secured new orders worth Rs 330 Crores.

Additional information is enclosed.

An investors concall is planned to be organised on Friday 20 Feb 2015 at 4:30 pm.
